

A Killer 5801

Chapter 5801: Keep it simple

"Master, what Wei Zheng said is not unreasonable." The seal also stepped forward at this time, and said with his hands: "Of course, there is nothing to say about your strength, but there may be many terrible changes in such a battle. Individuals must not be able to withstand such a change. If the slightest accident happens to the young master under our protection, we will not be able to explain it to the lord."

"What's the worry? If I really die here, it will naturally be my own problem. Father will not embarrass you."

Both the stamp and the perjury smiled helplessly.

Although the words are like this, if Yi Zhongrong really died under the protection of their two people.

Could Tianhu City let them go?

Naturally impossible.

There is only such a boy in the Yi family, and the lord of the city has been busy with official duties in recent years. Naturally, there is no time to continue having a child, so there is only such an only child.

If even this only son was killed, it would really be a white-haired man sending a black-haired man, who can bear such anger?

"Master, it's not that the two of us don't believe it. It's just that the two of us don't have that strength. It's also for the great cause of our Tianhu City. I urge you to leave here. The next thing is left to the two of us. It is our enemies who have put on their wings, and it is absolutely impossible to escape from our hands." The seal said helplessly: "They have successfully defeated our ambush after this battle, but it is certain that they are also affected by it. After a lot of injuries, given us time, we can definitely catch up with them."

"The two of you, what's going on today? You never talk about such a thing in front of me. Why today..."

"Because we are very worried. If the opponent this time is really the rumored teenager in Tianqi City, then even the two of us may not be his opponent." The seal sighed and said, "Our God. Lake City is located on the border. It was supposed to be a place with sturdy people and strong people, but it was broken a long time ago and its spiritual power was thin. There is no one here to compete with such a genius."

"So you two are worried that I will be killed by Li Tian by your side, so you are so anxious to let me leave this place of right and wrong, do you think I will be fine if I leave here?"

"Although there are not many strong people in Tianhu City, it is still a main city, and there is a **** emperor on it. I believe that even if they are brave enough, they will not dare to attack you in Tianhu City."

Seeing these two sincere faces, Yi Zhongrong also fell silent at this time.

He was indeed worried.

If my own identity is really like this, it will be earth-shaking. I don't know how many people will be affected by such a thing, and then more problems will arise.

"Are you really so worried?"

"If this time the opponent is really Li Tian, we are worried that there is no reason. This guy can do so many things in Tianqi City that we can't believe it is not unreasonable. In this young man, you There must be a lot of things in his body that we can't imagine." Looking at Yi Zhongrong in front of him, both Zhang Zhang and Wei Zheng were a little bit excited.

They knew what they were saying, and the young master in front of them was really listening.

"It's not impossible if I leave here, but I'm worried about the two of you..."

"If the opponent is not Li Tian, the two of us are enough to deal with them. This time, they will definitely consume a lot of money. We only need to speed up to catch up with them before they recover. But if this time If Li Tian's enemy is really Li Tian, no matter how many people come, it may not have any effect." Wei Zheng said helplessly: "This young man is so powerful, we haven't really seen it yet. Wait until we see it. When this young man knew that it was not so easy to play against him."

"Well, since both of you have requested this, I will go back the same way now, but you should not try to be aggressive. If you are really not the opponent of the other party, you should hurry and leave."

"Yes." The two people said, and then randomly selected some of the men and threw down all their equipment.

They are going to chase the enemy this time, so they must make all their equipment lighter, so that they can catch up with the Guo family and the others in a very short time.

After they left, Yi Zhongrong sighed helplessly.

He is not an idiot, and naturally knows that after these people in front of him leave, if the opponent is really Li Tian, it is impossible for them to come back alive.

From the battlefield here, it can be seen that the opponent is very careful, not only did not leave the slightest clue about himself, but also killed all the enemies in front of him without hesitation, even if he could not fight back. The enemy also failed to survive. From this point, it can be seen that he was very worried about his identity being exposed.

In other words, their enemy this time is very likely to be the rumored Li Tian.

"Damn it, I didn't expect this thing to involve this kid, it's troublesome now."

"They should have arrived at the place where we were fighting before, and they are beginning to determine who suddenly took the initiative to help you get rid of the enemy's delay." Li Tian walked behind the team, looking at the old man in front, said.

"Yeah, it's about time, they must have known it after so long."

"What shall we do next? From here to Tianhu City, even at our current speed, it will still take about a day. This must be..."

"There shouldn't be any problem in terms of time. If it weren't for the bandits of Yijia and Wumashan, they wouldn't know that we were arrested so quickly, and they wouldn't be able to support us so quickly."

The reason why Yi Zhongrong and others would arrange all of this in such a short period of time was only because they had known for a long time when the Guo family members would return, so they arranged everything a long time ago.

Even if the bandits failed to succeed, then they ambush the strong here, they can successfully delay the enemy.

As long as there is a delay, it is enough for them to come over quickly at this point.

Chapter 5802: Chasing soldiers

The robbers might not have thought that the two leaders would find their target and successfully robbed their target.

The big boss had cooperated with Yi Zhongrong before, so after knowing this, the second boss was asked to do nothing at the first time. He knew what the price would be if he started with Guo Xiangyi.

At that time, it was not just the anger of the Yi family, even the Guo family must also start to be responsible for this matter and fight them.

In this way, even if Wuma Mountain is a place that is easy to defend and difficult to attack, it will definitely be razed to the ground. The anger of these big families is definitely not something that these little bandits can bear.

Who knows, because of this incident, he and the second leader completely fell out, and the next thing naturally began to become uncontrollable, and Li Tian directly took advantage of it and eliminated the cottage.

After Li Tian rescued the Guo family, he fled non-stop, but was ambushed by the Yi family on the road.

I have to say that the Yi family should have been planning for a long time this time.

"Hmph, even if this lady is dead, she will never marry a **** Yi Zhongrong."

"Haha, why?" Li Tian asked with a smile.

"Hmph, this kind of relying on his own father is powerful, and he is an arrogant and domineering guy throughout Tianhu City. What are the advantages? What can he do with his own subordinates besides relying on his own father?" At this time, Guo Xiangyi said angrily as if all the anger in his stomach was gushing out, hands on hips, cheeks puffed out.

"Maybe they will change after they are with you."

"Don't you know a proverb? A dog can't change eating shit. How could this guy change his previous habits? And every day I think I might want to live with such a person in the future, I feel very Disgusting, I really want to vomit it out. In this case, do you still think I can tolerate it?" Guo

Xiangyi said angrily, then glanced at the old man in front of him: "Can we still be faster? Me? I don't want to be caught back by them."

"This speed is already very fast. Everyone's injuries are already very serious. It is impossible to go faster, unless all the people here are abandoned." The old man took a look, and the team was already fast enough. It can be regarded as their fastest speed now. If this can't escape the danger, then it is really destined.

"such....."

"Don't worry, Miss, if they really catch up, the old man will fight them to the end even if they fight for my life. I will definitely not allow the conspiracy of the Yi family to succeed until we return to heaven. After the Lake City, I will tell the master about this matter, look at their Yijia, and how to explain this matter at that time." The old man said vowedly.

He almost watched Guo Xiangyi grow up. This little girl looked like his own granddaughter to him, and she was always obedient to her.

"They're here." At this time, Li Tian's expression suddenly solidified, and then with his eyes, the aura of his whole body suddenly bloomed, standing in place: "You continue walking, and the next thing is handed over to me."

"How could it be handed over to you? This was originally the Guo family's business. If so, it will be handed over to you..."

"Old man, I think you should know which one is more important. You have told me the whole story before. The reason why Yijia asked you to send this shipment was nothing more than to catch Miss Guo. You really Do you want them to get what they want?" Li Tian smiled, looking at the old man behind him and asked: "Although the previous battle has consumed a lot of me, it will not leave me without fighting power."

"But you have nothing to do with this matter after all."

"Yeah, this matter could have nothing to do with me, but I am a guy with a beginning and an end. Since I have been helping before, it is definitely impossible to stand by and watch. The strength of these two people is not easy. , You are not their opponents, just leave it to me." Li Tian smiled wryly, looked at Guo Xiangyi with tears in his eyes, and said, "Don't worry, there are many people who want me to die. No one has ever truly succeeded."

"Do you really want to be like this? Are we going to flee like this all the way?" Guo Xiangyi asked, looking at the old man.

"The enemy has basically figured out our trajectory, so it can be regarded as using the fastest speed to streamline everything on our body. If this happens, their speed is very fast, and we drag our family so much. People, it's really a waste of time." The old man said here, and suddenly he patted the back of Guo Xiangyi's neck with a palm.

Guo Xiangyi was still asking, who knew the old man suddenly shot.

At this time, his eyes rolled white, and he fainted directly into the old embrace.

Cang Lao looked at Li Tian and said, "Boy, we will remember the incident this time. Our Guo family will never owe anyone else. After this incident, we will definitely repay you."

"If I really hope that you will give me a good return, then what I have done is not so small." After listening to Li Tian, he was not angry, just smiled faintly, and then squinted his eyes. Looking at the old man: "Don't continue to waste the time I delayed. You can hurry and leave here. The sooner the better."

"Goodbye bye."

"Goodbye bye."

The whole team dispersed at this moment. The old man led Guo Xiangyi and left towards Tianhu City. The road was the main road, and the remaining few people all left this way.

There must be countless ambushes on their way to Tianhu City. People who can eventually return to Tianhu City don't know how many are left.

Li Tian stood between the forest with a single hand, with a smile on his mouth, quietly waiting for the two chasing soldiers behind him. They were fast, like the wind, no wonder they could be in such a short time. Just caught up.

It is a pity that the enemy faced this time is not so simple, and naturally it is not an opponent they can defeat so easily.

When the seal and Wei Zheng stopped, they had already seen the young man standing in front of them, and the latter two were all observing carefully, seeming to be looking for the similarities between this young man and Li Tian.

"The two are finally here, I have been waiting for a long time."

Chapter 5803: Exclusive duo

"Just you?" Wei Zheng raised his thick eyebrows, a look of disdain flashed in his eyes.

The two of them are also strong in Tianhu City anyway.

The young man in front of him looks as though he is only a teenager, and he doesn't feel the slightest fluctuation in his power. Could such young man be their opponent?

"Be careful, they may be cheating." The seal has been carefully observing everything around him. He knows that the strength of the young man in front of him should be just an ordinary person, so it is very likely to be a decoy. The real possibility of murder in all the places around, he was naturally cautious at this time, and did not dare to relax.

"Why are you so nervous? They have already left here. Only when they return to Tianhu City earlier can they complete the next task. My goal of staying here is also very simple. Just delay the two of them."

"You can defeat the two of us just with you, a kid without immortality?" Wei Zheng dignifiedly looked at the young man in front of him. The seal and him have been checked and confirmed, and there is indeed nothing around you. The breath of a creature, that is to say, in this piece of woods, there are only three of them alive. In this way, could this young man really be their opponent?

"Who knows, the God Realm is so great, who knows if I am your opponent?" Li Tian smiled and slowly put on a posture: "If you two don't believe it, you can come up and try. Let's see, do I have the strength to worry you two?"

"Be careful, this kid is completely different from the guys we met before. I'm worried that there is something wrong with this kid." Wei Zheng said.

The seal also nodded: "It is true, but it is also possible. This is just a cover, let us be more careful, but in fact, the person in front of me is just an ordinary person."

He still prefers the latter, and it is because Li Tianzhen in front of him can't feel the slightest celestial power. This young man is really like an ordinary person in front of him.

But whoever is an immortal, who would really take such ordinary people to heart?

In their hearts, dealing with such an ordinary person is simply an easy thing that cannot be easier.

"You can also think like this. After all, I have been procrastinating for a long time. It may be such a small amount of time that prevents you from catching up with your goals. If you are really anxious, hurry up and kill me. Right." Li Tian said with a smile.

He could naturally feel the tension of the two people in front of him.

Because I saw the appearance of Yu Ziqi and the others when they died, the stamp in front of them and Wei Zheng were a little cautious, for fear of capsizing in the gutter.

"Hmph, you kid, don't think that this can disrupt our thoughts. Even if we delay for a while on your side, they can't escape our control. You probably don't know yet. Go back here. There are so many dangers on the way, they can't escape with their wings."

"This has nothing to do with me. My task is just to delay the two of you here." Seeing that these two people have been reluctant to do it, Li Tian took the initiative.

Seeing him doing it, both of them were stunned, as if they were stupid.

They thought of many possibilities, but they didn't think of such a possibility, this kid actually wanted to take the initiative to fight them.

Looking at Li Tian who came from here, the stamp snorted: "I think this kid is just an ordinary person who is just a fake fox. He just wants to waste our time here. It's really simple. If this little time is really good. If we let them leave, then when we were on our way, wouldn't it be impossible to chase them up?"

When he was speaking, he walked forward seriously, then opened his right hand, like an eagle claw, and grabbed his fist swinging towards Li Tian.

He thinks that he can definitely control Li Tian. Next, he only needs to kill the kid who doesn't know the heights of the sky, and they can move on. From this point of view, this time their enemy is likely to be fundamental. Not Li Tian, the next battle naturally has a high chance of winning.

But the moment his palm touched Li Tian's fist, both of them exclaimed.

The first thing that reacted was Wei Zheng. Li Tian did not explode the slightest aura before, just like an ordinary person, but at the moment when his fist was about to fall, the cold aura instantly emerged from his body. It broke out inside.

It was like a huge wave that appeared after a few seconds of calming a nuclear bomb dropped on the water.

Such an impact is hard to believe.

The Wei Zheng in front of him also didn't dare to imagine. This front and back is nothing like two people. Can this cold aura really be released by a young man?

And the hostility in this aura is also affecting the thinking of the two of them.

"Stamp, be careful, this kid is a hard stubble." He reminded loudly.

But it was too late at this time. The right hand of the stamp was directly broken off, and the bones were pierced from the clothes. The whole arm looked like a strange arc, which made people feel like they were all covered up and down. There was a cold war.

He took a few steps back and stamped his left foot on the ground, barely stabilizing his body.

Although the body has stabilized, there is still no way to calm down the shock in the heart at this time. The pain in the arm is irrelevant at this time, but the strength of the young man in front of them is about to surprise them.

"This... how is this possible? How can you hide your strength so perfectly, until the last moment, I couldn't judge what kind of strength you really are." He stared at the person in front of him. Li Tian asked.

"Even if I told you this kind of thing, do you think you can do it, or do you think you can understand it?" Li Tian sneered, looking at the injured stamp in front of him, and said: "Your master should have told you before I've said it many times, don't underestimate your opponent, but looking at your current appearance, it seems that you haven't paid attention to my opponent at all. Is it like this?"

"Indeed, I underestimated you." The seal nodded and said sincerely.

Chapter 5805: Blood-stained gown

‘Shoo, hoo’

The sword aura was vertical and horizontal, like a psychic, the golden dragon in the sky collided with these emerald green little swords, looking extremely fierce.

Li Tian narrowed his eyes and raised the corners of his mouth slightly, and said softly: "The situation now seems to be complicated. You want to easily get benefits from me, I am afraid it is not that simple."

The seal was silent, and Wei Zheng, who was beside him, was also silent. This guy knew best what was going on now.

Although these golden dragons seem to have delayed the combat effectiveness of the boy in front of him, this process obviously cannot last long. After all, Li Tian is still a legendary boy in Tianqi City. If you give this boy a little time, I don't know if he will achieve success in the future. how is it.

"Although you have the upper hand now, it doesn't mean that we really have nothing to do with you. If we really start to deal with you kid, wouldn't it be easy?"

‘Hmph, these two guys, seem to be really lucky, ready to kill you. The voice of the remnant soul of the ancient **** also rang at this time, and it seemed to be very interesting. At this time, the situation in the battle was obviously that Li Tian had the

upper hand. Although the two of them forcedly suppressed Li Tian in front of them, they did not succeed. Li Tian was helpless to fight back.

If this situation continues, it won't be long before he can fully demonstrate his original combat effectiveness.

The sound of the explosion and the emerald green sword hovering like a beautiful piece of music. As the two energies continue to entangle, this situation becomes more serious.

These voices slowly condensed, and soon began to affect their ears.

At this time, Li Tian's body had already added the previously strengthened imperial wind technique. After learning the ancient spell master's spells, it can be said that his current ability is more prominent than before, especially in the manufacture and application of spells. All have reached a new level. Before, I had to worry about where I got these things. Now I don't need to care about them at all.

If he wants, he can do it easily.

It's just that if you don't have talisman paper as the material, you can't inject your previous immortal power into it, and naturally it's impossible to reach the point of consumptionless in battle.

However, his soul power is strong enough now, and he does not worry about how much he will consume in this battle. Even if the consumption after a battle is really terrifying, it is still easy for Li Tian to deal with. , As long as he doesn't face several enemies who are stronger than himself at the same time, his durability is still quite terrifying.

The stamp clenched his teeth, and his body kept trembling.

"The strength of this kid really has the same effect as the rumored Li Tian. Such powerful immortal powers and charms, among the young people in the gods, only the young man Li Tian can have. Level up. With a solemn expression on the stamp's face, he also said something quite seriously. Under the current situation, they can probably make a judgment.

The strength of this young man is really the same as that of the rumored young man.

"How's it going?" Wei Zheng also felt the mood of his companion at this time, and asked in a low voice.

"There is a lot of pressure. Although I have already sent my fairy sword, when facing this young man, the pressure is like a real existence. It is directly on me, and nothing can be changed anyway.

"The seal said helplessly, now they really feel helpless in this situation.

"Ho Ho Ho Ho"

At this time, a golden dragon was suddenly pierced by the emerald green sword in front of them. I didn't know how this small sword was condensed. It directly pierced the golden dragon formed by this kind of energy. It was nailed directly to the ground like this, as if nailing a corpse.

Li Tian snorted and said, "It's just like this. If it's just these two magic weapons, if you want to suppress me, it's not that simple. Give me a little time to reverse this situation."

"The two of us naturally know that you are great, but unfortunately we will not give you this opportunity. If young people like you don't spend a little time suppressing them, they still don't

know what will happen." Wei Zheng Stepping forward, he slowly threw the ball in his hand, and then floated in the air like this, injecting his own fairy power into it madly.

‘Shoo, hoo’

What followed was a intensive attack like a gust of wind and rain, rushing towards the inside like bullets, and the speed was breathtaking.

Li Tian has the imperial wind technique on his body, and this is an enhanced version of imperial wind technique. It can be said to be very terrifying in strength. He just sneered, dodged the past easily, and slowly brushed himself. His long hair seems to be like a superior master, and his tone is full of disdain: "It's too slow, this speed is really too slow."

"What a fast speed." Wei Zheng said subconsciously, squinting at this time and didn't know what was going on. The speed of this young man was really terrifying.

"I applied the imperial wind technique, just like a bolt of lightning. I really thought that with the two of you, I could stop me?" When Li Tian spoke, his body suddenly disappeared.

Both Wei Zheng and Zhang Zhang looked cautious.

They all knew that the young man in front of him was really difficult to deal with, so they didn't dare to relax a little while fighting.

But who knows that even if they were so careful, they were still easily caught by Li Tian.

His figure flashed in front of them in an instant, then raised his right hand and cut it down with a sword.

The blood splashed, like a fountain.

The seal snorted and spit out a mouthful of blood. The golden sword floating in front of it also fell slowly to the ground at this time, as if it had been robbed of brilliance, instantly losing all its color.

And the golden dragon that was still raging around, disappeared in an instant, turned into a golden smoke, and disappeared.

The blood stained the stamped gown red, and a lot of sweat permeated his forehead. He squinted his eyes and looked at Li Tian in front of him, and said, "It's really you, the boy in the rumored Tianqi City?"

Chapter 5806: Wind and rain

The sword body is like light, and blood is flowing.

The corner of Li Tian's mouth rose slightly, his eyes were clear, like a white jade son, and he flicked the sword body, and the blood fell drop by drop, and the sword body was also clean like a spring without any stains.

Wei Zheng held the stamp with one hand and asked, "How?"

"It's too fast, it's really the legendary void leap. Only that kid is left in the God Realm to have such strength, so we have no power to fight back." The seal coughed, and an arm was stiffened. Cut down, even if you want to recover with immortal power, it's not that simple now.

"It seems that there is really nothing wrong. The sword in this kid's hand is also the saber of Li Tian in the rumor, plus this emptiness. If this kid is not the one we know, then I am sure It was the first to stand up and not believe it."

"How about knowing? Now that the strength of the two of you is nothing in front of me, if you really start, it will be easy to deal with the two of you. How much do you think you have?" Li Tian snorted, the corners of his mouth raised slightly, and slowly raised his head to look at the two people in front of him, and said: "You may be regarded as strong in the eyes of others, but in front of me it is nothing more than that."

'Indeed, this kid's ability is really too strong. The arm of the stamp has been cut off, which is equivalent to killing all 80% of his strength. If this happens, I will be the only one left. Dealing with this kid, if you really want to defeat them, it won't be that simple. Wei Zheng smiled helplessly. At this time, he also knew that he really wanted to face this kid alone: "Even in this way, we can't retreat."

"I also know that, the two of you are on your own mission. If you say anything to retreat at this time, it will inevitably cause a lot of trouble. You can only choose to fight with me, even if you want to. I won't give you this opportunity to leave." Li Tian snorted, and suddenly threw a spell in his hand, which instantly enveloped the entire forest.

Hundreds of meters around, instantly turned into a barren.

The big tree that was still green before, at this moment was as if all its vitality had been swallowed, and what was left was just some rotten residue.

The corner of Li Tian's mouth rose slightly and said, "Unless you two can defeat me today, it is not that simple to want to leave here."

"Can this barrier stop the two of us?" Wei Zheng took a direct look. The hundreds of meters in this area were all turned into a barren land. It can be said that it has made their realization very broad. It is also like a place here. Like the life and death ring, here you can directly see their opponents, and you can also directly see what their goals are, and the battle naturally becomes interesting.

But what makes them doubt that such an enchantment that has just been thrown out can really stop the two of them from leaving here?

After knowing the identity of the young man in front of them, they no longer have much hope. The secrets in this kid are more than a hundred thousand whys. If they really get started, they can be said to be endless methods. Beware of the means by which the young man in front of you can't be guarded for a lifetime, but if you can leave here today, then everything will be greatly changed.

What is Li Tian most worried about now?

Naturally, his identity is exposed. As long as his identity is exposed, there will be countless troubles, and no one knows what it will become.

Before in Tianqi City, I let myself go into suspended animation, so that Jin Chan escaped the shell and many people temporarily put aside the tracking of this young man. At this time, if this news comes from others, the problem is not that simple.

"If you don't believe me, you can try it and see if you can leave here, but don't blame me for not reminding you two. Of course you can try now, but when you try, I won't wait for you to leave here."

I will shoot you directly. At that time, whether you can escape from my hands or not, it is not my business, it only depends on the abilities of the two of you."

Looking at Li Tian who was smiling in front of him, both of them were stunned for a moment. They didn't seem to expect this young man to be so difficult to get involved.

Wei Zheng slowly squatted on the ground, carefully touched the dirt on the ground, and asked in a low voice, "How is it, the situation seems to be difficult now, do you have any way to change it?"

"If I had a little change, I would naturally be able to leave here easily, but if Li Tian stayed here, he might have prepared a panacea. At this time, we want to leave here, but it's not as easy as we thought. The enchantment seems to be simple, but if you really want to break through this enchantment, the price you need to pay is too much." There is sweat on the stamp head, what kind of pain he is suffering at this time, Few people can realize that as a fairy, he broke his arm.

"Yes, the price to be paid is too much, but as long as one of us can leave here alive, even if we just tell the young master the news here, everything we have will be victorious, but unfortunately neither I know if we can do this." He stood up with a helpless expression on his face. How can this situation be changed now?

Seeing Li Tian in front of him helplessly, with such a fighting power, they could only choose to use all their strength to deal with it.

When it was too late, it was fast, and Wei Zheng suddenly rushed over.

The round beads were floating behind him, releasing countless beams of light, which were like lasers, attacking Li Tian from all directions.

But Li Tian sneered. After holding one hand, he stood up and looked up at the guy in front of him: "Come on, let me see what kind of strength you two can show even when you are dying. , If you die here today, in fact, it can only be regarded as bad luck for the two of you, rather than a problem of your two strengths."

When he spoke, his left hand slowly raised, and an enchantment that looked like a matrix condensed in front of him, easily blocking the sword in Wei Zheng's hand.

‘Damn it, how do we deal with this kid’s strength. Wei Zheng's body shook, and he almost burst into swearing.

Chapter 5807: I said, can't lose

"The strength is too small, do you really think that this strength can defeat me?" Li Tian stared at Wei Zheng, who was frustrated in front of him. This guy wanted to delay himself by his own strength, and then let the stamp take advantage of this stage. Sexual time, seize the opportunity to leave here, just need to reveal Li Tian's identity, and soon this kid will be chased by many people.

When he was in Tianqi City, Li Tian had countless enemies around him, and now he came to this place alone, and he felt a little impatient to live.

Who doesn't know, Li Tian has too many enemies in the God Realm. Although he has many friends, it feels that there are really few people who can really help him.

"Don't be proud, as long as we can spread the news, do you think you can hide your identity in Tianhu City safe and sound?"

"I didn't plan to stay in Tianhu City for long. You may not know, but I know very well that Tianhu City must not be where I want to stay. Soon I will choose to leave there, where I am going. I'm afraid that your generation would never think of it." Li Tian looked at Wei Zheng in front of him, and then the matrix in his hand slowly dissipated, and Hong Zhan picked it up with a fierce sword.

Wei Zheng felt the strong wind, and the fairy sword in his hand also fell.

The two swords collided together, sparks splattered everywhere, and what followed was like a scorching wave, constantly invading, and the surrounding ground began to become scorched.

In the impact of this kind of energy, even if it is an enchantment, there should be a little trouble.

But they never encountered such a situation.

The barrier is still intact, as if nothing happened at all.

"The hardness of this enchantment has surpassed our imagination. This kid seems to have thought of fighting with me before, and also thought of revealing his identity when fighting with us, so he was not prepared to let us Leaving alive." The stamp stood up swayingly, the wound on his broken arm had healed a lot at this time, and the bleeding did not continue.

But even in this way, his current situation still looks uncomfortable.

"I didn't expect this to be the case, really..." Wei Zheng looked helpless, then smiled at Li Tian: "To be honest, I admire your courage as a young man, staying alone to stop us. Two people, you really are so confident, thinking that the two of us will not be your opponents?"

"I still know a little about the situation in Tianhu City. I didn't know it very well before, but after mixing with the guys in the Guo family, I knew something." The corner of Li Tian's mouth rose slightly, and he said with a smile: "Me too. I know that there are many strong players in your team. If there are many people coming this time, there may be some tricks, but there are only two of you."

"It seems that you have miscalculated. You probably don't know it. This time, it's not just the two of us who came here. There are also many people in ambush around here. It's just that their auras are all trained, like There are dead people, if you don't see them with your own eyes, there is no way to discover their existence, and they now know your identity, do you think..."

"Are you talking about these rubbish?"

At this moment, Canglong appeared in front of them, and then threw corpses one after another in front of them.

These corpses were all incomparably scorched, and they were obviously punished by the dragon's breath.

"This... how is this possible?"

"You probably also know that my fellow is most worried about a little mistake. I have met so many people so far. What I am most worried about is that the mistake is very serious. So you want to use these people to ambush me. It's simple, it's easy for me to deal with them." Li Tian snorted and looked at the corpses on the ground: "As long as you were not near here, Canglong had been released by me. ."

"Forget it, the two of us can only use that trick today. This kid is really too strong. If you continue like this, there is no chance of winning. Since it is impossible to escape death anyway, it is better to

use that trick and this. Let's fight the kid, even if we lose this battle, we still have to find a way to tell the young master, as long as the young master knows, we can win."

As the two spoke, their bodies slowly flickered.

Li Tian squinted his eyes. Although many people in the God Realm have traces of their exercises, there are also many people's exercises that they can't even imagine. These people's exercises are also a lot of people. The unpopular exercises mentioned in.

These exercises are usually practiced by no one.

Because there is no great reputation, it means that in this world, few people who practice this exercise should become very powerful and famous.

This kind of cultivation technique with no future is naturally very few people practice.

But it doesn't include. Some people are not ready to be famous at all. They learn these exercises only because of some of them.

For example, the stamp and Wei Zheng in front of him.

To say that these two people seem to have different personalities, they are more like two people with a skill and a martial art, but who knows that their practice is exactly the same?

It's just that the name of their exercises looks a bit evil, what is called "Twin Gong"

The terrible thing about this exercise is that they can allow two people who practice this exercise, whether it is a **** or a soul, to form a real fusion, and this fusion can last for about a whole day.

With their current strength, the combined combat power of the two can be said to be truly close to the strength of the immortal realm.

But now that the stamp has broken an arm, it seems that the body's energy has been lost a lot. It would be a little embarrassing to merge together, but the power of the two people is still quite terrifying.

As the photoelectric slowly disappeared, it began to slowly regroup in the air.

A giant about four meters high, slowly appeared in front of them, like a giant, with white hair, wearing a silver armor, looking down at Li Tian below: "Stupid kid, You didn't even interrupt the exercises of the two of us. Now is the time for you to pay the price. This is the time when the two of us are at their peak combat effectiveness."

Chapter 5808: Shen Shi

Li Tian's clothes were madly blown at this time, and even his body began to sway at this time. He knew very well that the power of the giant in front of him was really powerful.

This is not a simple feeling of $1+1=2$.

He squinted, smiled, and said, "It's just a change from a small man to a big man. What do you really think you can change now?"

"Hmph, even if you don't want to believe it, I will let you know how good I am." When the giant spoke, his hands fell directly, and there was a violent wave of air that followed. .

Li Tian's whole body was shot and flew out, and then smashed heavily on the barrier.

He spit out a mouthful of blood, raised his head and looked at the giant in front of him: "That's it?"

"Don't be stubborn, admit that your own strength is not enough, we still have one day, if we can really defeat you, we can easily catch up with the guys in front, and we only need to notify. Young masters, all your plans will be ruined. This should be your most worried thing, right?" said the giant overlooking Li Tian below.

At this time, the giant's eyes are two colors, one is golden, the other is gray.

Wisdom is shining in the golden eyes, while the gray eyes are all nihilistic killing intent. This should be the two pupils that symbolize thinking and life and death.

Li Tian twisted his body, stood up slowly, patted his shoulder lightly, and frowned: "It gave me a little pressure, but if I wanted to lower my head to admit defeat, Not too possible."

"Just keep your mouth hard, let me see how long you can hold on." The giant said, a huge sword was summoned by him, holding the hilt in both hands, just like a blacksmith, the huge sword in his hand is high. The ground was lifted up, and then it was smashed down fiercely, very quickly.

Looking at the falling giant sword in front of him, Li Tian was about to kneel to the ground.

It's just that his body is as terrible as ever, even in this situation, he still stands on the spot like a seven-foot man, raising his head to look at the giant sword slowly falling from his head.

'boom'

The huge sword smashed down.

Although he blocked it with Red Slash, he spit out a mouthful of blood, and his legs sank deeply into the ground.

"Haha, how? You can't hold on anymore now, right? Such power is also quite difficult for young people like you to deal with? When it comes to the realm of gods, even if it is only a small gap, you can The situation between the two sides has changed drastically. If I were you, I would now choose to assume that nothing has happened. Just give in and we can leave you a corpse." The giant took the upper hand and started to become proud Up.

'The strength is indeed very strong. If it were me before, it may have turned into flying smoke under this strength, but now I am completely different from before, so I can persist in this situation. Li Tian squinted his eyes and thought secretly in his heart: "Senior, after the two of them have merged in this way, why has the power become so powerful?"

"The reason why small exercises are small exercises is that they involve very few things and have little effect, but there are some great exercises that are simply incomparable. That is this unique way of fighting, and it can even be said to be Extraordinarily BT's fighting style." The remnant soul of the ancient **** rang in Li Tian's mind and said: "I know you feel a little tricky now, but you should only be able to use that trick in the current situation. ."

"do you need?"

"Hehe, didn't you say before that you already know the magical effect of soul power? If you don't use your soul power in the battle at this time, you still don't know what will happen." Ancient God Remnant Soul said.

"But I still want to continue this way." Behind Li Tian appeared countless emerald green small swords, these fairy swords condensed, and then all burst out from behind him, directly attacking the giant above his head. .

A handful of emerald green fairy swords are all condensed with very terrifying power. These powers are like sinking iron, and their weight is extremely terrifying.

With a loud explosion, the giant backed away again and again.

It seemed that Li Tian had the upper hand in such a moment, but Li Tian himself had no such thoughts at all. He knew very well that his attacks just now seemed to have no effect at all.

"Is this the famous Li Tian in Tianqi City? Before, many people regarded you as a difficult opponent, but now it is only at this level." The giant seems to be very excited, and Li Tian's move is considered a small one. A small eruption, the energy is terrifying, and the strength is naturally different from the past.

But in their opinion, such an attack on their own body is like tickling, without the slightest meaning.

"Hehe, if it's only at this level, then forget it." The giant looked at Li Tian and patted his body: "The hardness of my body right now can be called a beast, and even some ancient primitives. The body of the beast is not necessarily much harder than mine. How do you think it can deal with me?"

"Indeed, the trick just now failed to cause you a little bit of harm. It made me a little bit of an accident." Li Tian smiled, tightly holding Hong Zhan in his hand, and squinted at the giant in front of him: 'Damn, this guy is like a big tortoise now. Not only is his combat power terrifying, but his defense is also quite terrifying. With my strength, the country really can't resist. ',

"Give up, you let us catch you now, kill you, you can still leave a whole body, if you continue to struggle like this, you may become a pool of flesh in our hands in the next second."

"Come and try it." Li Tian yelled, then slammed a foot on the ground, his body was quickly pulled out of the mud, and the red cut in his hand turned into Charge up, grab the hilt tightly with both hands, and begin to frantically absorb the surrounding energy. This is the most terrifying trick he can think of. If there is no other way, then it really can only be done with that trick. Too stable trick.

At least for now, he feels that this is still an unstable trick, and it is likely to ruin himself.

Chapter 5809: Faxiangtiandi

"Haha, I know your trick. It absorbs the celestial power in my body and the surrounding natural energy, and then transforms it into a terrifying energy cannon to attack. Usually, few people can stop this trick." Naturally, I also know Li Tian's trick. This kid's method is already well-known in the God Realm. Who doesn't know how this kid's fighting style is?

"However, it would be too naive if you are going to defeat me with a single trick. The gap between the two of us is too big now. This gap cannot be made up for by a small character like you."

"You don't need to worry about this kind of thing." When Li Tian spoke, his body slowly split, and one clone after another appeared.

In the next few minutes, the giant did not move.

It's really just standing in place triumphantly, looking at Li Tian below like an ant. In front of him, the energy of these charged cannons is terrifying, but it has no effect at all.

Li Tian roared, and then several clones aimed at the giant, and the charging cannon launched an attack.

The explosion sounded endlessly, and countless pits appeared on the ground. The mushroom cloud that appeared at this moment almost made their eyes invisible, and the surrounding barriers began to appear cracks.

But when the smoke disappeared, it was discovered that only the armor was destroyed on the giant's body. There was still no damage on the body, just like a hard rock, trying to damage such a body. ,too difficult.

The giant opened his mouth: "Your offense is over, the next step is to show you my offense."

The moment he spoke, a black energy ball appeared in his mouth. Inside the energy ball were countless dark matter, which Li Tian was a little familiar with.

"I told you before that these small exercises are very difficult to entangle. This black energy ball should contain dark matter in the free space. After this dark matter is extracted separately, it has a strong release. Sex, once it is released, it is definitely an explosion that destroys the heavens and the earth." The voice of the remnant soul of the ancient ***** reminded it, obviously asking the current Li Tian to hurry up and react a little.

If you still look stupidly like this, you might be bombed directly next.

However, Li Tian still didn't react at all, just sneered.

In the next second, the energy ball had already fallen.

A black semicircular cover appeared above their heads, like a dome covering their heads, but the dome was completely lacquered black, and there was still some black smoke flowing continuously in it. These are all energized dark matter.

As rows of pure black dark matter penetrated out of the dome, cracks appeared one after another, and these black dark matter slowly penetrated out, creating a huge explosion.

The wind swept through the clouds, and the ground was eaten about one meter abruptly.

The giant's body sank a little, snorted, and he was about to turn and leave: "It's really a kid who doesn't know the heights of the earth. Although the genius boy in Tianqi City is indeed very powerful, if the two of us stop our lives, we cannot deal with such a small As far as the character is concerned, that's really a big surprise."

When he spoke, he had already determined that Li Tian was dead.

Because in this explosive group, there is no vitality at all.

But at this moment, a voice appeared: "Do you really think that you can kill me like this?"

"What? It's impossible, it's impossible, it's absolutely impossible for anyone to survive under black jade like me, it's absolutely impossible for anyone to survive this kind of energy." He stared at him

with wide eyes. The smoke cloud, the energy produced by such an explosion can definitely swallow everything, even if it is a real strong, it is probably impossible to stay in it for long, right?

At this moment, a red light flashed by.

It was a sword aura, a sword aura with anger, directly breaking through the cloud of smoke, revealing a very embarrassed figure inside.

Li Tian stood on the spot, but the clothes on her body were already in tatters, and she didn't know how many large and small wounds on her body. It seemed to be very serious. Even her eyes were bleeding at this time.

"Young man, looking at you like this, you are probably already seriously injured. In this situation, it is always a problem for you to survive. Why not linger, but continue to stand up and stop the two of us? You have entered this kind of situation. In the state of fusion, our strength has risen, and now you are no longer my opponent." The giant still looked at Li Tian with disdain.

"Yeah, maybe it really is like this. Now I am seriously injured, and maybe I really don't have any fighting capacity, but as you said, you don't want to escape during the battle. Is it possible for me?" Li Tian smiled and slowly wiped the blood off his body: "I didn't plan to use this trick, but it looks like it looks like there is no way at all."

When he was speaking, a huge black shadow was suddenly released from his body.

This shadow is very huge, even bigger than the giant in front of him, his eyes are red, everything else is jet black, holding two long swords in both hands, gleaming with eerie evil spirits, these evil spirits are entangled in the two Above the long sword, let this dark shadow look exceptionally mighty.

"Faxiangtiandi?" The giant obviously knew what was going on, and said in a little surprise: "You young man is really amazing and unique in talent. You learned the Faxiangtiandi so quickly?"

"Hehe, you know this is the world of law, but you may not know that I am completely different from others. There is another kind of power in me, besides I have another way of attack." Li Tian's The eyes widened suddenly at this moment. In the next second, the pupils have become very small, just the size of a millet. What follows is a burst of breathless breath. Field.

The giant's body trembled and wanted to move, but found that he couldn't move at all, so he could only look at the black figure in front of him stupidly: "This...what is this? Is it an aura?"

Chapter 5810: magnificent

At this moment, although a huge black shadow appeared behind Li Tian, these auras did not emanate from this black shadow at all.

It was completely the aura released from this guy's body, and had no connection with the world behind him.

The battle at this time is obviously more difficult than before.

The giant widened his eyes and looked at the little man in front of him, but there was no way. The strength of this guy has changed a lot from before. Although it is only a world of law, the situation on the scene is not as good as before. Up.

At this time, the giant waved his huge palm, and then smashed it down fiercely. Seeing this, it seemed that he wanted to completely wipe out Li Tian in front of him.

"The time has come. Do you still think that you can deal with me with this method? It's just a joke." Li Tian sneered, and the shadow behind him waved his fist.

The two huge shadows collided at this moment, and the flames were all built up.

The giant originally thought that even if his power was to deal with Li Tian in front of him, there would probably be no problem. Who knew that after the guy's aura was released, his body began to become difficult to move in an instant, and it was slow at this time. Leaning forward, his footsteps are getting heavier and heavier, his body movements are not very sensitive, after all, it is such a behemoth.

Not to mention it now. In this situation, I feel that my whole person's hands and feet are all tied up. This feeling is extremely uncomfortable.

'Damn it, this world of physiognomy is much more difficult than we imagined. If this continues, failure will only be a matter of time. This young man is not as easy to deal with as we thought. The giant was also very helpless at this time, thinking that the previous battle had forced Li Tian to death in front of him. Who knew that this guy had a means at a critical time.

I have long heard that among these young geniuses, Li Tian is the most powerful, and Li Tian is also the one with the most tricks.

Today can be regarded as an insight.

This kid really has endless methods.

The black shadow's fist directly avoided the slow giant's attack, and then slammed his fist on his chest, instantly splashing a black flame, and the giant's body also issued a 'chichichi' at this time. The sound is like the sound of a red soldering iron being thrown into the water.

In an instant, his body retreated wildly, and even the ground began to vibrate.

Then with a 'touch', it sat on the ground.

"How about it, can you feel it already? My body is out of control at this time. It is very difficult to move my body at this time." Li Tian eagerly looked at the two in front of him. Personally, twisting his neck, smiling and asking: "If I were you, I should have retreated now, knowing that it is not my opponent who is still wasting time with me here."

"It's impossible for us to leave now. Although the barrier has been destroyed, it is still a problem to want to leave here." Looking at Li Tian in front of him, the giant snorted coldly, and then roared to the sky. When he got up, his voice was getting higher and higher like a crazy beast, and a crimson blood column was released behind him, straight into the sky.

"This aura!" At this time, Cang Lao and Guo Xiangyi were already far away from them, but at this time they felt the violent energy fluctuations. At this time, their eyes widened, in this aura. With the

explosion of magnificent energy, even an old man like him couldn't help but his eyes widened at this time: "This is not good."

"Old man, what should I do?"

"We are all here now. Even if we go back, it will definitely be too late. Li Tian has always been reassuring in strength. You can feel the aura that came out before. Only the strong can have it. This kind of aura, I think Li Tian is probably one of them." The old man said helplessly. Although he wanted to stand up and help, it was really difficult to do anything at this time.

Not to mention the distance between them and Li Tian is already very far, even if the distance is very close at this time, it is impossible to change anything when they go back.

The combat effectiveness of these two men is already quite crazy. The magnificent aura alone makes the old man clearly understand that it is impossible to help Li Tian on his own, and he should not want to be here. What useful contributions can be made in a battle? The battle between these two people is simply not something someone of his level can deal with.

"This kind of aura is probably only occasionally felt in his father. Although there is still a big gap with his father, they are still young people, but they have such a terrible aura." Guo Xiangyi also endured at this time. I couldn't help but said with emotion: "For such a young man, the future is really unlimited. Why should he go to the borderless land to die?"

"I have long heard that Li Tian is a loose fairy, and there is no support from the big sects behind him. If he grows up to the present level with his own strength, could he be a simple character?" The old man was also at this time. There was also a helpless expression: "If such a young man comes here, who knows where he will go. If he really wants to find something in the land of no owner, it is understandable. He can The dog has such a strength to grow, I feel it is because he is constantly looking for such opportunities."

"Gamble your life on this?"

"Cultivation itself is a gamble. The process of a practice is filled with countless gambling. When and what choice should you make, how can you know that your choice is correct?" The old man laughed helplessly: "Well, our task now is to hurry back to Tianhu City and let your father know about this. This is not a waste of Li Tian's efforts."

"I believe he can survive, even if the Yi family are very strong, they can't beat him."

"The world is unpredictable. We still don't have too much hope. We just hope that this time we can return to Tianhu City before the Yi family. Otherwise, even if we are two of us, I am afraid we want to return to Tianhu City. It's not that simple inside either." The old man said helplessly, and at the same time he prayed secretly in his heart.
