

A Killer 5701

Chapter 5701: Pay off

"Since he wants to have a good talk with me, he might as well give this guy a chance. I just want to see. He can say something that touches me at this time." Li Tian also saw it. Situ Shangyan, who stood on the side and didn't leave and didn't speak, knew that this person was waiting for his attitude, as long as he agreed, Situ Shangyan would not stop him.

"Is that no problem? With you now..."

"Although I have become a waste now, there are indeed many people who want to kill me, but I think they should find a foolproof strategy instead of trouble me in this way. Idiots know that this is successful. The probability of being is almost zero." Li Tian sneered, looking at Situ Shangyan in front of him, and said: "If you kill me like this, all the forces behind him will be investigated."

Situ Shangyan must also know these things. To become a general in the army of New Moon City, it is naturally impossible not to know this kind of relationship.

The reason why I have to ask again here is that I want Li Tian to say something like this.

In this way, if something irreparable happened afterwards, Situ Shangyan also had many excuses. He had warned Li Tian many times at this time.

But Li Tian himself didn't feel anything about this kind of thing, as if nothing happened. Naturally, I couldn't blame Situ Shangyan for not reminding him. It really didn't make any sense to remind him.

Chu Jiangnan looked at Li Tian, did not speak or make any expressions.

He didn't know if he could persuade Li Tian to cheer him up from the shadow of failure. He just knew that if his friend didn't choose to shoot at this time, then Li Tian in front of him might really be If you continue to fall like this, what will it look like in the future? No one can be sure about this. How can such a major event happen?

Situ Shangyan smiled and said: "Since you have made such a decision yourself, of course I choose to respect your decision, but we will all be nearby waiting for your call. If something happens, you must be the first Time calls us, and we will help as quickly as possible."

"Don't worry, if something happens, it's my destiny and it has nothing to do with you."

After Li Tian finished speaking, he turned around and entered his room just like a young man with no sense of crisis consciousness at all. Chu Jiangnan followed behind him, entered the room, and slowly closed the door.

At this moment, the inside of the room and the outside of the room have become two naturally isolated worlds, and no one knows what will happen inside the room.

"I can't believe it. Even a guy like you would become like this. When I saw your current physical condition before, I even wondered if the one standing in front of me was the one I was familiar with. You guys, in my opinion, your strength is stronger than any of us imagined, and your talent is definitely not something we can easily compare." Chu Jiangnan followed Li Tian and closed the door. Set up an enchantment directly here.

"People always make some wrong decisions, even me. No one can guarantee that I have won all my life and never failed." Li Tian looked at him calmly and said: " Just like you, sometimes you have no way to decide your own life. When facing certain things, all you can do is to change your current situation as much as possible, nothing more."

"Such a setback, really lost your hope?"

"If I really had completely lost hope, I would not stand here and listen to you and me so much. The reason why I am willing to stand here and listen to you and me is because I know that maybe you These things can make me change my current inherent state, and I naturally know that my current state is very unhealthy." Li Tian sat down, picked up the teapot, and poured a cup of tea.

The hot tea was fragrant, and then pushed to Chu Jiangnan's front: "Drink some water, if you have any questions, if you have anything else you want to say to me, you can say it all at once."

"You should know Baicaomen, I believe you must also be looking for a way to restore the memory of freezing ice, Baicaomen, you must have heard of it."

"It's just a sect that exists in many people's legends. Now no one can tell me with certainty that the Baicao Gate really exists. People's understanding of the unknown world is still in a stage of confusion. ." Li Tian smiled and looked at Chu Jiangnan in front of him: "After knowing the situation of Ningbing, I was trying my best to find a way to change, and the Baicao Gate was naturally within my scope."

"It's just that I gave up without trying for long, because I knew it was something I couldn't accomplish at all. It was too difficult to find the Baicao Gate. You came to me this time, probably because you want to tell me. , My body can let Baicaomen go to help change it.":

"It is indeed like this. So far, if anyone in the entire God Realm can help you, I think only Baicaomen can do it, and only they can create such amazing miracles." Chu Jiangnan saw Li. Tian is serious and indifferent, knowing that he may have thought about it, and his efforts today may be in vain: "I know it must be very difficult to find them, but I have always believed in them. That is, there will be rewards in the end."

"If I had time, I would choose to waste some time looking for them, but now I don't have a lot of time, and I don't have a better chance to gamble my life on this kind of thing. There will be rewards for the effort. Everyone knows things, but what I know now is that as long as I leave Tianqi City, thousands of assassins will appear to take my life."

There was a look of helplessness in his eyes, and he looked straight at Chu Jiangnan in front of him. He wanted to make the guy in front of him understand his helplessness. This was really a feeling of helplessness. Although he wanted to save himself, he had no chance to save himself and could only be slaughtered.

Chapter 5702: The bottom line of the Sima family

Chu Jiangnan was silent for a while.

His palm has always been tightly grasping the ceramic cup in his hand, and even this tea cup was almost crushed by his powerful strength.

But at this time, he could feel that there seemed to be something in his body slowly awakening.

"You should remember what I was like before. Before, I and you were the same desperate, thinking that I will always be that way, and I can never change again. To me, the devilish energy is like a tarsal maggot. The same, no matter how hard I try, they will always be entangled in me, and they are about to collapse my willpower." Chu Jiangnan paused for a while, then said slowly.

"So?"

"During that period of time, I felt the same as you. The world is dark and colorless. Your life is no longer under your control. You should know that it feels uncomfortable, right?"

"It's really uncomfortable. My dreams and everything I once had just disappeared overnight. No matter who it is, this feeling will be unsustainable." Li Tian smiled, he is now So I still sit here, thinking about how to change my physical condition, but it's just because of freezing.

In this world, his only hope left is freezing ice.

Only Ningbing can make Li Tian truly feel his existence, which still has a little meaning.

In this world of the weak and the strong, everyone looks at an existence that is stronger than themselves. If you are the weak in their eyes, then I am sorry, you will not have any value in their eyes.

This is the value of God Realm, without any mercy.

Before that, Li Tian was a genius in New Moon City, a hope in the eyes of many people, and a money-making machine in the eyes of many people.

But now he has become a trash. The halo that had previously shrouded him naturally disappeared in an instant. Now, how many people really take Li Tian in front of him seriously?

Even Li Tian himself knew that now he was completely different from his previous self.

"Yeah, it is really difficult to stick to that situation. After I came to the realm of God, I even wanted to bear my own life, but when I was about to do this, I met Master Sima, who was also Master Sima. With his help, I am what I am today." Chu Jiangnan raised his head and looked at Li Tian in front of him seriously: "It can be said that he is my second-born parent. The appearance of this person has reversed my entire life. "

"You should be thankful that you are relatively lucky in your life. Meeting someone like this at this critical time has helped you change your life and made you who you are now."

"Naturally it is like this. It is precisely because he has been helping me that I am where I am today. The reason I tell you these things is that I want you to understand that although you are desperate now, you should never Give up your hope, you should know very clearly that you will change your life one day, I believe you will cheer up again.":

"Sounding words, who can't say it, it's just that it is more difficult for many people to really want to do this kind of thing than to go to heaven."

"If I tell you that the Sima family is willing to help in this matter, and is willing to send a few masters to protect you, so that you can concentrate on finding where the so-called Baicao Gate is during this time, and then let you grow up, what will you do? Decided?" He opened his eyes wide, looking at Li Tian in front of him, and asked excitedly every word.

After Li Tian listened, there was no big fluctuation either.

Shuiyuezhong, the city of the new moon.

These two forces are not considered to be very weak forces in the God Realm, and they are not inferior to the Cheesema family.

Their efforts on this matter have long surpassed the imagination of many people. Feng Jie has always wanted to make Li Tian grow up, and then one day they can become the signboard of their New Moon City.

So as soon as this happened, another Tianzhou was dispatched, loaded with many powerful men and generals, ready to come and take Li Tian back.

In the New Moon City, with the protection of Feng Jie and Murong Ziqing, even if Li Tian's enemies are able to pass the sky, it is also a very difficult task to attack Li Tian under this heavy protection.

Even if the two forces acted together, they still haven't found any news about the Baicao Gate.

Since this sect was hidden after the war, it was like the world has evaporated. Apart from some legends, it is difficult to hear anything about them.

Even if you hear some, they will only be treated as a joke.

Over time, the three words Baicaomen have long been forgotten by many people.

"I know you may not look down on it. After all, the New Moon City and the Water Moon Sect are all jumping up and down to help you, but you have to know one thing clearly. Our efforts are not inferior to them. It is very possible to help you find where the Baicao Gate is."

"If you come here today just to tell me these things, I think you can leave now. I won't give up hope. It's just that my current decadent state is very difficult to change. If one day I can stand again. In the arena, that miracle must have been created by myself. One of the things I believe most is that my fate is my fate."

"Do you really think so?"

"I have my own opinions. I know exactly when and what to do. Knowing my current state may worry many people. If you can, you can help me tell them. There is no need to worry about things, I know what I need to do." Li Tian smiled, and then walked forward slowly and opened the door: "If I have time, I will talk to you carefully."

Although I don't know if Li Tian listened to it, I have already said what should be said, and the sincerity of the Sima family has also been shown.

This should be Sima Shangwu's bottom line. As a member of the Sima family, it is also because of this status that the Sima family is willing to devote some of the resources to help Li Tian find news about the Baicao Gate.

Otherwise, it would be impossible for the Sima family to use such power if they were just ordinary people.

This is the bottom line of the Sima family, and it is also the bottom line of Sima Shangwu.

If this fails to regain Li Tian's confidence, there is really no way.

Chapter 5703: Rule change

Chu Jiangnan left helplessly.

When leaving, Ning Bing took a look and saw the helpless and unwilling expression on his face, knowing that this guy had no sense in Li Tian's room for so long, so he closed his door directly.

It seems that this kind of thing still has to be handled slowly by time, and what it will look like depends on how time is prepared.

As for the future, she has no time to continue thinking now.

She slowly took out a brocade box from the ring. She didn't want to use it before. She wanted to grow up with her own strength and hard work just like Li Tian, instead of using anything. Only a panacea can achieve such an achievement.

But at present, such an idea is obviously undesirable.

Ning Bing knew very well that now Feng Tianling had failed, and Li Tian had become what he is now. This time, he was the only one who was standing on the ring in the competition. This kind of critical time can no longer be reserved. You can only take out all your own means and see if you can change something at this critical time.

As for the result, everything is just to be able to do everything and obey the fate.

When Situ Shangyan saw Chu Jiangnan leave, he sighed and returned to his room.

Li Tian was the only one left, silently closing the door, and then ready to continue investigating ancient books.

"This thing is really harmful. The ancient spellmasters have disappeared for a long time. They reappeared in the gods this time, it is not without any thoughts." The voice of the Emperor Beidou suddenly rang in Li Tian's ears, and then the **** emperor in white appeared in his room and sat on the place where Chu Jiangnan was before.

"Why are you here?" Li Tian is not as respected as before, anyway, he is now a puddle of mud, no matter what, no change is possible.

The one in front of him is a superior **** emperor. If you change the previous words, you may have a good relationship with this **** emperor, and perhaps you may get some benefits from it.

But now the situation is different. He is destined to be like this. Naturally, he will not particularly care about the relationship with the **** emperor in front of him. As long as he makes no mistakes, I believe that the **** emperor in front of him will not do anything to himself. what.

"You little guy is really funny. When I saw me before, he respected me in every way and was also careful. I seemed afraid to make me angry, but now I can't see this in your eyes. I have something, I really want to know what kind of mentality you have." The Emperor Big Dipper glanced at Li Tian, but he didn't feel very funny. The attitude of this young man towards himself was really within a few days. , It was turned upside down.

"Before I could please you and let you do some things for me, but now it's different. I'm almost destined to be like this. If the relationship with you is good or bad, there will be no results. I don't like doing something. Things that don't make sense." Li Tian said calmly, and then sat in front of the Emperor Beidou slowly.

The Emperor Beidou looked at him, smiled slightly, raised his hand gently, the teapot flew up by itself, and then the teacup inside flowed into a teacup as if guided by some mysterious power.

Afterwards, he picked up the teacup and sniffed: "Tianqi City is indeed the largest neutral trading city in our God Realm. These teas are hard to taste even for me, but they can be seen everywhere. ."

"You are the **** emperor who rules one side. If you really want something, how can you not get it?" Li Tian smiled and asked.

"There are a lot of things in this world that you really want to get, but you can't get them at all. Human greed is the root of all evil, and everything is caused by greed." The Emperor Beidou suddenly serious I got up, looked at Li Tian, and said, "The opportunities in you are so many that your body is starting to become weird now. I don't think you seem to have noticed this."

"I know."

"you know?"

"I know that there are too many things I am good at now. This is likely to cause me to be unable to exert my original strength at some critical times. This is the reason why I am greedy and not chewing." Li Tian smiled. Laughing, seeing the unexpected eyes of the Emperor of the Big Dipper, it seems that I feel very satisfied: "Although I know this very well, I also know that sometimes many things are out of my control. "

"For example."

"If I want to survive well in the God Realm, I must make myself stronger. I am just like a landlord. Many farmers are coveting me. I want to be among these people. To survive in the coveted situation, I can only continue to increase my hole cards. Only when I have more hole cards, others will not know what methods I have, and the odds of winning will naturally increase."

"This is also a good method, but it's a pity that this method makes you fall into a state of continuous circulation. Even you should know very clearly that if you continue in this state, you want to grow up. It takes too much time and effort than others, is it worth it?"

"Of course it's worth it."

This is a reply that the Big Dipper God Emperor did not expect.

He was only surprised for a moment, and then smiled: "I didn't expect you to have such an enlightenment at a young age. I thought you didn't realize this before. Now it seems that I think more than you. Many people want to see it thoroughly, but because they want to survive, they can only choose to use various ways to make themselves stronger. This is also a good way. I came to you this time because I wanted To tell you, the rules of the Ten Cities Conference this time have changed."

Li Tian, who has a keen sense of smell, knew all at once, and this change might have something to do with him.

Otherwise, if I just failed today, this rule would have changed drastically, no one would have thought of it.

Seeing Li Tian with a blue nose and swollen face in front of him and his injuries still recovering, the Emperor Beidou deliberately sold a pass, did not rush to say it, but waited for Li Tian to ask impatiently.

As a result, this kid was more composed than he was. He always sat on the side and didn't mean to ask.

Chapter 5704: still have a chance?

"You don't want to know at all, what kind of change is the rule change this time, and why is there such a change?" Seeing that Li Tian was so silent and so calm, the Big Dipper God Emperor couldn't calm down. , Asked actively.

"This time you came here to tell me about this. If I ask, it will be a disadvantage on the aura. If you need me to do something later, I may be taken into the gutter by you. I have agreed to your request." Li Tian raised his head and responded calmly.

"Although you failed in this trial, it does not mean that you have completely lost the qualification to participate. According to our adjustments, the next seven people will be eliminated, plus the one who has not participated in the battle before. Fortunately, you are in this wildcat. If you can defeat your opponent here, you can successfully enter the remaining eight finals."

"What is the meaning of such a rule change to me? My meridians are cut off now, there is nothing..."

"Don't rush to define. If people lose hope at the beginning, then miracles will never happen in a lifetime. Then there are three full days of preparation time. During this time, you can adjust your physical condition and prepare. In the game, surprise those who originally looked down on you." The Emperor Beidou stepped forward, like a kind elder, patted Li Tian on the shoulder.

He believed that this young man should know what he meant by what he said.

"You mean, I still have..."

"I didn't say anything, but this time the ancient spellmasters did play a big conspiracy. They knew that you were a genius among the young people of this generation, so they used this method to persecute you. I think that as long as we kill one of our geniuses and defeat our God Realm later, we have more chances of victory." The murderous intent in the eyes of the Emperor of the Big Dipper flashed.

Li Tian looked at the person in front of him, but he didn't quite understand what the Big Dipper God Emperor meant like this.

But while he was still wondering, the Emperor Beidou stood up: "Although your meridians are broken now, it seems that there is a way to continue practicing, but I think you should soon find a way to change your physical state. After all, you have already surprised many people before, and it is reasonable to continue to surprise them now."

"Thank you God Emperor for calling."

"What kind of hint is this, I'm just afraid that you, this kid, will be languishing like this. Those little guys are betting all their hopes on you. If you lose the belief in victory, who else Can you defeat the

enemy?" The Big Dipper God Emperor looked at Li Tian so seriously, and smiled helplessly: "I look forward to it, watching your performance in the game."

"Perhaps it may be possible, but now that it is very unlikely." Li Tian is still very calm, knowing that his current state really wants to change, it is actually far more simple than imagined.

"Okay, take a good rest, that's it for today." The Big Dipper God Emperor took a very calm look, then the smoke disappeared and disappeared.

The voice of the remnant soul of the ancient ***** rang: "He seems to know something about the ancient spellmaster clan. Are you not going to investigate it?"

"How to investigate?"

"Maybe this ancient book can really take your strength to the next level, maybe, or that if you want to learn the spells above, you need something else."

After Chu Jiangnan left Li Tian's courtyard, he turned a corner and saw Sima Shangwu sitting in a teahouse drinking tea.

The young master seemed to feel something too, turned around and looked over.

Chu Jiangnan knew that he couldn't escape, so he entered the teahouse, then found Sima Shangwu, and sat down opposite him, "Master."

"Talked?"

"Talked."

"As a result, I told him your bottom line, but Li Tian didn't seem interested."

"Of course I won't be interested. Although our Sima family is well-known in the God Realm, it is only well-known. Compared with the Shuiyue Sect and the New Moon City, it is only half a catty difference. Now Shuiyue Sect and New Moon City are both doing this. Of course he will not believe that even with our help, anything can be changed." Sima Shangwu smiled and said calmly.

"But if you continue in Li Tian's state, this time the Ten Cities Conference wants to fight against Li Tian in peak state, it is impossible. Master, what you need most now..."

"Let's go, maybe Qiang Wudi's strength is not as vulnerable as we imagined. Let's put the matter of the game on the game." Sima Shangwu raised his hand to stop Chu Jiangnan from continuing to speak, and then Squinting his eyes: "But you have to be careful, people in the Discipline Hall, many people have already touched Tianqi City. What will happen is still unknown."

"They've been groping here so quickly?" Chu Jiangnan was a little surprised.

"Don't underestimate these old guys. Although they are only members of the Shuiyue Sect, few people can think of the strength they have cultivated in secret over the years." Sima Shangwu sneered and said disdainfully: In this situation, they may have started in the near future. After all, Li Tian should be the best time to deal with it."

"Yeah, his current strength is considered to be the worst time, if it is really at this time, it should be the easiest time." Chu Jiangnan thought for a while, a touch of helplessness flashed in his eyes: "But

it is after all. Tianqi City, if they really choose to do something at this time, are they a little irrational? Are they still thinking about killing Li Tian here?"

"Those people in the Discipline Hall are all lunatics. They can't do anything, but fortunately, the Emperor of the Big Dipper has taken the lead in Tianqi City. If this master is here, maybe he can really suppress his opponent." Sima Shangwu thought for a while and said, "Of course this is not absolute. As for what will happen in the future, no one can predict this."

After Chu Jiangnan listened, his heart was naturally very nervous, but at this moment he didn't know what he should do in order to solve this problem better.

Help Li Tian?

He should least want to contact these people outside now.

Chapter 5705: Last chance

The words the Emperor Beidou said did not help Li Tian much.

Everything still depends on his own efforts to change his destiny, but whether this destiny can really be reversed, it is estimated that even the Big Dipper God Emperor is not clear.

After all, this kind of thing is already very magical for many people.

The meridians are broken, and for most people, it is already a dead end, and there is no possibility of change.

Even Li Tian also believed that his future was frozen in this way, and it was too difficult to change his current physical condition. He even thought that the way he was now might be a good result.

I originally thought that the Ten Cities Conference had nothing to do with him, but he did not expect that at this critical time, the Emperor of the Big Dipper would actually tell him these things. This made him feel very abnormal, and he also began to have a little hope, in the next few days, if you can really understand the contents of this ancient book, maybe everything will really change.

Although there is not much time, it does not mean that everything is impossible.

He still has a lot of things he can rely on. If these things can exert the energy he should have at this last moment, then maybe Li Tian can really regain his previous state and stand again. In the arena of the city convention.

On the other side, many people have not yet reacted to this newly changed rule.

The few people who were eliminated before felt a burst of light for the first time. Although there is only one place, if they can work harder in this, then it is very likely that they will become the only guy who stands out.

The only thing that is not clear is about the rules of this game.

After all, this time there are eight people.

Should we separate, one-on-one battle? In this case, the efficiency must be very poor. Although people don't know the rules, those who are eliminated are all preparing, waiting for the next resurrection to show the level that they should have. Then stand on this arena again and become a glorious promoter.

For many people, this is the most critical opportunity.

However, among these people, only one person was very angry. That was Xu Zhou, who was regarded as a lucky guy and went directly to the quarterfinals. This guy is also considered a smoke from his ancestors, and he was not eliminated in the previous competition. And I was lucky enough to enter the quarterfinals. Although I knew that I was going to be eliminated in the quarterfinals, it was enough.

A total of thirty people, being able to enter the quarterfinals, also represents absolute strength in strength.

In this way, even if you are eliminated at this time, many people will come to your door.

Xu Zhou had already thought of his life in the future, and he was immersed in this beautiful wish every day, as if it was such a wish to be realized next.

But the idea is beautiful after all, but the reality is always very cruel.

Just when he naively thought that he could keep walking on a glorious avenue like this, he found that things turned out to be like this. Everything that he had thought of before was as difficult to achieve as a dream.

For him, this is simply terrifying news, but if he wants to change, he can't find any good opportunities to change.

Maybe this is my destiny, I thought of it helplessly in Xu Zhou's heart.

This time the matter was arranged by the Emperor of the Big Dipper himself. Even if they were filled with dissatisfaction in their stomachs, at this time they could only be treated as if these things had never happened. Who would dare to have a little bit of the order given by the Emperor Not satisfied? Unless they become idiots.

"It seems that your guy's luck is really bad. You even arranged a resurrection match at this time. I really don't know what these gods are thinking.

"Because of Li Tian, such a change happened to this guy suddenly. It is a very strange thing in itself. Some people probably think that Li Tian can suddenly change in the next few days." At this time, he remained silent. Qiang Wudi on one side spoke and glanced at Xu Zhou: "The reason why they made such a decision at this time is probably because they only want Li Tian to continue participating in this ten-city meeting."

"But now that Li Tian is like that, even if he really went to the Ten Cities Conference, can he still make some achievements? I don't believe that this guy can be reversed in this state? I have never I've heard that someone in the God Realm can repair it after a meridian is broken." Xu Zhou had a dissatisfied expression on his face, and it was hard for him to struggle until now.

"Who said no, but if the ***** emperors want to make such a decision, can we still resist?" Tang Yan smiled helplessly, and stepped forward and patted Xu Zhou on the shoulder: "We can What I did was also very simple. I just accepted it slowly. Since there is no way to refuse this kind of thing from happening, I can only assume that this kind of thing happened to myself. Otherwise, what do you think you should do?"

"I'm just very angry. Why does such a thing happen to me? It's clear that I haven't done anything, yet I have to bear such a problem."

"Don't talk so much here. Instead of complaining about unfairness here, it's better to hurry up and prepare. If you perform well in this game, you can get through it easily. If you don't succeed, that's also considered. It's no longer a problem for others." Looking at Xu Zhou, who has been complaining in front of him, he said impatiently: "It's just a waste of time to say so much here."

Tang Yan glanced at Xu Zhou and did not continue to say anything.

Xu Zhou also knows that he has so many BBs here, which makes the young master in front of him feel very upset. At this time, he can only assume that nothing has happened, and silently said nothing.

"In this game, you have to pay more attention. Maybe this kid can really do something unexpected for us. After all, he has done something like this before. This time, maybe it might happen. "Qiang Wudi didn't know why, as if he felt something in his heart, he said coldly.

Xu Zhou looked at each other, but didn't know what he should say.

Chapter 5706: Tian Kuixian

It was night, the wind was blowing, and there was a bleak feeling on the ground.

Li Tian didn't know why. He always felt that his whole person's mental state suddenly became strange after entering the night. He calmly opened the window, then raised his head and looked at the starry sky. ,

There is not much difference between the night sky of the God Realm and the earth. You can see the stars twinkling, and occasionally you can see a bright moon, looming in the dark clouds.

The entire sky is pitch black, like a huge mouth in the abyss, people can't help but feel a sense of fear in their hearts when they see this scene.

"What are you looking at here?" Ning Bing didn't know when he also opened the window. From a distance, he saw Li Tian sitting by the window and looking at the sky, not knowing what he was doing.

"I don't know, I always feel that I must take a good look at the sky today. It seems that something is awakening from my body. This feeling is difficult to describe." Li Tian thought for a while, this is indeed him. As I felt right now, I found that something in my head was awakening little by little. Then, the whole person's state began to become weird.

"What are you talking about alone? How do you feel that the whole person is different? What do you mean? How come I don't understand at all." Ning Bing stared at Li Tian in front of him. This guy never spoke before. There is no such incoherent language.

"I can't explain it to you very clearly. In short, I feel that my current state is very strange, but I can't tell you what is strange." Li Tian looked at the serious ice in front of him, but at this time he shrugged helplessly. Shrugging his shoulders, he couldn't even tell what kind of state he was in now. It seemed that the soul of the whole person was going to be sublimated at this time.

Ning Bing looked at Li Tian in front of him, didn't know what to say, but took a serious look at what this guy was going to do now.

At this moment, a bright star suddenly appeared in the sky.

At the same time, the powerhouses of the entire Tianqi City seemed to sense something at this moment.

The Emperor Beidou slowly came out of his room, looked up at the sky, and smiled: "It seems that the rumors are not false. This young man has actually realized the thirty-six celestial steles. , Let me see, it should be Tiankui Star that lights up now. It seems that he is about to understand the meaning of the Tiankui stele?"

Although Li Tian had comprehended thirty-six steles before, it was actually like memorizing a book. Although all the contents above have been written down, it is obviously not so short as a few days to comprehend them. Yes, it takes time and opportunity.

Today, it is obviously an opportunity.

The contents of the Tiankui stele, which was originally asleep in Li Tian's mind, were all revealed at this time. As for the reason, it is still unknown.

And at this time in the city lord's mansion, the two hall masters also looked at the Tiankui star lit up in the sky, and couldn't help but laughed: "I didn't expect that this kid actually attracted Tiankui star at this time."

"This seems to be a good thing. He is now in a state of severed meridians. There shouldn't be such a vision. But this situation still happened. It seems that things will really turn around this time. Bai Xiaosheng squeezed his chin and looked at this rare scene in front of him, knowing that this so-called motivating Tiankui star is actually very difficult for many people to encounter.

Even if it is to comprehend the Heavenly Stele, it will take some time.

And most of the comprehension will not produce such a terrible vision.

At this time, the light of Tiankui star in the sky has become more and more shining, and in a vague way, even the brilliance of the moon in the sky will be suppressed. It is conceivable how rumored such light is, even They couldn't help closing their eyes.

To be able to produce such an abnormal noise, it can only be said that the twinkling of Tiankui Star this time is much stronger than before.

"I didn't expect it, we just gave this kid a chance, and didn't think that this kid could do anything with this opportunity. I didn't expect..." Chai Lei smiled.

At the same time, the entire Tianqi City is big and small, but all the experts with some strength walked out of their rooms at this time and looked up at the stars in the sky.

Most people are whole grains.

Many people don't want to see Li Tian become stronger again, but now they seem to have no way to realize their wishes. Before, they thought that Li Tian would become a useless person after the meridians were broken. Could it be said that this has created many miracles? Young people, do you have to create a miracle this time? If it is this person, then the strength of this young man is really terrifying.

The light of Tiankui star became more and more shining, and soon it was exactly the same as the light of the moon.

At this time, even though Li Tian was still in the room, he could feel the turbulence of energy all around him, and he felt like a lonely boat in a whirlpool. This feeling was uncomfortable, but He reluctantly insisted on holding on, waiting for a turn for the better.

Although I felt it before, Li Tian still doesn't know why this situation happened.

Ning Bing rushed out of his room and looked at him: "What's the matter, what happened to you?"

"I don't know what the situation is, but you have to keep a distance from me. I don't know if this situation will also affect you." Li Tian smiled helplessly, looking at Ningbing in front of him. At this moment, my body is just like being petrified step by step, and it has started to become stiff and numb. No matter how I move, my hands and feet are not at his disposal.

‘Damn it, what the **** is going on here, my meridians have all been cut off, don’t you want to let me go and continue to torture me like this? Li Tian raised his head. This is the true portrayal of his heart. He has given up enough things now. Could it be said that this **** fate is still unwilling to let him go and continue to torture himself like this?

He doesn't know, but in the midst of these energy turbulences, he is extremely frightened.

Chapter 5707: Maelstrom

If it was Li Tian before, he would still be able to maintain a very calm state in such a situation. It may even be said that he would never take such things to heart. After all, a Sanxian in the realm of gods has considerable strength. Tough.

But now, he certainly can't continue to have such thoughts.

He has become a very weak and weak ordinary person. Although his body is much inferior compared to before, it is much stronger than ordinary people. However, in the face of this kind of energy turbulence, there is absolutely nothing at all. The way.

These turbulences of energy appeared all of a sudden in these environments around him. There was no sign at all, and no one knew why such turbulences of energy suddenly appeared.

Situ Shangyan, who hurriedly emerged from his room, saw Li Tian who was in danger at the first glance, and rushed up immediately.

To say that his strength is not terrible.

But at the moment of approaching this turbulent flow of energy, you were suddenly smashed into the air. This feeling is as if you have concentrated all your strength, and then bumped your head against a cotton mat. The uncomfortable look is definitely not many people can imagine.

Seeing this situation, Li Tian became even more helpless.

The energy turbulence in front of him became denser and denser, and it began to stick to Li Tian's body like a viscous liquid.

"Don't come here, I don't know what's going on with your body now. If you come up rashly, you may be hurt." Li Tian raised his head and glanced at the Tiankui star in the sky. The light of this star has become more shining. It completely concealed the light of the moon. In the month before him, there was all white red light, which made people's eyes uncomfortable.

And beside him, after a part of the natural energy turbulence had been accumulated, it began to slowly form a vortex around Li Tian.

At this time, a powerful enchantment suddenly appeared outside the courtyard, stabilizing all the energy in it, and then, the Big Dipper God Emperor appeared in the courtyard: "Don't move around, now Li Tian should be here. Although he does not know the contents of the Tiankui stele, his body has already begun to instinctively welcome the new power."

"Enlightenment Tiankui stele? He is in Shuiyuezhong, isn't it..."

"That's just the easiest way to memorize the above content. If every piece of the sky stele can be easily understood by people, then there are now countless strong people in the gods." Beidou Shen The emperor glanced at Situ Shangyan who was a little confused, snorted, and said.

Situ Shangyan looked at the aloof ***** emperor, and at this moment chose to close his mouth, not daring to continue talking nonsense here.

And Ning Bing was standing aside watching Li Tian in the Maelstrom. From here, his current state was not as good as they had imagined. The whole person's mental state seemed to have fallen to the bottom in an instant.

"Let's seize this opportunity. Although I don't know why this happened, the energy of the thirty-six celestial steles is enormous. Back then, relying on the power of these celestial steles, two terrifying things were created. Strong." The Big Dipper God Emperor looked at Li Tian, who was frowning in the maelstrom, and his body was beginning to ache, comfortingly said: "If you can persist in the past, I can guarantee that your next life will be earth-shaking. The change."

Naturally, Li Tian knew clearly about this kind of thing. In other words, few people here could say that they knew the contents of the Tianbei Stone better than Li Tian.

Similarly, he is also very aware that in this state, the load on his body is hard to imagine. ,

Just the big vortex around him already had enough power to swallow everything. His body was completely stiff and paralyzed, and he was out of his control. Only his brain could still think normally.

Suddenly, a light bead fell from the sky.

It was like cold water being poured out all at once on Li Tian's body.

And he also let out a scream at this moment.

Immediately afterwards, the world in front of him all became a white world.

And outside, Li Tian was completely caught in this whirlpool, and people outside could no longer see what his current state was like.

Ning Bing took a step forward, but was caught by the Big Dipper God Emperor's shoulders: "Don't think about participating in this matter. You'd better stand by my side and watch this. Things are developing slowly. If you rashly intervene in this matter, you may not be able to save this guy, and it may even make his current state continue to decline.

"Do we just watch him in danger like this, indifferent?"

"Otherwise, do you have any better way? Now for Li Tian, this is a golden opportunity. It is hard to get his body to recover again. Or should you be prepared to watch this guy the same as before, just What about being a useless person with broken meridians?" The ***** emperor did not force Ningbing to do anything, but calmly advised him: "This may be his only hope for recovery."

"is it possible?"

"You are a member of the Shuiyue Sect. You should know better than I do. The 36 celestial steles of your Shuiyue Sect are also places that many cultivators yearn for. If you can understand and understand, they will bring you What kind of huge change, I don't think I need to explain it to you clearly, right?"

"but....."

"There are not so many but anymore. Now he has triggered the vision of Tian Kui Xing. For her, this is a rare opportunity. You may not help him if you go up now, and you will also make him miss this opportunity." After saying this sentence, the Emperor of the Big Dipper immediately retreated to the back: "How to choose in the end depends on your own thoughts."

Ning Bing knew that the Big Dipper God Emperor had put the decision on his body.

She looked at the maelstrom in the distance. At this time, the whole person was also very helpless. She didn't know what to do. Could it be that she should just watch it like this? What should Li Tian do if he is in danger?

She didn't know, but she didn't know why, she was instinctive, just stood here, there was no movement.

Chapter 5708: Legendary man

Li Tian was helpless.

The moment his body was swallowed by the vortex, he felt like it was about to be torn apart. This feeling of being divided by five horses was the first time he felt.

However, this painful process did not last long, because just when he was about to be unable to hold on to it, patches of dazzling white light suddenly appeared in front of him, and then immediately afterwards, he fell directly into a In a state of half asleep and half awake, when he wakes up again, he finds that he is already in a white luminous space.

This space is like a big house, except that there is no exit, and all sides are covered with stone walls of the same material.

In front of him, it was a very vague figure.

"Who are you and what place is here?"

"I originally thought that perhaps no one in the God Realm could see through the 36 celestial steles in such a short period of time. I didn't expect that there would be such a genius boy?" The vague figure turned around and looked at it. Li Tian in front of him said: "It doesn't matter who I am. All you need to know is that I, like you, have penetrated 36 celestial steles in just a few days."

Li Tian opened his mouth wide, looking at the light and shadow in front of him.

He knew that this light and shadow should be one of the two people in the legend of Shuiyuezhong, but the ages of these two legends are not the same. Is the one in front of him the older or the younger? Still don't know.

"Why am I here?"

"Because Tian Kui Xing judges your current state and can reshape yourself, so we will summon you here." Guangying looked at Li Tian with a bewildered look, and said: "There are thirty-six heavenly steles. At the very beginning of enlightenment, you need to break and then stand, that is to say you must completely destroy your body, so that you can enlighten the thirty-six celestial steles."

"There is such a strange request. Could it be that few people have been able to understand it for so long."

"Firstly, it is difficult for them to pass the test of Tianbei in the first part, and secondly, few people can really interpret the contents of the Tiankui stele, so most people can only be obscured. , Spent his life holding a treasure in vain, but there was no way at all." Guangying seemed to think of Li Tian's mind, and said calmly: "But by chance, you ruined your own The meridians, so that's all right, so that the power of the Tiankui stele will regain strength at this time."

"Then why are you here?"

"Because of curiosity, I really want to see what the young man after me will be and whether he can entrust the burden of saving the world to this young man." Guang Xiang looked at him very seriously. Like Li Tian, he could feel it himself, and he had a pair of eyes watching him very hot at this time.

It was like a man who had been abstained for many years and suddenly saw a blond woman.

With this look, Li Tian couldn't help but step back a few steps. The most worried thing was that the guy in front of him suddenly approached him.

"Don't worry, I don't mean to hurt you. I just want to see if you look the same as we imagined." As Guangying said, raising her right hand, she saw a burst of white The light penetrated into his body: "Hey, your body, is it because you practiced the ancient spell master's spell that made you look like this?"

"It's true. They said that this is the secret book of the ancient spell master's charm for humans to practice. I did it like this when I got hot."

"This is indeed possible for humans to cultivate, but there is only one person in history who can successfully cultivate, and that person is stronger than me, and it is also the existence I look up to." Guangying looked at Li Tian and said in a low voice: " But fortunately, we have met here before and talked a lot about it. I don't know why, he left me a mirror pouch and asked me to give me the next person. Could it be you?"

"..." Li Tian didn't know what to say at this time. It was obvious that the rumored strong man seemed to know that he would come here one day.

You know, if that person has really practiced the ancient spell master's spell, then it should be in a very ancient period, and if it is in the following years, no one should know.

A person who had crossed so long with himself, knew at such an early time that he would come here one day, this kind of predictive ability is simply appalling.

"Don't say it's you, even I am a little surprised now, he actually knew that you will be here one day in such a long time." Guangying said, and threw a mirror pouch to Li Tian's In the hands: "Boy, enjoy your life, but don't continue to do this kind of thing in a hurry. If you are greedy and can't chew, you can master all these things you master, so that you can truly become stronger. "

"Thank you senior for reminding me, I will remember it."

"Well, Tian Kui Xing will help your body and connect all your meridians, but it is completely different from the previous state. From the outside, you are still a waste person with broken meridians." Guangying seems to be in He said jokingly: "But don't be discouraged. This also allows you to hide your strength and see who is your true enemy."

The moment Li Tian heard these words, he felt a sudden pain in his mind, and then fainted.

And at this time in the small courtyard, the manic storm almost tore everything here. One can imagine how terrifying the storm i was.

Ningbing had wanted to step forward to help more than once, but he had resisted it at the last moment, for fear that Li Tian's chance would be destroyed by himself.

But just when they were about to run out of patience, the light faded.

After that, Li Tian's figure appeared in their sight, just fell to the ground and passed out.

The Emperor Beidou stepped forward for the first time and input his own fairy power into his body, frowning: "Strange, why is it still like this? Could it be that there is something wrong with me?"

"Li Tian's state seems to be still in the state where the meridians are broken, and there is no change." Ning Bing also stood aside and said helplessly.

Chapter 5709: Still waste

This night is destined to be a night that makes it difficult to fall asleep. Many people are wondering how Li Tian is now.

But on the second day, this matter spread.

Although the **** emperor has repeatedly emphasized that no one can tell anyone what happened here, but on the second day, the wind leaked out. Obviously, there are many masters in this Qiqi City.

Being able to detect and hear these news under the protection of the **** emperor enchantment is naturally powerful.

Knowing that Li Tian had no effect after an adventure, many people relaxed. This time the most difficult opponent at the Ten Cities Conference, probably only Li Tian left in the hearts of many people.

The performance of this guy in the previous few arena is very surprising. Almost many people agree that if it is to face this guy, there will be too much effort, even this way. , You may not really be able to defeat the guy in front of you.

So after knowing that Li Tian is still in this state, many people are very happy.

One of the happiest is Xu Zhou. He felt very upset that he was about to participate in the resurrection this time. He made it to the quarterfinals this time, but because of Li Tian, he just became what he is now.

For whoever you are, you can't just forget it when you encounter this kind of thing.

Naturally, Xu Zhou looked like this. He counted everything on Li Tian's head this time. If he meets Li Tian in the game, he must let this guy know how terrible his anger is.

On the other side, Li Tian's whole person was all devoted to the contents of the ancient books on cultivation.

His current meridians and the previous look seem to be in a broken state, but in fact it is not like this. Although many key acupuncture points are all broken, you can see a lot in these broken positions. Something like starlight connected all these broken holes together. In this way, Li Tian's current body is still very healthy.

But in the eyes of many people, he is still a waste.

It is also because of this change that the strength of his meridians is much stronger than before. No matter how much energy is in Li Tian's body, it can be swallowed easily. This is what she is now. The biggest benefit after the physical change was that it made him feel that his whole person was completely new. As soon as this matter passed, he began to focus all his attention on the holy book of ancient spell masters.

In the so-called mirror capsule, in fact, it only told Li Tian how to mobilize his own celestial power, so that he can control his own celestial power well to cast the ancient spellmaster's spell, instead of exploding his body. The reason why he failed before was because the content on this ancient book was all deceiving him. The content on it was a mess. If you want to use this method to improve your own strength, it's just Dreaming in the day.

But now with this lens pouch, Li Tian's current situation has changed drastically.

The whole person is much more energetic than before, but in front of outsiders, he still looks a bit decadent. No one seems to know at present. Li Tian has already completely recovered and is still brewing the next game. , Ready to surprise his enemies.

When he started to operate his immortal power correctly, it was the first time he truly understood that the ancient spell master's spell was really not bragging.

Time is really scary.

This kind of terrifying destructive power makes people feel terrified.

He is only at the strength of the gods realm right now, but believes that if he can instantaneously cast the ancient charms of the gods realm, he can completely eliminate the enemies in front of him in an instant.

Of course, the premise is that one's own enemy has no precautions.

This is the destructive power of spells, something that many people simply cannot imagine.

Li Tian squinted his eyes and said triumphantly: "It's really frustrating. I don't know what a blessing. I thought I was going to be utterly stunned for a lifetime. I didn't expect such a reversal at this critical time."

"Now your identity can be well preserved, because the meridians are all cut off, so if those **** emperors want to judge your identity, it will be much more complicated than before." The voice of the remnant soul of the ancient **** also rang. This time Li Tian has become more mature, which is considered a very satisfying wish in his heart. This young man becomes stronger and stronger, which means that their chances of winning in the subsequent battles are getting more and more. Big.

Looking at Li Tian's depression before, I really thought that this young man might be so depressed.

Unexpectedly, today seems to be because of the Beidou God Emperor's several calls, and I don't know that it's because of the stars in the sky. Suddenly it touched Li Tian's thoughts, and the content on the Tiankui stele was the success. I was enlightened and obtained a great blessing.

"It's just that what I don't know yet is, who is the light and shadow I saw in that world, and who the so-called predecessors that light and shadow are talking about? I always feel that the strength of these two people is terrible, and they It seems that he hasn't died yet." Li Tian said helplessly, closing the ancient book in front of him: "If you can find where these people are, it will be fine."

"The strength of these powerhouses is already beyond the reach of the God Realm. Few people know where they are now. Maybe they are somewhere inaccessible in the God Realm. If you want to find them The first thing you need to do is to make your own strength surpass the **** emperor." The remnant soul of the ancient **** said: "Only the **** emperor can easily go to those inaccessible places."

"It seems that it will take a long time for me to achieve this level, but I won't give up like this." Li Tian smiled and said, he put the ancient book in his hand up: "Next , I'm going to be at the Ten Cities Conference and let those who have insulted me know that I am still as strong as before, and I will still make them pay a heavy price.

The recovery this time is of great significance to Li Tian.

He can stand on the arena again and let Qiang Wudi know how good he is.

Chapter 5710: Wildcat

The news of Li Tian made many people breathe a sigh of relief, but it also made many people sigh.

A new star that was supposed to be on the rise, just like this, it will never be able to restore its previous glory. No matter who witnessed this scene, it will feel particularly sad.

Especially the few strong men who were full of hope for this young man, seeing that even the Tiankui stele can not change the situation, they have no idea.

If there is another possibility, it is nothing more than the Baicao Gate, which is currently unknown where it exists, and only people like them can have such strength. Under such extremely difficult conditions, let Li Tian recover again. Get up, but most people understand that this basically only exists in their own fantasy, and it is too difficult to find the rumored Baicao Gate in this vast God Realm.

After so many years, people's news about Baicaomen is only limited to rumors.

But if you really want to pursue them, you will find that their so-called knowing where the Baicao Gate is is simply nonsense, and the so-called Baicao Gate is not in the place they said.

In this way, many people no longer believe the news that the Baicao Gate still exists in the God Realm.

On this day, the wind is sunny.

There is no cloud in the sky, it is a rare good weather in recent time.

Li Tian slowly walked out of his room, his expression looked much better than before, but he still looked lazy, and didn't seem to take this matter to heart.

Ningbing followed behind him: "If it doesn't work, just give in."

"Do you think something like this might happen to me?" Li Tian didn't feel amused when he heard Ning Bing say this, and whispered: "Even if I lose on the arena, I will be. If you are half-dead, you will never give up."

"Whatever you want." Ning Bing said impatiently. Observing Li Tian these days, she found that this person was a little weird after Tian Kuixing's vision, but it is difficult to describe the specific weirdness. , It feels like a different person, always giving people a feeling of his current state and the previous upset.

"Don't worry, you should remember what I said before. Those guys who used to look down on me, I will let them know how good I am." Li Tian saw Ningbing's expression and knew that she was feeling very uncomfortable now. The appearance, from the previous self to the present one, would also feel very distressed in Ning Bing's heart.

"Don't brag, just like you are now, I feel incredible to be able to stay in the arena for a few minutes." Ning Bing looked at the serious face in front of him, unlike Li Tian who was joking, but his face was helpless. His expression said angrily.

Li Tian looked at her: "Wait and see, although I shut myself in the room these days, it doesn't mean that I haven't worked out anything. I believe you will see me in this game soon. Amazing performance."

"I'm waiting for your good news. Don't be too miserable by others at that time." Looking at Li Tian's seriousness, Ning Bing shook his head helplessly, thinking that this guy is already crazy now. Now, even in his current physical condition, he still wants to win this resurrection match. It's a joke. Everyone knows that his current state is no longer as perfect as before.

It's just that Li Tian didn't seem to realize this at all, and there was still a faint smile on the corner of his mouth.

Situ Shangyan also came to the door with a few soldiers, watching the two people walking out slowly, and then said to Li Tian: "Today's game may be different from the previous rules. We haven't received any changes until now. The news may really have changed a lot."

"This is also a normal thing." Li Tian smiled slightly, looked at Situ Shangyan in front of him, and said: "If it were the same as that of the previous game, it would be a waste of time in this resurrection match alone. Since the arrangement was very tight before the game, this time-consuming method will definitely not be chosen at this time."

"Well, if it's a melee, you may be able to take advantage of this melee."

"He has already broken all his meridians. Even if he wins or loses in this resurrection match, what's the point? Can he beat his opponent in the next quarterfinals?" Seeing Situ Shangyan speaking like this, Ning Bing also looked helpless, Li Tian certainly has no way to win this game in this state, even if he really wins, should he face the quarterfinals like this?

What a joke, Li Tian doesn't have this ability at all. If he can deal with the quarterfinals, do they need to be so worried here?

Situ Shangyan thought for a while, it seemed that it was indeed the case.

"You don't need to worry. I'm ready for this match. The battle between Qiang Wudi and me is not over yet. How can I just give up this battle like this?" Li Tian's eyes were early at this time. No longer had the decadent feeling before, and turned into a very focused look, as if he was about to do something serious.

Seeing his eyes, Situ Shangyan and Ning Bing were both Zhang Er monks, puzzled.

It's more or less unclear why this guy feels like a different person after just a few days, and now he has become so confident, even making them suspect that Li Tian really can. In the next game, he showed strong strength to prove that he was still eligible to enter the quarterfinals.

"Don't do stupid things, it's just this game. It doesn't matter if you lose, there will be me behind." Ning Bing said worriedly.

"Of course I won't do anything stupid. Do you really think I'm wasting time all these days?" Li Tian showed an elusive smile, and then took the lead and left the yard first.

The two remaining people looked at each other with a little helplessness.

At this time, the entire Tianqi City, also because today's game began to boil, many people rushed out of their rooms, like deceived cultists, and began to rush towards the arena. ...
