

## A Killer 5741

Chapter 5741: Nine Feet Binding Dragon Technique

On the other side, the battle between the Big Dipper God Emperor and Shizu finally began.

The moment the two played against each other was the same.

‘After so many years of growth, this kid is indeed much more difficult than before. If this continues, I still don’t know how far he will grow. Looking at the majestic Emperor Beidou in front of him, Master Zuo also sneered at this time, with some dissatisfaction in his heart. What kind of character he was back then is now suppressed by such a junior.

"Master, I have already said that the time has changed. All the glory in you back then has ceased to exist. It is now the era of young people, and it is no longer the era of you old people." The Emperor Beidou said indifferently. Smiling, looking at the burning city at your feet, he said, "Originally, you could choose to stay in the mountains and forests all the time. The troubles brought by these younger generations have nothing to do with you, but you still stood up."

"You kid, what else do you want to say, just say it, I'll listen here." Shizu sneered.

"I know how much effort you spent in planning this action, but today I am really sorry to tell you that all your efforts here today have been wasted. In this formation, you There will be no way to leave this city. It will be wiped out by our army bit by bit, and the other strong people in this city will start to stand in line at this time."

At the beginning, although there were many riots in the entire Tianqi City, the rebels arbitrarily acted in this city, but they were rarely stopped.

This is all because those people don't know how they should choose their own team. The situation does not seem to be so obvious at this time. After all, even Fu Disheng has not appeared. How can it be said that Tianqi City has been breached?

But now it's different.

The current situation is very obvious. Although the troops of the Southern Wilderness and the Commandment Hall are really mighty, the opponents in front of them are exceptionally elite, and the number is super large.

It is no longer possible for them to have the upper hand in such a battle.

In this way, the strong people who had not chosen to stand in the team before began to choose one of these people one by one to participate in this action.

Soon, the entire Tianqi City started a very fierce battle in various places.

Even the hidden rebels will be found out of the shadows in the first time. The army that Fu Disheng brings is like a wolf entering a flock. It is really invincible. It's easy. All these enemies in front of him were captured.

Master naturally knew this, and he was still thinking about how to leave here.

"You should know that although the dome in front of you is good, it is still too simple to really control me here. How could I be restricted by such a thing and cannot leave?" A flash of Master's face flashed. Indifferent, looking at the Emperor of the Big Dipper in front of him: "Although you have calculated a lot this time, but trying to keep me here is simply wishful thinking."

"I'm afraid it's you, Master, who is wishful thinking this time." At this time, Chai Lei also appeared next to the Emperor of the Big Dipper, looking at the Master in front of him: "For this action, our Tianqi City also A lot of preparations have been made. This is not just a simple enchantment, it is also an ancient spell. You should have heard of the nine-foot dragon-binding technique, right?"

"Nine-foot dragon-binding technique?" Shizu's expression instantly solidified, and a nervous and solemn expression appeared on his face.

The reason is only these five words.

It was too terrifying for them like the strong, they should be the top group of strong in this world, they should be fearless.

But it is not like this now. The thing that makes them fear is nothing else. It is this so-called nine-foot dragon-binding technique, this nine-foot dragon-binding technique, which is rumored to be able to forcibly restrain the strength of any strong person. The trick to get up is just because the conditions for casting this spell are too terrifying, and they are usually displayed in some formations.

Looking at the strange city in front of him, Master seemed to understand something.

"As you imagined, we have set up the nine-foot dragon-binding technique in this city, knowing that you are the enemy we are most worried about this time. In order to avoid accidents, we don't want to be a master like you. Leaving here, we prepared the nine-foot dragon-binding technique here in advance. Are you going to catch it by yourself, or will you be defeated by us?" The Big Dipper asked with a smile.

"Shameless boy, you actually used this method to deal with me."

"The ridiculous thing is ridiculous. You don't know what the whole thing is about, and you don't know that this plan has actually been going on for nearly a hundred years. Do you not know that the nine-foot dragon-binding technique is not just a matter of fact. The sky can be set, but it takes a long time to accumulate. We set up this spell here decades ago for today."

"What, did you plan for such a long time?"

"Otherwise? Do you really think that we have only recently prepared to do this? You really think that it is because of Murong Ziqing's own thoughts that people in the entire God Realm will exclude your commandment hall?" Master with a look of surprise, don't say how satisfied the Emperor of the Big Dipper was at this time. When he saw his enemy look helpless and surprised, this kind of confidence and glory was really beyond words.

Master did not even expect that these people would start preparing for this action decades ago, even hundreds of years ago?

So in their hearts, how many secrets are still unspoken?

---

"You are still a young man. On the surface it seems that you know a lot of things, but in fact it is not the case. As a young man, you still know too little. That's why after you know this, you think I want to make such a move with us." After killing the cloud sky in front of him, Fu Disheng turned around and walked slowly in front of Li Tian, slowly spreading his immortal power into the front. In the young man's body: "If you didn't have the immortal power of the Emperor of the Big Dipper, you would have died long ago. Do you think that we have abandoned you in order to fulfill our own interests?"

Chapter 5742: Uncover the truth

"I don't understand what your purpose is for doing this, what is going on in Nanhuang, what is going on at the Commandment Hall."

"You know too little, but the only thing I can tell you now is that everything we do now is for our future tasks. For this so-called task, everyone must be in In this incident, I did my best to accomplish my goal." Looking at Li Tian with a face full of doubt, he stepped forward and patted the young man on the shoulder: "As for this action, it was actually a long time ago. We have already made preparations, hundreds of years ago, we already knew that you were coming to the God Realm."

"..."

"You may not know what you are carrying on your shoulders, but we do, so we need to cultivate you slowly, and at the same time, we need to use your strength to help us eliminate some things that we cannot eliminate. ."

"The Discipline Hall?"

"Indeed, although the original idea of the precepts hall is very beautiful, in order to make Shuiyuezong a truly orderly sect, but with the passage of time, no matter how good things are, they will slowly fade away. , All that was revealed was disgusting filth." When Fu Disheng said this, an expression of boredom appeared on his face: "So before that, Shuiyuezong wanted to make the Discipline Hall disappear. It's a pity that there were many things at the time, which prevented us from using the precepts hall."

"This is really a big game that I don't know in what words to describe. I really didn't expect you to start thinking about things after this hundreds of years ago. Don't you ever think that if I didn't What should you do when you appear in the God Realm?"

"If you did not appear in the God Realm, we naturally have our way, but we know very well that you, a young man, will definitely appear in the God Realm. This is the law of causality. No matter how powerful it is, no one It may change all of this." He looked at Li Tian with an unpredictable smile: "You may not know it yet, your own destiny is not under your control at all."

Fu Disheng stood up and looked at the Wonderful City in front of him: "Like everyone here, they all naively think that they are their own masters, and can all of them be controlled by themselves?"

"Of course it cannot be like this. They seem to be free, but in fact they are also bound by everything. The rules and regulations on them make their destiny different from everyone's, and also make their destiny. There is no way to be controlled by oneself." Fu Disheng snorted: "It's like a commandment hall. When their aura is set, no matter how beautiful they were at the beginning, they will eventually disappear between the world and the earth."

Although what Fu Disheng said was rather mysterious and Li Tian didn't understand it, he knew a little bit that he had already been exposed to many people.

However, these people in the line of New Moon City seemed to be different from those of other \*\*\*\* emperors.

When I was in Luoyang City, I was chased by many people, and there were also many inside stories.

But things like this have never happened in New Moon City. From this point of view, the Big Dipper God Emperor seems to be completely different from the God Emperors they knew before, and this one seems to be a little bit more. meaning.

"You little guy doesn't know a lot now, so you will feel very angry and confused. This is a normal thing. After you really understand the truth, I believe you will understand our painstaking efforts. ."

"The only thing I know now is that in order to reach cooperation with Nanhuang and let the people of Nanhuang cooperate with your actions, you promised them to give Yuntian a chance to kill me. You can't help during this period of time. , Isn't it like this?" Li Tian asked Fu Disheng coldly.

Fu Disheng was still smiling before, but the moment he finished saying this, his figure paused, and he said in a very serious tone: "I have already told you, you are still young, and you don't know the inside story of many things. I know, so it's just as if today's things have never happened before. This is a good choice for many people."

"But I can't forget that I was deceived by others, so I might hate you in my heart. Don't you worry about this anger and become even more out of control afterwards?" Li Tian's expression was still so indifferent, looking at Fu Di Sheng: "If it weren't for your design, Chu Jiangnan wouldn't have died here because of this. Can I count this hatred on you?"

"If you did not choose to come to Tianqi City, but gave up the opportunity to save Ningbing, then there will not be so many things happening now, and naturally there will not be so many people who will look at you. You can still be a simpler and simpler self, but unfortunately, this kind of thing did not happen, so all of this is destined, since you have chosen to come here, you have to pay some price "Fu Disheng said seriously: "I don't like to say the same thing a second time. I rarely talk so much at all, but you are the first. Of course, this is the first time, and also the last time."

Fu Disheng's eyes were indifferent, and Li Tian had a feeling of falling on ice in that moment.

Only then did I realize that the gap between himself and the man in front of him was so huge, even just a small look might increase the pressure on Li Tian's whole person.

This is the power of God Emperor level powerhouse.

"Well, you stay here honestly now and don't leave. My people will protect you here. You don't need to intervene in other things. You have done enough today." Di Sheng waved his hand, and several soldiers from Tianqi City stepped forward, encircling Li Tian and protecting Li Tian.

At this time, the ups and downs of Tianqi City were all controlled by them, and Li Tian naturally did not worry about what danger he would encounter.

Seeing Fu Disheng leaving his back, his fists clenched, but in the end he still sat on the ground helplessly, just as Fu Disheng said, everything is causal, if he didn't decide to come to Tianqi City, So much later will not happen.

Chapter 5743: Disappointed

In this night, some people are happy and some are sad.

The rebels of the Southern Wilderness and the disciples of the Discipline Hall must be the most sad. After they came to Tianqi City, they thought that they had become the masters here, and they all eliminated all the discordant voices that opposed them. Up.

But the good times are not long.

Just when they thought they were going to go on smoothly like this, Fu Disheng came, not alone, but with the tiger and wolf teacher.

These soldiers are all like demons, madly destroying all the enemies in front of them, leaving no one behind.

Today, they no longer have the pride of coming to Tianqi City just before, all of them are fear and disappointment.

Of course there is another exception among these people.

That is Qiang Wudi.

He still knows a little bit about the inside story of the whole thing, and he is related to these rebels. It is precisely because of his contribution to this side that this scene happened today.

Perhaps the Nanhuang rebels did not know that Qiang Wudi was actually a spy among them.

Although they have clearly realized this now, they are done and there is no way to recover it.

"Unexpectedly, Li Tian's fate is so strong. It has been so long before he has died. I thought I had bought so much time, enough for those guys in the Discipline Hall to kill Li Tian. "After receiving the news, Qiang Wudi's emotions were all disappointment and helplessness. He originally thought that this time he might get rid of a major worry.

In the end, I found that I was thinking too much.

Li Tian is really not something they can kill casually.

"Captain, I think we have gone this time."

"Yeah, if Li Tian dies, I will directly enter the semi-finals. Now it seems that the two of us are destined to have a battle, but that's good, I also want to see me and this What is the difference between the strength of the guy?" Although Qiang Wudi was helpless, he quickly figured out that Li Tian is a guy who has always been creating miracles.

From his debut to the present, I don't know how many strange things have happened to this young man.

Who didn't know about the entire God Realm, this young man was far more complicated than they thought.

Although this time they fought for a big chance to kill Li Tian for the Commandment Hall, they were still insisted on by this kid.

In fact, as early as the rebels entered the city, Fu Disheng's army had already arrived here, but they had never made a move, because they had an agreement with Qiang Wudi, and they had to wait until the time was up before they could make a move.

Fu Disheng did not tell Li Tian about this, but Li Tian knew it well.

Tianqi City was destroyed like this, although it was not a big money for them, it was definitely a considerable loss.

If it weren't for this agreement, perhaps Fu Disheng and the others would come here to stop the rebels before they started destroying it.

"The luck of this kid Li Tian is much better than we thought. I thought that this kid could be killed easily this time, but I didn't expect that things would turn out to be like this. I want to deal with this kid. It's really difficult." Looking at Qiang Wudi's helpless look in front of him, Tang Yan also clenched his fists helplessly at this time, they all hoped that Li Tian could die tonight.

As long as this young man dies tonight, it will be a happy thing for them.

But the result still disappointed them.

"Now there is no need to continue to focus on this matter. The battle between the two \*\*\*\*\* emperors outside is about to end. The Commandment Hall and the Nanhuang people will all lose themselves in this battle. All the power of, even if it is left over, we will not dare to show up for a while later. We have done a big thing this time. After we go back, we will get a big praise. Maybe we can make our strength to a higher level. Lou." Qiang Wudi's eyes flickered: "Li Tian is very powerful, but I will not lose to him."

"Of course, the captain is the hope among us. We all remember what you did back then. How can someone who can do such a thing be an ordinary person? The captain must be among the masters. A master of, this is undoubtedly a matter of course." Tang Yan slid wildly on the side, just hoping that when Qiang Wudi was praised, he could follow his success.

This time things in Tianqi City looked huge, but they ended in a strange way.

After Li Tian's body recovered a lot, he set his eyes on the sky above the city lord's mansion in the distance. I believe that in the entire Tianqi City at this time, the people who made such a move should not be very good. Many people are all waiting. Let's finally start the battle.

This battle was all a small fight before here, and there was no decisive factor at all.

The battle between these two gods was the real highlight.

Although the nine-foot dragon-binding technique is very powerful, it seems that the effect is far from as smooth as they imagined. After all, everything is only in rumors. Besides, the master in front of him has no idea what state he has reached. , Even when the Big Dipper Divine Emperor was fighting against the Master Teacher in front of him, he always felt that this old predecessor seemed to be hiding it all the time.

'He has reached the point where he is now. He is still unwilling to go all out. He has been hiding something like he doesn't want to show it. What kind of thing it is in the basin will make Master

unwilling to show it. Come out? "The Big Dipper God Emperor thought to himself, and then said: "Time is almost up, it's time for us to decide a victory or defeat."

"Are you so anxious? Are you so anxious to defeat my old predecessor, and then become a real strong?"

"Hehe, it's not like this, of course, it's just that you are gone. Even if you waste time here, it doesn't make any sense. Besides, I am not going to waste time anymore. There are still many things waiting to be done, including The traitors in the precepts halls hidden in every corner were all arrested. I know that Master will definitely keep his back. No one knows better than me how careful you are." At this point, the Big Dipper The emperor smiled triumphantly.

Chapter 5744: Prehistoric war

Shizu looked at the Emperor of the Big Dipper in front of him, and said with a smile: "The kid who followed me in front of me like a follower has grown to this point in a blink of an eye. At the same time, he has such thoughts and abilities. I don't know how to describe it. Do I still remember your immature appearance back then?"

"Master, it's not convenient to say this kind of thing at this time? You are about to lose the whole game, can you still laugh out?"

"Why can't I laugh? You think that the precepts hall has been completely cleaned up, but you don't know that what you are in contact with is just the tip of the iceberg. The entire world of the gods is even more terrifying than you think, this world It's also much darker than you think. You will soon know that all your efforts today are in vain." When the master spoke, the body began to dry up slowly, as if All the water in my body was drained: "Well, it's time to understand all this."

"The nine-foot dragon-binding technique has no effect?"

"Naturally it is useless. Although this trick is very powerful, it also has a fatal weakness. If you can carry a spar with a name of phantom dragon bone on your body, you will not be affected by this spell. Maybe you I didn't expect it. I knew that there is such a formation here, so when I came here, I had already prepared this thing."

"Haha, you deserve to be a master. You were so smart back then. No enemy seems to escape your eyes in front of you. Any small means has no meaning in front of you. It's such a terrible thing. The existence of, when I was very young, I regarded you as the goal of my whole life to study hard. Facts have proved that I have indeed grown up, but I also understand that you and I are basically two worlds. Maybe those things It is suitable for you, but not suitable for people like me." The Big Dipper God Emperor looked at him without any surprise at all.

Back then, the master who counted as a complete plan, if he didn't even know such little information, it would really disappoint them.

"Aren't you in a hurry?"

"From the beginning, I never thought that I could really use the nine-foot dragon-binding technique to restrict you. It's just that if this happens, all the enemies in Tianqi City are now under our control. Although you are prepared in advance, But it is impossible to prepare a magic dragon bone for everyone in comparison, right? Although this thing is not precious, it is not that simple to obtain it, not to mention the scale of this operation." The emperor asked.

"Indeed, I am the only one who owns the phantom dragon bone. This thing is really priceless, and it is all controlled by you high-ranking guys. Just like your exclusive items, those who can get this kind of thing, also The same is rare." Shizu smiled helplessly: "But this is enough. As long as I can show my strength alone, I can let you young people know how good it is."

When he spoke, he gave an angry cry, and a huge vortex began to appear in the entire sky.

A terrifying shadow slowly appeared behind the master. It should be a well-known trick in the Discipline Hall, called Fa Xiang Tian Di, which can instantly make your body extraordinarily huge, and its strength is also compared with before. Quite scary.

The only downside is that this trick is not very flexible.

Looking at the huge master in front of him, the Emperor Beidou smiled earnestly: "Back then, I was a character like you, I can only admire him, even if I become a \*\*\*\*\* emperor, in a character like you I still have to be cautious in front of me. I have had enough of such days. I don't want to continue like this anymore. Today I will defeat you by myself and make me truly confident? '

‘Boom Rumble’

The two huge shadows on the horizon began to fight. Every random movement of them would produce huge ripples, which spread out little by little like ripples on the surface of the water.

It's just that it's not the surface of the water that is affected, but the entire Tianqi City.

I don't know how many weaker guys were directly injured in the moment facing the aura of two people.

The so-called \*\*\*\*\* emperors are actually like nuclear weapons on the earth. They themselves are not easy to shoot, because they are very clear about their own power and what destructive damage will be caused once they are released, so most of the time they are all Use some other ways to decide the outcome.

But here today, these two \*\*\*\*\* emperors obviously have no choice.

If you want to tell the outcome, you must go all out.

The Emperor of the Big Dipper at this time was very different from what Li Tian had seen before. It was like an insurmountable mountain, which was extremely terrifying.

He looked at the two huge shadows and said: "This is the strength of the \*\*\*\*\* emperor. Just exuding his own aura is enough to make all the people around him terrified and uncomfortable."

"The aura of the \*\*\*\*\* emperor has long been terrifying to the point of unspeakable, let alone this small Tianqi city, if they are willing, all the people within hundreds of miles will feel the pressure of their aura. It can be said that tens of thousands of people immediately lost their combat power. Such terrifying strength, you will definitely not believe it." The Ancient God Remnant Soul asked.

"Indeed, I can't imagine it."

"The \*\*\*\*\* emperor has already surpassed our imagination. It can even be said that they are no longer in the category of immortals, but have really come into contact with another level, that is, the gods above them."

While communicating with the Remnant Soul of the Ancient God, Situ Shangyan and Ning Bing returned.

The two of them were always worried about Li Tian's comfort, so they didn't stay outside for long. They found that the situation had changed, and they hurried to come here. They saw Li Tian who was protected by soldiers in the ruins. Really relieved.

"This kid's luck really doesn't know what to say. After such a crisis, he can still survive. I believe that the so-called catastrophe will have a blessing. It should be like this." Situ Shangyan glanced and sat down. Li Tian on the ground smiled and said helplessly.

Ning Bing did not speak, but raised his hand and gently wiped the corner of his eye.

He is alive!

He is still alive.

This is enough.

Chapter 5745: The dust settles

Seeing Situ Shangyan and Situ Ningbing, Li Tian was relieved. He didn't know why after seeing these two people, he felt that he was a lot safer.

The breeze slowly drifted over, mixed with the smell of blood.

In today's melee, I don't know how many people will die because of it. I don't know how this war will end.

"This time you can be considered to have overcome the difficulties. After today's incident, I believe no one will think that you are still the young man who can deal with it very well. They will pay more attention to your strength and abilities. Various developments are also of considerable help." Situ Shangyan stepped up and looked at Li Tian with great relief, and he was extremely proud.

At that time, the city of the new moon could be described as being devalued to the extreme by others.

Now that a genius like Li Tian appeared, it was enough to make them proud.

"I am not in the mood to think so much now. In order to accomplish their goals, they even used me as a bait, and I lost a friend because of this. Do you think I should remember such things in my mind?"

"No matter how we say these things, you will have your own opinions. If they let you down today, they are destined to leave you some grievances in your heart." Ning Bing looked at the somewhat lost, soulless guy in front of him. "But what I don't want is that you will completely fall down again because of this incident. Everyone will have a time of life and death. Why should you torture the living for a dead person?"

"I naturally know this truth, but I just think that Chu Jiangnan died because of me. I always feel uncomfortable in my heart, but this may be his destiny."

"This is indeed his fate. There are not many friends in the God Realm, but you are a person worthy of his life." Sima Shangwu also came to the ruins and looked at Li Tian: "I thought you wouldn't Taking his death seriously, now it seems that I was wrong again."

"Why are you here?" Seeing Sima Shangwu step by step in front of him, Li Tian also stunned. Such a major incident happened to them. According to normal reasoning, no one would want to. It's right here.

"Why can't I come here? Such a serious thing happened on your side. You and I are both players participating in this Ten Cities Conference. It's a good deal. Come and see you." He looked at Li Tian, faintly said with a smile: "And this time I come here, I also want to confirm whether Chu Jiangnan is really dead here."

"He died, he blew himself up to save me."

"Yeah, you can see that you are in a low mood right now, and it is also very sad. There is nothing wrong with what he paid this time. At least it has proved the significance of his existence in this world." Sima Shangwu smiled, and Li Tian's expression did indeed look like some loss and sadness, but it was not as uncomfortable as when the meridians were broken before.

Although it is said that Chu Jiangnan died because of Li Tian, things have evolved into what it is now. People cannot come back to life from death, even if he is uncomfortably dead, it is impossible for Chu Jiangnan to come back to life.

The soldiers on the ruins looked at these people in front of them. Although they were from Tianqi City, they also knew the identity of the person in front of them.

So when they communicated with Li Tian, there was no problem.

At this time, there was a loud bang on the other side of the sky.

Immediately afterwards, a cyan sword aura and a white sword aura entangled and rushed directly into the sky, just like two divine dragons fighting together, bursting with exceptionally bright light in the air. There is a split sky, like a rift valley, directly divided.

This is the battle between the Emperor of the Big Dipper and the ancestor in a complete state. Both of them are strong among the strong. Once they concentrate their attention on the battle, it will definitely bring extra The influence of terror.

The two huge shadows collided like an extremely powerful fighter at this time. Under the dome, the strength of the two of them also directly broke through the dome, making the world and the earth eclipsed.

Although the dome above them was breached, the rebels below could not leave here.

Before they started fighting, Tianqi City had actually begun to slowly stabilize. All the rebels were arrested. No matter how powerful they are, it is impossible to change anything. .

So although the dome was destroyed, no one left Tianqi City.

"Who do you think will be the final winner in this battle?" Sima Shangwu had always heard that Li Tian in front of him was outstanding in all aspects. It is unbelievable that there is such a genius in this world. At this time, I also want to know what he thinks of these two powerhouses and who is the ultimate winner?

"This war has been doomed from the very beginning. Even if that person defeated the Emperor of the Big Dipper, there is still Fu Disheng who is left. Anyway, the situation is now very clear.

Exhausted, but it is impossible to change this situation at all." Li Tian looked at the scene before him and sneered. After such a long time has passed, it is almost time for the dust to settle.

"It seems that your thoughts are the same as mine. This time, Tianqi City is destined to succeed. Although Nanhuang and the Commandment Hall have been preparing for a long time, they want to capture Tianqi City without them. It's still too small. I don't realize how powerful my enemy is. I naively think that I can defeat it. This is probably the most important reason for their loss this time."

"What I am more worried about is how to prepare for the next Ten Cities Conference, and this time such a major event has happened. It should not be long before the gods will all come to Tianqi City. Then it will be the most troublesome. At the time." Li Tian frowned. When something like this happened, Tianqi City was almost half destroyed. This time the Ten Cities Conference, is it still going to be delayed?

Psychologically speaking, Li Tian definitely didn't want this to happen.

When I came to Tianqi City this time, I just wanted to use this opportunity to get some opportunities to become stronger, and at the same time, I wanted to let Ningbing have a safety guarantee in this battle.

Chapter 5746: Seven Stars

"This is not something we little people can worry about. They big people naturally have the ideas of their big people. At this time, we can still do our own duties honestly. As for other issues, it seems like we It doesn't matter." Looking at Li Tian who was a little nervous in front of him, Sima Shangwu said lightly.

"Yes, these things will naturally be considered by the people in Tianqi City. What you need to think about right now is not these problems." Looking at Li Tian in front of him, Sima Shangwu smiled, and then turned his gaze to the other side. Looking at Ningbing in the distance, he said: "The two of you are now the only two aces we have left this time, and we will all watch your play in the next games."

Ning Bing smiled, she has now used Yundu Grass, so her strength has now been greatly improved.

The only difference is that he has not yet been able to improve his realm.

It was only half of the foot that bought the threshold of the realm of gods. If you need to continue to move forward, obviously you still have to make a lot of effort in the next period of time.

Even if it is an immortal grass like Yunducao, it can't be said that it can overcome all difficulties. After all, some things still depend on their own strength and level to change.

As they were talking, a light flickered from the sky, and then one star after another lit up in the sky.

Situ Shangyan's eyes widened, and she was shocked: "Seven stars in a row?"

"Seven stars and beads?" Li Tian and Sima Shangwu all had a look of incomprehension. Even if this situation seems to be difficult to happen, it doesn't seem to need to be so surprised. Looking at Situ Shangyan in front of him, just It seemed to be a \*\*\*\* of a ghost. Both of them didn't understand why this guy showed such an expression. Is this so-called Seven Stars Lianzhu really terrifying?

"You probably don't know. The reason why the Emperor of the Big Dipper is called the Emperor of the Big Dipper is not because he occupies the northern line, but because of the Big Dipper in the

sky." Ningbing turned around and looked at Li Tian and Sima Shangwu in front of them explained, "This trick of connecting seven stars with pearls looks like a natural phenomenon, but it's actually because of the Emperor of the Big Dipper, it became like this."

"How is this possible? How could anyone in this world connect their tricks to the stars in the sky?"

"I know you two are very puzzled, but it is of no avail, because the fact is like this. This so-called Seven Stars Lianzhu is the biggest method of the Big Dipper God Emperor. Once he shows the Seven Stars Lianzhu, his strength will be greatly improved. The Emperor of the Big Dipper in this state can be called invincible. If you are not a very powerful master, it is difficult to restrict."

When they spoke, they had already seen the battle between the two huge shadows in the distance.

The shadow of the Emperor Beidou is very bright, but the yin and yang of the master is very dark.

These two shadows looked like a war between darkness and light. At the beginning, Shizu could still have the upper hand, perhaps because the strength of the Emperor of the Big Dipper had not been fully utilized.

But this situation now seems to be turned upside down as before.

The Divine Emperor of the Big Dipper, who was still at a disadvantage before, was completely imposing after the Seven Stars Lianzhu. He immediately suppressed the master, and the normal battle seemed much easier.

"Look, this kind of battle between \*\*\*\*\* emperors is actually quite rare. Many people want to know what the battle between \*\*\*\*\* emperors will be like, but they have never had the opportunity to witness it. Today we are very lucky. , You can actually see two powerhouses at the Divine Emperor level fighting here with your own eyes. This is not a good opportunity that everyone can have." Seeing Li Tian and Sima Shangwu's serious expressions, Situ Shangyan was also full. The proud face.

The wind was howling and the earth was trembling.

The terrible sight of the battle before him reminded Li Tian of a movie called Doomsday that he had seen on the earth. It was exactly a movie about the destruction of human cities after the doomsday. Everyone who saw this movie Everyone will sigh that the power of mankind really has no effect in the face of the power of nature.

But in front of him, Li Tian began to doubt again that the so-called power of nature here seemed to be a tool in the hands of human beings.

"Master, why bother to continue to work so hard? The battle between us has reached the point where it is now. You are a wise man and know that it is impossible for you to defeat me now, why bother Do you want to continue wasting time like this?" The Big Dipper God Emperor asked triumphantly while suppressing the Master in front of him with his Faxiang Heaven and Earth.

"Hmph, you brat, don't be too happy now. The battle between the two of us is now the real beginning. Do you think you can defeat me in this way?"

"Otherwise? Faxiangtiandi should be your last resort. Although the dome has been destroyed, if you dare to choose to leave here at this time, I will definitely seriously hurt you in the first place."

Beidou The divine emperor was full of seriousness, and the pressure in his heart disappeared at this time. Before, he was worried that he and the old man in front of him were not at the same level.

But after the real fight, I realized that I was really better than blue.

It was indeed not the opponent of the master in front of him before, but time has passed, and now the situation is different.

As long as he defeated the old man in front of him, his mentality would not have the same pressure as before. These old guys living in the mountains and forests actually put pressure on many people.

"It's almost time to end this farce. Next, we still need to spare a lot of time to deal with the problems after this farce!" At this time, Fu Disheng also appeared here, looking at the Beidou in front of him. God Emperor, asked.

"It's true, this battle has lasted long enough, and it is indeed necessary to spare some time to deal with the next trouble." The Big Dipper God Emperor also nodded, and then said solemnly: "This A battle has already been the battle I wanted long ago. It is not easy to have this opportunity now, and I will not let you destroy it easily."

"Hehe, you don't have a lot of time now, you can waste it, but I can't just waste it like this."

Chapter 5747: The situation is set

The Big Dipper Divine Emperor smiled helplessly. It was certainly impossible for himself and the Master in front of him to tell the winner so quickly.

"Do you really want to challenge me?"

"Of course it is like this. From the first time I saw you, I started to be a humble junior in front of you. No matter when it is, I can't feel that I have any presence in front of you. It feels like I'm really just an unknown junior in front of you." The Emperor Beidou smiled and looked at the master in front of him with a serious face: "So I always have a dream in my heart, and finally it is Let me seize this opportunity today. No matter what, I will defeat you. This can be regarded as a goal in my heart."

"It turned out to be like this."

The Big Dipper God Emperor's Faxiangtiandi slowly opened his eyes at this time, and the entire huge body turned into a golden light at this time, just as if there was a golden sun in the body, and in this Faxiangtiandi Behind him, a pattern of the Big Dipper appeared unexpectedly.

In the next second, the Big Dipper God Emperor roared, and Faxiang Tiandi began to wave his huge fist and smashed at the Master in front of him.

The shadow behind Shizu also hurried forward at this time, trying to block it.

I heard a deafening explosion, as if the sky was torn apart, and in the next second I saw the world of Faxiang and Earth behind Shizu, which fell to the ground like this, and the large buildings behind him were all instantly destroyed. It was smashed into powder, and there were even some soldiers who didn't have time to escape, and they just died in it. It is conceivable how powerful this Dharma Xiangtian is.

The master opened his mouth and spit out a mouthful of dirty blood: "I really didn't expect that your kid's growth is really fast to this point. You are indeed a genius. You can have such strength in such a short period of time. I have rarely seen it. To a young man like you."

"Master joked, because I have been developing the way you were before. Although the two of us are running in opposite directions, we still stand on the same starting line. I can finally defeat you today." Beidou The \*\*\*\* emperor was proud of his face, and his eyes flickered: "Now, it's almost time to let this farce end. It doesn't make any sense to continue to tremble like this."

"Are you ready to end the battle like this? It seems that you don't even know, you guys are too young." Shizu sneered, and suddenly a strange dark color appeared in front of him. The flame was burning like this, and when the Great Dipper God Emperor launched his attack, a vortex similar to a portal appeared in the flame.

After seeing this scene, Fu Disheng reacted almost immediately: "The big thing is not good, this old guy has already prepared a chance to escape in advance. '

Of course they don't want to see this guy run away like this. You have to know that this situation is particularly uncomfortable for them. The original plan this time was all to kill the master in front of you, as long as the master in front of you was killed, so their conspiracy this time can be regarded as no problem.

But seeing this scene before him, Master seems to be ready to leave like this?

The Emperor Beidou also sneered and said, "You really disappointed me too much. I didn't expect that an existence like you would have the idea of fleeing like this. Didn't you think about how you would face other people in the future? ?"

"What do these things have to do with me? As long as I survive, one day I will let you little guys know what the fate of offending our precepts hall is. This time you are indeed very successful in calculating, and we are hit hard. , But wanting to destroy our commandment hall in this way is simply idiotic dreams. You will soon know what the fate of opposing us is." Shizu sneered, and he was ready to leave like this when speaking.

The Emperor of the Big Dipper hurriedly gathered his celestial power, but after all, he was still a step slower.

Fa Xiang Tiandi waved his huge fist, but Master had already left like this.

"Damn, we've all gotten to this point, and even let this guy escape. If you let others know, wouldn't you laugh out your teeth?" The Emperor Beidou scolded, and he could see his current emotions. I was very angry, seeing that the opponent in front of me was about to be killed, but this kind of thing happened, which was really unacceptable.

"We should have thought of it earlier. This old fox didn't suffer any losses back then. How could he put himself in deep danger without a little protection?" Fu Disheng also looked helpless. They were the most important this time. The character who wanted to kill was just fleeing, and the next problem may become more complicated.

There are so many things Master knows today, and it is not difficult to think of what this old guy will do in the future.

"Perhaps this is the fate. Now we can only take one step and look at it one step at a time. I just hope that what happens next can still be under our control and don't make us too ugly." The Big Dipper sighed helplessly. , Looked at Fu Disheng next to him, and asked: "How is the situation now, the entire Tianqi City should have been controlled?"

"The Commandment Hall and Southern Wilderness have sent a lot of power this time, but it is not so easy to take this city. The rebels have all been cleaned up in person. What we need to think about next is the Ten Cities Conference. Fu Disheng exhaled, "In addition, in this battle, Chu Jiangnan died. Li Tian seems to take this matter very seriously."

"This is normal. In order to save his own self-destruction, no matter who encounters such a situation, my friend will feel very angry. If he is willing to put this account on my head, let him count it in mine. The top of the head is ready." The Big Dipper shook his hand and asked: "However, the next ten city meeting seems to be held on this piece of ruins.

"Time can't be delayed, that guy's temper, it seems that we two are unlikely to let him accept this honestly."

"If this is the case, we can only hold this ten-city meeting in a simple way. Choose any place at random." The Emperor Beidou thought for a while. Since everything has become like this, he can only let it go. Naturally.

But the loss of Tianqi City this time, I am afraid it will take a few years to recover.

Chapter 5748: Match each other

It was a week later in an instant.

During this period of time, Tianqi City was like a wounded behemoth, and began to spend a lot of manpower and material resources to make up for all the things lost before.

Of course, in the entire God Realm, they have also started searching for news of the Commandment Hall, and they must catch these guys in the Commandment Hall at this time.

On the other side, Li Tian also began to recover his body.

The previous battle was a very serious blow to him. In such a battle, his whole body almost collapsed like this.

As time goes by, Tianqi City is being rebuilt at a very fast speed. After all, it is Dragon Tiger Hall. The power in the entire God Realm is not to be underestimated. Rebuilding Tianqi City is only a matter of After a little sign, many people will come in to support it. Fortunately, the disaster that happened here that night did not completely destroy the city.

Especially the aristocratic districts are all intact.

All other areas suffered some minor damage, but they were directly repaired within a few days.

Only the arena has become the biggest destruction.

So this time the Ten Cities Conference was arranged on a plain outside Tianqi City, and an enchantment was temporarily set up here, which became the arena of this competition.

After recovering Li Tian got the news, he was full of fighting spirit.

Before, I was thinking of deciding a victory with Qiang Wudi. Before, they had a lot of problems that they didn't deal with.

When they came to the outskirts of the barrier, they could see that there were a lot of guards from Dragon Tiger Hall. At the same time, there were more spectators than the previous ones in the arena, because they showed up here. When the scene is over, you can see that many people are flying in the air, and some are in the front position.

Everyone sharpened their heads, and wanted to go inside to see what was going on.

At this time, Li Tian and Qiang Wudi were ready for every enchantment.

The two people are standing on the plain. There are several referees around them, not only to judge who is the final winner, but also to stop the fighting between the two in time. The identity and status of the two people can be It's not simple. If you die like this, it would be a pity.

"The grievances between us can finally be understood. You have always wanted to let me die. This time you have always wanted to kill me after such a big thing happened in Tianqi City. It's such a danger, must you kill me before you can feel at ease?" Looking at Qiang Wudi in front of him, Li Tian asked his doubts.

"You young man's growth is terrifying, and the speed is also the fastest among many people I have met. I don't even know where you come from and why you have such a terrible talent. If we don't value you a little, Even if you don't put you on a list of dangers, when you really threaten us, everything is beyond regret." Qiang Wudi looked at him without the slightest regret or embarrassment on his face.

After all, this is what it looks like in this world where the weak and the strong eat. The strong will be suppressed by the stronger, and no one wants to look at the dominant one.

The reason why there are so many so-called \*\*\*\*\* emperors who control a party's power is actually because they have to check and balance each other, really thinking that a \*\*\*\*\* emperor level powerhouse is a princely \*\*\*\*\* emperor?

Naturally it is not like this. Every \*\*\*\*\* emperor has inextricable relationships underneath. It is these intricate relationships that make up this God Realm and at the same time these so-called princes.

Because of this, Li Tian, a young man who seems to be likely to become stronger in the future, naturally became a thorn in the eyes of the Southern Wilderness. After all, the cooperation between Southern Wilderness City and Crescent City is inevitable. The cooperation between the Emperor Nanyuan and the Emperor of the Big Dipper is also inevitable. If there is an outstanding young man like Li Tian, the Emperor of the Big Dipper may have a lot of confidence.

And according to Li Tian's growth rate, it may not be long before it may bring them great benefits.

It is precisely because this seems to be a very simple reason that has created something like today.

"In this way, no matter how hard I try, it will always be a disaster in your eyes."

"Although Emperor Nanyuan has cooperated with Emperor Beidou, it does not mean that we will not regard you as a young man as our enemy. If there is a chance, we will get rid of you, or let you not have such good luck to continue to grow. Get up, only in this way can we maintain the operation

between our two alliances. I believe that it is precisely because they also know this very well that the Emperor of the Big Dipper will indulge in this matter so much."

Li Tian sneered, and Hong Zhan was slowly called out: "Since it is like this, there is nothing to say. The previous battles were a piece of cake for me, and I haven't really encountered it. An enemy that needs me to deal with with all my strength. I hope you can be the exception, so that I can really use all my strength to deal with you who is extremely confident in myself."

"I think you should be the most confident person. I don't see the slightest dignity on your face. You seem to have a lot of confidence in our battle this time. Think you can win?"

"There won't be any emotions during the battle. I believe you should also know why we are doing this." He sneered, glanced at the referee in the distance, raised his right hand, and expressed himself. Already prepared.

The referee glanced at Li Tian, and he was asking for his opinion.

Li Tian naturally has no problem. At this point, the two of them are now very much wanting to fight their opponents. They have been brewing for so long before, and now it is almost the real beginning.

"Okay, I am very happy to stand here today to explain the first round of the quarterfinals. For everyone, you should also believe that this is a very exciting battle?" At this time, a very calm and the magnetic voice rang throughout the plain, and there was an extra host to host this competition, which made the game more interesting.

Hearing this voice, Li Tian frowned. Can the host understand their level of confrontation?

Chapter 5749: Go to war

Just like those commentators on earth.

If you want to explain a very professional game, then you must have a good understanding of the rules of these games and the players. Only in this way can you truly explain a game.

The same is true now.

The strength of Li Tian and Qiang Wudi has reached the realm of gods. Such strength is rare, especially among young people. It is almost rare to see anyone achieve this level.

And most people have not entered this realm either.

Looking at the man in the distance, Li Tian also doubted whether this guy could succeed in this position.

"I know what everyone is suspicious now. Perhaps few of you know my name. I think people like me can help you explain this battle well." The host is a very mature man, look. He looks like a man full of vicissitudes of life. He looks very pleasing to the eye when he looks at him. At this time, he also said seriously: "I can tell you very responsibly that I am absolutely qualified for this position. And I believe that in this game, no one is more suitable for such a commentary than me."

"Okay, okay, whoever of us wants to listen to you talking nonsense, we have to see these two people fighting, we have to see who will be the ultimate master, what does your matter have to do with us." This time, several young people in the office began to cry frantically, as if they were very

dissatisfied with this matter, especially seeing that the game was about to start, and the host was long-winded here.

Hearing these voices, the host smiled calmly, and then turned his gaze to Li Tian in the distance: "Well, since everyone can't wait now, then I won't talk nonsense. Now, the game begins!"

The moment this sentence was finished, the battle broke out in the field.

It can be said that Li Tian and Qiang Wudi were doing their best before, and their nerves were tense. When the host finished this sentence, they also began to rush towards each other quickly.

Several fireball techniques condensed behind Li Tian, and then rushed towards Qiang Wudi in the distance. ,

And Qiang Wudi also sneered, and he didn't even mean to dodge at all, so he rushed straight up.

"Oh, my God, I really didn't expect that the two of them were such anxious young people, and they started fighting so quickly. However, our player Li Tian, seems to be fast, and he gathers in the moment the battle begins. This kind of low-level spell fireball technique, but it seems that at this time, the meaning of this fireball technique is not to hurt the opponent, but to make the battle become blurred and chaotic." The host's voice at this time is no longer It was heard by the players.

But after the audience heard this extremely passionate commentary, seeing the fierce battle in front of them turned out to become interesting.

There are very few viewers who can feel the thoughts of Li Tian and Qiang Wudi better than you. Most people see this scene just like watching the excitement. They can only see that the two men in front of you are fighting fiercely. It looks like, but there are many doors and ways in it, they can't see it, but the host in front of them actually helped them explain all of them well.

And for Li Tian and Qiang Wudi's inner thoughts, they actually thought very clearly.

In this way, many people begin to admire it.

This moderator may not be as simple as they thought. To be able to see the problems so clearly, such a moderator should be a master no matter what.

"Haha, this time I invited here is a trump card. These next games are all very exciting games. Naturally, we need someone who can understand the inside story of these battles to explain." Fu Disheng stood in the distance, The host's voice came from his ear, and he said to Chai Lei beside him with a smug look.

"Indeed, the emotions of the entire audience were aroused at this time. The emotions of the audience in this game are obviously much more lively than before."

"This is enough. We must let these people forget all the things that happened here before. For us, these things are absolutely a shame, and no one can bear such a shame." Fu Di Shengming With his eyes open, Tianqi City, which claims to be unconquered, has reached its current level. He is naturally angry, and this time he naturally wants to put the audience's attention elsewhere.

"But now what I want to know most is what the outcome of the battle between these two young people will be. Whether it is Li Tian or Qiang Wudi, these two are geniuses among the geniuses. The above performance is also quite perfect." Bai Xiaosheng looked at the two people inside the barrier: "But this time Li Tian seems to be ready for a long time. Has he studied tactics before?"

"Maybe, the previous battle with Qiang Wudi was a shame for Li Tian. He wants to wash away the shame, and it might make the battle more exciting and exciting. Only in this way can he be All the humiliation on the body is washed away."

"This is exactly the same as this kid's usual style. Once he suffers a loss, he will do everything he can to get back all the things he has lost. This kid's obsession is much stronger than we thought, just hope In this battle, don't have any more moths." The so-called fire that burned Chibi before almost made them stunned.

If it weren't for the Big Dipper God Emperor himself, Bai Ye and others might have died directly.

But even in this situation, it still brought them a great psychological shadow. No matter who encountered such an opponent, such a trick might leave an indelible shadow in his heart.

At this time, the battle between Li Tian and Qiang Wudi was truly wonderful.

He first launched his fireball technique, and then madly hit the Qiang Wudi in front of him, and then sputtered sparks, and the black smoke that came out also obscured their surroundings. At this moment , Li Tian's figure seemed to disappear with it.

"It seems that just as we thought, Li Tian really wanted to use fireball to hide his figure, and then complete the next goal?" The host said excitedly, his voice extremely passionate.

Chapter 5750: Duel

The host's eloquence is indeed impossibly critical.

They have a better grasp of the entire battle situation than they can see. Most of these audiences are watching the excitement, but if they really want to tell them who has the upper hand in this battle, what is the result? It's definitely indescribable. It's natural to watch the excitement, but if you really understand it, they don't have that ability yet.

In the black smoke, Li Tian's figure slowly disappeared, and his breath also disappeared like this.

"This is really a sophisticated method. It disappeared in front of us so easily. It is not that simple to find where this player is hiding. It is enough to show this young man. The strength is really exceptional." The host said again with exceptional excitement, and the methods Li Tian used this time still surprised them.

'It's absolutely impossible for this kid to disappear from the ring like this. He must have hidden himself in some way, and then wait until I reveal a flaw to launch a fatal attack on me. "If you change to someone else, you may become very nervous at this time. After all, a living enemy disappears in front of you like this, no matter who it is, it will feel a little weird.

However, Qiang Wudi in front of him was obviously not such a person. Although Li Tian disappeared, he did not have the slightest anxiety or worry on his face.

He knew that any inadvertent emotion he had now might allow Li Tian to seize the opportunity.

Sure enough, in the next second, the appearance of three Li Tian quickly rushed from three directions. Behind each one is full of sword energy, like dense raindrops falling from the sky, extremely difficult Avoid.

"Your fighting style is really the same as before. Facing your enemy is to show your peak state and defeat your opponent in the shortest time. This is what you like best when facing an enemy. Look at Li Tian, who is rushing over. Qiang Wudi's face has a cold expression: "So many people here are watching, don't you think I can't figure out your tricks?"

"Come and try it." Li Tian sneered, and the sword energy behind him began to become denser and denser, as if to cover the entire arena.

At the same time, an iron rod appeared in Qiang Wudi's hand, his eyes squinted, and the enchanting rod method was not very effective when facing Li Tian. Although this guy was very hostile, he was far from harming. Feng Tianling had become a demon-like guy before, so it was not so easy to use this trick to deal with Li Tian in front of him.

"I didn't expect that our Li Tian player turned out to be such a brave young man, and he started directly offensively right here, so let's take a look at what should be done here?" The host is also at this time. Seeing Qiang Wudi's current situation, the strength displayed by Li Tian in front of him was quite terrifying, and the fighting power that broke out at this moment could not be blocked by anyone.

Qiang Wudi sneered, and the iron rod in his hand waved directly, as if the autumn wind swept the fallen leaves, swept towards Li Tian.

He suddenly turned 360 degrees, and the entire celestial power was all vigorously released, just like the flood that had accumulated for many years was vented instantly, and quickly rushed to three Li Tian.

The explosion began to resound wildly.

The sky was shining with strange brilliance, and the battle between the two people caused the color of the whole world to change, and the surrounding enchantment began to appear a little bit of cracks.

The host squinted his eyes and was secretly surprised: "The strength of this young man is really terrifying. Just for the people I have seen so far, these two young people can at least be considered the top three here, and the rest are left. Probably only the little guy from the Sima family can compete with these two young people. '

Although he was still very passionately explaining this battle at this time, some different emotions appeared in his eyes.

He knew that the Ten Cities Conference this time must be very exciting, but when Fu Disheng said he wanted to come over and explain by himself, he was still reluctant to explain the battle between the two young people?

But now it feels completely different.

These two young people are definitely not as good as the strong one, but the extent of their fighting skills can also be regarded as a peak duel.

The aura of the two people collided, and the chaotic air current rushed into the enchantment next to it frantically.

On the other side, Li Tian squinted his eyes and said, "I thought you would use what way to resist. It turns out that it's just such a small mess, which is really uncomfortable."

"Hehe, our battle has just begun. Do you think I will go all out at this time? Naturally, I have to keep my strength and I will convince you when it really begins." He looked before him. Li Tian was also secretly surprised in his heart. He knew very well the power of his move just now, but he just barely managed to greet Li Tian's sword aura.

Before many people said that Li Tian had reached the realm of gods, he didn't take it seriously.

Even if this young man reached the realm of gods, he couldn't be his opponent.

But now he didn't feel that way anymore. He knew that Li Tian in front of him passed the previous vision, which was already very different. Now he has changed drastically from before.

"Well, since you are not ready to fight seriously, then I will fight seriously." Li Tian smiled, then slowly closed his eyes, and the fairy power in his body began to flow slowly. Behind him, there was some substantive hostility, which began to form an illusory shadow, followed by Li Tian, which looked particularly dangerous.

"Hostile mimicry? This kid has already cultivated to this level?" Chai Lei was shocked, but he could see that the hostile power behind Li Tian had begun to condense into the shape of a human being. If this is to continue practicing If you go down, won't you cultivate a special incarnation? If it were such an external incarnation, it was quite different from the previous clone.

"Interesting, this one can be described as a real battle of the pinnacle."
