

A Killer 5271

Chapter 5271: City Lord Mansion

Li Tian only breathed a sigh of relief at this time, he felt the knight's hostility towards him, and he was completely biting his head.

Seeing the knight let go, he breathed a sigh of relief.

Catherine is also a little nervous on one side. If these guards deny every word they say, then the sharp blade in their hands will become a weapon against them, relying on the four of them to want to survive under such heavy encirclement. It's impossible. Besides, the strength of the knight in front of him is still unknown, and they don't know how confident they are in defeating this young man.

At this time on the street, many people looked at them, and many practitioners looked at them.

In fact, there are some that just came out of the guild.

Looking at a few of them, they whispered.

"I didn't expect that someone really came back alive this time. It seems that the Guards and He Jin personally dispatched it is not ineffective."

"What nonsense are you talking about? Didn't you find that General He was not among these people? And looking at the injuries on their bodies, it's hard to tell how the remaining people are doing now." There were also people who disagreed and went to so many people. It seems that only the four people in front of him are alive. They don't know what the situation is on the battlefield.

But thinking about it, the enemies encountered were very powerful.

There were different opinions, and soon rumors about the four of them began to spread throughout Luoyang City.

"Hey, I've lived here for so long, and I've done many things, but it's the first time I feel being paid attention to by so many people. It's really cool." Mengsk sat on horseback. A hard smile appeared. Fortunately, he was still injured, otherwise this guy might have to stand up from horseback to meet these people's awe-inspiring gazes.

Li Tian glanced at the knight in front, and saw that he ignored the following things, and then said to Mengsk: "Be low-key. We only need to hand over the task to receive a valuable reward. At that time you thought these people would still look at us like this? I'm afraid that when they look at us, they look more like their prey."

Catherine nodded. With so much money in her body, it is already a huge sum of money for ordinary practitioners. Killing them and taking this huge sum of money for their own is also a choice many people will make.

"Indeed, keep a low profile." Xing Jun also said.

Mengsk looked at them with a helpless expression. It was not easy for them to survive such a task. Now it is impossible to highlight themselves in front of so many people, which makes her a little unhappy.

But seeing so many people around him look at them with different eyes, he is considered an old bounty, and he also understands that among these people, there must be some people who have other ideas.

The four people were taken to an inn, first bandaged their wounds, and then found them some clean clothes to change on, and then they continued to take them to the City Lord's Mansion.

When meeting the lord of the city, we must make sure that the clothes on these people are clean, so that it can also represent their respect for the lord of the city.

Li Tian followed the knight to the City Lord's Mansion.

Looking at the large mansion in front of him with a floor area of about hundreds of square meters, he did not show an expression of yearning, where he could feel a manifestation of power.

"Wait here, I'll go in and tell Lord City Lord that I will take you in soon." The knight turned his head and glanced at them coldly. He was still brooding about the things before, and he himself was high in Luoyang city. The knights in the guards are also very unusual, these people in front of them even said that he is not qualified to know those things, of course the knight will be angry.

He even had to make up his mind. After that, he must find a way to let these young people know that he is great.

Li Tian nodded. At this time, he spoke a lot more politely: "Trouble."

"I hope you can bring us some useful news. If it's just a bunch of nonsense, I think you'd better be mentally prepared. Lord City Lord has a lot of affairs to deal with every day, but there is not much time to listen to you guys. Nonsense here." The knight glanced at Li Tian behind him, snorted coldly, dismounted and entered the city lord mansion.

"As expected to be the city lord of Luoyang City, I don't know how much money was spent to build this mansion. It has been almost a long time since I looked at it, but I can't feel any decay in this mansion." Li Tian looked in front of him. The difference between this building and the earth is that the materials of these buildings do not know what they are. After such a long time has passed, they can still be kept intact.

"Of course. First of all, the annual economic benefits of Luoyang City are unknown. However, all the city owners here like to do one thing, that is, to build their own mansion more generous than the other city owners. At the beginning The City Lord's Mansion is far from being as styled as it is now, but after the next few City Lords took over, the City Lord's Mansion has changed little by little, becoming the way it is now." Catherine stood in front of the door, Looking at the tall yamen, he said with a smile.

Li Tian stood at the door of the city lord's mansion, looking at the guards wearing black profound armor outside. The wildness hidden deep in his heart began to slowly awaken at this time. A small city lord could have such resources. It can be used, so how many terrible resources should those **** emperors hold in their hands?

It is said that everyone is on the same starting line, but some people are standing on the shoulders of giants, while others are standing on the swamp.

They are indeed on the same starting line, but it is absolutely impossible for them to obtain absolute fairness.

The reason why the ***** emperor can become a ***** emperor is because their talents and comprehension abilities are stronger than ordinary people, but this does not mean that they are really that powerful. After they work a little bit, they will get resources. Many people do more with half the effort in cultivation, and the results will naturally be much higher than that of many people.

The city lord in front of him can get so many resources to carry out extravagant repairs and expand his own mansion. It is conceivable that the resources in the hands of the superior ***** emperors are only a lot more.

Chapter 5272: Lu Xiu

After a few minutes or so, the knight walked out of it and glanced at Li Tian: "Follow me in."

Li Tian nodded and let Catherine walk in front of him.

He knows his personality, and he has become accustomed to that kind of superior existence on the earth. No matter what kind of person he is facing, he doesn't care about their identity and status. When speaking, he is more or less lacking in himself. Considering it, obviously this is definitely not possible.

Even if he knew that one day he would have a battle with Lu Xiu, but now Li Tian could not really choose to fight the person in front of him.

When he is of equal strength, he can tear his skin with Lu Xiu again.

Catherine felt Li Tian's change and knew what this guy meant, so she didn't express too much surprise in this matter. They had already read the whole thing through on their way here. It was fabricated, and everyone checked it out according to their own logic. The lie they fabricated was simply perfect, and it was impossible for Lu Xiu to find any clues that were unfavorable to them anyway.

Unless Lu Xiu can reproduce the scene at the time, he would definitely not know what happened inside the Broken Cloud Mountain Range.

After entering the city lord's mansion, they were even more shocked by the spaciousness and luxury of the mansion in front of them. Li Tian even saw some of the more unique beasts being housed in this yard. Those beasts were also considered valuable and still training. The price of the out of Warcraft must be much higher.

In addition, I don't know how many servants and soldiers there are in the entire City Lord's Mansion. In addition, there are rows of large and small rooms, which look like a small room, which is really jealous.

"There are many rules in the City Lord's Mansion. You may have to stay here for a while, so there are things to remind you that there are some places where you can go and some places you cannot go, and they are clearly written on them. It's best not to sneak into those yards where you are never allowed to enter, otherwise you will be killed by these guards, and no one will be angry for you."

"Thank you senior for reminding."

"Huh, for the sake of your attitude, I think I have never happened before, but you have to be careful when you speak. This is Luoyang City. We are all officials of the Luoyang City Defenders. You are not polite. It is inevitable that you will be wearing small shoes. When you are angry, there will be

no place to sprinkle it.” The knight said while leading them to move forward. I have to say that this city lord’s mansion is really big. They walked abruptly for ten minutes.

This came to a place that looked like a living room.

Lu Xiu was sitting on the main seat of the meeting room at this time. There were many guards standing beside him, and there was also an old man who looked like a counselor, and he was looking at the four young people below with calm eyes.

A few of them slowly entered the meeting room, and the knight arched his hands: "My lord, they brought it here."

"Well, very good. You did a good job of this thing. Go and rest early." Lu Xiu nodded in satisfaction, waved his hand to greet the people, and then his eyes fell on Li Tian, even though theirs The wound was bandaged, and the blood stains on their bodies were cleaned, and it can still be seen that they had suffered serious injuries during the battle.

Lu Xiu hadn't spoken all the time, making them feel very uncertain in their hearts.

The man in front of him represents the highest authority in Luoyang City. He only needs one of his orders. Even if they are in any corner of Luoyang City, they will be arrested by him.

And Lu Xiu, who has been silent all the time, focused his eyes on them, more like a treasure appraiser, appraising an ancient object.

As time passed, Li Tian slowly felt that a lot of sweat had penetrated his body.

This guy actually suppressed them with this invisible aura. Although Li Tian was already very careful, when he reacted, he felt that the pressure on his body was very heavy, as if a mountain was pressing on him. As with the body, breathing began to become difficult.

"Haha, look at how you are in a hurry." Just when the few people were about to be unable to hold on, Lu Xiu suddenly laughed, stepped forward and grabbed their hands, and slowly let the four people sit on the chairs beside them. Coming down, he said with a smile: "The four of you are the only ones who have been able to come back sober when performing this mission so far. It must have brought us very good news."

"My Lord, there is one thing we don't know how to tell you."

"Just say anything. Those who are here today are not your enemies. You don't have to worry about being punished for saying something you shouldn't say. I have always been rewarded and punished. I know who should be punished and who should be rewarded. You go to perform tasks before you die. Now you come back and don't forget to tell us what intelligence is. It's just this. No matter what mistakes you make, I will not blame you. Lu Xiu patted their shoulders with a bold smile on his face: "After all, what is it?"

"General He was killed by Warcraft during the investigation."

The expression on Lu Xiu's face instantly solidified, and the temperature in the entire living room also dropped at this time, instantly causing them to hurry themselves like an ice cellar, and the tea cups on the table began to cool at this time.

The counselor who was standing next to Lu Xiu waved his hand at this moment, greeted all the guards, and then left carefully.

He is a smart person, knowing that the next thing may not be easy, his own identity must not be qualified to continue to stand here and listen to the next information, so he left with interest.

And Lu Xiu's expression became more and more ugly, making Li Tian and the others feel the pressure again.

Fortunately, this time the process did not last long. With Lu Xiu's sigh, all of this feeling disappeared, and the original feeling was restored in the entire living room.

Li Tian sat there, really like sitting on pins and needles.

He knows that he still has many enemies in the God Realm, but facing a small role like Lu Xiu has been so difficult, facing other people?

Chapter 5273: Enrichment

"In fact, as early as when I asked him to perform this task, I almost knew that there would be such a day in the end. This matter was my decision anyway, and it was still my own problem." Lu Xiu supported himself. On the forehead, while sitting down beside him, he sighed.

Li Tian had questions in his heart, and he didn't know whether to ask or not.

"What do you want to ask, just ask." Lu Xiu looked at him, there was no smile on his face, but the tone of his speech was quite acceptable: "Although I am in a bad mood, it is not aimed at you. It's just that after losing a friend, I feel sad. He is my best friend in Luoyang City, and he is also the person I have been able to talk about for so many years."

"My Lord City Lord, since you know that this matter is very difficult, why do we have to arrange for us to investigate and tell the matter directly to the Dazong Sect and ask the people in the Zong Sect to solve these problems. Isn't it better?"

Lu Xiu smiled and shook his head, and said, "You don't understand the doors and ways here. Luoyang City is our Luoyang City, and the Zongmen is the Zongmen. You will gradually understand the contradictions here. , You only need now if I still have a little choice, I will never let Zongmen interfere in this matter."

Li Tian nodded, seemingly understandable.

"Okay, you have probably asked all your questions, now can you tell me where and what happened?"

"While we were on the road, we saw a lot of beasts that were steamed to dryness. Many of them were in the Broken Cloud Mountains. They could be regarded as tyrannical beasts, but they all died there. Died together." Catherine slowly said everything they had seen and encountered that day.

Of course, the matter about their escape and where they were killed is another way of saying it.

"You mean, in the Broken Cloud Mountain Range, a powerful monster like a unicorn appeared, and there is also a little girl who doesn't know her identity, who seems to be able to control the actions of the unicorn?" After hearing this, Lu Xiu wrinkled uncontrollably. He raised his brows and said to them in a very serious tone: "Are you sure you really saw these things? You know that the price of deceiving me is far more painful than the rewards you get, even if you escape to God Any corner of the world, I will grab you and kill you."

"It's a matter of great importance. We also know that if these things are true, they will have a huge impact on the intelligence we know, but this is the real news. When General He finally battled Warcraft, knowing that there is no way to leave alive, or that it is impossible for my team to leave alive, so I chose to let the four of us leave."

"Why are the four of you, and not the more elite guards?"

"Because I caught a lot of cloud channeling beasts while performing a mission before. General He knew this very well. When we went to the Broken Cloud Mountains, I also learned that I am a very cautious person. "Li Tian looked at Lu Xiu, there was no panic on his face, and his speech was clear, and he didn't seem to be lying at all: "And my relationship with Catherine is pretty good. We often perform tasks together, so for convenience, just sent a few of us out."

Lu Xiu looked at Li Tian and seemed to doubt the authenticity of this incident.

However, this process did not last long, and he did not continue to doubt.

First of all, Li Tian's expression does not seem to be joking with them, nor is it like lying. In addition, the military seal is indeed He Jin. If it were not for the General Seal of He Jin to give them, these people would not even be idiots. He would think about taking the military seal and running to his side to claim credit. He still remembers when He Jin left and said that if things were really out of control, he would find a way to send someone to pass the news back. The time certificate is this military seal.

I am afraid that even Li Tian would not have thought that there would be such a coincidence in this world. They happened to get this army seal, and they just seemed to use this army seal to prove their identity.

No matter how smart Lu Xiu is, no matter how whimsical he is.

I never thought that there would be such a coincidence in this world. The only choice at the moment is to believe that the young man in front of me has indeed experienced that battle, and that he has indeed gotten into it. After the entrustment, I will bring the military seal to explain this information to myself.

Stepping forward, General Yin took it from Li Tian's hand, and shook his head: "You are doing well."

"If possible, we really wanted to stay and fight with them at the time. Watching those people fall down one by one in front of us, in fact, our hearts are uncomfortable." At this time, Li Tian played his Oscar actor perfectly. With ordinary acting skills, there were still tears flowing: "Those people take good care of us, and they are also very happy when they chat, but I didn't expect that just going out to perform a task, we will be separated forever."

Lu Xiu looked at him, with some small emotions, he stepped forward and patted Li Tian on the shoulder: "This may be the first time you have encountered this situation, and I have become accustomed to it. Many of my friends have died. On the battlefield, they should have been better, and they should have a better destination, but the war took their lives, so I understand how you feel now."

"Thank you, Lord City Lord."

"But you also need to know what impact this incident will have once it spreads. There will be many people spreading this news throughout Luoyang City. You probably didn't tell anyone about these things before, right?" Lu Xiu said here. At the time, there was a majestic look in his eyes. Once the four people in front of him told others these words, he would choose to kill them directly.

"General He has instructed that this matter can only be told to Lord City Lord.",

"That's fine. As long as no one else knows about this matter, the current situation is still under our control. You have done a good job. Then you only need to keep it confidential and don't let more people know about this matter. That's it." He patted Li Tian on the shoulder, then returned to his seat and sat down: "As for the issue of compensation, the guild will contact you directly. You can rest in the city lord's mansion during this time. "

Chapter 5274: Reputation

Although they didn't want to stay in a place like the City Lord's Mansion, they had no choice.

Staying next to a man like Lu Xiu who seems to be very dangerous, almost every day, he has to worry about it, fearing that this guy will come directly to murder and kill his mouth. Then they may not have the opportunity to resist.

"You can walk around freely during your stay in the City Lord's Mansion. I just want you to live here. I have heard that bountyers like you generally have poor lives. There will be one in the future. It's a very important event. If you stay here, maybe you can participate in this event." Lu Xiu slowly put away his seriousness, and looked at Li Tian and Catherine very seriously: "Able to survive from a one-eyed orc and evil Xiao Luo Li's hand escaped, even if someone was covering you, it still proved that your courage and strength are the best among young people."

"The Lord City Lord would make us proud to say this. We just completed the task carefully in accordance with Lord City Lord's previous requirements. Everything will be successful thanks to the Lord City Lord." Catherine said in kindness. After all, this woman is in Luoyang. The city has been around for so long, and there is still a lot of routine on this kind of communicative skills.

Even if such a compliment is obvious, Lu Xiu can feel it clearly.

But it still works.

He smiled and shook his hand: "You don't need to say that. After a while, a large sect will send some people to our Luoyang City. You probably know what's going on."

Li Tianzhang's second monk couldn't figure it out, and looked at Lu Xiu stupidly.

And Catherine hurriedly explained: "Every once in a while, those sects who are more powerful in the gods will choose to hold a competition meeting in some places. People who fully demonstrate their strength in the competition meeting can succeed. Become a member of these sects and be taught and nurtured by them. If you can really join the sect, you will definitely have no way to compare the resources to get resources."

In the God Realm, in addition to every major city has a Lord Lord, some individual major cities have God Emperors.

There is another force, the ancient sect with a long history.

These sects have usually existed in the gods for many years. Watching many wars between gods and emperors, some of them have personally participated in this, but no matter what, it is enough to prove that the strength of these sects must be quite Strong, or it would have disappeared in the long river of history.

And among the remaining sects in the God Realm, all of them are extremely powerful.

"I don't know Lord City Lord, this time the sect is..."

"Tianluo Sect, they have told me a long time ago that they want to come to my side to find some better talents to train. Although the disciples cultivated by the big sects are very good, they Every year, students have to rely on searching in various places in the entire God Realm. Several of our young people in Luoyang City have gained a reputation in recent times. Maybe it was because Tianluo Zong knew about them that they wanted to come to us. Come on, take these two outstanding geniuses away." Lu Xiu said with a smile.

Li Tian thought quietly after listening.

His purpose is very ambitious, but it is obviously also a very difficult road. It is certainly impossible for him to miss anything that can help on such a difficult road.

And Zongmen is obviously a good tool for help.

No matter what the Tianluo Sect is, if you can become a member of it, your own resource acquisition will definitely be much higher than those outside casual cultivators. These are undoubted things.

At the same time, there are still many seniors who can give you pointers when you encounter confusion at your cultivation level. This is also something that some casual cultivators cannot obtain.

In any case, becoming a member of the sect is definitely profitable.

"But I am afraid that some of us do not have such excellent abilities. For others, they may be really good, but we just survived this mission by luck, and can really become those sects. Is the door favored?" With a helpless smile on Li Tian's face, he looked at Lu Xiu in front of him and asked suspiciously.

"In this world, opportunities are always reserved for those who are prepared. Since you are helping me solve such a difficult problem, I will naturally help you to arrange a better future." Lu Xiu smiled. Looking at Li Tian, he said, "Anyway, there is still a period of time. During this time, you will stay in the City Lord's Mansion and practice hard. If you have any needs, just tell me. As long as I can do it, I will definitely help you. "

"Thank you, Lord City Lord."

"Hehe, we are just a win-win situation. When I need your help, I hope you don't refuse." Lu Xiu looked at the excited Catherine, then stood up and moved his body: "Okay, I will deal with it today. I'm very tired with so many things. You should go to rest early. If you can, it's better not to go outside. You are now a celebrity in Luoyang City. You have gained a reputation. That's why I recommend you. The reason for participating in that competition."

After Li Tian and the others listened, he quickly stood up and left with a smile.

After coming out of the living room, Li Tian asked in a low voice, "What does Lu Xiu's last sentence mean? What do you mean by this is just a win-win situation. When he needs our help, we don't refuse."

"Now I don't know what he wants to do. In Lu Xiu's eyes, no matter how much we have achieved, we are still just a little girl. He is the lord of the city, and he will never put our interests in The first one." Catherine looked around. After no one heard them, she breathed a sigh of relief; "Well, we are here now, let's say a few words less, be careful that the wall has ears."

Li Tian nodded, then found a servant next to him and took them to find a place.

In the meeting room, Lu Xiu held the military seal in his hand, and his knuckles were slightly white, apparently suppressing a manic force at this time.

"grown ups."

"Have you notified them?"

"Yes, I have already told them the news. Someone will be dispatched to deal with this matter soon, but it is a pity that Lord God Emperor is not interested in this matter and is unwilling to intervene. Otherwise, why should we..."

"Stop talking, send someone to keep an eye on those young people, don't let them leak the news."

"Yes!"

Chapter 5275: search

A few people sit cross-legged on a mountain in the rain and fog.

By their side, whether it was a monster or a beast, they dared not get close.

"There is also news from the lower realm. We have been waiting for this kid to fly up. It seems a little eye-catching at the moment. I traced this kid's traces while in Luoyang City some time ago."

"Hey, he doesn't go where there is a way to heaven, he comes on his own without a way to hell, so that's okay, let us solve the things that are not resolved in the next session." The other person snorted coldly, shaking his head and looking at the vastness. Yun Hai showed a sullen smile: "Let him know that we are also a small role like him in this God Realm, and we can't compete."

"We have already suffered a lot because we underestimated this guy. We should be careful this time. We must send our people to Luoyang City to find a way to find clues to this guy, and then we can discuss how to deal with him. Before, no matter who it is, don't think about a single shot. Since we want to kill this guy, we must make sure that our plan is foolproof!"

At this time, Li Tian in Luoyang City still didn't know that his enemies had already known that he had come to God Realm, and was doing everything possible to find Li Tian in God Realm.

With the help of Lu Xiu, the status of Li Tian, Catherine and others in Luoyang City has also improved a lot. Everyone knows that they are young people who will participate in the selection of Tianluo Sect in the future, and they all thought about it for a while. How can we make ourselves a substitute for them? The best way to do this is to choose to fight them. Once they win, when Li Tian

and the others finally come on stage to participate in the selection, they can stand up and take their previous achievements. It was revealed.

Being able to be a member of a huge sect is a dream for many people.

Even if they have worked hard for hundreds of years in Luoyang City, these scattered immortals will not be worth the time of studying in a super large sect for more than ten years. Such a huge gap, who can ignore it?

The resources provided by a large sect are simpler than their own lives.

Li Tian came directly to the guild in the morning of the next day.

When he came here, he also used a very low-end disguise technique that he had just learned from the counsellors at the City Lord's Mansion. Now that he knew that he had become a rushing existence in Luoyang City, now If you still use your true colors to go out to do errands, maybe you will encounter many challengers before long. Li Tian is not in the mood to fight with these people now.

After coming out of the City Lord's Mansion, he immediately transformed himself into an old man who looked like a 60 or 70-year-old man. The clothes on his body were the clothes in the City Lord's Mansion, which did not look like ordinary people's clothes.

Walking on the street and just take a look, you will know that he is a guy who walked out of a very powerful place.

After leaving the City Lord's Mansion, Li Tianbian began to move towards the guild.

On the two streets outside the City Lord's Mansion, in addition to a guild, there is also a shop selling various resources. These shops all purchase various materials at high prices from the bounty, and then process them later. After that, the materials in their hands have become hot things in the hands of many people. Generally, bountyers in Luoyang City will buy some props here.

In addition, amulet masters also have some special shops here, which sell all kinds of combat spells.

The way these spells are activated is very simple, as long as you have enough spells in your hand, and then read the spells on the spells during battle, you can easily activate a spell.

And according to the power in these spells, the materials needed are different, and of course the prices they sell are also different.

Li Tian now wants to find where Situ Ningbing is. After coming to the God Realm, this feeling of being unaccompanied is really very uncomfortable. He can't really tell others about many things, and he can't tell his own. Pour out his emotions to others, and if this situation continues, he doesn't know how long he can hold on.

But now, he had another choice in front of him.

He is different from many people. Most of them have exercises in their hands and their fighting methods are also very unique.

But Li Tian is different. After he entered this world, the abilities he was proud of disappeared completely. Unlike other people's battles, he lost these abilities. A powerful celestial power, but he did not perfectly display these celestial powers. If he hadn't had the power of Red Slash in his hand, he might not have been able to beat those warriors who were truly proficient in skills.

Looking at the charm shop in front of him, Li Tian no longer knew what choice he should make.

Is to continue to find where Situ Ningbing is based on my previous ideas, or continue to follow the current situation, and immediately go to the charm shop in front of me to buy some charms to fight.

Intuition tells Li Tian that if he wants to survive better in this world, he definitely needs some fighting skills.

But now it is necessary to enter a large sect like Tianluo Sect, and in the face of fierce competition, there is always a price to pay.

In the end, Li Tian gritted his teeth and stomped his feet and decided to buy these charms.

There is no other way. It is only Li Tian's current strength. It is very difficult to win in battle. It is also an unattainable dream to become an outstanding talent selected by Tianluo Zong. A good choice is to buy some spells here, no matter how these spells can play a big role in the battle. ,

And most importantly, these spells don't need to consume any immortal power of Li Tian at all, so the power that can be displayed in the battle is far more perfect than imagined.

'It seems that if I want to find Situ Ningbing, I have to consider a long-term plan. What I have to do now is to find a way to enter the Tianluo Sect. Only after entering the Tianluo Sect can I survive better. If I can't find it in this world To a reliable backer, it would be extremely difficult to survive. Li Tian thought helplessly, his current situation has changed his original thinking bit by bit.

I was thinking about finding Situ Ningbing before, but now I want to survive better, I must join Tianluo Sect.

Chapter 5276: Spell

Li Tian entered the charm shop in front of him step by step, and there were not many customers inside.

A young boy came to Li Tian, smiled and asked: "Grandpa, what are you here to buy?"

This boy also seems to be a very clever boy. He is able to help in this kind of place. It is impossible to be a clumsy boy. Just looking at Li Tian's clothes now can tell, the man's economy in front of him. The strength is certainly not weak. Being able to work in this shop will naturally develop a unique way of seeing people.

Li Tian smiled and nodded, his eyes fell on the charms in this shop.

Depending on the power of the spells, the colors on these spells are also different.

"Let me introduce to you. There are many strengths and weaknesses in our spells. The power of these spells can be completely distinguished based on the power made above. They are: seven colors of red, orange, yellow, green, blue, and purple. Each color has three differences: top grade, middle grade, and low grade. The gap between each grade is also very large." As the boy said, he took out some charms from the cabinet: "Just take my hand. Let's talk about this red spell, it's a red high-grade spell, but the power he can exert is equivalent to an orange spell, which is also a red spell, but if it's low-grade, he definitely can't match the orange spell. Compared."

After listening, Li Tian nodded, it seems that the distinction between these spells is almost also related to their current strength level.

Orange is equivalent to a spell at the level of a god.

And the orange charm is a magic spell.

"Of course, how to make a top-level spell depends on the strength of the spell master. At present, our shop has many spell masters who cooperate with us, and the business is definitely the best in the entire Luoyang city." Boy He patted himself on the shoulder, looked at Li Tian, and said seriously: "I don't know, grandpa, what kind of charm are you going to buy?"

Li Tian's eyes flowed over these spells. The spells on each color had a variety of different runes, and the materials used were also different.

This difference creates a variety of charms.

Take the Scarlet Charm as an example. There are some basic spells in it. They are: fireball, imperial wind, earth wall, ice spear, and recovery. The power of these spells is not counted. They are powerful, but they are not expensive at all, because after all, these things don't need the immortal power in your body to stimulate them, as long as you hold some spells in your hands, you can play them out.

Li Tian squinted his eyes and began to look inside the cabinet.

The strength of this shop should not be much different from what they said, the highest color in it, you can see the cyan spell, that is to say, in them, you can find a spell that can be called a ***** king level.

However, although these spells are at the level of the ***** king, they are somewhat different from the power of the real ***** king.

After all, one is relying on oneself to burst out power, and the other is to use materials to burst out one's own power. The difference between these two essences alone is far from being solved as easily as imagined, but even In this way, I still have to admit the strength of this shop. It is really not easy to be able to have a spell of the ***** king level.

This is probably the most powerful spell in their shop, and the number is not much, only three.

Seeing Li Tian's eyes staring at these spells, the boy's eyes were also excited, and he whispered, "These three spells, but there are only three charms left in this shop, although they are all three middle grades. The cyan spell, but the power they can exert is definitely not to be underestimated. The most important thing is that there is no need to waste your fairy power."

Li Tian took a look. The spells on the three spells were: God of Thunder, Ghosts, Fantasy, and World Hegemony. They contained spells on weapons, as well as spells on mental attacks and simple spells, which seemed to be one. Kind of good spell.

"What is the value of these spells?"

"The value of these charms is naturally different. You must know that these are the best three charms in our store. The price of these three charms is around 7,000 yuan. If it is a more common charm, their The price may be lowered a bit." The boy looked at Li Tian and hurriedly replied, knowing that the people who came here were all bountyers in this city, and they bought some basic charms.

These three spells have been here for a long time, and no one has come to ask.

Although these are three god-level spells, they are still quite tasteless for some people. Ordinary bountyers certainly don't need to use such god-king level spells to deal with the monsters they usually face. Certainly there is not so much money to buy such expensive power.

And those who have bought this kind of charms casually must have a huge consortium behind them. The bodyguards of this kind of people are certainly not easy, and these charms don't necessarily need to be found directly from such shops. The spellmaster who makes the spell can do it.

In this way, their charms are actually a part of the poor selling in the store.

"Such an expensive price." Li Tian frowned and retreated. The price was still too expensive. After he bought a charm here, he almost didn't have much money, and it would take a long time. Now that she has returned to the life of the poor, she doesn't want to fall to that point, so now she is very light and retreat.

The boy looked at Li Tian and hurriedly said: "Grandpa, these spells are really at this price. You know, this is a god-king level spell. We have already sold you at the lowest price in the store."

Li Tian smiled and shook his head; "These charms are too expensive, and they don't need such a good price for me. How much do those red and orange charms cost?"

"Oh, these spells are relatively simple to make. Usually you can buy two red charms for about fifty days of coins, while the orange charms can be purchased for about 100 days of coins."

Chapter 5277: make up your mind

Profiteering!

This idea flashed through Li Tian's mind for the first time. He never thought that the price of these charms was so terrifying. In his opinion, these things that draw on external forces are very much for many people. Tasteless, most people will use their money to buy cultivation materials. Who would have thought of buying these spells for self-defense here?

But now he found out that his thinking was wrong. Although these low-level spells were not very powerful, their auxiliary effects in battle were definitely beyond doubt.

Those spell masters can make such a large profit just by making these spells. You can imagine how much wealth they have in their hands. If the difficulty of making these spells is a little simpler, then they can really make a casual profit. A lot of money.

Think about how hard you have to earn such a small amount of Tian Coins, and those spell masters just need to do something, writing and drawing on paper can easily reach so many Tian Coins.

"Oh, I see." Li Tian nodded and decided to buy some charms here, but before that, he must first go to the guild to hand in the previous task.

Seeing that Li Tian was about to leave, the boy immediately said anxiously: "Grandpa, wait a minute, I will ask our store manager now."

"What else are you asking, these cyan spells are too fast, I can't afford it." Li Tian was also a very smart guy when he was on the earth. At this time, he knew the expression on the boy's face. What's the matter, these cyan charms are precious, but if they can't be sold, they are willing to put them here, and every day, they have to be afraid of others to steal these charms.

Now finally there is a young man who is ready to buy these charms. No matter how he thinks, he has to keep this young man behind.

The boy knew this very well, so he stopped Li Tian.

"I think Grandpa, you really want to buy these charms. I'll go to our store manager and ask. If he can communicate well with the store manager, he might give you a lot cheaper price. Yes, in this way, you can easily buy these charms." As the boy said, he pulled Litian and sat down on a chair on one side: "Grandpa, wait a minute, don't leave. ,I'll go now....."

Looking at the boy's back, Li Tian smiled and shook his head.

In this shop, it seems that there are no strong protective measures in all the cabinets, but don't think that you can really steal these charms from the inside.

Each cabinet has a powerful restriction inside. Of course you can't see the existence of these powerful restrictions on the outside of the glass cabinet, but when you want to take out the contents, these restrictions will play out your original Even if you are an expert at that time, you will suffer a big loss under such restrictions.

Li Tian knew this very well, otherwise the young man wouldn't have left so easily.

Looking at the nicely decorated shop in front of him, Li Tian maintained a serious expression on his face. He must not reveal how he really wants to buy these charms at this time, otherwise they might not lower himself. The price is up.

After about a few minutes, a chubby middle-aged man appeared in his sight.

This middle-aged man does not have any cultivation bases, just an ordinary person, with two slender beards, wicked eyebrows, and looks like a very clever businessman. After arriving in the front living room, he quickly changed His eyes fell on Li Tian, and he carefully looked at the old man in front of him, as if he was judging the old man's financial ability.

After a long time, the middle-aged man said: "Old gentleman, I was negligent before."

"It doesn't matter."

"I heard that you are going to buy these cyan spells?"

"It's just curiosity." Li Tian shook his head faintly. He couldn't see anything he wanted to buy from his face. Some were just very calm expressions. It seemed that he didn't take these charms to his heart. : "I have never been very interested in such things as charms. For me, the power that humans can exert can be very powerful, but it does not necessarily require the use of charms."

"Hey, what the old gentleman said is wrong. The immortals in the gods are indeed very powerful. They themselves have very powerful powers, but if you think about it, if an immortal in the realm of the **** king still has some cyan With spells, then the power in the battle must be even more powerful. After all, these things will not consume their immortal power." The middle-aged man smiled and said with a profiteer expression: "After all, in a battle, Especially in an evenly matched battle, whoever can retain immortal power at the last moment is very powerful."

After listening, Li Tian waved his hand: "Forget it, I'll leave..."

While talking, he actually left.

And the middle-aged man did not rush to hold Li Tian like a boy. After all, this guy is a real old fox. He has to make sure whether the old man in front of him really doesn't want it, or is it purely for bargaining. Make such a decision.

But when he saw that Li Tian's foot had stepped over the threshold, he almost knew that Li Tian really didn't want it.

Li Tian knew that this fat man would definitely stop him. Although the boy hadn't said anything before, he already knew that these things must have been in their hands for a long time, and no one cares about it. If this continues, it will be considered a large sum of funds that cannot be turned over. What they are thinking now is that they may sell these things even if they are at a loss.

The fat man saw that Li Tian wanted to leave, and he hurriedly stopped: "Old gentleman, if you have something to say, why bother?"

"I really just went here to take a look. The spell masters are indeed very rare in this world, and I have basically never seen them. This time I just came here to see if the spells they made I've seen something amazing now, and I don't need to stay here anymore." Li Tian said as he wanted to continue leaving.

Seeing him so determined, the fat man continued: "The price can be cheap."

Chapter 5278: Picked up a bargain

"It's not a question of price." Li Tian shook his head.

"Since it's not a price issue, what else does the old man worry about? If you buy these charms, you can play a very good role in dealing with various things in the future. I believe no matter who you are. You must all need such charms very much. Believe me, old sir, you will never regret buying these charms." The fat man almost said that he was dry.

If I suspected that Li Tian wanted to lower prices maliciously before, then he has no such idea now.

The old man wanted to leave several times, but Ladu couldn't help it, obviously he was really not interested.

"It won't be any use for me to buy these charms. I don't want to use the power of the charms to help me. I'm sorry to make you anxious. I just have a look here." Li Tian said. Ready to leave.

"Nine thousand days coins, you give me nine thousand days coins and I will sell all these things to you. Let me tell you the truth. This thing has been on our side for a long time. Our branch was originally a small business. Valuable things need to be protected in various ways to stay here, and it has seriously affected the capital turnover of our shop. If we continue to keep this thing in the shop, it will have a huge impact on us." Fatty sighed With a sigh of relief, the heart is definitely dripping blood at this time.

This is a cyan spell, and it's a hot spell sold in those major cities.

But when they arrived in Luoyang City, they turned into such a charm that no one cares about. It can only be said that there are very few real masters in Luoyang City, and the surrounding monsters are not particularly powerful. Generally, they do not go out to perform tasks. May encounter this kind of **** king level monster, who would choose to buy these spells to protect themselves?

Therefore, these cyan spells have become a commodity that no one cares about in their hands.

The fat man has no idea what to say now. If these spells cannot be sold, it will affect the profitability of their entire shop. Obviously, he does not want to see such a scene.

Since Li Tian wanted to buy these charms now, he had no choice but to sell them at a loss.

Fortunately, these charms are only mid-range, and their production costs are not as expensive as imagined.

Even if the fat man said such a loss-making price, he didn't actually lose much. It's better than keeping the capital chain cut off.

Li Tian still shook his head: "I said, it's not a question of price."

Fatty was about to cry. It was the first time he saw such a difficult customer. Now he has sold these cyan charms by all means, and he even made himself a loss for this, but Li Tian still didn't. Willing to buy it, is the old man in front of him really crazy? Such a cheap cyan spell, looking at the entire God Realm, probably only they would sell it like this.

"Old gentleman, it's really the lowest price. I beg you to make it or not, I beg you, I don't think you look like an ordinary person. Buying these cyan spells is definitely a piece of cake for you. It's a dish, but they're definitely not good for me." The fat man pleaded, pulling on Li Tian's sleeves, which looked completely opposite to Li Tian's identity. At this time, he seemed to be begging the shopkeeper to lower the price. Buyers.

"but....."

"Mr., you don't want it. If you are willing to buy these three charms, I will give you a membership card, so that you can buy charms in the chain stores of our entire God Realm in the future, and you can get a certain level. This is the lowest discount I give you now. If you are still not satisfied, I really don't know what to do." The fat man had a tangled expression on his face.

Although Li Tian looked embarrassed on his face, he was already happy in his heart, and the god-king level spell made him so easy to handle.

After a long time, he sighed helplessly: "Well, in your helpless situation, I can buy these charms, but now I have a more important thing to deal with, so I definitely cannot talk to you now. Trade, just trouble these spells. Now you store them for a while, and I will come and buy them soon."

The expression on the fat man's face was a little suspicious, and he asked cautiously: "Sir, are you sure you are not kidding me at this time, if you are not willing to buy these spells at this time, I really am..."

"Don't worry, since I have agreed to your request, I will definitely do everything possible to achieve it. I promised you that if you buy these charms, you will definitely buy them. You don't need to doubt this at all." Li Tian looked at He patted his shoulder: "Well, I still have more important things to deal with, so please wait for me first."

Seeing Li Tian's back, the fat man sighed and stomped his feet: "Damn it, I knew these cyan charms were so difficult to sell here. We shouldn't have bought them back in the past. It's just as if it were going to be stopped in our hands. It's a shame that our big Jubaozhai still has to rely on such means to buy things."

"Manager, what shall we do now, do we really have to wait for this old man to come back?"

"Do we have a better way now?" The fat man glanced at the boy, sighed helplessly, and said, "Sell these three charms by whatever means you can, as long as you don't lose too much. I can still accept it. If it doesn't work, I can only report the matter to the above. I hope they can come up with a better solution at that time."

"I don't think that grandpa is deceiving us, maybe he will really come back and buy these spells."

"I hope it really is like this, but even if he is really deceiving us, we can't do anything, and there is no way. Who said these things are useless in our hands? These idiots in Luoyang City bounty. He doesn't have a position to exert strength in his hands." The fat man said, waving his hand, and said decadently: "Forget it, I'll go back to sleep, and when the old man comes, you will tell me immediately."

"Don't worry, as long as the master also comes, I will definitely inform you as soon as possible, but I don't know how long grandpa will go this time." The boy said with a smile, and then sat down on the side and continued to wait. trip.

Chapter 5279: Snob

After coming out of Jubaozhai, the smile on Li Tian's face was completely unable to restrain.

Originally, one was already a spell with a sky-high price. Now I let myself buy it at such a cheap price. This kind of thing has never happened before. Even Li Tian has to suspect that he is today. Not really lucky.

But in order to avoid the fat man repenting, what he has to do now is to seize the time to go to the guild, take out his bounty, and then take some tasks.

In the next period of time, Li Tian will definitely continue to receive missions to make money to buy some spells. He needs a lot of things to help him in the game, although the mission to hunt down the beasts in Broken Cloud Mountain is no longer there. But besides that, there are other tasks listed on the guild, including some send-off tasks and the like. Time will not be wasted for a long time. Li Tian can just do these tasks.

The only thing he has to do now is to do everything possible to make his pocket full so that he can buy more charms.

After seeing the spells above, Li Tian had almost thought that after using the spells to fight, he might exert a stronger combat power, especially the Imperial Wind. Although it is just a simple red spell, it can be perfectly combined. Li Tian's rechargeable cannons work together, especially the speed of the feather blade itself is also very fast. With the imperial wind technique, Li Tian believes that he may become a real wind, and who will be able to approach in battle. Yourself.

And other spells, if used properly, can also show their original appearance.

The charms themselves are like this, perhaps their own power does not look so gorgeous and powerful, but if they cooperate with the user and complement each other, then the power they exert is beyond the imagination of ordinary people.

Li Tian smiled, unable to help his smile along the way.

Unconsciously, he came to the door of the guild.

At this time, the number of people in the guild seems to be much less than before. After the incident in Broken Cloud Mountain, the tasks here are much less, and many bountyers have no way to continue to receive what they want. The task is important, many people have left Luoyang City, and some people are waiting for the upcoming Tianluozong competition contest.

In addition, many contestants came from other main cities.

We must know that for many people in this kind of trial, no matter whether their strength can really win a streak from above, they have to go up and try it seriously, if they are valued by a certain expert, put them in their hands. Be a direct disciple under the banner of.

I have to say here that although the Tianluo Zong here is holding a competition selection meeting, it is said that if you can get the first place in this trial, you can become a direct disciple under the head.

For the same disciple, the gap between direct disciples and ordinary disciples is definitely different.

After Li Tian knew about this, he was thinking about how to make himself a direct disciple and do his best. Who would want to make himself a crane tail? Besides, a direct disciple can get more resources than ordinary disciples. A lot.

After he watched the guild for a while, not many people said that his eyes fell on the old man.

Most of them set their sights on these tasks and see which one of these tasks suits them. ,

Li Tian came to the task transfer office on one side and glanced at the girl inside: "I'm here to transfer the task."

"Oh, what kind of task is it?"

"I am a survivor who has survived from the Broken Cloud Mountain Range. I came here to hand in that task, but you also know that my current status in Luoyang City is a bit special. I don't know if I can take me privately. , How about deal with this matter?" Li Tian looked at the girl inside with a smile, and said mildly.

The girl looked at Li Tian, looked up and down, and frowned: "But I never remembered that there was an old man like you who participated in that mission."

"Didn't I tell you, I have a special status now. I don't know how many people are looking for me in Luoyang City, so I..."

"Hey, old man, you don't know how many people have used this trick." A middle-aged man suddenly stood up next to him, curled his lips and looked at Li Tian with disdain: "Although I don't know who you are, But before you, there are too many people who want to pretend to be Li Tian, Catherine and others, but none of them can succeed, and do not look at what you are. If it is Li Tian and the others, how could they think of you as old. "

"This matter seems to have nothing to do with you, right?" Li Tian frowned, looked at the young man in front of him, and said impatiently, what does it have to do with him when communicating with this girl?

"I'm just telling you, don't be kidnapped here, if you are Li Tian, I am Catherine, do you think I look like a hot beauty?" He said, while doing graceful and charming The action almost made Li Tian

vomit out all the food in his stomach. He turned his head and did not want to look at the guy in front of him, and continued: "Can you take me there?"

"Sorry, we don't have such rules here. Even if the task is of a special nature, you must do things in accordance with our rules when you hand in the task. If you are disgusting, you can trouble you to change your disposition. Will it be resolved?"

Li Tian sighed helplessly, and then said that his disguise technique had been cancelled.

After watching the man next to him, he immediately laughed: "Hey, hey, I said to you, people asked you to cancel your disguise surgery, what are you doing now, you think you can just pull out a young man, It can really be them."

Li Tian ignored it, but looked at the girl in front of him, and said solemnly: "I am Li Tian, you should know me and take me to a place where no one is."

"Sorry, I don't know you."

"Hahaha, don't look at you like this. If you are really Li Tian, how could you be such a turtle and survive such a dangerous mission? You must be a very strong man. Such a weak young man, in the face of a powerful monster, is probably not qualified to give them teeth." The middle-aged man laughed and said, he was holding his stomach, it seemed that his smiling stomach was hurting.

Chapter 5280: Who do you look like

Li Tian didn't know what to say for a while, looking at the guy in front of him who was holding his stomach and laughing, his face was also a cloud of clouds, and he looked at the girl sitting inside the reception desk with a slightly unhappy expression. She really didn't seem to recognize her identity.

"It's not that difficult to prove your identity. You only need to take out your profound stone and register with us. We will quickly understand your identity. However, this process may be a bit long. After all, this task It is also a very critical and complex task for us. There are many links in the process that need to be consulted in person." The girl showed a sweet smile.

"If it's so troublesome, let's get rid of ours." At this time, Catherine followed Li Tian and looked at him with a smile: "There are many people outside waiting for us to show up, and then They are so good to challenge us. You guy is really big-hearted, and you ran here swayingly. Don't you worry about exposing yourself?"

Li Tian took a look. Mengsk and Xing Jun were behind Catherine. After these two people appeared here, many people immediately turned their eyes on them.

These people need not know Li Tian.

But they have to know Catherine. After all, a few of them are fairly well-known in Luoyang City. Many of these people know their names.

Especially Catherine, such a beautiful woman, who doesn't know?

"If they are willing to trouble me, they can come. Anyway, I don't worry about who can really make me fail." Li Tian looked at Catherine in front of him, the corners of his mouth raised slightly, and he looked at the one next to him. The young man said coldly: "Don't you just say me, don't you look like Li Tian at all, now, who do you look like?"

The middle-aged man has not spoken, but the smile on his face is still embarrassing.

He has also pretended to be Li Tian here before. After all, everyone wants to use their reputations, but not many people can really recognize their celebrities to help them accomplish some things.

This middle-aged man used Li Tian's name to pretend to be here before, but he was directly and very clever to see through.

My mood immediately became very bad. At this moment, I saw Li Tian talking here about what Li Tian he was. I thought this guy was just a liar who came and pretended to be a liar. In order to vent his unhappiness, he was on the side. He started to mock Li Tian frantically, thinking that this little guy could not really be Li Tian, after all, how could a person who can survive that kind of task be so thin?

But who knows, this place is strange.

Who would have thought that the man who survived such a high mortality mission would be such a weak existence.

"Li... Are you really Li Tian?"

"It's like a fake replacement, why? Did he doubt you before?" Catherine said, walking forward and reaching out to put her arms around Li Tian's shoulders, ignoring certain parts of her body and coming into close contact with him. , This action is extremely envious in the eyes of others. As a man, who would not want to have close contact with a hot beauty like Catherine?

But Li Tian had no such idea at all.

Feeling the strange feeling in his body, Li Tian also has a look that he doesn't know what to do now, subconsciously wanting to retreat a bit, but Catherine is firmly grasping his shoulder.

"Is he really Li Tian?"

"This is my profound stone. If there is anything you don't understand, this thing should prove my identity now." Li Tian took the profound stone from his pocket and said to the girl: "Now you can start. Did you help me solve the problem? I do still have important things to do. I don't have time to waste with you here. If I can, I hope I can solve this problem as soon as possible."

The girl was also a little surprised at this time, it was because the man in front of him really didn't look like a soldier at all.

The clothes Li Tian wears looks a little loose, completely covering up his sturdy body, plus his own face looks very ordinary, no one can think of such a young man. What a great strength to show in such a dangerous battle.

"If nothing happens, we now hope that you will disappear from my front immediately. I know what the purpose of you people is, but now there is no time to waste a little bit of time on you little characters." Catherine looked in front of her. The middle-aged man frowned slightly and said unpleasantly: "Otherwise, don't blame me for being rude."

"Captain Catherine's strength is known to many of us. We all know you are great, but I have to test his strength for this kid in front of me. If a guy who participated in the Zongmen trials, If the strength is not as good as that of a small role like me, then it's really better to give up this position." The middle-aged person is unwilling to leave like this.

From the anger and ridicule at the beginning, to the surprise and panic afterwards.

To the present disdain and fighting spirit.

He didn't really put Li Tian in front of him in a fair position at all, and now he still clamored to fight Li Tian, one can imagine how arrogant he is now.

Catherine's face sank, and her tone became a bit solemn at this time: "I gave you a chance before. If you don't know what is good or bad, you can blame us for being polite. We are now preparing to participate in the subsequent trials. Time and mood are wasting time with you here."

Just as Catherine's voice fell, Li Tian shook his head.

"Don't you want me to fight you? I can try it with you, but not now. I have a lot of things to do. If you don't mind, you can come to the City Lord's Mansion to find me at this time tomorrow. At that time, we can find a place for a fair duel, and of course the place can be left to you to choose." There was a touch of determination and excitement in Li Tian's eyes, and there was no slightest worry.

At this time, the middle-aged man also began to feel a little bit at a loss.

However, he calmed down quickly, even if Li Tian in front of him agreed to it, could it be that he really couldn't beat the guy in front of him?
