

A Killer 5441

Chapter 5441: Jealous

Sitting near Li Tian, there was a middle-aged man who seemed to be in his thirties. He held a glass of wine in his hand and looked at him with a smile. He said solemnly: "Many people are rumoring, you just rely on With the strength of Grand Sister Ningbing, there was nothing wrong with it all the way, so that's why they have come to the field where they are today. They all think you are just a bastard."

Li Tian glanced at the young man in front of him and asked, "So what?"

"Don't you care about what these people say about you? How can you say that you made such an effort in this game, but they don't take your hard work in mind at all. You are treated like this? Don't you think it's unfair? It's just because you are by Ning Bing's side and are obscured by her brilliance, so in many people's eyes you are just a bastard." The middle-aged man saw his face. The indifferent expression, it is incredible that someone would not be interested in such a thing at all.

Everyone hopes that they can be respected by others, so that they can prove that they have a meaning in this world.

But this is definitely the first time that a guy like Li Tian has seen it. It has been rejected by so many people, but from Li Tian's eyes, he can only see a very strong indifference and disdain, as if these things are related to himself. There is no relationship, there is no emotion at all, how can you think that this guy is the one who talks about it outside?

"What is meant to be concealed by the brilliance of Master Ningbing? We must know that our friend has also experienced some time in that ancient world, and has already understood part of the affairs of these two people. This guy is always Taking advantage from the master sister's hands, every time there is no direct battle." Another middle-aged man stood up, pointed at Li Tian, and said with a sneer: "This kind of guy now dares to challenge even me. he."

Li Tian looked at the middle-aged man in front of him, snorted very bored, and turned his head to look at Dongfang Yuechu in front of him: "If there is anything that needs my help, please tell me."

"There is really nothing to trouble you. It's just that this time you can qualify for the Junior Heroes Convention. It is quite satisfying for me. After all, I have invested so much in your body, although you are now There hasn't been any upper class yet, but I believe you will become a very powerful spellmaster in the future. When that happens, don't forget it." Dongfang Yuechu said as he stepped forward and whispered: "I know you are now hiding your true identity, but I don't care about these things"

There was a flash of light in Li Tian's eyes, and the murderous aura in his body was almost exposed in that instant.

But thinking that this is a gathering tavern, and there are still so many people watching it, no matter where it is not suitable for him, he directly began to show his strength at this time, and at this time, once he shot, he exposed himself.

"What do you seem to know?"

"Haha, didn't I know that you are a spellmaster? This is enough. If I say that my attitude towards you now makes you feel a little confused, in fact, you don't need to have such thoughts at all, because I'm simply Because you are a spell master, I want to have a good relationship with you. After all, the strength of a spell master in this world is still very terrifying." The Dongfang Yuechu in front of him smiled wryly and glanced at the two next to him. Younger: "If you don't have any questions, just shut your mouth. This is our distinguished guest who gathers in the tavern. Do you think our distinguished guest is someone who is not even qualified to participate in the Junior Heroes Conference?"

"There is no need to explain so much to them. They are willing to spend so much time promoting my affairs. They just feel that when I stand with Ningbing, they are very jealous. Now they are just satisfying their jealous psychology. That's it." Li Tian sneered, he could guess the mood of these guys casually, nothing more than jealousy of his close relationship with Ningbing.

As the so-called confession is a disaster, of course such a thing is not once or twice.

At the beginning of Dongfang Yuechu, it was time to react. It seemed that he hadn't noticed that Li Tian and Ning Bing had a very close relationship, and it was only at this moment that he understood.

He opened his eyes wide, looking at Li Tian in front of him, and asked in a very shocked tone: "You...you just said that you and Master Ningbing..."

"The two of us completed the task together in the ancient world. Originally, I was about to complete the task, but she said that she wanted us to be more famous among these winners, so she chose to use the following Sanxian participating cards Grab them all." Li Tian shrugged, looked at the two middle-aged people next to him, and said calmly: "As for you to say about me here, if this makes you feel a lot more comfortable, then I don't have anything to say, you just need to be happy."

"My God, I have always wanted to see Sister Ningbing, but I have never had a good chance. How long have you been since you even knew Sister Ningbing?" Dongfang Yuechu said. Shi's mentality was about to collapse, and he regretted very much why he didn't choose to become a spellmaster when he was young. Maybe he could stand beside Ningbing now.

Before, I was still wondering why it was just a warm-up match. Li Tian and Ning Bing seemed to have become celebrities. They were talking about it among many guests. Only now do they know that it was the reason.

Li Tian actually followed Ning Bing's side, and the two people worked hand in hand to complete the task of the ancient world. For others, it was indeed only envy, jealousy and hatred.

Therefore, they can only vent all their jealousy on Li Tian, and do everything possible to touch Li Tian, but they never think that Li Tian doesn't care about this matter. They can't affect Li Tian anyway. God, under such circumstances, what other options do they have?

We can only continue to spread rumors like this. Of course, many people will still believe this rumor.

Because Li Tian did not show much of his own strength in this time of the ancient world action, this is obviously an undoubted matter.

Therefore, his strength is indeed puzzled by many people.

Except for a few people, he knew how powerful he was.

Chapter 5442: You will be eliminated

This time, the young hero meeting was more rigorous than before, and Feng Jie of New Moon City can also see the thoughts spent on this young hero meeting.

Even the treasures of my own family were taken out. It is conceivable that the attention paid to this young hero meeting was even greater than many people thought.

However, the day they were originally given to rest was just after Li Tian returned to the Yunji Tavern, he got the news that for some reason, they had to directly start the selection of the top 50 of the Junior Heroes Conference tomorrow.

This news made Li Tian a little bit surprised.

However, the first thought that came to my mind was that Shuiyuezhong should probably do something about this time. Just as Murong Ziqing told him before, this time Shuiyuezhong's actions seemed to take some time. There must be a reason why Feng Jie held the top 50 competition of this young hero meeting in advance, and the most likely reason for this is that Shui Yuezhong will act in advance.

'Are they really going to act in advance at this time? Could it be that the opening time of Dongtianfudi also changed this time, so they could only subconsciously choose to adjust their time? There were a lot of unexpected thoughts in Li Tian's mind, but he didn't just think that tomorrow's game might fail. Although the time change this time, Li Tian was really caught off guard.

But it just made him feel that there will be a little impact when facing Dongtianfudi in the future. As for the game, Li Tian is very confident in his own strength. He believes that he can win a perfect match in this game. Achievement.

At least Yunducaos must be taken down by Li Tian.

During this period of free space, his spiritual power may have become a very powerful one among the young people of the gods, but his realm itself has not changed in any way. In order to cover up this embarrassing phenomenon, What he has to do is to make his own strength as fast as possible, so that others will not guess something when facing Li Tian.

Forging gods, even though they are from the ancient times, there are already more old monsters in this ***** realm. I don't know how many. If you really encounter someone who can tell that Li Tian has cultivated his soul, At that time, it will be his trouble. When he encounters such a guy, he will do everything possible to arrest Li Tian, and then he will be tortured, knowing how to cultivate the soul from his hands.

In order to avoid such a situation, he now has higher requirements for his growth rate.

However, with the improvement of strength little by little, it is not so easy to continue to leapfrog the challenge.

Although he is still in divine cultivation, and in the same realm, he is already an invincible existence, but when facing a master in the divine realm, he can only face a one-star opponent in the

divine realm. Once this limit is surpassed, even Li Tian cannot guarantee that he can defeat the enemy in front of him. This is the gap.

The power of the soul is certainly powerful, but as time goes by little by little, the gap that this powerful force can bring is no longer visible in battle.

For example, the current divine emperor, they relied on their own strength to enter the realm of the divine emperor, but if you want to speak seriously, at the realm of the divine king and divine emperor, they seem to be not much different from their opponents in the same realm. Their strength is more refined, and their staying power is very strong.

When I got there, I wanted to continue to leapfrog like Li Tian, basically just joking.

It is precisely because of this that Li Tian will do everything possible to speed up the improvement of his own strength. This is because the gap will not be so obvious. Who knows that as a Sanxian, even his own soul I've been cultivating, and it's obviously meaningless to discover all this when I'm fighting.

Dongfang Yuechu was in Li Tian's room at this time. This guy has never been able to recover from the previous things, and has been unwilling to believe that Li Tian actually saw Ningbing.

"I really don't know how to describe this thing. Even now, I am a little envious of you. I was able to see Master Ningbing, and also completed the mission of the ancient world with Miss Ningbing. It's something that many people dream of, but it seems to you to be a very common thing." Dongfang Yuechu looked at Li Tian who was sitting on her bed with her eyes closed, as if she was practicing, and said a little unwillingly.

"Even though Ningbing is beautiful, she is also an individual, but all individuals will have friends, and they also need emotional communication. Is there any problem with me and Ningbing becoming good friends?"

"Of course there is a problem. You are very likely to be eliminated right now." Dongfang Yuechu looked at Li Tian's indifferent expression, knowing that this guy hadn't paid attention to the future Youth Hero Conference at all, but was purely about himself. I feel very satisfied with my current state, but I don't know that this kind of mentality is very dangerous: "Since you are close to Master Ningbing, then you must be embarrassed by Fengjie's two sons?"

"They really want to keep me away from Ningbing, but if I will agree to this Ang's request, am I still me?" Li Tianxiao laughed, looking at Dongfang Yuechu in front of him, and said lightly: "You are not counted as I know me very much, but I also know that I have my own principles in everything I do. When I can't retreat, let alone the son of the lord of the city, even the son of the **** emperor has no effect in front of me."

Looking at the rampant Li Tian in front of him, Dongfang Yuechu was muttering in his heart at this moment: "This kid's courage is definitely the most terrifying among so many people I have ever seen. He is so young that he dares to exist like a **** emperor. It's a challenge. If you tell them to know this, won't they do everything possible to get rid of Li Tian in front of them? '

"If there is no problem, I am going to rest, and then I have to deal with tomorrow's top 50 challenge." Li Tian glanced at Dongfang Yuechu who was still in his room and said impatiently.

"Well, well, I will leave now, and leave now." Seeing the impatientness in Li Tian's eyes, Dongfang Yuechu of course would not stay here anymore.

Chapter 5443: Sky Dojo

In addition to floating in the air, the New Moon City is the only main city in the entire God Realm that floats in the air, and there is another thing that many people yearn for and worship.

That is where every young hero meeting is held.

Sky Dojo!

It is said that this dojo has a long history. It was created by people with great supernatural powers at the beginning of the birth of the universe. It was used to cultivate and create mortals. It is located in the thirty-third heaven of the ninety-nine heaven of the gods. , It can be regarded as a very high altitude, and fighting here, there will be no worries at all, as long as it is not enough to destroy the entire universe, it is impossible to affect the ground here.

And this sky dojo was also accidentally discovered by a previous **** emperor during a battle.

When he saw the ruined appearance of this dojo, but felt an aura that made him tremble here, he knew that it must be a very interesting place, so he left to open up a teleportation formation, and then explored After a while, it was determined that the builder here was a very terrifying existence, but after they were so old that they could not trace the identity of the creator, they directly connected the teleportation burst to the city of the new moon.

What's interesting is that the several lord of the new moon city came down one after another, and slowly changed this dojo into a martial arts field, just because the anti-strike ability of this dojo is really strong, and there will be a self-formed one here. Enchantment, even the power of the **** emperor can't break through the enchantment here, and can only close or open this enchantment by relying on the internal control switch.

Naturally, this became the symbol of Crescent City.

It's a pity that although the scale of the Ten Cities Conference is strict, each time it will be held in ten different main cities in turn. There have been many wars in the New Moon City before. At that time, the number of spectators in the New Moon City was OK. Said to be more than any major city.

Although the sky dojo cannot accommodate so many people, through the means of several city lords, everything that happens here can be projected to the crescent moon through a magic circle built by something called a 'phantom sky crystal' City, just like the video equipment on the earth, although they can't go to the Sky Dojo, they can feel the shock like a live broadcast in the prepared hall of the New Moon City.

Therefore, New Moon City has the largest audience every year.

Early in the morning of the next day, when Li Tian was invited and came to the main city guild again, there were not so many people here. These people standing in twos and threes all had unruly expressions on their faces, since they Being able to win in this warm-up match naturally has the corresponding strength, and everyone has considerable confidence in their own strength.

They are standing here, one by one, just like roosters in battle, and they can only see what they are paying attention to. As for other people, perhaps they are just passing clouds in their eyes.

Li Tian is very careful to observe these people. Although the number of people here is not very large, but among these people, you can still feel the ones who are really powerful.

At this time, a young girl came over, looked at Li Tian with a smile, and said, "It seems that you are very interested in these people."

"In this game, I might play against one of them. At this time, of course, I have to carefully observe what is different about each of them. The so-called knowing oneself and the other can win every battle, should I do it? What's wrong with this?" Li Tian smiled and turned around, looking at the young girl in front of him, and asked with a smile.

"Of course there is nothing wrong with what you did. It's just that I'm curious that everyone is saying that you are only standing here by Ningbing. Doesn't it make sense for you to observe these people here at this time? Anyway. No matter what kind of opponent you meet at one time, it is just a failure. Do you still think that you can be promoted?" She looked at Li Tian with curious eyes.

Many people would be curious about the man in front of him.

Anyone who participated in this competition all had his own identity and origin, but Mu Zitian, who was in front of him, seemed to appear out of thin air. Many people inquired everywhere, but they couldn't know his past.

So many people also know that this may be a hidden name at all.

But at this young hero meeting, there are really not many people who will pursue this issue. They can't let Feng outstanding face, let Li Tian surrender his profound stone, in order to investigate his identity. ?

Although such a thing is not impossible, but the probability is very small.

Feng Jie is the lord of New Moon City, and the rules this time are also the rules of their Youth Hero Conference. There is no doubt about the identity of any contestant.

Even Fengjie couldn't really come over and ask what Li Tian's past identity was.

"It may be like this, but even if you know that you are about to fail, will you give up the idea of continuing to struggle? Even if I really don't have such strength, I will still finish my game seriously. Only in this way can I be considered a player strictly speaking." Li Tian smiled wryly and said, looking at the young girl in front of him.

At this time, he had seen Ningbing slowly walking in in the distance, and smiled immediately: "I hope I won't meet you in this game, I'm leaving."

"I don't think you will meet me, if you meet me, I can give you a mind, surrender immediately, you really can't beat me." The girl looked at Li Tian with curiosity in her eyes The heart became stronger, but he still said seriously: "If you have to choose to fight with me, I may make you miserable, but you are a very interesting guy to me, so I don't want you to be like this. "

"Hehe, if that's the case, then I really want to pray, don't encounter a terrible opponent like you in the next game." Li Tian smiled helplessly and looked at him. The girl who said, turned and left.

The remaining girl stood alone, sticking out her tongue, and licking her red lips: "I don't know, is this kind of blood tasteful?"

Chapter 5444: Attack

The moment Ningbing entered the main city guild, you could feel everyone holding their breath at this moment, watching this beautiful angel like an angel walk past them in front of them, and then stand in front of them. The center of the city guild frowned.

In the distance, Feng Tianling and Feng Tianxiang both saw Ningbing.

But these two people have become a lot smarter this time. They also know that the relationship between Ning Bing and Li Tian is very close now, and the relationship between the two of them and Li Tian is not very good, so this time they went to find Ning Bing is no different from sticking to a cold **** on a hot face.

"Big Brother, could your best Li Tian win this time?"

"On the rules laid down by my father, only truly outstanding people can be promoted. This kid may really have some strength, but he is only a little capable. We have already tried this guy in the ancient world, he 'S strength may be good, but it will definitely not be very strong." Feng Tianling squinted and looked at Li Tian, who was slowly approaching Ningbing in the distance, and immediately snorted: "If I have a chance, I can meet this guy. Will make him regret being our enemy."

"I think so too. If he meets me, I will let him know what is better than death."

Slowly, the expressions in the two people's eyes were full of hatred, looking at Li Tian as if looking at his ten thousand years enemy.

On the other side, Li Tian only felt a chill in his back, but it did not affect his movements. He still walked very firmly, and then quickly came to Ning Bing's face and said with a smile: " Back to the sect, is there any clue?"

"Master told me, don't think so much. I am the master sister of Shuiyuezhong. Few people in this realm of God would choose to take action against me. Fan Hong would definitely do it because of grievances with me. She has the mentality of perishing together." Ning Bing glanced at Li Tian and saw that there was no one else around the two of them. Then she whispered: "I have said all the causes and consequences of the matter, but the master still made me forget this. thing."

After listening to Li Tian, he understood more or less that Shuiyuezhong's suzerain was still very worried at this time that she would know what she remembered through this incident.

Ningbing's experience is completely different from that of many Shuiyue Sect people. Although she can't remember what happened before, she knows that she has amnesia. Therefore, the Sect Master of Shuiyue Sect can only choose to use a lie to make Ningbing. Believing in the fact that she has lost her memory, and it is impossible to recall it, what she has to do in this way is to do everything possible to prevent Ningbing from contacting everything that happened in the past.

Even an idiot knew that Fan Hong's attack on Ningbing in the ancient world was a premeditated action, but she didn't let Ningbing investigate it because of this reason.

"Maybe your master has his own thoughts, and none of us can be sure what his thoughts are now, but I think this man behind the scenes must be found out. After all, the two of us know best what happened. Every detail." Li Tian sighed helplessly, and now it is impossible for him to directly slander the Sect Master of Shuiyue Sect.

After all, that was Ning Bing's master. When Ning Bing didn't completely believe in Li Tian, he said this, and he could only make the relationship between Ning Bing and himself become more and more rusty.

Li Tian is not a fool, so he naturally knows how to save the country with curves.

Although she didn't tell Ningbing about her master, what she had to do now was to keep secret the secret action of the two of them, so that the Sect Master of Shuiyue Sect did not know what they were going to do.

"I think so too. Even if the master does not let me investigate, I still can't tolerate someone secretly preparing to murder me. This time I will investigate the matter clearly." Ning Bing nodded seriously and looked at Li. day.

"If this is the case, any thing we do next must be done very secretly, to avoid being known by your master, and it will be troublesome then." Li Tian shrugged and said with a smile "I will help you catch the man behind the scenes. I also want to know what the man behind the scenes is. My instinct tells me that his relationship with me is also very bad."

The two of them are chatting here, but in the eyes of many people, they are almost envious of Li Tian.

It is estimated that only this man who does not know the blessing that he has cultivated for several lifetimes can see such a close chat next to the rumored beauty. Looking at the casual expression on Li Tian's face, many people's hearts are bleeding. .

But they didn't choose to get close. They all knew the temper and character of Grand Sister Ningbing. Of course, they would not take the initiative to run forward, making this Grand Sister hate them.

When everyone turned their eyes on the two of them, they saw a middle-aged man in a Chinese suit appeared in front of them and said in a very magnetic voice: "Everyone, you should also take you at this time. The game is about to start soon."

Li Tian and Ning Bing looked at each other, and then their eyes fell on the middle-aged man.

This middle-aged man looks very generous. Although he may not have much strength, he has a very confident feeling. Standing here makes you have a strong affection for this middle-aged man.

"This person is very famous in New Moon City. Don't look at his strength, but his connections are definitely unique in the God Realm. If this person is threatened by someone, there will definitely be many strong people. Standing up, there may even be a strong person at the Divine Emperor level standing up." Ning Bing saw the curiosity on Li Tian's face and explained in a low voice.

"Everyone must be waiting for the next game, so here I will tell you for the time being, this time the game is not to use the past draw method, but to use the way of confrontation, so as to avoid some people who are not strong enough. , Rely on luck to continue to promote." When the middle-aged said this, his eyes did not look at Li Tian, but there were many contestants who all stared at Li Tian at this time.

Their meaning is very clear, that is, Li Tian in front of him was promoted by luck.

However, the rules of this competition still surprised many of them.

It turned out to be a method of confrontation and attack, which was never used before.

Chapter 5445: competition rules

After everyone heard the use of the ring to determine the promotion this time, the first thought was to set their eyes on Li Tian.

Among these people, whoever this rule has the most influence is undoubtedly Li Tian.

The so-called attacking ring is actually a very simple rule, that is, one person acts as the master of the ring, and then faces the challenge of the next opponent, so that after defeating a certain number of opponents one after another, you can naturally successfully advance to the next. In the game, of course, this method is also a test of a person's strength and thinking. If too much time is spent in the battle, then there will be no peak state in the next battle.

In this way, if you want to pass such a game, you must have very outstanding strength among these people, otherwise you will not be able to persist in front of them.

"I believe you are already looking forward to the next battle. The same is true for me and you. The next battle is bound to be very interesting." At this time, the middle-aged man looked at the expressions of the following contestants. After a short period of schadenfreude, people slowly became serious, because they thought about it carefully, this rule is not for one or two people.

But for all of them.

If you are unlucky, there may be no way to be promoted to the final winner.

A hundred people looked at each other, and they all saw a solemn look in the eyes of the contestants next to each other.

Standing in the original position, Li Tian said lightly: "This match is a challenge for everyone. It is not that simple to stick to the ring and pass the match."

"That's their purpose. This warm-up match has taken up a long time, and there is not much time to prepare for the next Ten City Tournament. Therefore, in this match, the time of the match should be shortened as much as possible. It's good to catch up with the next Ten Cities Conference." Ning Bing glanced at Li Tian in front of him, and said solemnly: "In order to succeed in this game, Master is ready to let the three winners come to us. Cultivating in the Houshan Cave of Shuiyue Sect in the heavenly blessed land, with the help of Yundu Grass, it may make a big breakthrough in a very short time."

After Li Tian listened, the light in his eyes became interesting.

Although I knew that Shuiyuezhong had made great sacrifices for this game, I couldn't imagine that they would do it this way. Even places like Houshandong Tianfudi that never allow outsiders to approach are open like this. Up.

It can be seen that in this game, they really have lost their money.

However, Li Tian knew that this had nothing to do with this match. They were just so nervous about making the match time this time so tight because of something that happened in the world.

It's a pity that he still has to participate in this young hero meeting. Otherwise, he must leave New Moon City at this time and go to the place Murong Ziqing said, and take a closer look at what

happened over there. Yuezong became so tense up and down, and the original orderly arrangements were all disrupted at once. It must be because of a big problem in Dongtianfudi.

Seeing the expression of approval on Ning Bing's face at this time, it was obvious that he did not know the inside story.

"By the way, you are in Shuiyue Sect. Did you know that there is a woman named Murong Ziqing?" Li Tian turned his head to look at Ningbing while listening to the middle-aged man on the ring speaking the rules, suddenly remembered Ningbing might know if Murong Ziqing is a member of Shuiyue Sect.

"I have seen people from the Shuiyue Sect, but I only heard about the person you mentioned from Master. It is said that she was imprisoned in the back mountain forbidden area of our Shuiyue Sect because she violated the rules of our Shuiyue Sect. It's been a long time, and I have never left there." Ning Bing thought for a while, and said in a low voice, "This matter is rarely known in Shuiyue Sect. You'd better not spread it lightly."

Li Tian finally breathed a sigh of relief after listening, but then he raised his heart again.

If Murong Ziqing has been confined in the forbidden area of Shuiyue Sect for a long time, then who is Murong Ziqing that he saw in Broken Cloud Mountain Range before? Who is the Murong Ziqing that I saw yesterday?

Could it be that the other party pretended to be Murong Ziqing to deceive himself?

This thought flashed through his mind. If it was really like that, he could completely fabricate another person's identity. Why use the name Murong Ziqing as a guise.

In this way, after I knew Murong Ziqing's true identity, wouldn't it be directly exposed?

"What's wrong, what's the matter with you?" Ning Bing has been observing Li Tian all the time. Before, there was some curiosity about why he suddenly asked why Murong Ziqing had come, and he probably didn't know that this talent was right. Looking at Li Tian suspiciously.

Li Tian hurriedly smiled and shook his head, and said, "It's just that I have heard some rumors about her before, but I have never seen her in person, so I am a little bit curious."

"I advise you not to have any crooked brains, and you'd better not intervene in some things." Ning Bing looked at the expression on Li Tian's face, then frowned, and said seriously.

Li Tian smiled, and said nothing.

On the other side, the middle-aged man has almost clarified the rules of the game this time.

In principle, this match will be divided into four groups, and start this match in the four arenas respectively. Every defender must ensure that he has defeated the six attackers so that he can enter easily. In the next round of battle.

And if the defender does not persist, then he will be eliminated directly, and the attacker will be transformed into a defender, but five attackers need to be defeated to be counted as a promotion.

This method is very common, but it is definitely very effective.

This may be a very difficult battle for everyone. Relying on their own strength to defeat five or six people, this must be to completely crush the opponent in their strength, and can be very It can only

be completed when the battle ends quickly. Otherwise, if you want to face five or six people and win the wheel battle, it is just like joking.

Chapter 5446: Grouping

After each team has selected the final winner, the second round of battle will begin.

Of course, this second round of battle must be held tomorrow.

Just today, it may be an unimaginable consumption for many people. One person faces five or six challengers. This kind of idea is probably only those high-ranking city masters can think of.

"In this way, each of us will have to face the challenges of many people. Isn't this unfair to us? If it's just a one-to-one battle, we can completely win."

"If you feel that there is something unfair in this competition, you can choose not to participate in this competition, but if you want us to change the rules, it will definitely not work." The middle-aged man glanced at the contestants below with a very attitude. He is tough, and there is no room for maneuver: "The order I received is like this, so whether you are willing or unwilling, now you can only slowly accept this condition."

From a distance, Feng Tianling sneered: "It's just to deal with six attackers. If you are really strong, you will take these small things to heart? The reason why you ask for fairness here is nothing but It's just that your current strength is far from enough. You can't believe that you can face so many opponents alone."

The expression on Sanxian's face was a bit embarrassing. He really felt that he had no chance of winning in such a battle, so he stood up and said that this game was not fair at all.

After Feng Tianling said this, many people couldn't hide the embarrassment on their faces.

Li Tian, on the contrary, did not regard this matter as a very serious issue. Although it also affected him to a certain extent this time, he believed in his combat effectiveness and it was not very difficult to stand out from these people. The problem, I just hope that you never encounter opponents like Ning Bing or Feng Tianling. If you really encounter them, then the battle may be very difficult.

His continuous combat ability is indeed very powerful, but no matter how strong it is, it is impossible to maintain the same combat effectiveness in front of so many opponents.

Especially after playing against an opponent of Feng Tianling's level, the consumption of Li Tian must be very huge. They may not be as simple as they imagined if they want to continue to face the challenger.

"If you don't have strong strength, it would be really difficult to successfully pass this game. Do you have confidence in yourself?" Ning Bing glanced at Li Tian beside him, with a touch of faintness hanging on the corner of his mouth. With a smile on his face, he asked seriously: "Even I feel that such a battle may be difficult to stick to. If an unfortunate opponent is very powerful, then the next battle may simply fail."

"This kind of game mode does have a certain degree of influence on me, but if I think that I have no hope, then even if I fail, there is nothing to say." Li Tian smiled slightly and the rules of the game are right. It is very difficult for most people. They want to stand out among so many people, of course, they have to put in considerable strength and sweat.

He knows very well that when facing some people, he will consume a large part of his immortal power. Of course, this still depends on his luck. If the opponent is not as strong as he imagined, then for Li Tian, the situation It will be much simpler than before.

Seeing these people in the audience have been discussing quietly, the middle-aged people didn't say anything, just waited quietly.

As time went by, these people gradually calmed down, because they had at least determined one thing. No matter how noisy they are, the rules of this game will definitely not change. of.

This time, New Moon City was determined to use such a rule, even if all of them said that the game was unfair this time, they would not say that this rule was changed.

After seeing this clearly, many people have given up struggling.

Now that everything is doomed, it is obviously meaningless for them to continue to talk so much here.

"It seems that you probably also know it now. The rules of this game are completely set. There will be no change at all because of your willingness or unwillingness." The middle-aged man smiled and slowly walked forward: "For you, you are very lucky to be able to participate in this young hero meeting. I don't know how many people want to participate in this game, but they have all been eliminated in the warm-up match."

At this time, many people still have their eyes on Li Tian and Ning Bing.

If the most frightening names in this warm-up match, it is undoubtedly the two people in front of them. Many people did not have time to act from the beginning to the end, but somehow they were promoted directly.

The reason is also very simple. Ning Bing and Li Tian eliminated people so fast that many people did not reach the average value of one hundred yuan, and then they became only one hundred people left. One of them.

They are actually very fortunate to have the light of these two people, so they can stand here so easily.

Li Tian squinted his eyes and whispered: "It seems that our two simple actions this time have seriously disrupted the balance of this match. Therefore, we will use this method of survival of the fittest in the shortest time. I eliminated all those guys who were not strong enough and came along by luck in a short period of time. I thought they were just targeting me."

"Do you really think that you have such a big weight here? There are too many contestants in this competition. Who would really put his mind on you alone." Ning Bing gave Li Tian angrily. , If anyone should pay attention to Li Tian, wouldn't it be so busy every day? News is happening on this guy all the time. Who can pay attention to it?

Li Tiansan smiled wryly, looking at the contestants with solemn expressions, and then moving their necks, how can he not reveal his true identity in this competition? This is what he needs to consider.

Chapter 5447: I'm dead?

Crescent City:

City Lord's Mansion:

In Feng Jie's study, he squinted at a document in his hand, and the expression on his face became more and more serious: "When is this?"

"Probably it was a few days ago. This is a new statement issued in response to the previous wanted order, and the general meaning is like the statement above." Standing in front of Feng Jie, yes A very young immortal, wearing a black profound armor, with a gleam in his eyes, he should be a character who often fumbles in battle.

"What exactly is Luoyang City doing this time? The previous wanted order made the entire God Realm seething. Now they say that they have killed Li Tian and announce the entire God Realm?" Feng Jie looked at the young fairy in front of him. He clenched his fist, then stood up slowly, with a serious expression: "The things Li Tian did in Luoyang City have proved that this young man is a very dangerous existence."

"It's not wrong. Of course, such a very dangerous role must be eliminated as quickly as possible, but there is another factor in it that none of us thought of, and that is the Zhuge family."

"Does this matter have anything to do with Zhuge's family?" Feng Jie frowned, put down the documents in his hand, stood up to the window, and asked faintly: "I remember that Zhuge's family never seemed to have Have you been in touch with things in Luoyang City, how can someone from the Zhuge family participate in this matter this time, and they are also related to Li Tian?"

"There is a branch of the Zhuge family, with a memorial bell in his hand, he lost to Li Tian in the trials of Luoyang City, and he has a very good relationship with Li Tian, although this did not appear on the surface afterwards. The two people communicated more clearly, but I thought that Dongfang Shuo would make such a decision once, probably because Zhuge's family exerted pressure."

"But why did the Zhuge family choose to exert pressure at this time? Why didn't they do anything when the wanted order was issued before?" Feng Jie touched his chin, carefully pondering: "Can you say that now? Li Tian is participating in a relatively large competition in a certain part of the world, and it may reveal his identity, so..."

"So the Zhuge family chose to let Dongfang Shuo say that Li Tian is dead at this time, so that Li Tian who is still alive can stand up and show his identity. After all, no one can prove his identity." The young fairy At this time, it suddenly became clear that the expressions of the two people all solidified, because they thought of a common person.

Feng Jie hadn't noticed anything before, but after this happened, he was very surprised to discover that the previous Mu Zitian seemed to look similar to Li Tian.

"Mu Zitian? Ha ha, it's no wonder that I haven't been able to find out what the identity of this young man is before. It turns out that his real identity is Li Tian." Feng Jie found some clues from Li Tian's pseudonym. I thought that the guy who had done something like that in Luoyang City would actually come to their New Moon City, and they still participated in their competition this time.

It is hard to imagine how terrifying this young man's courage has reached, and he has the courage to do such a thing.

"My Lord, what shall we do now, since this kid is so dangerous, should we also do something to avoid accidents." The young fairy didn't feel very surprised when he saw the solemn expression on Feng Jie's face, Li These things God did enough to prove that this guy is a very dangerous

existence, equivalent to a time bomb, if it can't be dealt with in time, it may bring a huge explosion to the New Moon City.

"What can we do? Zhuge's family has taken action to protect Li Tian at this time. Can we still choose to fight against them? I think it's better to let it go. It can only be regarded as nothing happened.

On the other side, Li Tian didn't know what happened here.

In the entire New Moon City, the only people who know Li Tian's identity are Ning Bing in front of him, You'er and Murong Ziqing before. Obviously these people have not yet received the news, or that they have not had enough suitable opportunities. You can tell Li Tian the news.

Therefore, Li Tian still has a very headache now, how can he change the current situation.

He thought that after revealing his identity in this game, he would be targeted by people from the entire God Realm, so at this time, he was all full of thoughts about how to change this situation.

"Since the rules have been told to you, now we must be ready to start this competition. Everyone is ready to draw lots here. The numbers above represent your groupings this time."

As the middle-aged man's voice fell, he saw many lovely girls coming out from one side, holding some boxes in their hands, and then coming to them one by one.

Li Tian reached out and took out a card from Li Tian. The number on it was 2.

Ningbing took out a card from the box, and the number on it was 1.

Seeing this, Li Tian eased a lot: "It seems that I and you are not in the same group. This is still a lucky thing for me. If I were to fight with you, I really don't know what to do. Yeah!"

Ning Bing smiled, and didn't answer anything.

And at this time, many have determined their own groupings, and there are no people in Li Tian's group that he is more worried about.

Feng Tianling, Feng Tianxiang, Ning Bing, and Li Tian are in four different groups. He is not sure if someone in this group is doing tricks in secret, but it is probably impossible to think about it, after all. They are all drawn randomly, and they can only say that their luck is like this. If you insist on saying that there is something shady in it, there is not much credibility.

Ningbing said: "There will be many lounges in the sky dojo. I will be waiting for you there. I hope you will not be eliminated like this."

"I hope so, as long as I don't encounter a difficult opponent, I don't think there will be any big problems." Li Tian said implicitly, although from now on, there is no one among the hundred people. What a terrible opponent, but who knows if Cheng Yaojin will suddenly jump out?

Chapter 5448: Imperial city pk

The next time is for everyone to start preparing. After all, they are going to the Sky Dojo to participate in this young hero meeting, and in order to show how much they value this game, the entire game process will be passed through the magic sky. Jing relayed to the ground.

In such a game, everyone will definitely spare no effort to show their full strength, even if they fail, they must let others know that their failure is glorious.

According to the grouping of each person, they quickly divided into three groups.

There are 25 people in a group. Li Tian stood by the 2 groups and found that many people were looking at him. They looked at Li Tian as if they were looking at their own prey, and they all smiled. Very weird.

"Hey, the kid didn't expect that we would end up in the same position." At this time, the woman who was talking to Li Tian appeared in front of him again, smiling and saying, "It's a pity, I don't want to fight against you, I want to see how far you can continue to go with luck!"

"I also don't want to face a master like you. This will make it difficult for me to deal with it. Fortunately, there are 23 people here. Maybe we two will never meet again." Li Tiansan smiled. Laughing, he looked shy, but he didn't take it seriously. As long as the battle this time was not so difficult, he would basically not show his full form.

Once the entire form of oneself bursts out, the final result is to expose one's identity, and may soon become the enemy of the entire Crescent City.

He still doesn't know that Luoyang City's approval text began to spread throughout the God Realm not long after he left the Yunji Tavern, and now many people know that Li Tian is dead.

"I haven't introduced myself before. My name is Jinlinger. It's also the enemy you'd better pray not to meet in this game." She smiled, squinted and looked cute. Look like.

I don't know why. Although the Jin Linger in front of him looks cute, there is a strange feeling of palpitations in Li Tian's heart. This situation has not happened for a long time. The situation can only prove that the opponent in front of you is very dangerous. If you want to defeat such an opponent, you must be very careful and not make a small mistake.

So Li Tian really didn't want to fight with the girl in front of him, at least under this kind of rules, if he collided with this girl, it would definitely not be a good thing.

In the case of wheel warfare, it is easy to appear when one side is exhausted and the other side is in peak state. Therefore, if you want to be promoted, you have to face a very weak opponent with lightning speed. Conquer the opponent and wait until you encounter a strong enemy, so that a part of the power may be left to confront.

Many people probably have the same idea, to get rid of their opponents as quickly as possible.

But there are not many people who can really do this. How can you say that the people who participated in this young hero meeting are not very weak, and those who come in by luck from the warm-up match are only very small. Part of this part of the people will not really affect the pattern of the entire game.

"I hope we are not so unlucky." Jin Linger looked into Li Tian's eyes, and didn't know what the girl was thinking about now, and then turned around and left after saying a word.

Li Tian was left alone, squinting his eyes, and exhaling deeply: "I hope I never encounter such an opponent. Such an opponent is just as difficult for me."

"Huh? Are you kidding me, I'm afraid everyone here is a very difficult role for you, it's impossible for a kid like you to stand without relying on Master Ningbing." Here." A man next to Li Tian looked at Li Tian in front of him, sneered, and said disdainfully: "I advise you to withdraw from this game as soon as possible, so as not to be ashamed of it. The one who wins by luck. , It should be you guy."

An impatient look flashed in Li Tian's eyes. He looked at the man in front of him indifferently, his voice also had some bitter chills: "Do you know that your voice is just a little noisy?"

"what did you say?"

"What are you doing? The game is about to begin. If you want to fight, go to the ring to fight. What is it doing here?" A middle-aged man in charge of order management saw the two people quarreling here, vaguely I had to do something in between, rushed over and said solemnly: "When you feel better on the ring, what can you do here?"

Li Tian snorted, did not say anything, but followed the team towards the teleportation formation behind the main city guild.

This teleportation formation is generally not opened, and there are many strong people to protect it at any time. Although it is opened this time, the defense inside is still very strict.

After all, the Sky Dojo is a legacy of powerful characters, and it is also a landmark building in the City of New Moon, so every city lord takes this seriously.

Li Tian stood in the middle of the team, and the man who had spoken before followed behind him.

A group of people slowly approached the teleportation circle, and then stepped in.

At that moment, Li Tian felt like he had stepped on the empty foot, and his body felt very weightless. When he opened his eyes, he had already appeared in a super large yard that looked like a training place. Among them, in this courtyard, you can see many arenas, and row upon row of houses lined up on both sides, the scale is huge, like a sect place.

It is not difficult to judge from this, this should be the legendary sky dojo.

It is indeed a landmark building in the City of the Crescent Moon, and the magnificence of the City in the Sky, even Li Tian doesn't know how to describe it. Everything here has exceeded the standard that human language can describe.

Any words here are eclipsed.

He blurted out and whispered: "This is probably the so-called imperial city PK. The winner is king!"

Chapter 5449: Head line

The second group is all assembled here, and the other three groups are near the other three arenas.

The area of the ring in front of Li Tian is very large, about 500 square meters, which is very spacious, and around this ring you can see that there are many unknown stones on the ground, all of which exude some strange energy. , These strange energies are fully intertwined to form a faint white barrier. When there is no immortal power fluctuation on your body, you can easily pass through this barrier, but if there is immortal on your body If the force fluctuates, this barrier will naturally block everything about you.

This is also the distance from the operation of this barrier, isolating everything that fluctuates with immortal power. Naturally, the air currents and energy turbulence generated by their battles are also impossible to pass through this barrier.

Li Tian stood on the side of the ring, with a more or less serious expression on his face.

And these contestants standing next to him did not mean to underestimate Li Tian. The ring in front of them should be a dream for them. Before countless strong men stood here to fight, now it is finally round. To them.

Many people all squatted down at this time and stroked the stone bricks on the ground with their hands, as if they wanted to feel the sense of distant history.

Li Tian also closed his eyes, and slowly entered the realm where the heart is still water, and the connection with everything around him became more intimate. Everything here is like a living existence, seeming to tell a very ancient These sounds were reverberating in Li Tian's mind, but it was a pity that he could not understand the meaning of these sounds.

Just when he wanted to remember all these voices, everything here disappeared and the world became quiet again.

No matter how Li Tian listens carefully, the final result is still meaningless.

He sighed helplessly, although he was unwilling, but he could only give up.

At this time, many people had already stood up, standing in front of them a few old men, one by one seemed to be kind, but no one dared to be presumptuous in front of these old men.

The New Moon City has many powerful people who are so powerful that they can't be described. These powerful people have always been controlled by the city lord of the New Moon City, and their rewards can be cultivated here.

No one knows what kind of effect the sky cultivator will have, but seeing that these elders are all willing to come here to practice, it can naturally be seen that cultivating here should be of great help.

Li Tian looked at the elders in front of him, but he did not dare to talk nonsense, and even worried that his identity would be exposed.

Their aura is more terrifying than Murong Ziqing, just like a bottomless abyss, standing in front of Li Tian does not need to make any expressions to make him understand that these old men in front of him should be The existence that can't easily provoke.

"Since you are standing here, it means that you have a good understanding of the rules of the game, and there is no problem. We will assume that you agree with us for the time being." An old man headed said calmly, his eyes on The 25 people swept over the body bit by bit, but took another look at Li Tian's body, and I didn't know if it was intentional or unintentional.

When the old man's eyes paused on his body for a few seconds, Li Tian could feel sweat permeating his forehead.

This kind of tension is definitely unique.

"Since you already know the rules and have agreed to the rules this time, now I will choose one of you to be the first challenger." When the old man spoke, a sly face appeared on his face. Smile.

Li Tian was the first to feel cold all over, as if he had been targeted.

Sure enough, before Li Tian said anything, the old man pointed his finger at Li Tian: "You, as the first challenger of this competition, as long as you can face the six attackers without losing, you can be promoted."

"Do I want the first one?"

"Well, you are the first one. Don't think about arguing with us. Since we have chosen to be you, even if Feng Jie comes, it will not be possible for us to change our minds." The old man seemed to see through Li Tian completely. He didn't need to open his mouth. The old man himself said all Li Tian wanted to say: "Now stand on the ring obediently, waiting for your challenger."

Li Tian shrugged his shoulders helplessly. Although the head line wasn't very good, it didn't matter.

If you are left behind, you are likely to face a tougher opponent. Now because of the various options of the attackers, there is a high chance that Li Tian's opponent will be weak, which is not a bad thing.

Many people have seen through this. Although they are not convinced, they dare not say anything.

These elders seem to be kind and purposeful, but they are actually very tough. From their explanation with Li Tian, it can be seen that wanting to talk to these elders is basically the most stupid choice.

After Li Tian stood honestly on the ring, waiting for the attackers to appear.

At this time, the old man began to chant a spell. In the next second, countless small drops of water appeared in the air. He looked at the contestants in front of him and said: "These small drops of water represent your next stage. In order, you may become defenders, and of course you may become attackers, so don't think about any tricks, and accept your challenge this time honestly."

Everyone randomly selected one of these water drops, and then gently punctured it, and saw a light blue number appear in front of him, and then it was branded on his clothes.

Several scattered immortals had never heard of such a method, and at this time they were also very curious to look at these numbers on their bodies.

And Li Tian's expression is a little bit funny, and I don't know if it's fate. His opponent turned out to be the man who laughed at him before. At this time, he also looked at his number, then looked up with a smile on his face. Li Tian said: "It seems that your luck is really not very good. You met me. I will let you lose as quickly as possible in this game."

"Sorry, this is what I want to say, but it's a pity that you snatched the line." Li Tian responded with a smile.

Chapter 5450: Nervous Li Tian

Standing in the corner of the ring, Li Tian said this sentence naturally. After hearing this sentence, many people couldn't help looking at Li Tian in front of him. Many people didn't know how to describe it. Own mood.

"What's so funny about this, now you are standing here in front of many audiences. If you don't want to be ashamed, you must act as mature as possible to avoid being ashamed." At this time, The

old man who he had been talking before looked at the smiling immortals in front of him, and said impatiently: "Ningde, it's time for you to play."

Ning De, the man who laughed at Li Tian before, had a smile on his face and walked very slowly onto the ring step by step, looking at Li Tian arrogantly: "You guy is about to fail now, and you still have the mood to speak big. I really want to see if you can still say the same thing after being defeated by me.",

"Since I am standing on this ring, of course I never thought that I would fail so quickly." Li Tian smiled slightly, the immortal power in his body began to mobilize at this time, and the man in front of him was probably in the realm of spiritual cultivation. Around Samsung, it's pretty good among young people, but if you want to face Li Tian, obviously you don't have much advantage in strength.

It's just that Li Tian can easily see their realm, but few people can see Li Tian's realm.

And before that, Li Tian had always been a ***** by Ning Bing's side. In the eyes of many people, it might have been natural to regard Li Tian as a non-threatening guy. Will care about Li Tian's current strength.

Ning De was almost like this at this time. He was very confident of his own strength. Coupled with the rumors that had been circulating before, he didn't pay much attention to the man in front of him.

No matter how much Li Tian surpassed their imagination, he could only be an immortal in the realm of spiritual cultivation. Could anything else be changed?

And he now has the same idea, even if Li Tian is unexpected, he will definitely not exceed this limit, but everything does not exceed this limit, he wants to deal with Li Tian is not as difficult as imagined. .

On the ring, Li Tian stood on the other side with a faint smile on the corner of his mouth, looking at Ning De on the opposite side.

Both of them are brewing at this time. This battle is destined to not last too long. There is a huge difference in strength. Naturally, they will defeat each other in the shortest time. At this time, Li Tian also has the same feeling.

'Although Ning De's strength is only in the realm of spiritual cultivation, if it is delayed, it will still waste a little time. Therefore, the best way is to sell a flaw and let him take the initiative to come up. Then he can just use this opportunity to directly fight back, even if it is. Ning De could react, and he did not defend in a short time. '

And Ning De's thoughts at this time are not much different from what Li Tian imagined. Although this guy looks at Li Tian very little, he still has to show some serious emotions in the fight, and he is not very anxious at this time. To shoot, but to stand on the side of the ring and wait quietly. The duel between the masters is to find each other's flaws in the confrontation between the two sides. As long as one party can take the lead in revealing its flaws, then this battle may be Ended early.

Now Ningde is waiting. He believes that Li Tian can get to where he is today step by step by relying on Ningbing. Then he can definitely find a flaw in this guy. As soon as this flaw appears, he can Defeated Li Tian in just a few seconds.

‘Hmph, brat, what I said before seems to be very relaxed, but now that you look nervous, it seems to be very uncomfortable in my heart. He sneered and glanced at Li Tian, who was a little nervous in front of him.

Indeed, Li Tian now seems to be really nervous. The whole person looks like there is no special place, but standing on the ring is trembling weakly, even his aura is not as good as before. Among the stability.

Ning De looked at it and shook his head with a smile: "If you think you really are not a player on this stage, you are now completely considering surrendering, and then you can leave here very smartly. Anyway, your reputation in New Moon City is already stinking. Now, even if you lose the game like this, no one will say anything. Why do you want to be strong here and let yourself suffer?"

"This is my business. It has nothing to do with you." Li Tian clenched his hands into fists, his face pretending to be calm, but his aura was constantly fluctuating.

On the other side of the referee's bench, the headed old man looked at Li Tian, smiled and nodded, seemingly satisfied.

"Lao Wang, are you like this?"

"Just look at it. It seems that the rumors really do not have any credibility. Although this young man looks very ordinary, I believe that he will become the most dazzling presence in this game. It will definitely surprise many people. Right." The old man looked at Li Tian's performance and became more satisfied. It seemed that this young man was his apprentice, and there was no way to hide the affection in his eyes.

And under the ring, although everyone is outside the barrier, it can be confirmed through Li Tian's performance that this guy is indeed very nervous.

In an instant, many people in the entire New Moon City began to talk about Li Tian.

If their rumors about Li Tian were only limited to rumors, then it can be said that it is, very sure, this young man is able to get to this point step by step by relying on Master Ningbing, or otherwise. There is no such thing as nervousness on this stage. Looking at him now, it seems that he is not sure about the next battle.

Jin Linger snorted coldly, seeming to be a little strange about what happened in front of her. The little hand fiddled with her hair gently, and whispered: "Is this kid really that weak? Facing such a not very strong opponent I'm still nervous. Is it really luck to get here step by step? If it is really like this, then this kid's luck is really good."

Just as many people thought, Li Tian's current expression made them even more jealous.

Such people can advance, why can't they?
