

A Killer 4941

Chapter 4941: : Decisive Battle on the Peak of the Holy Peak

The top of the holy peak!

The domain master of the purple flame thunder bear, the master of the Yinmoyin bull domain, the master of the Tiangangyan raccoon domain, the master of the earth evil sky vulture domain, and Li Mu, still seize the time to practice!

After several years of practice and comprehension.

The cultivation base of the purple flame thunder bear domain master has now reached the third level of the super domain master, and the cultivation bases of the Yin Mo Yin Niu domain master, the Tiangang flame raccoon domain master, and the earth evil sky vulture domain master have broken through to the super domain master one. Level pinnacle realm, it can be said that they are finally standing among the powerhouses of the super domain master realm of the Nether Realm now.

For their improvement, these four guys are still quite satisfied!

Of course, they can't compare with Li Mu this abnormality!

Li Mu, when he first came to the Netherworld, he was already at the first-level pinnacle state of the super domain master. After several years of penetrating the four huge stone tablets on the holy peak, and then after understanding the ray of divine power on the holy peak, Li Mu's cultivation level has been improved again, and now his cultivation level has reached the fifth-level pinnacle of Transcendent Master, which is much higher than that of his Lao Zi Li Tian!

but.....

but.....

Li Mu has not been easy lately!

All this is because the Star Domain Master and the Great Emperor Canghai came to the top of the holy peak to talk about!

The two people who were once famous in the Nether Realm have escaped here like mourning dogs, and the empire where they belonged was easily destroyed!

All this shows that the Super God Family has begun to do it!

Immediately afterwards, it was the Super God Family that took action on the Dark Forest!

The ghost beasts who have lived in the dark forest for thousands of years and tens of thousands of years have been slaughtered by the super ***** family. The powerless ghost beasts can only use their animal instincts to escape deeper in the dark forest. After reaching the domain master level cultivation realm, or the ghost beasts with human thinking, they came to the holy peak in groups to cry.

I hope their great beast gods can shelter them, and can shelter the ghost beasts of the dark forest to survive.

Although the people who are now cultivating on the top of the holy peak have known that the Super God family has united against the Sea-Monster family, and after Li Tian intervened in the affairs of

the Sea-Monster family and the Super God family, they knew that the Super God family who refused to give up would definitely do Unite and do it again.

But when the super **** family really started to do it, these powerhouses who had already possessed the super domain master realm cultivation level still felt flustered in their hearts!

Even a little at a loss.

The Super God Family, at least now they know that the East Palace Super God Family and the Fish Cultivation Super God Family have a strong presence of a demigod powerhouse.

If a demigod powerhouse comes to Shengfeng Mountain, this holy peak cannot give them any protection!

"They... they are coming up!"

Star Domain Master stood on the platform of the top of the holy peak, looking at the powerhouses who were constantly climbing, a trace of panic flashed across his face.

The Great Emperor Canghai had already lost the peace of the past, and his face was also covered with ashes.

When people encounter difficulties, they will inevitably complain in their hearts, and they will think about what happened in the beginning!

The Great Emperor Canghai was thinking about it at this time.

If he didn't listen to the vicissitudes of the sea at the beginning, and rashly intervened in the affairs of the Super God Family and the Li Tian Legion, then the Great Emperor of the Sea is still the emperor who deterred one side.

but.....

There really isn't that much if.

Now that the Canghai Empire has been destroyed, his harem has three thousand beautiful concubines, and groups of children have long since become corpses. Among the royal family of the Canghai Empire, he is the only two of the two people who are still here. Living in the world, the current Emperor Canghai has more hatred towards the Super God Family in his heart!

call!

Li Mu, Ziyang Thunder Bear Domain Master, Yin Mo Yin Niu Domain Master, Tian Gang Flame Raccoon Domain Master, and Earth Evil Sky Eagle Domain Master all stopped practicing.

There was a ray of determination in their eyes!

Holy peak, this is the holy mountain in the hearts of all ghost beasts.

When the super **** family began to work on the dark forest, these super domain master-level powerhouses had thought about leading the ghost beasts in the dark forest to escape.

However, this is a dark forest, besides this, is there another place for them to inhabit?

And... the holy peak is the place where the beast gods of the great ghost beast ancestors soared in a hundred days. As the people of the beast gods, should they abandon their ancestors?

Therefore, several superdomain master level experts decided not to back down, and decided to sprinkle blood on the top of the holy peak even if they died.

Whoosh!

Whoosh!

Several silhouettes continued to climb upwards, those super domain masters of the super **** family, strolling leisurely in the courtyard, unaffected by this trace of power!

At this time, the domain masters such as Ziyang Thunder Bear could already see the faces of the super domain masters at their feet!

"attack!"

There seems to be nothing to say about the incoming enemy, and the best way to say hello is to attack.

Following the roar of the purple flame thunder bear, several super domain master-level powerhouses simultaneously released spiritual waves to attack those super **** family powerhouses who were climbing.

The purple flame thunder bear domain master used his best... that mouthful of thunder bear roared, following his roar, a purple thunder light was ejected from his mouth, like a laser cannon firing towards it. The powerhouses are going!

"Purple Flame Thunder Bear! Leave this guy's head to me to cut!"

Seeing the purple flame thunder bear, the super domain masters of the East Palace Super God family are all gearing up, and they can't wait to fly up and kill this guy!

There is no other reason, it is because Donggong Buchan died in the hands of this guy, this is the first guy who dared to hit the face of Donggong Super God family like this in the past few thousand years.

Therefore, the Ziyang Thunder Bear must die!

boom!

The thunder bear roar released by the purple flame thunder bear domain master was easily avoided by those super **** family powerhouses.

The spirit wave blasted on the platform in the middle of the holy peak, and there was a violent blasting sound, and then the blasted platform began to collapse.

boom!

boom!

boom!

The spiritual waves released by several super domain masters were easily avoided by the super **** family super domain masters, and then landed on the holy peak mountain.

Rumble!

Rumble!

There was a violent shaking from the holy peak.

"Damn, these guys have a much higher level of cultivation than ours, so attacking like this is simply not a solution!" Seeing that he was easily evaded by several consecutive attacks, the Yinmoyin Bull Territory's master couldn't help but feel a little angry and discouraged. Yelled, "Small screen, come and help me! Our father and I will cooperate to kill one guy!"

"Kill them, you don't need to be so troublesome! Uncle Yin Mo Yin Niu, you come to cover me! Let me meet the strength of these guys who want to be against my father!" A trace of contempt flashed across Li Mu's face, and he immediately slammed With a leap, he jumped directly from the top of the holy peak!

"This idiot! Really think his cultivation base is invincible in the world? These super ***** family powerhouses are not vegetarian! Keep attacking, I will bring the small screen up!" Ziyang Thunder Bear roared and jumped forward. Go down!

Chapter 4942: : Sure to die

boom!

boom

There are constant crackling sounds around Li Mu and Ziyang Thunder Bear!

The violent explosion sounded through the dark forest. The ghost beasts in the forest fled to the distance in panic, and a group of flying birds was startled in the dense forest.

This is the first time that Li Mu has officially played against a super domain master powerhouse.

At the moment of the fight, Li Mu knew that he was still too small to look down upon these super domain master-level powerhouses of the super ***** family. The cultivation bases of these super domain master-level powerhouses were generally at the fifth and sixth levels of the super domain master. There are 7th and 8th super domain masters.

The moment Li Mu jumped from the holy peak, at least three superdomain master-level powerhouses pounced on Li Mu at the same time!

boom!

boom!

boom!

Li Mu was slightly panicked, and blasted out high-fives continuously, and attacked these superdomain master-level powerhouses.

Soon, Li Mu fell into a bitter battle.

Huh!

Huh!

The figures of several super-domain master-level powerhouses flashed continuously on the steps of the mountain of the holy peak.

However, Li Mu is already in the mouth of a tiger, no matter how he avoids, the super domain masters of the super ***** family are chasing after him!

"Damn it! It seems that my cultivation is silly for my brain training. I didn't see their cultivation level clearly, so I jumped rashly, and this put myself in a deep danger!"

The cultivation bases of the super domain masters who chased Li Mu were almost the same as those of Li Mu. It was impossible to kill Li Mu instantly, but they did not have the idea of killing Li Mu now.

"This boy is Li Tian's son, catch him alive!"

In the Netherworld, the energy of the Super God Family is far beyond ordinary people's imagination.

After Li Mu came to the Netherworld, he barely showed up outside.

However, his information was still in the hands of the Super God family, and even the Super God family knew that Li Mu studied under the Purple Flame Thunder Bear.

Therefore, when Li Mu jumped from the summit of the holy peak, the super domain master of the Super God family broke Li Mu's identity.

The super masters of the super **** family did not kill Li Mu, but Li Mu did not dare to be negligent.

While blaming himself in Li Mu's heart, he was also thinking about how his father Li Tian would deal with this situation.

Calm down, be calm!

However, Li Mu and Li Tian are not very familiar.

The Li Tian he learned and met since he was a child is often based on Chinese textbooks and the descriptions of Duanmuying, Bai Jing, Ouyang Shiqing and others.

In the textbook, in the introduction of several women, Li Tian is a hero!

Li Tian is the embodiment of justice and bravery!

"If my father was here, even if he died in battle, he would not succumb! Father, you can, why can't I?"

A touch of decisiveness flashed in Li Mu's eyes, and he had decided in his heart that even if he died here today, he would not lose Li Tian's face!

But the actual situation is... if Li Tian encounters this situation, he can fight, but if he fails, Li Tian will definitely hide in the space of Void Yasha without hesitation, making plans.

Knowing that there are tigers in the mountains, they will go to the mountains. If you have the strength to fight tigers, this is called bravery.

And if you don't have the strength to fight a tiger, this is a fool!

Eh... Li Mu is not stupid, just too naive.

After the last battle, Li Mu suddenly broke out with super combat ability!

I saw Li Mu constantly display various martial arts!

That's right, martial arts!

Li Mu is a genius in cultivation. His attainments in cultivation and martial arts are that blue is better than blue, and he is much stronger than Li Tian.

When he was in the earth world, Li Mu learned from all the strong men in the earth world, and all the housekeeping skills of these strong men have been learned by Li Mu!

When he came to the Netherworld, Li Mu received instructions from the Purple Flame Thunder Bear and other Nether Beasts. He also learned and comprehended the four stone steles of Shengfeng Mountain. He also referred to the moves of the earth world and Hua Tuo's Five Animals. Beast gust of wind.

Although the technique is only a start-up, its power cannot be underestimated.

Especially based on the beasts, the attack changes are endless, making these super domain masters who besiege Li Mu suddenly a little messy.

But... the super ***** family has a long heritage, any super domain master level powerhouse will master at least a few martial skills.

After the initial mess, these super domain master-level powerhouses found a way to deal with Li Mu step by step.

Moreover, other superdomain master-level powerhouses joined the team that besieged Li Mu, and Li Mu suddenly became a little confused.

"Don't panic for the small screen, Uncle Thunder Bear is coming!"

After jumping off the top of the holy peak, the purple flame thunder bear was also besieged by other super ***** family powerhouses.

If it were not for the thick skin of the purple flame thunder bear, after he cultivated to the realm of the super domain master, the fur on his body was no longer ordinary, so that his body was strong enough to resist the full attack of the super domain master sixth level powerhouse. I am afraid that the current word Thunder Bear has become bear skin, bear paw, bear bile and other things.

The Ziyan Thunder Bear roared, using all his power to force the super ***** family powerhouse around him back, and then rushed towards Li Mu madly and joined Li Mu's battle circle.

Under the Holy Peak Mountain, the East Palace shakes the sky and Sanlu Taibao, looking up at the battle on the Holy Peak.

"That's Li Tian's son!"

"It's really a tiger father without a dog. This Li Mu has such a cultivation level at a young age. It is really not to be underestimated!"

"In the earth world, some super powers will always be born every once in a while, and even these super powers will make us restless in the ghost world!"

"So, we have to kill these super-powerfuls before they have fully grown up! Li Tian is like this, and Li Tian's son Li Mu is the same!"

"The victory and defeat will end soon. Why don't we go to the top of the holy peak together to see the stone monument left by the legendary beast god?"

"Very good!"

As the two super powers spoke, they rose into the air, easily overcome the magical power of Shengfeng Mountain, and flew lightly, flying towards the top of the Holy Peak!

At this time, the other super domain masters of the super **** family have rushed to the top of the holy peak.

boom!

boom!

Before the master of the star domain, the Great Emperor Canghai had time to make a move, the abilities released by these super domain masters flew out in shock, hit the small black house heavily, and fell into a faint.

But the master of Yinmoyin Bull Territory, the Lord of Earth Evil Sky Eagle Territory, and the Lord of Tiangang Flame Raccoon Territory, had already been severely injured at this time, still gritted their teeth!

Whoosh!

Whoosh!

Li Mu and Ziyang Thunder Bear Domain Master rushed up from the **** of the Holy Peak successively.

At this moment, there was a one-foot-long wound on the chest of the Purple Flame Thunder Bear Territory Lord, and blood flowed from the wound, dyeing the fur from the wound red.

One of Li Mu's arm was also weakly hanging down. It seemed that he was severely injured and was broken and broken!

Seeing the purple flame thunder bear domain master and Li Mu, the other three domain masters rushed over at the same time, huddling with them.

Behind them is the small black house on the top of the holy peak.

That Li Tian tried every means to open our little black room.

And around them, there are more than a dozen powerful super-level masters of the super **** family super domain that show fierce light.

The disparity in strength is over?

"Don't do fearless resistance! Obediently catch it, maybe you can still keep your corpses!" None of the super domain masters of the Super God family were injured. At this time, they said with a relaxed sneer.

Hahaha!

The Purple Flame Thunder Bear Domain Master laughed wildly and said, "Dreaming!"

"Then don't blame us, prepare to do it, except for Li Mu, all other people who are not human will be killed!"

Chapter 4943:

"Beheaded?"

"Hahaha, in the dark forest of our ghost beast, on the top of the holy peak that our great beast ***** soars in the daytime, you actually want to kill our people of the beast god? Well, very good! Then you do it! Today! Several of us really want to see how shameless and overbearing so many super domain master-level experts in the Super God family are!"

Domain Master Ziyang Thunder Bear suddenly laughed!

Immediately afterwards, the Lord of Yin Mo Yin Niu Territory, the Lord of Earth Evil Sky Eagle Territory, and the Lord of Tian Gang Flame Tiger Territory laughed.

They laughed honestly, they laughed happily.

But their eyes gradually changed from the initial anger and dissatisfaction, and gradually became clear and pure.

The four super domain masters are like four

These super domain masters of the super ***** family were a little bit scared by the laughter of these four guys.

What's so funny about this?

You can still laugh when you die?

"Do it! What nonsense is there with these beasts!"

The powerhouses of the Eastern Palace Super God Family and the Sanlu Super God Family slowly approached the Ziyang Thunder Bear and others.

At this time, the Ziyang Thunder Bear Territory Master and the four Super Territory Master-level powerhouses looked at each other, and then their faces showed an expression of righteousness and determination to die.

Immediately afterwards, these four super domain masters began to sing!

An ancient ghost beast war song!

While singing, these four super domain masters began to stom their feet.

Bang Bang Bang!

Bang Bang Bang!

They are the oldest animal language, and the strong men of Li Mu, Donggong Super God Family, and Sanlu Super God Family have never heard of animal words.

"Haha, is this son singing an elegy to himself before he died?"

"This dance is so rough and unrestrained, it's still quite vigorous when it comes out. It's a pity that this dance is destined to become the best sing of the orcs... No, it shouldn't be a perfect dance!"

The super domain masters of the Donggong Super God Family and the Sanlu Super God Family slowly approached Ziyang Thunder Bear and others.

Huh!

Huh!

Huh!

Either they drew out the blade in their hands, or condensed them into sharp weapons with spiritual power, and their eyes were already showing crazy killing intent at this time!

Li Mu looked at the uncles, and his heart gradually calmed down!

If it was his father Li Tian who encountered this situation, he would definitely choose to die calmly!

That's good, I can die with my father's several brothers, and I will definitely not be lonely on the way to Huangquan!

The powerhouses of the Super God family are getting closer and closer, but as the Ziyang Thunder Bear and other Nether Beast Domain masters begin to sing and dance, the four stone steles on the summit of the holy peak suddenly begin to release faint energy fluctuations.

The four steles are the four pillars.

At this time, several faint purple light curtains were released on the four steles at the same time.

The light curtains are connected to form four light curtain walls.

And on the wall of the light curtain, the ancient animal texts constantly flashed.

Donggong Super God Family, Sanlu Super God Family was not surprised by the light curtain wall that suddenly appeared in front of you!

"This...what is this?"

"These guys don't want to die with us?"

Donggong Longteng held a blade condensed with spiritual power in his hand, and wanted to split the purple light curtain with a knife.

Cang!

The spiritual power blade slashed on the purple light curtain, making a metal-like impact, and Donggong Longteng withdrew seven or eight steps backwards hit by the rebounding force on the light curtain!

Click!

The spiritual blade in his hand was instantly shattered, and the purple light curtain...is intact!

"Good! What a powerful defense force!"

Donggong Longteng was shocked by the powerful defensive power of this purple light curtain, staring dumbly at the shattered spiritual power blade in his hand.

Several other super domain masters were also shocked by this scene. At the same time, they waved their weapons and slashed towards the light curtain, or there were other super domain masters who directly released spiritual light waves to bomb the purple light curtain. .

But... Without exception, they all ended in failure.

The weapons in their hands were all shattered, and the light waves of spiritual power released by them blasted on the purple light curtain, like a clay cow entering the sea, and disappeared directly swallowed by the light curtain!

"Fly out!"

There are light curtains on all sides, but there is no light curtain above the head.

Whoosh!

Whoosh!

There are super domain masters who want to fly out of this light curtain, but when they fly up, they find that they are more than ten meters above their heads. I don't know when there is a layer that is invisible, just like transparent glass. Light curtain!

boom!

boom!

boom!

These flying guys slammed into the transparent light curtain and fell from above, screaming and holding their heads, falling to the ground and rolling.

This collision would not kill them, but it hurts just by looking at it!

puff!

Li Mu couldn't help laughing finally.

If you have to die, it would be great if you can pull on these super **** family powerhouses as a backstop!

Li Mu's laughter attracted the attention of the powerful members of the Donggong and Sanlu Super God Family.

"I know! I finally understand that these four ghost beasts are here to make a ghost! Kill them, as long as you kill them, this light curtain will not break by itself!" Suddenly there is a master-level powerhouse towards the super domain. Pointing to the singing and dancing Ziyang Thunder Bear and others shouted.

"Kill them!"

"kill!"

Rumble!

At this moment, the door of the small black house in the middle of the summit of the holy peak opened!

"Go in, go in!" Ziyang Thunder Bear stopped singing, pointed to the door of the little black house, and shouted at Li Mu and others.

Li Mu didn't dare to neglect the slightest, stretched out his hand to lift the fainted bodies of the Star Domain Master and Canghai Great Emperor, and as soon as he turned around, he got into the small black room.

Immediately afterwards, the master of the Yinmoyin Bull Territory, the Lord of the Earth Evil Tianjiu Territory, and the Lord of the Tiangang Flame Raccoon Territory all got into the small black house one after another.

The Purple Flame Thunder Bear stood in front of the little black house, grinned, and sneered a few times at these super **** family powerhouses, and said: "If you want to kill us, then see if you have the courage to enter this little black The house is gone!"

"Hahaha!"

The small purple flame thunder bear is called a rampant.

Immediately, his figure flashed and hid in the small black room.

The two super domain master-level powerhouses of the Eastern Palace Super God family chased in without any hesitation! Immediately afterwards, a few strong men from the Sanlu Super God family followed in quickly!

At this time, the Donggong Zhentian and Sanlu Taibao, who were strolling in the leisurely courtyard, just rushed to the top of the holy peak.

When they saw the purple light curtain on the top of the holy peak, they suddenly had an ominous premonition in their hearts.

Immediately afterwards, they witnessed several powerhouses of the two super **** families walking into the small black room.

"No..."

But their voices are still slow.

At this moment, a beam of light flashed from the door of the small black room opened, and then, the super **** family powerhouses who were still in the light curtain felt a strong suction coming from the small black room. , This strong suction actually made the strong men outside the small black room involuntarily move towards the door of the small black room.

Unfortunately, Donggong Shulan, who was originally only here to increase his knowledge, was also sucked in by this powerful suction!

"Shulan!" Sanlu Taibao shouted.

boom!

boom!

Donggong Zhentian and Sanlu Taibao shot at the same time, instantly blasting the purple light curtain!

As the purple light curtain was shattered, the door of the little black room suddenly closed!

No matter how Sanlu Taibao blasted the little black house, the little black house won't move!

"Shulan..."

Chapter 4944: : Li Mu is here too

Sanlu Taibao is roaring!

Sanlu Shulan, how could this girl appear here?

She was watching the excitement, and Santian Taibao had also agreed and asked Sanlu Shangqing to guard this girl.

It was a foolproof thing, but now something went wrong!

But Sanlu Taibao couldn't show that he only cared about his girl, he also needed to show that he cared about other super domain masters who entered the small black room.

"Sanlu Taibao, don't worry, several good players of our Donggong Super God family have also followed into this small black room. With their protection, there will be no accidents for the daughter!" Donggong Zhentian's heart is also full of anger, so many powerhouses besieged four super domain master juniors, one super domain master intermediate powerhouse, and another domain master level trash with no combat ability, it will end up like this. Feeling ashamed.

However, no matter whether it is embarrassing or not, the Donggong Super God Family still needs to continue cooperating with the Sanlu Super God Family. He must also resist his anger to care about his allies and appease his allies!

"This...what on earth is this little black house made of? Why is our attack completely ineffective?"

Sanlu Taibao is still struggling with the structure of this small black house!

"This little black house, and these four steles, if I guess right, it should be the sun shining stone!"

"There is such a huge sun flare stone? No wonder..."

The sun shining stone is something that only exists in the legend.

It is said that the hot magma flying out of the sun was formed when the sun was active.

We must know that the mass of the sun makes the sun's gravitational force reach beyond imagination, and even the earth world is revolving around the sun. Under normal circumstances, the powerful attraction of the sun makes the sun's sphere no matter how it moves, it will not magma from the sun. Flying out of the sphere.

However, in the ancient and ancient legends of the Nether Realm, there are three suns in the sky of the Nether Realm, one large and two small.

And those two little suns were destroyed by the **** kings of the ancient and ancient times, and some of the sun shining stones fell into the nether world.

It's just that the sun shining stone is extremely rare. Even the Eastern Palace and the Sanlu super **** family do not have the sun shining stone. Even the white horse super **** family once had a sun shining stone, and that sun shining stone was also made by the white horse super **** family. An artifact, but this artifact fell into the hands of a mysterious woman during the Battle of the Ten Thousand Gods Mountain.

"Just now, there was a huge suction from the small black house. It seems that the beasts opened the passage of this small black house to a certain secret realm, but... I don't know where this secret realm passage leads to!" Sanlu Taibao thought with some anxiety in his heart!

The wood is done, and now Sanlu Taibao can only hope that Sanlu Shangqing can protect Sanlu Shulan's comfort, and then return to the Netherworld safely!

...

Endless darkness!

Li Mu, Ziyang Thunder Bear and others were all suspended in the air.

In unexpected places a few kilometers away, there were more than a dozen metal squares of various sizes suspended.

Farther away, there is a huge metal land that can't be seen at a glance.

There was no light in this endless darkness, but...Li Mu had gradually adapted to this darkness.

Looking at the surroundings, no, to be precise, the surroundings and the heavens and the earth are in this endless darkness, and Li Mu is a little dazed!

"Where is this place? Are we already dead?"

"Hahaha, it's not easy to want to die! Old Niu, tell this kid where we are now?" Ziyang Thunder Bear began to clean up the wound with the green tree, grinning.

The Yinmosilver Bull Territory Lord looked around, then sighed, and said: "This is the place where the beast gods left us ghost beasts to practice, a secret realm called the metal world! But...this place is full of The threat, even the super-domain master-level powerhouse, may be beheaded by a more powerful existence. Therefore, the great beast gods wrote very clearly on the four stone tablets. If our cultivation base has reached the super-domain master realm, It's best not to open the little black house rashly, and not to enter this metal world rashly!"

The earth evil sky eagle domain master flew up and landed on the back of the Yinmo silver bull domain master, flashing his wings and hit the Yinmo silver bull domain master.

"Damn old cow, you just need to understand what this place is, what nonsense? Small scene, don't listen to the old cow nonsense, this is a secret, but it is definitely not as dangerous as we imagined! The ancestor of the Nether Beast, the great beast god, he once entered this secret realm. Hasn't he returned to the Nether Realm without incident?"

"Furthermore, the beast ***** recorded on the stone tablet very clearly. The exercises and insights on the stone tablet are the beast gods' understanding based on the miracles in this secret realm, and then they are recorded on the stone tablet, so that the backs of the beast gods have a chance to never In the case of entering the metal world secret realm, the cultivation level can also be improved as soon as possible. You see, because of the practice on the stone tablet and the ability to understand the stone tablet, we can get such a rapid improvement in the cultivation level in a short time. "

"Now, we have come to the metal world. Based on our understanding and insights of the stele, if we go to the miraculous mountain, our cultivation level will definitely be improved faster! It will not take many years for us five The cultivation base can break through to the super domain master's seventh-level peak realm..."

"Wait...Why is it the seventh-level peak of Super Domain Master? Is this the upper limit?" Li Mu asked puzzledly.

When Li Mu was cultivating at the top of the holy peak, the domain master of the Purple Flame Thunder Bear did not teach Li Mu the beast language, nor did he hand it over to him.

The words and exercises on the stele were translated by Ziyang Thunder Bear and others to Li Mu, and Li Mu came to practice!

It's just that Ziyang Thunder Bear and the others didn't expect that the so-called genius is that even if they only translated part of it, Li Mu's cultivation realm has far exceeded them!

"Isn't this, it's just that the great beast **** told us that there are various taboos in the metal world. If our cultivation realm reaches Super Domain Master 8 or above, we will be trapped here forever, and we can never leave the metal world !" said the landlord of the evil sky eagle.

"That's it!"

Li Mu's mood suddenly improved a lot!

Escape from the dead, if you don't die, you will have a blessing. As long as you think about it, this metal world doesn't seem so unacceptable!

At this moment, a strong power fluctuation suddenly came from a kilometer away!

Those metal squares began to change into metal creatures of various forms, and among those metal squares, several human figures kept flying around.

"It seems to be from the Donggong Super God family! Damn, some of these guys have also entered this metal world!"

Chapter 4945: : Yuanjia Road is narrow

Seeing the super domain masters of the Eastern Palace Super God family being besieged by so many Lingjin tribes, it feels... really amazing!

If there is beer barbecue, Ziyang Thunder Bear would definitely be willing to sit while drinking beer and eating barbecue, and then happily watched the Donggong Super God family being beaten by the Lingjin tribe!

As for the so-called everyone is the same kind from the Netherworld, come to help?

Haha, are you sure you are not joking?

Save the super **** family?

Forget it, it's better to save a dog than to save them!

At least nine dogs will be saved. The dog knows how to be grateful. The dog will wag its tail for you and lick you with tongue to show intimacy.

But these guys of the Eastern Palace Super God family, even if you save them, they will want to spread the resentment of entering the metal world on the purple flame thunder bear and others.

When the time comes, you are kind to save people, and you will be chased down by these inferior animals, why bother?

The purple flame thunder bear awakened the star domain master and the Great Emperor Canghai, turned and walked towards the huge metal land in the distance.

And not long after they left, several strong men of the Eastern Palace Super God Clan also escaped from the encirclement and suppression of the Lingjin Clan strong men, but they chose a wider endless darkness as the route and direction of escape.

Did not see Li Mu and others go to this huge metal land.

Falling on the metal land, Li Mu and others looked at everything around them curiously.

This metal land is the land farthest from the fairyland among the twelve metal landmasses. It is called the Haida District, also known as the Haida.

There are twelve regions and twelve metal continents, but each metal continent is not exactly the same.

For example, the large metal area in front of Li Mu, where the metal land is covered with dense metal jungle.

Real giant steel trees are everywhere.

Can you imagine that beautiful picture?

It's as if you are in a dense forest now, and suddenly all the trees, flowers and plants around you have changed into steel products. That scene, thinking about it, is very... weird, isn't it?

Now Li Mu and others feel this way.

Looking at these metal and steel forests, the expressions on the faces of several super domain master level ghost beast experts are quite strange.

These guys lived in the forest when they were born. If one day, the dark forest really became like this, then they would really want to cry without tears.

Whether it's curiosity or novelty, after a short period of adaptation, everyone began to move forward cautiously.

"Look, this is..."

Suddenly, the Tiangang flame raccoon domain master discovered that there were some blood stains in this steel forest, and the blood stains kept flowing far away.

"It seems that this world is really not peaceful, but I don't know what kind of terror exists in this metal world?"

"The metal world, there is metal everywhere, and blood can be seen, indicating that the injured person must be a monster. Or let's go and check it out. If there is danger, we will turn around and leave immediately!" Li Mu said.

"Alright! If I'm right, we should have arrived at a certain continent in the metal world. There must be miracles on this continent. If we have the opportunity, we should also see miracles and see At a glance, what kind of effect will we have if we enlighten the miracle?" Zi Yan Lei Xu said.

Now that they have come to the metal world, everyone can't stand still because they are afraid of danger. If they really do this, their cultivation level will not be improved. On the contrary, danger will accompany them.

Ouch!

Suddenly, a roar of a wild animal came from the metal jungle in the distance.

"Could it be... is it a ghost beast? Are there other ghost beasts in this metal world?"

Hearing the roar of the beast, the faces of several Nether Beast Domain Masters showed a hint of excitement at the same time.

"Maybe there will be, maybe it was not only the great beast **** who entered the metal world, but other ghost beasts followed into this world, but they did not leave this world!"

The long drought meets the rain, and the old one knows in another country.

This is of course a great blessing in life.

At this time, these four stupid guys did not even think of the existence of metal and steel beasts in the metal world. They hurriedly pulled the star domain master, and the Great Emperor Canghai rushed in the direction where the beasts roared!

Whoosh!

Whoosh!

The movement speed of the crowd is very fast, but they dare not completely let go of the speed.

These metal and steel plants are dangerous everywhere and will puncture their bodies if they are not careful.

Everyone has green trees in their space rings. This small injury will definitely not have any effect on them, but they are not willing to be injured for no reason!

The huge metal and steel plants kept retreating behind them, getting closer and closer to the place where the beasts roared, and the faces of these powerful men could not help showing gratifying smiles.

"Wait, it's not right!" Li Mu said suddenly: "Have you noticed that the direction I moved now is the direction where the blood finally disappeared, which means that maybe it is not a ghost beast in front..."

"Haha, I feel like it must be a ghost beast! The poor little guy did not know why he fell in the steel jungle. There were wounds everywhere on his body. While walking, he used the tree green to treat the wounds. After the wounds are healed, then Go up to the sky and scream, tell these steel trees, I will come back!"

I rub!

Hearing this explanation from Yin Mo Yin Niu Territory Lord, Li Mu really didn't know what to say.

"It's better to be careful, after all, this is and is no longer our dark forest!" said Ziyang Thunder Bear.

Everyone continued to move forward, but their movement speed slowed down again.

Moving on, through the steel jungle, Li Mu, and others, you can see the human figures flashing constantly, and the beasts constantly roaring.

"Someone is fighting!" The Star Domain Master whispered.

"Go ahead and see, if the enemy's cultivation strength is very strong, we will turn around and leave!"

Li Mu and the others slowed down again, and walked over.

They saw a clearing appear behind this steel jungle, and in this clearing, a dozen metal and steel beasts were besieging the two!

These two people, one of them has a very advanced level of cultivation, and the level of cultivation has reached the early stage of the seventh level of Transcendent Lord. He is facing the siege of so many metal and steel beasts, but he is not panicked, just because he wants to protect his back. The girl of, this super domain master class powerhouse is restrained everywhere.

"what!"

The cultivation level of the girl behind her was completely unworthy in front of these metal and steel beasts, she could only scream and evade ceaselessly.

"It's a guy from the Sanlu Super God family!"

Add an explanation here.

The passage from the Nether Sea of Weeping that Li Tian and others passed through to the metal world could not transmit the superdomain master level powerhouse. However, the small black house on the top of the holy peak was built by the sun shining stone and by the great beast gods, so this passage to the metal world can transmit the super domain master power. Just like the super domain master powerhouse of the wolf riding clan can also enter the metal world.

The original super domain master-level powerhouses still have a certain ability to survive in the metal world, but it is a pity that Sanlu Shangqing and Sanlu Shulan fell into the world where the metal steel orcs are!

"Miss Shulan, even if I fight for my life today, I will protect the lady from safety. You must follow me closely and don't panic..."

Chapter 4946: :To shut up!

Sanlv Shulan has all the hearts that want to cry.

She wants to become stronger, so he, who is loved by his father, always follows his father and participates in various battles.

Anyway, with her father by her side, she didn't believe anyone else could hurt her!

But... how could it be so unlucky this time?

More than a dozen super-domain master-level powerhouses besieged five super-domain master-level powerhouses, both in terms of number and strength.

This is a battle without suspense.

But, the result?

At the summit of the holy peak, not one of the five super domain master-level powerhouses was beheaded by them, but the beasts played round and round.

Even her lovely, natural and pollution-free little beauty was sucked into this ***** little black room, and then came to this more ***** secret!

"what!"

Sanlu Shulan evaded the attack of these metal beasts and let out a few more screams!

Damn it, if in the dark forest, daring to have wild beasts treat her like this, Sanlu Shulan would definitely kick these beasts' heads without hesitation!

However, this place is no longer in the dark forest. The cultivation strength of these metal and steel beasts is around the fourth and fifth level of the super domain master. How could she be the opponent of these beasts, this poor and delicate little girl!

Another metal and steel beast pounced on Sanlu Shulan!

"Miss, be careful!"

Sanlu Shulan wanted to evade, but his feet slipped and almost fell to the ground!

And in such an instant, the metal and steel beast had already rushed over!

"Beast, die!"

Sanlu Shangqing roared, turned around, and slammed a palm on the metal and steel beast that was rushing towards Sanlu Shulan.

boom!

With a loud noise, the metal and steel beast flew out more than ten meters, and then slammed heavily on a giant steel tree.

Metal and steel beasts are different from the beasts of the underworld or the earth world.

Even if the bodies of those wild beasts are cracked apart, they will not be seriously injured. They only need to practice for a while in place, and their bodies will recover again.

After all, the entire body of these metal and steel beasts is metal, and they have no veins, heart, muscles, etc.

At the moment Sanlu Shangqing turned and bombarded this metal and steel beast, four metal and steel beasts rushed over, biting on Sanlu Shangqing's arm!

puff!

Sanlu Shangqing turned and attacked these metal and steel beasts, but even so, his arm was still torn off a large piece of flesh and blood.

Tick!

Tick!

The blood continued to slide down his arm, dripping onto the ground.

"Miss is okay?"

"Uncle Shangqing...I'm sorry...Woo..."

"Stupid boy, it's not your fault! It's just that we suddenly came into this strange world, and we are walking with other people in our Sanlu Super God family. Otherwise, these metal and steel beasts want to hurt my hair. !" Sanlu Shangqing's arm hurts very much. After being bitten by these metal and steel beasts, his entire arm seems to be swollen.

It may be because the teeth of these metal and steel beasts have bitten some other creatures, and there are certain germs on the teeth. Therefore, at this time, we must hurry up and clean the wound with tree greens. Otherwise, if it takes too long, his The arm will most likely be lost!

"Miss... don't cry first, listen to me!" Sanlv Shangqing provokes pain and comforts Sanlv Shulan, and when Sanlv Shulan stops crying, Sanlv Shangqing continues to say: "Miss, These metal and steel beasts are not so easy to deal with. Unless I fight them desperately, it will be difficult to repel this group of beasts, so we must leave here as soon as possible, and we will retreat while fighting!"

Sanlv Shangqing knew that if he continued to fight, his arm would definitely not be able to keep it, and both he and Sanlv Shulan might be damaged here.

Sanlv Shulan saw that Sanlv Shangqing's arm was swollen just like a pig's hoof in an instant, and she realized that it was time for a decision!

"Uncle Shangqing, if it were not for my Sanlv Shulan, Uncle Shangqing would definitely not be hurt!" Sanlv Shulan was full of guilt, looked up at the direction of Li Mu and others hiding, and then said: "Shangqing Uncle, I don't want to be your burden, you have to take care..."

The moment after saying this, Sanlv Shulan turned and ran towards Li Mu and the others!

"Silly girl....."

Sanlv Shangqing wanted to protect Sanlv Shulan, but at this moment, a few metal and steel beasts pounced on Sanlv Shangqing!

Sanlv Shangqing was immediately entangled by these metal and steel beasts, and it was impossible to estimate Sanlv Shulan!

"Girl..."

"Girl..."

Sanlv Shangqing was very anxious, but he had no way to get away, he could only watch as a metal and steel beast that was attacked and flew by him chased Sanlv Shulan!

...

I fuck!

Li Mu was just watching the show here, they didn't even think about going to Sanlv Shulan, but... the guy Sanlv Shulan ran towards them.

What should I do?

Just now, the Purple Flame Thunder Bear Territory Master, Li Mu and others slowly approached on tiptoe. Once they all turn around and run away, they will surely alarm the metal and steel beasts. Maybe Sanlv Shangqing will also Bring these metal and steel beasts on purpose.

After all, the dead Dao friends do not die the poor Dao, not to mention that these Donggong Super God Clan was meant to deal with Li Mu and others!

The faces of the Star Domain Master and the Great Emperor Canghai could not help showing flustered expressions, and their eyes were a little erratic.

They are domain master-level powerhouses. They used to be aloof in the Netherworld, but when they came here, the two of them were just poor creatures with the weakest cultivation base. Therefore, when the danger approaches, these two domains The main level powerhouse will also feel fear, will also feel afraid, and also want to escape from here.

"Don't act rashly! Give me the metal and steel beast that came after it!" Li Mu whispered.

A hint of worry flashed across Ziyang Thunder Bear's face.

"Small screen, can you?"

Metal and steel beasts, even Sanlu Shangqing is very difficult to deal with now, and now he is in deep danger. Li Mu only has the fifth level of the super domain master, can he do it?

In the same future, there are three other super domain masters.

Li Mu nodded slightly.

This **** bitch!

Sanlu Shulan had already ran over, jumped up and jumped from a clump of metal and steel thorns.

The thorns tore through Sanlu Shulan's pants, exposing her snow-white thigh, but there was another wound on this thigh.

Only a few seconds later, the blood from the wound was flowing out.

shocking.

As he passed over, Sanlu Shulan's light swept to Li Mu and others who were hiding behind the thorns.

"you guys....."

Li Mu threw Sanlu Shulan to the ground like a beast, rolled on the ground twice, and then pressed her mouth!

"Shut up, or I will kill you!"

But at that moment, the metal and steel beast followed Sanlu Shulan and jumped over, staring at Li Mu, his mouth constantly roaring.

Chapter 4947: : "Beasts Hurrying Wind"

The metal and steel beast stares at Li Mu!

Li Mu also stared at this metal and steel beast!

Li Mu, the fifth level of Super Domain Lord, this metal and steel beast is also the fifth level of Super Domain Lord!

The same cultivation base, different races, but also one-on-one, this battle is definitely a battle.

However, Li Mu must take the actual situation into consideration, because there are other metal and steel beasts not far away, as well as Sanlu Shangqing, a superdomain master of the seventh level.

Therefore, Li Mu must find a way to defeat this metal and steel beast, but cannot alarm the other beasts and Sanlu Shangqing!

Huh!

Huh!

The metal and steel beast has seen the Purple Flame Thunder Bear and others hiding behind the thorn bushes, but in the eyes of this metal and steel beast, the Purple Flame Thunder Bear and others' cultivation is not enough to harm him.

Therefore, the metal and steel beast directly ignored these guys.

"This should be the Metal Gangye Orcs mentioned by Uncle Ziyang Thunder Bear! Since it is a beast, then my "Beasts of the Wind" should have a deterrent effect on him!" Li Mu thought in his heart.

Although Li Mu's "Hundred Beasts Gale Jin" is not so powerful now in actual combat, once it is displayed, its deterrence against the ghost beast is exceptionally strong.

When Li Mu just created this set of exercises and combat skills, Li Mu did not use any spiritual power fluctuations, and the moves and posture alone were enough to make the Purple Flame Thunder Bear feel fear.

Therefore, the current Li Mu can only take a gamble!

He bet that "Beasts of the Wind" is also useful to the metal steel orcs in the metal world!

"Woohoo!"

"Woohoo!"

Under Li Mu, Sanlu Shulan was constantly twisting her body, she wanted to break free from Li Mu's hands.

Li Mu pressed her mouth, but Sanlu Shulan kept making noises, as if she really wanted to use her movements to attract other metal and steel beasts.

"Fuck! Don't blame Lao Tzu for being rude to you if you move around!" Li Mu cursed involuntarily!

However, Li Mu's words didn't make any difference, and Sanlu Shulan was still twisting her body.

I fuck!

Li Mu suddenly became a little angry!

This ugly woman, are you **** trying to kill us all?

Thinking of this, Li Mu didn't know how he thought of it, and he reached out and caught on the proud double peaks of Sanlu Shulan!

At this moment, the world was quiet instantly!

Sanlu Shulan did not expect that Li Mu would do such a thing at this time, and there was an expression of disbelief in her eyes.

The Star Territory Lord and the Great Emperor Canghai couldn't believe their eyes. They didn't expect Li Mu to have such a leisurely and elegant atmosphere at this time. It was...really...a father must have a son!

The master of the purple flame thunder bear, the master of the earth eagle, the master of the raccoon flame, and the master of the Yinmo Yinniu domain stared at Li Mu in amazement.

Then the four guys showed a smile on their faces at the same time, and they gave Li Mu their thumbs.

Nether Beasts, super domain master-level powerhouses, although they can already become humanoids, they also possess human thinking.

But the blood of wild beasts is still flowing in their bodies, if they see the ghost beast they like, they will still be like wild beasts, first take it forcibly.

Before, they felt that Li Mu was too simple, as if he was a child who had not grown up.

But now...

"Haha, this kid has finally grown up!"

"Greeting to congratulate, congratulating to congratulate!"

"Shut up to me, do you still want to attract other beasts?"

The most depressing one is probably the metal and steel beast staring at Li Mu. It hasn't figured out that Li Mu is going to make wool?

Tilted his head and stared at Li Mu with a puzzled face.

Li Mu was also shocked by his actions.

Under him is a girl. Although this girl looks good, but... this guy is from the Eastern Palace Super God family. How could he do such a shameless thing?

"Sorry! I didn't mean it!" Li Mu said.

After saying this, Li Mu stretched out a palm in Sanlu Shulan's surprise, knocking Sanlu Shulan out!

Li Mu didn't master the skills to stun people, and nearly beat Sanlu Shulan to death.

Regardless of Sanlu Shulan, Li Mu slowly stood up.

He cannot use spiritual power, otherwise he will attract other beasts.

Of course, if it is really necessary, Li Mu will not stick to this.

Li Mu moved!

He did not directly rush to the metal and steel beast, but began to slowly display "Beasts of the Wind"!

Although he didn't use any spiritual power, each of these moves and styles were majestic, and in this powerful move, he could still feel a trace of murderous aura!

This metal and steel beast can't feel the spiritual power of Li Mu, but it can also be shocked by this move!

just.....

The metal and steel beast is grinning teeth, slowly pushing towards Li Mu!

The two domain masters and the four super domain masters held their breath at the same time, and they almost lifted their hearts to their throats.

"If... If the small screen can't deal with this metal and steel beast, then we will throw Sanlu Shulan's corpse out, and then hurry up and escape!" Ziyang Lei said in a low voice.

The other strong nodded slightly.

At this moment, the metal and steel beast moved!

Quiet like a virgin, moving like a rabbit!

At the moment this metal and steel beast pounced on Li Mu, Li Mu felt that he was locked by a wild beast. If he did not use his spiritual power, he would not be able to break free from the metal and steel beast's attack!

calm!

When it is not a last resort, you must not use spiritual power!

Li Mu didn't panic, and when the metal and steel beast was about to pounce on Li Mu, Li Mu moved instantly!

He stretched out a palm to lure the metal and steel beast, and then when he touched the beast's body, Li Mu turned around, followed the direction where the beast was leaping, and suddenly used his spiritual power, and a palm hit the metal On the back of the steel beast!

Use spiritual power instantly, and hold spiritual power instantly!

All of this happened in an instant. Coupled with the cover of spiritual power released from the metal and steel beast, even the Purple Flame Thunder Bear and others did not feel any fluctuations in spiritual power, and the metal and steel beast was already caught by Li Muye. Climbing to the ground with palms!

In this move, Li Mu joined the Tai Chi move again!

The metal and steel beast missed a hit, but was knocked to the ground by Li Mu, and finally became even more frightened.

Then in the next few rounds, this metal and steel beast never took any advantage, but was beaten and rolled all over by Li Mu!

"Woohoo!"

This metal and steel beast let out a low roar, as if crying aggrievedly, looking at Li Mu resentfully, then... suddenly turned his head, turned and fled!

call!

Li Mu let out a breath, but felt extremely dangerous in his heart!

Turning his head to look in the direction of Sanlu Shangqing, he found that the awkward Sanlu Shangqing was only in such a few minutes, because his arm was abolished and he could not get timely treatment, he gradually invaded other areas of the body. The combat power exploded and was torn to pieces by those metal and steel beasts.

Li Mu looked at Sanlu Shulan who had fainted on the ground, hesitated for a moment, and reached out his hand to lift her up, resisting her shoulders, and then said to the other super domain masters:

"I have mastered it. The way to deal with these metal and steel beasts, let's go! Go and see the miracles on this continent!"

Chapter 4948: Illusion

When Li Mu and others progressed to the metal world, Li Tian was still working as a cleaner among the bones of the prehistoric dragons in the miraculous mountain!

He naturally did not know what was happening in the outside world, nor did he know that Long Yin, Ziyang Thunder Bear and others would enter the metal world through other secret realm channels.

The metal world is like a fishing net full of holes, and there are secret passages into the metal world everywhere.

At this point, the earth world and the metal world were somewhat similar.

It's just because the earth world is a small secret realm compared to other worlds, and the earth world once had the power to destroy all the passages from other worlds to the earth world, this will not let the world on earth ordinary people be attacked by alien species.

Of course, if Li Tian can reach the realm of a god, he can also open up channels at will.

For example, to open a channel from the earth world to the metal world.

Let's talk about Li Tian's cultivation base, his cultivation base has not improved in a short time, and Li Tian also put more energy on refining the red cut, unfolding the dragon map, refining the black beads, and controlling the cyan dragon.

Greedy to chew, but with this kind of treasure in front of him, Li Tian always couldn't help but want to cultivate and refine.

Time goes by, and years go by.

As long as Li Tian can settle down to deal with cultivation, he can achieve good results.

Entering the tenth year of the dragon's keel, Li Tian finally broke through again and reached the second level of the super domain master!

And Li Tian has allowed the Dragon Chart to expand to a width of two inches.

The red cut remains the same, the black beads remain the same, and the blue dragon remains the same!

Entering the fifteenth year in the bones of the prehistoric giant dragon, Li Tian broke through again and reached the third level of Super Domain Lord!

The dragon chart can be expanded to a width of three inches.

Li Tian could finally feel the human soul in Hong Zhan again, which showed that Hong Zhan had a tendency to be refined.

The black beads remain the same, and the cyan dragon remains the same.

Entering the eighteenth year of the bones of the prehistoric giant dragon, Li Tian broke through to the fourth-level realm of the super domain master.

The dragon map can be expanded to a width of four inches, and Li Tian can already see some useful information through the expanded dragon map.

The soul in Hong Zhan said that she was also refining Hong Zhan's spirit! Now she is on par with her spirit!

It's really gratifying!

In this way, the little **** Hong Zhan didn't want to control Li Tian anymore.

The black beads in the atrium seemed to be loosening, and Li Tian could already feel the spiritual power fluctuations in the beads.

Li Tian's atrium changed a lot, and some water mist gradually appeared.

If the mountain is not high, the immortal is the name, and the water is not deep, the dragon is the spirit.

These mists were sprayed by the cyan dragon.

This is the first time this blue dragon has taken the initiative to swallow clouds and fog since Li Tian cultivated this dragon!

Yes, yes, at least this cyan dragon has already begun recruiting for Li Tian, and has begun to actively think about changing Li Tian's atrium environment.

Worth encouraging!

Entering the twentieth year of the bones of the prehistoric dragon, Li Tian finally came to the position of the dragon head of the prehistoric dragon.

Looking at the dragon head bones in front of him, Li Tian felt something different in his heart!

Within the body veins, spiritual power is about to move!

Li Tian knew that it was time for a breakthrough again, so happy!

However, this feeling of eagerness lasted for a long time, but it just didn't break through!

Damn it, Li Tian can only continue cleaning the bones of the prehistoric dragon!

The ***** thing is that the bones of this prehistoric dragon are not so huge. Even if Li Tian doesn't stop at all, it will take about two or three weeks to clean it!

"Finally, my Li Tian is finally about to be liberated!"

Li Tian really felt like cheering in his heart, he really wanted to stand up and dance.

But... you still have to keep a low profile, don't fall short, in case this great dragon don't like Li Tian cleaning, if you are trapped here for another twenty years, then Li Tianke will have the heart to die!

"I don't know how far Situ Ningbing's cultivation level has reached? Hahaha, what I am comprehending is this great dragon. It shouldn't be difficult for their cultivation to reach the Transcendent Master Realm, but they want to reach my current level. I am afraid it will not be easy to achieve the fourth level of Super Domain Master!"

"And Ye Meijing, maybe this guy hasn't realized it for twenty years? If that's the case, this woman is too wasteful! Just stay by my side and warm up my bed. Yes, yes, yes, you must not create a second generation with your wife, or it will affect their cultivation talent!"

"Liu Jimeng's talent for cultivation seems to be good...tsk tsk"

Thinking of Liu Jimeng, Li Tian started to have a dim sum again.

Liu Jimeng, a great beauty, has been vacant for twenty years, which is definitely a huge waste of resources.

"Twenty years, **** it, I've been stubborn for 20 years. After I go out, I must take three beauties into the space of Void Yasha..."

Thinking of this, Li Tian couldn't help sighing again!

I don't know what the situation of the three Xiaoyasha, Black Smoke Tuan'er, Xiaotianyi and others in the void of Yasha space is now.

In twenty years, if they can enter the metal world and come to the miraculous mountain in these twenty years, then their cultivation level can definitely be improved again.

Li Tian couldn't help but feel sorry for them!

"I don't know if there is a unique place in the metal world that will allow me to bring them all out of the void of Yaksha, and let them at least feel the power of Miracle Mountain. The future will be good for their cultivation!" Li Tian thought in his heart.

But no matter what Li Tian thought in his heart, the first thing he did now was to clean the bones of the great dragon!

The more he felt that it was about to end, the more Li Tian felt that time passed slowly.

Li Tian hasn't felt this way for a long time.

"Come on, Li Tian, come on!"

This product is boring to the extreme, so I cheer myself up.

"Scrubbing, scrubbing! Scrubbing, scrubbing, oh..."

Li Tian's hands moved faster and faster, faster and faster.

At this moment, Li Tian suddenly heard that the dragon head bone of the great dragon suddenly moved at this moment!

"Huh? Fuck... the bones of this great dragon actually moved? Isn't this my illusion?"

Li Tian stopped immediately!

The bones of the great dragon are immobile!

"I wiped it, it seems that I was too focused, and there will be hallucinations! Your sister!" Li Tian scolded two swear words and continued to clean up.

The more it was cleaned up to the end, Li Tian felt that the spiritual power in his body veins flowed faster, and even Li Tian felt as if the spiritual power seemed to be about to spray out of his body.

At this time, Li Tian had cleared the last two dragon horns of the prehistoric dragon!

"It's finally over! My Li Tian is finally going out from here!"

Li Tian felt like he wanted to look up to the sky, and the spiritual power released by his palms slowly swept across these two dragon horns!

boom!

Chapter 4949: : Playing big!

When Li Tian wiped the last two keels, he instantly felt that the keels were shaking violently!

"Fuck, it's definitely not an illusion this time!"

Li Tian wanted to jump off the head of the keel, but his hands seemed to be glued to the horns of the keel!

Immediately afterwards, Li Tian felt a piercing pain in his palm.

But I don't know when the spikes on the keel dragon's horns have already pierced his palm!

The blood continuously flowed out from Li Tian's palm, and soon penetrated into the dragon's horns!

At this moment, Li Tian felt that his palm was suddenly empty!

That's right, it's empty!

The dragon horn suddenly disappeared!

No... it's not just the dragon horns, your sister's entire dragon bones are all gone!

Li Tian's palm, the whole arm, and even the whole body began to feel a sharp pain!

If Li Tian looked at it at this time, he would see the disappearing giant dragon keel, after being compressed, it had transformed into a one-foot-long white-bone little white dragon, appearing in Li Tian's body veins!

However, this little white dragon did not swim towards Li Tian's heart, but after entering this body vein, it seemed to melt into Li Tian's body vein, and began to seep into the spiritual power in Li Tian's body vein. .

In Li Tian's body veins, there were originally ninety-nine spiritual little dragons, but now these little dragons have started to grow bones in their bodies!

Clearly visible!

Not only that, the melted bones of the dragon and the great dragon moved around Li Tian's body with spiritual power, and began to adapt the skin of Li Tian and transform the bones of Li Tian!
pain!

Super pain!

Li Tian had never felt such severe pain.

It was as if the bone fragments of his great dragon swallowing his bone marrow, and then it was about to replace it!

It's not just bone pain, Li Tian felt his whole body aches!

He looked down, his body was already dripping with blood!

"I...fuck, what is this?"

Li Tian saw that a layer of snake scales appeared on the surface of his body.

These scales are shining, and as long as Li Tian's mind moves, these scales can actually tremble slightly with Li Tian's mind!

"Could it be...could it be..."

Li Tian can't imagine it anymore!

Is your sister's Laozi going to become a dragon?

Li Tian felt that this scene seemed a bit familiar, but at this time, Li Tian was not in the mood to recall that this scene actually happened!

"Damn the great dragon, wouldn't it also want to control my body?"

Li Tian felt that he didn't know when he seemed to become Tang Seng, and that monster wanted to bite him.

"Your sister!"

Li Tian wanted to reach out and tear the scales from his body, but the moment he raised his hand, he saw his arm. There was already such a dense layer of scales on the back of his hand, and such a layer of scales appeared all over his body. It's a dragon scale, and it's the dragon scale of the great dragon!

The pain is still going on, and Li Tian can feel that his body bones have also changed into keels in the intense pain!

A keel harder than steel!

The fairy Li Tian is a little desperate!

"Is I going to become a monster?"

And at this moment, countless spiritual powers began to rush into Li Tian's body madly!

boom!

Li Tian's long-awaited cultivation realm breaks again!

Li Tian has reached the fifth level of Super Domain Master!

And spiritual power is still pouring in continuously.

At the beginning of the fifth level of Super Domain Master...

Super Domain Master 5th level mid stage...

The fifth-level pinnacle of Super Domain Master...

boom!

Li Tian's cultivation level broke through again.

At this time, Li Tian's cultivation realm had reached the early stage of Super Domain Master 6!

Li Tian was very surprised!

Is this the rhythm of continuous breakthrough?

This is the super domain master realm!

Can the super domain master level achieve continuous breakthroughs?

A steady stream of spiritual power poured in!

The cultivation realm is still growing rapidly.

At the beginning of Super Domain Master Level 6...

Super Domain Master Sixth Level Middle...

The sixth level of Super Domain Master...

your sister!

That's so cool!

Although Lao Tzu has become like this big lizard, the realm of cultivation is really real!

If this breakthrough speed continues, it shouldn't be difficult to break through to the seventh-level peak of Super Domain Master!

Sure enough, Li Tiangang thought of this, he broke through again!

boom

Li Tian's cultivation realm has reached the early stage of Super Domain Master 7th level!

The speed of spiritual power pouring into Li Tian's body veins did not slow down much!

At this time Li Tian was already a little scared!

your sister!

Dare to break through!

Fuck me, if I break through to the eighth level of Super Domain Master, would I be trapped in this **** metal world?

but.....

The growth of Li Tian's cultivation base does not depend on his will!

At the beginning of Super Domain Master Level 7...

Super Domain Master's mid-level seventh...

Super domain master's seventh-level peak...

When Li Tian's cultivation realm reached the peak of Super Domain Lord's seventh level, the spiritual power that poured into his body veins finally slowed down!

Li Tian finally breathed out in his heart!

I scared my dad to death!

Nima's, if you break through that little bit, even if it's just a little bit of Laozi, it is very likely to reach the eighth level of the super domain master. Then it will not be a surprise, but a hardship!

Li Tian's face finally showed a hint of excitement and sweetness.

And at this moment...something hard happened!

boom!

Li Tian broke through again!

Super domain master's eighth level of early stage!

Super domain master's eighth level of early stage!

Super domain master's eighth level of early stage!

You are paralyzed!

Li Tian only felt that everything was lost!

The whole world seems to have nothing to do with him!

Goodbye my earth world!

Goodbye my Netherworld!

Goodbye my country!

Goodbye my beauties!

Li Tianxiang has the heart to die!

Just a little bit!

It's just a little bit, how come you broke through to the early stage of the eighth level of Super Domain Master?

Heaven, do you want to kill me, Li Tian!

Li Tian, who was still suspended in mid-air just now, began to fall quickly.

Li Tian was so desperate that he didn't even have the heart to resist!

You might as well just fall to death if you are paralyzed!

Super domain master eighth level early!

Laozi seemed destined to die alone in the metal world.

Lazi is destined to stay together with these metal bumps!

Li Tian is falling continuously!

At this time, he finally saw the outside world.

Magnificent metal statue of giant, magnificent mountain of miracles!

It's just... the bones of the wild dragon on the miraculous mountain have disappeared.

The time that Li Tian fell downward did not last long and fell to the ground.

boom!

With a loud noise, Li Tian's body hit the metal floor, and his whole body fell into the ground for nearly half a foot.

Situ Ningbing, Liu Jimeng, and Ye Meijing are all around!

Looking at the three beauties, Li Tian finally cried.

"Woo, I practiced, I accidentally played a big game, now... now my cultivation level has reached the early stage of Transcendent Master 8!"

Chapter 4950: : Stay with you forever

After a long while, Situ Ningbing and others recognized Li Tian!

"Li...is it really you? Is this really you?"

After twenty years of absence, Li Tian changed his appearance.

Now the whole body is covered with tiny scales, looking at... it's really daunting!

Woo, is the paralyzed one now that the ugly one can't even recognize his wife?

Damn great dragon, your uncle!

"Ning Bing, Liu Jimeng, Ye Meijing, you didn't read it wrong, you don't have to doubt it, what you see is me! It's your dearest husband, Li Tian!" Li Tian said bitterly.

Ye Meijing and Liu Jimeng both stepped back a few steps back when Li Tian fell, and now I hear Li Tian's voice again... Well, in the past twenty years, Li Tian has always said to himself Yu Yu still gets nervous from time to time and sings two songs, but his voice still changes a little.

Now Li Tian's voice is more calm than before, with the charm of a middle-aged man with slippery hands.

If you don't look at the face, the voice is quite attractive!

But if you look closely at the face...

Let me go, what the ***** is this!

Big lizard?

Fortunately, there were Lizard people in the Netherworld, so even though Liu Jimeng and Ye Meijing felt a little uncomfortable in their hearts, they came forward and together pulled Li Tian out of the steel ground!

Without further ado, Li Tian was pulled out lightly!

Situ Ningbing stretched out his arm to hold Li Tian and hugged Li Tian in his arms, "Li, we have not seen you in twenty years, we all miss you!"

It can be seen that no matter how Li Tian changes, Situ Ningbing really misses Li Tian and gives Li Tian a warm hug.

Looking at Liu Jimeng and Ye Meijing.

Damn, when I thought that when I was a handsome man, these two little Pi Niangs always liked to lean on Laozi, but now?

Your sister, I just passed a layer of scaly armor, so he avoided me like this?

"Come here, let me hug, let me cry in your arms first!" Li Tian stretched out his hand and said to Liu Jimeng and Ye Meijing.

Without any hesitation, Liu Jimeng walked over and put his arm around Li Tian.

Ye Meijing hesitated for a moment before coming over.

However, Ye Meijingqu did not reach out to hug Li Tian, but went to Li Tian to stretch out his hand and poke the scales on Li Tian's body with his finger, "This...it seems to be real! Li Tian, what can you do? A cultivator can actually cultivate this...this kind of body skin?"

Li Tian's heart was pressing hard, knowing that Ye Jingjing was afraid of him and was too lazy to entangle him.

Holding Situ Ningbing and Liu Jimeng, Li Tian felt his heart gradually calm down.

"Li, can you tell us how you spent the past twenty years? In the process of cultivation, I have been sober several times, but... But I found that you are no longer by our side. I am very worried about you, but I also know that you will not abandon us easily and leave us, so... So in the last ten years or so, I have been worrying about you and thinking about you. My cultivation level is not very high. It's only the fifth-level pinnacle of Super Domain Master!"

"Liu Jimeng and Ye Meijing's cultivation level is actually higher than mine!"

Liu Jimeng held Li Tian in her arms. At first, she was still afraid of Li Tian, but when she held Li Tian and felt Li Tian's body temperature, her heart gradually settled down.

That's right, the man in front of him is Li Tian.

No matter what Li Tian looks like, he will always be Li Tian.

It's like the phrase I said at the wedding when we got married in the earth world, 'whether it's health or illness. Poor or rich, whether you are young or beautiful or old-fashioned, you are always willing to be with him, love each other, depend on each other, stay in love with each other, and never leave forever! '.

Liu Jimeng struggled a bit in her heart and found that she still loves Li Tian very much. No matter what Li Tian looks like, her love for Li Tian still remains the same.

As for the struggle in the heart, it is also normal.

After all, Li Tian's appearance has changed a lot, and Liu Jimeng needs a short adaptation process!

"Li Tian, my cultivation realm has reached the early stage of Super Domain Master 7th level!"

Hearing what Liu Jimeng and Situ Ningbing said, Li Tian was still quite surprised.

Liu Jimeng's cultivation has reached the early stage of Super Domain Master 7?

I knew that I could reach this level of cultivation without entering the dragon bones of the prehistoric dragons. How about I, Li Tian, want to enter the bones of the prehistoric dragons for Mao?

As a result, now, in such a ***** tragic way, my cultivation realm has reached the early stage of Transcendent Master's eighth level, and I am trapped in this cold metallic world forever.

"Not bad! Not bad! Very good! Very good! Come here, let my brother kiss you, and let my brother get into your arms for some warmth and comfort!!" Li Tianlai said nonchalantly.

Liu Jimeng did not hesitate, the original poster contacted Li Tian, and then gave Li Tian a hot kiss!

Fortunately, Li Tian's lips still retain their original sexyness. There are no scales on the lips. Otherwise...cough cough, now it is very unpleasant, so I won't think about the more unpleasant things!

Ye Meijing always stood by Li Tian and stretched out his hand, without giving Li Tian a warm hug!

In this regard, Li Tian did not care much!

Ye Meijing, this little Pi Niang might still be afraid of my appearance!

It doesn't matter. Sooner or later I will warm you with a hot heart, and then let your little Pi Niang roll into Lao Tzu's arms!

"By the way, what level has your cultivation level reached now for Ye Meijing? Why didn't I feel your cultivation level?" Li Tiansong asked if Liu Jimeng and Situ Ningbing released Liu Jimeng and Situ Ningbing.

A panic involuntarily flashed across Ye Jingjing's face.

"me....."

Ye Meijing wanted to blurt it out several times, but in the end she didn't say it.

"It doesn't matter. Even if your cultivation level is not improved, you are still my Li Tian's woman. Now my Li Tian's cultivation level has reached the early stage of Super Domain Master 8th level. In the metal world, he is no longer a weak person, and ...I have now established a certain connection with Hong Zhan again. Refining and refining Hong Zhan is just around the corner. Then we can walk sideways in this metal world! I will protect you!"

Li Tian stretched out his hand to pat Ye Meijing's back, trying to comfort this little Pi Niang, but Ye Meijing turned around and hid away.

"Li Tian, your cultivation level has now reached the eighth level of Transcendent Master, and you will not be able to leave the metal world in the future. Do you want us to stay here with you forever? My Ye Meijing...but I can accompany you You stay in this metal world, stay with you in this world for life, stay with you forever, can you ask them both?" Ye Meijing asked Situ Ningbing and Liu Jimeng.

Li Tianwang looked at Situ Ningbing and Liu Jimeng, although he didn't want to see these women trapped in this world forever, but in his heart he couldn't help but began to look forward to their answers!
