

A Killer 5031

Chapter 5031: : Get together again

The space battleship flies in the endless darkness.

As the space battleship continues to advance towards the destination, the feelings of Li Tian, Li Mu and others who wear the artifacts become more and more clear.

Sacred artifacts, there are still four artifacts missing. If four artifacts can be found in this destination, Li Tian might really be able to leave the metal world soon.

However, Li Tian also noticed a detail at this time. The cloud map that David wore turned out to be the direction recorded by the dragon map in Li Tian's atrium, which means that David had inadvertently broken into the prehistoric dragon house. The land of secret treasures left behind.

In fact, Li Tian should have been looking for the Dragon Clan's Secret Treasure guided by the Dragon Map, but... the place pointed out on the plane of the Dragon Map overlapped with the fairyland. For this reason, Li Tian and the core members of his army were secretly in the fairyland. After searching for nearly three months, the final result was nothing.

Li Tian lowered his head and looked at the star map he was wearing. He saw that the position of the space battleship at this time overlapped with the fairyland, but... Li Tian knew clearly that they did not follow the space battleship after leaving the Hai continent. The star chart he was wearing moved forward.

But why does the space battleship overlap with Wonderland on the star chart now?

In just an instant, a smile appeared on Li Tian's face, and he fully understood what was going on.

"I'm so stupid, I ignored this question..."

Because the dragon map currently owned by Li Tian has not been fully developed, the location of the secret treasure pointed to by the dragon map that Li Tian saw is in the fairyland, coupled with the directional thinking, Li Tian preconceived that the secret treasure was in the fairyland. Will drill the horns.

But the metal world is not a flat world.

As if a skyscraper is a point on the floor plan, each floor of this skyscraper overlaps each other on the map, and the location of the dragon treasure of this prehistoric dragon coincides with the location of the fairyland on the star map. overlapping.

In fact, it is no wonder Li Tian has such an idea.

The metal world is connected to the fairyland, and there are a total of thirteen fast regions. Above the fairyland is the small sun, and below the fairyland is the endless darkness. Who would have thought that the location of this secret treasure was actually in this endless darkness?

It's not just Li Tian. It should be said that in the metal world, except for a few powerful people like David who strayed into this area, no one would foolishly take the initiative to come to this area.

The space battleship continued to fly in the dark. As it got closer and closer to the destination, countless irregular metal blocks appeared around the space battleship, just like meteorites in outer space.

Fortunately, these metal lumps are still suspended, and it is not very difficult for space battleships to fly in dense metal lumps. However, because of these floating irregular metals, Li Tian and others in the space battleship had an indescribable feeling of desolation, as if this place was already on the edge of the entire metal world.

Of course, this is the first time Li Tian has seen this kind of irregular metal lump after coming to the metal world, a kind of inanimate metal lump!

Having been in the metal world for so many years, except for the twelve continents that have no signs of life, the other metal bumps floating in the metal world seem to have life, but those metal bumps are generally regular cubes, not like the metals in front of them. Same as pimple.

Coming here, Li Tian has the feeling of being in outer space for the first time, and even Li Tian now has the illusion of entering "Interstellar War".

These metal bumps are increasing, and the space battleship has to slow down.

David is the only guy in the entire space battleship who has been here. At this time, he is the old driver. He is responsible for guiding in the cockpit of the space battleship to avoid unnecessary accidents. According to the reaction of the artifact in Li Tian's hand, Li Tian knew that they were getting closer and closer to the location of the artifact, but Li Tian also knew that the more he got to this, the more he couldn't worry.

call!

Li Tian let out a breath, closed his eyes and started practicing.

Two or three days had passed when Li Tian opened his eyes again. Looking outside the space fighter, Li Tian found that the dense metal bumps outside the space fighter had disappeared. It seemed that the space fighter had passed through that area.

At this moment, David came to Li Tian and said respectfully to Li Tian: "Master Li Tian, we are here! It's just...just..." After only a long time, David didn't know how to continue to deal with Li Tian. The heavens continued, and a touch of embarrassment flashed across his respectful face, and there was even more fear.

"What's the matter?" Li Tian asked puzzledly.

"Master Li Tian, I'm sure we are now in the mysterious place I strayed into, but...but..." David didn't know how to continue, but several times. After gritting his teeth, he continued: "My lord, let's go out and watch. After going out, you will know that I definitely didn't lie to you..."

Standing in a space battleship, the area you can see is limited after all, and Li Tian doesn't know what happened to David.

Leading David, Li Mu, Ziyang Thunder Bear, Tiangang Flame Raccoon, Earth Evil Sky Eagle, Yin Devil Silver Bull and others to fly out of the space battleship, Li Tian saw that there was nothing but the space battleship all around. It is no wonder David It will behave like this.

If you just judge with the naked eye, Li Tian will definitely wrong David, and even let the boy play him, but at this time Li Tian and Li Mu are very clear that this area is not what they see in their eyes. , Because the artifacts in their hands have reacted very strongly, which means that there are indeed artifacts in this area.

"Master Li Tian, the star map we are wearing has an automatic memory function. I must have been to this place before, otherwise I would not bring you here..." David saw the purple flame thunder bears. An anger flashed across his face, his frightened face changed slightly, and he quickly explained to Li Tian.

There was a smile on Li Tian's face, and he waved his hand quickly to signal the Purple Flame Thunder Bear to stop frightening David, and said, "I believe you!"

"Do you really believe me?" David couldn't believe what Li Tian said.

"Yes!" Li Tian said with a smile.

As Li Tian's voice just fell, there were a few more figures in Li Tian's surroundings. It was Void Yasha, Xiaotianyi, Xiaoqingwa and others who had not seen each other for nearly 30 years!

These guys were suddenly taken by Li Tian from the space of the Void Yasha into this completely dark metal world. First, they were startled, and with a panic expression on their faces, they scanned the surroundings, and soon they fell on the purple flame thunder bear. Human body, and then they are astonished as if they were hell.

But Ziyang Thunder Bear and others were quickly ignored by these guys again, because they were looking for Li Tian, the Li Tian who could summon them from the space of Void Yasha.

Li Tian's appearance has changed a lot, but Xukong Yasha and Li Tian have the same mind. As long as Li Tian is not dead or turned into ashes, he can accurately know that the guy with scales in front of him is Li Tian. It was Li Tian who had lost contact with them for nearly thirty years.

"Master Li Tian..."

"Papa Li Tian..."

"Wow..."

David was completely shocked!

Almost a dozen large eggs can be stuffed in his mouth!

"This...this...what is going on?"

Li Tian didn't have time to explain to David, his left and right hands were very busy, while reaching out to stroke Xiao Tianyi's head, while reaching out to stroke the fluff on Xiao Qingwa's body.

In fact, Li Tian had a strange feeling when he was in a space fighter.

This feeling cannot be described in specific words, but Li Tian felt that there seemed to be some differences between this place and the metal world. Then after he led the crowd to fly out of the space battleship, Li Tian tried to balance Void Yasha communicated for a while, and he realized that he could feel the existence of Void Yasha.

This is the first time Li Tian has felt the existence of Void Yasha in the nearly thirty years since he came to the metal world.

"Master Li Tian...you...how did you become such a ghost? Your current appearance is really...it's so cool!" The three small Yashas have all fallen on Li Tian. They are like curious babies, constantly reaching out their hands to stroke the scales on Li Tian's body. Sometimes they can't help but lift up a scale forcefully, as if to see if Li Tian's dragon scales are still nasty.

"Dad Li Tian, your cultivation level... has reached the peak of the Super Domain Master's eighth level... Ah..., even Xiao Li Mu's cultivation level has reached the Super Domain Master's mid-level ninth level? ...It seems that this secret realm is indeed a holy place for cultivation, and it seems that I really missed the best cultivation opportunity!" Xiao Tianyi was jealous and envious.

I thought that when he was in the Netherworld, Xiao Tianyi was one of the few powerhouses in the Li Tianjun regiment whose cultivation level reached the super domain master, but now Xiao Tianyi suddenly discovered that except for the three Xiaoyashas present, his cultivation level It turned out to be the lowest, which made him feel very hurt.

Little Qingwa kept rubbing against Li Tian with his body. This little guy already possesses human wisdom and can speak. It may be because he has not communicated with Li Tian for more than 20 years. At this time, he is unwilling to open his mouth. Like a coquettish child.

I haven't seen each other for nearly 30 years. Everyone has a lot to say. Except for Xiaoqingwa, it seems that everyone's mouth has never stopped. Li Tian's face is always smiling, one question and one question. They answered them happily, and at the same time asked Xiaoyasha and others some other questions, laughter, anger, screaming, and the scene was all kinds of joy.

This messy scene lasted for almost an hour before everyone started talking about the real purpose of coming to this area under Li Tian's guidance. Sure enough, Xukong Yasha and others were also attracted by this real purpose.

"Void, I can clearly feel that the artifact is in this area, and David has indeed been to this area and entered that mysterious treasure, but why now..."

"It's a space mezzanine!" Void Yasha said with certainty.

Chapter 5032: : Space mezzanine

Space mezzanine?

Everyone looked at each other when they heard this word, and finally everyone's eyes fell on Li Tian... No, it was the Void Yasha above Li Tian's head, especially the Purple Flame Thunder Bear, Yin Mo Yin Niu, etc. That look on the face is so joyful.

"What do you mean?"

"We have heard of space, and we have heard of space turbulence. What does this space mezzanine mean?"

Void Yasha seemed to hold back for too long, this time he didn't put on airs, "Do you know the sandwich biscuits?"

Ziyan Thunder Bear and the others looked at each other and shook their heads at the same time.

Poor guys, don't even know what a cookie is, let alone a rich and handsome sandwich cookie.

Void Yasha folded his hands, but there was a slight gap between them, placed them on his chest, and then said: "Just like this, you can regard my left and right hands as two separate worlds, and the middle of the two hands This space is called a space mezzanine!"

"That's it!"

"But... isn't there any space in any independent world? It's like the earth world and the moon!" Li Mu said.

Void Yasha snapped his fingers and pointed at Li Mu and said, "This is a good question! You are right. There must be space between any two independent worlds, but the distance between the earth world and the moon is enough. It is safe and will not affect each other. But the distance between our secret realm and another world does not seem to be very far away. When the distance between the two worlds is too close, the two worlds will affect each other. , And the space between these two worlds is relatively unstable."

It is not very accurate to use the distance between the earth and the moon as an example. Li Tian knows that the metal world is an independent world. The distance between the twelve continents here is more accurate by using the earth and the moon as an example.

But Li Tian probably understood.

"Is there any way for us to enter this space mezzanine? The treasure we are looking for seems to be between this space mezzanine!" Li Tian said.

Void Yasha nodded, and said with certainty: "Yes! There are two ways."

"Then you can talk about two ways?"

"The first kind, wait! The secret world we are in and the world behind the space interlayer are both in motion. When the two worlds are running to a certain extent, the space interlayer will become more unstable. A space vortex will appear here, and we can enter the space interlayer through the space vortex..."

Before Void Yasha had finished speaking, he heard David nodding continuously, "Yes, yes, yes, that is the space vortex. When I came here accidentally, I was sucked in by the space vortex..."

"But this method is very impractical, because we don't know when the space vortex will appear!" Void Yasha ignored David's words and continued.

Li Tian nodded slightly, "Yes, I have been in the metal world for almost thirty years. If you look at the age of ordinary people in the earth world, I am now a little old man..."

When Li Tian said this sentence, his eyes flickered a little, and this sentence really touched the softest part of his heart.

That's right, Li Tian is now in his sixties. If his cultivation level hadn't been improved so that he had a life span of several thousand years or even tens of thousands of years, he is now an old man, over sixty years old. The old man in the earth world has retired and can support his life, but his sixties also shows that this person has entered his twilight years and is getting closer and closer to the end of his life.

Li Tian's current life span is still very long, but what about the women who stayed in the earth world? What about the brothers who stay in the earth world? What about the relatives who stay in the earth world?

Li Tian didn't want to wait for him to return to the earth world one day, he didn't even know anyone.

Therefore, Li Tian didn't want to stay in the metal world. He wanted to return to the Netherworld sooner, and resolve the conflicts with the Super God family as soon as possible. Even if the conflict

with the Super God family is not resolved, he also wants to return. Go to the earth world, accompany grandfather Mu Yunlong for a few years as the deity, and accompany those who love each other for a few years.

"What is the other way?" Li Tian asked.

Void Yasha flew in front of Li Tian, with a wicked smile at the corner of his mouth, and said: "The other way is much simpler. Use the most brutal and violent way to directly destroy the space of the two worlds and enter the interlayer of space!"

This is too awesome, but Li Tian knows that in addition to gods, probably only Void Yasha can dare to say such words like this. After all, besides gods, only this guy can be in the current state of cultivation. Break through the void.

"Break through the void? My day, does that mean we can break through the void and return to the Nether Realm?" Ziyen Thunder Bear asked in shock.

Void Yasha shook his head slightly, and said, "I'm afraid it's not that easy. My cultivation strength is limited. Now I can break through the void in this area, allowing us to enter the space mezzanine, or take it with me. You go to another world adjacent to the Nether Realm, but... it is impossible to return to the Nether Realm! Unless we have the ability to locate the Nether Realm in the endless turbulence of the void, and we can be in the turbulence of the void Survive for a long time."

This sentence is easy to understand.

Just like most rivers in the earth world will eventually merge into the sea as long as there is no cut-off, but you cannot plunge into the Yangtze River from one end and swim into the Mississippi River in the end.

"Then do it your way! Void, prepare yourself..."

"Hey, Master Li Tian, don't worry about it!" Xukong Yasha said with a smug expression on his face.

It is not difficult for Void Yasha to enter the space mezzanine, but Void Yaksha is not sure to send everyone into the space mezzanine. In the end, Li Tian chose to bring Li Mu, David, Xiaotianyi, and Xiaoqingwa to return. There are three small Yashas entering the space mezzanine.

Ziyen Thunder Bear and the others wanted to enter, but they had to follow Li Tian's arrangement for safety.

Void Yasha does what he says.

As Void Yasha opened a hole in the endless darkness, David was completely shocked.

After coming to the metal world, he has seen all kinds of strange people, but he has never heard of anyone who can break through the void. If he had heard someone say that the guy under the god-level powerhouse could tear apart before. Void, then David would definitely sneer and roll his eyes when he said this.

But now all of this has become real.

David stared at him with a stunned expression. The endless darkness in his eyes seemed to be a curtain cut by someone with a knife. At this time, David seemed to be able to see the world behind the cut curtain. ...

"Hurry up, we want to go in!"

As Li Tian stretched out his hand to pull David, David only felt a flower in front of him, and his body was twisted in the void...

Chapter 5033: : This is a pit

David felt he was dreaming!

Everything in front of me is like a dream, so unreal!

With the distortion of his body, David felt that his body seemed to be torn apart completely.

At this moment, David once again recalled the years when he was involved in that void vortex!

Poor David felt involuntarily involuntarily. If he could choose, then he would definitely not want to enter here again. Unfortunately... David didn't even have a chance to choose.

Everything around him was distorted. What surprised David was that Master Li Tian seemed to be used to this feeling a long time ago. Even if he had entered the void, Master Li Tian still maintained a right concentration, even reaching out to grab David's. Never let go of your hand.

All this seems very long, but the real situation is only five or six seconds.

Suddenly, his eyes gradually brightened, and then David felt his body loosen, and then everyone appeared together in a huge space, a space completely different from the metal world.

There is no sunlight, but the space is very bright, there is no land, but David has a down-to-earth feeling, but this kind of down-to-earth feeling is only at the feet. If you look down, David will find him. The feet are empty, as if the whole person is floating in the air.

David is familiar with this feeling.

"We are here!" David said.

Needless to say David, there is a Void Yasha Li Tian also knows that they have entered this space mezzanine, and at this time Li Tian can feel the artifact in his hand tremble even more.

"Four, as expected, the remaining four artifacts are all in this space!" Li Tian could clearly feel four different degrees of tremor from four directions of his body, which means that the remaining four artifacts are indeed in this space. In this space mezzanine.

This surprised Li Tian.

If there is no dragon map, if there is no David, he may never find these four artifacts, then he can only be trapped in the metal world.

Fortunately, there are not so many ifs!

"David, have you been here?" Li Tian asked.

David wanted to deny it, but he nodded slightly.

"Last time I passed through the Void Vortex..."

"Breaking in is the same as opening and entering with a key. Since you have been here, now is the time to show yourself. Come on, you can show us the way..." Li Tian said.

David was almost crying.

He remembers the way!

"Lee... Master Li Tian, let me tell you the truth! I've been here before, but at that time I accidentally fled here to avoid the chase of the Lingjin Clan, and then was sucked in by the Void Vortex and entered here. After that, I ran into a few monsters..." Speaking of the monsters, David's body trembled a few times unconsciously, and his eyes carefully glanced at both sides, seeming to be worried about being in this space at any time. There are monsters that will attack him.

"Monsters? There are monsters here? Are you wrong?" The first question was Void Yasha, because he knew very well that it is almost impossible for certain creatures in this void to survive. Things.

David nodded affirmatively, and then said, "Yes, there are monsters. Maybe you may not believe it, but that was what I saw with my own eyes. When I saw the monster, my scared soul was almost lost. , Turned around and fled, panicking, and then when I broke into a colorful space, you definitely can't imagine what I saw in that colorful space...Tsk, it's a pity that I haven't had time to reach out, even if it is. A piece of that kind of magical treasure, I was swept out by the Void Vortex..."

In other words, David is at best for a day trip in this place, and when he enters here, David's role is almost zero. Li Tian couldn't help feeling a bit regretful for him bringing David into this place, but now it doesn't help, Li Tian can only accept this reality.

Of course, what David said still had a certain effect on Li Tian, at least he knew that there were monsters here, and indeed treasures.

Ooh!

Hearing the name of the monster, Xiao Qingwa was very excited!

In the space of Void Yaksha, although it is not imprisonment, it is not much different from imprisonment for Xiaoqingwa. Xiaoqingwa feels that he is going crazy and urgently needs an opponent to release and release this kind of suffocation. Bend!

Li Tian reached out his hand and touched Xiao Qingwa's head, and signaled Xiao Qingwa not to act rashly.

This is not the Netherworld after all. Although for nearly thirty years, Xiaoqingwa and others have also practiced in the space of Void Yaksha, and Xiaoqingwa's cultivation level has reached the eighth level of the superdomain master, but he wants to do a masterpiece. It is not a simple matter that blessing reigns and dominates.

Even a foreign race that has been at the ninth level of the super domain master at will, it is very likely that Xiao Qingwa will fall into a big somersault, or even fall!

At this moment, the dragon map in Li Tian's heart suddenly moved. The dragon map that was about to be fully unfolded suddenly rolled up, and then flew out of Li Tian's body without Li Tian's control, floating in suspension. In front of Li Tian, then slowly opened again.

This time, the dragon map was completely unfolded and displayed in front of Li Tian.

However, the pattern on the dragon map has undergone tremendous changes unknowingly. The pattern that originally pointed out that the treasure was located has disappeared, replaced by the shadows of Li Tian and others.

That's right, the shadow of Li Tian and others appeared on this golden dragon picture.

It's just that these shadows seem to have shrunk dozens of times, but the figures of Li Tian, Li Mu, David, and the Three Little Yashas can still be clearly distinguished.

"My father, is it... Is this what you call the dragon map?" Li Mu asked in surprise.

"Yeah!" Li Tian nodded slightly.

"This dragon map has appeared in my body for more than ten years. In the past ten years, the dragon map has only slowly unfolded, but it has never meant to come out of my body, and we have just entered this In the space mezzanine, this dragon picture can't wait to appear. It seems that we have indeed come to the secret hiding of the great dragon!"

"Master Li Tian, look, there is actually our shadow on this dragon picture, and... it moved... it moved, this shadow started to move on its own!" Feitian Yasha flashed his wings as he was about to fly. Before the dragon map, I saw that the shadow on the dragon map suddenly moved forward slowly along a certain line on the dragon map.

Li Tian was also stunned by all this in front of him.

The appearance of their shadows on the dragon map is enough to make people feel surprised, but who would have thought that the shadows would move on their own, and even Li Tian's ears still heard some kind of auditory voice, as if the navigation was guiding Li Tian went to look for the secret hiding place left by the great dragon.

"Go, let's follow the shadow on the dragon map!" Li Tian said.

Li Tian adjusted his direction and followed the shadow on the dragon map.

Although there are lines on the dragon map, the actual situation is that there is no road under Li Tian and others, and the surroundings are empty like smoke and not smoke, fog and fog. It is not easy to find a way according to the dragon map. Fortunately, as long as Li Tian and others go in the right direction, the shadow on the dragon map will immediately brighten.

In order to enhance the combat power of the entire team, except for David and the Three Little Yashas, Li Tianhao did not hesitate to assemble the crowd with artifacts.

Li Mu is holding a Huaguang fan, and he is a young man who is indescribable.

Xiao Tianyi held the Eight Desolation Refining Ruler in his hand. Although he could not activate the Eight Desolation Refining Ruler, Xiao Tianyi was also majestic.

The little blue tile wears a ghost tooth mirror, which makes the little blue tile even more majestic and domineering.

And Li Tian, with his gloves thunderous and Liangyi umbrella on his shoulders, also has a sense of otherworldly.

Three little Yashas fell on Li Tian, especially Void Yasha. He brought Li Tian and others here as if his mission had been completed, he looked bored, and even yawned. Li Tian is sure that in the past nearly thirty years, these three little things must have not cultivated properly, otherwise the cultivation level of these three little things will hardly change.

Li Tian was helpless too!

The Yasha tribe is talented, but unfortunately it is too lazy.

Otherwise, the cultivation level of these little guys just being trapped in the underground palace of Wangta Temple for thousands of years might not be as good as they are now.

At this moment, Li Tian suddenly felt a sense of alertness, as if danger was already approaching them.

"Everyone, be careful..."

As soon as Li Tian's voice fell, two giant monsters over a dozen meters tall came out of the void one after another, blocking Li Tian and the others.

"This...this is..."

Seeing these two giant monsters, Li Tian and Li Mu's faces showed a hint of shock at the same time.

"Kirin? It turned out to be a unicorn?"

That's right, these two monsters turned out to be unicorns, but the bodies of these two monsters turned out to be all purple, with two giant purple unicorns of more than ten feet.

Super domain master ninth level peak realm?

No, the cultivation realm of these two purple unicorns is obviously much stronger than the ninth-level peak of the super domain master. This kind of cultivation realm Li Tian has only felt in the semi-god powerhouse, that is to say, The two purple unicorns standing in front of Li Tian and the others are already semi-god-level powerhouses.

"It's over! It's over! We must die here..." David's face changed, and he kept getting closer to Li Tian's direction.

Li Mu, Xiao Qingwa, and Xiao Tianyi were also trembling.

A demigod-level powerhouse, that's not a play, even if Li Tian now has a red-winged **** outfit and possesses the spiritual power of a prehistoric blue dragon, he might not be their opponent.

"Fuck! This is a pit! Isn't Long Tu going to bring Lao Tzu to death?" However, now Li Tian can only bite the bullet, he blocked Li Mu and Xiao Qingwa all behind him, low Speaking loudly to Void Yasha: "If there is danger, you must send Li Mu to escape from here..."

Chapter 5034: : The Secret Vault of the Great Dragon

Facing the demigod, Li Tian didn't know whether he was sure. This sentence is more like Li Tian arranging for himself.

however.....

"Dear master, we will wait a long time again..."

in unison!

When the two purple unicorns uttered these words in unison, they already knelt in front of Li Tian.

My day!

I fuck!

I.....

The surprise in Li Tian's heart can be imagined.

Two demigod-level purple unicorns, would they actually kneel down in front of Li Tian, calling Li Tian the master?

If this picture can be taken with a mobile phone or a camera, this picture alone will be enough for Li Tian to play for a few years, right?

Li Tian was completely shocked.

the host?

Who?

David knew that his stupid face was definitely not for his master, so he looked around and finally fell on Li Tian.

Needless to say, it must be the owner.

Only this layer of scales on Li Tian's body is somewhat related to these unicorns.

By the way, there are dragon pictures!

Master Li Tian once said that this dragon picture is a gift from the great dragons, and Li Tian is the master of these unicorns.

It's just that this picture is too shocking, David still hasn't reacted, and still can't believe that Li Tian will actually be the master of these demigod-level strong Qilin.

Li Mu was even more surprised than David.

"My father..."

When Li Mu yelled these words, he felt that his throat was dry and itchy, and it seemed that it was extremely laborious to say these words.

Demigod powerhouse!

These two purple unicorns are demigod-level powerhouses!

Who would have thought that this demigod purple unicorn would kneel down in front of him like an obedient little cat?

Li Mu had little stars in his eyes.

Li Mu has admired his father since he was a child. In Li Mu's eyes, his father Li Tian is an omnipotent superhero, but when a demigod powerhouse kneels in front of Li Tian, Li Mu's heart still burns. flame.

Xiao Tianyi and Xiao Qingwa looked at Li Tian's back in surprise.

They could feel the difference of Li Tian when they were brought out from the space of Void Yasha, but at that time they saw the changes in Li Tian's body. Of course, Li Tian became a big lizard in their eyes. The appearance has become ugly, and even deep in their hearts they still dislike Li Tian.

But now... they finally understand that Li Tian is not becoming ugly, but awesome!

"My father..." Xiao Tianyi had a smile on his face and wanted to say a few words to Li Tian to express his excitement, but he didn't know what to say or what to say.

Little Qingwa rubbed his head hard against Li Tian's body. At this time, this guy knew how to sell cuteness to Li Tian.

Li Tian is stunned!

That's right, Li Tian is completely confused now!

He knew that the two purple unicorns must be kneeling at him, and they must be calling him, but...

When did Lao Tzu become your master?

Could it be the transformation of the great dragon on my body that caused these purple unicorns to mistake me for their master?

Li Tian's head is now a mess, he can only think about it.

Suddenly, Li Tian's eyes lit up.

There is a demigod purple unicorn guarding this place? This is the first time that Li Tian has encountered a demigod powerhouse since he came to the metal world except for the soul of the great dragon. Of course, this is not the point. The point is what kind of treasure the great dragon left here? Will there be a demigod powerhouse guarding it again?

At this moment Li Tian's heart began to surge.

Could it be those four artifacts?

Probably!

But... Li Tian clearly remembered that the twelve artifacts were collected by the twelve zodiac strongmen after the great dragon was trapped, and then they were scattered to various places, but why did these four artifacts appear in this treasure? ?

Li Tian has no way to explain this problem, but at least it shows that the treasure in this secret store is definitely not twelve artifacts.

What could it be?

The dragons Li Tian knows all seem to like to collect shiny things, shouldn't they be some precious metal treasures?

If that were the case, Li Tianke would really want to cry without tears.

For Li Tian now, any gold and silver treasures are floating clouds, and only treasures and treasures that can improve the strength of cultivation are valuable.

Haha, what am I thinking about here? Now that I have come to the secret storage of the great dragon, even if it is really ordinary gold and silver jewelry, I have no reason not to take it. The big deal will be to send all the gold and silver jewelry into the space of the void Yaksha. When the time comes, take back the earth world and give it to Duanmuying and the others.

"Flat body!" Li Tian said pretendingly.

The two purple unicorns slowly stood up.

"Master, we are instructed to guard your secret store here. Is the master coming to take away your secret store now?" said one of the purple unicorns.

"Why? Can't it?" Li Tiandun said with a bit of displeasure.

"No...no, just in accordance with the original agreement with the master, after the master takes away the treasure in this secret store, our contract ends here, and the strong like us who are ordered to stay here to guard the treasure can leave this Hidden secretly! So I just want to confirm it!" said the purple unicorn.

That's it.

At this time, Li Tian even began to wonder if the two guys knew that he was not the owner of the secret hideout of the great dragon, but in order to complete the task as soon as possible, they deliberately admitted the wrong person, and then seemed to be able to leave this space mezzanine as soon as possible!

"Okay, then follow the agreement, and now you lead the way..." Li Tian said.

Demigod-level purple unicorns, Kendi cannot enter the metal world, and certainly cannot be conquered by Li Tian. Now Li Tianneng can force the two demi-god-level purple unicorns to obey him and let him pass the pretense. Addiction already made him very satisfied.

I didn't see any spiritual power fluctuations on the two purple unicorns either, Li Tian and the others flew lightly and finally landed on the two purple unicorns.

Li Tian sat alone on a purple unicorn, and the rest of David, Li Mu and others fell on the other purple unicorn.

David was so moved that he was about to cry!

Demigod beast!

Paralyzed, it was the first time that I had been riding a semi-god beast after living so long.

Even if I die here now, my whole life is worth it...Bah, bah, bah, the sentence just now doesn't count, and even if I return to my original world in the future, it's just a matter of riding a semi-god beast Enough for Lao Tzu to blow for a lifetime.

David even faintly felt that because of his changes in his mind, his cultivation at the mid-level seventh level of Super Domain Master seemed to have begun to loosen up.

"Are I going to break through? Hahaha, when I break through to the seventh-level peak of Super Domain Lord, I will leave the metal world..." David thought in his heart.

The speed of the two purple unicorns is extremely fast, and it seems that the surrounding void will not have any effect on them.

In fact, it is no wonder that these two guys are semi-god-level powerhouses, god-level powerhouses who can directly fly into the gods!

Li Tian felt that there was fog in front of him, and he could not see what was behind the fog.

Gradually, the white mist-like substance in front of me showed some colors, and these colors seemed to be transmitted from behind the white mist.

At this moment, Li Tian felt a flower in front of him. He and the purple unicorn under him instantly walked out of the ethereal void. At this moment, what appeared in front of them was a huge cave. The space created ten years ago is a space cave that is at least several thousand times larger than a hundred times larger.

And in this cavity are piles of treasures like mountains!

Colorful!

Brilliant!

Li Tian only felt that the light made his eyes almost impossible to open, but he was unwilling to close his eyes, even if he blinked.

Because the mountain-like treasure in front of me is really shocking.

"It's here...it's here..."

"This....."

"What are these things?"

"Crystal?"

"How come there are so many crystals?"

That's right, the colorful things piled up in this space are all crystals!

Moreover, almost all of these crystals are the crystals of super domain masters of the early stage and above, including a large number of demi-god-level crystals, quasi-god-level crystals, and even...there are crystals of god-level experts, that is, fantasy. The so-called godhead in the novel!

Two purple unicorns put Li Tian and others on the ground, but no one from Li Tian and others came forward.

Their bodies were shaking uncontrollably.

This is not fear, not fear, but excitement!

With so many crystals, there are hundreds of thousands, or even more.

You must know that Li Tian is the most powerful presence in the metal world recently. The number of super masters above the ninth level of the super domain master he killed is no small number, but compared with the number of crystals left by the prehistoric dragon, Li God feels like he was a primary school student who met a doctoral supervisor!

Super Domain Master Nine?

Ha ha!

Demigod-level powerhouses have crystals!

There are crystals of the quasi-god-level powerhouse!

Even the crystals of the god-level powerhouse!

This is the difference!

"These... these are all mine?" Li Tian's spirit was a little tranced. He felt that at this time he was like a poor boy who had won the legendary billion yuan prize, and it was ***** dollars. That sourness and stimulation made Li Tian's heart and liver tremble.

"Yes, the master belongs to you all!" said Zi Qilin.

"David, come here!" Li Tian beckoned David to walk in front of him, then slapped David with a dumb face, and then asked caringly, "Does it hurt?"

pain!

It hurts!

But David resisted the pain and dared not speak.

"Am I dreaming? How about I slap you again?" Li Tian asked.

David immediately shook his head and said with certainty: "It hurts!"

"Hahaha! It really wasn't a dream! Do you feel that I slap you in the face? You are not convinced? If you are not convinced, don't be convinced. Now go and get these crystals. No matter what kind of crystals, I will give you dozens of them. You take it out to play!" Li Tian said proudly.

Chapter 5035: : Li Tian is embarrassed

David was as happy as a fool!

A dozen high-level crystals!

And it is to let David choose by himself. David thinks that he is a very real person, and he will certainly not live up to Li Tian's expectations of him.

Then this guy really climbed among the mountain-like crystals, frantically searching for the crystal he wanted.

The crystal of the early stage of the ninth level of the super domain master?

Rubbish!

This grade of crystal was directly thrown aside by David.

The crystal of the ninth-level mid-level realm of Super Domain Lord?

Intermediate garbage!

It is also difficult to escape the fate of being thrown aside by David.

The crystal of the ninth-level peak realm of the super domain master?

Senior garbage!

David hesitated a bit or stretched out his sinful little hand to the demigod crystal.

Starting with the demigod crystal, David immediately felt that his heart was going to be drunk.

This feeling of numbness can no longer be cool.

No, Lord Li Tian asked me to choose sincerely. I can't do anything that is false. If I don't pick a few quasi-god or even God-level crystals by the way, then I am Really stupid!

Thinking of this, David couldn't wait to get directly into the mountain of crystals, looking for God-level crystals.

"What are you looking at? Of course you already have your share!"

As Li Tian waved his hand, Li Mu, Xiao Tianyi, Xiao Qingwa, and three Xiao Yasha also rushed into the crystal mountain.

Li Mu actually didn't have this need at all. After all, Li Tian is his Laozi, and it is impossible for God-level crystal Li Tian not to give him.

But Li Mu couldn't help it!

Being able to swim in the crystal sea above the ninth-level elementary realm of Transcendent Master, how could he miss this kind of thing?

Several people have space rings, and the space in the space rings on their hands is not too small. Since Li Tian spoke, Li Mu and others unceremoniously continued to install crystals in the space ring, but soon they Discover how stupid they are doing this.

When their space ring was almost full, they found that the crystal mountain remained unchanged, and it seemed that it hadn't been reduced at all.

Li Mu felt very hurt about this.

He could only take out all the crystals from the space ring again, and began to look for crystals above the Demigod level to send them into the space ring like David did. Although the speed slowed down a lot, the quality was greatly improved.

Little Tianyi opened his mouth and gnawed two mouths first.

The crystal was like eating peanuts, cracking in his mouth, and surging spiritual power continued to flow from there.

Of the ten percent spiritual power, less than half of them can be absorbed by Xiao Tianyi.

But no one said he was wasting.

Gnawing one, throwing three, paralyzed, it's that wayward.

Xiao Qingwa did not relax either.

The little blue tile is a ghost beast. The little blue tile has been cultivating for nearly thirty years, but the effect of cultivating in the space of the Void Yaksha is not very good. Now the little blue tile has this kind of fast method to improve the cultivation. How could he miss it?

Click!

Click!

The crystals were crushed by the little blue tiles, and like the little Tianyi, there was definitely more wasted than they could absorb!

But what can this be?

I'm willing to buy money when it's hard to buy.

"Master Li Tian, it is too wasteful to keep so many crystals here. If we can bring all these crystals into the earth world, then the cultivation level of our earth world cultivators will definitely be greatly improved..." Void Yasha He has already regarded himself as a part of the earth world, and has begun to think about Li Tian.

But the implementation situation is that this product also has the kind of idea that Baoshan cannot go back empty-handed, especially seeing Li Mu and Xiao Tianyi constantly putting crystals in the space ring, his heart is really itchy, I really want to wait. Immediately squeezed all these crystals into his space.

For nearly thirty years, although Void Yasha didn't practice too much, he didn't rest. He expanded his space hundreds of times.

Of course, it is far inferior to the hidden cave of the prehistoric dragon, but Void Yasha believes that if all the crystals above the demigod level are picked out, it will definitely be able to hold it.

Li Tian obviously did not have the consciousness of Void Yasha. After hearing Void Yasha's words, the corner of his mouth turned slightly upwards, and said with a smile: "Young Master Void, we are not busy leaving. I still have four artifacts that I have not accepted. During the period when I conquered the artifact, you stepped up to expand your space again. If possible, we will take away all the crystals without leaving one. Of course, you can also take out all the wines in your space to make room Install these crystals!"

Void Yasha was stunned.

Dixing Yasha was stunned.

Feitian Yasha was stunned.

The three Xiaoyashas simultaneously extended their thumbs to Li Tian and said in unison: "Nice!"
Hahaha!

Li Tian smiled and coquettishly accepted these three likes!

Super God family?

Waiting numbly for me to collect all twelve artifacts, and when I return to the Nether Realm, Lao Tzu wants to create a Li Tian army that is all ninth-level super domain masters, or even a half-god realm, how can you fight me?

When the time comes, I will let you eat all of my food and spit it out, and take all of my food and return it to me...

A meaningful smile appeared on Li Tian's face.

Once, Li Tian also thought about fulfilling his unfinished dream in the earth world in the Netherworld, and unifying the Netherworld, but since the appearance of the Super God family, Li Tian knew that his dream was so far away, so far away. unrealistic.

But now, after having so many crystals, unifying the Netherworld is no longer a dream.

Just like Long Yin...

Thinking of Long Yin and Li Tian couldn't help but feel a little uncomfortable.

It was precisely because of the supply of powerful demi-god crystals from the Wolf Cavalry Clan that Long Yin's cultivation level rose rapidly, and his ambition swelled. This made him increasingly dissatisfied with Li Tian, and finally broke out with Li Tianyi. war.

But Li Tian thought of kindness and let Long Yin escape from his hands, but in the end Long Yin entered the God Realm before Li Tian.

Li Tian knew that if he met Long Yin the next time, it would definitely be a deadly battle.

"If Long Yin can, so can my Li Tianjun regiment!"

Think about it if you own a demigod-level legion, then it feels... Tsk tsk, Li Tian can wake up with a smile when he sleeps.

"Master..." One of the purple unicorns approached Li Tian, and the voice came from above Li Tian's head.

Li Tian turned and looked up at Ziqilin, and asked, "Your mission has been completed, now you can leave!"

There was a clear mess in Zi Qilin's eyes. After a few seconds of silence, he continued: "Master, have you forgotten that there is a seal in this secret? You have to unlock the seal before we leave!"

Li Tian is embarrassed!

At this time, another unicorn came over and said to Li Tian: "Also, I don't know why, there are four more artifacts in this secret collection. If the owner wants to unlock the seal, he must first accept this. Four artifacts! But..."

Chapter 5036: :Fight alongside

"What?" Li Tian asked.

"It's just a little troublesome now..."

It turns out that in the long years, it was not only David who entered the secret storage of the great dragons, but also the owners of these four artifacts. It was just that...their luck did not have David. Well, the owners of these artifacts were killed by two purple unicorns, but their artifacts were left in the secret store.

If the artifact is in the metal world, then there will be no trouble and trouble now.

Because there are a large number of demi-god, quasi-god, and god-level crystals in this secret store, the artifacts that originally possessed the divine consciousness stole some of the crystals on their own, so that the power of these artifacts was improved again, even if the owner had already been lost. , These artifacts can also burst out powerful combat power.

Although the two purple unicorns were not afraid of these four artifacts, it was impossible for them to conquer the four artifacts.

"But I believe it will be easy for you, Master, to conquer these artifacts..." A kind of purple unicorn added.

"That's it!" Li Tian frowned.

Following the description of these purple unicorns, Li Tian knew that these four artifacts were the four big rats in this secret store. The purple unicorn was completely helpless with the four artifacts, and it is estimated that these four artifacts can explode even without their owners. The strength of cultivation is close to that of a demigod.

Of course, this is not the most troublesome. The most troublesome thing is that these four artifacts already possess the spirituality of the spirit race without losing the artifact. If you are cunning, you can fight, and if you can't fight, these four artifacts will immediately retreat and hide in some kind of secret.

In this way, even if Li Tian possesses the early cultivation realm of the Demigod level, it is not easy to conquer the four artifacts.

What's more, Li Tian's cultivation realm is not half god?

Of course, for these two purple unicorns, as long as they can touch the seal, they can leave the secret store, but if the seal is unlocked, the four artifacts will no longer be sealed by the secret store, and they can also leave the secret store with the void. At that time, Li Tian wanted to find four artifacts again, it would be like finding a needle in a haystack.

It was also because of their immense loyalty to their masters that these two purple unicorns reported truthfully to Li Tian.

Li Tian was even a little touched in his heart. He did not expect that the purple unicorn trapped in the secret store would be so loyal and so loyal to the prehistoric dragon. Li Tian and the two purple unicorns began to talk about the prehistoric giant. The past of the dragon.

Li Tian is now a fake prehistoric dragon. He needs to learn more about the prehistoric dragon through the mouths of two purple unicorns.

"Does the master want to hear our compliments to the master? This is a bit difficult..." One of the purple unicorns was a little embarrassed, but he didn't stop there, and started talking with great respect on his face.

Li Tian never thought that this great dragon would be so domineering.

Almost the same as what Li Tian had guessed, all the crystals in this secret storage were actually the spoils of beheaded by the great dragon.

Super domain master-level powerhouse?

The number of such stunning deaths under the claws of the prehistoric dragon is countless.

Even if there are millions of superdomain master crystals here, this is only a small part of the slaying of the prehistoric dragon, and many more are directly strangled by the prehistoric dragon, and there is no bone residue left. , Naturally there is no crystal left.

As for the semi-god-level powerhouses, the quasi-god-level powerhouses, and even the god-level powerhouses, the number of deaths under the claws of the prehistoric dragons is also incalculable. The crystals below, the crystals of the demigod-level powerhouses killed by the great dragons in the subsequent battles were buried in the twelve continents of the metal world by the great dragons.

It is precisely because the prehistoric dragon plans to behead all the god-level powerhouses in the metal world in the ancient times that has attracted the attention of more powerful beings.

However, the prehistoric dragon is also a supreme god-level powerhouse. It seems that he doesn't care about this powerful supreme god. Before fighting with that supreme god, the prehistoric dragon let two unicorn beasts keep guarding before leaving the secret store. Hidden, waiting for him to return, and told the two purple unicorns that when he returns, these two purple unicorns will be free.

It's just that these two purple unicorns don't know. After the supreme **** entered the metal world from the realm of the gods, after a battle, he killed the prehistoric dragon on the top of the miraculous mountain of Chen Continent, and completely transformed the rules of the metal world. , So that the metal world cannot give birth to any demigod-level powerhouse.

It can be said that the prehistoric dragon is the most outstanding representative of the dead world, and his story is a real golden case of death without death.

As a supreme god, the prehistoric dragon is so boring to kill the superdomain master-level powerhouse. How extinct human nature is this... Dragon nature!

It's like when Li Tian is back to the earth world, it's a concept to fight against unarmed ordinary people. It's no wonder that this guy will be targeted by other supreme gods and eventually be beheaded, and the dragon soul is trapped on the top of the miraculous mountain. , There is no reincarnation forever.

If Li Tian didn't accidentally hit the dragon's bones and released the dragon soul. If the dragon soul of this dragon regenerates proudly in Li Tian's body, the dragon would continue to be trapped in the miraculous mountain. Dian, was continuously suppressed by that metal sharp arrow.

When the purple unicorn was telling the story of the great dragon in the past, David, Li Mu and others all came to listen carefully. When the purple unicorn was finished, Li Tian had a better understanding of the giant dragon in his heart. On the contrary, he worshipped the great dragon a little bit more.

Nothing else, just because the prehistoric dragon rushed past.

The metal world, it has twelve continents.

But all the gods in this great world were almost completely slaughtered by the great dragons. This kind of domineering, tusk, is really admirable.

In the metal world after the prehistoric dragon, the two purple unicorns did not know, so these two purple unicorns did not know that the prehistoric dragon had been beheaded long ago. Li Tian, who appeared in front of them, was inherited from the prehistoric dragon. The prehistoric dragon transformed the fake body.

Of course, now that the great dragon is dead, the fake Li Tian is the real owner. Li Tian nodded slightly and said, "You two will stay in front of the pile of crystals. Protect them for me. The four artifacts Leave it to me to subdue it!"

...

Li Tian left Crystal Mountain again.

According to the dragon picture floating in front of him, Li Tian knew that there was a seal in each of the four directions, southeast, northwest, and the location of the seal was also overlapping the approximate directions of the four artifacts.

Although the four artifacts have the power close to the demigods, Li Tian's words have already been spoken...Of course, even if Li Tian didn't say them, he must subdue these last four artifacts, otherwise he will be forever The earth is trapped in the metal world, which is not something he is willing to accept.

"Go to the East first! Let's take a look at the artifact left in the East now!" Li Tian thought in his heart.

As long as Li Tian thought about it, the dragon map would immediately adjust its direction according to Li Tian's mind.

"My father, please let us go out with you!"

Li Tiangang turned and left, and Li Mu's voice came from behind him, and the figures of Xiao Qingwa and Xiao Tianyi also came out.

"And we, hehe, when I was taking medicine just now, I found that the artifact I was wearing seemed to have some resonance with the medicine I had knocked off, and I felt that my cultivation strength had been greatly improved. Promote, at this time, please let your father agree with us to fight together!" Xiao Tianyi also said with a smile.

Chapter 5037: : Metal Column

"And we..."

The three Xiaoyasha also came out.

"Although our cultivation base may not help you much here, but at least we can still cheer!" Void Yasha also said.

Only David was left in Crystal Mountain, and this guy was also struggling violently.

David is afraid of death. He knows that any strong man with a realm close to a demigod can easily kill him, just like Li Tian, so he is afraid of the four psychic artifacts. He doesn't want to get it hard. His demigod crystal hasn't been refined by him, only losing his master again.

However, David felt uncomfortable in his heart, especially when he saw Li Mu and others jump out one by one to ask Li Tian to fight alongside him, and David felt even more tormented in his heart.

"Master Li Tian, it's not that I don't want to help you, but... it's just that my cultivation level is really limited. Even if I jump out now, I can only add chaos to you. In this case, I can only support you silently in my heart. Cheer for you!" David whispered to himself.

At this time, the two purple unicorns were also whispering in low voices.

"I don't know why, some strange changes have taken place in appearance, but I can be very sure that this kind of aura is the master, and only the master can have this powerful aura, but the master's cultivation level has plunged to the current realm, I don't even know if he can surrender the four artifacts..."

"A lean camel is bigger than a horse. Our master was once an absolute powerhouse in the God Realm. Even the gods were easily beheaded by the master. We should trust the master. Even if the master's cultivation level drops again, it's not like that. It can be matched by a primary artifact!"

"That's right! I just saw the master's entourage jump out one by one, clamoring to help the master, and I will inevitably be affected. Now that I hear you say this, I feel that those entourages are a little too much!"

"Let's stay here and take care of this entourage for the master!"

With that said, two purple unicorns surrounded David, waiting for them to stare at David with huge eyes like lanterns.

Ooh!

David wants to cry again!

...

The secret storage of the great dragon is a space created by the great dragon based on the thinnest space in the metal world.

This space is naturally much higher than the space made by Void Yasha. This is not only because this space is large, but also because this space still retains some characteristics of the void turbulence, which makes the entire space look more mysterious. Measurement.

If there is no dragon map and the guidance of the purple unicorn, Li Tian and others want to find the treasure they want to find in this secret territory, or want to find four artifacts like this, it is tantamount to a dream.

The emptiness of 'like rain, fog and wind' alone is enough for Li Tian and others to wander around here for decades.

I have to say here that David's luck is really good.

By chance, he entered the secret hideout of the great dragon and escaped unharmed. This kind of luck is not something ordinary people have.

Of course, we are now discussing the issue of space.

Seeking truth from facts does not mean that the space of Void Yasha is not good.

At least the space of Void Yaksha is like a space ring that you carry with you. It can move with Void Yaksha, while the space hidden by the Great Dragon does not have this magical function.

Closer to home, following Longtu, Li Tian and others walked in this environment for a distance of less than one kilometer. Suddenly, a metal pillar appeared in front of Li Tian and others, standing under the metal pillar, Li Tian The others couldn't see the beginning and the end of this metal pillar.

The metal of the metal column is the kind of metal in the metal world. Although it is circumscribed, it is true. It is just that there are a few strange patterns on the metal column, which are like seals.

But Li Tian knew that this was not a character seal, but a writing of the Great Dragon Clan.

This text is a paragraph of the dragon language of the prehistoric dragon, which is one of the four seals in the secret collection of the prehistoric dragon.

From the top to the bottom of the metal column, there are such dragon language symbols everywhere, but if you look carefully, you can clearly see that many symbols are repeated, which means that there is only one dragon language on the metal column. It is really effective, and other

symbols are more derived from this dragon language and spread automatically on the entire metal column.

Of course, the focus of Li Tian and others is not this seal, but the artifact!

When they came to the metal pillar, Li Tian and others could already clearly feel the trembling of the artifact on their bodies, which indicated that the artifact was nearby.

"Everyone, be careful!" Li Tian reminded him.

Xiao Tianyi wearing the Bahuang Refining Ruler accidentally swallowed several demi-god crystals in succession. At this time, the Bahuang Refining Ruler was already rotating with Xiao Tianyi's body, and a faint light of spiritual power was pulling the Bahuang Refining Ruler, let this artifact maintain a certain relationship with Xiao Tianyi.

But Li Tian knew clearly that Xiao Tianyi had not activated the Bahuang Refining Ruler yet.

The ghost tooth mirror on top of Xiao Qingwa's head has taken root and got into Xiao Qingwa's body. The ghost tooth mirror has changed into a ghost tooth mask with huge clothes, covering the whole head of Xiao Qingwa, making Xiao Qingwa's head was completely surrounded by this ghost tooth mirror!

Li Mu hasn't changed much, but the Huaguang fan in his hand is full of brilliance, as if it comes with a powerful special effect.

In any case, Li Tian knew that the three of them had improved their cultivation level after wearing the artifact.

The artifact is a must for Li Tian to leave the metal world, but if he can leave a few artifacts when he leaves the metal world, that would be great! But this kind of thing is not in a hurry, this is something that Li Tian waits for all the artifacts to be collected.

Li Tian, Li Mu, Xiao Tianyi, and Xiao Qingwa began to look for the artifact near the metal pillars. Although everyone can feel that the artifact is nearby, they want to find this one that has spirituality and can hide and seek. The artifact does not seem to be easy either.

But the more so, the more disturbed Li Tian's heart.

He always has the feeling of being stared at by a poisonous snake, it seems that the artifact is a poisonous snake hiding in the dark, looking for opportunities to attack at any time.

"Be careful, everyone!" Li Tian reminded him again. As soon as Li Tian's voice fell, at this moment, Li Tian suddenly felt a strong energy fluctuation coming from behind the metal pillar, and then a shadow instantly came from the metal. Flew out from behind the pillar and took the small blue tile straight away!

Xiao Qingwa's reaction was not unpleasant, but the shadow still pierced Xiao Qingwa's face instantly!

Cang!

Chapter 5038: : Nine-colored Amane seal

Little Qingwa let out a scream, and his whole body flew out instantly!

Not a thorn!

But smash!

And among the twelve artifacts, only the nine-color Tianyin Yin had what kind of overbearing attack method!

The nine-color Tianyin seal is a large square seal the size of a fist. Under normal conditions, the nine-color Tianyin seal is dark gray. Only when the spiritual power is full, the nine-color Tianyin seal will It's shining like a flashing neon.

I don't know what material this artifact is forged, but its attacking power is definitely not to be underestimated.

Li Tian could see clearly that the artifact hit Xiao Qingwa's head directly. Even with the protection of the ghost tooth mirror, the powerful force could not be endured by Xiao Qingwa. Li Tian even saw the ghost tooth. The fangs on the mirror seemed to be broken by those nine-color heavenly sounds!

Of course, the ghost tooth mirror is not a mortal thing, even if the ghost tooth is all broken, it can still grow back.

It's just that Li Tian's little blue tile obviously suffered a big loss this round!

Li Mu and Xiao Tianyi were obviously startled. The two children obviously didn't expect that these nine-color Tianyin Yin would have such a powerful attack power.

At the moment Li Mu was taken aback, the nine-color Tianyin seal had already flashed again, smashing at Li Mu.

Li Mu is a ninth-level super domain master, but facing the attack of the nine-color Tianyin Yin, which is already close to the demigod's strength, he still can't help but feel a little flustered, but at the moment of life and death, Li Mu subconsciously uses the Hua Guang The fan blocked a bit, and successfully resolved the crisis.

The crisis was resolved, but Li Mu felt that the arm holding the Huaguang fan was completely numb, and the tiger's mouth did not know when it had been shattered, and the blood continued to flow down the tiger's mouth.

So strong!

Is this the true strength close to the demigod artifact?

After attacking Li Mu and being blocked by Li Mu, the nine-color Tianyin Yin flashed at Xiao Tianyi.

The Bahuang Refining Ruler that flew around Xiao Tianyi's body didn't seem to be a soft persimmon, but it took the initiative to lead him up with the movement of Xiao Tianyi's mind.

The Bahuang Refining Ruler has not yet been activated, and the specific attack method Xiaotianyi is still unclear, but through the sharp metal-like impact that the Bahuang Refining Ruler encounters with the Nine Color Tianyin in mid-air. It can be judged that the Bahuang Refining Ruler did not seem to fall in the wind.

"Red Wing God costume, come out!"

With Li Tian's cry, Li Tian's figure flashed in mid-air, and the two wings of the Red Wing God's outfit kept slashing towards the nine-color Tianyin Yin!

Cang!

Cang!

Cang!

Every time the Red Wing Divine Apparel was cut, the nine-color Tianyin Yin had to return a few points.

"Huh?" Li Tian couldn't help but feel a little puzzled!

Just now, the first blow of Jiu Se Tian Yin Yin really shocked Li Tian. You know that the thing actually broke the fangs of the Ghost Tooth Mirror, and at that moment Li Tian even had it in his heart. A sense of powerlessness, it seems that even if he makes a move, it is not necessarily the opponent of Jiu Se Tian Yin Yin.

But now, Li Tian's continuous attacks on the nine-color Tianyin Yin seemed to only parry, and there was no power to fight back at all.

Is it an illusion in my heart?

Or is it possible that these nine-color Tianyin seals are still playing tricks?

Li Tian didn't dare to neglect, the wings of the red wing ***** outfit kept slashing, and the thundering gloves on Li Tian's arms had completely covered Li Tian's two arms, grasping the Liang Yi in Li Tian's hands. The umbrella was also regarded as a sharp sword by Li Tian, and he stabbed the nine-color Tianyin Yin from time to time!

After attacking more than twenty times in a row, Li Tian seems to have firmly gained the upper hand.

At this moment, a flash of colored light flashed on the nine-color Tianyin seal, and then the spiritual power on the nine-color Tianyin seal surged again, and then a stream of light flashed across the nine-color Tianyin seal, as if it were a meteor. Generally smashed at Li Tian.

not good!

The anxiety in Li Tian's heart became reality, and the nine-color Tianyin Seal really seemed to be storing power. The power of this attack was even stronger than that of the attack on the small blue tile just now. The nine-color Tianyin seal hit his body, Li Tian was sure that the scales on his body would be split to pieces instantly, and even his entire body would be smashed into meat sauce!

boom!

Li Tian subconsciously opened up the Liangyi umbrella!

The nine-color Tianyin seal hit the umbrella surface of the Liangyi umbrella. Li Tian only felt his hands sink suddenly. If it weren't for the thunder from the glove, the Liangyi umbrella would definitely be released. , Li Tian's body still involuntarily took a dozen steps backwards.

Nine-color Tianyin Yin knocked Li Tian back with one blow, and once again attacked Li Mu!

Poor Li Mu, his arm just slowed down, and he was attacked by the nine-color Tianyin Yin.

Almost the same routine, almost the same result!

Li Mu once again blocked the attack of Jiu Se Tian Yin Yin with the Hua Guang fan, but this time the attack he suffered seemed to be stronger, and the damage he suffered was naturally greater. Li Mu felt the moment when he held the Hua Guang fan's right arm. Without consciousness, the Huaguang fan in his hand did not fall to the ground.

As for the tiger's mouth that had opened the wound, blood was flowing even more severely.

"Don't hurt my brother!" Xiao Tianyi roared, and the Bahuang Refining Ruler flew out again, blocking Li Mu.

Xiao Tianyi's current cultivation base is not as high as that of Li Mu, but before Li Mu was born, Xiao Tianyi had already followed Li Tian and recognized Li Tian as his father. Naturally, in Xiao Tianyi's heart he also regarded Li Mu and Li Bai as being. Brother looked at it.

The Bahuang Refining Ruler once again blocked the attack of the Nine Color Tianyin Yin.

Xiao Tianyi always controlled the Bahuang Refining Ruler, and reached out to support Li Mu.

Li Tian felt very relieved.

Although Xiao Tianyi still maintains a half-human, half-dead state, but the fact that Xiao Tianyi can have such a brotherhood with Li Mu still makes Li Tian very satisfied.

"Retreat and let me come!" Li Tian roared.

Although Li Tian's cultivation level is not as high as that of Li Mu, his true strength is far from what Li Mu can compare. In addition, Li Tian possesses several artifacts, making him even the strongest in the face of Jiu Se Tian Yin Yin. The attack is also fully self-protective.

Moreover, Li Tian now seems to have found the attack pattern of the nine-color Tianyin Yin, but Li Tian is still not sure.

Huh!

Huh!

Huh!

Li Tian's red wing divine suit speeds up to the Nine-color Tianyin Yin. Every time the nine-color Tianyin Yin is cut, there will be a metal-like crash around it, which is very crisp. Setian Yinyin is retreating steadily.

However, the Liangyi umbrella in Li Tian's hand was not stabbed out as a long sword by Li Tian again, and was always held by Li Tian. It seemed that Li Tian was waiting for an opportunity.

Dealing with an already psychic artifact is not like dealing with a powerful artifact.

To deal with ordinary artifact powerhouses, Li Tian only needs to kill the artifact powerhouses to win, but this psychic artifact is difficult to defeat by Li Tian.

It's just that the current nine-color Tianyin Yin is too embarrassing. Li Tian even has an illusion. As long as he reaches out and grabs the nine-color Tianyin Yin, he can easily hold this thing in his hand and easily hold this artifact. Surrendered, but... Li Tian knew very well that the illusion was an

illusion. The nine-color Tianyin seal was definitely still storing power and would soon attack Li Tian again.

Whoosh!

It was too late to say that it was fast, just when this thought flashed through Li Tian's heart, the nine-color heavenly tone had already been smashed!

Power soaring!

It seems that this time the power of the Nine Colors Tianyin Yin is even higher than the previous two attacks.

Li Tian didn't dare to neglect the slightest, and the Liangyi umbrella in his hand opened again with a bang, blocking the nine-color Tianyin Yin.

It's just that this time Li Tian didn't use brute force to block it. Instead, Li Tian withdrew back from the strength of the nine-color Tianyin seal. Sure enough, although the power of the nine-color Tianyin seal increased, Li Tian did not suffer. To the slightest harm, even Li Tian only took a half step back.

The first three attacks of Jiu Se Tianyin Yin's power storage are very powerful, of which the power of the first attack is particularly powerful, and then the power of the second attack will be halved, and the power of the third attack will be halved again. The power of each subsequent attack is normal.

Of course, it is not to say that the attack of the nine colors Tianyi Yin is not powerful.

If it weren't for Li Tian and others who possessed the artifact, this time the battle would be replaced by any superdomain master ninth-level peak powerhouse. Facing this kind of attack, even those superdomain master ninth-level peak realm powerhouses would even be the first. If you can't bear it, you will be completely crushed to death.

Wow!

As soon as the Liangyi umbrella in his hand was closed, the red wing ***** outfit behind Li Tian speeded up again.

Li Tian did not give Jiu Se Tianyin Yin a chance to breathe. Eh, it seems that this artifact does not need to breathe at all!

However, Li Tian's attack had an effect. The second and third attacks of Jiu Se Tianyin Yin did not fall on Li Mu or Xiao Tianyi again, and were perfectly resolved by Li Tian's red wing ***** outfit.

A smile appeared on Li Tian's face.

Up to now, although Li Tian has not completely surrendered me to Jiu Se Tian Yin Yin, but at least now he has found the attack pattern of Jiu Se Tian Yin Yin, and Jiu Se Tian Yin Yin wants to hurt people in front of Li Tian. It's already impossible.

Now, Li Tian can also surrender the nine-color heavenly sound even if he consumes his spiritual power!

The battle continued. Nine-color Tianyin Yin continued to accumulate power several times, and then attacked Li Tian several times, but it was a pity that Li Tian easily resolved it in the end.

Nine-color Tianyin Yin returned without success.

"The eighth time! If I didn't guess wrong, there will be a more powerful last wave of attacks from the Nine-color Tianyin Yin..." Li Tian thought quickly in his heart.

This is also a law Li Tian discovered.

The names of these artifacts are more or less related to their shapes or attack methods.

Li Tian found that the color of the nine-color Tianyin seal changed before each attack was different. Li Tian did not see it clearly when he attacked for the first time, but the color changed before the next few attacks was not repeated. That is why Li Tian made such a bold guess!

boom!

Sure enough, the power of this last wave of attacks suddenly increased!

Although Li Tian had already used four liang to dial a thousand jin when displaying the Liangyi Umbrella, when the first attack of the last wave hit Li Tian's Liangyi Umbrella, Li Tian still had a kind of Liangyi Umbrella that had to be given by this artifact. The illusion of destruction.

And Li Tian's arms wearing this thunder-thundering glove also felt numb, but Li Tian did not flinch! cut!

The Red Wing God outfit once again cut out!

boom!

Nine-color Tianyin Yin's second attack hit the Red Wing God's suit, and Li Tian's body shook suddenly!

thorn!

The Liangyi umbrella in Li Tian's hand was also stabbed out as a weapon!

boom!

Nine-color Tianyin Yin's third attack hit the Liangyi Umbrella again, but... the attack seemed so weak.

Afterwards, all the luster on the Nine-color Tianyin print disappeared, and this artifact fell from the sky as if it had lost its last trace of power.

"Hey, that's true! I'll accept this artifact!" Li Tian stretched out his hand and grabbed the nine-color Tianyin seal in his hand, saying with a smile on his face.

Chapter 5039: : Yuxu is coming

The nine attacks of Nine-color Tianyin Yin consumed all the divine power of this artifact, leaving only a touch of spiritual power still fluctuating slightly. If you want Nine-Color Tianyin Yin to show its glory, unless Li Tian is willing now Use the black beads in his heart to nourish this great seal, or Li Tian is willing to use crystals above the Demigod level to refine the nine-color Tianyin seal.

But this kind of thing is not in a hurry.

When Li Tian subdued the nine-color Tianyin Yin, Xiao Tianyi, Li Mu and Xiao Qingwa had already come to Li Tian.

Xiaoqingwa was smashed by the Nine-Colored Tianyin Seal and flew out. He was stunned on the spot. Fortunately, it was protected by a ghost mirror. Otherwise, it would be a direct headshot instead of a simple stun. , Now the little blue tile has fully recovered and is alive again.

The wound on Li Muhu's mouth was cleaned with green tree, and it has gradually recovered, but his arm is still slightly numb, but it is not a major problem.

The guy Xiao Tianyi has great luck. In the battle with Jiu Se Tian Yin Yin just now, although this guy suffered several attacks, each time he encountered the weakest attack in the combo of Jiu Se Tian Yin Yin, so Xiao Tianyi was safe and sound and didn't even fart, but instead made this guy pretend to be forced in front of Li Mu.

However, Xiao Tianyi knew very well how many catties he had, especially when he witnessed the battle between Li Tian and Jiuse Tianyin.

"Little Qingwa, are you okay?" Li Tian asked while looking at Xiao Qingwa.

Li Tian nodded slightly when he saw Xiaoqingwa, then Xiaoqingwa used his spiritual power, and opened the ghost tooth mirror to confirm that its head was not broken by the nine-color Tianyin seal, nor was it hit by the nine-color Tianyin seal. Silly, Li Tian looked at Li Mu now.

"My father, I...my injury does not matter!" Li Mu said.

Li Tian nodded and said: "Okay, now we have nine artifacts in our hands, and there are three artifacts left: Yuxu Sword, Rouge Map, and Claw Stabbing Ruyi. Let's seize the time and continue to work on the next artifact."

There were no extra words, even Li Tian didn't even have a bad word to Li Mu apart from his eyes.

Mother and father!

Since Li Mu is now fighting alongside Li Tian, Li Tian must make Li Mu clear that any battle is definitely not as simple as imagined.

That's right, after more than three years of cultivation, Li Mu's cultivation level has once again improved. Now his cultivation level is already a mid-level ninth-level super domain master, and he is only a short distance away from the ninth-level peak realm of the super domain master. Besides, coupled with the fact that he has an artifact like Huaguang Fan in his hand, Li Mu is not at all shocked even if he encounters an ordinary superdomain master ninth-level peak powerhouse.

However, the battle is not a treat to dinner, the attack of Jiu Se Tian Yin Yin can completely defeat Li Mu back to his original form.

Only after such battles, whether winning or losing, could Li Mu continue to grow.

Follower Longtu, Li Tian continues to think about moving south!

Going north and south, left west and right east, Li Tian moved in a clockwise direction according to the dragon map.

Ten minutes later, Li Tian and others once again came to the seal on the south side of the Great Dragon Secret Treasure.

Like the seal on the east side, there is also a huge metal pillar here, and the pattern on the metal pillar is also dragon language.

This time, Li Mu, Xiao Qingwa, and Xiao Tianyi did not dare to stand alone as they did before. Instead, they left each other's backs to each other. The three moved cautiously in the shape of 'Pin', and There was another small Yaksha on each of the three of them. In this way, they were truly able to see and listen to all directions.

It's just that, until now, they don't know what kind of artifact is next to this metal pillar!

"Be careful, everyone!" The red wing **** outfit behind Li Tian did not retract, and the wings spread out naturally. At the beginning, Li Tian's back, and the Liangyi umbrella in his hand was carefully blocked by Li Tian on his chest.

In the past three years or so, the female soul in Hong Zhan has been continuously refining Hong Zhan, and now Hong Zhan has almost been completely refined by that soul. It is impossible for Hong Zhan to come up with a moth. Up.

Moreover, Li Tian has always been single-minded, and his cultivation has never stopped. In addition, after Li Tian beheads the ninth-level peak powerhouses who are not long-eyed, he will also refine some crystals. The spiritual power contained in the black bead in his heart also increased.

It is not black to say that the spiritual power in Li Tian's heart is no worse than any demigod-level powerhouse, even if he is a demigod-level peak powerhouse.

It is also true that Li Tian is now using the Red Wing Divine Costume without any pressure or burden.

Li Tian cautiously turned around the metal pillar, but he did not find his opponent, which is the artifact Li Tian was about to conquer.

It's just... Li Tian can definitely judge that this artifact is nearby based on the vibration frequency of the artifact in his hand. The reason why Li Tian has not found it is because this psychic artifact may be due to Li Tian and Jiu Se The spiritual power fluctuations caused by the battle of Tianyin Yin made it feel dangerous, so this artifact may be hiding, hiding behind those smoke-like voids, ready to launch a fatal blow to Li Tian and others at any time.

"There are still three artifacts. As long as these three artifacts are collected together, then I can leave the metal world!" Li Tian started to have some psychological fluctuations again. In fact, this is inevitable. After all, the closer you are to success, the psychological fluctuations of people. It will be more obvious.

But...in fact, this was Li Tian deliberately. Since the psychic artifact is hidden, Li Tian must find a way to attract this artifact. The best way to attract an opponent is to show weakness, that is, deliberately. Expose the flaws to him.

Li Tian's wings were exploded. He had already carried the Liangyi umbrella and looked up at the metal pillar. At this moment, Li Tian seemed to be a tourist visiting the historical sites. There was no murderousness on his body, and because of his thoughts, he Spiritual power fluctuates unnaturally.

"My father..."

Li Mu didn't know what Li Tian was thinking, but he was still a little worried that Li Tian's arrogance would be hurt, so he couldn't help but remind him.

At the moment Li Mu spoke, Li Tian suddenly realized a trace of danger!

This danger is not aimed at him, but at Li Mu!

If Li Mu is not distracted, their Iron Triangle plus the artifact and three small Yakshas, even if they can't deal with the attack of the artifact, full defense should be no problem, but... because of Li Mu's distraction reminder Li Tian, two people and one animal were distracted to different degrees at the same time.

Whoosh!

At this moment, a strong light, like a laser light, suddenly flew out from behind the void smoke and hit Li Mu! The strong light was at least a few hundred meters away one second before, and the next second, no, not even a tenth of a second, the strong light had already appeared in front of Li Mu!

It's Yuxu Sword!

Chapter 5040: : Pure coincidence

The power of Yuxu Sword lies in its speed!

The legendary artifact can travel through the void. Even if the two are millions of miles apart, the Imperial Sword can easily travel through the void, appearing in front of the enemy in a flash, cutting off the enemy's head, and according to the beast boy's words, If the Yuxu Sword falls into the hands of a god-level powerhouse, this sword will be even more powerful.

As for how strong he is, Beast Boy didn't say why.

However, now Li Mu has truly felt the power of Yuxu Jian.

The Yuxu Sword came through the air, with a powerful murderous aura, with surging spiritual power, and with a trace of the mighty sword pointing at Li Mu!

Li Mu didn't dare to be the slightest negligence, the Huaguang fan in his hand opened with a 'wow', and the radiant Huaguang fan also had a touch of great power.

With Shenwei against Shenwei, this is the strongest defense Li Mu can make now, but Li Mu's strength is obviously not enough to block Yuxujian's attack, and even more accurately for Yuxujian, Li This kind of resistance by the curtain is completely useless. Because, at the moment Li Mu stretched out his hand to resist, that Yuxu Sword had already flown over Huaguang Fan and took Li Mu's face!

Li Mu is dangerous!

At the moment of life and death, at this moment Xiao Qingwa slammed into Yuxu Sword!

That's right, the little blue tile seemed to be seeking a dead end, and directly hit Yuxu Sword!

This seems to be a dead end, but don't forget that Xiao Qingwa's head is equipped with the magical ghost tooth mirror, and the ghost tooth mirror is the most powerful artifact that can withstand the strongest attack of the nine-color Tianyin Yin, this imperial sword As far as it is concerned, its power is really not as powerful as the attack power of Jiu Se Tian Yin Yin.

However, even so, the Yuxu Sword pierced the Ghost Tooth Mirror, and the tip of the sword had fallen into the thick Ghost Tooth Mirror.

But at this moment, the fangs on the Ghost Tooth Mirror are like vines, crazily entwined with the Yuxu Sword, actually entangled the Yuxu Sword, the little blue tile at this time is like a unicorn. With a sword stuck in his forehead, it looked really handsome.

Yuxu Sword wants to break free from the shackles of the Ghost Tooth Mirror and Ghost Tooth, but that Ghost Tooth Mirror is not a mortal thing. How can Yuxu Sword escape easily if the mirror is pierced by the Yuxu Sword, and then... a funny one The picture just appeared. The Yuxu Sword was flying in mid-air, and a small blue tile was hung from the tip of the sword. No matter how the Yuxu Sword flies or twists, the small blue tile is hanging on it.

It is precisely because of this that the speed of Yuxu Sword is obviously much slower, and it is unable to perform the stunt of traveling through the void. This kind of scene makes Li Tian involuntarily think of the kind of people who stand on the bridge and jump off the bridge to commit suicide. The suicide did not succeed. But accidentally fell into the mud and couldn't extricate itself!

Yuxujian seemed to know that he could not get rid of Xiaoqingwa for the time being, and he didn't want to put himself in danger and wanted to escape, but Xiaotianyi and Li Mu jumped quickly, Xiaotianyi grabbed Xiaoqingwa's leg, and Li Mu again Grabbing Xiao Tianyi's leg, then... Yuxu Sword couldn't fly, and was directly dragged down by these three guys.

Li Tian is full of black lines.

Who would have thought that the dignified psychic artifact would be so sad.

There was no need for Li Tian to do anything, and he easily grasped the Yuxu Sword in his hand.

Yuxujian didn't seem to like Li Tian, and was still struggling desperately, dragging the little Qingwa to fly everywhere.

"Huh! It's already in my hands and you won't be able to catch it! If that's the case, then I can only wipe out all the divine consciousness that you have cultivated so hard, so that you completely lose your spirituality and become a handle that can only be used by me. An artifact!" Li Tian said with a cold snort.

Yuxu Jian was not bluffed by Li Tian's words, and was still struggling to death.

Li Tianyi angered and unceremoniously displayed the prehistoric blue dragon. With the continuous release of the prehistoric blue dragon, the Longwei Yuxu Sword was quickly refined by Li Tian, and the divine power in the Yuxu sword was completely consumed, and even the consciousness of the Yuxu sword was awakened. Directly obliterated by Li Tian.

The tip of the Yuxu Sword is still pierced in the Ghost Tooth Mirror. Although the Yuxu Sword has been erased by Li Tian and turned into an unconscious artifact, the Ghost Tooth on the Ghost Tooth Mirror is still tightly entangled. Yuxu Sword, and now the ghost tooth is not completely under the control of Xiaoqingwa, it is not easy to pull the Yuxu sword from the ghost tooth mirror.

Reluctantly, Li Tian could only use his supernatural power again, and took the Ghost Tooth Mirror from Xiao Qingwa's head.

The Ghost Tooth Mirror lost its spiritual support, and Li Tian pulled out the Yuxu Sword from the Ghost Tooth Mirror.

Yuxu Sword, the length of the sword is only two feet three inches, the blade is wide and two fingers, and the blade is very simple, with only two sections of the blade and beautiful patterns. If you look at it from the shape, the Yuxu sword looks like it is More like a bronze sword forged from bronze.

Blow short hair and cut iron like mud?

This is no longer enough to describe the Yuxu Sword, as long as the Yuxu Sword is in hand, Li Tian even feels that he can smash the void.

"Good sword! It's really cheap! I'm paralyzed, you have to obliterate your spirituality before it can be used by Lao Tzu!" Li Tian took the Yuxu sword and said unhappily.

Being able to subdue the Yuxu Sword so quickly is indeed completely beyond Li Tian's expectation. Of course, the one who needs the most gratitude is Xiaoqingwa. This is not only because he has subdued the Yuxujian, but more importantly, Xiaoqingwa is in crisis. Saved Li Mu.

At this time, Xiaoqingwa was surrounded by three Xiaoyasha, Li Mu and Xiaotianyi.

"Xiao Qingwa, thank you!" Li Mu bowed to Xiao Qingwa very respectfully.

Little Qingwa can already transform into a human form. Seeing Li Mu bowing, he immediately became a beautiful young man. He hurriedly reached out to support Li Mu, "I'm all my own brothers, don't need to be so polite! If I was hurt like this, you must I won't just sit back and watch!"

You should know that Xiao Qingwa followed Li Tian before opening his eyes. In Xiao Qingwa's heart, Li Tian had already been regarded as his father. When Xiao Qingwa could speak, he used to call him Li Tian is the father, so there is nothing wrong with this.

"Hahaha, that's right! This was supposed to be something my eldest brother came to do, but I didn't expect to be preempted by you! But...hahaha, your trick is really powerful, and it's so easy to control Xujian has accepted it!" Xiao Tianyi also said with a smile.

"I...I was totally accidental..." Xiao Qingwa said with some twist.

Nonsense, this is of course an accident, but there is also a lot of luck in the accident, and luck is also because Xiao Qingwa has the courage to hit Yuxu with his head. Looking at the relationship between Li Mu, Xiaotianyi, and Xiaoqingwa So harmonious, discussing the understanding of the use of artifacts, talking and laughing, playing and making trouble, Li Tian was very pleased.

There are two best artifacts left, and twelve artifacts are ready, and Li Tian's face has a little more smile.

"Conquer the next artifact and walk away!"

"let's go!"
