

## **A Killer 4921**

Chapter 4921: : Enlightenment of miracles (8)

Everything is going well.

However, he always thought about when the power of God would fall, but Li Tian felt that it was extremely hard for him to climb.

The legs seem to be filled with lead, physically and mentally exhausted.

When reaching more than nine hundred steps, Li Tian couldn't help slowing down!

It feels like you know that there is a sharp knife in front of you, but you still hit the sharp knife resolutely.

The only difference is that Li Tian cannot see this sharp knife.

The unknown is more fearful!

Li Tian felt that his muscle cells were beating all over his body, and along with it, that rich spiritual power was absorbed by Li Tian faster and faster!

This feeling is painful and happy!

Behind Li Tian, Situ Ningbing and the other three were not feeling well at this time.

The three women did not support each other, but they walked side by side, their movements and steps were quite uniform.

But unknowingly, the breathing of these three people has been quickened.

The more so, the more tired I feel.

And this is only the first 1000 steps.

Shrinking the head is also a knife, and stretching the head is also a knife!

Now that it has been decided, there is no reason to back down.

Li Tian kept hinting himself in his heart, unknowingly, Li Tian finally reached the 999th step!

boom!

Li Tian felt a huge force explode in his body.

Although his body skin was still intact, Li Tian suddenly fell to the ground, his body curled up, his facial muscles twisted together in pain.

"Lee..."

"Li Tian..."

The three women couldn't help shouting when Li Tian fell to the ground.

"Don't worry about me, you...you be careful..."

Li Tian gritted his teeth, his hands were claw-shaped, clinging to the steps, and slowly crawling upward.

Don't shrink back, go forward courageously.

Even if it is climbing, Li Tian must climb to the top of the miraculous mountain.

"Crazy! All crazy!"

"If you die here, everything will be over!"

"Damn it, the set fire meteor bow is still in Li Tian's hands!"

The beast boy watched Li Tian fall to the ground, and kept wandering in place, making various unpleasant sounds in his mouth.

It wasn't that the beast boy was cursing or hoping that Li Tian had something wrong, he just vented his worries in this way.

Now the Beast Boy and Li Tian are allies, and the Beast Boy hopes that Li Tian can have the power to open up the world, so that they don't need to \*\*\*\* the artifact at all, and the Beast Boy can leave this damned place.

"Come on! Li Tian, this is the path you chose, you must hold onto it!"

The beast boy did not dare to look at Li Tian, closing his eyes as if praying.

Li Tian is in pain!

This kind of pain has surpassed \*\*, it is more spiritual pain!

Li Tian felt as if this divine might was still torturing his nerves and his soul.

The only thing that made Li Tian feel happy was that after starting to climb the ninth ladder, Hong Zhan in his atrium seemed to have calmed down, floating motionless in Li Tian's atrium.

Li Tian didn't stop, supporting his body with difficulty with his arms, crawling up slowly!

Behind them, Situ Ningbing, Ye Meijing, and Liu Jimeng made a scream at the same time, and they stepped onto the 999th step at the same time.

Puff!

Puff!

Puff!

The three women fell to the ground one after another.

At the moment they fell to the ground, the three women stretched out their hands to hold each other.

This allows the three of them to support each other without rolling down the steps!

The physical endurance of the three women is obviously much weaker than that of Li Tian, Situ Ningbing is still insisting, Liu Jimeng is still insisting, but Ye Meijing has fainted!

If Situ Ning hadn't dragged Ye Meijing stubbornly, at this time Ye Meijing would have rolled down like that powerful foreigner.

"Ye Meijing, you wake me up!"

Situ Ningbing was in pain, but she firmly grasped Ye Meijing's arm and shouted at Ye Meijing.

"Sister Ningbing? We...what shall we do?"

With the intense pain, coupled with the fainting Ye Meijing, it was already extremely difficult for them to continue climbing like Li Tian.

"Ningbing...Leave Ye Meijing on the steps and let her overcome the pressure by herself. If she can't do it... let her go back and practice on the eighth ladder!" Li Tianqiang endured the pain and turned around. He came and shouted to Situ Ningbing behind him.

It was not that Li Tian wanted to give up Ye Jingjing, but on the steps of this miraculous mountain, no one could help others.

Unless you choose to give up, then everyone gives up together!

Perhaps after hearing Li Tian's call, Ye Meijing slowly regained consciousness when Situ Ningbing let go.

"Let go...I can do it myself!" Ye Meijing said in a weak voice.

Situ Ningbing and Liu Jimeng showed a smile on their faces at the same time.

"it is good!"

"Together we will!"

The three women persisted and continued to climb.

At this time, the power bursting from their bodies made the strong foreigner who woke up on the eighth ladder feel ashamed.

The same person is also a cultivator, why is there such a big difference between anyone?

It's actually very easy to understand.

For ordinary people, many people's IQ and EQ are almost the same, and family resources are also not much different.

However, there will always be a small group of people who will stand out, and the final achievements will be much higher than the others.

Because of the strong people who can succeed, they possess some excellent qualities: tenacity, bravery, strong...

Regardless of the delicate bodies of these three women, but they have experienced countless lives and deaths. Under the infection of Li Tian, their mental endurance is higher than that of the foreigner.

Seeing the three female generals climbed the 1000th step without any risk, Li Tian showed a gratifying smile on his face.

There are nearly 9,000 steps, but Li Tian no longer has any fear in his heart.

Trembling, Li Tian slowly stood up, his eyes like torches, firmly upward.

1998...

2997...

3996...

...

6993

7992

8991

9990

I don't know how long it took.

Three months?

Six months?

Still a year?

Even longer!

Before Li Tian's people, there are the last 10 steps left!

The bones of the dragon are right in front of you!

The spiritual power here can no longer be described as rich, it feels like it is sticky.

The divine power released from the dragon's body has become substantial, like a thread, which can be touched by reaching out.

Li Tian, Situ Ningbing, Liu Jimeng, and Ye Meijing were not left behind.

At this time, the clothes on their bodies were worn out, and there were many calluses on their bodies, but their eyes were like flames, and everyone's faces were filled with excited smiles.

"we....."

"we....."

"Finally come up!"

Chapter 4922: : Enlightenment of miracles (9)

Li Tian walked slowly on the last ten steps.

He could no longer feel the existence of divine power, or after climbing and adapting for so long, Li Tian was already numb to divine power.

10.....9.....8.....

The last ten steps were counted down. With each step, Li Tian felt that part of the cocoon on his body would automatically fall off, and the clothes on his body would drift away.

3.....2.....1.....

When Li Tian finally stepped on the ninth ladder platform with his left foot, all his clothes had completely disappeared, and a layer of dead skin cocoon was left on the steps Li Tian walked.

Li Tian lifted his right foot, and he finally stood on the ninth ladder!

boom!

Li Tian only felt that all the hairs of his body flew straight up in an instant, as if Li Tian touched the electrostatic ball in the science and technology museum, and the thick and strong spiritual power around Li Tian's body began to go crazy. The earth poured into Li Tian's body, transformed Li Tian's body, madly poured into Li Tian's veins, and transformed Li Tian's body veins.

In just an instant, Li Tian felt that his cultivation base began to improve rapidly!

That's right, just climbing to the top of the miraculous mountain, and has not yet begun to comprehend the miracles, Li Tian's cultivation realm has begun to improve.

Of course, in fact, the process of climbing the miraculous mountain is cultivation, but at that time Li Tian and others focused on climbing, and did not notice the subtle transformation of Li Tian's body by the divine power.

The seventh-level peak of the domain master realm...

At the beginning of the eighth level of the domain master realm...

The mid-level eighth level of the domain master...

At the beginning of the ninth level of the domain master realm...

The ninth level of the domain master realm! ! !

Li Tian's pupils dilated involuntarily!

The joy in my heart wants to fly.

Another continuous breakthrough!

It has been at least nearly three years since entering the metal world, and Li Tian's cultivation realm finally reached the ninth level of the domain master realm!

At last there was only a thin line from the super domain master level cultivation realm!

Li Tian believes that as long as he stays on a god-level mountain to comprehend miracles, and does not ask for insight, but asks for comprehension and can realize a little clue, his cultivation realm can definitely reach the super domain master realm!

The breakthrough in the realm of cultivation alone made Li Tian feel that all his efforts in the past were worth it.

But to Li Tian's surprise, the spiritual power that contained divine might actually broke through the vein that blocked him from leading to the atrium.

boom!

After enduring it for a long time, Hong Zhan, who had been swallowed and refined to the half-god realm and half of his cultivation base, finally showed his fangs. The red Zhan began to change in Li Tian's heart, and the red lines and half of the spiritual power opened in the vein. The moment rushed out frantically, wanting to occupy Li Tian's veins, occupy Li Tian's body, and control Li Tian under Red Slash!

However, the red line spiritual power released by Hong Zhan just touched the spiritual power that Li Tian absorbed from the top of the miraculous mountain, and was instantly dissipated by the impact of the smoke, and the winner was judged!

Then, a steady stream of spiritual power has rushed into Li Tian's heart, surrounding the spiritual power group that had been polluted by the demon energy released by Hong Zhan, trapped in his atrium, without a trace of pride entering Li Tian's body veins.

Click!

At this moment, the beast crystal of the white light old man's demigod realm shattered instantly.  
boom!

It was as if a nuclear explosion had occurred in Li Tian's heart. All of his spiritual power was instantly ignited and began to burn wildly.

The water spiritual power that Li Tian cultivated began to burn.

The black fire from the blood spirit source began to burn.

The demon spirit power released by Hong Zhan began to burn.

The top of the miraculous mountain just absorbed the included spiritual power and started to burn!

In the atrium, the black fire in the sky dissipated.

In the atrium, the rippling lake with blue waves was dried by the fire.

In the atrium, the small island that Li Tian absorbed the material elder's weapon transformed into can collapse.

Only Hong Zhan will live forever in the fire!

However, at this time, Hong Zhan's blade also began to twist, and various strange flame patterns flashed across the blade.

Boom!

Boom!

The world in Li Tian's heart began to collapse at this moment, completely collapsed without Li Tian's control!

"I... I fuck... Do you want my heart and Hong Zhan to die together?" Li Tian was a little surprised.

Hong Zhanjiu occupied the magpie's nest, wanted to occupy Li Tian's heart, and wanted to control Li Tian, which really made Li Tian unhappy.

But... Li Tian didn't even think about ruining his atrium world. After all, this is self-destructing the Great Wall.

If the atrium is destroyed and the spiritual power in all the atria dissipates, how will Li Tian pretend to be forced from now on, and how can he leapfrog and kill happily?

However, this is no longer under Li Tian's control. More importantly, those rich spiritual powers are also being used in Li Tian's body uncontrollably at this time. Li Tian also cannot refuse or stop it.

Situ Ningbing, Ye Meijing, and Liu Jimeng successively climbed the ninth ladder and began to enjoy the benefits of those who can climb to the top.

Situ Ningbing was absorbing and refining the spiritual power here, and she was breaking through.

Ye Meijing is absorbing and refining the spiritual power here, and she is also breaking through.

Liu Jimeng was absorbing and refining the spiritual power here, and she was still breaking through.

boom!

boom!

boom!

It's a refreshing picture.

"Breakthrough!"

"We finally broke through again!"

The clothes on the three female generals have long been wiped out, all the cocoons on their bodies have receded, and their body skin has been reborn.

Even the vital parts of the body have become matte as new.

Gee...

Who said that there will be a counter-attack day in \*\*silk, when the fungus has not returned to fans?

That's because they didn't come to the top of this miraculous mountain, didn't... ahem, a little off topic.

But this is not the point. The point is that the bodies of the three female generals were transformed by spiritual power, their body lines were transformed by spiritual power, and even their appearance was transformed by this spiritual power. They regained their brilliance again, one by one, like gods, and their cultivation bases Immediately after Li Tian, he broke through several levels in a row and reached the ninth level of the domain master realm at the same time!

call!

The changes in the three female generals gradually weakened, and no matter how strong the spiritual power around the body was, it could not be absorbed in a short time.

Slowly, the three goddesses opened their eyes and felt the changes in their bodies.

However, as soon as they opened their eyes, the three goddesses immediately realized that they were naked at this time.

Situ Ningbing quickly took out a few sets of clothes suitable for the three goddesses from the space ring, and hurriedly put them on.

Look at Li Tian...

"This guy has no shame. He is standing here naked, and he is not afraid of blasphemy!" Liu Jimeng said shyly.

Ye Meijing echoed, if it weren't for the strong spiritual power wrapped around Li Tian's body, this guy must have been happy, but even so, Ye Meijing's cheeks flashed crimson.

Only Situ Ningbing seemed to realize that Li Tian seemed a little different from them now.

"No, Li climbed to the ninth ladder ahead of us, but why is he still absorbing spiritual power? Give me peace, don't disturb him, let Li continue to practice!"

Chapter 4923: : Enlightenment of miracles (10)

Li Tian did not expect that he would encounter such a sad incident.

The level of cultivation is improved, and the spiritual power with supernatural power seems to be helping Li Tian refine the red cut, but the final result is that the white light old man's demigod crystal exploded, and the atrium was almost destroyed, and the explosion formed a small vortex and began to swallow frantically. With the spiritual power and flames that have long been shattered.

It is precisely because of this that Li Tian will continue to absorb spiritual power.

Fortunately, he is on the top of the miracle with rich spiritual power, so that he has inexhaustible spiritual power to absorb.

However, the disadvantage of this is that after all spiritual energy enters Li Tian's body veins, it will be quickly absorbed into the atrium. Because Li Tian's body veins are constantly washed away by many spiritual powers, the painful feeling seems to be at any time. It can catch fire, and Li Tian's skin pores are constantly changing, making his body smooth and white. After a few seconds, his skin becomes rough.

However, fortunately, the appearance of a man is not important, the cultivation level is more important.

Inability to resist Li Tian will not let the flow go. How could Li Tian miss this opportunity to fall into the stone.

Li Tian controlled his spiritual power, wrapped around Hong Zhan, and wanted to refine Hong Zhan as soon as possible.

Li Tian could feel that the sword spirit in Hong Zhan hated this kind of spiritual power, and repelled it very much.

This is probably because these spiritual powers contain some kind of miraculous power on the mountain. Li Tian believes that if such spiritual powers are used to persevere in refining, they will definitely be able to treat the evil spirits in Hongzhan like this. The sword spirit is refined, but this kind of thing is obviously not done in a short while.

This is a natural process.

But... how can this be?

"Haha, the more \*\*\*\* you are, the more I will use this spiritual power to refine you. Even if I can't refine you now, you are always disgusting and disgusting!"

Li Tian is so cheap, who told Hong Zhan to be unkind at first!

as long as you try very hard, you can achieve anything.

Disgusting is fine, anyway, Li Tian can do two things with one heart, and it won't affect his miracles.

I don't know how long it took, the vortex's ability to devour spiritual power gradually weakened, and the atrium gradually calmed down.

In the world of the atrium, it seems that it has been destroyed by the world, and it is completely invisible.

If the former atrium was the beautiful scenery of the south of the Yangtze River, Li Tian's atrium is now the desolate Gobi Desert.

desolate!

It looks desperate!

your sister!

Although Hong Zhan's demon nature has been controlled, the price is too high, right?

Li Tian is really desperate!

You must know the spiritual power in that atrium, but Li Tian practiced "Blue Clouds" to refine the blood spiritual source, and after several encounters, this result was achieved, but now... it is completely destroyed!

"En? What is this?"

Li Tian suddenly noticed that there was a black ball the size of a little finger in his heart.

The ball was suspended in mid-air, motionless.

As Li Tian's mind moved, the bead began to spin slightly.

"This... this thing is controlled by my mind?"

Li Tian felt the surprise, and he released another strand of divine consciousness, like a strand of divine consciousness entering the black bead!

boom!

Li Tian's divine consciousness suddenly came to a vast space, in this space, there are surging spiritual powers everywhere.

"This...this bead actually absorbed all the spiritual power in my heart, the remaining spiritual power of the white light old man's demi-god crystal, and all the spiritual power I had absorbed on the top of the miraculous mountain just now. Now! This... the spiritual power contained in it now is probably close to the spiritual power needed by the powerhouse of the demigod realm, right?"

Li Tian's consciousness retreated, and he was completely shocked.

More importantly, the spiritual power in this round bead, almost every thread, every thread contains divine might.

In other words, before Li Tian began to comprehend the miracle, he already had divine power.

Or... Although this round bead can now be controlled by Li Tian's mind, Li Tian cannot release any spiritual power.

This is really a sad story!

but.....

"Hahaha!"

Li Tian is still very happy.

It's as if you suddenly know that you have a huge deposit in a Swiss bank, but the deposit is temporarily frozen and requires you to complete certain tasks before the deposit can be unfrozen.

Although you still can't get the money, but you are also an out-and-out rich man?

"Tsk tusk, it seems that Li Tian is the rhythm of becoming a god!"

Li Tian suddenly forgot the joy of the destruction of his atrium world, and he couldn't wait to jump up and down immediately.

If Li Tian guessed correctly, this bead was formed by the whirlpool that swallowed spiritual power just now.

The only sad thing is that the whirlpool swallowing spiritual power was too crazy just now, and the spiritual power in Li Tian's body veins was swallowed clean again.

However, this doesn't matter anymore.

There were no beast crystals or crystals above the demigod level in the atrium, and Hong Zhan could not change into a red wing divine outfit. It seemed that Li Tian's strength seemed to be weakened, but Li Tian was not a pity.

Without demi-god-level beast crystals or crystals, this red cut is an ordinary magic weapon, and at best, it is the super domain master-level realm.

It is impossible to control Li Tian.

Sooner or later, Li Tian will refine the demon nature of the sword spirit of Hong Zhan, and then add this black round bead, Li Tian can really control the red wing divine outfit.

"After waiting for a long time, I finally waited until today. I have been waiting for a long time to finally realize the dream... We people, I am so happy today... Hahaha"

Li Tian couldn't help laughing out loud.

However, they found that Situ Ningbing, Liu Jimeng, and Ye Meijing were all looking at him in astonishment.

Also, if it hadn't been for the top of the miraculous mountain, and there was no one else around except the four of them, then the naked Li Tian would have been beaten as a pervert.

Li Tian also realized his indecentness now, but unfortunately... all his clothes were in the space of Void Yasha, and in the space ring there were only a few clothes that were snatched from other powerful foreigners.

This is Li Tian's fine tradition when he was on the battlefield of death. He did not expect to see the metal world, and Li Tian once again brought this fine tradition into play.

It's just that these clothes are worn by strong foreigners, no matter their body shape or appearance, they are not suitable for Li Tian at all.

There is no way, as long as you can cover your shame, it is better than naked sex.

Finally, the women's clothes in the ring of Situ Ningbing and others?

Haha, forget it!

"Li, you have devoured your cultivation for so long, why your cultivation level is the same as ours, the ninth-level peak of the domain master? And it looks like you are very weak now, what happened?" Situ Ningbing asked Tao.

Li Tian roughly explained it again.

Knowing that Li Tian was now temporarily free from the control of the Red Demon Blade, several women gave Li Tian a sweet kiss to celebrate.

"Come on, you can finally formally understand the miracle!"

Chapter 4924: :The Great Dragon (1)

In front of Li Tian and others is the top of the miraculous mountain, and the bones of the giant dragon are coiled on the top of the miraculous mountain.

Beyond the white bones, the cyan spiritual power converges to become the body of this giant dragon, and the proximity gives people a strong sense of oppression!

When they first climbed the ninth ladder, Li Tian and others seemed to have just entered Baoshan, and they were all cultivating frantically in order to quickly improve their cultivation base. Now, everyone's cultivation level has improved significantly. Only then have time to sit down and see the true face of this giant dragon.

Dragon head!

I don't know if it is a coincidence or luck, Li Tian and others are the dragon head in front!

Standing in front of the dragon head, surrounded by rich white spiritual power, the dragon head formed by the green spiritual power is still very clear in front of Li Tian and others.

Li Tian and others can clearly see the dragon's whiskers, scales, and eyes of the blue dragon formed by this blue spiritual power. Of course, Li Tian and others can clearly feel the dragon power on this blue dragon!

However, this blue dragon of spiritual power is completely different from the blue dragon that Li Tian knows about!

You know Li Tian is not a man who has never seen Qinglong.

At the beginning, the reason why he was able to display the unicorn arm...

No, it was the arm of the blue dragon, that was because there was a blue dragon in his arm, but the blue dragon unfortunately died later in the battle.

Compared to the size of the blue dragon in front of him, Li Tian felt that the blue dragon he had before was a little snake...

No, not even the little snake, it's just a little bug at best.

The length of the blue dragon in front of him, just a white bone, far exceeds the overall length of the blue dragon Li Tian had before.

just.....

"Li, have you noticed that this dragon seems to be quite different from the blue dragon in our China World Mythology?"

Li Tian nodded slightly.

He can feel it too, but if you really want to tell the difference, you will find that you really can't tell.

There are many types of dragons in the legend. The common characteristics are long body, prominent eyes, long beards around the mouth, five claws (four claws are pythons), large scales, strong fishy smell, and the sound like a cow. There is also one of them. The image of a dragon is characterized by nine appearances: its horns resemble a deer, its head resembles a cow, its mouth resembles a donkey, its eyes resemble rabbits, its ears resemble fish, its scales resemble fish, its whiskers resemble humans, its belly resembles a snake, and its feet resemble a phoenix.

The Qinglong in front of him, these important parts seemed exactly the same.

If you look at it from the appearance alone, it seems that this blue dragon is just too big!

"Forget it, our purpose here is to comprehend the miracle. Now that we have reached the ninth ladder, let's hurry up and practice!" Li Tian said.

The three female generals nodded and sat beside Li Tian, facing the dragon head of the giant dragon, and began to comprehend.

The main process of enlightenment is enlightenment, and the focus is enlightenment.

The attribute of comprehension is difficult to measure with numerical values, but each person's comprehension is indeed different.

For example, if Ye Meijing sits here, she will feel uncomfortable.

Here, although Ye Meijing has gradually adapted, and Shenwei's influence is no longer so fatal, but Ye Meijing still feels that Shenwei is constantly piercing her body like a silver needle.

The pain is not enough, but it is not comfortable.

Now facing this giant dragon, Ye Meijing couldn't calm down at all.

All she could see was the giant dragon with white bones and the majestic dragon with cyan spiritual power condensed.

Talking about Liu Jimeng.

Liu Jimeng's cultivation talent is obviously much higher than Ye Meijing, and his comprehension is also much higher than Ye Meijing.

In this ninth ladder, the power of God has already materialized, and it will definitely affect everyone, but Liu Jimeng feels that her spirit is independent of the skin of the body. The power of God stimulates the itching and pain on the body, and she seems to be watching It's the same as something completely unrelated to herself.

He closed his eyes and calmed his mind. In an instant, Liu Jimeng felt that the dragon seemed to be alive. Two huge eyes were staring at her, and the dragon's mouth opened, as if he had something to think about. Say the same to her.

Liu Jimeng wanted to hear clearly what the dragon said to her, but she couldn't hear clearly.

Don't worry, don't worry, take your time, take your time!

Liu Jimeng's breathing gradually stabilized, and soon he fell silent in his practice.

Situ Ningbing also closed his eyes tightly, feeling the dragon in front of him with his heart.

However, Situ Ningbing was not in a hurry to communicate with the giant dragon in front of him, but in accordance with her rhythm, first practiced "Blue Clouds" and slowly operated his spiritual power.

After running the spiritual power for ninety-nine weeks, Situ Ningbing felt that the dragon seemed to be alive, and stretched his head in front of her. Even Situ Ningbing could feel the dragon's whiskers flutter over her. Situ Ningbing could still feel a warmth when Long Breath sprayed on her cheeks.

Situ Ningbing was not in a hurry, he didn't deliberately communicate with this giant dragon, and was still practicing according to her rhythm.

It's just that before she knew it, Situ Ningbing could feel that the cyan spiritual power on that Azure Dragon was absorbed and refined by him.

Immediately, the spiritual power in Situ Ningbing's body veins will become more active.

Unknowingly the strength has been enhanced!

Could it be...this is Longwei?

Longwei is superb!

Talking about Li Tian.

Among the four, Li Tian's cultivation talent is not the most outstanding, but this guy's various opportunities and luck are really good!

You can't see or touch luck, but you can't deny the existence of it.

In terms of cultivation comprehension, Li Tian's comprehension is not worse than anyone else!

Li Tian closed his eyes, he was feeling the difference between the blue dragon he had seen, the black fire purple dragon he had displayed, and the giant dragon in front of him!

I don't know how long it took, Li Tian closed his eyes, but he felt that his whole body seemed to have become transparent, as if his body had disappeared.

At this moment, Li Tian suddenly felt that his body was flying up and down.

Suddenly, Li Tian suddenly heard the dragon speak to him.

I didn't know if it was a language barrier, or if the dragon hadn't spoken for too long, Li Tian didn't hear clearly.

Li Tian was startled and suddenly opened his eyes.

The feeling of floating disappeared instantly, and Li Tian's heart sank.

The moment he opened his eyes, Li Tian felt that the mysterious power that had originally appeared before his eyes suddenly retreated and fell back to the bones of the giant dragon.

"Damn it, why should I open my eyes?"

Li Tian thought guiltily in his heart.

"Li Tian? Can't you comprehend the power of this giant dragon?"

"Ye Meijing?"

"It's been almost half a month. I didn't feel the power of the dragon at all, and you are cultivating one by one. I can only do basic cultivation, but the realm of cultivation is still stable. I am fast. Bored to death!" Ye Meijing saw Li Tian wake up suddenly, and immediately interrupted.

Half a month?

As soon as my eyes are closed and opened, is it that half a month has passed?

Li Tian was shocked.

"Yes, I have a count. You can see that there are three 'positive' characters drawn in front of me, you can't go wrong!" Ye Meijing said.

Li Tian doesn't know how Ye Meijing judges the time in this metal world without sunrise or sunset, but this is not the point.

"Ye Meijing, our time is limited, even if you can't feel the power of the dragon, you have to force yourself to practice!"

"Li Tian, can you teach me?"

"All of this depends on your own perception!" Li Tian shook his head and looked at the dragon.

Dragon, what do you want to say to me Li Tian?

Chapter 4925: : The Great Dragon (2)

Li Tian started practicing again.

With the lessons learned, Li Tian will definitely not open his eyes easily this time.

Slowly closed his eyes, feeling the fluctuations of spiritual power around the body.

Gradually, Li Tian once again entered the state where his whole body had become transparent, and he slowly floated up as if his body was weightless.

Li Tian's pores opened, and he could feel that the dragon in front of him seemed to have resurrected again.

But this time, the dragon didn't seem to want to get close to Li Tian.

Is it because I opened my eyes just now?

That's why this dragon has doubts about me?

Calm down, don't worry, continue practicing!

Li Tian remained motionless, even if he felt that his body was flying lightly, but Li Tian still let his body fly in the air.

This is a very strange feeling.

Body weightless, floating in the air with spiritual power.

And because the body has changed into a transparent state, Li Tian can even feel the spiritual power here can easily pass through his body.

It's like... the soul!

But when this spiritual power passes through the body, there will always be some spiritual power. If you are curious about a baby, it stays in Li Tian's body, unknowingly, this ethereal body seems to become thick. Li Tian had a very comfortable feeling all over his body, as if he was wearing a swimming ring, soaking his whole body in warm water, but he couldn't sink.

Li Tian wanted to feel the dragon in the distance.

However, there are white spiritual powers all around here, and with the feeling of clouds and mist, Li Tian can't see the dragon at all.

In the vanity, Li Tian's transparent body slowly swam in the direction of the giant dragon, swimming in the rich spiritual power.

It is endless, and it seems that there is no end in sight.

Li Tian felt that his body was like a bird penetrating into the sky, and the sky was endless, no matter how he flew, there were clouds and mist in front of him.

Xi Xi Suo Suo!

At this moment, Li Tian suddenly felt as if something was walking through the endless clouds.

Because Li Tian could feel this cloud-like spiritual power fluctuate rapidly.

Could it be that dragon?

Li Tian revolved around, and the silk was full of white cloud-like spiritual power, without any other figures.

Isn't it an illusion?

But Li Tian would not give up, relying on the feeling in his heart, he continued to swim forward.

After passing through several thick spiritual power clouds, Li Tian felt that there seemed to be something behind the spiritual power clouds in front of him.

Li Tian couldn't help feeling nervous.

But Li Tian didn't shrink back, he swam past quickly, reaching out to touch the clouds!

Slowly, the cloud layer in front of Li Tian was pushed away layer by layer, and Li Tian could even see a dark shadow appeared behind the cloud layer.

Yes it!

It should be it!

Li Tian's heart is very firm!

The speed in his hand could not help speeding up a bit.

The spiritual clouds, like cotton candy, were torn apart piece by piece by Li Tian.

At this moment, the shadow behind the spiritual power cloud moved!

Li Tian felt that group of shadows seemed to be rushing towards him!

really.....

After Li Tian tore off a cloud again, a huge head suddenly appeared behind the cloud!

This head is bigger than a small hill, but it is the head of the dragon!

The dragon's whiskers cut through the spiritual power clouds like a leather whip and drew across the back of Li Tian's hand. Then Li Tian felt his feet soft, and the giant dragon's two giant eyes focused on Li Tian.

"Ok... so huge!"

The dragon's whiskers just now were much thicker than Li Tian's waist!

And this giant dragon's eyes were even more like a khacha. Being stared at by such huge eyes, Li Tian suddenly felt a kind of hair loss.

Li Tian remembered the result of opening his eyes during his previous practice, so this time, Li Tian would not open his eyes anyway.

The dragon stared at Li Tian, and Li Tian looked up at the dragon.

Don't admit defeat, and give in the slightest reputation!

laugh!

Two auras spurted from the dragon's nostrils!

Li Tian felt as if two gusts of wind sprayed out of the dragon's nose, passing by Li Tian's side, Li Tian's body swayed involuntarily, almost being blown by the aura from the dragon's nostrils fly.

Li Tian was also daring, and subconsciously reached out his hand and grabbed the dragon's whiskers.

Then... Li Tian hung on the dragon's whiskers, letting the dragon's breath blow him!

In the eyes of the giant dragon, Li Tian probably existed like a little bug, but now the little bug caught its dragon beard, and the dragon immediately heard the dragon's voice!

The dragon shook the sky, and Li Tian could feel that when the dragon chant came out, the spiritual power clouds around the dragon's head instantly floated away!

Windswept clouds!

Li Tian didn't dare to relax, his arms held the dragon's whiskers tightly!

Regardless of the wind from the southeast to the northwest, Li Tian insisted that the "blue beard" would not let go!

After a long chant, the wind gradually weakened!

The giant dragon controlled his dragon beard and placed Li Tian on the slowly forming spiritual cloud.

But Li Tian just didn't let go, he was worried that the dragon would cheat!

The dragon opened his mouth, as if he wanted to say something, but in the end it just made a strange sound!

Is this telling me something?

Since the dragon has no way to say something, let's say it ourselves!

Li Tian slowly loosened his arms, looked at the dragon's head and asked: "The dragon! Do you have anything to say to me?"

The dragon nodded slightly!

I rub!

The dragon just nodded slightly, but Li Tian, who was close at hand, felt that the dragon seemed to have eaten the 'shaking head pill', and the shaking was so big!

"Okay, then you tell me if..."

No, I came to the top of the miraculous mountain to practice and to understand miracles. Why would I talk to this dragon now?

Li Tian suddenly felt that his path was not only crooked!

who cares!

Anyway, Li Tian can feel very powerful from this giant dragon!

What needs to be clarified here is that the dragon power released by this giant dragon also has at least the aura of a demigod or even a quasi-god, which means that the dragon power is part of the divine power.

However, this Shenwei is definitely not Longwei!

In addition to the dragon power of this giant dragon, there are other divine powers!

But what can this be?

Li Tian's purpose is to improve his cultivation and increase his strength.

There was a great teacher in the Earth World Huaxia once taught us that "no matter whether it is a white cat or a black cat, catching a mouse is a good cat." Li Tian does not care whether it is a supernatural power or a dragon power, as long as he can improve his cultivation strength. Divine power belongs to him, it is better than anything!

Rumble!

From the mouth of this giant dragon, there was a sound like thunder!

The sound is from far to near.

"You... are the first person... to see me in millions of years!" The dragon uttered human words. At the beginning, it was not fluent, but gradually, the words of the dragon gradually changed. Be clear, "Brave boy, are you willing to accept the gift of the great dragon?"

Chapter 4926: : The Great Dragon (3)

Gift?

That is the meaning of giving away for free.

How could Li Tian refuse this benefit!

But... Li Tian also knows a truth, there is no free lunch in the world!

Unprovoked courtesy, trespassing or stealing!

Just like in the story of the river god, the honest and kind farmer refuses to drop the golden axe and the silver axe before he can get all the axes at the same time.

Therefore, Li Tianjue defined the gift of the Great Dragon in a righteous manner.

"I am an upright person, a kind person, and a person who is free from low-level tastes. Therefore, you should not use these gifts to corrupt my soul. I came to this miraculous mountain to improve my cultivation strength, my will It's very firm, you can't buy my soul with any gold or silver treasure..."

"Are you not willing?"

A look of disappointment flashed in the eyes of the great dragon, as if ready to turn around and leave at any time.

I rub!

Are all myths and stories deceptive?

The story shouldn't be that this great dragon was moved by Li Tian's noble qualities, fell to his knees, begging Li Tian to accept their gift? By the way, I will teach Li Tian a set of advanced techniques so that Li Tian can obtain all the inheritance of the great dragon, shouldn't it be the case?

Li Tian's voice changed.

"Yes! How could you be unwilling? The great dragon, at first glance, you are a wise existence, comparable to the most powerful existence in the ancient legends of the metal world. It is my three lives fortunate to be regarded by you. , Why should I refuse such an honorable thing?"

A trace of helplessness flashed in the eyes of the prehistoric dragon, he sighed, and then said: "The gift of the prehistoric dragon, take it!"

With this sigh, a group of golden aura floated from the dragon eyes of this wild dragon.

Li Tiangang saw this spiritual power, and then the spiritual power flashed and disappeared.

In the next second, Li Tian saw that this golden aura had appeared in his heart.

Slowly, this golden aura changed into a book.

Books like bamboo slips, the difference is that this book is not bamboo slips, but golden slips.

What do you mean?

Could this be the gift of the great dragon?

Is this some kind of cultivation technique?

Li Tian is still in a state of nothingness. He can't release his spiritual sense into his heart, and he can't read the contents of this golden slip carefully.

In Li Tian's heart, there are already red cuts and black round beads, and now there are more golden slips.

This guy, his atrium is almost becoming a grocery store.

"This golden slip contains all the treasures of our prehistoric dragon clan. This treasure lies in a certain kind of endless darkness. Do you want it? Find it yourself!"

I rub!

What does it mean?

Endless darkness?

Does it mean the metal world?

Or does it mean the entire prehistoric universe?

Are you sure that you, the great dragon, gave me a gift instead of playing me?

"Do you need me to do something? For example, clean up your bones?"

Li Tian doesn't know what's the use of this principal slip, obviously it can't satisfy Li Tian's appetite.

There is no advantage, it is not Li Tian's style!

Therefore, Li Tian offered to clean up the bones of the prehistoric dragon. Maybe he could get some other treasures while cleaning up.

"Alright! I'm so bored, just stay with me for twenty years!" said the Great Dragon!

What does it mean?

Accompanying the great dragon for twenty years?

As soon as the voice of the great dragon fell, Li Tian felt a powerful force in front of him, and suddenly attracted him!

Li Tian's hands held the dragon's whiskers tightly.

He didn't want to be sucked away by this powerful suction.

However, at this moment, the great dragon suddenly disappeared without a trace, and Li Tian was like a kite with a broken wire, and his body was completely involuntarily sucked in by the suction.

Li Tian immediately lost consciousness!

Don't know how long it took, Li Tian slowly woke up!

Li Tian eagerly discovered that he was no longer in vain, that is to say, Li Tian's body was also sucked in.

This guy, this is really a big deal!

With a bitter expression on his face, Li Tian looked up to the left and right, trying to determine where the great dragon had taken him.

Bones!

There are bones everywhere!

And this white bone exudes a powerful dragon.

The power of Longwei makes people feel horror and despair.

"I wipe..."

Li Tian sadly discovered that he was sucked into the skeleton of the prehistoric dragon by that powerful suction force.

The analysis between the bones was very broad, but because of the existence of supernatural power, Li Tian couldn't get out of the gap between the bones.

It's really hard!

Li Tian couldn't laugh or cry. He was just a cheap mouth and wanted to get some treasures. This great dragon took it seriously and trapped Li Tian in the bones.

"Isn't it really asking me to clean up this bone?"

"This guy, this bone is more than a few hundred meters long, to say less than a few hundred meters. The thickness of the bone, to say less, requires more than a dozen people to hug it. If all the bones of this great dragon are cleaned up, then I need Do it until the year of the monkey?"

The baby feels bitter!

Li Tianzhen wanted to smack his own mouth twice to make him feel cheap.

but.....

Li Tian was also worried that the great dragon would see his every move, and any self-mutilation might be considered disrespectful by the great dragon. When the time comes, the gods will punish the gods. Then Li Tianke will It's really hard.

Forget it!

If you don't get into the tiger's lair, you will get a tiger!

Now that I have come here, let me clean up the bones of the prehistoric dragon honestly! Maybe it will be comfortable to serve this great dragon, just teach me some cultivation skills, it will be enough for me to rush to the realm of the super domain master!

Which bone should be cleaned from?

Li Tian decided to go to the bones of this wild dragon first, such as the dragon head or the dragon tail.

Then start cleaning from beginning to end or from end to beginning.

Then, Li Tianyou embarked on a hard journey!

He began to move on these giant bones in one direction.

However... Li Tian was surprised to find a problem!

In the bones of this great dragon, although the divine might not cause any harm to Li Tian, the divine might has a great influence on Li Tian. Under the influence of this divine might, Li Tian felt that his cultivation was greatly affected. The limitation, let alone flying, is difficult even if it is moving fast.

Once the spiritual power was used, Li Tian felt that his body was instantly crushed by a weight of several hundred thousand jin.

Huh! Huh!

Li Tiancai only ran hundreds of meters along the dragon's bones. He was already sweating profusely and his breathing became thick.

This was just walking, and thinking about cleaning up these bones in the future, Li Tian suddenly felt that he was unlovable!

"Woo, the road you choose, you have to go down on your knees!"

Chapter 4927: : Unexpected gains (1)

The prehistoric dragon coiled around the miraculous mountain.

The tail is up and the head is down.

Li Tian chose to walk upward and clean the bones from tail to head.

Whoosh!

Whoosh!

Li Tian's figure struggled through the bones of the great dragon.

I don't know how long it took, Li Tian gradually adapted to the influence of the dragon's power released by the surrounding bones, and now he moved much faster.

At the time of completion, Li Tian suddenly noticed that the dragon bones in front of him seemed to be abnormal.

"Huh? Why are there so many broken keels here?"

Li Tian speeded up and rushed over.

The keel of the entire prehistoric dragon is not complete, especially in front of the eyes.

At least a dozen bones are broken here.

These broken bones fell to the ground, like collapsed ruins.

Li Tian quickly walked to these bones. Although the bones in front of him were broken, Li Tian could still feel the energy fluctuations and the dragon's power!

What a powerful existence!

Looking up, I saw a huge metal sword with a height of 1,000 meters above my head.

Li Tian recalled what the beast boy described when he introduced the miraculous mountain. He knew that a great dragon was coiled around the top of the miraculous mountain, and beside the miraculous mountain, there was a taller metal statue. One foot of the metal statue stepped on the miraculous mountain, and a huge sword in his hand was cut on the top of the miraculous mountain.

It now appears that the giant metal statue of Shiyou\*\* plus this miraculous mountain creates a picture of a dragon slaying warrior.

However, when Beast Boy introduced him, Li Tian believed that the so-called prehistoric dragon should also be a metal statue. Only because of a certain kind of supernatural power would the prehistoric dragon feel like alive.

It wasn't until Li Tian arrived at the ninth ladder and saw the bones of the real great dragon, that he knew that all of this was real!

Looking up at the metal blade above his head, Li Tian could think of a picture.

A long, long time ago, probably when the monster of the prehistoric dragon was still there, the metal sword blade was cut on the monster of the prehistoric dragon, but after millions of years of natural corrosion, the dragon's \*\*This disappeared, and the metal sword in the hand of the metal statue was suspended in the air!

At this time, looking at this metal blade, Li Tian couldn't help but feel a trace of disgust, even disgust!

Li Tian didn't know whether the fall of the great dragon had something to do with the owner of this metal statue, but he saw that after millions of years after the death of the great dragon, he still had to endure the humiliation of being crushed by this giant metal sculpture. I was quite upset in my heart! Of course, this is also the reason why the great dragon gave Li Tian a gift, so Li Tian has a more favorable impression of the great dragon!

"The giant dragon, it's a pity that my cultivation is too weak. If I have enough strength, I will definitely break the metal sword of this giant metal statue..." Li Tian looked up and said in a low voice.

Rumble!

At this moment, the bones of the prehistoric dragon matched very well and shook abruptly twice.

Immediately, the voice of the great dragon penetrated Li Tian's ears again, "Boy, I understand your heart, but the owner of this metal statue is not something you can provoke! The owner of this giant statue has now left. In this world, his mighty power is not something we can resist."

"I have no complaints or regrets for being killed by him! Besides, all this is what I deserved. If the flesh eats the world, I can keep the complete bones, and now I can accept thousands of people with him and let my soul live forever. Immortal, I'm already content! Boy, you stay with me for twenty years and clean up my bones. You will definitely get a different harvest!"

The voice of the great dragon ends here.

Then no matter what Li Tian said, the voice of the great dragon never appeared again.

"Cleaning the bones will bring you a different harvest! It seems that my choice was right!"

Although I don't know what different gains will be gained by cleaning the bones, at least Li Tian knows that this is probably also a kind of practice.

He looked up again at the metal giant sword suspended above his head!

From Li Tian's perspective, he can actually only see part of the metal giant sword, and he can't even see the appearance of this giant metal statue.

However, he was still interested in the huge metal statue in his heart!

Who is this?

Why is it so powerful?

Why would the great dragon be beheaded by him again?

And what is the reason why the great dragon said that the sin is deserved?

In the metal world, a world where there is no miracle powerhouse, why is there a miracle? Artifact? Are there god-level beast crystals or crystals?

These questions kept appearing in Li Tian's mind.

Maybe by solving the mystery of these problems, you can also thoroughly understand the metal world!

Li Tian shook his head and dispelled these problems in his mind!

"Now I, Li Tian, is a sweeper, a sweeper of giant dragon bones. I'll do my job first! When I reach the realm of cultivation, I will find answers to these questions!" Li Tian thought in his heart.

After the broken bones of the prehistoric giant dragon, Li Tian seemed to have a new understanding of dragon power, divine power, power, and spiritual power, and then his speed unknowingly increased a bit faster.

Although difficult, after untold hardships, Li Tian finally came to Longwei!

In front of him, the bones of this prehistoric dragon were obviously much smaller. Every keel of the prehistoric dragon that Li Tian saw before was at least more than a kilometer in length, but now the keel in front of him is hundreds of meters long. .

call!

"I finally arrived at the dragon's tail. I don't know how long it will take on this journey. Let's hurry up and clean up, and try to clean up the keel ahead of time 20 years ago. I don't know if there is a reward for completing the task ahead of time? Haha! "Li Tian took a breath, thinking in his heart.

Use spiritual power and adjust breathing.

Li Tian began to climb the last tailbone!

This keel is bare and without the slightest effort, this climbing is also quite difficult!

In addition, the Longwei released by the keel is not friendly to Li Tian and repels Li Tian, making it more difficult to clean up the changes!

There are difficulties, and there are no difficulties to create difficulties.

When it comes to cultivation, Li Tianke never plays tricks or slips.

Li Tian began to use his spiritual power, releasing the spiritual power that he had cultivated like a stream of water, washing and releasing the keel.

Obviously, Li Tian thought about cleaning the keel too simply.

To cite an unsuitable example: the spiritual power in Li Tian's body and veins is like a water pipe. His spiritual power is the water flow in the water pipe. The water flow is not large and the amount of water is limited. The keel that Li Tian wants to be clear is It seems like a big mountain.

Now, Li Tian wants to use water from a tap to irrigate the dense trees scouring the mountain. Just imagination is enough!

Fortunately, Li Tian can do two things with one heart, releasing his spiritual power while practicing!

"Yeah! This... is this the unexpected gain that the prehistoric dragon said?"

Just after running the spiritual power in the body veins for several weeks, Li Tian discovered the difference, and his face was involuntarily happy!

Chapter 4928: :Unexpected gain (2)

Li Tian didn't expect that he was just running his spiritual power for a week, and he already had such a trace of dragon power in his body veins!

Yes, it's just a week!

Long Wei!

This is the dragon power of the god-level powerhouse!

Although this dragon might be imperceptible, it has almost no influence on Li Tian's body veins and Li Tian's cultivation base, but this is divine might!

Originally, Li Tian thought that he wanted to cultivate divine power, and I was afraid that it would take a lot of effort to cultivate divine power, but he did not expect it to be so easy!

It's no wonder that the Great Dragon would say that Li Tian can get unexpected gains. That's true!

Shenwei!

Li Tian had felt the power of the divine power when he fought with the Shushou Dao. Only the Shushou Dao of the Domain Master Realm's first-level cultivation base immediately increased his cultivation strength after displaying the divine majesty. Li Tian suffered a great loss If it weren't for Hong Zhan, Li Tian would most likely become a dead soul under the sword.

It's just that Li Tian still knows very well that the divine power in his body veins is still very weak, and now he can't use the real power of divine power at all.

keep it up!

Li Tian secretly cheered himself up, and because of this unexpected gain, Li Tian felt that he was taking the legendary "Gaizhonggai Brand High Calcium Tablets". He did not have sore waist and leg pain. The tailbone of the dragon's tail was thoroughly cleaned with spiritual power.

Although it was a breath, the whole time was quite long.

With a dragon tail bone, it is conservatively estimated that Li Tian also cleaned it for more than a week!

The keel that was cleaned by Li Tian's spiritual power did not look like any change in appearance, but Li Tian could clearly feel that the keel seemed to be waxed, so smooth and dazzling, so colorful, So dazzling.

"Tsk tusk...It's really a work of art, it looks beautiful!" Li Tiandi sighed involuntarily.

After a keel was cleaned up, it seemed that the divine might in Li Tian's body veins seemed to be slightly thicker than before.

However, it was still unable to perform, nor could it provide Li Tian with any useful help in actual combat.

At best, it made Li Tian feel that his spiritual power was just amazing.

Fortunately, now this is just the beginning.

There are thousands of keel bones of this great dragon. Li Tian still has a long time to clean the keel!

When Li Tianzheng was able to clean up all the keel bones, he would definitely be able to cultivate his own power by then.

Next!

call!

Li Tianchang took a few breaths, without any pause, and soon devoted himself to cleaning the next dragon tailbone.

Cultivation is like taking drugs. When you become a habit of practicing, you will be excited and can't stop at all.

Just like Li Tian now, he is now in such a period of excitement.

He doesn't want to waste any time, he just wants to seize all the time to clean the keel, and then in the process of cleaning, his soul... It's not that the cultivation base can also be sublimated!

That's it, it's so positive energy!

Now if anyone wants to stop Li Tian from cleaning these keels, Li Tian will definitely be anxious with him!

"Scrubbing! Scrubbing!..."

...

Time goes by, and years go by.

In an instant, three years have passed.

As Li Tian's cultivation base increases, Li Tian uses his spiritual power to clean the keel faster and faster. However, because Li Tian starts to clean the dragon's tail, the length of the keel that Li Tian needs to clean is getting longer and longer. The time it took Li Tian to clean a keel was basically a week.

In other words, in the past three years, Li Tian cleaned fewer than 160 keels!

To know the number of this keel...

Forget it, Li Tian has not dared to think about it.

Originally thought that twenty years would be a long time, but now it seems that if the keel can be cleaned out in twenty years, Li Tian's speed will already be quite fast.

Fortunately, Li Tian can do two things with one mind, allowing him to clean up his keel while also cultivating, so that his speed did not drop much.

Otherwise, in these three years, Li Tian might not even be able to clean a hundred keels.

You have to report!

In just three years, Li Tian has cultivated and refined Longwei, which has far surpassed hundreds of times the divine power cultivated by the Rat Head Sword.

In other words, Li Tian now has the power of a superdomain master level attack with a random blow.

The only pity is...paralyzed. After three years, Li Tian's cultivation realm is still hard to force the ninth-level peak of the domain master.

Think about it, Li Tian didn't seem to miss any opportunities for cultivation, but why couldn't his cultivation realm be broken?

Super Domain Master...Super Domain Master..., Li Tian wanted to reach this state in his dreams.

Only when he reached the super domain master level, did Li Tian feel that he was one step closer to the demigod realm!

"I don't know how Situ Ningbing, Ye Meijing, Liu Jimeng are doing outside now? Would they be very anxious to find that I disappeared?" Li Tian's heart began to get a little confused.

call!

Li Tian hurriedly stopped his movements, slid off the towering and curved keel, then closed his eyes and started to adjust!

This is also the windfall that Li Tian recently discovered that he had gained!

It was that as the dragon power he cultivated became stronger and stronger, Li Tian would always get angry suddenly, or suddenly want to kill.

Li Tian felt that he was affected by the power of the great dragon, so as long as he had this thought, Li Tian immediately stopped all activities and started to adjust. Li Tian didn't know if this kind of influence would make him mad, or he would eventually become a puppet controlled by Long Wei, so he had to choke all bad signs to death in the bud.

call!

Suck!

call!

Suck!

As Li Tian's breathing became more stable, this bad feeling gradually disappeared.

Then Li Tian's mind was empty, and he began to clean the keel numbly like a machine again!

What Li Tian didn't know was that Situ Ningbing, Liu Jimeng, and Ye Meijing, who followed him to the ninth ladder, have different understandings, but in this miraculous mountain, in front of this magnificent miracle, they But each has its own insights! Moreover, at this time, they each appeared in a completely independent place, and no one realized that each other had disappeared.

The difference from Li Tian is that Situ Ningbing's cultivation realm at this time has reached the third level of the super domain master. She can even combine the divine power and "Qing Yun" with each other to display fighting power beyond the third level of the super domain master!

Liu Jimeng followed Situ Ningbing, her cultivation realm has also reached the super domain master level one realm!

Ye Meijing's cultivation level did not improve. It took her three years to finally realize something, but what she realized was not the great dragon, but the powerful existence that slayed the dragon!

...

Tens of thousands of kilometers away, a red light flashed in the black sky, and then a door slowly opened, and a figure flashed out of this door!

"This...this is the secret realm? It seems to be completely different from the death battlefield!"

"This time, I, Long Yin, will finally be ahead of Li Tian, Li Tian, when you meet my Long Yin again next time, I am already a super domain master!"

Chapter 4929: : The Rise of Long Yin

Long Yin was able to come to the metal world, and he could be described as exhausting.

The assassin organization that Long Yin belongs to is not as weak as this organization usually shows.

This organization basically only has the little elders outside, that is, Long Yin once saved the elder at the aggregate level.

And these little elders, to be honest, they are just the eyes and ears cultivated by "Dark", and these little elders have almost a little understanding of "Dark".

And Long Yin, after leaving the Colosseum, he seemed to have been greatly hit and stimulated.

He thought it was Li Tian who was not righteous, and he took Haiqin from him.

If a person drills the tip of a cow's horn, what his eyes can see and what his ears can hear are likely to be changed.

He had never thought that Hai Qin didn't like him at all. For a demigod powerhouse like Hai Qin, Long Yin's cultivation realm had no value at all.

Regardless of Long Yin, he put all the resentment on Li Tian.

The new hatred and the old hatred, handing over each other, let Long Yin completely change.

He wants to become stronger, he wants to become stronger than Li Tian.

It is not only to take Haiqin back from Long Yin's hands, but more importantly, Long Yin wants to step Li Tian under his feet, stomping under his feet!

In this world, Li Tian is not the only male pig's foot.

In Long Yin's world, he is the unique protagonist. As for Li Tian..., this \*\*\*\*\* guy has become a villain!

Leaving the Colosseum, Long Yin returned to the dark organization.

At this moment, by chance, Long Yin was appreciated by some big figures in the headquarters of the organization, and then Long Yin was named by this big man and participated in a secret plan!

This secret plan is for the dark organization to cultivate a group of powerful new forces!

These new forces will become the absolute core of the dark organization core in the future.

Long Yin was selected to come in, along with him were selected five hundred other sages of the ninth level, and even the powerhouse of the domain master.

At that time, Long Yin knew the power of the dark organization!

The powerhouse of the domain master realm, the organization secretly has already cultivated a lot, and the big elders in the organization, each has the super domain master realm.

It is no wonder that the dark organization can stand for tens of thousands of years in the Nether Realm without falling, and along with those super \*\*\*\*\* families, continue to grow secretly.

Then, the lucky ones who were selected were asked to enter the dark forest!

This is a trial of life and death!

The dark forest, even the domain master-level powerhouse may not be able to get out of it alive, and then these lucky ones who have been selected enter the dark forest as if they were sent to die.

It lasted for two years, a full two years. Long Yin went through various fights in the dark forest. Although his cultivation level has not been improved much, Long Yin has mastered killing techniques and in such a bad environment. Survivability has been greatly improved.

In two years, five hundred strong, only ten people came out alive in the end!

Among them is Long Yin!

When they walked out of the dark forest, each of these ten guys had at least white lives!

The colleagues of the dark organization, the powerful ghost beasts in the dark forest, may become their hunting targets.

These are the ten killers!

The last ten survivors, they are the real lucky ones.

Then, they were taken to the core training area of the dark organization, and then each of the great elders led the two Xin Yuner to carry out a two-year secret training and cultivation.

The various resources of the entire dark organization are open to supply these ten practitioners.

The purest spiritual soil? Domain master level beast crystal?

Before Long Yin thought of something that he didn't dare to think of, he used it openly!

Long Yin's cultivation base has been rapidly improved.

The training and repair of these two years can catch up with Long Yin's training for the past 20 years, or even 30 years.

By the end of the two years, Long Yin's cultivation realm had reached the sixth peak of the domain master level!

In the past, Long Yin had never dared to imagine this, but it became a reality.

However, there is no free lunch in the world.

By chance, Long Yin heard those great elders discussing that at the end of the two years, it was time for the strong men trained by the elders to finally fight each other. That's right, these two powerhouses finally cultivated by each great elder fight against each other.

In other words, the two strong men cultivated by each elder will finally have to PK!

Victor, survive!

The loser is beheaded!

Long Yin was really scared at that time!

His cultivation level was quickly improved, and his cultivation level had reached the peak of the sixth level of the domain master. However, the guy who had been trained by his great elder was even higher than Long Yin. , Reached the mid-level seventh level of the domain master realm.

The domain master realm, a level difference, the difference in cultivation base strength is not a little bit.

If it were to be done with real swords and guns, and to do it openly, Long Yin would have only a dead end.

In order for Long Yin to survive, he could only sneak attack!

It started as a sneak attack on the same door that had been with him for two years on the eve of the end of his two-year practice.

The sneak attack was very successful. Long Yin severely injured the domain master seventh-level mid-level powerhouse with a palm. Then, after a fierce battle, Long Yin chopped off his head, hung it on his waist, and let the blood go. Diluo, then he went to find the great elder who trained him.

Long Yin was the only survivor of this great elder. His methods were not bright, but these great elders did not object.

Long Yin finally became one of the five final survivors.

And these five survivors were asked to enter the secret realm of the dark organization to practice.

This secret realm is the true secret of the dark organization standing in the Nether Realm for tens of thousands of years.

Because, as long as they can enter the secret realm to practice, and can survive the strong from the secret realm, their cultivation level will reach the super domain master realm at the worst!

And once you become a strong person in the super domain master realm, you can become the true core of the dark organization, become the elder of this organization, and can control dozens or even hundreds of members of the dark organization in the Venerable.

Hearing the word Super Domain Master Realm, Long Yin felt his whole body boiling!

He can finally reach the realm of Super Domain Lord before Li Tian!

As long as you can reach this level of cultivation, no matter how much danger and hard work you have, what can you do?

Entering the secret realm, the dark organization has only one requirement, that is, the five survivors must act together and must cooperate fully. Only in this way can they have a greater chance to come back alive from this secret realm.

Huh!

Huh!

Huh!

Huh!

There were four more powerhouses beside Long Yin, and it was the other four powerhouses that the dark organization finally survived!

At this time, each of these powerful men has a star map on their wrist!

"Go to Wonderland first..." said one of the strong men pointing in one direction.

Chapter 4930: : Tacit cooperation

The secret realm owned by the dark organization is also the metal world, but the big elders of the dark organization are obviously more fully prepared than the Sea-Monster Clan.

Sea-monsters, these low-IQ guys, entering the metal secret realm is to fill the endless dark hole of the metal world with a lot of life, and then, like a gambling on luck, gambling on who can come back alive, and the strong one who can come back alive, Can become a super domain master-level powerhouse, can become the backbone of the rise of the Sea-Monster tribe.

The dark organization is essentially the same. They have made a lot of preparations in advance. In the end, only five people were trained out of the five hundred people, and then they gave them various trainings and even gave them cloud pictures. After allowing these five powerhouses to enter this secret realm, it is best to come back alive.

Long Yin and the others entered a completely unfamiliar metal world, and saw that there was almost nothing similar to the Netherworld, but because they were well prepared and trained in advance by the great elders, they did not rush to panic, but Very purposeful, go straight to Wonderland.

Then transfer to other regions through the fairyland to find the miracle that suits them best.

Whoosh!

Whoosh!

The figures of the five people flew quickly in the endless darkness. Their eyes were firm and gloomy, just like five evil wolves looking for prey in the wilderness. Although they did not release

any spiritual power, they could also give people a sense of strength. This is a very lingering feeling, the sword has not been out of its sheath, and the sword aura has made people jealous!

At this moment, in front of the five strong men of the dark organization, a huge metal square, which is a few hundred cubic meters in size, suddenly floated.

"Lingjin Clan!"

Damn, when Li Tian first arrived in the metal world, his eyes were blackened, and he didn't know what these metal squares were.

But the guys in these dark organizations can shout out that these metal blocks belong to the spiritual gold tribe of the indigenous race in the metal world.

That's right, the metal cube in front of you is the Spirit Gold tribe, but this Spirit Gold tribe is an ownerless Spirit Gold tribe floating around in the metal world, just like some wanderers in the earth world.

It can be seen from the size of this Lingjin clan that the cultivation base of this Lingjin clan is not weak, to say nothing, has reached the seventh or eighth level of the domain master.

The five strong men of the dark organization glanced at each other, and they all saw a murderous look in each other's eyes.

When I first arrived and came to this strange metal world, I always wanted to show my skills, and the lonely Lingjin clan was obviously very suitable for them to practice.

With one look, everyone has understood the other side's thoughts, and can see the horror of these five guys!

The metal cube of the Lingjin clan was still flying towards these five powerhouses quickly.

Probably in the eyes of this Lingjin clan, Long Yin and others are just the smiling part of his many devouring energy.

km.....

100 meters...

The Lingjin clan is getting closer and closer to Long Yin and others.

Long Yin could already clearly see the criss-crossing energy lines on this metal block.

Domain master ninth mid-level realm!

This is the real strength of the metal cube in front of me.

However, Long Yin's eyes did not show the slightest panic.

"Scatter!"

Following Long Yin's order, the five strong men of the dark organization flew in different directions at the same time.

Huh!

Huh!

Huh!

These five powerhouses simultaneously drew their weapons.

Rumble!

But at this moment, this Lingjin clan had already changed its body shape, instantly transforming into a metal behemoth nearly a hundred meters tall!

This behemoth is a strong foreigner that the metal cube has swallowed before, and then the metal cube can change into its appearance to fight.

There was no change in expression on Long Yin and the others' faces, as if the change of the Lingjin tribe into any shape was in his expectation.

His eyes were firm, and a murderous look flashed through.

In front of the giant beast of the Lingjin clan, Long Yin and others looked as if five mosquitoes were surrounding it.

The giant beast roared, spouting a light blue energy wave from its mouth, and then swept it horizontally.

"So strong!"

The five powerhouses sigh secretly in their hearts!

The same is the ninth-level master of the domain, and the ninth-level master of the Netherworld is absolutely unable to release such a powerful energy fluctuation!

Probably only the super domain master-level powerhouse is this power!

At this moment, the mouth of this giant beast is like the nozzle of a fire extinguisher, and the energy wave is constantly sweeping back and forth.

As long as this energy wave can touch Long Yin and others, even if they are not turned into a scum in an instant, it will be difficult for them to survive!

Long Yin and others, the body is much smaller than this Lingjin clan, but they are better than flexible.

Like a mosquito or a fly, it clings to the body of this giant beast, flying back and forth continuously.

However, before they knew it, Long Yin and the others were getting closer and closer to this spiritual gold clan.

"Come!"

Another order came out.

Five strong men jumped onto the body of the metal behemoth from different directions at the same time!

The blade in his hand is not a magic weapon, but it is definitely not a common product.

These blades are the spirit weapons brought back from the metal world by the great elders of the dark organization.

It's just that the spirits of these spirit weapon clan weapons have long been annihilated, leaving only the empty shell of the host body!

Although it is an empty shell, it can still exert a very powerful combat effectiveness in the hands of Long Yin and others!

The surging spiritual power instantly poured into the weapon in his hand, and then the weapons in the hands of these five powerhouses pierced into the body of the Lingjin clan at the same time.

easy!

The blade with surging spiritual power easily pierced the body of this behemoth!

Ouch!

The fellows of the Lingjin clan are also metal bodies, so they clearly don't feel any pain, but at this time they seem to be eating pain, and roaring up to the sky.

With this long roar, the flying speed of this metal behemoth is getting faster and faster!

"Run!"

Another order!

The five strong men of the dark organization cooperated in an orderly manner. After hearing this command, they stepped on the body of the giant metal beast, pulled the blade that pierced the body of the giant beast, and ran in different directions at the same time.

Huh!

Huh!

Huh!

There were five huge wounds on the body of this giant metal beast!

However, the five powerhouses of this dark organization did not stop in the slightest, they crossed each other and ran past each other, and then continued to run.

"withdraw!"

With a command issued, the five powerhouses, without any muddling, touched their feet on the body of the giant metal beast, and flew out instantly.

boom!

After these powerhouses flew several hundred meters, the Lingjin clan behind them burst open instantly.

The five powerhouses cooperated tacitly. Although their cultivation base was not as strong as that of the Lingjin clan, they simply killed a domain lord mid-level ninth level Lingjin clan!

A cold light flashed from the corners of Long Yin and the others' eyes at the same time, and there was a feeling of unfinished intention!

At this moment, a voice suddenly came from the endless darkness.

"Your cooperation is truly a tacit understanding! If my spirit gold clan can cooperate like yours, they won't be killed by two guys so much! Hey, I am full of interest to you now, how about joining? I....."
