

A Killer 5731

Chapter 5731: broken

Although he was still a little unbelievable, Li Tian was basically certain at this time. The person who broke the game should be Chu Jiangnan in front of him.

What the old man said before was all paving the way for everything now.

It is Chu Jiangnan in front of him who can really stand up and help himself at this critical time.

Thinking of this, Li Tian glanced at Chu Jiangnan next to him, and asked, "Do you have any good solutions? The guy in front of you is a high-ranking **** king, even if we two join hands to deal with it. The chance of victory is very slim. It can even be said that we have no chance of winning at all. At this time, we must think of some way."

"Is there any way? Now that we are standing here, it means that all our lives are pressed on top of this. Now we can only fight with all our strength to see who is finally laughing, no matter what it is. Neither of his conspiracies would have any meaning in the situation in front of him." Chu Jiangnan was more aware that the two of them didn't want to think about what to do next in the current situation.

Things have become like this, it can be regarded as a done deal in the rumors, everything is completely doomed, and they are thinking about how to change at this time is simply nonsense.

Li Tian thought about it for a while, it seems that this is indeed the truth.

"Forget it, there is no need for the two of you to do it with me. I have said before. This time I only want to deal with Li Tian alone. Although you are not a powerful character, you are not good enough. It is also a contestant in this ten-city conference. If you kill you here, there will be some trouble, but our personal grievances with Li Tian are destined to be dealt with here today." Yun Tian sneered, his eyes shook together. The light flashed, and then Chu Jiangnan next to Li Tian just snorted, and then knelt to the ground.

"Chu Jiangnan, how are you...?" Li Tian panicked and hurried to check the situation of Chu Jiangnan in front of him.

"My life is not in danger. He doesn't want to kill me. It's just that my body is uncomfortable now. I feel that my body is starting to be out of my control. It seems that something is making my body numb."

"This is a kind of toxin that I mediated before. It can paralyze a person's body in a short period of time. Of course, the fairy power in your body can't be operated. In this case, your only choice Just kneel on the ground honestly and wait for the effect of the medicine to pass. If you want to forcefully use your own fairy power, you will only make your body numb for a longer time." Yuntian sneered, not worrying about him at all. When the secret is said at this time, what danger will be brought, it is still said seriously.

This guy really doesn't take these guys in front of him in his heart.

Li Tian was holding a spell in his hand at this time, but there were still many spells in his hand.

However, before he had time to do it, Yun Tian in front of him sneered: "We all know that your young man's most powerful method is nothing else, it is the spell in your hand, so you don't want to

fight this time. Delusion can use spells. The first time I stand here, I have already focused all my attention on you. Naturally, I don't need to worry about small spells, but if it's a large spell, it doesn't wait. If you recite the spell, I will let you die here." He looked at Li Tian and said seriously.

Li Tian struggled a bit, but quickly gave up the idea.

These powerful spells are indeed like this. Once they really want to work, they still need a little time to cast, but in this short time, the guy in front of them may directly change the battle.

"Hehe, you just give up. After all, using these things is not a good method. Unless you can really do the legendary character a long time ago, you can instantly cast the spell in your hand, otherwise you want to deal with us. A master of this level is simply joking." Looking at Li Tian's helpless look in front of him, Yun Tian said, slowly raising the sword in his hand: "Forget it, I have no interest in continuing to talk with you here. Up."

And Li Tian also put himself into a fully armed state in the first time, and at this time the second personality also took control.

Now that Li Tian enters the second personality, he will not become as cruel as before. Although there will still be some such factors in his emotions, they are much less than before. If he can guarantee his sanity, Then you can also play a very good strength in the battle.

At this time, even though he had entered this state, he still maintained some rationality. It can be said that he has been further improved in combat effectiveness.

But even in this way, it is still impossible to challenge these guys in front of him.

A helpless smile hung on the corner of his mouth, looking at Long Tian in front of him: "You must know that a fate like me is nothing at all, but you are a lofty king, if I kill you today Here, I wonder how you feel?"

"If you can really kill me, you can try it, but today is destined to be your death date. We even calculated it before we came here. You kid is destined to die here today, even if it is a lot. It's useless for people to pray for you. Hell teaches you to die at the third watch, who can keep you until the fifth watch?" Yuntian was talking, already waving the sword in his hand, and rushing crazy.

At this time in the courtyard, Situ Shangyan shouted: "Li Tian, be careful."

The next second, a palm on his chest, the whole person flew out directly.

"You look down on me too much. Although you didn't want to make you the way you are now, it doesn't mean that I can't do it. When fighting with me, you dare to be distracted by other people's affairs. Don't look at yourself now?"

"You won't leave here alive. No one who participated in this matter today will have a good end. You will soon know that you are the biggest loser in this battle."

"Don't be delusional. As long as we can kill Li Tian and take the things out of his storage ring, everything will change, and the God Realm may change again."

Chapter 5732: Fall

At this time, Li Tian was in a really bad mood.

Although Murong Ziqing had clearly told him about these things before, when these things really happened to him, you would feel that the whole world had begun to become incredible.

Such things made Li Tian really angry.

When would I be treated like this, if it wasn't because I wanted to recover Ningbing before, I went to that ghost place, why would I be like this now?

Now he is being watched by the whole commandment hall up and down, wanting his own life.

It happened that when he needed help the most, no one stood up to help.

When he was thinking like this, the sword had already fallen.

With a bang, the room that was originally behind Li Tian was directly split open, as if there was an explosion inside, the fragments sputtered out instantly.

Although Li Tian tried his best to dodge, the power of this sword is really beyond his imagination. Even if he has dodged in a short period of time, Yu Wei still made him feel this violent power.

A piece of meat was cut off the shoulder on the left, and blood flowed out.

"Look at what you look like now. The humble person is like an ant. In front of me, I really don't want to see that my enemies are so weak. If it's not because they insist on letting me deal with you, maybe today Your opponent can't be mine at all." Elder Yun Tian frowned. The gap between him and Li Tian was like a gap. If he really wanted to end the battle quickly, Li Tian would now be dead.

He supported his left shoulder with his right hand and slowly healed his injuries with immortal power. At this time, Li Tian's mood was not as good as they thought.

Squinting at these people in front of him, his body was shaking.

'Damn it, what should I do now, it's clear that the situation in front of me is already very dangerous, why didn't the little witch take action at this time? Or is it that my current potential has lost interest in the little witch? A lot of questions flashed in Li Tian's mind. His biggest trump card is the little witch who hasn't appeared yet, but there is still no news.

He also began to become uneasy. If the little witch really didn't take action at this critical time, Li Tian would die here today.

And at this time, in the city of Crescent Moon on the other side.

Murong Ziqing looked at Feng Jie and said, "The time is almost up. The plan over there should have already been implemented."

"I have always been thinking, is it really appropriate for you to use this method to wipe out the entire commandment hall? You should know that Li Tian's enemies in this ***** realm are not just a few people, if anyone else is there. If this happens at this time, the problem will become difficult to deal with, and let such a young man die. Is it really your idea?"

"Hehe, of course I don't want Li Tian to die here, but it's a pity that I can't do anything about this."

"It shouldn't be like this. The Murong Ziqing I know is a strategizing and extremely powerful woman. Usually no one can hide from your eyes. I think it is like this now. They want to change

this situation. It must be through your plan. I think you did anything else during this incident, right?" Feng Jie said with Erlang's legs tilted, looking at Murong Ziqing in front of him.

If someone tells them they haven't done anything, maybe this guy will believe it.

But if it is Murong Ziqing in front of him, then don't want to convince Feng Jie in front of him.

He didn't know others, but Murong Ziqing in front of him knew very well. This woman's IQ was very terrifying, otherwise he wouldn't have already calculated the commandment hall before.

Now his plan is successful, it's just another finishing exercise.

"If I said, I really didn't do anything about this matter this time, would you really believe it?" Murong Ziqing raised his head, looked at Feng Jie in front of him seriously, and asked.

"You really didn't do anything?"

"I really didn't do anything. You should also know my personality. Although I really don't want this young man to die in Tianqi City like this, if I can't bear such a small ordeal, what will happen in the future? How about dealing with greater difficulties?" She sneered, looked at Feng Jie in front of her, and said very seriously: "Just like Feng Tianling, his talent is not very good, but if he can bear the pain of losing everything, Then everything may come again."

When talking about Feng Tianling, Feng Jie's expression in front of him also began to become weird: "Are you crazy?"

"Of course I am not crazy, you know how long it took me to find this kid, and you know how high my expectations of this kid are."

"It is precisely because of knowing these things that I feel that you guy is really crazy. You would make such a decision at this time. Don't you really worry about it."

"I'm not worried. Although this kid does have many enemies in the God Realm, I think that while there are so many enemies, there are also many companions." Murong Zi vowed to look at Feng Jie in front of him. On the woman's face, I really don't see the slightest worry, and she didn't take this matter to her heart at all: "It's impossible for people to be surrounded by enemies, and of course it is impossible for them to be friends, enemies or friends. This is just a relative question."

There are indeed many enemies around Li Tian, but they are more willing to believe that beside this kid, there are also many friends who are willing to help him.

"I really doubt if you are a lunatic now, and you really dare to do such a thing." Looking at the serious Murong Ziqing in front of him, Feng Jie also had a helpless expression on his face at this time, I really can't imagine This woman is so courageous to the point that she has no idea what is the purpose of doing these things, is it just to show everyone, Li Tian's ability?

"A lunatic naturally has the benefits of a lunatic. Sometimes it is too rational, maybe not good." Murong Ziqing didn't mean to be angry at all: "It's just this time, if you can survive, it all depends on this kid's luck. Probably it's something I haven't calculated a few times in my life."

Feng Jie was dumb.

Chapter 5733 Due Crystal

‘Boom boom boom’

Successive explosions sounded continuously at this time, and Tianqi City, which was very calm before, could no longer calm down at this moment.

In the entire Tianqi City, you can see young immortals wearing the commandment hall and the army on the side of the Southern Wilderness, slaughtering everything crazy here, but everything they can see will be here. Clean up.

Of course, these people are not idiots.

What they are dealing with is only the merchants here, and they want to get some benefits from these merchants. As for those in the noble area, they dare not pass easily, because all here are strong.

Although Jie Lü Tang and Nan Huang acted a lot in this matter, they didn't want to be an enemy of all the masters up and down in the entire Tianqi City. If this is the case, I'm afraid they will follow. Unlucky is not good.

In a blink of an eye, the courtyard of the Crescent City has been destroyed.

In addition, other small courtyards have also suffered damage. Although everyone else is angry at this time, no one will do anything.

They all know that it's not about hanging up high, this matter is a very sensitive event, and they don't know who the final winner will be. If they choose to stand in line, it is very likely that all subsequent problems will become very difficult. Be serious.

Who is the master of Shuiyuezhong? This may be a very complicated question.

From the current point of view, even the Emperor of the Big Dipper was treated as a bystander in this game, quietly watching the two forces mess around here.

If Li Tian really died here today, then Murong Ziqing will ultimately fail, and the Commandment Hall will regain control of the Shuiyue Sect. At that time, the relationship between Nanhuang and New Moon City will go further. It is also a wake-up call for the entire God Realm. After all, these two cities are not simple, and there are two great gods behind them.

If they really cooperate here, it will be a lot of pressure for other **** emperors.

Therefore, the others here have no intention of choosing a team at this time. Once they stand in the wrong position, they may be involved in this battle between the two gods. What will happen after that? They are all unclear about the matter. Since they don't know what will happen next, it's best to be honest at this time and don't participate in it.

Therefore, although Tianqi City looks like the entire city has been invaded this time, there are many people here who choose to wait and see. Even if they are harmed in this matter, they will not easily intervene. In this matter, all the people who can be here are smart characters. Naturally, it is impossible for yourself to be careless and complicate things.

"Look at this strange city. Before, many people were saying how powerful this city is and how difficult it is to break through. But looking at the way it is now, the entire city has been covered by our Commandment Hall and the army of the Southern Wilderness. Captured, do you think they have any chance of winning this time?" Yun Tian sneered, looking at Li Tian, who was already seriously injured at this time.

His state at this time is really bad to the extreme point, and his whole body is going to be shattered at this time. In such a state, it is beyond words.

'Damn it, now the whole person's body has been seriously injured, and the immortal power in the body cannot be mobilized well. If this continues, the problem will only become more and more serious, but it is a pity I can't change the situation now. Li Tian half-kneeled on the ground, although Xianli could recover his body, but before his body was fully recovered, a new round of attack would seriously hurt him again.

This guy Yun Tian really didn't want to end the battle so soon. He had always tortured Li Tian in various ways, just wanting to let him know how to cry.

"Look at what you are like now, you must be thinking in your heart, if Tianqi City can clean up all our troops at this time, they will come to support you, and then you won't have to die. Isn't it like this?" Yuntian asked.

"Don't think too much, I know I'm not your opponent, but I don't worry about it at all, because I know that even if you are really good, but you want to kill me in such a short time, it's still impossible, you want to torture me, and you also want to know if the treasure is on my body." Li Tian smiled disdainfully, and said as he looked at the guy in front of him.

"It seems that you really understand these things. Indeed, we really want to know this question, but it doesn't matter if we don't know. As long as we kill you today, our mission can be over. I Believe that this thing must have clues in your body, those friends around you also know some things about this aspect."

"You are really a very naive fellow, even you know that this matter involves all aspects of the problem, do you think I can really tell you where the treasure is so easily?" Li Tian sneered. He raised his head and looked at Yuntian in front of him: "I want to tell you that this period of time is so arrogant, it is better to think about what to do next, Tianqi City claims that it will never fall, it is not unreasonable."

"Never fall? Hahaha, look at your side, these people are all watching with cold eyes, do you know why? Because they know who has the upper hand in this matter is clear at a glance, they have no need to continue with us at this time It's not a good choice for them afterwards." Yuntian sneered, they have already entered the country.

This city, which claims to never fall, is now mostly in their hands, and the ups and downs of Tianqi City are all under their control at this time.

Who can say that this city will never fall?

When Li Tian spoke, he finally took out his last certain amount of strength and summoned the Du'er Crystal. The moment the Du'er Crystal was summoned, Yun Tian felt it.

He made an oversight, and then looked at Li Tian, the expression on his face became serious.

The self-confidence before, at this time all disappeared.

Chapter 5734: Last chance

"You are one of the elders of Shuiyue Sect and an old senior in the Discipline Hall. You are also a master of the God King level. You should know what this thing is." Li Tian held the Du'er crystal in

his hand. The moment he summoned this thing, a layer of transparent colorful barrier appeared around the whole person's body. As long as anyone's energy approached, there would be ripples on it, and it would be closed easily. The world was destroyed.

"Due Crystal, how can you have this kind of thing in your hand?" Holding the fairy sword in his hand, looking at the enchantment in front of him, his brows really wrinkled at this moment, although this enchantment could not protect Li Tian's life. I, but it can delay a long time, and now, for them, time is money. If this barrier cannot be breached as soon as possible, what will happen in the next second is something that nobody knows.

"Haha, I already knew that this Ten-City Conference was also an opportunity to deal with me. You really thought I didn't know why these ***** emperors arranged the location of this Ten-City Conference here. Is it?" Li Tian said. At this time, there was a crystal of Durer in his hand, and he didn't seem to feel very nervous anymore. He knew he could hold on for a while now.

As long as Chai Lei and Bai Xiaosheng were able to suppress all the Nanhuang people and disciples of the Discipline Hall during this period, and hold the master control of Tianqi City in their own hands, there would be a glimmer of life.

On the contrary, if they are not able to get it back, then the opportunity left in the end will be gone.

This is Li Tian's last chance.

Ferry Crystal!

He hadn't thought about using the void to leap out of here before, but Yuntian in front of him had done a lot of homework before, but he would find out that Li Tian in front of him had a little abacus in the first place. Then set up bans around him. With his current strength, even Li Tian could not easily break through these bans.

If you attack rashly, you may lose your life directly.

That's why I have been procrastinating until now, looking at Yuntian in front of me, there is also a smile at this moment: "You didn't think of it before, I still have this last trump card in my hand. Of course you won't be afraid of the crystal, but you Afraid to ignore my time."

"Although it's really troublesome to pass the crystal, it's just a little delay for me, don't you really naively think that this time, you can rebirth?" Yun Tian wrinkled Frowning, slowly condensing immortal power in his own hands, and then fiercely slammed into the barrier in front of him, the collision between energy and energy burst into bright light.

The colorful halo above the enchantment also began to become obvious at this time.

"Don't forget that in this Tianqi City, your enemies are not only Bai Xiaosheng and Chai Lei, but there is also someone you have never thought of before, and Dragon Tiger Hall is in the entire God Realm. It's full of minions. Do you really think that everything you do is not known to them?" Li Tian squinted at Yuntian in front of him, and said with a mockery: "Actually, you understand very well, you are in an embarrassing situation right now. ."

"Fu Disheng really likes to run around. We have not found where this guy is so far, but if this makes you think we have failed this time, then you are very wrong, even if it is. He came here in person, and it is impossible to deal with our army easily. This time we have made a perfect plan. After that,

our methods will be endless." Although he said this, Yuntian has a little bit in his hands. He didn't mean to stop, he knew that he had to hurry up and finish this matter.

The moment they launched the attack, Tianqi City had already issued a signal.

This signal can be received by the entire Dragon Tiger Hall of the God Realm. I believe it will not be long before the strength of the entire Dragon Tiger Hall of the God Realm will be dispatched at this time.

It can be regarded as allowing them to truly see how terrifying the number of people in this rumored organization.

"I deceive myself and others. I think this is the only thing you can do now. It's clear that I can't change anything in this state, but at this time I still naively think that I can change something." Li Tian sneered and looked at Yuntian in front of him. "It will change soon. This situation cannot go on like this. I believe their strong men will not be like an idiot and let you kill them."

Above the dark clouds, the little witch stretched her waist and said, "It's such a meaningless battle. I didn't expect that this kid would still have this thing in his hands. It seems that this guy will take a while."

"Wow." The pet under her crotch screamed, as if responding to something.

"Hey, it seems that the whole thing is not as simple as it seems on the surface. Could it be that this is a midgame?" A look of surprise flashed in the little witch's eyes, and then hurriedly said: "The wind is screaming, Run!"

The pet under his crotch screamed again and disappeared between heaven and earth in an instant.

On the other side, dense shadows are slowly descending at this time, just like a king over the world, with extremely solemn coercion.

And at this time in the city lord's mansion, the Big Dipper God Emperor looked at the Master in front of him with a smile, and asked: "You really think that by staying here alone, you can let the situation of the entire Tianqi City be in their Under control?"

"The young people's affairs, we old guys are no longer cleared."

"Yes, you also know that you are very old now. At an age like you, you were originally highly respected, and you shouldn't be involved in this matter either." The Big Dipper sighed, then slowly Standing up: "Unfortunately, you still can't stand loneliness. You still want to stand up and let others know that you are still as good as before, right?"

"Hehe, if you just take me so superficially, I have nothing to say."

"But, Master, although you were great back then, but after all, it is only back then. As the so-called heroes don't mention the bravery back then, the things of that year have passed so long. You really think that you and I still have the power to fight." The moment he spoke, his eyes flashed, the aura of his whole body was instantly lifted, and the whole person became murderous.

Chapter 5735: Last fight

At this time, the atmosphere became very embarrassing.

Shizu looked at the Big Dipper divine emperor in front of him seriously, but he didn't quite understand what the meaning of these words said by the person in front of him was. In this action, he had successfully completed his goal.

The Emperor of the Big Dipper is now controlled here.

"Even if I am now no longer your opponent, it is a pity that our mission here has been completed. You are still controlled by me now, even if you have lost the whole thing."

"Tianqi City, a city that claims to never fall. Although you have made a lot of wise actions this time and you have also made a lot of preparations in advance, you still suffer a loss after all. This loss lies in the information of Tianqi City. Understand the above, you almost don't have the slightest understanding. In this way, even if you seem to have the upper hand now, it's actually just a flash in the pan." The Emperor Beidou looked at the master in front of him, with a touch on his face. Seriously killing intent, if he was just waiting here before, then he was already ready to shoot.

At this time, on the other side of Tianqi City, a black shadow was slowly suppressed.

Li Tian hid in the crystal of Du'er, slowly counting the time. He himself knew how long this enchantment could block. The Yuntian in front of him was a god-king level existence. It is not in itself to deal with such a master. It's very easy, and wanting to use such a magic weapon to persevere is also not very realistic.

Therefore, Li Tian's condition at this time was not as good as expected.

"You will be supporting Li Tian, I want to see, in this case, who else will come out to help." Yun Tian is really confident at this time, just when they are preparing to do so, in their hearts Still have no confidence.

After all, this is the legendary Tianqi City.

It is said that this city has been established until now, but it has not encountered such a major event as today, and no one has ever been able to do it to capture such a city.

It is for this reason that the name never falls.

Of course, this may only be the thinking of some of them.

"Elder, the battle report on our side has come out. Although Tianqi City is still in the blocking state, it is obviously impossible to drive us out completely. By the day of today, we can probably This is all under control." At this moment, a messenger ran over and said excitedly.

Many people were in awe of Tianqi City before, just because they knew that the city's defense was quite terrifying. There were definitely a lot of people who wanted to break the city before, but there were few successful people, or even just a few. If the strong want to mess around here, the end result is also to die in this city. For this legendary neutral city, most people are quite in awe.

But just today, something happened that so many of them couldn't believe.

This city, which claims to never fall, was actually breached?

'It seems that this time the Southern Wilderness and the Commandment Hall have calculated almost everything. After Li Tian came to the God Realm, there were many more enemies, not to mention,

plus the previous enemies, now there is nothing to be found. Renlaihui will stand up and help at this time. Chu Jiangnan, who was still lying on the ground to recover his body, looked at Yuntian in front of him and thought in his mind.

Before, I hope that someone can stand up at this time, and somehow they can help Li Tian through this difficult time.

What he knows is that Li Tian in front of him has really entered a very embarrassing situation. It is not as simple as they thought to change the situation.

If there is no strong person appearing today, even Li Tian, who has been creating miracles, would still die here.

"There is no way. If this continues, the Du'er crystal will be destroyed soon. When Li Tian is dead, everything will be over." A resolute expression flashed in his eyes. The body was trembling slightly, and it seemed to be slowly recovering, but it only meant a little recovery, in fact, it had not fully recovered.

If it were in normal times, Yuntian would definitely find out about this in the first place, and then he would react to it without waiting for Chu Jiangnan in front of him to do anything.

But now, his whole person is still in a state of complacency, and this time they won a complete victory, which can be regarded as a really happy event.

He was almost overjoyed at this time. He only needs to kill Li Tian in front of him, and everything after that will be solved, and they may even open a new chapter. This situation is quite exciting.

However, this thought had not had time for long, and a strong coercion almost made him lose his footing.

That was the pressure from the City Lord's Mansion. After feeling this strong pressure, a solemn expression appeared on his face: "I really didn't expect that the Emperor of the Big Dipper would actually do something with his master?"

"Master has been a famous figure many years ago. There is no problem with dealing with a Big Dipper **** emperor." The other elder next to him was not very nervous at this time, and said this easily. Look at this. It seemed that he really trusted his master, and he didn't feel that this incident might bring any consequences in his eyes.

At this time, the Big Dipper and Master had indeed started to fight each other, but both of them were extremely strong, and the battle must not have started so hastily. At this time, it was just a suppression of momentum.

But it was just a few minutes that gave Chu Jiangnan a chance to reverse.

If Yuntian were to keep focusing on him, he might not have time to recover. The guy in front of him knew he wanted to control Chu Jiangnan in front of him.

But now it's different. Yun Tian's attention is not on Chu Jiangnan's body at all, and at this time he also began to slowly recover his body, preparing for the final fight.

He knew whether Li Tian could leave here this time, it all depends on whether his future plan succeeded. If it fails, then the two of them will die here forever today.

Success or failure is in one fell swoop!

Chapter 5736: Blew up

"Crack, click"

I don't know how much time has passed, some traces of fragmentation finally appeared on the barrier of Du'er Crystal. This barrier, which seems to be indestructible, caused a little bit of damage at this time. The expressions on the faces of several people here started to get excited, as long as they could destroy the enchantment in front of them, then the problem would be solved.

Kill Li Tian and the matter is over.

But at this moment, another thing happened.

Chu Jiangnan, who had been lying on the ground before and looked like he had little combat effectiveness, actually stood up slowly at this moment, staring at Yuntian in front of him: "Elder Yuntian, I will ask you one last thing now. I still don't want to Will the prodigal look back? If you give up now, there will really be no problem later."

"Have you recovered? It seems that if I haven't paid my attention to you for a while, you don't know what you are. If you are like this, then I will let Look at the gap between you and me." He still wanted to hurry up and let the barrier of the Du'er crystal in front of him be destroyed.

But seeing that Chu Jiangnan actually stood up again in front of him, it was obvious that the previous role had disappeared, so naturally he didn't want this young man to linger in front of him.

But when he was preparing to act, Chu Jiangnan smiled.

He threw the Wufeng sword in his hand on the ground, and said: "I am always a sentimental guy. I was very guilty of Li Tian before. After I came to the realm of God, I was also very good to the young master. Guilty, these two people are inextricably linked to me, but it's a pity that I'm just an ordinary teenager, I may not be as good as you guys, so in many cases I can do things Are very limited."

The moment he heard him speak like this, Li Tian was also clever: "Chu Jiangnan, what are you going to do?"

"Chu Jiangnan, stick to it. I don't believe that this city will really be breached in such a short period of time. We still have a big chance now. You must not just give up like this." Ningbing is also very busy. Zhong set her gaze on Chu Jiangnan. Although she was still very unfamiliar with this man at this time, she always felt that she should know something.

Seeing Chu Jiangnan's seriousness, both of them had a sharp heart, and thought of something that might happen.

That should be regarded as a forbidden technique that no fairy would easily use, just because once the forbidden technique is used, it can no longer be reversed. At that time, they still want to change the situation, naturally it is already difficult. The point of turning around.

Seeing the serious look of Chu Jiangnan in front of him, Li Tian and Ning Bing were very anxious.

"You two don't need to be here to dissuade me. I know what I'm doing, and I know exactly when and what I should do. Living in this world, I always have to make some choices. Now It's time for me to make some choices myself." He squinted, and his body slowly began to emit some blood red light, which looked particularly dazzling.

"Aren't you crazy? For the sake of a friend, I was willing to give my life to you. This is the first time I have seen a stupid young man like you. Do I really want to die so easily? Don't you think about it, if you die, what will be the consequences?" He squinted his eyes and looked at the young man in front of him. At this time, his mood was extremely solemn.

"I said before, if you quit in time, everything will be said, but since you don't want to, then I have to use extreme methods to deal with you guys." When he spoke, the inside of his body The transparent red light has begun to grow stronger.

After seeing this scene, Li Tian's mental state is not as good as before, and he looks like he is languid, leaning lazily on the wall: "Why do you want this?"

"Because I know that if I don't do this, you will not be able to change this passive situation. If even I am unwilling to stand up and help at this time, then who can you expect from the entire God Realm to help? If this is the case, why not let me stand up, and it can be regarded as a settlement of the grievances between the two of us. At this time, we should all settle it." He smiled and said, looking at this look, it seems that he has already planned to answer What to do next.

As for Li Tian, his expression was heavy at this time.

At this time, he understood that what the fortune teller said all those words meant, could it really be that Chu Jiangnan in front of him saved his life?

As I said before, he came to Tianqi City this time, it can be said that there are nine deaths and no life.

There are too many people who want to kill Li Tian, but there are not as many people who want to protect this guy's survival. In this way, he can only stand up by himself.

At this time, the red light blooming on his body is actually just the light produced by burning the blood in his body. This light is getting stronger and stronger, which means that there is less and less blood in his body. The distance to death is getting closer, but at the same time, his body will have a huge energy impact, swallowing everything that can be swallowed around.

At this moment, he was like this, slowly approaching Yuntian in front of him.

"You want to die with me, do you also want these companions around you to die with you?" Yun Tian sneered, still muttering in his heart, squinting at Chu Jiangnan in front of him, this kid is here Taking such a trick at this time really made Yun Tian feel a little at a loss. Before, he felt that he had already decided the outcome.

But this kind of thing happened again on this kind of knotty eyes. It seems that it was too easy before, and it is time to let these young people know how good they are.

He thought so in his heart, and the tone of his speech became cold.

Desperate?

Maybe it will work in front of others, and in front of oneself, it is not impossible to resist this kind of energy impact.

It's just that he doesn't want to make things more complicated.

After all, the goal this time is only Li Tian alone.

Chapter 5737: Blow up

"Are you scared? You are a high-ranking powerhouse, a god-king-level powerhouse. In the eyes of those of us, it is already a high-ranking existence. We don't even dare to imagine that we will encounter such a terrible one day. Existence." Chu Jiangnan smiled wryly, the light on his body became stronger and stronger, but there was no fear in his eyes.

This guy's expression at this time is completely the expression of death.

Even if you know that you may do this, it is unlikely to change the results, but here time is money. Since this city is known as a city that never falls, that means that the situation may change a little later, don't look at the strangeness of the present. The city was downwind. The opponents of Dragon Tiger Hall who underestimated the city before were all lying in the ground and rotten.

"I'm afraid? I'm just here to advise you something. You are still a young man. If you work hard, your future will be limitless. Since Sima Shangwu will even give you his magic sword, it is naturally It represents a kind of trust and expectation for you. If you blew yourself up like this and died, wouldn't it be a pity?" Yuntian asked with a smile.

"Fear is fear, why should I give myself so many excuses? If I hadn't exploded myself, you wouldn't be here to say these things to me?" After Chu Jiangnan listened, there was no change in his face. Instead, he sneered with a disdainful expression: "You are still very scared in your heart. If your soul explodes, most of the people here will probably die."

"How do you know, these friends around you, do you think they can survive?"

"I don't know if they will survive, but what I know is that this is my last choice. I can't just watch you kill Li Tian."

"Haha, is there only Li Tian in your eyes? Situ Shangyan and Ningbing here are all very important people, and they are also people who have nothing to do with this matter. Do you think they are worth it? Die here?"

"They don't know me, and I don't care about them." Chu Jiangnan looked indifferent, looked at the cloud in front of him, and calmly answered the answer.

Yuntian is going crazy at this time, thinking that you kid is really crazy, just to save one of his friends, you have to sacrifice so many people, this is simply unreasonable.

What is in this young man's head, who can say clearly?

While talking, Chu Jiangnan had already accumulated a lot of unstable energy around him, and these energy would burst into extremely terrifying shock waves in the near future.

"Everyone, now put down everything in your hands, hurry and leave here, don't blame me for not reminding you if you run late." At this time, he could only look at Chu Jiangnan in front of him and let out a chuckle: "Since you If you want to apologize with death, I will fulfill you today, but I think what you see in the end is still despair, because it's just a spirit blew up, you can't change anything."

"Really? Maybe my dying soul is nothing to you, but I believe that when I do such a move, more people will know what I should do next, and wait until that At that time, all of your plans will not work." He smiled and said except for this, then slowly closed his eyes and opened his arms.

At this moment, he seemed to have given up everything.

Li Tian sighed and said to Ning Bing: "This is the end of the matter. Please hurry up and leave here with General Situ."

"What about you? What do you do?"

"I hope that the crystal can protect me at this last moment." Li Tian sighed and slowly leaned against the wall: "Don't forget, what we said during the fortune-telling, now that everything is settled. Now, it depends on our future fate. You don't need to worry about me anymore. I think I know what to do next."

Situ Shangyan looked at the disciples in the Discipline Hall who had left this center frantically, and glanced at Ningbing who was still standing there, and hurriedly stepped forward, holding the girl's arm: "Why are you still standing here? We can't change anything by staying here, hurry up and leave here."

"I see." Ning Bing glanced at Li Tian steadily, then turned and left.

Yuntian sneered: "Now what? Is this what you want to see?"

"As long as you can kill the elder of the Disciplinary Hall, I believe that everything that happened here will disappear in an instant, and the power hidden in the darkness will also be revealed again." When Chu Jiangnan spoke, the light of his body finally shined to the point of incomparable, and then in an instant, the explosion began to bloom at this time.

A red light soared into the sky, and what followed was a devastating shock that made people suffocate.

Hiding far away, Sima Shangwu sighed as he watched this scene happen before him.

"Master, this is..."

"Forget it, I can only let this kid be foolish. Since Tian chose to gamble everything about himself on this young man, we might as well try it." Sima Shangwu waved slowly when he spoke. Waving his hand, he saw the Wufeng Sword flying back into his hand from a distance.

But at this time, the beam of light from the explosion in the south of Chu Jiang dispersed, and soon the entire sky turned red, as if it was stained with blood.

The world that seemed to have all been immersed in the beginning at this time also began to become eager to move. Things that had not been shown before finally reappeared in this world at this time.

The real decisive battle, at this time, is truly unfolded.

During the explosion, the Durer crystal was completely shattered, and after absorbing the last bit of energy, it was completely shattered, and Li Tian was still impacted by Yuwei and hit the ruins severely. Can't get up anymore.

He could only keep his head awake at this time, but it was impossible to get up from the ground.

It felt like my body was being held down by something at this time. Even if I wanted to lift my hands and feet, it was a powerful force.

'Damn it, can't it be like this today?

Chapter 5738: Immortal body

"Are you disappointed?" It was not Li Tian who stood up from the ruins, but another person.

It was the guy Li Tian never thought of.

Yuntian!

This guy didn't know how to do it. In the explosion of this intensity, he didn't die like that, but he looked like a okay person, and stood in front of Li Tian with such seriousness: "I miss you Now I must be thinking about what kind of body I am and why I can survive such a strong explosion. It is unbelievable to you."

"It really didn't happen to me." Li Tian lay on the ground. He had barely supported him when he was in the Durer Crystal before, let alone him now.

Seeing Yuntian walking step by step, he naturally knew in his head that he should hurry and leave this place of right and wrong, but his body was not under his control at all, and it was just a perfect dream to move.

"Okay, I wasted a lot of time with you here. I had to hurry up and kill you today. We have limited time. Where can we leave you a little chance?" He looked at Li Tian in front of him slowly stepped forward, grabbed him by the neck and lifted him from the ground: "If you want to be angry, you can only blame Murong Ziqing for everything. If this If women didn't have so many conspiracies, there would not be so many things that happened today."

"If you want to kill, you want to kill you, but give me a happy one."

"Of course, but the premise is that you have to tell me all the news you know. Now you must be better than dead. No one will continue to stand up to save you at this time. You must be desperate. He looked at Li Tian in his hand and asked.

"Desperate? This emotion will not appear in my mind long ago. Now I am like a numb zombie. If you want to make me desperate, it will really disappoint you." Li Tian smiled indifferently, feeling that the strength in his hands was getting heavier, but he didn't feel any uncomfortable feelings, just smiled faintly, but there was nothing he wanted to say.

"Okay, if that's the case, I'll kill you." When he spoke, he raised his left hand and stabbed it down with a fierce sword.

‘Shoo, hoo’

Sword Qi raged around as if it had been attached to the soul. At this time, most of the entire City Lord's Mansion was destroyed. If it was seen by others, it would be very calm at this time. What is it like? The talented person would have such courage, even in the city lord's mansion, he even dared to make such a move. The corpses on the ground were all over the field, and I don't know how many people were killed by Master Master when he entered the courtyard of the Great Emperor.

At this time, the sword aura was emitted from the aura of the Emperor of the Big Dipper, but it was just a thought, that is, thousands of sword auras.

"Hey, I didn't expect that in these short years, you, a young man, really got a big improvement in strength. If I changed to the previous words, I dealt with you easily, but now it seems that there is

no more With such a relaxed feeling." Shizu looked at the Big Dipper God Emperor in front of him very seriously, with a confident smile on his face.

The old man who seemed to be getting older and didn't seem to have any combat power at all, at this time, he was full of aura that made people afraid to look directly at him.

"I really didn't expect that you can still laugh at this point. Is it because you think that in this battle, you will become the ultimate winner, and we will all lose?" The Big Dipper asked with a smile.

"Isn't all this obvious? You young people are still too impetuous after all. They are still too young to deal with these problems and have not been able to control some things well. Although Tianqi City is said to be unable to contribute, they are early I forgot that there are not only people in this world who listen, but also people who dare to challenge. Fu Disheng is not in Tianqi City. Didn't this give us this opportunity for nothing?"

"Why don't you think that this is a bureau we set at all?"

Shizu's body trembled, and he was silent.

"Shuiyue's commandment hall is not unfamiliar to me. I still looked up to your existence a long time ago. Of course, after that, I still regard you as my predecessor. I have always been trembling and trembling. Dealing with a big person like you." The corner of the Big Dipper's mouth rose slightly, revealing a mouthful of white teeth: "It's a pity that the times have changed, and it's time for you to disappear into this world."

"It's absolutely impossible. How can you people understand how much effort we have spent for Shuiyue Sect."

"So, if you wear away the memory of a genius and become a puppet under your control, this is also one of your so-called hard work?" The Emperor Beidou sneered, looking at the master in front of him, and said: "Although you are immortal Body, but it is not invincible. During those long years, someone can defeat you, so naturally after this, there will also be someone who can defeat you."

"The posterity is terrible, I don't know how many years I haven't met a brave boy like you, and dare to challenge me." Master asked with a sneer.

"It's not a challenge, just to tell you that this time it's just a deal between us and Nanhuang, in order to draw all of your commandment halls out. If you want to break through such a terrible city, your commandment halls cooperate with Nanhuang. Huang inevitably requires all members to be dispatched." The Emperor Beidou smiled and slowly elaborated: "It is for this reason that we have arranged these methods here, just waiting for you to jump in, and then Slowly collect the traps and wipe out all of you."

"Could it be that....."

At this time, the black shadow in the sky finally appeared in their sight.

It was one after another Tianzhou warship, and on this warship, there were countless warriors wearing armors with solemn eyebrows.

If you still don't understand the true meaning of it at this time, then Master has lived for so many years in vain. He looked at the Emperor of the Big Dipper in front of him and sighed for a long

time: "It seems that I really am. When I am old, I was played with by your applause, but even so, we have no retreat. It's better to have a big fight here today."

"At present, it seems to be the truth." He smiled, looked at the master in front of him, and said.

Chapter 5739: Who is planning

Fu Disheng stood on the deck of Tianzhou, looking at the burning city under his feet.

Except for the noble district, almost half of the entire Tianqi City was destroyed, and burning flames could be seen everywhere. There were also screams and screams in it.

It really is a city after the invasion.

And these invaders from the Southern Wilderness and Commandment Hall had no face to speak of.

"It's a plan with one stone and two birds. This time the wishful thinking of Nanhuang people is complete." He muttered while looking at the city under his feet.

"Southern Wilderness was originally a place where the weak and the strong were unrestrictedly enlarged. It was unable to deal with its own enemies, so naturally it would die in the hands of its own enemies, but I didn't expect that the city lord was such a decisive person. When cooperating with us almost. There is no hesitation, it seems that all this has been calculated a long time ago." It is not someone else standing beside him, it is Bai Xiaosheng, who is known as a ***** operator.

"In order to eliminate the unfriendly voices within myself, so we jointly planned this action with us, so that all the unobedient forces of Nanhuang could surface, and then we took the precepts and swallowed them together. In this way, the alliance between New Moon City and Southern Desolate City will be indestructible, and we can smoothly get the goodwill of both sides from it, and all our future plans will naturally work."

It turns out that all of this is a plan that was made long ago, but many people are still in the dark at this time and don't know what all this is about.

It's ridiculous that Yuntian and the others naively thought that they had really taken Tianqi City, but they didn't know that this was not the real strength of Dragon Tiger Hall at all. They wanted to introduce all these enemies into Tianqi City, so they. Only then can all the enemies here be wiped out.

"Lord of the lobby, we are all here now, can we start the counterattack."

"Well, it's about this time. It's just a pity that Chu Jiangnan's boy sacrificed his life in order to protect Li Tian, but it also made our actions this time without regrets." Fu Disheng said faintly. Said that the most worried thing before was that this young man died in this war. When communicating with the Emperor of the Big Dipper, this was what they were most worried about.

Whether it is Fu Disheng, the Emperor of the Big Dipper, or the other people in New Moon City, they have a friendly view of Li Tian. They all know that this young man has unlimited potential.

It would be a pity if such an excellent young man died in this war.

Fortunately, in this incident, they seemed to be really lucky, and Li Tian survived.

At this time, the entire Tianqi City began to shake, and many strange runes appeared on the ground. When these runes appeared, a dome appeared in the sky. Then, everyone here was restricted to Under this dome.

Master saw this dome, his body trembled: "Could this be..."

"Is Tianqi City really so easy to be captured? They just want to wait for you to dispatch all of your strength here, and then use all your strength to completely wipe you out. This is Their purpose is also mine. In order to accomplish this goal, even geniuses like Li Tian have been handed over to you." The Emperor Beidou smiled. At this time, he was truly proud and looked at the teacher in front of him. With an expression of surprise on Zu's face, he can imagine how proud he is now.

You must know that the master of this commandment hall has never suffered anything before.

The dimension is today, and it has suffered abruptly.

He would never have thought that this seemed to be a perfect plan, and there were so many conspiracies and tricks in it.

"Although the commandment hall has a lot of methods, your intelligence is still too little. You still don't know what we are doing these days. Therefore, when these troops come, it is difficult for you to have What defense." Just as the Emperor of the Big Dipper was speaking, the Tianzhou in the dome began to slowly drop one soldier after another.

These soldiers are all elite fighters from New Moon City and Tianqi City, who have been dispatched to come here.

When they entered this city, it was like a sheep entering the mouth of a tiger. The Commandment Hall and the army of the Southern Wilderness, which were still in the city before, fled like rats.

Their strength may not really be bad, after all, they are the immortals of the Commandment Hall and Nanhuang.

But it is a pity that they are not very good at this kind of discipline. When they really encounter this kind of trained army, the gap in this area will be revealed.

They, who had the upper hand, suddenly became bad.

At this time, Yun Tian, who was still about to kill Li Tian, was caught by Fu Disheng's wrist: "It's really caught up. The most worrying thing before is that before you kill this kid, I won't have time to come over."

Looking at Fu Disheng in front of him, Yun Tian really didn't know what to say at this time.

It is truly a blessing, and misfortune never comes singly.

I had been overshadowed by Chu Jiangnan before. If I hadn't escaped with a magic weapon, I might have been lying on the ground and turned into a corpse. I just waited until I wanted to kill the young man in front of me. Once such a thing happened, the hall master of Dragon Tiger Hall, who was rumored to have left Tianqi City before, appeared at this critical time.

And as soon as he appeared, he was carrying a dense army.

Seeing this scene before him, he knew that all of this was calculated by others. They thought that their calculations were seamless, but they didn't know that some people were more perfect in this matter than they calculated, and even said that they were not given to them. A little chance.

He released his hand and said with a wry smile: "It seems that we are calculated by you."

"It's almost like this, I thought you could really challenge Tianqi City, but I don't know that you are like frogs at the bottom of a well in my eyes. If you haven't seen it before, you won't know what this city is. How difficult it is to be captured by you." He sneered and glanced at Li Tian: "Now you should be able to rest assured, you are finally catching up."

Chapter 5740: Turn around

At this time, Li Tian finally relaxed in his heart. Just in front of the worries he was still there just now, what should this guy do if he really wants to do something with himself, now he can be regarded as relieved.

Looking at Fu Disheng in front of him, he who was smart naturally knew that in the whole thing, the chief of Longhutang should know a lot of inside information.

It's only then that I understand what kind of things the Southern Wilderness did, and what kind of decision the Emperor Beidou and Fu Disheng have made, but it's easy to take a look at the situation in front of you. Got it.

He is very aware that the current situation is very different from what he imagined before.

"I know that your mood is very complicated now, but I hope you still pay attention to this. Although I have come here, the whole Tianqi City is still in chaos. Your enemy is still there. There are many people who haven't shown up. At this time, it's best to think about how you survived, not about other things." How smart Fu Disheng is. He has not heard Li Tian speak since he came here. The young man has a problem with his emotions now.

But no matter who encounters such a thing, I am afraid it will be in the same state as Li Tian in front of him.

I naively believed in these people in front of me, but in the end he was used as a tool. Who could stand such a thing?

"I didn't expect it, I didn't expect us to become a turtle in the urn. I thought that this time our plan was completely missed. You will all fail in our perfect plan, but I didn't expect that it was you guys who would win in the end." Looking at these people in front of him, Yun Tian sighed. When Fu Disheng appeared with the army, the battle had already come to an end.

When the army comes here, it also means that the battle will be over.

"I said a long time ago that our Tianqi City will not fail so easily. Even if the combined strength of your two forces is very strong, it is still very difficult to capture this city. It is a pity that you completely didn't take my advice to heart. If that's the case, I can only die here like everyone else, and I can't blame me for not reminding you." Fu Disheng said as he started slowly approaching the person in front of him. Yuntian.

Yun Tian had no intention of fighting anymore at this time. He knew exactly how huge the gap between him and the man in front of him was.

This one is an expert on the same level as the Big Dipper God Emperor. He is only a realm of the God King, and where he might be the opponent of the person in front of him, it is unknown whether he will survive.

"I knew you would do some tricks in this event, but I didn't expect that I would also become a bargaining chip." Li Tian smiled bitterly. He really doesn't have the slightest strength or power. Otherwise, it is very likely that he will try his best to compete with Fu Disheng in front of him, and let the guy in front of him know that he does not want to be dominated by others.

"Naturally, I also know that such things are very difficult for you, but life is like this. There will always be some bumps and bumps. If it continues to go smoothly, do you think this is still your life?" Fu Disheng He smiled, and while approaching Yuntian, he said: "What happened this time may indeed be unfair to you. It is really bad that we use your life to bet."

"Ha ha."

"But the result is good, that's enough. In order to protect you, we have been rushing over. You should have known it before you came here. This time you may be dead without life. We have already told you in advance what will happen next, and you know these things very clearly, so why bother to show such anger at this time?" Fu Disheng was already close to Yuntian in front of you at this time. , The whole body's aura was suppressed, causing Yuntian in front of him to freeze to the ground and unable to move.

"It's just that I didn't think I would be so humble."

"If only someone else is standing here, and not you, then that person may be dead now, and not everyone is worthy of my own action." Fu Disheng snorted and heard that Li Tian was not like this. After listening to the advice, there was some anger in my heart. I had already explained the ins and outs of all this very clearly, but this kid didn't seem to know at all.

"What are you two arguing about right now? Do you really think you have won?"

"The Discipline Hall and the Nanhuang rebels are now all in my Tianqi City, and the enchantment around this has turned this into a world under the dome, no matter how powerful it is, it is impossible. If you leave here in a short time, all the enemies who enter here will be wiped out by us, which means that the Commandment Hall and the rebels in the Southern Wilderness will be wiped out. Do you think I need to worry about anything in this situation?" He turned around to look at Yuntian in front of him, slowly curious eyes all over his face.

In this event, they were considered a big victory, completely grasping the lifeblood of everything, and reversing the whole thing.

Although they had done calculations secretly before, but to be able to design such a situation, I have to say that their strength and abilities are unimaginable by many people.

"There are indeed a lot of people coming to the Commandment Hall, but it doesn't mean that all of us have come here. Although you have wiped out most of us now, the remaining people will be dormant."

"Hehe, I know the background of your commandment hall is not small, but what about it, you big people have all been killed, what kind of powerful characters will be left?" Fu Disheng said as he

said, and then slapped him. I shot Yun Tian on the body in front of him, and faced this guy with no mercy at all. The shot was to go all out and kill Yun Tian directly.

Until the last moment, Yuntian's face was filled with a bright smile.

This guy looked like they really had a big victory, and he didn't even worry about the whole thing at all.

Seeing this scene, Li Tian couldn't help frowning.

"No need to think about it, if they still want to make trouble in the gods, they must expose themselves. When they expose themselves, there is only a dead end."
