

A Killer 5551

Chapter 5551: Goodbye

Ning Bing stayed in Li Tian's room for a while, seemingly worried that this guy would enter that state again.

But seeing him concentrate on recovering his body without any danger, this was a sigh of relief.

The sky outside has gradually dimmed, and she stood up: "You can stay and rest. I will bring you dinner in the evening. During this time, you should stay in the room and rest. The outside is going around randomly. The Lord of the City is worried that you will explode in the City Lord's Mansion, so many people are sent to guard here. Now it is not easy for you to leave this yard."

Li Tian was stunned for a moment. He didn't expect Feng Jie to be so serious about this matter. Obviously, he was really afraid that he would go wild and ruin everything here, so he spent such a large amount of money. Controlling everything here is to prevent Li Tian from making trouble.

But if the second personality really controls the body, it won't be a problem for him to leave this yard, and it won't be a problem for him to make trouble in the City Lord's Mansion.

Even his first personality can do this.

It's just that he has to be more sensible, knowing that doing these things here may feel good in a short time, but in fact it will bring him a lot of trouble. If he is really smart, he will be honest. Choose to be smart instead of continuing to choose to do it this way.

After all, the City Lord's Mansion is still the City Lord's Mansion. The reason why this place has been able to stand for so many years without being destroyed by others is reasonable.

After Ningbing left, he lay lazily on the bed.

The immortal power in the body is continuously circulating, just like a circulatory channel, keeping his body slowly recovering under the nourishment of the immortal power. Now the skin trauma is basically invisible, just the meridians in the body. Still received varying degrees of response, these need to be nourished slowly and little by little before they can recover in the next few days.

However, what Li Tian cared about most in his mind was Feng Tianling. When he was fighting with Feng Tianxiang, this fellow did not appear in the sky dojo.

He believed that if it was Feng Tianling, it would be impossible to miss such a wonderful battle. This is also something he must understand in subsequent battles. Li Tian's fighting method and Li Tian's strength are all very important. Combat intelligence.

Since they are destined to become enemies in the ring later, Feng Tianling will never miss this opportunity, and will definitely find ways to understand it.

But the reality seemed to be completely different from what he thought. The battle between the two was in full swing and it was wonderful, but there was no shadow of Feng Tianling here.

I should have been able to see this guy here to watch the game, but I never saw the shadow, which made Li Tianxin a little curious. What did Feng Jie do to Feng Tianling in the past half a month?

After Ning Bing left, he could only lie on his own bed and slowly recover his body, while thinking about what methods Feng Jie and Feng Tianling would use next.

Just as he was lying on his side thinking about what happened next, another dark figure appeared in the room.

Li Tian stood up for the first time and looked at the black shadow in front of him. He was about to make a move, but soon discovered that the black shadow in front of him was not someone else, it was the one he had seen before at Zhuge Yuntian.

"How did you come?"

"So many things that happened to you in the New Moon City surprised many people. I came here to find you. Would it make you feel surprised?" Soi Ying smiled and sat down, calmly and calmly. .

Seeing his calm look, Li Tian didn't know what to say at this time. If he could be so relaxed in a place like this, he was sure he didn't care about the safety here.

This is the City Lord's Mansion of New Moon City, but in this guy's eyes it is like his own backyard, his face is not solemn at all.

Only with his strength can he rush to the City Lord's Mansion in a swaggering manner, and then talk to Li Tian in a grandiose way.

"This is the City Lord's Mansion!"

"The City Lord's Mansion, even if it's a palace of the God Emperor level, I won't worry about anything, let alone such a small City Lord's Mansion." Hei Ying said lightly, and then looked at Li Tian seriously: "I really want to know what's going on with you as a kid. You participated in the Xuanyin Temple before, and you also killed the two elders of the Shuiyuezhong Commandment Hall. The problem with your demons is probably with them. It will turn into this way in battle."

Although Li Tian didn't want to admit it, the strength of the black shadow in front of him was indeed higher than that of him. It was only the first time that the two people met. This guy had already guessed all of Li Tian's physical condition. The strength of this black shadow is indeed unfathomable, and he cannot be sure of the relationship between the black shadow in front of him and Zhuge Yuntian.

Such a powerful master is definitely not Zhuge Yuntian's subordinate.

"It's indeed like this, but I went to the Xuanyin Temple just to revive the soul grass. As for why this thing is needed, there is no way to explain it to you specifically."

"There are not many people who know your identity now, but I am one of them." The shadow said faintly: "You don't need to worry, I won't tell others your identity, but the only thing I want to One thing you understand is that you should not think that you are safe now. You should have many enemies in the God Realm. This is not very famous yet, on the contrary, there are so many more enemies."

"When I was in the lower realm, these people wanted to kill me, not to mention the gods. They couldn't beat me in the lower realms. They definitely wanted to kill me in the gods." Li Tian thought about it, himself The enemies in the God Realm are indeed not average. These people were not their opponents when they were in the Lower Realm, and now they can only choose to deal with Li Tian in the God Realm.

It is a pity that with their current strength, even if they lose to Li Tian in the lower realm, the situation may change here.

"In this way, I can almost be sure. There should be no problems." Sombra nodded and looked at him: "I will help you find out who is behind the scenes, but you still have to be careful these days. One point, they didn't succeed in this game, and it might not be like this next time. Your enemy is still smarter.

Chapter 5552: Debut

Li Tian nodded and said with a smile: "I also know that these people can't wait to kill me. They will definitely not miss any chance. I don't know how many times I have encountered it before."

"Your existence violates the interests of some people. Naturally, many people want to kill you. This is a normal thing. After all, no one wants their own interests to be destroyed." Sombra looked at him and smiled. Said with a smile.

"This will trouble seniors."

"It's not a problem. Anyway, I haven't had anything to do recently, and now it seems that many people want to see how your young man grows. This time the Ten Cities Conference is for you. A very important opportunity. If you can play at your own level here, someone will definitely treat you as their own baby." Soi Ying said with a smile.

"I'll try my best. At the moment, I only have a little confidence in the New Moon City, but I can't imagine the Ten City Conference. After all, it is a place where the master is like a cloud. No one knows what the result will be. "

Li Tian had a lot of exchanges with Sombra, and of course there were also some things about the development of the gods.

At this time, he felt more and more that the strength of the black shadow in front of him was really unfathomable, and he knew very clearly about the affairs of the God Realm, and there was no slight difference.

I don't know how much time has passed before Sombra stood up.

"It's almost time. Your friend is back. If there is any problem, I will take the initiative to come to you, but you should know who I owe a favor to that kid and what is that kid? Not to mention, I don't want to ask him to do so many things for you in vain."

"Thank you senior, I know what I should do."

"Well, we have settled things in Luoyang City. Although Dongfang Shuo still wants to deal with you, after all, he still has to give us some face. This is a concession, and you don't have to worry about anything. "Shadow said, slowly becoming illusory, and then disappeared like this.

Waiting for the next second after the shadow left, Ningbing pushed the door in.

Seeing Li Tian still lying on the bed, he asked, "Is your health better?"

"It has improved a lot compared to before, but it still takes some time to recover from internal injuries, so I can't worry."

"Well, the injury does not matter. There are still a few days left for you. I believe you can recover during this time." Ning Bing nodded in relief, looked at him, and put the dinner in his hand. On the table: "Eat something to replenish your strength."

"Tomorrow is your game. Have you arranged the personnel now?"

"It's nothing more than the Sanxian and the disciple of the Five Poison Sect, but I think I'm more likely to deal with the disciple of the Five Poison Sect." Ning Bing glanced at Li Tian and said lightly.

"Feng Tianling hasn't come forward all the time. It seems that you have also noticed something."

"Feng Jie has been the city lord of New Moon City for so long, there must be something we don't know in his hands. It's not impossible to help Feng Jie make a breakthrough in a short time." Ning Bing put his dinner on the table as he went. , While watching Li Tian said seriously: "So before this, he must be thinking of preserving Fengjie's strength."

"Although the top three places are probably not running now, Feng Jie still does not want to let Feng Tianling reveal his strength prematurely, so that he can have a little advantage in the Ten Cities Competition, and if there is a great city owner It would be a shame that my son lost to me, a loose fairy." Li Tian knows exactly what Feng Jie thinks now.

It's nothing more than wanting Feng Tianling to help him fight for a breath.

But in fact, this kind of thing can't be changed by random small decisions. He knows very well that even if Feng Tianling's current strength is quite different from before, it still has no meaning.

In the Ten Cities Competition, there are all strong people from each main city, and the strengths of each other are definitely not very different.

And Li Tian thought, among these people, there must be young people who have been promoted to the realm of gods like himself, otherwise this game will be meaningless. He is in the realm of gods here, who can be Li Tian's opponent What?

The next day:

The sun is shining and there is no cloud, and it looks like a good weather.

Li Tian also got up from his bed early. After a night of rest, his body felt much better than before, and he went outside the yard while thinking.

Ningbing was wearing Shuiyuezong's costume, holding the Liangyi umbrella in his hand.

Seeing the Liangyi umbrella in her hand, Li Tian's eyes became straightforward.

"Is there any problem?" Ning Bing turned around, looked at Li Tian standing in front of him, and asked with some confusion.

"No, it's just that this umbrella was in your hand before. Now that I see you holding this weapon again, I think of many things before." Li Tian smiled helplessly, and his mind was still in his mind. Every bit of what happened to Bing Bing, these things were all branded deep in his mind, and he had never forgotten it, but it was a pity that Ning Bing could not remember.

"Even if you tell me these things now, I won't know anything, I hope I can recover later." Ning Bing said.

"Trust me, your memory will be restored." Ning Bing said.

The two people stood side by side and left the courtyard.

When I came to the sky dojo again, I still didn't see Feng Tianling's shadow here, and even Feng Jie didn't come here early today.

Standing on the other side of the corner waiting, Wang Lao walked over and said: "Ning Bing, your opponent this time is the Wudu Sect disciple who came with Jin Linger, whose name is Mei Chuanfang!"

"Mei Chuanfang? This should be a woman?" Ning Bing thought for a while, squinting at the old Wang in front of him and asked.

"I'm afraid I'm going to disappoint you. This guy is a very authentic man." Old Wang looked at the two people in front of him and said helplessly: "But whether it's a man or a woman, is there still something for you? What's the difference? You can beat him easily."

"I hope so, after all, they are from the Five Poison Sect, which is difficult to deal with." Ning Bing still looked at the old Wang in front of him cautiously and said.

Even if you know that you are very strong, you still have to be careful about this Five Poison Sect.

Chapter 5553: Mei Chuanfang

Soon, Li Tian also saw this man named Mei Chuanfang.

He was wearing a black sword robe today, holding a fan in his right hand, and standing on the other side, quietly looking at Ningbing.

Li Tian did not see any emotions on his face.

This person was like a puppet, without showing any emotions all over his body. He looked at them dumbly like this completely, making Li Tian even wonder if the guy in front of him was a wax figure. what?

"We know very little about Mei Chuanfang. We just know that this kid, like Jin Ling'er, is an elite selected from the Five Poison Sect this year, so they let Mei Chuanfang come here. "Lao Wang squinted at Ningbing in front of him, and said lightly: "As for his strength and fighting methods, we still don't know anything so far."

"This is normal. The Five Poison Sect hasn't appeared for so long, and their affairs are long ago. The young talents that appear now are completely strange opponents to us." Ningbing is also far away. Looking at Mei Chuanfang, I only felt that this man was indeed like a wood. Not only was he standing still without any expression, even his body did not move at all.

This person is just like being stagnated by time and space, always standing in place without any movement.

It's just that in the eyes, there will be some curiosity from time to time, looking at Li Tian and Ning Bing here.

"Today's game seems to be very difficult to deal with. Feng Jie really chose an opponent for Feng Tianling who is not easy to reveal his strength." Li Tian shrugged and looked at Ning Bing.

Old Wang patted this guy on the shoulder, and muttered softly, "You kid is really getting too much now. Before you did something like that in the ring because of your unconsciousness, you can forget it, now in front of so many people. His face is so unobstructed. After all, he is the city lord of New Moon City and is highly regarded by the Emperor of the North Dou. How can you talk such nonsense?"

Seeing the excited expression on Wang Lao's face, he also smiled: "It doesn't matter. If Feng Jie is really such a small belly, I'm dead now, not to mention that he knows that he treats me now. There is no way."

"Now you can still be arrogant for a while, but after a while, you may not be like this." Wang Lao looked like he hated iron and steel. He was very curious about this kid before and was very optimistic. After yesterday's After the game, he was even more admired for this kid, and he was directly at the level of the gods at a young age. If he was given a chance, his future achievements would be even greater.

It's a pity that Mr. Wang no longer accepts disciples, otherwise he would definitely do everything possible to harvest Li Tian as his disciple.

"I hope so, but now I enjoy this kind of life. I have the right to speak for myself. Although he is the lord of the city, he can't limit me to this, right?" Li Tian smiled wryly and looked into the distance Mei Chuanfang: "But before that, we still have to think about how to deal with this guy. I thought it would be easier if it's the Sanxian, but if it's the Five Poison Sect in front of you, maybe It's a little bit difficult."

"Since I am a disciple dispatched by the Wudu Sect, there must be a lot of Wudu Sect treasures in his hands. Their sect has a long history, and the treasures in their hands must not be simple." Wang Lao sighed, watching with some worry. Ningbing; "If you fail, this time the investment of the Water Moon Sect may all fail, and then the relationship with the New Moon City will become very bad, and a series of problems will arise."

Li Tian smiled. He clearly knew what the price Ningbing would cost if he lost this game, but Feng Jie still arranged it like this. I have to say that this guy's courage is really great and he is not worried about the new moon at all. The relationship between Zhicheng and Shuiyuezhong became very bad.

For the future of his own son, he also bet on his honor.

"Okay, time is almost up, I want you to be on stage." Wang Lao squinted at the Ningbing in front of him, then smiled and said, "Remember to be careful. If you fail, the consequences may be many people. I can't afford it."

Ningbing nodded, and did not continue to say anything, and stepped onto the ring step by step.

And Li Tian, at this time, also looked at Mei Chuanfang in front of him very seriously. He had fought against Jin Ling'er before, and he knew a little bit about the methods of the Five Poison Sect, and he knew that the strength of this Sect was really impossible. Looking down on it, the combat effectiveness of the previous Jin Linger is difficult to describe in specific ways. If it were not a fluke, now Li Tian might just lose the game.

The current Mei Chuanfang may be inferior to Jin Ling'er's strength, but the information on the Five Poison Sect has always been difficult to find, which is very difficult to understand.

It was the same when dealing with Jin Ling'er before. Li Tian was basically not clear about Jin Ling'er's fighting methods, and did not know the specific methods of this woman.

But Jin Ling'er had also observed his battle before, so she understood a little bit.

Now, this disadvantage is even more obvious. Ning Bing must have no knowledge of Mei Chuanfang in front of him, but Mei Chuanfang must know a lot about Ning Bing's fighting methods.

"Let's end the battle as early as possible, so that an opponent who doesn't know where he is, once he knows his flaws, he must be defeated as soon as possible. If time is allowed to delay, if this time passes bit by bit, it may be difficult to deal with." Li Tian glanced at Ningbing, still felt that this battle must not be delayed.

If the battle can be ended early, it will definitely be good for the entire battle.

"I see, believe me, I won't just lose this game like this." Ning Bing squinted at Li Tian in front of him, and then swaggered onto the ring.

And Mei Chuanfang finally had some movement at this time, slowly looking at Ningbing, and then showing a strange smile, just stepping forward step by step, and followed by the ring.

Lao Wang glanced at Li Tian and said, "My business is also complete, it's time to return to my position."

"Senior, go ahead, I'll just stay here and see the situation." Li Tian said, and sat down.

Chapter 5554: Master sister is very strong

"Master Sister of Shuiyuezhong, many people have been praising your things all the time, even I have heard of it many times, how amazing is Shuiyuezhong's Master Sister of Ice Ning, let me be in this scene I was very nervous during the game." Mei Chuanfang smiled and said, looking at Ningbing in front of him.

Although the expression on this guy's face is normal, it still feels very weird when you see it with your eyes, always giving people a very scary look.

It may be because this guy's usual expression is too serious, so when this kind of expression is needed, his expression will become very stiff and weird.

Li Tian looked at Mei Chuanfang and exhaled deeply: "Don't do anything. If this guy's strength is only a little inferior to Jin Ling'er, then this battle may not be that simple. Up."

"That's just what the outside world said about me. What is my strength? I believe you have your own judgment."

"Of course, I know how strong you are." Mei Chuanfang said with a smile, looking at her: "The reason why Feng Jie arranges me here is that for you, I should be a A tough opponent."

"if not?"

"This time the disciples dispatched by the Five Poison Sects, I am indeed only slightly inferior to Jin Ling'er, but I still feel a little unreliable when dealing with you." Mei Chuanfang looked at her seriously. Said.

"I think you have to read your victory declaration to me during this kind of competition, but you have said so many discouraging words, do you really feel that you have no hope?" Ningbing looked at the guy in front of him, too. I was a little bit dumbfounded. I thought Mei Chuanfang would say something harsher to herself, but who would have thought that she would say it like this.

This made her very embarrassed, and she was ready to fight with all her strength before taking the stage.

Who would have thought that things would turn out to be what they are now at this critical time, and it would be very embarrassing now.

"I know my strength very well. I know a little bit about your strength. Even if I can defeat you, I can't get any good results after going to the Ten City Conference." Mei Chuanfang smiled and looked creepy: "Furthermore, fighting a woman like you is likely to hurt me. It's a little bit stupid to choose this way even knowing that I'm losing to you. "

"It's not necessarily stupid. If you have to be sure of everything before you can do it, then there will be no legend in this world. Come on, let me see you, a disciple of the Five Poisons, what is your strength? So, if you just walk down the ring like this, your master will definitely be very unhappy." Ning Bing really wants to show himself here, so that it would be easy to tell others about this matter.

If Mei Chuanfang concedes defeat in this way, someone will definitely say, what role did their Shui Yuezong play in this matter that made Mei Chuanfang end the battle so easily?

Mei Chuanfang seemed to know what this was because of, and smiled faintly, then directly opened his fan and squinted at Ningbing: "All right, let's try it."

The next second he spoke, the fan in his hand flapped in the air.

A strong wind rushed in, accompanied by a strange scent. Since the Five Poison Gate is called the Five Poison Gate, it must be full of various toxins. Ningbing has been on guard before. After this incident, at the moment he shot, Ning Bing also opened the Liangyi umbrella in his hand, and the two immediately entered the battle, starting a hearty confrontation.

Although Mei Chuanfang had been accommodating before, but when he really shot, his strength was still very strong.

The two people are still very strong against each other. After a wave of battle, the level of excitement is still not inferior compared to before.

"Sure enough, the Five Poison Sect is still very powerful." Li Tian nodded his head, watching the two people fighting on the stage, and said with emotion.

"The foundation of the Five Poison Sect has been so long, it is not a problem to be able to train such a powerful disciple." At this time, Feng Jie sat down next to him in front of Li Tian: "It's a pity that they two Powerful disciples are more unlucky. They met you and Ningbing, otherwise they might have been killed out of the three spots this time."

Li Tian glanced at Feng Jie, stood up, and bends over respectfully: "My Lord City Lord."

"Hehe, we don't know each other for a day or two. If you have such a character, would I still come here?" Feng Jie saw him like this, and knew that this kid was pretending to be garlic, Li The character that he showed before the sky is completely not putting anyone in his eyes. How could he bow to him obediently and be so polite?

When Li Tian heard this, he also smiled awkwardly: "I didn't expect me to be like this in the heart of Lord City Lord."

"It's normal for young people to be a little young and energetic, plus what those two brats did before, it makes you feel a little bit about our family, and it's reasonable. Of course I won't blame you." Fengjie He smiled and looked at him: "But I'm very curious about what happened yesterday and the changes in your body. So many people here have seen it with their own eyes."

Li Tian glanced at Feng Jie, and it was indeed for this reason.

The Ten Cities Competition, after all, he was meant to represent the New Moon City. If he suddenly loses control in the Ten Cities Competition, the New Moon City will lose face.

"If I say that I have a dual personality, would Lord City Lord believe it?"

"Dual personality? In other words, it was another personality of you that appeared yesterday, which briefly controlled your body and completed a series of battles?" Feng Jie understood the words in seconds after listening. After all, the vocabulary of this dual personality , It is easy to understand.

"It's really like this. I lost control of my emotions in the battle yesterday, so my body was easily controlled by the second personality, so that's what happened later." Li Tian smiled awkwardly.

"So in the Ten Cities Competition? Will you lose control like this too?"

"I don't know, it is very likely to be like this, but I think I will change this situation as much as possible." Li Tian looked at him and said.

Chapter 5555: Easy win

Fengjie looked at Li Tian next to him, and said seriously: "I hope you will understand very seriously that this time the Ten Cities Conference is very important to us. This is the best proof of our strength. If If you run violently on this ring, it will be a big problem for our entire Crescent City and Water Moon Sect. There will be many people who will throw the black pot on us."

"My Lord City Lord can rest assured that although I cannot control my second personality yet, I know that even if I am controlled by the second personality, I will not do anything harmful. This is beyond doubt. It's also something that doesn't need to be considered at all." Li Tian looked at Fengjie, patted his chest and promised: "And I think that my second personality will only appear when it comes to life and death."

The previous process of merging with the heart demon was indeed quite difficult, and during this process Feng Tianxiang was always launching an attack.

However, Xu Yang's strength and Feng Tianxiang's strength are basically the same in the sky and the underground, and the two people are not at the same level. The first battle should have been one-sided.

But a series of things that happened afterwards caused Li Tian to suddenly change from his original advantage to his current disadvantage in this battle.

Facing Feng Tianxiang, the hostility in his body is like a fierce horse. He wants to break free from his body all the time, and is still releasing extremely uncontrollable hostility, which fills him. Inside her body, it burned her body like a ball of flame, making him painful and at the same time losing control of her body.

When the second personality appeared, he watched it clearly.

When the second Li Tian came out, even he himself was shocked. It turned out that his fighting style could become so cool. With the help of hostility, the second personality Li Tian fought even more crazily. , I don't care if my body is injured in this battle, but I devote myself to it, regardless of the opponent, just to fight with you hard.

Just want to become a loser with you.

Of course, the second personality must be quite proficient in the use of his own void mobility. Even Li Tian still has many places to say that he can use it very proficiently, but this second personality is used in this aspect. , He is already much more proficient than him. If it weren't for this guy who was unfamiliar with some things, Li Tian even suspected that he had also controlled a body before.

"I didn't have any mistakes in my previous thoughts. You brat really has a limitless future. If you can make a little achievement in this Ten Cities Conference, I can even be sure that among the young people in the entire God Realm, maybe Few people can achieve the same accomplishment as you." Feng Jie looked at Li Tian solemnly and said, his words were entirely from the bottom of his heart.

Although the view of the young man in front of him is not very good, the truth is better than eloquence. Li Tian is indeed incapable of many people in talent. If such a young man is given the opportunity to grow up little by little, the future The future of China can only get better and better, but how much better it will be is currently unknown.

I can only say that this young man is very good, so good that many people feel helpless when they see this young man.

Li Tian nodded: "After all, the Ten Cities Conference is a very big stage, and I don't know what I can do on this stage."

When the two of them were chatting here, the battle on the ring had entered a white-hot stage. After all, they were disciples of the Five Poison Sect, and their strength should not be underestimated. The battle is indeed not as powerful as Ningbing, but He still displayed a fighting capacity that was in line with his own level, and compared with the previous Jin Linger, he was still only a tiny bit behind.

It's a pity that there are too many strong people participating in the Youth Hero Conference this time. Mei Chuanfang is indeed very good, but after all, it is still a little bit inferior.

If this little bit is changed to another stage, it may not be a problem.

But at the young hero meeting, it was a bit difficult.

After fighting against ice for so long, the two of them were not injured, but some signs of damage were left on their bodies, and there was some embarrassment on their bodies. After all, it was still a real battle. It is impossible for two to finish a battle. Still intact and personable, this kind of thing may only happen when the strength is absolutely crushed.

As soon as he shot his opponent, he immediately killed his opponent, otherwise such a situation would never happen.

Mei Chuanfang put away the fan in his hand and looked at Ning Bing in front of him: "The strength of the master is undoubted. Although the two of us haven't fought each other with our lives, we probably have a high and low level. I am indeed not you. Opponent."

Ning Bing looked at him, after a battle, he also knew how strong Mei Chuanfang was in front of him.

According to the foundation of Wudumen, it is not a problem to cultivate such excellent young people, but the important thing is that the mentality of Jin Linger and Mei Chuanfang is really good. If it is for someone else, in this way The game may be more serious and crazier to deal with, just so that you can win the fruit of the final victory.

But compared with other people, Mei Chuanfang in front of him is a little bit ordinary.

In the battle, he did indeed display his strength, but this guy did not look like other people, he chose to work hard when he came up, and every shot was very measured.

So the final situation is that two people are fighting here, it is not like fighting at all.

In the eyes of outsiders, Ningbing seemed to be so relaxed that it couldn't be more relaxed, and then won this game.

Only between Ningbing can understand that this kind of battle that needs to be measured is actually more difficult than going all out.

"Just admit defeat?"

"Well, this time we came here just to see what we have become like outside the past few years when we disappeared from the God Realm, and whether anyone still remembers us." Mei Chuanfang smiled lightly. With a look of open-mindedness, he didn't feel ashamed of failing: "Now that we have obtained the information we want, naturally we won't be greedy to want Yunducaao."

Chapter 5556: Meaningful

"If everyone thinks like you, I'm afraid that no one will come to this young hero meeting." Hearing this guy's remarks, Ning Bing also had a bitter smile on his face.

Others want to have their own place in these three places, and then find a way to grab Yunducaao, and then go to Shuiyue's Dongtianfu land to practice well.

This Mei Chuanfang is good, coming here is very simple to meet the world.

However, it is normal to think about it. Although Wudu Sect and Shuiyue Sect are two completely different sects, the history of these two sects is not simple, especially the Wudu Sect also participated in the first. Although they were finally defeated in the God Emperor's battle, they were reclusive in the God Realm, but they have to say that their background is still quite terrifying. They have been destroyed to that extent in the past, and they have not disappeared in the God Realm.

When the damage of a sect reaches a certain level, it will inevitably receive hostility from other people. Many people choose to stand up when they are very vulnerable, which is what people often say to kill you while you are sick.

Taking a shot at this time is generally the easiest way to get a sect.

Back then, many people thought that the Five Poison Sect might be over like this. Even if their background is strong, the divine emperor battle suffered heavy damage, and almost all the outstanding disciples in the gate perished, although the strength of the remaining elders Very strong, but they were also seriously injured during the God Emperor War, and it was impossible to take on the big responsibility. In this way, they became delicious in the eyes of many people.

At that time, it was not a sect who wanted to attack the Five Poison Sect, but in the end all failed.

As for how the Five Poison Gate did it, it is still unknown.

Ning Bing originally hoped that this battle could go on. After all, this was something related to her own reputation. If she surrendered so easily, the ghost knew what the outcome would be.

But Mei Chuanfang obviously didn't give her a little chance. He directly raised his right hand and said loudly, "I admit defeat."

Looking at the two people on the ring, Mr. Wang also showed a wry expression at this time. He glanced at the two elders Yun Jin and Yun Xiang beside him, and asked: "What do the two elders think?"

"Since Mei Chuanfang has already decided to surrender, what else can we say? Ningbing can only win the championship this time." Elder Yun Jin tapped the table in front of him lightly, looking helpless on the ring Ningbing with a smile said lightly.

"Hey, I thought that this competition would allow us to see how the girl Ningbing has grown in recent times, but unfortunately, there is still no way to see it." Elder Yun Xiang said with some disappointment.

These two elders still pay much attention to Ningbing. Before, Ningbing was a lot of attention when he was in the Shuiyue Sect. After all, he was young, and was a direct disciple of the sect, and he also had a very good talent. Naturally, many people are curious about what achievements such a young man can achieve in the future?

And Ning Bing also used her own strength to tell them what her future would be like.

For now, no one would have any objections to the recognition of Ningbing's strength, and it can even be said that in the Shuiyue Sect for so many years, it is rare to find such an excellent disciple.

"Since Mei Chuanfang, the disciple of the Five Poison Sect, has surrendered, then this game will be directly pronounced and Ningbing won." Wang Lao stood up and said loudly, "The day after tomorrow we will have the next game, that is, everyone. We are all looking forward to Master Feng Tianling's game. I believe you also want to know how Master Feng Tianling has changed in the past half month."

This sentence of Wang Lao has been recognized by many people, because before Li Tian showed the strength of the gods in the game, many people felt unconvinced.

Why is a loose fairy who can directly enter the realm of gods at such a young age, and many young sect disciples can't achieve such results at all, it is simply unfair to them.

So many people put their hopes on another young man this time, Feng Tianling.

This guy has been carefully nurtured by Feng Jie since he was a child, with the goal of one day making Feng Tianling a presence that can be second to none in the entire God Realm. At present, it seems that this may be something that will really be realized.

As long as you can win the Ten Cities Conference this time, you can get a great opportunity. Even if you are very talented, without a little chance, it is impossible to become a powerful fairy.

Li Tian glanced at Feng Jie next to him. He must be very excited now. After this match, Feng Tianling played against the Sanxian. I believe that Sanxian's strength should not be very strong either. Any celestial being able to achieve Li Tian's level, he became a strong man in the realm of gods at a young age, and such talent is rarely seen among these young people in the realm of gods.

Now more than one person expresses admiration for Li Tian.

"Work hard, the future will be your young people's world. Although you are not getting along very well with each other during this time, you are after all participating in the competition on behalf of our Crescent City in the past. I hope you guys You can coordinate with each other to resolve all the contradictions between each other. If you cannot communicate with each other at this time, then you will inevitably fail in the game." Feng Jie stood up and patted Li Tian with deep thought His shoulders left.

Li Tian always felt that there must be other emotions in Feng Jie's sentence. This person is also the lord of a city anyway, and his mind is definitely not something that a small person like them can easily think of.

Seeing Ningbing coming down from the ring, he smiled and asked, "How is it?"

"It's much easier than your game. Mei Chuanfang has never thought about fighting with me, just want to try how big the gap between me and me is. After knowing the gap, he chose it the first time. Surrender, I don't have time to fight this guy well." Ning Bing looked at Li Tian and said helplessly.

Today's game was indeed quite helpless, and the opponent had never thought of playing seriously against Ningbing.

It is estimated that Mei Chuanfang had already figured out what to do in this game before, and he himself did exactly that in this game.

Chapter 5557: Re-enter the remains of ancient gods

He Ningbing returned from the sky dojo, Li Tian directly shut himself in the room.

At the same time, he also told Ningbing, no matter what it is, don't bother him. The good name is to consolidate his current strength and make himself stronger, but in fact it is just because there is another thing that needs him to do. Just do it.

The previous Yasha clan is still in Li Tian's small world, and has not dealt with their affairs since they left the Xuan Yin Temple, nor has they talked about it with the ancient gods.

At this time, the Junior Hero Contest was just completed, and the day after tomorrow's match was Feng Tianling. Although he wanted to see how strong this guy was, since he and Ningbing have

both appeared in this match, Then it is estimated that they can only go to the Ten Cities Conference together as companions, and it is definitely impossible to continue to fight, and Feng Tianling's strength naturally has no meaning.

Compared with Feng Tianxiang, Li Tian wanted to fight Feng Tianling more.

This person usually does not show the mountains and does not leak. Compared with Feng Tianxiang, he has a more city government. Before encountering such things, he was able to stay calm and persevere all the way. It can be seen that Feng Tianling and Feng Tianxiang are indeed better than a star , The gap in IQ alone cannot be said clearly in a few words.

With so many things happening, the only thing Li Tian can be sure of is that when Feng Tianxiang wanted to assassinate him before, Feng Tianling must have known about it, but he hasn't done anything, nor has he stepped up to say it. What, I can only say that this guy is very smart, he knows Feng Tianxiang will do all this on his behalf, so there is no need to worry about Li Tian.

Now that someone wants to kill Li Tian, he certainly doesn't need to continue to waste his time dealing with Li Tian, he just needs to honestly wait for the next news.

If Feng Tianxiang could kill Li Tian, that would be the best thing, and if he couldn't do it, it would be helpless.

Of course, it is actually not very difficult to achieve this level with Feng Tianxiang's strength.

It's just that everything was calculated afterwards, which caused things to become like this. It can only be said that Feng Tianxiang is also very poor in employing people.

After Ningbing left, Li Tian began to communicate with the ancient gods in the spiritual world: "Senior, there is one thing I don't know whether to say or not."

"What you want to talk about are those Yashas in your little world?"

"Well, these Yashas still have curses on them. They left the Profound Yin Temple because of me. Now I am placed in my small world. Although there is no problem in a short time, but after all, in my small world They haven't been able to fully form the real rules of heaven, and they won't get any benefits here, so I think."

"If you don't tell me, I also know that you want these Yashas to enter the ancient gods relics. After all, their current strength must have nowhere to settle in the gods, but in your small world, they can be very safe. Survival, but there are still some limitations to their own development. You want me to help you place them in the ruins of the ancient gods." The remnant soul of the ancient **** responded faintly.

"I really think so. The Yasha clan has a very secret connection with me. If it weren't for them, maybe I would not be able to comprehend the tricks of Void Leap." Li Tian said, in his tone of voice. Bringing some sadness, the three Xiaoyashas have followed him for so long, originally thinking that they had been wiped out in the last battle.

Unexpectedly, as they came to the realm of the gods, after their ability was restored bit by bit, they would also wake up with Li Tian. Although they eventually contributed their lives for Li Tian, the void transition is just like their brand. It will only be painted on Li Tian's body forever, and it will never be changed.

Li Tian waited quietly. After all, the ruins of the ancient gods were the site of the remnant souls of the ancient gods. Although his relationship with the remnant souls of the ancient gods was fairly good, he could not decide whether to agree or not.

"This is not something that can't be done. As long as they enter the ancient gods' ruins, they can be honest and don't casually destroy them. But if they want to use their current strength, even if they want to live in ancient It is also impossible to destroy the ruins of the gods. If they dare to make trouble on my site, they can only wait for it to be unlucky." The remnant soul of the ancient **** said in a serious tone.

"Senior, did you agree?"

"There is something that you can't agree to, you are going to Shuiyuezong soon, and you will definitely get a lot of opportunities there, but after all, it is just a loose fairy, and in many ways it is still inferior to the real fairy. There are a lot, and this time is just an opportunity. You can try to find some more interesting treasures in the ancient gods ruins, but be careful, your current strength is only a little ability to protect yourself, but it's true After encountering a terrible opponent, there is still no way to contend with it." The Ancient God Remnant Soul said solemnly.

Li Tian nodded, very excited.

I have always wanted to return to the ruins of the ancient gods. After all, there are countless treasures and opportunities here. Who in the entire God Realm doesn't want to come here? Even a **** emperor, I'm afraid it can't stop this temptation.

It is a pity that the ruins of the ancient gods themselves are a very rare existence, and there are ancient gods guarding them. If you are not a master or if you are lucky, it is impossible to find such a place. Li Tian was also a coincidence. , Was able to find the relics of the ancient gods in that situation. Although they didn't get any benefits in the end, the remnants of the ancient gods followed him, which helped a lot.

He was excited while waiting.

Not long after the words of the remnant soul of the ancient **** fell, a whirlpool slowly appeared in front of him, and the area of the whirlpool was also increasing bit by bit, and soon it became able to accommodate a person. The area to go in.

"Well, go directly from here and you can enter the ancient gods ruins. You must come back by tomorrow afternoon. If you haven't returned before then, I can only force you to be sent back. "The old **** remnant soul said.

"I know that the game is about to start. Even if I don't want to watch that guy's game, I guess I still need to show up, and I have been missing for so long without knowing what will happen."

Chapter 5558: The treasure hunt begins

The familiar feeling of dizziness attacked Li Tian again at this time. He felt his head suddenly become groggy, and the whole person was also dizzy, and he almost fell asleep on the ground.

However, this process did not last long, and he quickly stabilized his state.

When I opened my eyes again, I found that I had left the city lord's mansion and once again came to the ruins of the ancient gods. The familiar aura and dense vegetation made Li Tian's emotions

agitated, and his body's recovery also needed. It's much faster than before. After all, here is a place with a long history. I don't know how much aura here is stronger than outside.

Not to mention looking for treasures here, but to practice honestly here for a period of time, it will be much better than outside.

Regarding the ancient **** ruins where the whole body is full of treasures, no one is unwilling to come here. Li Tian believes that anyone here will not easily make up his mind after witnessing the benefits of the ancient **** ruins. Left this place.

With a faint smile on the corner of his mouth, he said loudly: "After so many days, I am back here again. I don't know what kind of sight I can see this time."

"Be careful. My current strength is still different from before. I can't protect you here. If you encounter any danger, I will crush the stone in my hand. I will send you out of here as soon as possible. "The remnant soul of the ancient **** condensed a shadow by Li Tian's side, said very seriously, and put a stone in his hand: "But you have to remember, maybe in these few months , This is your only chance to enter the ruins of the ancient gods. If you leave this time, it will be a waste of time to wait until the next time you want to enter here."

Li Tian tightly grasped the stone in his hand, this is a treasure.

"I know, I will seriously consider it. If I really encounter an enemy I can't deal with, I will honestly crush this stone."

"Well, there are many things in the ruins of ancient gods that I can't even figure out. Even **** emperor level immortals have to be cautious here. Here is a treasure that cannot be described in words. I'm going to leave it to you to explore. You still have a day and a half. If you can't complete your goal in this day and a half, I will force you to leave. Next time you want to come back here. It's difficult."

The Old God Remnant Soul explained to Li Tian that his body began to slowly become illusory, like a shadow, as the light dissipated, it also disappeared.

Li Tian squinted his eyes, then opened the small world in his body by the way of void leap, and then transferred all the Yasha clan to this side.

The first time the patriarch came out, he aimed at Li Tian with the trident in his hand: "Where is this place?"

"Ancient **** ruins, I think you probably don't know what the meaning of the ancient **** ruins is. In short, this is a geomantic treasure land. It is safest for your people to stay here before they have completely risen, and there is no need to worry about any enemies , There shouldn't be your enemies here. If there is any problem, we will help you as soon as possible." Li Tian smiled sullenly.

The patriarch looked at Li Tian solemnly. Through chatting with this kid before, he knew Li Tian a little bit. Now that he heard him say this, he began to slowly observe the surrounding environment.

I have to say that the ruins of the ancient gods and the gods outside are simply worlds apart. You can also see many artificial excavations outside, but the only thing you can see here is the dense natural scenery. Everything here is all Slowly formed over time, it is truly an ancient relic.

"This place looks very old, even longer than the history of Xuan Yin Temple."

"The time when the Xuanyin Temple was built is incomparable with the history of this place." Li Tian said triumphantly after hearing this, "You will settle down here for the time being. If there is any problem, you will need it. It's up to you to develop slowly, and when you get rid of the curse on your body, I will let you leave here."

The patriarch looked at Li Tian and sighed: "That curse is very terrible, how can it be lifted?"

"The curse itself cannot be removed so easily. Whether you can make this curse completely disappear from your body is not determined by the performance of others, but by your own performance. If you believe that you can If you deal with the curse, then there will be no problem, but if you don't even have self-confidence, then even if this curse is not very strong, you will still be unable to get rid of this curse for a lifetime." The voice of the remnant of the ancient **** is in the ancient **** There was a sound in the ruins, illusory, making the expressions of these Yasha suddenly serious.

Looking at these Yashas who are like enemies, Li Tian also smiled and explained: "This one is the owner of the ancient gods ruins and the guardian here too. Only under my plea, he was willing to let You stay here, so when your Yasha clan are here, it is best not to make trouble, otherwise even I cannot guarantee that you will continue to stay here."

The patriarch glanced at Li Tian; "Thank you very much."

"It's nothing, it's all the promises I made before. I may not do a lot of things very well, but I have always been very serious about my promises to my friends. Since I promised them Let your clan rise, even if I can't do something like this, I will still work hard in this direction." Li Tian smiled and looked at the patriarch: "You can live here."

In the next time, the Setun Yasha clan began to build their own tribe here.

This process was very long, and Li Tian was not interested in staying here and watching them build up little by little. Instead, he left these Yasha clan directly and started to move towards the ancient **** relics deeper.

This is an opportunity he has waited so hard these days. Whether he can find the treasure in it depends on his luck today.

At this moment, Li Tian simply didn't dare to show his atmosphere, and completely focused his attention on this. If he could find the treasure, it would be the best.

Chapter 5559: Mang Beast

There is still a slight gap between the time in the ancient **** ruins and the outside world. If you don't feel it carefully, you can't feel it at all.

Li Tian discovered this incident by accident.

Although there is not much difference between the time inside and the time outside, there are still minor differences, at least one or two hours slower than the outside time, and the creatures living here are all ancient creatures. Of course, there are also many creatures that still exist in the God Realm, but these creatures are entering here, if they don't have very strong vitality, they will be killed soon.

Natural selection, the winner is king.

This is an even more ancient rule. If you want to prove that you are a strong person, you must make efforts under this kind of heavenly choice, so that others can see that you are different from most people. At this point, only in this way can you become the top creature in the biological chain. If you cannot adapt to this rule, then you will definitely be eliminated directly by this world.

This is beyond doubt, even Li Tian knows this rule.

Therefore, the creatures that can survive in the ruins of the ancient gods are very tenacious creatures. In the face of huge opponents, they can also show amazing vitality, survive in the cracks, multiply step by step, plan themselves, After all, one day, it can also become a living creature standing in the upper part of the food chain.

On the way, I didn't see any treasures, but I saw a lot of monsters and giant beasts.

The biggest difference between monsters and wild behemoths lies in the degree of evolution and their size. Generally speaking, any one of them is like a small hill.

As for the Warcraft, as their strength gets stronger, their bodies will get smaller and smaller, getting closer and closer to humans.

Beasts are a bit more powerful than the prehistoric monsters in terms of cultivation. After all, they are getting closer and closer to humans, and they will gradually have the unique talents of humans, and their abilities in cultivation must be strengthened a lot.

As for the behemoths, they themselves rely on their own bodies to fight, so they have always emphasized their physical resistance to fights. Therefore, in the process of tempering their bodies, they want to improve their strength, but there is no So easy.

Just like one is learning culture and the other is exercising, it is better to learn culture faster. Although the effect of exercising is good, the speed is too slow.

But the effect is definitely stronger than Warcraft.

Therefore, Li Tian would subconsciously avoid these guys when he saw the giant beasts.

However, just when he thought he was going to pass the previous passes easily, a huge sole fell down, like a big mountain falling from the sky, blocking Li Tian's path.

In front of him, there was also a wild beast walking upright.

The first time he saw the wild beast in front of him, the stone in his hand also conveyed all the information about the wild beast in front of him.

Mang beast!

Among the ruins of the ancient gods, it can be regarded as a medium-strength prehistoric behemoth. Not to mention the strength, the most important thing is that this guy is tall and has steel-like skin, and the ability to withstand damage is quite strong.

"Humans, not everyone can come in here, just get out of the way, I won't eat you." Mang Beast lowered his head and looked at Li Tian at his feet, with a hideous smile on his mouth.

Li Tian raised his head, looked at the beast in front of him, and said, "What if I refuse your request?"

"Then I can only choose to eat you guy. Although I haven't eaten humans for a long time, I don't mind eating one or two humans." Mang Beast looked at Li Tian, the smile on the corner of his mouth had become very strange. .

And Li Tian also knew at this time that if he wanted to move on, it would be inevitable to fight against the beast in front of him. If he wanted to cross this path, he would definitely have to deal with the beast in front of him.

But his body hasn't fully recovered yet, and it must be a little strenuous to deal with it.

"You have been here for so long, and you have been practicing for so many years, you will definitely crush me in strength. If you fight against you, my chances of winning are very small." Li Tian looked at him with a treacherous smile. Said the beast.

"Then what do you want to do? Apart from fighting, can you find another way to get through this place?"

"You have evolved to a state where you can be wise. If you still use combat to solve problems, it will be unreasonable. The outside world is now using another method to resolve the contradiction between the two sides. , I also think this method is more reliable, if you want, we can try this method." Li Tian deliberately sold a pass.

After all, the giant beasts are just giant beasts, their bodies are quite developed, but likewise, their IQ is still relatively lacking.

This is what many people often say. The limbs are well developed and the mind is simple. Hearing such a seductive sentence by Li Tian at this time made the reckless beast in front of him a little bit confused. He looked at Li Tian cautiously. Knowing what the other way this human is talking about is what kind of way, just a little curious, staring: "Let's talk and listen."

"Let's guess the riddle. If you can guess it, it proves that your IQ is higher than mine. Then I will leave here obediently. If you can't guess it, I can pass here."

"What is a riddle?" Mang Beast squinted, looking at Li Tian at his feet, and asked curiously: "I have never heard of such a weird vocabulary. Is this also the latest thing invented by you humans? It's really a weird creature, and your things are indeed very strange."

Li Tian smiled: "This is a fighting method that tests your IQ. At the same time, it does not require us to consume physical strength to fight. It is a fighting method that has the best of both worlds."

Mang Beast looked at him and snorted: "Well, let's try it. I also want to try your human games. If you can beat me, I can let you pass here, otherwise If so, you can leave here obediently, or choose to fight with me and be eaten by me."

Li Tian nodded: "Okay, then let me start with a puzzle first."

Chapter 5560: Break one's word

"We humans have a lot of interesting puzzles. Today I will give you one or two. If you can guess it, it proves that your wisdom is quite powerful, then I have to leave here obediently." With a sly smile on Li Tian's face, the rugged beast in front of him looked very tall, but his IQ would certainly not be very high. If he randomly asked one or two puzzles, he might completely deceive this behemoth.

He smiled, and then slowly said, "The problem is very simple. For a pipa without strings, type a four-character idiom."

"..."

Mang Beast looked at Li Tian stupidly, completely in a stupid state. His mind must be unable to guess the answer to this riddle. Li Tian is just casual among so many human riddles. Only one was found, and he didn't intentionally make things difficult for the reckless beast in front of him, but looking at his current state, it was clear that there was a little bit of trapping and I didn't know what was going on.

As time passed, Mang Beast still stood there and did not respond.

"It seems that this puzzle is a little bit difficult, even a wise creature like you can't answer it."

"There are indeed some difficulties, I want to know what the answer to this puzzle is," Mang Beast didn't have any expression on his face, he just looked at Li Tian and asked.

"Never hung up." Li Tian said solemnly.

Mang Beast was shocked for a while, he probably didn't expect that this puzzle would be so simple, he hadn't thought about it at all before.

This is also a very interesting part of the puzzle. Often the answer is what you can guess at will, but it is precisely because the answer is so easy to guess that many people will not believe that the answer to the puzzle is this. Even the Mang Beast in front of him is the same. Such an important question is certainly not easy to answer. Mang Beast thinks that this question must be very difficult to guess.

Who would have thought that it would be such a simple answer. At this time, he looked at Li Tian stupidly and said, "Come on again, I will definitely be able to guess the next puzzle."

"The body has a long beard and a small fantail is better than a fish. This is an animal. See if you can guess what animal it is?" Li Tian said again, this time without any thoughts on his face. I couldn't guess any of them, presumably this one is definitely not the answer that the elm head like Mang Beast can think of.

Sure enough, Mang Beast stood there and looked stupidly for most of the day, and then snorted: "I don't know, what is the answer."

For the next ten minutes, Li Tian's kept asking questions to test the Mang Beast in front of him, but Mang Beast didn't know the answers to these questions. Thinking about it, he knew that this was normal. If Mu Nao could guess what the answers to these puzzles were, it would be the most legendary thing in the world.

"Look, I have said so many puzzles, but you haven't answered any of them. Shouldn't you have to fulfill your previous promises and let me pass?" Li Tian squinted his eyes and looked at the Mang Beast in front of him, his tone also It's much better than before: "These puzzles are really hard to guess. If I didn't know the answer, even if I couldn't guess it, you won't be wronged."

"Humans are really smart. It's no wonder those monsters will seek to become like you humans. If you have the wisdom of yours, you can indeed get some help in cultivation." Mang Beast did not

answer Li Tian's question directly , But reluctantly said something like this, seeming to be complaining about unfairness: "It's a pity that we are not born with such wisdom."

"So?"

"Even if you defeated me today, but I still want to eat you, dare to offend a behemoth like me, I want you to pay the price." Mang Beast's eyes widened, and all of his yellow pupils With clearly visible anger, this guy actually showed a very angry state at this time, as if he wanted to eat Li Tian alive.

Li Tian summoned Hong Zhan in an instant, staring at the reckless beast in front of him: "We had said it before, but now you are going to regret it. At any rate, you are also a powerful master. Should you be so shameless?"

"I did agree to let you go, but it depends on how I feel. Now I am in a bad mood. I don't remember what I said to you before, and I'm very hungry now and I really need to eat. Lose a human to relieve this hunger. Since you, a little guy, appeared in front of me, don't leave so easily." When Mang Beast spoke, the huge fist had already fallen towards him.

The Void Leap was launched instantly, and Li Tian was about to transfer to Mang Beast's head and directly give this guy a fatal blow.

Who knew that at the moment when the black hole was formed, a powerful force suddenly enveloped the black hole from the outside, and then made a crisp sound like a stone hitting the glass. After the sound slowly disappeared, it was originally The black hole in front of Li Tian has disappeared.

‘Damn it, has this creature’s abilities evolved to such an extent? The immortal who is more sensitive to space than normal, I just started Void Leap, he used his demon power for the first time to forcefully crush the entrance? "Seeing this scene, Li Tian's mood is very bad. This is also the first time he has encountered such a thing since he has learned Void Leap for so long.

I thought that after I had mastered such a method, I could be invincible in the face of any strong man.

Now it seems that the truth of the matter is still a little bit different from what I imagined. Don't look at the fighting power of the rugged beast in front of me. It seems that Li Tian is not in a perfect peak state just like him. .

The two people are on the same level at this time, and in the end it is not always a matter of who wins or loses.

"Want to use the way of traveling through time and space to slip away from me is just wishful thinking. I have been waiting for this opportunity. If you want to slip away from my hand, you have to ask me if I agree. "Mang Beast snorted coldly, looked at Li Tian in front of him, and said with disdain, that huge fist fell without any pause.

As for Li Tian, he was still in the scene just now, and he couldn't recover.

'boom! '

The sound of the explosion resounded throughout the ancient gods' remains.
