

A Killer 5471

Chapter 5471: Night visit

The room was quiet, and as the night fell, the entire Crescent City seemed to be quiet.

In the room, only a little moonlight was thrown on the ground, illuminating the interior of the room a lot. With the help of the candle flame, you can see a young man in black costume, sitting on the bed on the side of the room. With his legs crossed, his hands on his knees, his eyes closed slightly, the rhythm of his breathing was very regular, and there was still aura lingering around Li Tian's body.

He has been like this for many days, and he doesn't need to rest every night. He just cultivates like this directly, which can be regarded as recovering himself in the process of cultivation.

Of course, the previous battle with Jin Linger was quite tricky for Li Tian, so much so that now he has no way to completely restore himself to his original state. It can only be said that in this short time as much as possible Let yourself rest better.

But fortunately, this time the finals of the Junior Heroes Conference were also uncharacteristically, and they were given about half a month of time for these players.

This half month's time is enough to make many people stronger in this short period of time. Obviously because Feng Jie knew that Li Tian could not do it, and wanted Feng Tianling and Feng Tianxiang to get this time. If the top three places in the Young Heroes Convention are concerned, they can only start from the two of them. It may not be able to change anything essential within half a month, but it will allow them to better deal with Li Tian. Method.

For Li Tian, everything about him has been exposed to many people. Now many people in the God Realm already know Li Tian's combat routines very well, and they also know how this guy usually does in battle.

But Li Tian didn't know Feng Tianling and Feng Tianxiang's routine.

These two people are the sons of the city lord, and they rarely conflict with others. Even if there is any conflict, the guards under them can only deal with the matter, and it is definitely not the two of them.

Therefore, they now know Li Tian's strength and tricks well, but Li Tian doesn't understand them at all.

This half a month is enough time for Fengjie to change the two of them. Don't underestimate the half a month's time. Maybe they can't change anything in essence, but they can become weapons specifically aimed at Li Tian.

As long as this can be done, it will not be difficult for them to defeat Li Tian in the final.

These thoughts flashed in Li Tian's mind, and when he was thinking about how to deal with it, there was a knock on the door.

"Who is it?" His voice suddenly became a lot colder, he glanced at the doorway and asked.

"Guest, it's me, Dongfang Luchu."

"It's so late, you should know my habits these days, what does it mean to come here?" Li Tian asked indifferently, and didn't mean to open the door.

"It's just that there are some things that I want to talk to the distinguished guests. It is about the high level of our gathering in the tavern. The strength you showed in the game made them all interested in you, so I asked me to come over and talk to you in person." Dongfang Yuechu's voice is very sincere, not fast or slow, just listening like this, as if what this guy said is true.

Li Tian squinted, glanced outside the window, then slowly stood up...

Dongfang Yuechu was standing outside Li Tian's room. The whole person was very nervous at this time. He had a jar of spirits in his hand. Inside this jar of spirits was the poison used to make Li Tian lose his combat effectiveness. Poison will not directly cause death, but it will cause people to lose their combat effectiveness. For Dongfang Yuechu, he had no problem drinking such strong alcohol.

Regardless of whether he drinks it or not, there is no chance of winning against Li Tian.

He waited outside for a long time and didn't know what Li Tian was doing in the room. He didn't come to open the door for so long. After saying something before, there was no sound.

Dongfang Yuechu raised his right hand slightly, and wanted to keep knocking on the door, but he wondered if it would be bad for him to do so.

Just as he was thinking about it, the door of the room suddenly opened. Li Tian stood at the door, smiling and looking at Dongfang Yuechu in front of him: "The time is already so late, I thought you all went to rest honestly. , If there is anything, you can come and talk to me tomorrow, why do you have to do it this evening?" He said as he let the door open.

Dongfang Yuechu raised the wine jar in his hand, and smiled helplessly: "There is no way. You may not know the pressure I have experienced over the years. Now the above asks me to resolve this matter as soon as possible. If I know what the result will be, I will feel more at ease.",

"It seems that you are looking for me today not just for your boss's business, but you also want to find me and tell your bitterness?" Li Tian smiled and looked at Dongfang Yuechu in front of him, and then he was at the side table. Sit down and said: "But my current physical condition is not that I can't drink, but it's not good to drink too much. I can only accompany you to drink less."

"It doesn't matter. This is the daughter red that our tavern has collected for many years. Today, it is really because the bitter water in my stomach can't be poured out, so I thought about using this jar of wine for business." Dongfang Yuechu said as he spoke carefully. He put the wine jar in his hand on the table, and took out two small ceramic cups from the tea tray on one side.

His fingers were trembling, just like a criminal who robbed a bank for the first time. The pressure in his heart at this time can be imagined.

But after all, he has been working in Yunji Tavern for so many years. He still has a little way to control his emotions. At this time, there are only such subtle details that can be detected. Generally speaking, there is still no problem. .

But it was this subtle detail that fell into Li Tian's eyes.

"Are you nervous?"

"Ah...no...no." Dongfang Yuechu hurriedly shook his head, looking at Li Tian in front of him with a little panic: "Damn, this kid's method of observing his words and expressions is really too clever, and he was almost about to be taken directly by him. I can see it. '

Seeing Li Tian's expression, Dongfang Yue almost started to pee at the beginning of the month. It was just a small detail that was easily noticed by Li Tian. How sharp should this kid's eyes be?

Chapter 5472: Poisoning

"It looks like you are very nervous. We are old friends. Since we are in front of your old friends, what else is there to be nervous?" Li Tian smiled and squinted at Dongfang Yuechu in front of him. Then he slowly opened the wine jar and helped him pour the spirits into the ceramic cup. The spirits were so clear that it looked like clear spring water.

The moment the sweet spirits were poured into the glass, the whole room was filled with a very wonderful taste.

This feeling is the taste of the daughter red that has been treasured for many years. Although the name is not different from that on the earth, if you really want to talk about it, such a spirit can easily make people drunk.

Li Tian gently raised the wine glass with one hand, and sniffed: "The taste is very good."

Dongfang Yuechu did not answer, or that he was in a very dull state now, what he was thinking about now was whether Li Tian had noticed it.

This poison is said to be colorless and tasteless, and it is precisely because of this that this poison is very rare.

It is also very difficult to find such a poison in the entire God Realm. This time they have spent a lot of effort to kill Li Tian, and even the poison that he usually reluctant to take out was given to Li Tian for use.

The person in black said it very clearly before, and Dongfang Yue heard it very clearly at the beginning of the month, but when it really reached this point, he didn't know what to do.

Seeing Li Tian holding a glass of wine in front of him, he was still hesitating in his heart. Can he check out that there is poison in this glass of wine? If he detects it, what can he do?

"You are very different today from before." Li Tian suddenly looked at Dongfang Yuechu in front of him seriously, his serious face suddenly made Dongfang Yuechu even more nervous.

It was just an instant, Dongfang Yuechu's forehead had already seeped a lot of sweat, and he hurriedly shook his head, and responded: "No, it's just that something long ago was suddenly thought of."

"I really want to know what it is like."

"Everyone has an unbearable past. You see, as the owner of Yunji Tavern, I look glamorous, but in fact I am just a ***** in their hands. I am when they need it. They don't need a chess piece anymore. I'm not even as good as an ant. This is why I want to curry favor with you after knowing that you're great." Dongfang Yuechu knew that if he continued like this, it would be very interesting. It might make Li Tian suspect that the young man in front of him has a very high IQ, and even a little bit of detail may be detected by him.

The best way is to forget everything in your mind and concentrate on doing this.

So at the beginning of the Eastern Moon, I completely forgot that there is poison in this wine jar.

"I thought you, you were born with a golden spoon in it. You have always had such a good life." Li Tian smiled, looked at Dongfang Yuechu in front of him, and said calmly: "It seems that your situation is the same Compared with other people, there is not much special place."

"Doesn't anyone start to advance step by step from the most basic time?" Dongfang Yuechu shrugged his shoulders helplessly, then smiled, picked up the wine glass in his hand, and said, "I'll do it first. ."

"Wait for a drink, we can clarify the matter and come back for a drink." Li Tian raised his hand to hold Dongfang Yuechu's wrist and squinted at him: "You said before that your boss called you to come and find me. What do they want to do? As far as I know, I don't have a good reputation in the entire God Realm. If you want to cooperate with me, I may be hindered by me."

"This is also something that can't be helped." Dongfang Yuechu shrugged his shoulders helplessly, and then whispered: "They want to cooperate with you. You said before that you are already a spellmaster, what we need most now, Just a spellmaster."

"It's just that simple?" Li Tian smiled and looked at Dongfang Yuechu in front of him. Although spell masters are rare in the God Realm, they shouldn't do things to such a degree.

"It's just that simple." Dongfang Yuechu reluctantly shrugged his shoulders, and then looked at Li Tian in front of him with a sincere expression: "If you reject me in this matter, then I may suffer again. They are punished. Over the years, it has been so difficult to climb to where I am today step by step. I don't want to go back to the original point one day."

"It's really not easy for you to get to this point." Li Tian smiled, then took the wine glass in his hand and drank it in one go.

Looking at Li Tian in front of him, Dongfang Yuechu was finally relieved. Before, he was still worried about what this guy would do if he didn't drink it. Now he saw Li Tian take a sip of strong alcohol, and the toxicity would soon develop. At that time, even if Li Tian in front of him could still exert some strength, it was only the strength of the ***** apprentice realm. For them, such an opponent was not difficult to deal with.

I was still worried about Li Tian not drinking, but now he is finally relieved.

After completely letting go of the stone in his heart, Dongfang Yuechu became a lot more natural: "In fact, many times, people make choices that there is no way at all. They are all persecuted."

"Yes, many people in this world are unhappy. Due to the pressure of life, they can only change their lifestyle." Li Tian said with emotion.

"Don't blame me, this time there is nothing I can do. If I don't do this, they will throw me away like a trash. I finally have all of this today. I don't want to be taken away like this. All this." Dongfang Yuechu suddenly stood up with a guilty expression on his face, looking at Li Tian in front of him: "You are a smart person, but you never want to count others, but you have to know that in this world always Some people will be forced to make some choices."

"What do you mean by this sentence?" Li Tian looked at Dongfang Yuechu in front of him blankly.

"You have been poisoned, and now you can't exert 10% of your strength." Dongfang Yuechu looked at Li Tian in front of him, narrowed his eyes, and said helplessly: "Although I really don't want this, but , There is really no way, I have no choice."

"You... poisoned me?"

Chapter 5473: Assassination begins

"Yes, this toxin can easily control the celestial power in your body. I think you can feel it now. The power of your body, like it has been completely pulled out, can't be controlled at all." Dongfang Yuechu squinted his eyes and looked at Li Tian in front of him. Then he showed a helpless smile: "We didn't have any grudges, but this time you are in New Moon City, you still provoke people who shouldn't provoke."

"In this way, it is the Feng family who wants to do something to me. I thought Feng Jie was a bit smarter. I didn't expect that he and Lu Xiu were as stupid as he was, so he wanted to deal with me like this?" Li Tian squinted. With his eyes and one hand covering his chest, he could indeed feel that the immortal power in his body seemed to be restricted by something, and could not be controlled at all.

It's like stepping into a quagmire with one foot. The more you want to control your body, the more you will sink.

"Do you still think that you can survive here today?" At this moment, a black figure suddenly appeared in the room. He was wearing a black night walker with two daggers hanging from his waist. With a touch of indifference, he laughed and said.

Li Tian still sat in his own position and didn't move: "It seems that you are their back then?"

"This time we wasted a lot of resources in order to kill you guy, but now we are finally relieved. Now that you have already drunk this glass of poisoned wine, it is not so easy to survive." As Sombra spoke, he glanced at Dongfang Yuechu: "You did a very good job of this. Your mission has been completed, and you can leave now."

"I...can leave?" Dongfang Yuechu asked in a low voice, looking at the black shadow in front of him.

"Of course, you did very well this time, but there is still a slight flaw." Heiying glanced at Dongfang Yuechu and said with a smile.

"defect?"

"You are a back hand we arranged here. If you survive this time, you will definitely be held accountable for the relationship between us." The shadow looked at Dongfang Yuechu like a corpse. : "In order to avoid this happening, the only option is to kill you directly, so that we can get rid of this thing, right?"

When Dongfang Yuechu heard that the shadow said he was going to kill him, he immediately prepared to escape.

I thought that after completing this task this time, I could leave here unharmed, but who would have thought that they never thought of letting him go.

Li Tian squinted his eyes and said, "It seems that you are going to kill him?"

"Do you have an opinion?" Sombra turned around, glanced at Li Tian, and said coldly: "You have no means anymore. Just stay here and watch it honestly, but if you If you want to intervene in, I don't mind letting you die sooner, anyway, you will be killed by me sooner or later, but only a little earlier."

"You killed me. This matter will definitely involve the interests of many people. I think you were not sent by Feng Jie. Although I have never had a good impression of these city owners, I don't believe Feng Jie is The city owner of such a powerful main city as New Moon City can't even figure out such simple things." Li Tian sneered, looking at the dark shadow in front of him, and said: "So, you are most likely Feng Tian. Ling or Feng Tianxiang sent over."

The black shadow looked at Li Tian in front of him.

Although they didn't plan for a long time on this matter, in order to kill Li Tian, they still used a lot of things that they usually don't want to use.

Feng Tianxiang has not been doing anything in vain in New Moon City these years, he has also done some things in secret, for example, he has arranged a lot of dark hands here.

These chess pieces themselves don't know who the boss above them is, the only thing they know is that they are selling their lives to some people, nothing more.

"Your young man's thoughts are really very clear. No wonder they want to kill you so quickly. If someone like you stays, it will only affect us." Sombra really valued Li Tian more and more. The details shown by this young man still feel terrifying. In this situation, he is still sitting here like a okay person.

Can you think that this young man might not take this matter seriously?

"It is indeed like this. I have been judged by them in many places. My existence seems to hinder their goal." Li Tian smiled, looked at the shadow in front of him, and whispered: "But If you think you can kill me like this, then you are really naive."

"Some naive?"

"Do you think I can't see through your conspiracy track?" Li Tian's voice became more and more illusory, and then, slowly disappeared from their sight.

And as the Li Tian in front of him disappeared, another Li Tian appeared in front of them.

The young man sitting on the bed with a sneer on his mouth is Li Tian.

"Clone?" Heiying took a dagger in his hand, glanced at Dongfang Yuechu, then at Li Tian, and said with some surprise: "How do you know that there is a problem with this matter?"

"Of course there will be problems. I came here at night just to get me to work with them. You can think of such an excuse, and in the past few days, the beginning of the Eastern Moon was never here. The time period disturbs me, he knows exactly when he should do something." Li Tian snorted coldly, looked at the black shadow in front of him, and said: "It's a pity that you want to kill me so much that you are This kind of details has not been dealt with at all."

"Indeed, you opened my eyes this time, and you noticed some clues when we didn't do anything. It's ridiculous that Dongfang Yuechu, an idiot, was nervous for a long time." After hearing this, Sombra had to be convinced. The IQ and caution of this young man made them feel incredible.

At the beginning of Dongfang Yuechu, it was only at this time that he realized what Li Tian was doing in the room for so long before.

Dare to love him at a very early time, he knew what his purpose was?

In other words, do you have vigilance in your heart?

Thinking of this, I admire Li Tian's thinking even more.

Chapter 5474: Hard to harvest

However, before in the room, if only a clone was set up, Li Tian would not need so long.

So during that time, what did Li Tian do?

"You don't need to talk about others anymore. Even you didn't notice it. Did you see just a clone?" Li Tian sneered, looking at the dark shadow in front of him, and then slowly stood up, holding his hand Hong Zhan appeared: "If you want to kill me, you have to think about the possibility of being killed by me."

As soon as his voice fell, he saw a lot of strange symbols suddenly appeared around them. These symbols were slowly connected together and became a very mysterious formation. Then the whole room became shiny at this moment. Color, the golden light is like the sun, making the whole room very bright.

Li Tian held the red sword in his hand and looked at Dongfang Yuechu and Sombra in front of him. Although Sombra was going to kill Dongfang Yuechu, Li Tian didn't mean to help Dongfang Yuechu.

People like him are pitiful, but poor people are hateful.

He has survived for so long, and the biggest lesson he learned is that you must never be kind to your enemies. Perhaps your kindness for a moment is your weakness in their eyes.

He knew that his current state was very weak, so when Dongfang Yue knocked on the door at the beginning of the month, he set up some forbidden magic circles in the room. This forbidden magic circle was also learned from the remnants of the ancient gods. During this period of free space, It was still very successful for Li Tian to undergo a fundamental transformation. Even though he hadn't returned to his peak state now, he still believed that there was no problem with his combat effectiveness.

Just need to set some restrictions here, Li Tian still believes that he still has the power to fight.

"You should be thinking about how to leave here now. I already knew what your thoughts are. Therefore, a prohibition has been set up here. If you want to leave here, you have to see if I agree or not." Li Tian held Hong Zhan in his hand. During this restriction, his power and the surrounding heaven and earth auras were all connected together. In other words, if they couldn't break this formation, it would be impossible to defeat Li Tian.

It's just that it takes a while for this formation to be deployed, and because the materials of the formation are different, the effects and durations that can be produced are also different.

Li Tian can barely hold on here for a while, but I hope that this period of time can play a role, at least the battle here must be more intense, it is best that the entire New Moon City knows about it,

when they If Li Tian was killed in front of so many people, even if all the evidence showed that it had nothing to do with Feng Jie, no one would want to believe it.

"Are you still going to fight with me, to delay time?" Soi Ying sneered, and then pierced Dongfang Yuechu's throat directly with the dagger in his hand at lightning speed. This process was very decisive, without any hesitation. Then he smiled and looked at Li Tian in front of him: "The people who have fought against me are very good, and there are very few alive. Do you really think you have this ability?"

As Sombra's voice just fell, Li Tian felt a powerful aura, like the brilliance of Haoyue. In front of this aura, Li Tian was like a fragile little ant, without any resistance at all. Opportunity.

I originally thought that this time the person who came to trouble me might be the realm of spiritual cultivation, but who would have thought that the one who came here was a powerhouse at the level of gods.

It is worthy of being a member of the Feng Family in the City of New Moon. Even the master of the immortal realm can become his weapon. It must be difficult to find one or two such methods in the entire God Realm.

"I didn't expect the young masters of the Feng family to be so powerful. Even a master like you was sent to kill me as a rookie. I really value me."

"Of course, you kid did something like that in Luoyang City before. Although we also believe that you have your own water in killing Lu Xiu, you still have to be careful when facing you." Hei Ying Looking at Li Tian with a smile, and then tossing Dongfang Yuechu's body aside, he said solemnly: "I'm here this time to make sure that my mission is foolproof."

Even if Li Tian is not poisoned, he can still be convinced by very tough methods.

At this time, Feng Tianxiang's method is like covering water. Once it is displayed, there is no retreat. Such masters are dispatched. It must be impossible for him to assume that nothing has happened. If this is the case, he You can only choose this matter to ensure that there are no problems. Before Li Tian had time to spread the incident, before he had time to greet his companions, he directly killed Li Tian.

In this way, no matter what happens, you can find a suitable reason to resolve this situation.

At the beginning, I felt that I was almost able to do it today, and I had counted many details. If someone came to trouble myself, I could almost stand invincible now.

But now, this idea is completely gone.

In front of him is a master of the immortal realm, and he is still a master who has never been introduced. Li Tian has no news about the dark shadow in front of him. How can such an enemy deal with it?

Although this formation can help him a little bit, when facing such an enemy, this level of formation is hardly useful.

There were a lot of strange colors in his eyes. At this time, he had to start thinking about how to leave this ghost place, and staying here would definitely end in the same way as Dongfang Yuechu.

"You don't have to waste your thoughts. I have arranged a lot of people around. It is impossible for you to leave here. After I kill you, I will control this side and say that Dongfang Yuechu was bought by others. , Poisoned you and killed him after I found out, so even if they have evidence, they can't say anything." The shadow said as he slowly walked towards Li Tian.

His movements are very slow, but he has a very strange feeling. It seems that every step is like the whole world is moving.

Li Tian knew that this was the gap above the realm, and he couldn't understand at all, what a huge difference between this world and the realm of their gods in the eyes of the gods. ,

Moreover, the formation did not produce any effect at all.

Chapter 5475: Jade

Li Tian also knew at this time that the black figure in front of him had no intention of deceiving himself. Judging from the methods they are currently employing, such a thing is not impossible.

"The formation of this formation is very clever. It is indeed something that I did not expect, but if you think that it can play any role, then it would be too naive." Heiying sneered, slowly. He raised his hand, his aura suppressed like a behemoth, making Li Tian a little breathless.

The strong power radiated from him easily broke Li Tian's formation.

No matter how powerful the formation was in front of this black shadow, it was as fragile as a layer of paper.

It was late at night, and the entire Crescent City was in a sleepy scene. No one would know what happened here, and naturally no one would pay attention to what happened here.

A lot of cold sweat broke out on Li Tian's palm, and he subconsciously grasped Hong Zhan in his hand tightly. At this time, the only thing he could get comfort from was probably the sword in his hand.

Hong Zhan seemed to feel Li Tian's emotions, and there was a very weak response.

"Even if I know that your strength is above me, I will not give up my life easily. Even if I die here today, I will die well enough to let everyone know your conspiracy." The corner of Li Tian's mouth rose slightly, since he There is no better way to deal with the dark shadow in front of him, so you can only choose some crazy ways, and only in this way can you die and live.

At this moment, the great blue dragon broke out and turned into a blue dragon, and the houses gathered in the tavern exploded in an instant.

A dazzling light shone in the air, and then you could see a lot of scattered fragments falling towards the surroundings, just like a meteorite, above these fragments, you can vaguely see the cyan flame beating with it.

The sound of the explosion was not small, and soon it was found that many houses around were all lit up.

This may be the first time that New Moon City has encountered such a thing in so many years. As one of the famous main cities, there are very few real battles here. Most people here are cautious. Don't dare to make trouble easily, everyone knows that the city owners of these main cities are not

easy to provoke, not to mention that it is a major city such as New Moon City, and it is not to be underestimated.

Therefore, for millions of years, few people will fight here.

In most cases, the battle ended in an instant, or some small-scale battles, but today, the sound of the explosion clearly made this main city, which has been sleeping for millions of years and has not been awakened, also wake up.

Hong Huang Qinglong felt the thoughts in Li Tian's heart and spit out a mouthful of dragon flames.

On the other side, Li Tian subconsciously entered the state of the red wing ***** outfit, and the feather blade behind him spread out, quickly inciting, leading him to slowly fly up into the air, staying here to fight, it would definitely be harmful to him. Nothing is profitable.

Li Tian made up his mind to make today's things out of control, so he held the attitude that everyone would die together.

And Soi Ying raised his hand at this time, the dagger in his hand gleamed with a strange brilliance, he looked as if he was still relaxed, and did not rush to stop Li Tian from doing all this.

Even Li Tian always felt that this guy knew what he was going to do, but he was unwilling to stop it.

Although there was some doubt in his heart why he would do this at this time, but at this time, life and death were a matter of life and death, and he could no longer manage so many things. He roared, preemptively, and rushed towards the shadow.

City Lord's Mansion:

Feng Jie, who was sleeping, was suddenly awakened by a huge explosion outside.

"What's the matter, how can the outside sound be so noisy?" He squinted and asked angrily.

The woman lying beside Feng Jie also slowly opened her eyes, "What's the matter?"

"My lord, the major event is not good. Yunji Tavern has been attacked. Now it seems that Li Tian is fighting with his opponent. It is impossible to fight." At this time, the soldier in charge of the guard outside said eagerly, sounding like a hot pot. Like the ant on the Internet, he can judge from his emotions alone how serious the matter this time is.

When Yunji Tavern was attacked, Feng Jie thought for the first time that someone wanted to take advantage of this incident to attack him.

He has been the lord of the New Moon City for so many years, and he has always had a routine to govern the main city. It can be said that the people's will. Of course, there will also be some people. He is not interested in Fengjie's methods and ability to govern the main city, And what they really want is nothing more than this power, so it seems calm, but secretly they don't know how many people are thinking about dragging him from this position.

Originally, Li Tian was very sensitive. There was the support of the Zhuge family behind him. This young man was like a forbidden zone for them. There may be no benefit to them, but it will definitely cause them a lot of trouble.

But if you don't deal with it, you don't know if this restricted area will suddenly do something unexpected.

Originally, Feng Jie was thinking about keeping silent on this matter. No matter what Li Tian's status is, he will not do anything in this game, just let Feng Tianxiang and Feng Tianling. The two people have improved their strength a little during this period of time, so that they can cope with the current situation.

But who could have imagined that things would be reversed suddenly without him noticing.

Someone even thought about using such a method at this time.

For Feng Jie now, things are quite unfavorable. If this kind of problem is not dealt with, it will only get worse and worse. In the end, even if they want to deal with it, it won't work.

"Damn it, these guys really don't give me a chance to live." Feng Jie yelled, then stood up:

"Immediately dispatch the army from the Crescent City to the Gathering Tavern to protect Li Tian."

"Do you need such a big fight? If you go there by yourself, there will be no problem?" After the woman listened, a puzzled look appeared on her face. Who is this Li Tian, even Fengjie wants to mobilize Xin To protect the defenders of Moon City?

This is before, but something that has never happened before.

Chapter 5476: Reinforcements arrived

"If I just go alone, this matter will be even more unclear. In order to avoid the spread of rumors, I still have to make the matter a little seamless, lest people with intentions take the opportunity to enter." Feng Jie put on his own. Clothes, while looking at his wife on the bed: "Go and call the two brats, and ask how things today have to do with them."

"Didn't you say before, don't fight with this Li Tian no matter what. Both of them are obedient children, and they will definitely not cause you trouble." The woman cast a blank look at Feng Jie and said angrily.

"If you ask you to go, go wherever there is so much nonsense. If they really did it, tell me now that I might be able to think of some room for recovery. Otherwise, this matter will not only cause me a lot of trouble, The two of them couldn't run along either." Feng Jie said dissatisfied. He was already very uncomfortable at this time, and he was even more upset when he heard the woman talk back.

The woman hadn't regarded this as the same thing before, but it was just a fight between two fairies. Outsiders, they looked very powerful and cool.

But what kind of scene she hasn't seen with Feng Jie? Naturally, he didn't really take this matter to heart. Until now, seeing the solemn and cruel expression on Feng Jie's face, did I know how serious the matter had become.

Feng Jie turned around and left the room after finishing his instructions.

The guard outside the door looked at the disheveled Lord City Lord in front of him, and wanted to remind him, but thinking of the situation there, he said directly: "My Lord City Lord, what shall we do now?"

"Who is Li Tian's opponent?"

"A black shadow, the strength seems to have been around the immortal realm, they can be regarded as a lot of work this time, even such a master, they have been invited over." The guard said here, followed by shaking slightly. After a moment, the powerhouses of the immortal realm seemed to them as unattainable as the sun above the clouds, and they never dared to think that one day they would achieve that kind of achievement.

Feng Jie was also a little surprised, and he was a powerhouse in the immortal realm. The opponent's hand was much more powerful than they thought.

"I have done what I told you to do?"

"Yes, it has already been arranged. Several people are heading to the barracks. It only takes about ten minutes or so. We can wait until the reinforcements arrive. At that time..."

"I don't need any reinforcements, it's just that this matter has progressed to this point. Many places have exceeded my original imagination. It seems that some choices must be made." Feng Jie said as he walked forward. Now, his hands were still arranging his clothes. It was probably the first time he was so panicked when he went out this time, and he failed to fasten the buttons more than once because of his anxiety.

When Feng Jie left the city lord's mansion, he was already wearing a white sword robe, and then he soared into the air and flew towards the Yunji tavern.

At the same time, there was a lot of watching around Yunji Tavern. Those who previously dominated the Yunji Tavern, looking at the two people in the sky at this time, are really fortunate that they were lucky to have been driven away. If they continue to stay here, I don't know what will happen.

"Look, that young man, isn't that Li Tian, who made his prominence in the Young Heroes Convention before? How could it suddenly become like this, and it seems that his opponent is not easy." On the ground. A Sanxian raised his head and looked at the several people above his head. His eyes were full of surprises. They could clearly feel that the strength of the black shadow was above Li Tian.

According to the rumors, Li Tian killed Lu Xiu. This incident was also proved by Luoyang City, but no one would really believe that a celestial being in the realm of **** cultivation could kill an immortal in the realm of gods. The gap is simply a distance that is insurmountable than the gully, and there is no standard for comparison, so no one believes that Li Tian will have such strength.

At this moment, seeing the dark shadows opposite him, they all looked at this side with interest.

"There are already a lot of last words left for you. You brought so many people together here, which perfectly exposed our actions, so I can only kill you faster." Sombra sneered, holding two in his hands. He took the dagger, and then quickly rushed towards Li Tian in front of him.

The powerful pressure is like a huge mountain on Li Tian's shoulders.

This feeling is really very uncomfortable. Li Tian wanted to use his own aura to contend, but after thinking about it, he still didn't do it. The auras of the two of them are not of the same grade at all. The aura attack is nothing more than finding something for yourself, and it will waste a lot of time and energy.

"I said, I won't give in so easily." Li Tian sneered, and then quickly threw the Red Zhan in his hand, and saw a touch of light red appearing on the body of the Red Zhan. Like glass lenses, they slowly disappeared from their sight.

At this moment, Sombra started.

His speed was very fast. He had already started offensive before Li Tian raised the Red Sword. At this time, he was in a thunderous manner, and he could take Li Tian's life at any time.

But at this moment of life and death, a pair of hands suddenly appeared, grabbing the wrist of Sombra, and said in a cold voice: "Everyone knows what rules should be paid to make trouble in my new moon city. You two are here today. The ups and downs here are to give me a proper explanation, otherwise I won't let you two off easily."

Li Tian glanced at Feng Jie. Although he knew that this guy was not his friend, he would definitely not be his enemy now.

Since Feng Jie has already come here, his current situation is basically much safer, as long as the shadow wants to kill himself, he will definitely take action directly.

"The Lord City Lord of the dignified Crescent City should also participate in our personal grievances?"

"I don't want to participate in your personal grievances. It's just that Li Tian's situation is very special now. He is a contestant in our Young Hero Conference. As the lord of New Moon City and the organizer of the Young Hero Conference, Ensuring the safety of every player is also the responsibility of my city owner. How can I say that I intervene at will?" Feng Jie squinted and asked.

Chapter 5477: Set up

Feng Jie's hand was firmly grasping the dark shadow, and the dagger in his hand was shining with a gloomy cold light, but there was no way to pierce Li Tian's body.

At this time, behind Li Tian, a red sword formation had already condensed, densely packed fairy swords were like torrential rain pear blossom needles, once they were tilted, they would inevitably destroy the world.

"It is now impossible for you to continue to mess around on my territory, and according to the rules of our New Moon City, no matter how big your contradictions are in it, you cannot affect other people, let alone casually. Conducting this kind of life-and-death duel in private is justified and reasonable. What I have intervened in this time is reasonable. What's the problem with you?" Feng Jie said.

Soi Ying glanced at Li Tian, then smiled and shook his head: "After all, he is still a young man. When encountering a critical juncture, he will become very nervous, but he doesn't know what you are like, which will cause his own problems. more serious."

Feng Jie also had some inexplicable things, and looked at the dark figure in front of him with Li Tian, wondering what this guy was talking about right now.

Li Tian glanced at Feng Jie and then at the man in black: "You are now at the point where you are really poor. You want to kill me. You have to spend a lot of time for this, but unfortunately you didn't succeed."

"Indeed, you, a young man, are far better than we imagined. Both in terms of thinking and cultivation, you are a very superior existence, but you think that it will be over. That is a big mistake. Wrong." Sombra had a successful smile on his face, on the contrary, it made the two people unable to relax at this time. They had calculated well this time, but when Sombra said that, they seemed to feel something vaguely. Something is wrong.

"It is true that the first task I came here was to kill Li Tian, or it was my task all the time." Sombra looked at Li Tian's face, as if looking affectionately at a work of art in his collection: "According to our plan, it may take a long time for you to be worth our hands on, but for the current connectivity of the entire plan, I can only push you to this."

"It seems that your purpose in dealing with me here today is not only to kill me, but also to make Feng Jie carry this black pot on his back. As long as he gets back on his back, this matter is a stain on others, and it will be washed away for the rest of your life. Humiliation that can't be lost?" Li Tian squinted his eyes, thinking that the guy behind all this planning is really hateful and too smart.

Whether it was Fan Hong's matter before or Feng Jie's matter this time, Li Tian had a feeling of being exhausted.

The black hand behind the scenes is very careful in controlling every aspect, so detailed that you can't feel it. Originally, Li Tian simply thought that this time it was the two young masters of the Feng family who wanted to deal with him. Now it seems completely It was like a mistake. It was not Feng Tianling or Feng Tianxiang who dealt with him at all. Perhaps the two of them were just a tool in the hands of others.

It is ridiculous that these two people are now making gun heads for others, and they still don't know it. Looking at the expression on Feng Jie's face at this time, they probably want to know what is going on here.

"The two of you are right. This time it was meant to deal with Li Tian, but it was actually aimed specifically at you, Lord City Lord." As the shadow said, he stepped back a lot, looking at the dull Feng in front of him. Jie, I think Feng Jie at this time is also quite uncomfortable. He has always heard people say that he is cheating, knowing that today, his father is finally being cheated.

"It's ridiculous that your little son doesn't know what he is doing. He thinks that he has mastered a lot of power over the years and can ignore everything. He doesn't know that in our eyes, he is just a ridiculous endorsement. "When the black shadow spoke, he could already see a lot of troops appearing around him, and densely packed soldiers surrounded them all.

Sombra previously said that there are many people ambushing around here, but in fact there are no such people.

He just wanted to make Li Tian think that he didn't have much chance to survive today, so he would use this method of burning jade and stone to fight for self-sufficiency, but he would also be dragged by the guy in front of him. A new attitude to go to **** together.

Naturally, it goes without saying that all of this was in their calculations, and it was a perfect success.

According to the way they planned, Li Tian did everything possible to make this matter uncomfortable, so that after a lot of people watched it, Sombra couldn't do anything.

On the other side, after Feng Jie got here, they could do it directly.

At this time, the army of the New Moon City had already controlled all the surroundings, and there was no place to pass through easily.

Li Tian exhaled, looked up at Honghuang Qinglong, and then took him back into his body.

Soi Shadow didn't speak anymore at this time, obviously not wanting to let others know the connotation of it. At this time, he just looked at the two of them with a smile, as if looking at two pawns with a sad fate.

Feng Jie knew that he had been placed one, and knew that the whole thing today might make him very ugly for some time to come.

But now he has no better choice. He can only watch the dark shadow in front of him. The only thing he can do is not let this guy leave, or kill Li Tian.

Other than that, he can do nothing.

If you do that a little bit more, you may be regarded as a kind of cross-boundary behavior by others, and the result is naturally predictable.

He is the city lord of the New Moon City, and is also a relatively powerful immortal under the Emperor of the Big Dipper. He has reached out to the Emperor of the Big Dipper and his position in the God Realm is conceivable. Now he must think of himself as well as himself. The Big Dipper above, for whatever reason, had to protect Li Tian and grabbed the black shadow in front of him. When he was arrested, it would be easy for him to confide all the things in his mouth.

Seeing that the shadow moved away from him, Feng Jie snorted coldly, "I am all around here. You are already surrounded by me. Do you still think you can leave here? Even if you want to frame me, I believe in prison, you will tell us the truth honestly."

Chapter 5478: Missing

The shadow looked at Feng Jie and shook his head: "Huh, don't think that you can get any news in this way. I won't let you catch me like this easily."

I don't know who Sombra was talking to. The moment he finished speaking, he directly used the dagger in his hand against his throat, and the blood splashed out in the next second.

Li Tian was dumbfounded, and Feng Jie was dumbfounded.

They thought that the other party's methods were not simple, but they couldn't think that the other party's methods were so terrifying. This is a real powerhouse in the realm of immortals. Although there are not few powerhouses in the entire world of gods, they are relatively It is still very rare to reach the realm of gods and gods, and at this point, you can basically be the lord of some small main cities.

You can also become a capable man of the ***** emperor.

But such a powerful strength is nothing more than a chess piece used to frame Feng Jie in the eyes of the black hand behind the scenes.

When the blood was spilled, everyone went crazy.

Even Li Tian is a little scared. The man behind the scenes against him, even the master of the immortal realm, is not in his eyes, so how strong is he himself?

Could it be said that the opponent would be a master of God Emperor level?

And Feng Jie knows that he may have jumped into the Yellow River this time and he is not clear. Since the opponent can calculate the things here to this level, since he can make a fairy in the immortal realm willingly sacrifice for his mission. Losing his life, these two points alone are enough to prove that his calculations on this matter may be more complicated than they thought.

There must be something for this matter.

Seeing the dark shadow slowly falling from the air, the black clothes that had originally covered him also slowly fell off, revealing a face that many people knew.

It was a person next to Feng Tianxiang, a bodyguard who often appeared next to him.

In this way, even this matter is clear to everyone that there may be something tricky, but who would believe it? The yellow mud fell into the crotch, it was not **** or shit, not to mention it was still in this sensitive time period.

Looking at the person in front of him, Feng Jie's face was already dead.

"It seems that someone really deliberately wanted to make a big article about this matter, but I don't know whether this matter can be connected with the previous assassination of Master Ningbing in the ancient world. If possible, then this is very important. It may be a game beyond our imagination." Li Tian glanced at Feng Jie next to him and said in a low voice.

"I hope it won't be like this. For a person who can take the life of an immortal in the immortal realm so indifferently, I really can't imagine what kind of power is behind this person." Fengjie's expression on his face grew more and more. It's ugly, it's really because the opponent is too skillful. A master like the Immortal Realm can be alone wherever he is.

Now, it is used as a chess piece, it really feels like a cannon hitting a mosquito.

However, whether this shot is worth it or not depends on how they plan afterwards.

Although Li Tian is safe now, the context of the whole matter is now very complicated. What Li Tian knew is that Feng Tianxiang had indeed sent someone to assassinate him, but what he didn't expect was that the person next to him usually watched The guy who looked like a confidant was actually a potential danger. He was originally a spy lurking beside him. After this incident, it became the most effective weapon against Fengjie.

The most frightening thing is that this person has been with Feng Tianxiang for many years. Who would have thought that a chess piece could ambush for so long?

And before that, the strength displayed by Sombra was far from being so powerful.

"This stinky boy, I said long ago that you shouldn't be advocating on this matter. This is really a big trouble." Feng Jie glanced at Li Tian next to him, and whispered: "I still hope that Li Little brother, don't take this matter to heart."

"City Lord Fengjie is also the city lord of New Moon City anyway. I think your IQ is much stronger than that of Lu Xiu of Luoyang City. Therefore, I don't believe that this matter has anything to do with you. It won't change my position in the overall situation." Li Tian smiled. Although Feng Tianxiang did not do this thing properly, now that such a problem has arisen, the Feng family is suffering from its own bitterness, so he doesn't bother to intervene here. .

Feng Jie nodded, how could he not know Li Tian's current thoughts in his heart, but it was too late to say anything anyway.

It's just that I hate that this stinky boy is like an idiot, and he did such an idiotic thing behind his back, which made him extremely embarrassed now. If this matter is known to the Emperor of the Big Dipper, he must be furious.

At this moment, the sudden change occurred.

Li Tian, who had been standing next to Feng Jie, suddenly frowned. His chest was inexplicably hot, like a rising sun, even with dazzling light penetrating his chest armor. Coming out, in the night, Li Tian, who exudes fiery light, looked so obvious.

Feng Jie stared at him and turned to look at him: "What's the matter?"

Li Tian opened his mouth and suddenly realized that he could not say anything. He could only open his mouth, but could not make a sound. It was as if he was locked in a space without air. There is no sound here. The method used the medium to spread. As for her chest, this time it was already hotter, and it could be vaguely felt that his mental state had also begun to become trance.

Li Tian didn't know why he suddenly became like this, but the only certainty is that this phenomenon has something to do with the jade hanging on his chest.

In other words, it has something to do with Murong Ziqing!

In the next second, Li Tian, like a dazzling sun, released a radiant light, causing many people to close their eyes involuntarily.

Of course, this process only lasted a few seconds, and soon the entire sky returned to the black screen-like color again, as if nothing had happened before.

Feng Jie looked at the blood still flowing on the ground, felt the temperature under the dazzling light just now, but was always here, unable to find Li Tian.

A good-looking big living person just disappeared in front of them. This made many people watching here, all of them Zhang Er's monks, puzzled, and didn't know what happened just now.

Chapter 5479: Reverse call

Really, when people are unlucky, even if you drink cold water, your teeth will be congested.

Feng Jie felt that way at this time, because Li Tian, the problem involved now is difficult enough to deal with. I thought that Li Tian might have a little help next to him, who knows he hasn't had time to think about it. To ask Li Tian to help, Li Tian just disappeared by his side, without any traces or clues, as if the world had evaporated.

Looking at the army on the ground, a look of anger flashed across Feng Jie's face, and he sternly said: "Find it for me, dig around five feet, and find out where Li Tian has gone."

At the beginning, Li Tian refused.

When the feeling of dizziness and blurring appeared, he knew that it was a kind of space spell. When entering the free space, he had such a feeling for a moment.

Therefore, he wanted to subconsciously resist this feeling.

However, the opponent's power is far stronger and more terrifying than Li Tian imagined. There is no way for him to resist this power. In front of this power, he is like a baby waiting to be fed. The so-called struggle has no meaning in front of this power.

Therefore, after discovering that he had no way to refuse, he could only choose to accept.

Immediately afterwards, I saw that the world on my side was becoming fragmented bit by bit, like a mirror falling on the ground, all the surrounding scenery became a piece of things.

Then, these mirrors were restored again.

When Li Tian opened his eyes, he found that he was lying on a cold stone bed. The temperature around him was very low. Even a fairy like him couldn't bear the cold and couldn't help shivering.

"Run your immortal power immediately, otherwise the profound Yin Qi here can kill you." A familiar voice came from his ear, which made Li Tian very curious, but he did not look in a hurry, but quickly I started to run my own fairy powers, running through my body's meridians every day of the week. As expected, my body improved a lot. Although I could still feel the cold, it was not so difficult to resist.

At this time, he saw the person in front of him clearly.

No one else, it was Murong Ziqing who had met before in New Moon City.

At this moment she was standing next to her, leaning on the wall with one hand, looking pale at Li Tian in front of her: "Things have changed, so I can only use this reverse-summoning spell to summon you here."

"where is this place?"

"Dongtian Fudi, also known as Xuanyin Temple." Murong Ziqing took a long breath and glanced at Li Tian. Her voice was feeble, and it looked like she had been drained of vitality. In addition to that pale face, Li Innocently worried, she will die anytime, anywhere.

At the same time, I was very puzzled, wasn't this woman kept in the Forbidden Land behind the Shuiyue Sect? So how did it appear here?

"Don't be suspicious, what you see now is just a clone of me. The Xianli participating in the present can only hold on for about ten minutes. If you have any questions, please ask as soon as possible." Murongzi snorted coldly. , Glanced at Li Tian and said.

"Xuanyin Hall, is that where you wanted me to come before?"

"That's right. Some changes have taken place here. Most of the Shuiyue sect disciples who stayed here have died tragically. There are guardian spirit beasts and strange ghosts in the Profound Yin Hall. These creatures have strong strength, plus hundreds of billions of dollars of cultivation. Over

the years, after absorbing the aura of Xuan Yin, ordinary immortals may have some ways to deal with them, but the immortals of Shuiyue Sect are more difficult."

This also lies in common sense that the qi of Xuan Yin belongs to cold qi.

And what Shuiyue Sect cultivates is the water system technique.

It happens to be restrained by this cold air, and only those who are strong enough to a certain degree will directly ignore this difference in attributes.

"That said, I still have some advantages here."

"I just sneaked in here while they were fighting. I don't know much about the situation inside the Profound Yin Temple. The only thing I know is that it is dangerous. Originally they thought this place was a heaven and blessed place. You can harvest the treasures of heaven and earth. I never thought that there are so many wolves and beasts hidden here. When they sneak in, these spirit beasts and ghosts will swarm them and kill them." Murong Ziqing sneered, obviously It's for the experience of those people in the Shuiyue Sect before, without any sympathy: "There is one more thing you have to keep in mind. Here, you may encounter evil spirits at any time. Once you encounter it, don't fight it. With your strength, it's simply not enough to resist evil spirits."

"You have told me a lot of things that are not optimistic, so now can you tell me anything that is more optimistic?"

"That's one thing. You don't need to worry about being discovered when you sneak in. You have now entered the Profound Yin Temple, and my reverse summoning has succeeded. Whether you like it or not, you must be here. Stay alive." Murong Ziqing said this, with a successful conspiracy smile on his face. When he saw this smile, Li Tian really wanted to scold his mother.

"It will probably take some time for them to enter here. During this time, you can take the opportunity to familiarize yourself with the terrain here, make good use of these things, and deal with the people of Shuiyue Sect. This time, the strength of the people from Shuiyue Sect is uneven Qi, there are some people who don't know each other. You can get in. Maybe you can get some good news by fishing in troubled waters." Murong Ziqing said as his figure began to darken.

Obviously, her current state is really unable to continue.

"Then what if I meet those elders of Shuiyue Sect? Their strength is far above me. What should I do if I meet him, I'm afraid I won't be their opponent?" Li Tian looked at He glanced at Murong Ziqing, hoping to get help here, but in the end, he was disappointed.

"There is no way. If you really meet those elders, you can only ask for your own blessings, and I can't protect you." Murong Zi said calmly, as if to say a normal thing: "The next thing is to rely on yourself and resign to fate. If you die, I can only use other means, but if you survive, the things you get in this cave will be enough for you to practice for hundreds of years. ."

It takes hundreds of years to practice directly, which is the power of Dongtianfudi, no wonder so many people want to enter it.

Chapter 5480: Commandment Hall

Looking at the serious Murong Ziqing in front of him, Li Tian really regretted why he couldn't be more resolute in his previous attitude. If she wanted to forcefully summon herself over, she would directly force her to death.

This is all right. Although he has entered the Profound Yin Hall, there will soon be a lot of Shuiyue Sect masters, including several elder-level powerhouses. The strength of such old monsters is unfathomable. Although there are many elders in Tianluo Zong, most of the elders are very ordinary. This is also because they need a lot of such named'elders' to implement control on their behalf.

After all, Tianluo Sect is not the same as Shuiyue Sect. They are the most active sect in the God Realm. They have been committed to wandering among the major forces and establishing a neutral environment belonging to them. In this neutral environment, they A lot of resources can be obtained to become a unique existence independent of the major forces, and it is a unique existence that cannot be shaken.

Even if this process is implemented, it may take a long time, but Tianluo Zong has time.

"By the way, you have to be careful. Although the disciples of the Shuiyue Sect are all women this time, there are some individual exceptions. That is, there is an independent gate in the Shuiyue Sect, the Discipline Hall. The elders inside are powerful and all men." Murong Ziqing seemed to have thought of something. He looked at Li Tian, who was still regretting, and reminded: "Don't think that you will feel invincible when you meet one or two old men. ."

"Shuiyue Sect is not a rumor, has it always only accepted women?"

"Strictly speaking, the Commandment Hall has nothing to do with our Shuiyue Sect, but it is just a gate that the Sect Master used to punish the disciples in the door a long time ago. A woman is softhearted, and it is always difficult to punish disciples cruelly. Before, the rules of the Shuiyue Sect were not strict, and there were frequent mistakes in the sect. Therefore, such a precept hall was formed. They have always been independent of the Shuiyue Sect. Whether it is the selection of the hall master or the acceptance of disciples, all It has nothing to do with us, but their purpose has not changed for so long."

Discipline Hall, this is a very terrifying name in the Shuiyue Sect, but all the disciples who worship the Shuiyue Sect, the first thing they do when they enter the Sect is to be familiar with the rules.

Knowing what can and cannot be done in Shuiyue Sect.

However, even if some people know it, they will always make mistakes. At this time, the terrible aspects of the precepts hall are revealed, but none of the disciples who have been to the precept hall dare to make mistakes again.

There are rumors that the men in the Discipline Hall are all BT, and the punishment for these women is more of an insult.

Naturally, this kind of rumor has become a sharp blade for all Shuiyue Sect disciples, reminding them not to make mistakes, or they will be sent to the Discipline Hall.

Slowly, Shuiyue Sect's rigorous atmosphere up and down formed.

No one wants to go to the precepts hall, everyone wants to be able to stay away from the precept halls, wishing to engrave on their own body.

However, although the role of the precepts hall has been reduced a lot over the years, they have always existed, and the connection with the suzerain is getting closer and closer. No one knows the meaning of their existence.

Murong Ziqing looked at Li Tian and hesitated to say: "Forget it, these things are not very easy for you to understand, even if you know it, it may not be of any benefit."

"It seems that the Commandment Hall has now become a malignant tumor of the Shuiyue Sect?" Li Tianqiang laughed. Such things are not rare. A control method similar to Commandment Hall is like a double-edged sword. , There are advantages and disadvantages.

"Don't ask anymore, knowing that so many things are only a heavy pressure for you, and there is no benefit at all. Now let's honestly think about how to find the resurrection grass here." Murong Ziqing said, the body has begun. Slowly I can't see clearly: "Remember, people who encounter the Discipline Hall must be careful to avoid them. Never fight against them. Their strength is far beyond your imagination."

Slowly, Murong Ziqing had completely disappeared. Only Li Tian was sitting on the stone bed alone, feeling the cold sensation from the surrounding stone walls.

The Discipline Hall is a bit strange to them, probably only the Shuiyue Sect people know the existence of this gate, but thinking of the way they punish female disciples is nothing more than that, men can do good things to women ? What's more, there are still a bunch of big men who look at women all day?

The disciples of the Shuiyue Sect pay attention to being pure-hearted and low-spirited. When practicing in the sect, they are not allowed to get close to the men of the precepts hall. This also causes these men to secrete excessive male hormones.

Therefore, entering the precept hall is definitely a blood mold for eight lifetimes.

Probably the suzerain who founded the Shuiyue Sect did not expect that the Shuiyue Sect, which was used to restrain the Shuiyue Sect and make the sect more powerful, has slowly transformed into the Shuiyue Sect after a long history. A malignant tumor, this is also a systemic issue, and it is also a manifestation of the inaction of several sovereigns.

With a light sigh, Li Tian put all the thoughts in his mind behind him: "What do I want to do with these things? The life and death of Shui Yue Sect has nothing to do with me, as long as I can restore the memory of Ningbing. No matter how high the price is, there is no problem. Not to mention the people from the precepts hall standing in front of me, even if the **** emperor is in front of me, I will not frown."

The Resurrection Grass is in this Profound Yin Hall, but with the reminder of Murong Ziqing before, he now also knows that this cave is not as safe as it seems.

His current position should still be in a relatively secret cave at the entrance. There is a stone bed here. The surrounding space is not very large, but it is just enough for him to stand up here.

But he only needs to stand up, and always beware of his head hitting the stone wall.

This Xuanyin Temple, which is built underground, should take some distance to enter. I don't know what's inside these stone walls. It should be an environment where I can't see my fingers, but at this time it looks a little bright, and many things are displayed. In front of Li Tian.

He moved his body a bit, and the reverse summoning still had a certain degree of influence on his body, but it was only a small amount, and there was basically no problem now.
