

A Killer 5251

Chapter 5251: Xanadu

There was a strange smell in the air, and the smells from several forks were different.

It smells rancid and smells of flowers.

Li Tian did not choose to rush in too anxiously, but squatted down cautiously. He knew very well that there might be huge traps in these forks. Perhaps the individual cloud beasts were not so powerful in combat, but their wisdom was not tolerated. I look down, I will do everything possible to protect myself in this kind of danger. I'm afraid that there are many protective devices in this nest.

He didn't know whether Shimada Muren was following behind him, but it was not easy to come.

If you want to track yourself, you must keep a close distance.

In this lair, once Shimada Muren gets close to him, Li Tian will find many problems in the first place.

Unlike the outside world, everything is different in this lair.

He carefully observed the clues on the ground. Not long ago, there was a cloud channeling beast coming in. There must be clues to their actions on the ground. What Li Tian was thinking was to follow the footsteps of the cloud channeling beast before, and then really entered this In the lair.

At this moment, no matter what creatures exist in the lair, he can't retreat.

This is like a single-plank bridge, once you step up, it is difficult to continue to choose to retreat.

He watched carefully on the ground, and finally found some clues, it was the footprints of the cloud beast, but these footprints did not just enter a fork in the road, almost every fork in the road has their footprints.

Li Tian frowned and sighed: "It seems that these creatures are far smarter than we imagined. This kind of creatures with no combat effectiveness themselves, but there are many people who can't compare this wisdom. Strength."

He was very helpless, and wanted to find a right fork in the road. It seemed that he needed his luck and strength.

‘This kind of nest looks very complicated inside, and these junctions are not naturally formed. According to the clues, you can probably tell which junction is different from the other. Said Honghuang Qinglong.

After all, there must be one place frequently used for so many forks. Even if Cloud Beast did not leave anything here, they would still leave some clues unintentionally.

Grasp these clues, you can easily find the correct location of these forks.

Li Tian sat on the ground and slowly closed his eyes. The fairy power in his body began to separate out of his body bit by bit, forming a dense energy like tentacles and spider webs, and began to move towards these The forks split inside, and Li Tian's will is attached to these energy nets, just like his eyes, you can see what is in each fork.

I thought that there could be any way, but after a few minutes, Li Tian gave up.

The inside of the fork is dark, there is nothing special at all, it is impossible to find a correct entrance through this method.

Leaning on the wall with a helpless look, Li Tian whispered: "Damn guy, how can there be such a cautious creature in the world, now it's fine, I want to find where their lair is better than reaching the sky. It's difficult."

Hong Huang Qinglong did not respond.

Li Tian didn't find any clues here, this kind of cautious beast seemed to protect his lair very terribly.

Standing up, being forced into desperation, he could only choose a place where he didn't know it.

Go straight in towards the fork in the flowery road.

Intuition tells him that this place is like a very correct fork, and only from here can I find the location of Cloud Channeling Beast.

Just after entering the fork, you can feel a fragrant scent rushing to your face, just like the flowers in the garden on the earth, with a cool and moist breeze in between, which makes people feel a very refreshing feeling in an instant .

Li Tian, who had been frozen alive for a long time outside, felt that his self-sufficient body seemed to be warming up again.

There was obviously nothing in the fork, but the smell was indeed very obvious, and it had been lingering around Li Tian's body and never dispersed.

His speed is not very fast, because he is worried that this is the reason for a trap.

If it were on the earth, he wouldn't care about what traps there would be in this cave. To him, the fighting power there was already invincible, and no matter how powerful it was, don't want to destroy Li Tian.

But in God Realm, this situation has been changed.

The current Li Tian is far from being stronger there. If someone really wants to destroy him, it would actually be a breeze.

As time went by little by little, the fairy power in Li Tian's body began to recover little by little.

In front of him, a group of white light appeared first.

His gaze fell on the white light, revealing a surprised gaze. It was an exit. At this time, he could be very sure that the fragrance of flowers was emitted from this exit.

At the same time, his spiritual consciousness also felt a lot of signs of biological activity here.

This is not just a lair of Cloud Channeling Beasts, but a nest of many Cloud Channeling Beasts.

I thought that I might not be able to go to where I am now, but the scene before him still surprised Li Tian. On the other side of this exit, I can confirm that there are many cloud channeling beasts waiting for him to capture. , This is really unintentional.

He didn't even think about passing the trap.

It seems that the place with the rancid smell of corpses is a really dangerous fork in the road, but if you change to another person, you will definitely not walk a fork in a road that smells of flowers.

Because it is too safe here, many people don't think that Cloud Cloud Beast will leave them a safe crossroads so openly.

But Li Tian did the opposite and actually did it.

Carefully approached the exit. After confirming that no creatures were found, the eyes inside could finally see the world inside the exit.

This is an extremely vast world, like a paradise.

Here, there are many cloud channeling beasts, and the number may be one-tenth of the existence of the gods.

In addition, there are some powerful creatures who also live in this place.

Chapter 5252: Ancient gods

At this moment, he thought of a rumor he had heard before.

A place that has only appeared in rumors, the remains of ancient gods.

It is said that when the ancient gods were about to leave this world, they transformed all their power into an energy that could open up space and time, thus creating a small world similar to parallel space in the original world. The world is not very rare in the God Realm, but most of the spaces are no more than a few hundred square meters or so, and these spaces are smaller than what people call it.

Small worlds are usually connected with things like rings, which can be regarded as a special storage tool.

But there is a kind of inner world that is very vast, like a new world, it will be called the relic of the ancient gods.

It is said that this place has the most powerful ancient gods' background. You can find the treasures that once belonged to them here, and you can also find those artifacts that belonged to the ancient gods. In short, this is a place full of adventures.

The remains of ancient gods are very rare.

In other words, Fengmao water chestnut, there are people looking for this thing in the entire God Realm, but very few people can really find it.

What must go through this is not only a kind of chance, but also a kind of strength.

Even if you find the relics of the ancient gods, maybe you don't have the strength to survive here.

At this time, Li Tian was as surprised as a blind man who saw the world again. He had never thought that he would find an ancient **** relic, or even thought that he would find so many cloud channeling beasts here.

The ancient world in front of me is like a paradise.

Everything is exactly the same as the God Realm of hundreds of millions of years.

Here, he also seemed to be aware of the history of the gods.

'I saw a mural about the nine-clawed dragon outside. Could it be said that this place will belong to the ancient gods of the nine-clawed golden dragon?' Li Tian thought in his heart, and at the same time approached cautiously, his movements were very careful, and he tried to hide all the breath of his body. There are many ancient creatures that Li Tian doesn't know about. They may be leftovers from some sacred beasts. The descendants that come down must be very powerful.

"Woohoo~"

In the remains of the ancient gods, all kinds of calls echoed in Li Tian's ears. I don't know how many strange creatures there are in this huge world.

Li Tian didn't even think about exploring this ancient ***** relic.

In his opinion, since it is a relic of ancient gods, it may have a very long history. Every creature living here is like a living fossil, and it may even be a beast that has survived from ancient times. If he moved forward rashly here, he would not find any adventure in his current state of spiritual cultivation, and he would be killed directly.

The things in the novel must be deceptive, and there is nothing you can get for nothing.

Even if he came to this ancient ***** relic by chance, what if he didn't have enough strength, here is like an ant, facing any creature, there is no full confidence to deal with.

Even these cloud channeling beasts would far surpass Li Tian in number, he wouldn't believe that he could defeat so many cloud channeling beasts.

Sweeping his eyes around, watching the creatures appearing in this world one after another, these were never heard of.

"The danger of this place far exceeds my imagination. I am very worried about what impact will be brought to me after hunting a cloud beast here." Li Tian was helpless, and there was a huge treasure in front of him. Yes, but he didn't have much certainty to open this treasure at this time.

Strength has become the biggest constraint on his existence. Without strong power, there is only a dead end to face these ancient creatures.

And to explore the treasures in this world, you must defeat these ancient creatures.

Even if it was just hunting a cloud beast, Li Tian didn't know what the consequences would be.

To the east is a dense forest. The main trunk of each big tree requires a dozen people to hug each other. Each one of them goes straight into the blue clouds. The dense foliage obscures the sky, making the forest look a little dark and humid. The environment here is like a dark corner.

On the west side of the other side, there is a mountain range towering into the clouds, like a sleeping dragon, endless.

The north is a vast prairie, everything looks very vast, and no creatures can be seen there.

To the south is where Li Tian is now.

The cloud channeling beast's lair is in the mountains to the west of him. There are many cloud channeling beasts lying on the stone steps outside like they are on lunch break, lazily basking in the sun. They are not at all for the coming danger. clear.

'Since you've gotten deep into this place, if you return now, it's definitely a waste of your previous work. 'This thought flashed in Li Tian's heart, and he finally came here, and no matter what dangers are there, it is not easy to be able to stand here. If you just give up so easily After affirming, there will be no chance.

This time, the task was only to kill a cloud beast, but there were so many here. If the fighting power of these creatures was the same as the rumors, Li Tian could make a fortune with these creatures.

Ever since, he locked the creatures in front of him and started slowly approaching them.

Li Tian is very clear about his current strength, and it must be impossible to shock some particularly huge creatures.

Those huge creatures seem to be clumsy, but in fact their fighting power is far more terrifying than those of small size. Just waving your arms can make the strong wind shatter your body instantly. , Before there is no similar strength, even a very quick body technique, it is impossible to deal with such a huge creature.

Their offense is like tickling those creatures.

Li Tian really wants to know what treasures can be found in this world, but now he can only give up this terrible idea. The ancient gods are indeed very powerful, but the price of obtaining treasures in them is also a lot. He has no strength now. , Then the price to pay may be his own life, obviously he would definitely not take such a risk.

When he approached the lair cautiously, he finally saw the Cloud Beast again.

It seems that these monsters have been in this territory for a long time, and they have been very stable during this period. They have been unprepared after entering it, and they have completely relaxed.

This gave Li Tian a very good opportunity.

Chapter 5253: Hunt

Seeing so many Cloud Channeling Beasts in front of him, Li Tian couldn't calm down anymore.

A dagger was slowly condensed with immortal power in his hand. It was definitely impossible for Hong Zhan to be used in this kind of place. Once that state was opened up, then Li Tian had to ensure that he would go all out.

And what he needs now is to hide in this ancient ***** relic. If he can get some treasures without knowing it, it is best. If there is no such opportunity, then he needs to live.

He is not greedy, in other words, he can control his greed.

When the dagger in his hand killed the Cloud Beast, his surroundings were quickly surrounded by more Cloud Beasts. They all looked at Li Tian with indifferent and hostile eyes, and at the same time looked at the one on the ground. The dead cloud beast.

It had no pain when it left, because Li Tian directly pierced her heart with a slender dagger.

Because the furs of these creatures can also be sold at a good price, Li Tianshi made sure that every part of them can be taken off as much as possible, so that when they are sold, the price will be higher.

Just like the fox skin on the earth.

The price of an intact one and a damaged one is naturally a world apart.

Channel Cloud Beast certainly looked like this.

Immediately afterwards, the earth began to tremble slowly, as if in an earthquake, the rubble on the mountain range fell one by one, breaking it apart.

Li Tian felt a strong pressure coming.

This pressure seems to have passed hundreds of billions of years. It is so heavy for him, so unmatched, and subconsciously activated his red wing divine outfit. At this time, the immortal power burst out from his body. Reluctantly resisted the powerful aura of this unknown creature.

This is not such a powerful aura, but it has a very ancient history.

He understood that he was afraid that he had encountered the original inhabitants of this ancient **** ruins.

It's no wonder that these cloud channeling beasts relax their vigilance in such places. Firstly, they have a long history of protection. Secondly, there are many primitive residents among the ancient gods' relics, plus the ancient gods' relics almost every once in a while. They will switch positions. It is very difficult to come here. Who would have thought that a guy like Li Tian would follow them all the way here?

As the trembling frequency increased, a small creature appeared in front of Li Tian.

He has almost evolved into a human form, but his body is still covered with thick scale armor and cheeks that have not fully evolved. It turned out to be a cloud beast that has not fully cultivated to a human form.

There are sharp claws on the soles of his feet.

"Human, you infringed on my territory and killed my people. Are you ready to be wiped out by me?" The humanoid cloud beast's eyes are still beast pupils, which contain complex emotions, staring at Li at this time. Tian, his tone seemed to be directly treating Li Tian as his own prisoner. There was no meaning in his words to respect and consider his feelings, which made Li Tian very uncomfortable.

But before that, he had put away the dead Cloud Beast.

The first time I communicated with Warcraft, it was still a bit weird.

"I'm a mercenary. I will choose to do something for Tianbi. If it weren't for completing the task that belongs to me, of course I won't hurt your race." Li Tian looked at him, trying to restrain his excitement. He said: "We all make choices to survive, but I chose to let others die and let myself live."

"In that case, you have no intention of explaining your crime."

"If you think that only death will make me repent, then you can try it, but I want to emphasize here that I will resist to the end." His eyes were extremely firm, and he had just arrived in the God Realm. It was not easy to get on the right track. If you die in the hands of these beasts, you will definitely lose money, and you must go all out today anyway, and you must not let these beasts kill yourself.

Channel Cloud Beast snorted disdainfully, and then moved.

Afterimage!

In front of Li Tian, this seemingly powerful alien beast could not be seen clearly like a shadow.

It is worthy of being a creature that has been surviving in ancient times. In this cloud beast, Li Tian felt the ancient aura, and of course it also had a very powerful strength.

According to preliminary estimates, the fighting power of this cloud channeling beast has at least reached the realm of a god.

Unlike the beasts that generally become humans, this cloud channeling beast itself is not particularly powerful. It depends on a long history and little by little evolution to become what it is now.

It seems that among the remains of the ancient gods, there are definitely not a few people with such experiences.

After Li Tian knew what kind of opponent he was facing, he clenched his fists with both hands, and Hong Zhan appeared instantly, slashing down!

A fierce sword aura pushed back the surrounding Cloud Channeling Beast, and directly attacked the humanoid Cloud Channeling Beast on the ground with lightning speed. This was the most powerful combat power Li Tian could exert so far.

The humanoid cloud beast raised his head, looked at the sword aura that fell, and snorted disdainfully: "If you think this is your strongest strength, it is too weak." Then I saw it. He raised his right hand, and then, like a sharp dagger, forcibly separated the sword energy in front of him, and then lifted it upward.

Fast and accurate!

This was Li Tian's last thought after he was seriously injured.

It is worthy of being a god-level monster, and it has slowly evolved into a human form. The fighting power that this cloud channeling beast burst out in an instant cannot be underestimated, and Li Tian has no power to parry.

The Qi Blade shook the armor on his body to pieces, and the whole person fell to the ground sickly, no longer able to fight back.

"It is really self-infuriating to dare to run to my site with just such strength." Cloud Cloud Beast looked at Li Tian who fell on the ground, and said disdainfully: "I was thinking about the humans who broke into the ancient gods. It may still be very powerful. It just allows me to test the effect of my experiments over the years. I never thought that it was such a fragile thing that I couldn't even take a single move. How can I fight the entire group of cloud beasts?"

As he was speaking, the sudden change occurred.

Densely dense kunwu shot out from all directions, like a net of heaven and earth, directly covering the entire group of cloud channeling beasts.

Chapter 5254: Shimada's approach

This scene came very suddenly.

Li Tian didn't expect it.

The humanoid cloud beast also didn't expect it.

It never thought that there was another companion behind this human being. When it was about to kill this human being, it suddenly launched an attack. The dense kunai above all contained a little immortal power, so even if it was It will take some time for him to intercept these kunai, and there will definitely be omissions in between, and he will completely expose his weakness to the enemy.

Therefore, the humanoid cloud cloud beast simply used some energy blades to relieve part of the suffering.

However, the main body still remained focused, leaving no chance for the enemy.

Suddenly, the sound of screaming on the ground was endless. At the moment these dense karma were dropped, countless cloud channeling beasts instantly fell to the ground, the blood stained the stone wall, and the smell of blood drifted in the air.

Shimada Muren took dozens of humans wearing black forbearance costumes and appeared in front of the humanoid cloud beast.

"You are really a rubbish. Originally I wanted to let you kill these cloud channeling beasts by yourself. Then I would stand up and take advantage of the fisherman's profit. I didn't expect you to be such an idiot. You are a mutated cloud channeling beast. Can't deal with it." Shimada Muren did not alert the humanoid cloud beast for the first time, but walked step by step in front of Li Tian and stepped on his chest.

Li Tian spit out a mouthful of blood and squinted at Shimada Muren: "I'm still thinking about what you will do. It seems that you have been following me all the time."

"Indeed, I don't like trouble very much. After knowing that this is an ancient **** relic, even if I know it will be troublesome, there is no way." Shimada Muren's eyes are full of greed at this time, watching This world said to Li Tian: "This is the remains of the ancient gods. I don't know how many treasures there are here, so I brought a part of the family guards in order to get the treasures here."

"There are countless ancient creatures in the ruins of ancient gods, and you can't deal with them."

"Hehe, it's not me who can't deal with them, but you." Shimada Muren shook his head and looked at Li Tian, then pierced his limbs with a dagger, causing Li Tian to be nailed to the ground alive:

"Now you just watch here honestly, how did I kill these cloud beasts in front of you, and then get the treasure that belongs to the entire ancient gods."

During this process, the mutated Cloud Cloud Beast did not rush to move.

He felt the pressure.

These ninjas in black costumes are like a sharp-edged dagger. They are worried that they only need to move a little to die.

"My people, today we have encountered very powerful enemies. The strength of these enemies is beyond our control. For the survival of our group, you should leave here quickly." The humanoid cloud cloud beast said loudly. He understood that he might be able to survive today. It's really going to fall here. These ninjas look ugly, but their aura is very disturbing. This is the aura that people who have experienced many wars will have.

After the humanoid cloud beast has transformed into a part of human form, it is not only more sensitive to aura, but its body is also much stronger. It can be said that it is evolving towards a perfect race.

A race second only to the dragon race, with a tyrannical body and extremely wise thinking.

But now, he is not so sure that he can defeat these ninjas in front of him.

Dozens of ninjas surrounded the humanoid cloud beasts, forming a position similar to a six-pointed star, and then took out a dark black stone from their backpack and placed it on the ground, chanting the magic trick, and soon there was one. The dark black star formed at the feet of the humanoid cloud beast. An ancient and vicious force enveloped this side, and even the sky was a haze.

The remaining Cloud Beasts were very unwilling to leave their leader, but when this vicious force came, they knew that they could not be the opponent of this vicious force.

As a result, countless cloud channeling beasts began to move toward other positions in the ancient gods' ruins.

Of course, some Cloud Channeling Beasts chose to flee towards Li Tianlai's exit.

Shimada Muren did not move, but just stood here watching the scene in front of him, and said: "After knowing that this place is an ancient **** relic, I knew that the creatures here are not easy to deal with, so I specially sent a guard from our family. They have experienced many battles between **** emperors, and they are considered to be among the elite of the gods. Today's trapped stone, even at the level of **** emperors, dare not easily contend.

In the next second, the black light star began to stretch out countless energy tentacles, binding the limbs of the humanoid cloud beast, and slowly drawing blood and energy from his body.

"I don't need to deal with your tribesmen at all. For them, a completely evolved humanoid cloud channeling beast is obviously more precious." Shimada Muren looked at the cloud channeling beast, who was completely in desperation at this time, with a full face. Speaking with a sneer, he knew that he had achieved his goal. Since the cloud channeling beast in front of him had already stepped into the trap, he would never have a chance to survive.

The humanoid cloud beast looked at Li Tian with a complex expression.

In the previous communication, she could feel the sincerity of this human being. Even the people who killed it did not have the meaning of excuse and regret. As he said, he just let others die in order to survive. .

"I never dared to imagine that the last person I trusted in this world would be a human being." He muttered, and then began to close his eyes. The low and magnetic voice began to think of an ancient

and yet It is a mysterious spell. You can feel the power and unstoppable strength from the spell alone. Even this black star cannot control this power.

Shimada Muren's face sank. She had never thought about such a situation. If she could not find the treasure from the ancient gods and bring it to the family this time, she would be blamed by the family.

It alarmed the guards, and finally got only a useless evolved cloud beast.

For the family, the most important thing is to obtain the treasures of the ancient gods.

‘Damn it, this is the first time I have proved myself, is it going to fail like this? Shimada Muren clenched his fist, and the family has always been reluctant to recognize his identity, so he proved himself by performing these tasks.

Today, is it going to fail?

Chapter 5255: Avatar outside

‘Boom Rumble’

Finally, a powerful force shot out of the humanoid cloud beast's body broke through the shackles of the black star.

The freed humanoid cloud beast, its scales are all crimson, as if it was smelted by flames poured by steel bars, looking at the incomparably sacred and powerful, his eyes are firmer, looking at these ninjas: " Oh, have the running dogs of that ancient race spread to such a place?"

I don't know why, when I heard this sound, Shimada Muren wanted to leave here.

"Get out of here soon, this guy used all his vitality to summon the sleeping remnant soul of the ancient god." One of the ninjas looked at Shimada Muren and said anxiously.

"Escape? No one of you can leave here today, no one can survive." The ancient ***** said solemnly, and then he popped one of his own hands. The powerful force could not resist, and it was also an incomparable will.

A ninja wanted to resist, but he was immediately killed.

In his mind, the last thought that flashed through could only be why this guy became so powerful.

Dozens of ninjas continued to attack, but they were killed by the ancient gods in an instant.

This is the powerful power of an ancient god's remnant soul.

Shimada wanted to leave. When the black star was destroyed, he felt that things had become very difficult. It seemed that some terrible creature was liberated by them, but in the end he still failed to escape. go with.

In front of this creature, he was like a tiny ant, without any ability to fight back.

The ancient ***** looked at Li Tian and snorted: "Smart boy, aren't you ready to show your true body now? Do you need me to pull you out of which corner?",

"This... how is this possible?" Shimada Muren's eyes widened, and he was surprised that Li Tian, who was still in front of him before, turned into energy and dissipated between heaven and earth.

"The mantis catches the cicada and the oriole is behind, but it seems that I still made a mantis today." Li Tian's figure appeared in the other corner, approaching helplessly. As early as when he knew Shimada Muren was close to him, Li Tian Knowing that the battle between himself and the Cloud Channeling Beast will definitely be taken advantage of, especially after knowing that this is the relic of the ancient gods and there are countless powerful creatures, Li Tian is even more reluctant to fight.

He knew very well that his battle with these creatures might give Shimada Muren an opportunity. Therefore, when many people did not expect, Li Tian directly released his incarnation.

It seems that there is no difference from the body, but it is condensed by the power of a part of the body. If you have a strong spiritual mind, you can find that this is just a clone in an instant.

The clone's strength is very weak, not even a quarter of the body's combat power.

So when the humanoid cloud beast severely injured the clone, Li Tian knew that Shimada Muren would definitely come out to make trouble, and when he shot secretly, he would definitely be caught off guard.

Originally this was a good plan, but the appearance of the ancient gods changed all these plans.

Neither of them thought that they would face such a powerful ancient **** in this place.

Feeling this powerful force, neither Shimada Muren nor Li Tian believed that they could deal with the remnant soul of this ancient god. Only the remaining remnant soul was already such a strength. The real ancient **** would again How powerful is it.

"You are very smart, and I also feel that you are all forced to be helpless. In this world where the weak live, it is not shameful to sacrifice others in order to survive." The remnant soul of the ancient gods slowly Said, then a thumb-sized stone was thrown into Li Tian's hands: "This thing is for your safekeeping, remember that when you are not strong enough, never show him to others. As for what effect this thing has, You will understand later.",

"Aren't you going to kill me?"

"I am not a servant, and the energy in my body is limited. In order to protect this ancient **** relic, I need more power to ensure that I exist for a longer time." The remnant soul of the ancient **** said with a smile: "Every time I appear Once, it will cut down my time in this ancient **** relic. When I disappear, there will be no strong protection here, and it may become a place where others can raging at will. Obviously I don't want to see this. Situation happened."

Li Tian was very moved, he almost died here because he was going to die.

"The grievance between this kid and you is very big, and I can't get involved in the affairs between you. Ninja, I have already helped you get rid of it. Isn't it any problem for you to get rid of this guy?" Old God Remnant Soul asked again.

Dealing with Shimada Muren was just a matter of moving his fingers, for the remnant soul of the ancient god.

But he still chose to entrust this task to Li Tian to do. One can imagine what a stingy guy this is. He was very unwilling to lose a little bit of his own strength.

However, Li Tian wanted to see Shimada Muren's ability very much. The so-called family in his mouth was definitely not an ordinary existence. These ninjas are already very rare on the earth themselves. I thought they would be extinct in the God Realm, but I didn't expect it to be here. You can also see the shadows of ninjas, and their combat effectiveness seems to be stronger than before.

Having witnessed the power of these ninjas, Li Tian also had the idea of wanting to fight them.

"Hmph, if I defeat this kid, can you let me leave here?" Shimada Muren heard that the remnant soul of the ancient ***** had such a request, and immediately had the courage. Anyway, he is already a dead end. With a little chance, it is estimated that it will be such a belch in vain, but any normal person is definitely not willing to make such a choice.

The Remnant Soul of the Ancient God looked at Li Tian and Shimada Muren: "If you can defeat this little guy and promise to never come here again, I can keep you alive, but you have to know that this time you can survive. , If there is another next time, you will only have a dead end. I will never tolerate someone who has made two mistakes.",

"As long as I leave here, I will never come back." Shimada Muren is fighting spirit, and the remnant soul of the ancient ***** wants to kill himself as easily as squeezing an ant. He will not deceive himself if he wants to come. Now he has enough courage. , As long as he defeated Li Tian, he can survive, which is not impossible for him.

Chapter 5256: Fight

"Very good, then try it. As long as you can defeat the young man in front of you, I will let you leave here." The ancient ***** remnant smiled, and then sat down on the side, seeming to be them. The two referees.

Li Tian looked at Shimada Muren. Although the clone was damaged just now, he also bought him a lot of time. At this time, he had already recovered to his full peak state.

The only pity is that he is not familiar with the tricks of the man in front of him.

But Shimada Muren has been following Li Tian secretly, probably because he knows Li Tian's techniques and fighting methods well, so if two people really fight, the final result will be the ultimate winner, it must be self-evident. .

"Why, when you were in the guild, you were still so arrogant and yelling at me, are you afraid now?" Shimada Muren chuckled when he saw Li Tian who was hesitant.

"If I'm afraid, I won't stand here anymore. I'm just thinking about how to make your death more uglier." Li Tian will definitely not lose to the other party in terms of aura, and he thinks himself In terms of strength, it is absolutely right. The Shimada Muren who is in front of him is absolutely right. How do the two people look like an opponent of the same level, and they don't know where Shimada Muren's courage comes from, and they would talk to themselves like this.

And Shimada Muren, looking at Li Tian with an arrogant face, clenched his fists: "You are more arrogant than many people I have met."

Li Tian was silent and began to work out a strategy in his heart. When he reached the God Realm, he could no longer use his own abilities. Even if he had Red Slash in his hands, all he could do was slash, etc., lacking the abilities and previous energy. It has also become extremely difficult to release the previous tricks.

And Shimada Muren in front of him, regardless of who is strong or weak.

First of all, in terms of tricks, Shimada Muren must be a little stronger than Li Tian.

If you don't use strategy, it may be difficult to defeat Shimada Muren.

Li Tian stood on the spot, leaning forward slightly, putting his hands behind him, his mouth raised, and facing Shimada Muren with a smile on his face, raising his right hand and hooking his fingers: "Come on, let me see the ninja inherited by your fellow, And a bit of strength."

'Boy, I still looked melancholy just now, but now it's like a stimulant, and I was asked to take the initiative to attack. There must be fraud in this! Seeing Li Tian's appearance, Shimada Muren's first thought was that this kid must be fraudulent, otherwise how could he speak to himself like this: "Why, do you have a plan to deal with me in your heart?"

"Do you need any other means to deal with you? I stand here, let you attack me, I'm afraid you will not be able to defeat me." Li Tian looked determined, in fact he was very uncertain, except for the simple fight with Zhang Yang before. Besides, he didn't continue to have the experience of fighting against people in the God Realm. The strength of this guy in front of him is obvious, and it is definitely not a simple thing.

Otherwise, it won't attract so many powerful ninjas.

The realm is almost the same, but they are far apart in their tricks.

A breeze blew by, and the stones on the ground began to roll down to the other side. This was the only sound made at the moment. Both of them stood on the spot, waiting quietly as an old monk entered concentration. .

The Old God Remnant Soul watched this battle with interest.

He knew very well that Li Tian had many flaws at present. First of all, he did not have a powerful technique to support him, and he was unable to cast powerful spells, so that he had no realm, but he was completely unable to counter the enemy in front of him.

In other words, if two people attack frontally, Li Tian will lose.

But if Li Tian can display his intellectual strengths well, then the situation on the scene will have a 180-degree rotation. Shimada will be played with applause by him, and his whole body will be immortal. It was exhausted and was killed by Cheng Yu with a sword.

"You kid, do you want to fight anymore? Do you want me to stand here with you forever?" After waiting for a long time without seeing Li Tian attacking, Shimada Muren was a little anxious. This kid was hesitating here for so long. Time hasn't taken the initiative to attack, is it possible that he is as stable as a mountain now, and is in no rush?

Li Tian saw that Shimada Muren was anxious, he just smiled and said, "The decision whether to fight or not is in your hands. I told you before. I will give you a chance to take the initiative to attack me. Otherwise, wait until If I take the initiative, I'm afraid that you won't even react, and you've become my dead soul. What I hate most is to abuse others."

Seeing Li Tian's serious look, as if he was telling the truth, Shimada's heart trembled, and he was alive and angry.

This kid is really getting more and more arrogant. He was worried about his conspiracy, so he didn't rush to make a move, but waited quietly for the opportunity here, but it didn't mean that he was not his opponent.

"Good boy, since you are begging for death wholeheartedly, then I will satisfy you." Shimada Muren stared at him and said with a smile: "I have seen your previous battles. Although they are very good in the realm, they are not good at the tricks. There is a shortcoming. Without proper tricks and techniques, you can't support the combat power you can have in your current realm. With only an external avatar that anyone can use, you think you are invincible?"

"I never thought I was invincible. I have always dealt with you carefully." Li Tian smiled.

Shimada Muren closed his mouth, and a fierce flash in his eyes. During the period of speaking, it seemed that he hadn't paid attention, but he had been observing Li Tian all the time. He was worried that this kid would be another clone to fool himself, but now it seems that he has completely thought about it, and by judging him, he can clearly determine that the young man in front of him is not just a clone, but is indeed a living person.

In this way, then it is enough.

As long as the person in front of him is not a clone, he can find many opportunities to defeat Li Tian instantly. He believes that he has this strength and this possibility.

"Kacha"

A piece of ground under his feet began to produce some subtle cracks, bit by bit, like a spider web, began to spread slowly, and the fairy gas slowly wrapped around his body, thinking of energy like a cocoon. Enchantment.

'This force is eroding me bit by bit, and I have to hurry up and resist. The ground under Li Tian's feet also began to crack a little at this time. He knew that his chances were running out.

Chapter 5257: instinct

Li Tian was very nervous. He felt like a person trapped in a desperate situation at this time.

His own weaknesses are all known to the enemy, but the enemy's weaknesses have not yet been discovered by him.

He directly summoned the Red Sword in his hand, and the red wing **** outfit immediately possessed his body, staring at the opponent in front of him seriously. He had seen many powerhouses in the God Realm, but the only one he had ever fought was an almost abolished publicity. That battle has not completely ended.

In addition, it is to face some low-level monsters.

These monsters have no tricks at all, and defeating them is not very difficult.

But today, he truly understands the difference in the God Realm.

Although I started from a very high starting point here, because there is no suitable technique, the way of fighting is very monotonous. I have an empty stomach, but I can't give full play to it. The only thing I can do is to use my body. The power of the immortal moves to the top of the red sword, and then uses it to play a part of the power, but this way of fighting is obviously also extremely consuming of the power of the immortal.

The immortal power that cannot be used reasonably, even if a part of the power is used, will be mostly consumed in meaningless places.

"Take it to death." Shimada Muren roared, and stomped on the ground, and saw countless cracks on the ground. Then, withered branches like arms drilled out of the ground, rushing towards Li Tian from all directions, densely packed, as if to cover up the entire sky.

Li Tianyi frowned, Hong Zhan in his hand slashed fiercely to the ground, shaking up piles of debris, covering the space in front of him.

At the same time, cast a clone.

He must make Shimada Muren unable to find where he is. Only in this way can he launch a surprise attack from the dark, and it is the only way to defeat Shimada Muren.

"Don't try to hide, you have nowhere to escape." Shimada Muren is not a rookie either. How could it be easy to make a mistake if he can spend so long on guild missions in Luoyang City.

Li Tian did separate the clone.

But before he separated his position, he saw countless dead wood sticks coming around. At the same time, Shimada Muren's voice was like positioning, whispering in his ear: "Do you think your clone can escape? If you want to Relying on the clone to escape, then today you have only a dead end."

"Pouch"

The dead wood branch pierced through the clone, causing Li Tianhu's body to be shaken. He stepped back and clutched his chest.

Although it was just a clone, the pain was empathetic.

The dead wood branch was like a palm growing out of his body, tearing Li Tian's body with powerful force, as if to tear his body completely.

"Hmph, I thought you might still have some strength, or found a way to deal with me, but now it seems that you are nothing more than that." Shimada Muren said disappointedly. When he was just about to start, he still Cautiously, because Li Tian, who suddenly asked him to take the initiative to attack, felt like there was some trap, so he was always cautious not to do anything casually.

But I didn't expect the result to be like this.

This kid hasn't found a way to deal with himself at all. He still thinks that he can defeat himself with those methods of dealing with Warcraft?

Simply naive!

The biggest gap between humans and monsters is not only in their intelligence, there is also a huge gap in terms of their strengths, and they are completely different.

The Old God Remnant Soul watched quietly, even watching him being suppressed by dead wood branches, he still didn't mean to shoot, but the smile on the corner of his mouth was a little weird, and he didn't seem to worry about Li Tian's failure.

This feeling of being suppressed was uncomfortable, and Li Tian was very depressed.

His current realm is definitely higher than Shimada Muren, but he has been suppressed by his practice. Shimada Muren only needs to stand in place and manipulate these dead wood branches to complete his suppression.

'Wait...I seem to...think of something. In Li Tian's mind, the key was instantly thought of.

Shimada Muren has not moved since the battle until now, and around his body is protected by a cocoon-like energy barrier. Obviously, he cannot move during the process of activating the dead tree branch.

That being the case!

Then don't blame me for being impolite.

Li Tian closed his eyes, and then began to immerse his mind in Red Slash. Can this weapon from another world be used to transform his form with immortal power to achieve other effects?

These powerhouses in the God Realm have had a lot of time to fly up, and they don't know much about things in the lower realm.

Li Tian is different.

But it hasn't been long since the strongest of the lower realm has ascended to the **** realm. He still has this weapon connected to his bloodline in his hands about everything in the lower realm and his understanding. He can feel his body after ascending to the **** realm. Many things are sublimated and become different.

Only Hong Zhan seems to have not changed.

Ever since, he began to continuously inject his fairy power into the red sword, and at the same time conceived in his mind the form of a charged cannon.

As time passed, the whole process was very long, and it was not that simple to forcefully change the form of Hong Zhan through Xian Li.

After reaching the immortal realm, Hong Zhan and Li Tian's body are perfectly integrated, so they can directly change into the state of the Red Wing Divine Costume without the need for Hong Zhan to blend into the body. An increase in strength.

But other than that, Hong Zhan has changed very little.

At this time, the dead wood branch's crazy and dense attack came again, and Li Tian also felt a strange connection from inside Hong Zhan.

It's like an old friend who hasn't seen each other for many years, telling you something.

His body began to react instinctively, as if being controlled, but as if he had realized something.

No one knows Li Tian's current state, except for himself.

The thinking from above Hong Zhan was gradually merging into his body. It was a kind of thinking and a way of fighting. The fighting methods he had been lacking were all sealed in Red Zhan.

After being catalyzed by the God Realm, the artifact completed a perfect transformation, and then formed a set of fighting methods of its own within it, which was also exclusive to Li Tian.

"Roar." Honghuang Qinglong broke out, his huge body instantly covered most of the sky, covering the sky and sun, and the ground was plunged into pitch black.

Chapter 5258: sublimation

This feeling is amazing.

He felt like he was surrounded by a gentle embrace, and all that echoed in his mind was an extremely gentle voice, bit by bit, transmitting some strange ways of fighting into Li Tian's mind.

His ability to accept is very strong, and he has absorbed all of these things and used them in his own battles.

The feather blade behind him began to instigate constantly, bringing up hurricanes to make Li Tian's body continue to climb. Only by climbing to a high altitude, can he avoid the attack of the dead trees under his feet.

Although these dead wood branches are dense, they take root on the ground and it is difficult to touch Li Tian.

"Ha, do you think you can defeat me by escaping into the air? Although my dead wood branches can't touch such a high altitude, once you fall, they will swarm in and tear your body instantly, And if you want to defeat me, you must break through my protection barrier with the world in your hand. How many levels do you think you can be sure of without falling into the air?" Shimada Muren found that Li Tian was flying, disdainful Say.

Indeed, if the Red Slash in Li Tian's hand could only be used for melee combat, flying to the sky would only allow him to slowly consume the immortal power in his body, and the battle would have no effect.

However, it is not.

"Kacha Kacha"

This sound is like Transformers changing form. The Red Slash in his hand also began to make a jerky sound, changing their original form bit by bit, but in just a few seconds, a huge charged gun like a cannon. Hong Zhan transformed.

The corner of Li Tian's mouth raised, and he held the rechargeable gun with both hands.

"What's this?" Shimada Muren is obviously an old antique. He has no idea that there are many powerful weapons on the earth, and even their high gods should be careful.

When Xianli started to infuse it frantically, the charging gun showed its power.

A whirlpool formed autonomously near his muzzle, madly adsorbing all the surrounding aura into the rechargeable gun, and then began to transform into a burst of energy inside. With the recharge of Li Tian and the aura, the gun body quickly It becomes crystal clear, this is the performance of the charge.

"Now, what else do you want to say, the last last words?" Li Tian asked, floating in the sky.

"Do you really think that I am a mentally retarded person. Would you still be frightened by this method? You kid doesn't know how to use spells at all. If you don't have skills, even if your realm is a little higher than me, you are completely free in the air. You can choose to escape, but I can leave here alive. When that happens, my family will want you in the entire God Realm, looking for clues to the ancient gods' ruins." Shimada Muren does not know that his time of death is coming. The gun absorbed a lot of energy, but it didn't fully express it, giving people the feeling that his red cut just changed a weird heart shape, and it didn't make much sense.

Li Tian looked at him and said, "Then, you go to die."

'boom'

A sturdy energy pillar fell from the sky like a sky thunder in a thundercloud, and directly blasted above the barrier of Shimada Muren with a crackling sound.

The heavy pressure from the air caused the land under Shimada's feet to sink a lot.

There was some panic on his face. The power of this gun can be described as destroying the world, but just when he touched it, the surface of his enchantment began to appear a little bit of cracks, and it continued to spread around. If this situation continues, I'm afraid it won't take long before Shimada Muren will die.

"Damn it, what the **** is this kid's gadget, why does a sword emit such a terrifying sword aura, and I have never seen such a weird sword aura." Until now, Shimada Murito I don't know what kind of weapon I lost to, why the kid who doesn't understand the exercises can use the immortal power so perfectly.

"Crack, squeak"

The barrier shrank bit by bit, and at a speed visible to the naked eye, a lot of cracks had grown on it, and the violent power from outside also slowly penetrated in.

"Hmph, don't think that this intensity of energy can break through my barrier. You know that this is the means by which I rely for survival. Many powerful people can't break through this barrier. You want to break my barrier. World?" Shimada Muren whispered, and now he is still pinning all his hopes on the energy strength of this barrier. He believes that the energy barrier will be very strong.

After successfully absorbing this energy shock, he can have a chance to stand up.

I never thought that this kid who can't use spells could launch an attack like himself in the air, so he didn't choose another way to deal with Li Tian. In his opinion, this kid has been flying in the sky. It is impossible to defeat himself, but instead It will cause the immortal power in his body to be excessively consumed, so that the final result is still lost to him.

But when that shot fell from the sky, Shimada Muren realized that he was thinking too much, and that he was too naive.

Li Tian's shot completely broke his belief.

The Old God's Remnant Soul raised his head and looked up at the thick energy, feeling the energy that suddenly became thinner around him, and said: "A very interesting weapon, unlike traditional artifacts, this weapon seems to seal a unique life. Ascending to the God Realm, it was also

sublimated and transformed, and then this power was applied to the weapon, and the elements in it became more flexible and changeable, able to cope with a variety of combat situations."

With just a look, he clearly felt the various advantages of Li Tian's weapons.

However, even with so many advantages, it is still difficult for Li Tian to defeat Shimada Muren. After all, the opponent is a ninja, and he completely restrains Li Tian in the exercises. It is a pity that Shimada Muren still believes too much in what he sees. , Seeing that the enemy has no techniques and tricks, I naively think that there is no danger at all by sticking to the ground.

The result is naturally obvious. He was directly defeated without any suspense.

Although the barrier is very strong, the impact of this energy is far from being able to be truly blocked by a barrier.

He has a lot of dead wood branches, but in the face of energy shock, there is no room to fight back.

With a huge explosion, a pothole burst into blue smoke, Shimada Muren was lying limply in the pothole, the barrier absorbed most of the impact, even so, some of the remaining residual energy still let His body suffered severe damage.

Chapter 5259: mission completed

"Ahem, this... this is impossible."

"There is nothing impossible in the battle." Li Tian looked at the disbelieving Shimada Muren, presumably this guy wouldn't believe it even in the last moment of the battle. Someone in this world would use sword energy here. It's a little bit, but in fact, it's not a so-called sword aura at all. It's better to use bullets or energy impact to describe it more appropriately: "If you can activate other spells earlier, maybe the one lying here is I am, but unfortunately, you have no choice to do this."

"Is the winner or the loser, what is the meaning of saying this now, does it make you feel that you are higher than me?" He sneered, and then coughed up a lot of blood, mixed with some pieces of flesh and blood. In this battle, he suffered a lot of damage.

The remnant souls of the ancient gods came to Li Tian step by step and said: "The relics of the ancient gods are a temptation for many people. Once they know that there is a relic of the ancient gods here, there will soon be countless People flock to you. What you need to do is very simple. Keep this thing in dust forever, so that everyone does not know that you have discovered the ancient **** ruins, and all you need to do now is to kill the guy in front of you."

Li Tian looked at Shimada Muren and nodded, the Red Zhan in his hand changed back to the original sword shape again, and then fell with a single knife.

The blood burst out instantly.

Shimada Muren was killed before he let out a scream.

Poor, this guy is actually a very good practitioner. With this strength, he has been active in the Broken Cloud Mountain Range for so many years and has completed many tasks, and he is indeed an excellent practitioner.

It's a pity that he believes too much in what he sees.

When he was sure that Li Tian had no other techniques at all and it was impossible to attack the ground, he completely gave up changing his attack method and wanted to wait for work, but he was transformed into a red cut form and defeated!

There is no more ups and downs in life than this.

"Now, you have completed the task." The Old God's Remnant Soul looked at Li Tian, his body began to show some blood stains, and some blood flowed out: "This body can't last long, I wanted to help you know. There are some tricks, but my time is running out. I can barely tell you something. Don't tell anyone about the ruins of the ancient gods here, or you will understand the consequences."

"I know."

"Besides, you must protect the thing I gave you. Even if you lose your life, you must protect this thing. It must not fall into the hands of evil people. Its function is..." Gu The God Remnant Soul's mouth opened slightly, as if he wanted to tell Li Tian something, but it was a pity that the human-shaped cloud cloud beast's body was completely damaged before he had finished speaking.

And the energy of the remnant soul of the ancient gods disappeared instantly.

Only then did Li Tian know why the Remnant Soul of the Ancient God did not choose to fight. This body is indeed very powerful. It can be regarded as the strongest body among the cloud beasts, but it is a pity that even such a powerful body. , It is also difficult to completely accommodate the remnant soul of the ancient god, he simply can't exist in this body for much time, if it hadn't been there for Li Tian just now, maybe Shimada Murong would just choose to escape.

It is not that he does not want to fight, but once he participates in the fight, his body may be destroyed directly.

Li Tian still had some questions he wanted to ask clearly, but seeing the mess on the ground, it was obviously impossible to tell him the answer.

In desperation, he shrugged his shoulders and collected the dead cloud beast on the ground.

He will throw one of these Cloud Channeling Beasts to the guild, and the rest will be sold directly to some merchants. So many Cloud Channeling Beasts must be sold at a very good price.

Thinking like this in his heart, he **** the corpses of these cloud channeling beasts with an extra-long willow branch, carried them behind his back, and left the ancient **** relics step by step.

When he stepped out of the ancient gods ruins, a strange change took place in the land behind him. Then, the entrance of the ancient gods ruins was sealed by a smooth stone wall. Looking back, the original direction he came in was at this time. It has become a very ordinary entrance, which looks like a lair of a cloud beast, far less complicated than when it came in.

You don't need to guess or know that this reason must be caused by the relics of ancient gods.

Carefully touched the stone in his hand, Li Tian frowned, "What the **** is this thing? I can't feel the existence of any energy body on it. It's hard to imagine what this thing and the remains of ancient gods will have. Contact."

When Li Tian left the Broken Cloud Mountain Range, the horizon was already bright.

Li Tian, dressed in tattered clothes, walked steadily, like a proud general, marching towards Luoyang City step by step. So far, only Li Tian has captured so many in history. The cloud beast. Of course, it was in the realm of spiritual cultivation.

When Li Tian came to the gate of Luoyang City, the previous guard was on duty. When he saw him, he opened his eyes and hurriedly greeted him. He said with a flattering expression: "Big Brother is really amazing. He killed so many in one shot. The cloud channeling beast, these things must be sold in the main city for a big price. This time you have made a fortune."

Li Tian frowned, looked at the guard in front of him, and asked after watching for a long time: "Excuse me, who are you..."

The guard choked silently, how should he answer this?

Can't say, I am the guard who was beaten by you before, right?

"It's okay, it's okay..."

Li Tian looked at the guard who behaved very strangely with a look of surprise, and then shouted: "Oh, I remembered, you are the guy who wanted to blackmail me and was beaten by me. You are on duty today. what."

The guard was struck by lightning, and he stood there for a long time without responding.

Ten thousand grass and mud horses galloped past in my heart,

Tremblingly said: "Big...Big brother, our captain is here too."

"Wang Dahammer, come here." In the distance, a middle-aged man yelled very angrily. Obviously, the guard named Wang Dahammer must have nothing to eat. As for how the problem will turn into later, just agree with Li Tian has nothing to do with him.

He swaggered into Luoyang City and headed straight towards the guild.

Chapter 5260: Made a profit

The guild in Luoyang City also had an acquisition agency for this kind of monsters. Seeing Li Tian came back with so many Cloud Channeling Beasts, he immediately greeted them all. For some reason, he asked Li Tian to sell all these Cloud Channeling Beasts. Here.

However, Li Tian also made a very generous amount of money, thousands of days of coins, which is considered the most currency he has seen so far.

Thinking of my past glory, I was really embarrassed at this time.

The original king can survive by doing this kind of task.

Li Tian found a corner and sat down, ready to rest, but saw a group of people walking straight towards him.

The head is a woman wearing leather armor and exposed many parts of her body. Her proud figure is perfect, and the golden curve is what many women dream of. Coupled with that delicate face, she is a hot girl.

The woman stood in front of it, raised one foot, and stepped on the wall next to him, ignoring the exposure of the scenery under her skirt, and said boldly: "Boy, I think you killed a lot of cloud beasts. Don't come and do tasks with us."

"I give myself what I can do, why should I follow you?" Li Tian smiled, looking at the woman in front of him and asked.

"Boy, don't be shameless. Our captain invites you sincerely. You know how many people in this guild want to join our team. You can be invited by us. You should feel very Happy." A shaggy man next to him stepped forward and said aggressively.

The woman raised her hand: "Mengsk, don't talk nonsense."

"Captain, what I said is the truth. You see that so many strong people here want to fight with you. This kid looks so thin and weak. Although he has killed a lot of cloud beasts, this thing itself is not effective. Strong, even I can do it easily." Mengsk looked at the woman with an unconvinced expression.

Only then did Li Tian start to look at this team.

There were only three people in total, and the other was a guy with a cloak and looked a little dark. Judging from the gender of his clothes, this was a man.

He was a little thin, with two daggers hanging from his waist, he should be a professional assassin.

The woman in front of her looked like a frontal attacking fighter.

These people are probably the bounty of many of the population. Such people usually don't join any sects. They all ascend from some places in the lower realm. They have some Western ancestry. For these so-called sects, they must be Very disdainful.

But it is said that in the God Realm, Westerners rarely rise up.

"The tasks that you can perform alone will certainly not have high rewards for tasks, but you can do many very dangerous tasks with us. As long as we cooperate properly, you can complete these tasks easily, help each other, and work together. The means to win, why not do it?" The woman squinted and looked at Li Tian as if she was sincerely inviting.

Li Tian shook his head and said calmly: "Sorry, I have no interest in joining you, and I now have a lot of money, and I am going to rest for a while."

"Are you sure?"

"I'm pretty sure of my decision."

"Okay." The woman nodded and stood up slowly: "Introduce myself. My name is Catherine. I think we will meet again soon."

After sending this group of people away, Li Tian found that many people around him looked strange in their eyes, a bit like pity, or other feelings?

But he quickly put this idea behind him, went to the task bar, and started looking for a task that suits him.

Killing a group of cloud channeling beasts is not something to be proud of. This task is not very difficult for him, but Li Tian, who has just arrived in the realm of God, now needs to make himself stronger.

His gaze scanned this, and suddenly saw a very strange task.

It was a task without any task level marking, but there was a very clear reward on it showing that each survivor could get 10,000 days of coins.

This is a huge income for Li Tian.

However, he saw that the description of the task was very simple, only a few words: 'The mortality rate is 95%! '

It can be said that those who have the courage to accept this task are definitely desperadoes.

Li Tian is also hesitating here whether he wants to take over this task. The first thing he can determine is that this task is very dangerous. A task with a 95% mortality rate is almost impossible to survive once it is executed. , No wonder the bounty for this task will be so high.

Secondly, there is no description of the task. They only know that the task is dangerous, but they don't know what to do.

If you let yourself go to find a ***** emperor to fight, wouldn't it be your own death?

Not to mention the 95% survival rate, it is a miracle that you can survive.

So Li Tian stood here and hesitated all the time.

Temptation and danger coexist, constantly tempting the thoughts in Li Tian's heart, wanting to take it away, but worrying about it being dangerous. But after this mission is successful, he can find Situ Ningbing, and there will be no more missions at that time.

Otherwise, according to his current strength, he can only accept some ordinary tasks, and when he makes enough money, I am afraid that it will not be known how many years have passed.

After thinking about it, Li Tianyi gritted his teeth, stomped his feet, and ran to a middle-aged man in front of the task: "I'll take this task."

The middle-aged man raised his head, looked at Li Tian lazily, and said, "Boy, are you sure?"

"I am sure."

"You can see clearly that the death rate of this task is 95%. Of course, this is only an objective data. So far, there are many people who have performed this task, and nearly 95% of them died. Only five percent survived, but they were seriously injured." The middle-aged man looked at Li Tian and continued to emphasize: "Even if these people survived, it would be meaningless for them to get the reward. "

‘Guji’

Li Tian swallowed his saliva and continued: "I have decided, I will take this task."

"Okay, okay, now that you have decided." The middle-aged man nodded, anyway, there are many people who have worked for money these days, even if this is the God Realm, if you don't have money, it's still hard to move.

Sky coins can be used to purchase some cultivation resources. With these resources, your cultivation speed will be faster, and you will have more advantages than others in realm cultivation.
