

## A Killer 5481

Chapter 5481: pattern

Li Tian cautiously fumbled the surrounding walls. He was very worried that a random movement of him would trigger what mechanism was here.

Seeing what Murong Ziqing looked like just now, it was obviously not easy to be able to enter here, and he could also use the reverse summoning method to directly summon Li Tian, who was far away in New Moon City.

The most important thing is that it was only a clone who did all this.

When I saw Murong Ziqing in Broken Cloud Mountain Range before, I felt the strength of this woman, just like a bottomless abyss. You will never understand how powerful she is.

After witnessing all this with his own eyes, Li Tian couldn't believe that Murong Ziqing was an ordinary Shuiyuezhong elder-level existence.

This should be regarded as a monster-level strength, the clone is so powerful, what is the main body?

Thinking of this in his mind, his hands kept on, and the surrounding walls were very smooth, without any edges and corners, and I could feel that this was directly 'melted' here with a terrifying force. In a cave, if the cave was dug with a sharp tool, the wall must be angular, but Li Tian didn't find anything in it.

Therefore, it is certain that this cave was melted directly by a force.

Just like you melted a puddle directly on top of the ice with a fireball, the puddle must have no edges or corners.

This cave felt like this at this time.

The surrounding stone wall is very smooth, it feels like a piece of uncut jade, and there is still a faint light shining out of the stone wall, and there is still light inside the cave, probably because of this reason.

After confirming that there were no traps inside the cave, Li Tian began to walk slowly outside.

Leaving the position of the stone bed before, you can see an exit in front of it, which can accommodate two people and expel them, but after exiting from this exit, Li Tian was stunned.

On the \*\*\*\* ground, many stumps and broken arms can be seen everywhere, as well as blood-stained clothes fragments.

The ground was all the dead Shuiyuezhong disciples, these beautiful female disciples, at this time, all died tragically, one can think of how terrible they were attacked before they died.

Xuanyin Temple, they thought it was a place where they could harvest treasures. The moment they opened the entrance, the sudden suffocation directly tortured these disciples who failed to leave in time.

"Hey, people die for money and birds die for food. You guys came here to \*\*\*\* treasures. Most of you should have thought that the treasures here are not so easy to get." Li Tian shook his head and

glanced at the position of the corpse. It seems that walking towards the east should be the exit, and the path of the exit is straight up, which means that the position he is now in should be underground.

This Xuan Yin Temple was actually built underground?

It seems that these powerful and powerful people sometimes really like to do some pranks. Since it is called the Xuanyin Temple, it must be a huge building, and being able to build such a building underground, I can only sigh The strength of this builder is strong, and the manpower and material resources used here are definitely not as simple as Li Tian imagined.

He chanted the Buddhist mantra silently, said a dharma sign, and then turned and walked towards the west.

The east is the exit, so naturally the west is the place to go deeper, and he can walk now with nothing more than two paths, one exit and one entrance.

But don't think about it, the export is definitely not available now.

Since Murong Ziqing had summoned himself in reverse, and also told him about the situation here, he was obviously not worried that he would choose to escape at this time, because there must be many Shuiyue sect disciples at the door, and maybe the Discipline Hall Those old BTs also followed. There may be some chances of winning against one or two Li Tian, but if the number is too large, it is impossible for him to escape.

As a result, Li Tian basically had no choice now, so he turned and walked towards the western passage without hesitation.

At the beginning, the road was enough for five people to walk side by side, but as the road was winding downward, it became more and more serious, and only one person was left behind.

While on the road, Li Tian still wasted a lot of time, just because of the words Murong Ziqing said before, he had no confidence in his heart, and worried that he would encounter some spirit beasts and strange ghosts here. They are all moving forward carefully, not daring to touch any thing here, for fear that they accidentally touched some mechanism to start something terrible here.

But as he stayed here longer and longer, the thoughts in his mind became more and more serious. Can you really find something like Reincarnation Grass in this ghost place?

There are stone walls all around, and there is no mud. It may have gone deep into the ground for tens of thousands of meters. If it is on the earth, it is estimated that magma can be excavated.

At this time, Li Tian was surrounded by stone walls. These stone walls were not as good as the previous caves. They were angular and should be cut with sharp tools.

When Li Tian walked down this road, it took about half an hour. It took a longer time for the people who dig this passage to dig such a cave.

As time went by little by little, the distance between Li Tian and the Xuanyin Hall was gradually getting closer.

And at this time, the coldness around him has become more and more solid, and it doesn't take long here. If you don't use the Immortal Force to protect your body, you may be directly frozen to death.

"This place looks a little scary, and this kind of mysterious atmosphere is unbearable even for the body of an immortal." Qinglong's voice quietly sounded in Li Tian's mind, which seemed very unexpected.

"Of course I know that it is already very difficult just to go all the way like this here, not to mention that we have to face spirit beasts and strange ghosts. Once we fight, the consumption of immortal power is even greater. We want to be so easy. In the past, it was too difficult." Li Tian stopped. He knew that he was almost near the Xuan Yin Temple now, but he didn't want to continue walking.

Because even if you enter the Xuan Yin Temple first, nothing good will happen.

The first person to eat a crab may be a hero, or he may die and become a pile of shit!

#### Chapter 5482: Preaching

"Are you going to wait until the people from Shuiyue Sect come over to help you find the way?"

"This is probably the best way. Murong Ziqing has told me before that there are spirit beasts and strange ghosts in this Profound Yin Hall. They have been here for so long. The environment has long been accustomed to it, and I can fully display my original combat power, but I can't. The cold here is enough to consume a part of my immortal power. If it is used to support the battle, I may not see the resurrection grass. I'm going to die here." Li Tian shrugged helplessly, looked at the deep entrance in the distance, and said.

"But you are like this, it's not that simple to get involved in the Shuiyue Sect team, and the Shuiyue Sect is only male, and the others are all women. Are you going to change into women's clothing at this time? Pretend to be a woman and mix into their team?" Honghuang Qinglong asked.

Li Tiansan smiled, but didn't say anything.

But at this time, there was a strange sound in his ear, like water dripping on the stone wall, but on the right side of the passage.

"There should be nothing on the right side, but why is there a voice coming from it? Is there any mystery here?" Li Tian whispered, and then slowly summoned Hong Zhan, Shen Nian After unfolding and feeling it, these stone walls should have the function of isolating immortal power. He couldn't feel the other side of the wall. He was like a blind person here, unable to feel anything.

Even so, it is still certain that there must be something extraordinary on the other side of the cave.

While thinking about it, he raised the Red Zipper in his hand, then slashed it down fiercely.

‘Clang.’

Sparks flew everywhere, and Hong Zhan's hard blade slashed on the stone wall, only to produce some sparks, leaving a faint white mark on the stone wall, but there was no sign of damage at all.

Li Tian was dumbfounded, he knew how powerful Hong Zhan was.

This is a super artifact that has been with him for so long, relying on it to be born and die, if it weren't for Hong Zhan, Li Tian might have already died by now.

But with such a powerful weapon, when facing this rock wall, there was no way, it just left some faint marks on it, and it shook Li Tian's hands numb.

"It's a hard rock." Li Tian murmured, touching these stone walls, he didn't feel anything at first, but now he has noticed the difference. Even Hong Zhan can't destroy these stone walls, so the people who excavate here, What was the excavation used?

He was thinking about this while looking around. If there was anything that could destroy these stone walls, it would probably only be found here.

He turned his gaze, and suddenly he saw some broken stones on the ground.

Stepping forward, he picked up the broken stones carefully, and put them in his hands as serious as observing a little life. Looking at the broken stones in his hands, Li Tian probably knew what to do at this time.

Just like the source of contradiction.

Isn't it just the right choice to use the stones on the stone walls to dig them?

Although the broken stones on the ground are very small, some of them are the size of a fist. If they are used, they can also destroy the stone wall.

Li Tian picked a relatively large piece, and then gently tapped it on the rock wall, he wanted to see if it had any effect.

As he expected, these stone walls became as fragile as tofu after encountering the impact of the same material. Li Tian didn't bother to slap the next piece with ease.

Then he used the knocked piece to continue digging.

Slowly, an arch-like entrance with a height of one person appeared in front of him, and on the other side of the entrance was a dark cave. The moment he dug out this entrance, he felt a The stench came from inside, although it was only a brief moment, but the unpleasant smell still made Xu Yang unable to forget.

The sound came from this cave.

Li Tian didn't know if there was anything in it, but I guess there shouldn't be anything. If there really were spirit beasts or strange ghosts, these creatures had already used them when he approached here, but now they are There has been no movement, as if Li Tian had not been found at all.

He thought that this cave may have been formed naturally, or it was unintentionally created by excavation in the past, but it was not filled in at the back.

The Hong Zhan in his hand glowed slightly, illuminating the surroundings.

This is a place that looks a bit similar to a mine. You can see a lot of traces of human activities here. That is to say, there were activities here a long time ago. The most likely one is the batch of excavation here. People.

"This is probably the place they usually use to rest, and it was sealed up afterwards." Li Tian quickly figured it out. Since this is a place for excavation to rest, maybe something good can be found, he Thinking about it, while entering inside.

This cave is wider than the previous one, and it looks like a small square.

He was walking, and suddenly there was a 'click' from under his feet.

Li Tian, who was already very nervous at first, lowered his head anxiously. There was a person's rib on the ground, but he broke it when he stepped on it. The person's ribs turned out to be pale gold, and they looked like gilded. , The faint golden color shone with strange brilliance under the sunlight.

He looked at the rib under his feet, then swallowed.

This place was blocked, and he did not find anything similar to the material on the stone wall here, that is to say, it should have not been opened for a long time.

And at the moment the cave opened, the stench that rushed to the face was still fresh in Li Tian's memory.

I was still wondering where this smell came from before, but now I understand it somewhat.

The workers who were responsible for digging this passage were probably all thrown into it. The ribs under the feet should be the corpse of a certain deceased, leaving behind something.

As he thought, he squatted down cautiously and took a look at this rib, and then the light of Hong Zhan shining even more, he wanted to check some useful clues here.

Chapter 5483: Red Eyed Zombie

As the light became more and more shining, Li Tian could see more and more things.

Soon, more human bones were seen on the ground. If these bones were assembled, there could probably be hundreds of human bones.

One can imagine how much manpower and material resources were spent to build the Xuan Yin Temple.

Using so many people, it turned out to be just for digging such a cave.

As Li Tian thought, he joined several bones that looked similar. Most of these bones were male bones, but there were also a few female bones, just a small number.

So many people have been closed here, spent so many years, just like this?

It is vaguely visible that there are some traces of battle left over on these bones. I think they have experienced battles before in the next life. Many people are like this. Maybe they all died here because of battles.

The immortal body itself doesn't have much advantage here. Coupled with so many years and various unstable factors in the Profound Yin Temple, Li Tian still understands their emotions about leaving here.

But knowing that you cannot leave here, nothing may happen in a short time, but the problem may become very serious over time.

You must know that there are not only men here, but also women. The immortals themselves do not need to eat. Even if they are locked up here, they should be able to survive forever if they concentrate on cultivation, but because of the existence of women, they will be created. The root cause of the problem.

The contradictory plan is because of women's ownership.

The women here are considered a disadvantaged group, and only strong men deserve to have it. This is the only thing they can do, and spend their boring time on venting to women.

The war between men has led to fewer and fewer injuries, more and more injuries, and more and more uncontrollable contradictions.

Step by step, everyone here is dead.

Died in despair, also died in \*\*.

It's said that after human beings ascend into immortals, they will throw away their emotions, desires and desires, and become the most noble existence between heaven and earth, but only when they reach this state will they know that this is just a cover for deception. People have soared, how can the immortals here meet their own sex?

Li Tian walked step by step, seeing a lot of bones on the ground.

There are also some weapons and magic weapons, but after so many years of devastation, they can no longer be used.

But the treasures and weapons that can be kept here for so many years are definitely not simple treasures at the beginning. If they were only simple treasures, they might have been directly turned into a muddy pile in this time period.

After such a long time, they can probably maintain their previous appearance. It can only be said that these treasures and weapons are very expensive materials. It is a pity that they can only slowly rot in this ghost place under the devastation of years. .

Li Tian shook his head helplessly, and continued to deepen into the cave.

At this moment, the light of Hong Zhan suddenly became stronger, and the entire sword body released a dazzling light, as if he wanted to illuminate everything around him, Li Tian could see the extremely fine details inside the cave. .

At this time, I couldn't help but wonder why Hong Zhan had such a vision, and hurriedly checked.

"Be careful, there seems to be something terrible in front of you." At this time, Honghuang Qinglong also felt it.

Li Tian frowned, "Why didn't I feel it?"

"I don't know, but the resentment of this thing is very powerful. She is like a product of resentment. The resentment alone makes me feel very scared." Honghuang Qinglong's voice trembled, as if facing directly. Facing a very terrifying creature, Li Tian still didn't feel anything at this time. He had no idea what happened to the sudden occurrence of Honghuang Qinglong and Hong Zhan.

He raised his head and looked in front of him. As far as he could see, all the places he could see were pure colors, but a little deeper, it was still black.

These blacks are like devil's minions, unwilling to give in the slightest, and they are still eating away the light bit by bit, just like a trace of demonic energy, looking for flaws and attacking you.

With the reminder of Honghuang Qinglong and Hong Zhan, Li Tian also got serious at this time.

He squinted his eyes and looked at the situation in front of him, frowning unconsciously: "You said, if I choose to turn back now, is it a bit late?"

"Although I can't see it, this feeling is very strong. This thing is near you, but she is dormant and is not in a hurry to attack." Hong Huang Qinglong whispered: "If you can, I advise you to fight well. The preparations for this guy are much more difficult to deal with than you think."

Li Tian nodded, tightly holding the red sword in his hand, and directly entered the state of the red wing divine outfit. Now that he knows the strength of the enemy, there is no need to hide it: "No matter where you are, just do it. Well, I'm too lazy to consume my patience with you."

His voice echoed continuously inside the cave, farther and farther away, but he didn't get any response.

Li Tian squinted his eyes. If he is really a spirit beast and a ghost, he probably has an IQ. At this time, seeing himself fully armed, he would definitely not choose to attack at this time.

So, he directly disarmed himself, and at the same time collected the red cut in his hand.

Of course, all this is just a superficial phenomenon. If Li Tian is willing, he can re-enter the fully armed state in the next instant. The reason for this is that he only hopes that the creature thinks that he has relaxed his vigilance now. Will take the initiative to attack themselves.

Li Tian is waiting for such an opportunity to take the initiative.

However, in the next few minutes, Li Tian still did not encounter any attacks, and he felt that this might be a prank: "You two shouldn't be, right?"

"This is impossible. This resentment is very deep. I just touched it, and I feel scared until now. This is definitely not my wrong feeling." After hearing this, Honghuang Qinglong immediately retorted with disdain.

As soon as the voice fell, Li Tian saw a strange creature rushing towards him.

Because the speed was too fast, he didn't see too clearly, so he dodged directly, only seeing scarlet eyes.

When he turned around, he realized that behind him was a red-eyed zombie with long hair.

#### Chapter 5484: Resentment

Seeing the red-eyed zombie in front of him, Li Tian felt the terrible resentment. She was wearing a white dress, but at this time it was in tatters, with blood stains on it.

There is also some sloppy hair, like a grass nest.

The only thing that makes people empathetic is the resentment in those red eyes, which can immediately affect your emotions, making your mood unnaturally angered.

Li Tian frowned and went directly into a fully armed state, looking at the red-eyed zombie in front of him, and said: "The grievance of this zombie is indeed terrible."

"This kind of resentment can be called the ultimate sublimation. It is hard to imagine a zombie with such resentment, coupled with so many years of cultivation, what terrible strength will be."

Honghuang Qinglong was worried at this time. What should Li Tian do if he can't deal with the red-eyed zombies in front of him?

Although the strength of the red-eyed zombie should not be very good.

But the one in front of me has been cultivating in the Xuan Yin Hall. Compared with those spirit beasts and ghosts, it is not inferior. It is hard to say how terrifying the fighting power of this red-eyed zombie is, but Li Tian thought It is probably impossible to deal with it easily, even he is probably worried that he will not be able to face the entanglement of this red-eyed zombie at this time.

The aura unfolded, and the bitter cold made the red-eyed zombie's resentment a lot, but when her aura unfolded, the resentment behind her slowly extended like a spider silk web.

Li Tian held up the Hong Zhan in his hand, and a pure sword aura directly chopped it out, extinguishing all the resentment that was approaching.

"I don't care what you are, but I want to come. You only have very simple wisdom. I have no grievances with you. I just want to find some clues about the Xuanyin Temple here. If you don't mind, let me go now. , I can assume that nothing has happened, otherwise the two of us will have to fight one battle today." Li Tian looked at the red-eyed zombie in front of him and said helplessly.

The levels of these zombies are also different. Usually the red-eyed zombies should have reached the point where they can slowly evolve their IQ, and the higher level is the corpse king, the corpse god, the quib, and the original ancestor.

It is said that the most powerful zombie king and minister, the strength of the original ancestor, is currently the only zombie in the entire world that can reach this strength.

At his level, he is no different from immortals. It can be said to be a zombie, but it can also be said to be a human. The only difference is that he can directly create some corpse kings and corpse gods through his own blood.

In this way, you can easily create a zombie army.

The red-eyed zombie in front of you is not a powerful character, but the resentment of this one, coupled with the strong mysterious atmosphere on her body, has already made her look like ordinary zombies. Up.

Li Tian waved his hand and pinched out a few spells, imposing the imperial wind technique on his body, and at the same time he was ready to attack with fireball.

The red-eyed zombie looked at Li Tian and seemed to hesitate. With his current intelligence, about the same as a seven or eight-year-old child, his thinking was still very simple, but he just wanted to kill Li Tian.

But she also knew that the prey in front of her looked very difficult to deal with, just like a hedgehog covered with spikes, there was no way to start.

"If you are willing to let me go, you only need to get out of this position now, and I will naturally not attack you. Otherwise, if the two of us fight, you will probably lose, even if you have been practicing here for a long time. , After all, it is a red-eyed zombie. Without zombie cultivation techniques, your level will not be improved, and your strength will not be much stronger." Li Tianli laughed and said.

The red-eyed zombie seemed to understand something, but looked angry, and roared hoarsely. The whole body's resentment came once again.

This time the resentment was like a torrent of river water. With waves coming, Li Tian constantly waved his sword air, and the dense sword air was like shutters, extinguishing the resentment madly.

And the red-eyed zombies screamed at this time, with long hair squirming like an earthworm, and the nails on their hands were getting longer and sharper.

'call out'

She stabbed Li Tian directly and fiercely.

Li Tian hurriedly resisted with a red cut, and at the same time quickly pulled away. Looking at the dark color of the nail, it is not difficult to imagine that it must be highly toxic. If he wants to survive now, he must have it. Not contaminated with these toxicity.

Seeing that his attack hadn't produced any effect, the red-eyed zombies were obviously anxious and began to attack without any rules.

Li Tian looked at this disorderly attack, and felt like he was facing a child with no combat power. This zombie was full of resentment and had the strength of a red-eyed zombie, but he didn't know how. Using this kind of power is like a young man with hundreds of years of ancestors' power, who can't control the inner power in his body at all.

I don't know how to use my spare wealth.

"This zombie looks something special. His resentment is very powerful, but he doesn't know how to use resentment to attack. The current method seems to be instinctive, without any offensive power." Obviously, Honghuang Qinglong also discovered this. The special thing about zombies.

Li Tian looked at the zombie in front of him, thoughtfully.

Afterwards, she thought of the bones and the sealed caves before, and then sighed deeply, some want to cry.

The Hong Zhan in his hand seemed to feel the same emotions as Li Tian, trembling slightly, emitting a faint light: "It seems that there shouldn't be much difference in what I think, or let her be relieved like this, so painful. Go down, there is no future."

Li Tian did not know the generals, nor did he know where the rumored king of zombies was. In addition, the red-eyed zombie in front of him was not a real zombie at all. It was more like a zombie who turned into a zombie because of resentment. Although he has a long life, he doesn't know how to cultivate to change his destiny, so even if it is another 100 million years, it is impossible to enter a higher realm.

Living in this world is nothing but a purely pitiful person because of my grievances.

To be alive is torture for her.

It would be better to take a straight sword now, take her life and let her free.

Chapter 5485: Reborn curse

If it were a real red-eyed zombie with such terrible resentment, even facing a strong man in the realm of gods, it would be unstoppable.

And after so many years of training, his strength doesn't know how strong it will be. If it is such an opponent, even if two more Li Tian stand here, they will definitely not be such a zombie opponent.

But the one in front of him does not have any combat experience.

The emotion conveyed by the red sword in his hand made Li Tian feel the same. It was a very sad and sympathetic feeling. It was like sympathizing with the red-eyed zombie in front of him. A strange voice started in Li Tian's mind. When it sounded, he instinctively sang along.

Nanwu Amitabha Ye Dota Gadoye.

Duo Di Ye He Ami Li Du Po Pi.

...

This is the Buddha's rebirth mantra. Li Tian also heard it when he was on the earth a long time ago. Therefore, he was relatively familiar with this rebirth mantra. When he discovered that the mantra was chanted from his own mouth, it was still somewhat Strange.

However, he also knew that this was Tang Feifei's will within Hong Zhan, a kind of overpowering to the red-eyed zombie in front of him.

Of course, if you really want to recite the mantra, you should cleanse the three karma, bathe, rinse your mouth, be sincere, burn incense in front of the Buddha, kneel and close your palms, recite it twenty-one times day and night. If this is the case, the four felonies, five sins, ten evil karma, and even the sin of slandering the Mahayana scriptures can be eliminated. Everything you ask for in this world can be obtained as you wish, without being deceived by evil spirits. If you can recite it 200,000 times, there will be sprouts of wisdom. If you recite it 300,000 times, you can see Amitabha yourself.

Li Tian is not from Buddhism, and in addition to where he is now, I don't know whether the prayer will be effective.

As the curse was chanted softly, a scent like flowers appeared in the cave that originally smelled strange, and Li Tian also slowly appeared a touch of indifferent gold.

The golden light became stronger and stronger, like the sun, standing in place, looking at the extraordinary sacredness.

The whole body of the red-eyed zombie came to a halt. She looked at Li Tian in front of her a little sluggishly, as if she didn't know where this power came from, and what kind of help it had to her.

She just stood in place like a child, and had forgotten to attack.

Li Tian had a sacred expression at this time, which was also completely uncontrollable. After chanting the spell to a certain level, he felt that his whole person seemed to have entered another state. In this state, he saw Everything in this world is full of vitality, even if the creature in front of him is a red-eyed zombie, in his opinion, it is no different from other creatures.

This may be what people often say, the world in the eyes of Buddha.

The golden light slowly formed a vague voice behind Li Tian, and then the mysterious Sanskrit sound slowly sounded, and the voice began to make the red-eyed zombies scream in pain, just like a spiritual power.

The voice was exceptionally harsh, reverberating continuously throughout the cave, and even Li Tian subconsciously wanted to cut off his hearing.

him against him. According to normal times, he might have been punished a long time ago, but now he was just angry, frightened, and frightened, but he didn't mean to make a move.

Chapter 5486: Tragic product

At this time, inside the Xuan Yin Hall, Li Tian's situation had become more complicated.

The red-eyed zombie in front of her looked like she was suffering tremendously, making her feel guilty, thinking that all of this was her own reason, but after the death mantra was read, there was no way to stop.

He could only look at the painful wailing of the red-eyed zombie in front of him, but he couldn't stop the movements in his hands at all.

As time went by, the wailing of the red-eyed zombie also weakened a lot. It sounded like she had no strength to continue wailing. At this time, all the clothes on her body had been shattered, and her skin had disappeared, revealing the inside. Sensen's white bones, at this time, a trace of black resentment was separating from her bones, and the faint golden roots were planted on her bones, which looked particularly wonderful.

After seeing this scene, Li Tian knew what was going on.

The red-eyed zombie in front of him is still a filthy thing after all, or a zombie. If you want to save her, you must clean up all the filthy things in her body.

What the Death Curse was doing at this time was to reproduce her original appearance while also separating all the grievances in her body.

It is precisely because of the existence of these grievances that she has become what she is today, and this grievance is the root cause of her being trapped here for so long.

With the intrusion of golden light, these grievances were quickly annihilated like fire meets floods.

Then, what appeared in front of Li Tian was a girl in the form of soul.

He is about 1.7 meters tall and his skin is fair, but at this time it is glowing with a faint white light, which looks like he is smeared with fluorescent powder. The oval face, willow eyebrows, and big watery eyes make people excited. Definitely a beauty embryo.

There were tears in the corners of her eyes, and when this face appeared, she knelt down in front of Li Tian: "Thank you, En Gong, and thank En Gong for saving me in the fire and water, I... I am so speechless. In return."

"I probably guessed what happened to you. You are also a poor person. What I did is nothing at all." Although Li Tian probably guessed some, it was just a guess after all, so he still had some doubts, so he asked: "If you don't mind, I still want to know what happened here, who is the owner here, and where is this Profound Yin Hall?"

The girl raised her head, looking at Li Tian in front of her, she couldn't help sobbing.

Li Tian was not worried, but just waiting.

After crying for a while, the girl began to explain.

She didn't know who the builder of Xuan Yin Temple was, but she knew something about what happened here.

The master who designed this place in the past summoned all the powerhouses of the gods here. It is said that they wanted to build a temple that could last forever. These people, driven by benefits, began to sell their lives for this person.

It took them hundreds of years to finally build this vast Xuan Yin Temple.

During this time, almost everyone lived in this mine to work, and occasionally some people would leave the Xuanyin Temple and go outside to find some rare materials. This way, hundreds of years have passed. In fact, everyone knows each other a lot. The only thing that is not clear is who the design was originally, and that person usually just shows up in a mask.

Until the end, they did not know what the identity of that person was.

Just when they were about to leave here on the last day, they were suddenly sealed in the cave. At the same time, they were sealed in. There were also ten girls without the power to bind chickens. All of them were not in the gods. You can imagine the treatment of ordinary girls who have been locked up here.

On the first day, they became banned by many people.

But as time passed, the contradictions between these strong men began to intensify, and because of these ten beautiful and flowery girls, they began to fight each other.

This way, more and more people died, the grievances in the cave became stronger and stronger, and the taste became more and more enmity.

And the remaining girls also suffered many times to death.

The girl in front of Li Tian was the only one left, named Honglian.

She is the most beautiful of these ten girls, and also the one who suffered the most severe damage, but her willpower is very strong, she insisted abruptly, and the two strong men who survived finally competed for the red lotus , Fighting, the two people have accumulated very serious injuries in the previous battle. In this battle, the old injuries recurred and both suffered.

Later, because of the injury, there was no way to recover, so he directly lost his life.

Perhaps in Li Tian's opinion, their behavior is a bit stupid, but it is understandable. No matter who has been kept here for so long and accompanied by beautiful and beautiful beauties, it is definitely impossible to practice peace of mind. , And with the indulgence of the sex, their emotions will only become more and more irritable, and it is impossible to concentrate on cultivation. In this way, the ultimate fate is also very natural.

Honglian's daily food is the corpses of the dead strong men. With the sharp sword in their hands, the flesh is cut off from them bit by bit and eaten raw.

At the beginning, there was some nausea, but in order to survive, she could only drive herself to continue like this. She didn't know if she would live out from here, but she knew she wanted to survive as much as possible, waiting for others to rescue.

Only the longer you live, the more likely it is to leave this terrible place.

Slowly, the accumulation of resentment in her heart became deeper and deeper, and coupled with the heavy corpse in the cave, she slowly began to become delirious. I don't know when it started, and she became a muddle-headed red. Eyes of zombies, these years relying on the grievances in the

cave to sustain her life, she has survived in this way, knowing that Li Tian opened the cave today, all the grievances suddenly disappeared, and she woke up from her deep sleep. Come here.

Seeing the first living creature in front of me, the first thought was of course to swallow it directly.

But in the end, she was overtaken by Li Tian, and she became what she is now. Looking at her tragic expression, it is obvious that it has not been easy to come over these years. As an ordinary girl, she has experienced so many things about the world, Li Tian I don't know what language to use to describe it.

His heart has long been accustomed to such things, so there is no particularly big fluctuation.

Chapter 5487: The secret of Xuan Yin Temple

When he heard this, Li Tian could only sigh: "In your current state, you should be entering the realm of rebirth soon, reincarnation."

"Thank you for your superpower, so that I can get rid of my grievances and become myself again. If it were not for you, maybe tens of millions of years later, I will still be a muddle-headed zombie, the great kindness of my benefactor, I don't want to repay in this life, I can only wait for it in the next life." Honglian kowtowed on the ground. Although it is in the state of soul, there will be no pain, but Li Tian looked at it and it was still shocked.

"You don't need to be so thankful. Everyone has a kind side in their hearts. It just didn't show it. But you are not incapable of helping me. Now the Profound Yin Temple has been opened again. I came here to find the old days. The treasure left by the owner who designed this place, there is also a kind of fairy grass called the resurrection grass. I wonder if you have any clues about these?"

"In the previous chats of those strong people, I knew a little bit. The Profound Yin Temple has three parts. The first part is called the eighteenth hell. There are eighteen floors. You can only enter after the eighteenth floor. There are many strange ghosts in the Asura Hall. If they are not strong enough, they cannot survive. After passing the Asura Hall, it is the main body of the Xuan Yin Hall. If you are really looking for treasure, it should be in Xuan Yin Hall. ."

"So complicated?"

"It took hundreds of years to build the Xuanyin Temple, not because the project took so long to build, but because some of the materials used to build here are difficult to find even in the gods. They are looking for these The materials took a lot of time. Even after such a long time, I believe that there are still many things in the Xuanyin Hall that are intact. I know a trail they designed that can be directly crossed. Go through eighteen levels of \*\*\*\* and enter the Asura Hall." As Honglian said, she bit her finger and pressed it gently in Li Tian's mind.

Immediately afterwards, one by one memory was stored in his mind like an archive.

As he slowly accepted the memory of Honglian, he could see that the light of life on the girl in front of him had dimmed a lot, and when Li Tian knew the location of the secret path, her whole person was almost transparent.

"Gong, there is only this that Guren can do."

"This is enough, I don't know how to thank you." Li Tian responded with a smile, looking at the red lotus in front of him, and said: "I hope you will be reborn in a good family in your next life."

"Thank you, Master En." Honglian cried and said, his soul slowly turning into a little bit of snowflakes, slowly drifting away, and then slowly disappearing like this, and soon disappeared completely. .

With the departure of Honglian's soul, the golden light in the cave slowly dimmed, only the Sanskrit sound was still faintly audible.

Li Tian closed his eyes and felt the path in his mind. There must be many powerful creatures in the eighteenth hell. If he goes directly to the Asura Hall, he may be able to find the Reincarnation Grass, and he can also leave here directly. .

Of course, this is the best option.

What he thinks more now is that mixing traces in the Shuiyue Sect, follow them to the eighteenth level of hell, if you can find Resurrection Grass here, then after reaching the Asura Hall, leave the Profound Yin Hall directly through this trail .

As for what was in the Xuan Yin Temple behind, he was not interested.

Perhaps this is a good opportunity, but opportunities are often accompanied by dangers. The bones of these strong men have remained intact after so many years. The energy above can still be felt. It can be imagined that their strength must be beyond description. To the point of being such a terrifying existence, they are all dead here, not to mention that Li Tian is only a god-cultivation realm now.

He is not so greedy, he knows what it means to chew more and not to eat.

He still carries a relic of an ancient \*\*\*\* on his back. This alone is enough for him to explore it for a period of time. There may be some terrible treasures in this Xuanyin Temple, but it is bound to be difficult to obtain. I pay for this kind of thing. Of course it is not worth it to sacrifice one's own life.

It was just the opening of the acupoint that half of Shuiyue's disciples died. It is conceivable that after they entered the Xuanyin Temple, they would also suffer heavy casualties.

Li Tian sighed, sorted out these things on the ground, and then waited quietly at the entrance of the cave.

The environment here is very complicated, and there are many small tunnels. If the Shuiyue Sect wants to enter here to explore, he must be careful, and it is so dark, he can completely kill a Shuiyue with a small tunnel. People, then put on their clothes and sneak into these people.

When he wanted to fight here, he felt that Murong Ziqing was a bit idiot. If he had given Li Tian a suit earlier, wouldn't it be unnecessary?

He was thinking here about how to get into the Shuiyue team, and the entire New Moon City had already turned the sky upside down at this time. After the incident of Li Tian, the young hero meeting was postponed again. As for Feng Jie, the world called Feng Tianxiang to his study.

"Do you know how stupid what you did this time?"

"Father, I don't think there is anything wrong with what I did this time. You often teach us that we must take precautions before they happen. This kid is our future enemy to us, so before this sign appears. , It was directly pinched out. This is our best choice." Feng Tianxiang looked at Feng Jie in

front of him with seriousness, and did not feel that there was anything wrong with what he had done.

Feng Jie looked at the righteous boy in front of him, snorted, and asked, "It seems that you don't think you have done anything wrong?"

"Of course, I just killed a Sanxian who might become our strong enemy. Even if he has some connections with the Zhuge family, that guy is just an offshoot, even if the Zhuge family wants to find We are in trouble, at least we have some motives. Could it be that because of a branch of the younger brother, they will give us a letter to the New Moon City?"

"It seems that you really know a lot. You are not afraid of the trouble that the Zhuge family will find us." Feng Jie chuckled, looking at Feng Tianxiang with a hatred of iron and steel, and asked.

"Think about it more when doing things, this is what my father gave me."

Chapter 5488: Are you an idiot?

I don't know if there is something missing in Feng Tianxiang's mind. At this time, he can still smile smugly. Obviously, he hasn't heard what Feng Jie said at all. It's an irony at all.

Feng Jie was so distressed because of this incident, but now he doesn't know how to deal with it. Seeing that the idiot son in front of him can even say such a thing like this, he really hates it. As soon as he looked up, the powerful pressure directly suppressed the past, strangled his throat in the air, and said: "Are you an idiot? Do you know what you are doing now? If it is really a simple Zhuge family Brother Zhimai, will I wait so long?"

"Ahem...Father...Father."

"Don't call me father anymore. I don't have a stupid son like you. Do you know that what you did this time might make us up and down the whole family unlucky? You think everyone in this world is not as smart as you, Are you the smartest?" Feng Jie roared, his hands getting bigger and bigger, his mood at this time is really very bad.

Originally, the incident this time was enough to make him upset. What this kid did was definitely capable of exploding Feng Jie's mentality.

While struggling to get rid of Feng Jie, Feng Tianxiang explained, "Father...I...I don't understand, why do you value a little fairy so much?"

"You idiot, how could I have such a stupid son like you." Feng Jie cursed with hatred of iron and steel, then threw Feng Tianxiang aside, and scolded: "Don't look at it, even the city lord of Luoyang was killed. This kid was not arrested and killed. It is conceivable how much the Zhuge family has done in this matter. Such a young man is simply not something we can provoke. If he does not take the initiative to provoke us, we will most Well, don't take the initiative to provoke them, this is my bottom line, but look at you now, you have made everything complicated, and you have all targeted Lao Tzu, you idiot, you really want to cheat! "

---

A well-armed elite team entered the cave entrance with a serious face at this time.

On the wide entrance floor, you can see many dead Shuiyuezhong disciples. Some of these people's eyes are still staring, and they stare at the elite team that walked in.

They were wearing blue and white sword robes, holding the fairy sword in their hands, and entered here carefully at this time.

Each of them had a serious expression on their faces, and they looked worried when they looked at everything around them.

Headed by the female disciple who talked back with Yunyi before, she was also nervous at this time, for fear that a monster suddenly jumped around and caught them off guard, but obviously they were still too worried.

It's safer to be near here, and Li Tian knows this very well.

They hadn't even gotten close to the real Xuan Yin Hall below.

Yunyi and the others, with a group of people from the Discipline Hall and hundreds of Shuiyue's disciples, followed this elite squad mightily, just like this slowly.

On the other side, Li Tian took advantage of this time and continued to practice. He must hurry up to restore himself to his peak state. There is no movement in the remnant soul of the ancient gods. The dragon is too big to be suitable. Participating directly in these battles, Hong Zhan and other attire are too obvious, these can't be relied on, then he can only rely on his most original strength.

I don't know how much time has passed, Li Tian, who is practicing, heard footsteps.

That was the elite team of Shuiyue. After a few hours of fearful journey, they were now a little more courageous. They had not encountered any danger before, so they were completely relieved. They seemed to be driving before. The evil spirit they encountered during the acupuncture point should be just an accident. After this accident, the evil spirit no longer exists.

Now this cave is always safe, and they don't need to worry anymore.

At this moment, the female disciple in front suddenly discovered an entrance cut by Li Tian, hurriedly made a gesture, and stopped: "Ru Yue, what do you think of this?"

"This is supposed to lead directly to the Xuanyin Hall below. How could such an entrance appear here?" Ruyue, the female disciple who talked back to Yunyi before, condensed a ball of water with gleaming light in her hand. Then he threw it into the cave and took a look, but couldn't see the panorama of the cave at all: "It seems that there is still a lot of space inside. I will ask the elders to see if I want to go in."

Just when they were about to turn around to look for Yunyi, they found that Yunyi had already arrived.

Behind him, some people from the precepts hall: "What's the matter?"

"I found a cave on the only way. It doesn't look like it was excavated before, but we have been guarding it all the time. We can be sure that there is no one except us who just came in." Ruyue turned around, looked at the Yunyi in front of him and said.

Yun Yi nodded: "You stay outside and guard. I'll take someone in to see it. If there is something strange in it, you may not be able to deal with it."

"Yes, elder." After hearing these words, Ruyue finally breathed a sigh of relief. Before, she had been worried that Yunyi asked them to go in and check what was going on inside. Based on their current

skills, it might be possible before they could get inside. Just belch, if there are any terrible creatures inside.

And what Yun Yi thought was completely different from them. If there was any threat, he would definitely not go in by himself. Instead, he would let these disciples go in to find the way, but he probably explored it with his spiritual mind before. No creatures were felt at these locations at the door, that is to say, there might be some treasures in it. Of course, he was not willing to share these things with these disciples.

Therefore, good things must be obtained by them first.

Therefore, he took a group of people from the precepts hall directly into this cave.

Just like when Li Tian came in before, they were very curious to observe here.

Yun Yi glanced at it and said, "Let's find it separately. If there is any problem, just send a signal directly."

"Yes!"

As a result, all the people in the precepts hall dispersed.

One of the unlucky ghosts was walking step by step towards Li Tian at this time.

Chapter 5489: Mixing

Li Tian has been waiting for the opportunity, and after hearing the sound, he immediately held his breath, and eliminated all his breath to avoid being discovered by Yunyi.

He knew that there was an elder in this team.

So I don't know if it's right for me to do this, but what I can do now is to do my best. I just hope that the unlucky person who came here will not mix well among them, as long as they are not very popular Good guy, that's it.

I don't know if he is really lucky.

The guy who came in felt like a nerd to Li Tian, but the greed in his eyes was more or less, his strength was not strong, but his greed was absolutely indescribable.

At the moment he entered this bifurcation, Li Tian directly stepped forward and reached out to press on his acupuncture point. The aura directly impacted his spirit, and this poor fellow fainted directly on the ground.

Taking advantage of this time, Li Tian took off all his clothes and put them in the storage ring, and put on the hapless clothes in front of him. During this process, he was still on the hapless body. I found some women's obscene pants, and there were some stains on them. You can imagine what they used to do before.

What Li Tian couldn't bear the most was that he could still find a finger on his body.

This finger can be seen as belonging to a woman.

Seeing this idiot who fell to the ground to death, Li Tian originally wanted to keep this guy alive, but now it seems that there is no need at all. This guy is a complete BT. Sure enough, there is no one in the Discipline Hall. What a good thing.

The spell was instant, and the fireball technique directly ignited his body, and soon completely turned him into ashes.

Under the urging of Xianli, his cultivation base is not difficult to cremate him.

A breeze blew by, and the idiot disappeared completely.

Li Tian slowly transformed himself into an idiot, put on his clothes, put away the storage ring, and then cautiously walked out of the fork.

His current expression is exactly the same as that of the idiot before. If he is not very familiar with him, he would never have seen Li Tian pretending to be in front of him. ,

When Li Tian came out from here, just a few other people also came out. These people took a look at Li Tian and just stood aside and ignored them. Obviously he guessed it right. This kind of BT nerd, basically Unpopular in the Discipline Hall, as to why there is a woman's finger on him, this is not something Li Tian can guess.

Seeing that no one came to take care of him, Li Tian also felt a lot more relaxed, standing on the side, bowing his head and not talking.

I don't know how long it has passed before Yunyi also returned.

Seeing his lack of interest on his face, it was obvious that he hadn't found anything suitable here at all.

"Elder, there is nothing in it, except for some bones, but some broken magic weapons and weapons. These things are useless." A disciple from the Discipline Hall stepped forward and said cautiously.

"Well, it looks more like a burial pit. The people who built the Xuan Yin Temple may have been buried here alive." Yun Yi said lightly, his eyes swept across the crowd.

At this time, Li Tian was very nervous. He felt the strength and horror of the old man the first time he saw Yunyi. Although he didn't know how to describe it, he knew that he was definitely not the old man's opponent. When I came over, I was still worried about what Yunyi would find.

However, he was soon relieved.

This idiot is definitely one of the people whose grandfather doesn't care for grandma. Even if he died here, no one would know it. Even Yunyi didn't mean to care about Li Tian at all.

"Forget it, let's continue walking, hurry up and get to the position of Profound Yin Hall." Yun Yi snorted, and then left the cave first.

Li Tian glanced at the disciples in the surrounding discipline hall, followed behind them, and left the cave.

After the group of them came out, Li Tian saw the female disciples of Shuiyuezhong. They looked at these people in the Discipline Hall very seriously and carefully, and they didn't dare to say anything.

When Li Tian came out of the cave, an old man in the distance snorted and shouted at Li Tian:

"Xuan Ning, what are you idiot thinking about? Don't hurry up and stand here?"

Li Tian was clever, knowing that the old man was telling himself, he hurriedly stood behind the old man.

Yun Yi turned around, glanced at Li Tian, and then at the old man: "Yun He, what do you think of things here?"

"Maybe this cave was dug out by something strange or something, maybe it has been some years old, since nothing has been found in it, obviously there is no problem." Yunhe glanced at Yunyi and said.

"I'm worried, will anyone sneak in."

Li Tian's hair stood up.

"What is there to worry about? We have laid a net here a long time ago. If someone doesn't have long eyes and wants to enter here, he should know what death is." Yun He snorted and looked. A glance at the team: "You just worry too much. Who can break through our siege and enter here? The reaction of the Xuan Yin Temple is different from the previous guess. I am worried that it is the treasure in the hall that is about to be unearthed. We must rush to this place. The treasure is obtained when it is unearthed, otherwise it will be extremely detrimental to us when the strong from all sides come to grab it."

Yun Yi nodded, did not continue to say anything, and continued to direct the team forward.

At this time, Li Tian breathed a sigh of relief more or less, and at the same time knew that this group of people actually knew what kind of treasures were in this Xuanyin Hall. Obviously, they also had a little understanding of the history of Xuanyin Hall.

It's a pity that he is just a disciple of a small discipline hall, and he is not qualified to ask about this, and can only silently follow the team's progress.

This team is mighty, and the number is large enough to contend with the army of a main city. The Shuiyue Sect has sent so many people out. It is conceivable that the degree of danger inside this Profound Yin Hall is definitely beyond many people's imagination. .

The three elders with unfathomable strength, coupled with these relatively outstanding Shuiyue Sect disciples, this strength cannot be underestimated in the entire God Realm.

Li Tian was even more curious about what kind of powerful existence there would be in the next eighteen layers of hell, the Asura Hall, and the last Xuan Yin Hall, making them so jealous.

Chapter 5490: A layer of prison

Li Tian was in the team, and he was somewhat relieved at this time.

Sure enough, Xuan Ning was not very popular in the Discipline Hall, and no one would come up to take care of it at this time, so in the next day, Li Tian completely acted as an air role and moved forward in this team. .

At the same time, he also knew the three elders in front of him.

They are Yun Ji, Yun He, and Yun Yi. These three people are one of the eight elders of the Commandment Hall. It is said that Yun Yi's strength has reached the peak of the gods, even facing the city lord. Although Yun Ji and Yun He are a bit inferior, they have reached the realm of immortals, and the three of them together can deal with some powerful enemies.

Moreover, the discipline hall of Shuiyue Sect, the cultivation method is not the same as that inside Shuiyue Sect, each of them has its own unique ability.

Coupled with some of the exercises learned, if the time comes to deal with the enemy, I believe they will be enough to come up with some means to make others shine, Li Tiande thinks so.

Ruizuki led the team to continue to lead. With previous experience, the morale of the entire team has indeed fallen a lot, but as they gradually deepened in the cave, they did not encounter any difficult enemies. These female disciples just one by one started to be bold, and even a few people were still in the team whispering and discussing, but because Yunyi and several elders were also here, they did not do anything more excessive.

Soon, they passed the cave at the entrance and entered the real Xuan Yin Temple.

The originally narrow entrance suddenly became wider. The elite team waiting in the front set up a short camp on this spacious flat ground, waiting for the Shuiyuezhong disciples who followed one by one.

Yunyi and the other two elders were in front of the team.

And farther away, there is a building that looks like the top of a spire. The parts below the spire are all hidden among the thick stones. Only the top layer is exposed outside. The entrance looks like The blood basin of a wild and wild animal is like a big mouth, and the white fangs are shining with a faint light under the light, but this entrance makes people creepy.

By the time they got here, many people started to become more cautious.

After all, it was just some relatively safe passages before, and I didn't see any organs on the road. But here, everything is different. This should be what Honglian said before, eighteen layers of hell, and I saw it before. Yes, this should be the first layer of \*\*\*\* on the top, and with each lower layer, the enemies you may encounter will become stronger.

Therefore, at this time, they need to wait until everyone behind the team has entered here.

Because the middle is a space for one person to pass through, it has been about half an hour after the team is completely assembled. During this time, Yunyi and a few elders made a special investigation near the entrance, and there was indeed a strong one inside. Compared with the entrance they had walked through before, this place really seemed to have entered the Profound Yin Hall.

"Next, everyone must listen to our commands. If you act arbitrarily, it will be your own problem to die here." Yun Yi turned around, his gaze scanned everyone very severely, and then said solemnly: "The next thing we are going to enter is the eighteen layers of \*\*\*\* in the Xuanyin Hall. This is the only way to the Asura Hall and Xuanyin Hall below. I think you also know the importance of this place."

Everyone nodded.

"En, Yunhe, you took the people from the Discipline Hall and walked in the center of the team, and Ruyue took some people with me to the front. If you encounter any danger, you must notify the companions behind you as soon as possible. To withstand the pressure in front, you will inevitably encounter a lot of powerful ghosts this time. If you are afraid, you are only worthy to die here." Yun Yi is very satisfied with the expressions of these people, at least a trace of them can be seen on their faces. The expression of resistance.

Li Tian was satisfied a lot, and it seemed that he would probably not encounter any danger along the way.

After all, Yunyi had believed in the Jielvtang. The disciples of the Jielvtang looked like their cronies in Yunyi, and they were naturally unique in their treatment.

Next, the team continued to advance, and Li Tian followed them and walked in the center of the team.

Elder Yun He led the people in the Discipline Hall, and Elder Yun Ji took the remaining Shuiyue Sect disciples, and the whole team entered the entrance with such mighty force.

When Li Tian entered this entrance, he felt that his whole body had a very strange feeling at this moment, which seemed to resonate with the energy here.

He had never felt this way before after cultivating in the God Realm for so long.

Standing here, he could feel that his body was recovering quickly, and at the same time his strength was increasing little by little. All of these were fundamental changes and were completely out of Li Tian's control.

It's as if he just needs to stand here and all this will continue like this.

"Here should have entered a time-space fault. Time and the outside are staggered. One or two days have passed inside, and it may be only half a day outside." Yun Yi felt the power of the minaret at this time, but his feelings at this time Obviously, it is not as strong as Li Tian, so the expression on his face is very calm, and there is no special place in it.

And Li Tian, at this moment, only felt a rush of heat coming out of his body, absorbing the surrounding energy frantically.

At this time, the air of Xuan Yin became stronger and stronger, and as the mist slowly dissipated, the true appearance of a layer of \*\*\*\* was slowly revealed in front of them. This is a building that is also very magnificent compared to before. It may not look huge from the outside, but after you actually enter it, you will find that it is also very wide, equivalent to the combined size of five or six football fields.

And in this steeple, at this time, it was all shrouded in thick black mist, and the Yin Qi was strong and invaded into the bones.

Many of the Shuiyue Sect's disciples were all shivering at this time, as if they were very cold, subconsciously clasping their bodies with their hands, constantly rubbing them, in order to obtain some temperature that can make them feel at ease.
