

A Killer 5101

Chapter 5101: :you lose

"stop!"

At the critical moment, Li Tian stopped the claws of the great dragon!

"What's the use of leaving their lives?"

"It's just a few little things that don't know the heights of the sky and the earth. Why don't you let me squeeze them to death now, at least you can get a few crystals of the ninth-level peak of Transcendent Master!" .

"This is the wisdom of mankind!" Li Tian smiled unpredictably! !

It's easy to squeeze these four cute stupid.

If he really wants to kill, Li Tian doesn't need the Great Blue Dragon at all.

He only needs to separate these four cute and stupid animals, and he can easily kill any monster.

But Li Tian knew that killing these four guys would not do him much good.

What Li Tian wants to know is the information inside the gate of **, and this information, now Li Tian can only understand through these four cute and stupid animals.

Although Honghuang Qinglong was unhappy, the current Li Tian had passed Hongzhang this kind of three-surname domestic slave, and it was no longer what he used to be. No one should want to control Li Tian, even Honghuang Qinglong.

Hong Huang Qinglong released the double-horned monster according to Li Tian's request!

After the two-horned monster was released, it flew into a rage, "You are a despicable and shameless guy. If you dare not fight righteously with my two-horned demon king, you will play this kind of conspiracy!"

Li Tian smiled, and asked with disdain: "Do you think you are good at fighting?"

"Of course, I won't be afraid of anyone if I fight it upright!"

"Then how about we make a bet? If I win, you will follow me in the future. You must follow my fate for me!"

"What if you lose? I'm going to wash you clean, then put it on the flame and eat it!"

"A word is settled!" Li Tian said with a smile.

The unicorn, triangle, and four corners are a little anxious at this time.

"Second brother, don't bet with him, this guy is despicable and shameless, how could you be his opponent!"

"Second brother, you have to pay attention to your safety. This guy is still very strong. Don't let your guard down!"

"Second brother..."

"It's all ***** shut up for me, I know my business myself, don't you think I'm a fool?" The Double Horned Demon said angrily.

...

Li Tian is the strongest under the demigod. Facing this double-horned demon, Li Tian has enough confidence to fight him and he begins to doubt life.

The double-horned devil's double horns gradually turned dark black, and the momentum of this guy's body was also rising. If it is not black or blowing, this guy is definitely not weak. If his opponent is Tang Xiaolong and other people, they at least Can draw a tie.

Unfortunately, it was Li Tian that he met.

boom!

The powerful spirit wave released by the Two-horned Demon King brushed Li Tian's body and blasted on the mountains behind Li Tian.

Rumble!

The mountain shook instantly, and it seemed that it might collapse at any time.

As soon as the figure of the double-horned demon king flashed, he had already appeared in front of Li Tian, his horns were like swords, and he slammed into Li Tian.

If... if these horns can stab Li Tian, Li Tian's small body may be stabbed into flesh in an instant.

It's a pity... Li Tian's reaction was fast enough, and Li Tian still had a red wing ***** outfit.

Cang!

Cang!

Cang!

The black double horns kept hitting Li Tian's red wings, and there were bursts of metal-like crashing sounds.

Following the impact, Li Tian's figure kept retreating.

It seems that the two-horned devil has the advantage, and Li Tian is losing ground. However, Li Tian's face was very relaxed.

In Li Tian's double grasp after the Red Wing God outfit, ninety-nine purple flood dragons swam back and forth in his grasp like small snakes.

If the two-horned devil's feeling is sensitive enough, he should already be able to feel the danger at this time, but unfortunately... there are not so many ifs.

At this time, the two-horned Demon King was on his head, he was constantly attacking and laughing wildly.

"Hahaha, weren't you very arrogant just now? Aren't you very powerful? What? It won't work if you attack directly?"

"Now you know how powerful I am? The more powerful ones are yet to come. I will blast you into the mountains, break your flesh and blood into pieces, and make you feel the fear of death. , Hehe!"

There is so much shit.

As Li Tian gradually retreated, behind him was already a mountain within 100 meters.

At this moment, Li Tian controlled the Red Wing and opened it suddenly.

In this way, the double horns of the Demon King seemed to be able to pierce Li Tian's body immediately.

"Second brother, come on! Kill him!"

"Second, kill him, we ate him together!"

The three cute and stupid heads held by the claws of the prehistoric blue dragon were not bright enough. Seeing Li Tian's retreat, they naively thought that the strength of the two-horned demon was indeed enough to suppress Li Tian, and then they excitedly waved the flag for the two-horns.

However, they forgot what it meant to be 'artificial knife, I am a fish'. As soon as these three guys yelled twice, the claws of the great blue dragon slammed hard, and then the three dumb and stupid puppies were like injured puppies. Screamed.

It's now!

A sneer appeared at the corner of Li Tian's mouth, and his body flashed along the two black and thick sharp corners of the double-horned devil, and the ninety-nine purple flood dragons in his hands blasted towards his double horns.

boom!

boom!

There are forty-five purple dragons on one side, and forty-four purple dragons on the other.

The size of these purple water dragons has not grown, and each purple water dragon has only the thickness of a little finger.

However, it is precisely because the size of these purple flood dragons has not grown that they can concentrate all their strength together. The powerful dragon power released from these purple flood dragons is enough to cause certain damage to the feet of the double-horned monster.

Ouch!

The Double Horned Demon King Yang Tian roared, shaking his head constantly, trying to smash these **** purple bugs with his double horns.

"Damn it, it is despicable and shameless, but do you think this will make me succumb? My double horns are no less than a quasi-sacred weapon, and even the power of God will not cause any harm to me!" Said anxiously.

However, his voice has not fallen yet, Li Tian's left hand behind him suddenly grabbed one of his screams, and then the red wing **** outfit behind Li Tian disappeared, changed into a red light, and slammed into both corners. On a sharp horn of the devil.

Ouch!

The two-horned devil screamed again.

This time, it is pain!

puff!

One of the sharp-like horns was cut off by Li Tian with a single knife, and blood sprayed out from the severed horns.

But Li Tian teleported a few hundred meters away and stood in the sky as early as the moment he cut the sharp horn.

Li Tian grasped the severed sharp corner with his right hand, and what he held tightly in his left hand was the red shining red sword!

"You lost!" Li Tian said coldly.

Chapter 5102: : Just deal

"I... I lost..."

The horns are the four most precious and proud weapons of these cute fools.

In the mountains of the Mirror Realm, powerful Nether Beasts would break into this area from time to time, but relying on the horns, the four brothers were invincible and invincible.

At the same time, the four brothers also focused on training their horns to make their horns stronger.

But now. One of the horns of the Two-horned Demon King has been cut off by Li Tian's Red Chop.

The outcome has been divided.

"Impossible...impossible!"

"Ours won't lose! Our horns are so hard that even the most powerful magic weapon can't hurt our horns, but...but...what tricks did you use?"

"Second brother actually lost?"

These horned monsters, although they had long expected that the double-horned monster would definitely lose, but only a few minutes after the battle began, one of the horns of the double-horned monster was cut off, and the victory or defeat was separated without any suspense. .

This loser is too clean!

"I lost, please return my horns to me. I will follow you as agreed. From now on, I will be your mount! You will follow your orders!" The two-horned monster knelt in front of Li Tian and said.

"No! Second brother, we are noble guardians, how can we follow all kinds of scumbags... Aw!" Before the triangle monster had finished speaking, it was caught by the claws of the great blue dragon and let out a scream.

Li Tian then threw the broken horn of the double-horned monster to him.

After the broken corner reached the hands of the Double Horned Demon, he immediately linked the broken corner, and then a slight energy fluctuation came out from the broken corner, and as a burst of strong light came out from the gap in the broken corner, the broken corner was unexpectedly Magically restored.

"This is even better than electric welding technology!" Li Tian was dumbfounded.

Worlds, full of wonders.

For example, if a human wants to recover and heal after a bone is broken, it is a very long process.

I didn't expect these monsters to be so awesome.

"the host!"

After the two-horned devil's broken horns were restored, his noble head was underneath.

"Doing evil!"

"Heaven!"

"Kill your second child!"

The remaining three cute little monsters saw that the two-footed monster had gone from Li Tian, and the one who cried was called a sad one, and even cursed the two-horned monster.

Paralyzed, where is this brother, it is clearly true love!

"Now the two horns have followed me, how about the three of you?" Li Tian asked coldly.

The unicorn, triangle, and four-cornered monsters glanced at each other, and the three cute and stupid all saw their disdain from each other's eyes.

"Hmph, dream, we'd rather die than follow!"

"Yes, even if we die, we can't let the noble head underneath us!"

"We disdain to be with idiot traitors like Double Horn! Kill us!"

This request is excessive, but if they can't give in, Li Tian can only meet their request and let them die!

Hey!

Li Tian frowned slightly, and his murderous aura suddenly rose.

"Want to die? That's easy, it seems I can only meet your requirements!"

Several purple flood dragons surround Li Tian's body. These purple flood dragons release powerful dragon power. With the release of these purple flood dragons, the dragon's claws suddenly increase in strength.

Ouch!

Ouch!

The three cute fools are only the ninth-level peak realm of the super domain master. How can they be the opponents of the prehistoric blue dragon who already possesses the power of the demigod. Only Meng Stupid kept screaming.

"Lord...Master, please be merciful to the master!" The two-horned monster knelt down in front of Li Tian and kept kowtow. "Master, although the four of our brothers are not brothers, we are the same brothers and sisters. Please also see the master. I am willing to submit to the master's face, and ask the master to let them go. I am willing to repay the master's kindness with heart and soul!"

Li Tian is not a bloodthirsty demon, nor is he stupid to kill these three little Mengs.

Seeing the double-horned demon begging, Li Tian couldn't help feeling a little moved.

"Let the three of them go!" Li Tian said.

Honghuang Qinglong was reluctant, but he had to listen to Li Tian's words.

The Honghuang Qinglong let go of the dragon's claws, releasing the unicorn, triangle, and four corners.

"I won't kill you because of the double horns. I hope you can do it yourself!" Li Tian said coldly.

After saying this, Li Tian didn't care about the three cute and stupid expressions, the figure flashed and began to look for the fifth water moon.

It is a pity that Li Tian's spiritual consciousness was released, and there was no Fifth Water Moon within a radius of tens of miles.

In other words, Li Tian was really used by Fifth Shuiyue.

Li Tian is not sad, nor angry.

This is very good. The relationship between him and Fifth Shuiyue was originally not deep, just like those women who Li Tian once slept in the Netherworld, it was a pure relationship, and Li Tian and Fifth Shuiyue, Now it looks more like a deal.

Li Tian gave up looking for the Fifth Shuiyue, he decided to go to the gate of ** to find out, he wanted to see what on earth was it that made Fifth Shuiyue so willing!

Li Tian's figure flashed and appeared in front of the double-horned monster.

"Let's go and talk as we go! Tell me everything you know!"

The two-horned monster reverted to its original form very obediently, but it was a fierce beast that was more than ten feet long and burned with light spiritual power and its two horns bent backwards.

"Double horns! You are a bastard!"

"Woo, just follow this **** guy, his purpose is the door of sex, where will you go to die!"

"Let him die! Let's treat him as a brother without him!"

The relationship between the four monsters is pure and pure. They don't have the complicated feelings of human beings. Love and hate are all on their faces.

The two horns looked back at the three little monsters who jumped and scolded it in the distance, with sadness on their faces involuntarily, two teardrops slipped from the corners of their eyes, then turned their heads and resolutely led Li Tian to the depths of the mountains.

"Master, what do you want to know, just ask!"

"Okay! These are the two crystals of the ninth-level peak realm of the superdomain master. They are a reward for you! First tell me why you are here, and what are you protecting?" Li Tian casually lost both angles. The two crystals said.

The two-horned fierce beast swallows two crystals directly in its mouth, and then stores them in a storage area in the mouth.

Two crystals entered his mouth, and the eyes of the two horns immediately showed shock.

The crystal flew out from Li Tian's hand to enter the mouth of the two horns, and it was only a second before and after, but the one-horned king still clearly felt the energy fluctuations of the two crystals, and his face was also at this time Full of shock, "It turned out to be... it turned out to be the crystal of the ninth-level peak realm of the Transcendent Master, this... who is this guy? The shot is so generous, no wonder we are not his opponent at all! I decided... absolutely not. Let this guy with Double Horns be in danger alone!"

Then, this brazen guy flashed his figure and slid down in mid-air in a kneeling position.

"Master, wait for me! I will go with you too!"

Chapter 5103: : Peacock Pluto (1)

"Master, wait for us, our two brothers are willing to follow you!" Seeing that their boss unicorn is so unscrupulous, the triangle and four-cornered monsters immediately acted even more unscrupulously, and at the same time gave in to Li Tian.

"Master, hehe, give a crystal a taste?"

"Master, hey, let me carry you some distance?"

Li Tian could feel it, because the other three little ones followed Li Tian stupidly, and they were all willing to recognize Li Tian as the master, and the two horns were very excited.

But Li Tian didn't want to get used to these guys.

Crystal, Li Tianduo is, but you can't call me Master because you, I will give this crystal to you.

"Master, behind the gate of ** is a completely different space. The space is very vast. It is conservatively estimated that it is one-third the size of this secret realm, or even wider. The difference is that there is no ice and snow in that space. It's green, and... and... there are more powerful guardians in that space. Our four brothers had also entered the gate of ***, but the guards slapped us."

"Haha, I remember, I remember! When the four of our brothers joined forces, they were not the opponent of the guardian. Tsk, master, the guardian's cultivation level has at least reached a demigod, but he is worse than the master. Far!"

"Yes, the big bug released by the master is really powerful, and we have no power to fight back, so the master is better!"

These four guys took turns to flatter Li Tian, and by the way, like a bamboo tube, they told Li Tian everything they knew.

Li Tian knew that these guys had also lived in the dark forest in the underworld.

Originally, these ghost beasts were Xianyun Yehe, and they were not controlled by any strong.

Even if it is the super ***** family, these guys are not in the slightest.

As Nether Beasts, these guys are the greatest scourge in the Nether Realm. They kill anyone who wants to kill, and eat whoever wants to eat.

However, this happy day was completely changed due to the rise of a strong man, who was the founder of Nether Academy.

In the words of Shuangjiao and others, the founder of Nether Academy is definitely the most despicable guy in the world.

That guy's cultivation level is very strong, and it is powerful enough to make all the ghost beasts in the dark forest terrified, but this guy did not use force to conquer the dark forest, but deceived all the superdomain master-level experts in the dark forest into this secret realm. .

After all these nether beasts entered the secret realm, the guy showed a shameless face and asked these nether beasts to guard the door of his life for him.

If he is willing to stay, he will give these ghost beasts a great help, can improve their cultivation level, let them reach an unprecedented cultivation level, and more importantly, this guy said that in this secret realm, all the strong The Shouyuan will cease, and they can live forever.

Of course, if he doesn't want to stay, he won't force it, but those who don't want to stay can only enter the Mirror Realm by himself, and then leave the secret realm through the Mirror Realm.

Nothing is free in this world.

Those Nether Beasts were all heroes. Even hundreds of thousands of years ago, they were quite powerful. It is already humiliating to be tricked into the secret realm. How could they be willing to succumb to others?

Many super domain master level ghost beasts chose to leave, enter the mirror world, and then...there was no more.

According to Li Tian's knowledge, in the past several hundred thousand years, the only ghost beast in the entire dark forest was the strong one at the top of the holy peak, which became a demigod and ascended into the gods. In other words, it is possible that only one ghost beast left alive. Mirror world.

The other ghost beasts probably did not have such luck, and did not leave the secret realm alive.

This is why the Nether Realm Super God Family, Nether Academy, Ancient Family, and Mysterious Races all have super domain master powers, while the Nether Beasts in the dark forest are generally very low, even a super domain master power. There is no reason.

At the beginning, the four brothers such as Shuangjiao did not dare to enter the mirror world, and finally chose to stay.

Then, under the guidance of the founder of Nether Academy, their cultivation realm was greatly improved, and they all reached the ninth level of the super domain master. But...their four cute and stupid ones are also confined to this endless mountain and can never get away.

"Where is the guardian in the gate of **? Is it also a ghost beast?" Li Tian asked.

"It shouldn't be. That guy looks completely different from ours! Otherwise, we wouldn't have been beaten by that guy when we entered the gate of sex." said the unicorn.

The four guys were not ashamed of being beaten up, but proud of them.

"What is the guardian in the gate of **?" Li Tian asked.

"I don't know the details, but our brother saw an iceberg when he was fighting, a very huge iceberg..."

"iceberg?"

"Yes, there is still a person frozen in the iceberg, a very huge guy!"

After talking about this, Li Tian basically knew that the guardian was probably the guy who was frozen in the iceberg.

Who is he?

Why is it frozen in the iceberg?

What does he have to do with Fifth Water Moon?

These questions lingered in Li Tian's mind.

The four little Mengs were flying stupidly, and the mountain below their feet quickly retreated.

Ten minutes later, Li Tian and the four Xiaomeng stupidly came to the gate of **.

Whoosh!

Whoosh!

Li Tian and the four cute animals fell stupidly.

The gate of ** is a huge building built in a mountain with a height of more than one thousand meters and a width of three hundred meters. The building is white all over, with various weird patterns carved on it, and between the two gate posts is a surging Spiritual power.

Standing in front of the door, Li Tian could feel a strong chill coming from inside the gate of **.

It is conservatively estimated that the temperature near the gate of ** has reached tens of degrees below zero.

This is also why the area near the gate of ** is bare, without any living animals or plants.

"Master, go in from here."

"We want the master to fight side by side, and also ask the master to allow us to join you in the war. It's just that... the cultivation base I'm waiting for is still far from the master. I'm afraid it can't help much. If... if the master can give us With some crystals, our combat effectiveness can be improved a bit again!" The unicorn monster rubbed its two paws and said shamelessly.

Seeing the look in the eyes of the double-horned fierce beast, Li Tian still felt soft. He turned out dozens of crystals of the ninth-level pinnacle realm of the Transcendent Master and threw them to the four Xiao Meng stupid, and said: "I enter the secret Just for trial, I will enter the mirror world and leave the secret realm soon, so you don't have to continue to follow me. These crystals are the gifts you call my master, and we will have a period of time later!"

After finishing speaking, Li Tian turned around and walked into the door of **.

Chapter 5104: : Peacock Pluto (2)

Thousands of miles of ice, thousands of miles of snow drifting!

Li Tian's eyes were an endless glacier, and ice scum the size of a little finger kept patting Li Tian's body along with the strong wind.

Woo~

The cold wind blew across the endless ice field, and there was the sound of howling ghosts and wolves.

Here is the scene behind the gate of **.

Li Tian's spiritual consciousness was released, and he wanted to find signs of life on this vast glacier.

It is a pity that within the scope of Li Tian's divine consciousness release, there is no sign of life.

It seems that this is the end of life.

It only took a few minutes to enter the gate of sex, but Li Tian's body temperature dropped sharply. Even Li Tian's scales formed a thick layer of ice scum, and Li Tian's hair changed in the ice scum. Become strands of ice, breathe out of the mouth and turn into a mist of ice, instantly swept away by the gust of wind.

Li Tian remembered what the two horned monsters and the four dumb people said that there was a towering iceberg on this ice sheet. There was a corpse in the iceberg, but maybe because of the strong wind, the visibility was too low, Li Tianlian The directions of southeast, northwest and northwest can not be distinguished, let alone the so-called iceberg.

Li Tian wanted to fly, but found that the pressure on this glacier was so strong that Li Tian could not fly in the air.

"Red Wing God outfit!"

As Li Tian's mind moved, the red wing **** outfit instantly grew from behind him.

The huge red cutting wings flapped a few times, and Li Tian flew slowly like a bird.

As Li Tian gradually adapts to the environment here, his flying speed is getting faster and faster.

Li Tian chose a certain direction according to his divine consciousness, and flew quickly in this direction.

Whoosh!

Whoosh!

Although the ice and snow have charming eyes, Li Tian gradually adapts to the ice and snow, and can even fly with the strong wind, but Li Tian still did not see the iceberg.

"How is it possible? Shuangjiao and the other four cute stupid ones said very clearly that they could see the iceberg when they entered this icefield, but why can't I find the iceberg? Could it be that I was in the wrong direction? ?" Thinking of this, Li Tian tried his best to release his spiritual consciousness farther.

Just like a bat, as long as the supernatural power released by Li Tian can feel any obstacle, Li Tian's mind will immediately show the shape and size of the obstacle.

"Huh? What is this?"

The consciousness released by Li Tian suddenly fed back a huge object to Li Tian. At this moment, through his consciousness, Li Tian felt that he was living around this huge object and then two other

objects existed, no matter how these two objects were Li Tian can feel it with their spiritual sense, they have human bodies.

More importantly, Li Tian could feel these two bodies moving around with this huge object.

One is the seventh-level super domain master, and the other is... a demigod?

"The powerhouse at the seventh level of Super Domain Master should be Fifth Shuiyue, this demigod should be the powerful existence that the two-horned monster and others encountered before, hehe, Fifth Shuiyue, although I don't know you are here What the hell, but...I'm Li Tian here!" Li Tian had such an idea instantly.

Li Tian speeded up and flew in this direction.

However, at this moment, Li Tian suddenly felt the huge object move, and immediately after Li Tian released the consciousness, he instantly lost contact with Li Tian.

In other words, Li Tian's spiritual consciousness was actually destroyed!

"So powerful, so terrifying existence!"

Li Tian thinks that he absolutely does not have the ability to instantly wipe out the power of the super domain master's ninth-level peak realm powerhouse, and that demigod can't do it either.

Thinking of this, Li Tian's heart couldn't help but tighten.

That huge object is probably the frozen corpse in the iceberg, but... how could this corpse come back to life?

Could it be that the corpse was not dead at all, but was sealed in an iceberg?

More than the strength of a demigod-level powerhouse, the gate of **, and the fifth water moon, these words constantly flashed in Li Tian's mind.

I'm afraid this so-called corpse is the target of Fifth Water Moon!

Li Tian speeded up the flight, he wanted to see what plane Fifth Shuiyue was doing.

Suddenly, the wind and snow on the entire ice field stopped instantly without any warning, and the terrible pressure that fell on Li Tian also disappeared.

Li Tian can see farther...

and many more!

what is that?

Li Tian can only judge with the naked eye when his spiritual consciousness is destroyed.

Within the scope of Li Tian's realization, a figure flew quickly thinking of Li Tian's direction.

Whoosh!

As if it were a javelin, the body of the semi-god powerhouse drew an arc in the air, and then plunged into the glacier in front of Li Tian in an instant.

boom!

With a loud noise, the body of the demigod-level powerhouse fell completely into the glacier, showing a little black hair.

The white glacier and the black hair are very conspicuous, as if a nail is nailed here.

How is this going?

When the demigod-level powerhouse flew over just now, Li Tian didn't feel any energy fluctuations. Is this demigod-level powerhouse already so tough?

Click... Click...

At this moment, taking the body of the Demigod-level powerhouse as the origin, cracks more than a foot wide appeared on the glacier, and these cracks quickly split towards the distance.

Ouch!

Ouch!

Li Tian thought it was his illusion, because he heard a roar from under the glacier!

Click!

Click!

The glacier is still cracking, and at this time the crack in the glacier has become more than one foot wide.

Li Tianfei was in mid-air, looking down on the glacier, he could not see the scene under the glacier at all, that is to say, the thickness of the glacier far exceeded Li Tian's expectations.

At this moment, Li Tian felt the spiritual power on the body of the semi-god powerhouse suddenly surging restlessly.

"Could it be... this guy wants..."

There was a trace of shock and trepidation on Li Tian's face.

Paralyzed, this demigod-level powerhouse is going to explode!

Even if you are impatient, don't commit suicide in this way, right?

The self-destruction of a demigod-level powerhouse is not the power that Li Tian can bear now, and Li Tian definitely has no ability to prevent a demi-god-level powerhouse from exploding and death, so Li Tian can only choose to escape!

Fortunately, at this time, the pressure on the ice sheet has been reduced to a range that Li Tian can accept, huh! Huh! Huh! Li Tian continued to teleport and flee towards the distance. In a flash, Li Tian had escaped at least tens of thousands of meters.

boom!

A loud noise came from behind Li Tian.

Then a powerful wave of energy convolved into an ice block the size of a mountain and hit Li Tian.

Li Tian didn't dare to neglect the slightest, the red wing ***** outfit instantly wrapped his whole body, and before that, Li Tian had released dozens of purple flood dragons around his body, just in case.

boom!

Li Tian received a violent impact, and his body flew away involuntarily.

Rumbling...

Rumbling...

The ice field behind the gate of ** collapsed completely,

Chapter 5105: : Peacock Pluto (3)

Li Tian was dizzy and dizzy.

The storm and snow that had just stopped for a moment swept over again.

Ouch!

Ouch!

Countless black shadows emerged from under the ice field, and then kept roaring.

"What is this?"

Li Tian saw these black shadows, which seemed to be some smoke. When Li Tian stretched out his hand to grasp, his arm passed through the body of these black shadows. Then, these black shadows would roar around Li Tian, even He wanted to attack Li Tian with his teeth and claws.

"Could it be... the lonely ghost?"

Li Tian only felt a chill all over his body. This chill was different from the coldness of lowering temperature, but it seemed to penetrate the skin and directly penetrate into the bone marrow.

"Go away!"

Li Tian roared, his spiritual power suddenly increased.

Ninety-nine purple dragons appeared again, surrounding Li Tian's body.

The powerful Longwei immediately shattered the black shadows surrounding Li Tian.

Although these black shadows have no entities, they are not lifeless. As Li Tian released more and more divine power, within a few hundred meters of Li Tian's body, he dared not to offend any more black shadows.

Li Tian stood on a huge ice block of several thousand cubic meters, under which was a bottomless black ocean.

These black shadows emerged from this ocean.

The wind began to convolve again, and the sky was dim, and Li Tian felt as if he had come to hell.

Li Tian released his divine sense again, and he wanted to use it to lock the fifth water moon.

Ok?

However, Li Tian suddenly discovered that his consciousness was released, and it was quickly swallowed.

Whoosh!

Li Tian unfolded the red wing ***** outfit and flew in the direction of the fifth water moon.

In the process of Li Tian flying up, there were other black shadows rushing towards Li Tian, but without exception, any black shadow that dared to attack Li Tian would be easily released by Li Tian's purple dragon. Smashed.

Whoosh!

Whoosh!

Gradually, Li Tian felt that the coercion he was going to endure was increasing.

Li Tian found out that he had accidentally flew to the huge object.

In front of him, the body of that huge creature was gradually and completely exposed in front of Li Tian.

"I...fuck!"

Seeing this creature, Li Tian was already speechless in horror.

You must know that Li Tian has never seen a huge creature, such as the Great Blue Dragon, but when Li Tian saw this huge creature clearly, he knew that the Great Blue Dragon was just a bigger bug in front of this creature, the wind. Gradually, the ice cubes flying all over the sky smashed into the sea and disappeared completely.

Li Tian's figure flashed back in an instant, and stepped back several kilometers away, only then did he fully see the face of this huge creature.

This guy turned out to be a peacock!

It turned out that what was frozen in the towering iceberg on the glacier was only the head of this peacock. The entire body of this giant peacock was frozen by the glacier.

At this time, the ice sheet collapsed, the iceberg was destroyed by the Fifth Water Moon, and the peacock was finally fully exposed.

The peacock opens the screen.

Li Tian saw the peacock behind him, and there were hundreds of feathers thrusting into the sky in an instant. These feathers were entwined with spiritual power, and each of them released radiant colors, making this giant peacock look like a divine bird. , Those black shadows flying out of the black sea water under the ice sheet continued to fly towards the peacock, and then got into the peacock's feathers. In just a few minutes, the feathers of the giant peacock gradually turned black, releasing a An uneasy breath.

Li Tian saw the fifth water moon.

At this time, Fifth Shuiyue stood between the peacock's eyebrows.

"Li Tian, this is what is behind the gate of **. I should thank you. Without you, I would not be able to enter the secret realm of the mirror world in my lifetime. Even if I can enter the secret realm, I

am also afraid I can't pass through the endless mountains and escape the sight of a few guardian beasts. Of course, without the crystals you gave me, I wouldn't be able to unblock the Peacock Pluto so quickly!"

"You use me?" Li Tian said coldly.

A slight smile appeared on Fifth Shuiyue's face.

"It's hard to say who is using whom. You like female sex. I can satisfy you. You have power. You can also satisfy me. We are more of a deal. But... Very happy and very happy, at least you let me taste the joy of being a woman."

"Unfortunately, these pleasures are always short-lived, and only power is eternal. Therefore, I made this choice! Li Tian, leave the gate of **, go and destroy the gate of **, this is right for you and right. Nether Academy is good for Nether Realm. I want to leave here. If we are destined, we will naturally see you again!"

Fifth Shuiyue said very plainly. When saying these words, Li Tian could not feel any fluctuations in her expression, as if she was saying something that had little to do with her.

"Destroy the door of sex? What about you? Did you try your best to get this peacock to stay in this space?" Li Tian asked.

Fifth Shuiyue suddenly laughed.

"Li Tian, you are actually really cute when you are stupid. If I could meet you thousands of years ago, maybe I would follow you to Situ Ningbing, Ye Meijing and others and become your woman. Then maybe I would also It's a pity, when you come to the Netherworld Realm, when you come to the Nether Academy, my ambition has been completely expanded, and no one can stop me!"

"The founder of the Nether Academy, that is an extremely powerful existence. Do you really think that this secret realm is just a place for trial? The so-called mirror world is just an obstacle set up to restrict the Peacock Pluto to the Nether realm.* The space behind the *gate is my **. This is a passage to the ghost mythical creature."

"Many demi-god-level powerhouses are unwilling to ascend to the God Realm in daylight. That's because they have become accustomed to being aloof and don't want to start from scratch. Since they are unwilling to go to the God Realm, why can't they choose ghosts? The passage reaches the ghost mythical creature, and then uses the power of the Peacock Pluto to become the master of the ghost mythical creature."

Ghost mythical creature, this is when Li Tian heard the name again.

"Li Tian...If you accidentally die in the future and your soul appears in the ghost, I will find you out and keep you by my side. Now...bye!"

At this moment, Li Tian saw a crack in the middle of the eyebrows of the Peacock Pluto. Then, Fifth Shuiyue opened his arms, closed his eyes, and got in with his back against the crack.

As a ball of light flashed in the heart of the Peacock Pluto, the Fifth Shuiyue and the Peacock Pluto merged into one.

Peacock Pluto's pupils opened, and a chill that made Li Tian felt awe-inspiring flashed out of the Peacock Pluto's eyes, nailing Li Tian firmly.

This is murderous.

Chapter 5106: Dragon Bird Fight

Li Tian was very upset.

This Peacock Pluto has been sealed in the thick glacier for hundreds of thousands of years. Today, he has finally seen the sky again, and he dared to release his murderous aura to intimidate Li Tian!

Who is intolerable!

Originally, Li Tian was used by Fifth Shuiyue, and he felt very upset. After all, Fifth Shuiyue and Li Tian are Lu Shui couples, and Li Tian could not really mention his pants and deny people. What about Fifth Shuiyue?

However, for the Peacock Pluto, Li Tian seems to have no need to continue being polite!

"court death!"

Li Tian casually pulled out a demi-god crystal from the space ring, and directly put it into his mouth, and then instantly released the wild blue dragon from his atrium.

The wild dragon is suspended in the sky, looking down at the Peacock Pluto standing on the sea.

boom!

With the emergence of the powerful dragon, the wheel of the powerful dragon instantly covered the entire black ocean.

The two eyes of the Great Blue Dragon are like scarlet lanterns, staring at the Peacock Pluto. As a behemoth, the Great Blue Dragon hasn't really put this bird in its eyes, but... the powerful murderous intent released by the Peacock Pluto Had to let Honghuangqinglong pay attention.

"Boy Li Tian, you are really a model of the dead world, how can you provoke a guy?"

The voice of Hong Huang Qinglong appeared in Li Tian's ear.

Li Tian couldn't help being startled slightly.

Is this peacock very awesome?

You are a prehistoric azure dragon. Even in the Netherworld, the mighty gods cannot make you surrender. Are you afraid that this ugly peacock will fail?

"Boy, you are really ignorant, do you know the eighteenth level of ghosts?"

"Know! Isn't this peacock a strong man of ghosts?"

"The strong? Haha, you can really underestimate her! On the eighteenth floor of the ghost mythical creature, there are a total of 18 Plutos. If I am not mistaken, this peacock is one of the ghostly mythical creatures. The strongest eighteenth of the ghost mythical creatures One of them, do you think he is a strong one?"

"Fortunately, this guy has been trapped in this ice field for hundreds of thousands of years, and his cultivation level has plummeted, so this guy doesn't look that terrifying now, otherwise, with my current strength, it will definitely not be her opponent!"

Li Tian felt shocked in his heart.

Peacock Pluto, turned out to be a certain Pluto in the eighteenth floor of ghosts.

This guy has been sealed for hundreds of thousands of years, and his cultivation level has plummeted, which is enough to make the current prehistoric Qinglong feel tricky. If this song guy is in his heyday, how powerful is it?

Thinking of this, Li Tian already felt a chill.

Fortunately, Li Tian felt fortunate that the current Peacock Pluto was not the strongest, otherwise, he might only have to escape now.

Li Tian's heart became more and more confused.

How strong is the founder of the Netherworld Academy, and the paralyzed one can seal a world of Hades behind the secret door of this secret realm, this guy seems too abnormal!

In this way, compared with the founder of Nether Academy, the mysterious woman of Wanshen Mountain feels completely insignificant.

Similarly, Li Tian is also thinking about the fifth water moon.

This guy's body is now integrated into the body of the Peacock Pluto. Does it mean that after the fifth water moon, he will gradually have the strength of the Peacock Pluto?

The Fifth Water Moon is definitely a careerist.

If this guy has the strength of the Peacock Pluto, then she will definitely return to the ghost mythical creature, maybe with the help of the Peacock Pluto's strength to gradually move to the position of the strongest ghost mythical creature.

The ghost is also where Li Tian will go next.

In this way, Li Tian and Fifth Shuiyue (Peacock Pluto) will have the opportunity to meet again.

Li Tian has decided to leave.

Leave the gate of sex, seize the time to practice, and then wait until he enters the ghost mythical creature, maybe will meet with Fifth Shuiyue.

call!

Li Tian let out a sigh of relief, and began to use his spiritual power slowly, trying to bring the prehistoric blue dragon back into his heart.

At this moment, the Peacock Pluto opened his mouth to speak.

"Li... Li Tian, your cultivation level is only the ninth-level peak of the superdomain master. Even if you swallow the demigod crystal again, as long as you can't break through, the prehistoric blue dragon you release will be taken by you. The realm is limited, so, for the sake of our one-night husband and wife, I forgive you for your disrespect to me this time, but... if you continue to know what is good or bad, then I don't mind killing you now!"

It is the voice of the fifth water moon.

Li Tian's brows couldn't help but frown, and the anger in his heart suddenly rose.

Beheaded?

The paralyzed woman who was still moaning under Lao Tzu's crotch before, now dares to scream and kill!

"Hehe, you want to kill me? Then let me see how much you can do!" With Li Tian's roar, the great blue dragon threw its teeth and claws on the Peacock Pluto!

boom!

boom!

boom!

Powerful dragons descended from the sky, and the claws of the prehistoric blue dragon's claws had already caught on the body of the Peacock Hades, and almost instantly the feathers on the body of the Peacock Hades were caught and dropped off.

Li Tian performed "Eighteen Claws of the Dragon" again to release ninety-nine purple dragons to help fight the wild blue dragons and jointly deal with the Peacock Pluto.

Peacock Pluto raised his head miserably and screamed twice, but it was the sound of a peacock.

Immediately, on the body of the Peacock Pluto, black shadows continued to dance, with heavy ghosts, transforming into various powerful warriors, or riding a horse with a sword, or flying high, straight to the wild dragon.

In the process, these ghosts met the purple dragon. The powerful purple dragon wanted to stop these ghosts, but the purple dragon was strangled by these powerful ghosts in a flash.

The ghosts released from the Peacock Pluto were all close to the demigods in strength, and after these guys condensed again, the black shadows all over the body turned out to be supported by divine power.

"Ok... so strong!" Li Tian finally knew the true strength of the Peacock Pluto.

Ouch!

Ouch!

After these ghosts killed dozens of purple dragons, their offensive remained unabated, on the contrary, they were even more deadly, roaring into the air and slashing towards the wild blue dragon.

Cang!

Cang!

The weapon in the ghost shadow's hand slashed on the dragon scales on the body of the wild blue dragon, and there was a harsh metal clank.

Hong Huang Qinglong swung its tail and shot a dozen black ghosts away!

"Li Tian... It seems that you are desperate to break with me? Hahaha, that's good, if that's the case, then there is no need for my Fifth Shuiyue to show mercy to you anymore. Today I will kill you Enter the ghost!" Fifth Shuiyue roared angrily from the Peacock Pluto's mouth.

Although the Great Blue Dragon was released by Li Tian, the battle at this level is clearly reluctant to continue to confuse with Li Tian, so Li Tian wittily flew back several kilometers, watching the Great Wild Blue Dragon and Peacock from a distance. The battle of Pluto.

Thunder and lightning in the sky!

There are many ghosts on the sea!

Chapter 5107: See you

In this battle, the sky is dim and the earth is dark, and the sun and the moon are dark.

The battle has lasted for more than three hours since Li Tian swallowed the demi-god crystal, but there was no victory or defeat.

The feathers on the body of the Peacock Pluto were torn apart, like a feathered pheasant. The scales of the dragon's body were also shattered a lot, and it looked terrible.

Not black or blowing!

As far as the current situation is concerned, it is unlikely that the Primordial Azure Dragon and the Peacock Pluto would defeat each other, unless Li Tian swallowed another Quasi-God Crystal.

But... Li Tian is not an iron fight either.

In the battle of the Sanlu Super God family, Li Tian swallowed two quasi-god-level crystals in a row, causing great damage to his body, and even Li Tian fell into a faint for a while.

Later, after two days of conditioning, Li Tian's body gradually returned to normal, but it was only limited to the fifth water and moon rolling on the grass, and was limited to fighting with the four cute stupid under the demigod level powerhouse.

At this level of battle, Li Tian can swallow a demi-god crystal at best, but even so, Li Tian's body also bears a large side effect backlash.

"Li Tian... I will forgive you for a dog's life today. From now on, we will be absolutely gracious. Next time we meet again, I will kill your ruthless dog!"

The Peacock Pluto's body suddenly released a cloud of black light, which was like a whirlpool, constantly sucking the sea water, and then exploding in the air instantly.

The black sea water contained surging divine power, like a cannonball smashing into the wild dragon and Li Tian.

The water bomb is extremely fast and powerful, as strong as Li Tian, and there is no possibility of avoiding it at all.

Hong Huang Qinglong abandoned the Peacock Pluto and blocked Li Tian with a dragon tail.

boom!

boom!

boom!

The water bomb fell on Li Tianhonghuang Qinglong's body, and it exploded in an instant, with loud noises.

At the same time, the Peacock Pluto dove into the black sea and disappeared completely.

After a few seconds, the black ocean water under my feet seemed to leak. A giant vortex appeared on the sea surface, and the water continued to flow along the vortex into the vortex.

The sea level was falling rapidly, and within an hour before and after, the black sea disappeared completely and turned into a barren and barren land.

However, in the middle of this barren and barren land, there is a gleaming cave.

Li Tian flew to the cave, but couldn't see what was in the cave. It seemed that there was a suction force to **** him in first.

"This cave is the passage to the ghost mythical creature, but... this channel has been destroyed by the Peacock Pluto. If you want to reach the ghost mythical creature through this channel, I am afraid it is impossible!" Hong Huang Qinglong's voice appeared in Li Tian's ears.

The Primordial Azure Dragon is formed by the condensing of spiritual power. Even if it is attacked by the water bombs released by the Peacock Pluto with the force of life, it will only damage the body and will not have much impact.

As long as Li Tian takes the prehistoric blue dragon back, the next time he uses it again, the prehistoric blue dragon will be resurrected alive and full of blood.

"How did you know? Have you been to a ghost?"

"Bah! Bah! Bah! The ghostly Pluto wants to take me, but do they have the ability? A strong like me, even if it falls, as long as my soul doesn't want to be reincarnated, the ghostly Pluto can do nothing about me. "

"However, being a once-powerful person is naturally not something a little kid like you can compare. For example, creating space channels and creating secrets. This kind of thing is easy for me once!"

Li Tian completely believes in the strength of Honghuang Qinglong.

The Peacock Pluto has gone to the ghost mythical creature with the Fifth Shuiyue, and this place that once imprisoned the Peacock Pluto has completely lost its function.

Li Tian used his spiritual power to collect the primordial blue dragon into his body, and wandered around this place a few times, trying to find something worthy of his taking, but finally found that there was no root hair here.

Reluctantly, Li Tian came to the gate of ** again.

Looking back at this barren space without any vitality, Li Tian thought to himself: Fifth Shuiyue, see you! We can write off the past events, but next time you see me again, I will let you see with admiration. At that time, it is not necessarily who killed whom. "

Thinking of this, Li Tian turned around and jumped out of the door of sex.

Outside the door, the place where there was no vitality due to the coldness of the ** gate is already full of spring.

The grass drilled out of the soil, and there was green oil in front of him.

Amidst the lofty mountains, small trees with the thick little finger are everywhere, swaying in the wind.

Ok?

Li Tian felt puzzled.

It took him more than a dozen hours to enter the gate of **, how could there be such a change outside the gate of **?

At this moment, the four eagerly-awaited adorable fools immediately surrounded them.

"Master, master, are you back? I know you will definitely come back alive!"

"Nonsense, master, I'll report it. The fellow Sanjiao clearly said you might die inside!"

"You said too! You also said that the master is definitely not the opponent of that demigod!"

"Shut up, how could I have such a stupid brother like you, Master, I always believe that you can win!"

"Hey, don't you feel bad when you say this? I am afraid that only the second child believes that the master can come back alive!"

Li Tian waved his hand quickly to stop the silly limbs from asking for credit and exposing each other.

"What's the matter? I entered the gate of **** in less than a day, why..."

The unicorn smiled and said: "The master does not know that this space behind the gate of ** does not belong to the Nether realm, nor does it belong to this mirror world, so there is a difference between the passage of time behind the gate of ** and the passage of time here. A big difference. If calculated according to the time of the mirror world, the master has entered the gate of ** for a year and a half!"

Let me go!

I had known that the paralyzed person was not wandering behind the gate of **, looking for treasures.

Isn't this wasted a year and a half for nothing?

In this year and a half, I don't know how Tang Xiaolong, Situ Ningbing and the others are progressing in cultivation?

Li Tian turned around and released ninety-nine purple dragons, completely destroying the gate of **!

As the gate of ** was destroyed, the powerful pressure of the wheel cover on this mountain range instantly disappeared.

"Master... Master, what is this? Could it be... Has the demigod behind the gate of ** been killed by you?" The four cute and dumb looking at Li Tian asked.

Li Tian shook his head slightly.

"The demigod behind the gate of ** is dead, but it is not in my hands, and from now on, the four of you are completely free, and there is no need to guard the gate of **!"

"Freedom? Are we free?"

"Great, we can finally pass through the mirror world and return to the nether world!"

Chapter 5108: Breakthrough into a demigod (1)

Li Tian was not in a hurry to enter the mirror world.

He decided to stay and practice in this mountain range first.

As early as when Li Tian came out of the metal world, his cultivation base had reached the ninth level of the super domain master. Li Tian felt that he was only a thin line away from the demigod.

But this line of separation kept Li Menghu from the demigod.

A breakthrough in the realm of cultivation requires not only the accumulation of spiritual power, but also some luck and opportunity.

This is why many super-powerfuls have been unable to break through and enter the next realm throughout their lives.

For example, there were 18 emperors, many of them spent their entire lives in the emperor realm, and did not break through to the domain master realm when they stopped death.

Li Tian felt that he had entered the bottleneck period of his cultivation. In order to break through, Li Tian had refined several demi-god crystals, but the final result was that Li Tian only refined these spiritual powers and finally introduced them into his atrium.

His cultivation realm is immobile.

However, after entering the Mirror Realm, after this short trip through the gate, through the battle between the Peacock Hades and the Great Blue Dragon, Li Tian finally felt something. He seemed to feel the deepest part of his body about to move.

Li Tian felt that he could touch the threshold of the demigod as long as he reached out.

Now, Li Tian is constantly running his spiritual power. As the spiritual power moves in his body, Li Tian feels that he has a new understanding of spiritual power.

Ok?

Suddenly, in Li Tianfa's physical veins, sporadic red threads appeared in the spiritual power. These red threads were only a little thinner than the hair, and they were only an inch long.

However, Li Tian could feel an unprecedented strength in this red silk.

Could it be that this is supernatural power?

This is the real power?

Li Tian can now easily release his supernatural powers. This is what Li Tian did when he was in the metal world.

However, the divine power released by Li Tian does not belong to him. In addition to the divine power he comprehended through the enlightenment of the **** level, it is more of the dragon power of the wild blue dragon.

It is equivalent to that Li Tian is borrowing divine power.

However, if there is no great blue dragon, the divine power that Li Tian has understood will be released in another day, so that divine power does not belong to Li Tian in a strict sense.

Moreover, because with the help of divine power, the divine power that has been realized is released through Li Tian's exercises, the power will be reduced a lot, which is why Li Tian can release divine power, but he is not an opponent of a semi-god power.

Only when Li Tian becomes a demigod himself, his power will be stronger, and he will have inexhaustible power.

Knowing that Li Tian was about to break through now, the four cute and stupid ones chose to persuade Li Tian, hoping that after Li Tian entered the world of the mirror world, he would kill the person in the mirror before choosing to break through.

But Li Tian rejected their suggestion.

Li Tian has Li Tian's consideration. If he escapes everywhere, when will he become stronger, when will he enter the ghost to find his father's soul, and when he can enter the ghost and the Fifth Shuiyue dignified battle? , When can he enter the God Realm and kill Long Yin who has entered the God Realm in advance?

Li Tian chooses to upgrade his cultivation level now, in order to be able to fight another demigod powerhouse after entering the world of the mirror world, and deep in his heart, Li Tian is still eager to kill himself in the mirror world, or It is swallowed directly.

Knowing that Li Tian had made up his mind, the four cute and stupid animals chose to leave Li Tian temporarily.

After all, once Li Tian enters the realm of the demigod, when he enters the world of the mirror world, the opponent that Li Tian will encounter is the demigod Li Tian. If they follow Li Tian again, it will be very dangerous.

Li Tian sat cross-legged.

Underneath him is the door of the ** that was just collapsed by him.

Li Tian took two long breaths, slowly closed his eyes, and felt the spiritual changes in the body's veins with his heart.

Spiritual power is like water, red silk is like fire.

When Li Tian's divine consciousness controls the divine power of the silks to gather together, he will find that it is also extremely difficult to gather these divine powers. The red silks actually repel each other, like two magnets of the same **** repelling each other. Even if Li Tian reluctantly put them together, as long as Li Tian's spiritual consciousness is slightly loosened, the red thread in the veins will immediately disperse.

Moreover, the strong repulsive force caused Li Tian's body to whizzle, and Li Tian instantly seemed to lose control of his body and sat stupidly on the spot.

After several days and nights passed, Li Tian gradually regained control of his body, and the red threads in those veins appeared again.

"What the **** is going on? Is it because I still can't fully control the divine power?"

"Isn't this divine power released automatically? How can it be completely out of my control?"

Li Tian felt that the red silk in the veins of his body was much harder to control than Longwei and the divine power realized from the miraculous mountain.

"I still don't believe it, don't I have the potential to become a god?"

"I fuck!"

Li Tian closed his eyes again, and slowly used his spiritual power.

This time, Li Tian did not forcefully control the spiritual power, but allowed the spiritual power to flow freely.

It was like a water flow. Li Tian had always wanted to block and control the direction of the water flow. Now he has chosen Shu to let the water flow guide his consciousness.

Gradually, the spiritual power in Li Tian's body veins slowly flowed out and appeared on the surface of Li Tian's body.

At this moment, Li Tian seemed to be a waterman, his whole body was wrapped in water-like spiritual power, and these light spiritual powers walked around Li Tian's body naturally, as if it was attached to Li Tian.

If you look carefully, you will find that in this water current spiritual power at this time, you will see a red line from time to time. This red line is like a snake, constantly stirring the spiritual power of Li Tian.

But it's like a giant beast in the sea, even if he turns the sea upside down, but he is a giant beast in the sea, and he is still unable to beat the sea.

The red silk in front of me is like that.

The red sun rises in the east, the red sun sets in the west.

Less than three meters away from Li Tian, a small tree gradually grew from a height of less than a foot with only a thumb to a height of two meters. It can already block the sun for Li Tian, and the time is slowly in Li Tian's closed eyes practice Passing.

Li Tian didn't know how long time had passed, he seemed to have forgotten the existence of time.

Only from time to time, when Li Tian would flip out two demi-god-level crystals and slowly refine the demi-god-level crystals, would Li Tian's fingers move slightly.

At other times, Li Tian still maintained this attitude.

Only at this time, Li Tian's water wave spiritual power increased, and his whole body was already wrapped in spiritual power water wave, even the water wave was about to touch a small tree not far away.

Suddenly, a red shadow flashed in the water wave spiritual power. This shadow was the thickness of a thumb and was more than one meter long!

This is supernatural power.

The spiritual power is released, the divine power is visible!

Chapter 5109: Breakthrough into a demigod (2)

This is the divine power cultivated by Li Tian, and the divine power cultivated entirely by Li Tian himself.

It is not with the help of the dragon's prestige, nor the divine power that can be understood.

This supernatural power is like a virgin, and it's like a rabbit!

Li Tian still did not move, because he had only finally touched the threshold of a demigod, he had not yet crossed this threshold and became a demigod!

Therefore, cultivation cannot stop!

call!

Two white turbid airs were ejected from Li Tian's nostrils, and then he was instantly rolled out by the spiritual water waves on his body.

Spring goes and autumn comes.

The leaves on the small trees in the distance are gradually turning yellow, and gradually falling off.

Several squirrel-like beasts chased and ran up to the tree, and the branches of the tree were bent down.

Don't underestimate these little beasts, they look very cute and fluffy, but the cultivation level of these little guys is much higher than that of ordinary ghost beasts, and the weakest conservative estimate has reached the realm of the domain master.

Of course, these little beasts are just playing around, and there is no one who really wants to kill anyone.

Haw!

One of the little beasts stepped on the tree with both feet and jumped, trying to jump onto Li Tian, but... the body of this little beast just broke away from the branch and just touched the water wave on Li Tian's body. , Instantly swallowed by the red shadow in the water wave spiritual power, completely disappeared.

The other little beasts looked at each other, wondering what happened here.

For these little beasts, Li Tian has been here for more than three years. In their eyes, Li Tian is no different from a stone, but the stone actually swallowed their companions.

The other little beasts were angry.

The small tree under them squeaked and was instantly shattered by the powerful spiritual power.

At this time, these little beasts changed one by one into terrifying savage behemoths. The fluff on their bodies turned into spikes, and the spiritual power on their bodies continued to shake the gravel around them.

"Noisy!"

Li Tian didn't even open his eyes, his mind moved, and a red thread was separated from the red shadow in the water wave's spiritual power, and it sprang directly out of the water wave, and instantly divided into several segments and fell directly on these beasts.

boom!

boom!

boom!

Then there were several explosions from Li Tian's side, and several majestic behemoths were instantly blown into pieces.

call!

Li Tian let out another suffocating breath.

The strand of red silk that easily killed four or five domain master level beasts flew back again, got into the water waves around Li Tian's body, and merged with the red shadows in the water waves again.

Perfect integration, no rebuttal.

"It seems that I have gradually mastered the divine power of my cultivation, and I should work harder at this time!" Li Tian thought to himself.

Li Tian turned out two demi-god-level crystals casually, and continued to refine the two demi-god-level crystals.

"It's really not easy to break through to the Demigod level. I am afraid that Tang Xiaolong, Situ Ningbing and others will not be easy to break through to the Demigod level."

Thinking of this, Li Tian suddenly felt that he wanted to shake the four super ***** families in the Nether Realm, how difficult it was.

Li Tian's mind fluctuated slightly, and the spiritual power of the water wave wrapped around his body immediately fluctuated restlessly.

"Oops, when I break through to the semi-god realm, how can I think about it?" Li Tian didn't dare to think about it, adjusting his breathing again.

What Li Tian didn't know was that not all cultivators would be like him. For ordinary cultivators, with the demi-god-level crystals that Li Tian now refines and his insights, they probably have already broken through to the demi-god-level realm.

call!

After a few minutes, Li Tian's water wave spiritual power gradually calmed down, and Li Tian took another breath.

Spring blossoms and autumn fruits are followed by despair.

Snow fell from the sky, covering the entire mountain range.

Everything was quiet, and Li Tian could even hear the sound of snowflakes melting after landing.

At this time, Li Tian's spiritual power was about to completely cover the small hill below him, and the red shadow had the thickness of a wrist, like a long snake.

Unknowingly, the small hill where Li Tian is located has become a taboo place for beasts, beasts, and beasts in the entire mountain range.

Li Tian killed countless Domain Master level beasts, and the Super Domain Master level beasts he beheaded could not be counted with two palms.

Just like a routine, Li Tian hits the little monster, and soon the big monster will find the door, and then let Li Tian beat him violently. After Li Tian hit the monster, the old monster will also come to the door.

Anyway, it was to die, Li Tian always refused to come.

Later, no other beasts or beasts dared to break in.

This also made Li Tian very lonely.

"How long will this state last?"

Li Tian is actually very impatient. He wants to break through to the demigod earlier. He wants to enter the world of the mirror world. He wants to eradicate the four super **** families. He wants to return to the earth world to see Grandpa.

However, he can't have so many ideas, now he can only seize the time to cultivate.

"Ok?"

At this moment, Li Tian suddenly felt a wave of fluctuations in the atrium that swallowed the spiritual power of his body veins, and then a surging spiritual power instantly poured into his body veins like a flash flood.

At this time, the spiritual power outside Li Tian's body also began to flow into his body, and the red shadow followed the spiritual power into it.

Li Tian suddenly opened his eyes and let out a scream.

I can't help but he doesn't scream.

It's as if Li Tian's body vein is a big river, but the capacity of the water flowing into the river has far exceeded the maximum capacity that the big river can hold. There are only two ways now, or Li Tian allows his spiritual power to break through his body vein. , Causing huge damage to his body, or his body veins have widened again.

boom!

boom!

Li Tian's body was like thunder, and there was a loud noise continuously.

Ah~

Ah~

Li Tian's brows were frowning, and he was clenching his teeth. The severe pain even caused Li Tian's clenched teeth to ooze non-stop, but Li Tian did not intend to give up.

come on!

Let the storm come harder!

Li Tian stood up abruptly, with his feet on the ground a little, and his whole body shot straight into the sky like a rocket.

The hill underneath collapsed instantly.

call!

call!

Li Tian's spiritual power began to burn, this time it was really burning.

It burns like a flame.

At this time, it was already flying around Li Tian's body in midair, and it turned out to be dark clouds, lightning and thunder.

Click!

Click!

A series of electric snakes landed from the dark clouds, seeming to want to strike Li Tian.

Li Tiandi is like a petrel, spreading his wings in the storm.

At this moment, four or five wrist-thick lightning bolts slammed into Li Tian from different directions at a very fast speed. Li Tian has no escape!

"Break for me!" Li Tian's roar came from the sky!

Chapter 5110: Breakthrough into a demigod (3)

Following Li Tian's scream, Li Tian suddenly released a powerful and desperate spiritual power, and the four or five lightning bolts that were about to fall on Li Tian's head were directly caught by Li Tian. Hands.

That's right, Lightning was caught by Li Tian.

The surging spiritual power was released on Li Tian, and the wisps of spiritual power between the heavens and the earth became substantively installed in the veins of Li Tian's body. At the same time, the lightning between the heavens and the earth became more and more dense.

These lightnings are different from the Heavenly Tribulation Lightning when the demi-god-level powerhouse's daylight ascends the heaven gate opens, because their power is far less powerful than the Heavenly Tribulation Lightning, but this lightning is also for ordinary people and ordinary powerful people I dare not touch.

Only a demigod, only a demigod-level powerhouse can control this lightning recklessly.

Click!

Rumble!

Thousands of lightnings flew past Li Tian continuously and quickly smashed into the mountains.

In just an instant, at least hundreds of thousands of giant trees were struck by lightning, their trunks were divided into two, and the trees began to burn into a raging fire.

Rumble!

Click!

Even lightning struck the boulder on the top of the mountain. The boulder was torn apart by the explosion, and it continued to roll down toward the bottom of the mountain. The beasts and beasts in the mountain were all frightened by the sudden change and moved towards the surroundings. Flee.

But... when they escaped, they found such sights everywhere. These fierce beasts and beasts could no longer escape, they could only hide in the corner shivering.

Regarding these beasts, Li Tian could only control the falling lightning as much as possible, and prevent the lightning from directly hitting the beasts.

At this time, Li Tian was undergoing rapid changes.

First, the dragon scales on his body seemed to be tempered by lightning. The dragon scales gradually changed from cyan to dark cyan, and gradually changed from dark cyan to dark black.

Immediately afterwards, these dragon scales gradually faded, and finally only one dragon scale remained in the center of Li Tian's eyebrows.

Li Tian's body skin is also undergoing rapid changes. His body skin gradually changes from flesh color to transparent color, which is crystal clear, and even the veins and bones in the body can be seen through the skin.

However, this situation only lasted for less than a minute, and then Li Tian's body skin changed back to its original shape again. No, it looked exactly the same as before, but Li Tian clearly felt that his body skin was already A complete change had taken place. His divine consciousness could be released to every inch of the body's skin, even every cell of the body, and the divine power in Li Tian's body veins was like his nerves, filling his whole body in an instant.

This is the body of a demigod powerhouse.

If there is no divine power, it is completely impossible for an ordinary strong man to kill Li Tian.

For example, a superdomain master-level powerhouse can collapse a mountain with one punch, but if there is no supernatural power in his fist, Li Tian can stand still, allowing this superdomain master-level powerhouse to do anything Hit him.

This is just a physical change. More importantly, Li Tian feels that he can already perceive certain rules between heaven and earth at this time. For example, Li Tian knows the reason for using heavy, and Li Tian also knows that teleporting is what happened.

If Li Tianneng fully masters these rules, then Li Tian feels that he can use these rules to fight.

For example, in front of a demigod-level powerhouse, if a superdomain master-level powerhouse wants to escape, the probability of escape will be very low, because the demigod-level powerhouse can already understand the rules.

Therefore, the demigod-level powerhouse can instantly tear through the void when the superdomain master-level powerhouse teleports, tearing out the teleporting enemies that have escaped into the turbulence of the void.

This is the strength of a demigod level powerhouse.

Li Tian slowly raised his arm and opened his palm. He watched the spiritual power changes in his palm.

What made Li Tian feel surprised is that the "Eighteen Claws of the Dragon Falling" that he relied on before can no longer be used because of his breakthrough. Every time he wants to release the purple dragons, those purple dragons instantly It will explode in his palm, and then the spiritual power that changes into sporadic forms will be scattered everywhere.

Li Tian didn't know whether the prehistoric blue dragon in his heart would be the same, so he experimented with his spiritual power to release the prehistoric blue dragon. As a result... Li Tian suddenly found out that he was the released prehistoric blue dragon, and he had thoughts with him. .

In other words, Li Tian used to draw on the power of the Primordial Azure Dragon, but now, when Li Tian possesses the power of a demigod and possesses the strength of the current Primordial Azure Dragon, the power of the Primordial Azure Dragon has finally become part of Li Tian.

More importantly, the dragon scales on the red light blue dragon gradually changed into dark blue. It can be said that this wild blue dragon already has the mark of Li Tian.

That's awesome!

Looking at the black bead in the atrium.

When Li Tian broke through to a demigod, a rice-sized crystal appeared in Li Tian's atrium instantly. This crystal was suspended in the midair of the atrium, constantly absorbing the spiritual power in the atrium.

This is Li Tian's Godhead.

And with the appearance of Li Tian's godhead, that black bead was directly swallowed by Li Tian's godhead, and then the size of the rice grain-sized godhead more than doubled, already the size of peanuts.

It is here that makes Li Tian feel depressed.

Li Tian has a lot of demi-god-level strong crystals in his hands, but the reminders of those crystals are basically two jujube nuclei, or even larger ones, but a peanut-sized **** like Li Tian can But see you.

"Congratulations, Li Tian, you have finally become a demigod powerhouse!" In his heart, Hong Zhan was suspended in the air, and the woman's voice came from Hong Zhan.

"Thank you, as long as you want, you can also become a demigod powerhouse!" Li Tian said.

This is definitely not Li Tian's compliment.

At the end of the earth world, Hong Zhan demonstrated the ability to devour corpse crystals to improve cultivation. After Li Tian got so many crystals in the metal world, he would naturally not treat Hong Zhan badly.

Sure enough, as the crystals swallowed by Hong Zhan more, the fighting power of Hong Zhan increased, and even Li Tian felt that the soul in Hong Zhan at that time also improved with the improvement of Hong Zhan, but in that Hong Zhan. But his soul did not continue to ask to swallow the crystal, but silently guarded Li Tian.

"I have become a demigod. I have no reason to watch your cultivation level not improve. I have demigod-level crystals here. Now I will refining demigod-level crystals to transfer spiritual power into my atrium. You practice through Red Blade!" Li Tian said.

At this moment, Li Tian suddenly felt a powerful wave of power flying from different directions thinking about the mountain range he was in.
