

## A Killer 5901

Chapter 5901: Tricky

"Is it all right?" Li Tian hurriedly stopped, looking up at the tail dripping with blood in the air, and asked a little bit sadly.

"Damn, the power of these hurricanes is really terrifying. I can't resist it." Canglong said bitterly. The dragon scales on his body couldn't stop this hurricane. They looked like tiny ants. It is easy to destroy, but in fact it is not that simple. They can penetrate anywhere in your body and disintegrate your defenses bit by bit from the inside.

These hurricanes almost blew off its tail.

The reason why I turned into a white wolf just now was probably just because it was faster.

That is the minute and second that Li Tian paused, the soil on the ground suddenly became soft, like silt after being washed by the flood, two things like giant tree vines turned out from below. He quickly entangled his feet.

A huge pressure hit instantly, his body was pulled to a halt, and the area around him turning into silt became larger and larger, he could feel his body sinking a little bit.

'Damn it, I'm taking care of it. This white tiger is unexpected, it's quite difficult, but there are still thirty seconds left. Is it time for this guy to leave the space? 'He is counting the time silently in his heart, but at this time he is thinking about how he can get out of this \*\*\*\* mud pit.

The strength of the vines condensed by this kind of silt is not only huge, but also difficult to destroy. He struggled, and even chopped with the red chop in his hand, but there was no way.

Because the silt is very intimately attached to his body, naturally there is no way to use the sword to strike with full force. It is very likely that he will cut off his legs and watch his body getting a little bit deep. Falling down, but there is a feeling of helplessness.

There is no solid and reliable ground around, all of them are such quagmire.

Canglong roared: "How is it..."

"Don't come here, I think of a way myself, this white tiger is not that simple." Li Tian roared loudly, the feather blade behind him was about to break, but he still couldn't take Li Tian to fly.

He pinched a few fireballs in his hand, chanted the spell quickly in his mouth, and threw it straight down.

"Bang Bang Bang" was like the sound of two kicks covered by an iron can. The explosion sound was very silent, not as violent as he thought, but the mud was not as strong as before.

Li Tian left quickly and said, "The time is up."

In this short second, he quickly blocked his red cut in front of him. At this moment, the huge claws of Baihu appeared in front of him, and at the same time there was a pair of claws. Gray eyes.

This claw slapped Hong Zhan's sword heavily, causing Li Tian to fly upside down, and then slammed heavily on a big tree.

Hong Zhan simply absorbed a lot of impact, so for Li Tian, the impact of such an impact was actually not that huge at all.

"It seems that I have seen through your abilities now. As expected, your way of fighting space transfer still has inevitable drawbacks. You can hide in the space for three minutes each time, but after three minutes you need five minutes. It takes about time to reactivate this skill, which is why you had to build momentum in front of us before, just because you really need time." Li Tian looked at the white tiger in front of him triumphantly, and just a mouthful was filled with blood. He came up, but even this couldn't hide his current excitement.

The white tiger in front of him was obviously a very difficult and wild animal. If he changed to someone else, he might have no idea what the animal's skills were, and he would just die.

"Sure enough, its eyes look different from before."

"That's natural. This beast relies on his eyes to initiate space transfer. No wonder there is no energy fluctuation. I am also envious of the BT skills." Li Tian murmured, and then he held the sword slowly. Stand up slowly: "But all this is over. Today you want to leave here is undoubtedly a daydream. Since you dare to challenge us, just wait for us to kill."

"Roar~" Bai Hu grew up with his mouth full of fangs. Although his eyes were dim, they were enveloped in murderous auras.

What followed was a gray six-pointed star the size of a thumb. As time went on, this six-pointed star became bigger and bigger, and in a blink of an eye it became the size of a head.

"This guy has lost his patience, he is ready for the final blow, be careful." Canglong also reminded from the heights.

Li Tian sneered. After learning about this guy's skills, he was already confident at this time. As long as he could find a defensive opportunity when this guy activated his skills, he didn't have to worry that he would suffer.

As for the six-pointed star at this time, the appearance of the energy surge is indeed quite terrible, but who can guarantee that this is not a bluff?

After he laughed, he slowly raised the Hong Zhan in his hand, and said, "Forget it, although you are a good prehistoric beast, I think the cultivation in these years has also improved you a lot, but what The reason is that there is still a big gap between you and me, or to die obediently..."

'Shoo'

While talking, the six-pointed star flew over. Before Li Tian could finish speaking, he felt a powerful suction force, just like the suction power of a whirlpool. He didn't have time to respond and directly moved towards the six-pointed star. Xingfei passed.

In the next second, the whole person plunged directly into the six-pointed star.

'Roar' Baihu raised his head and let out a triumphant roar. This is a killer blow that it has gathered all its strength. The explosive and destructive power of this six-pointed star is absolutely terrifying. What is even more frightening is this kind of irresistible sucking power, as long as you are within its attack range, don't want to leave here.

With the sound of an explosion, the entire ground began to tremble crazily, and the cracks stretched like lightning quickly, separating bottomless gullies.

The surrounding towering trees shook for a while, and then they were twisted into dross.

The white tiger was as steady as Mount Tai, looking fiercely at the Canglong above his head, and now he should have focused his attention on the Canglong above his head.

Chapter 5902: tent

"Hey, what are you still looking at?" Suddenly, Li Tian held a sword in both hands and jumped out of a black hole, with blood stains on the corners of his mouth and loose hair, looking like a lunatic.

But the killing intent in his eyes, like the substance, pointed directly at the soul.

Hong Zhan let out a roar, and a huge sword shadow slashed down. The poor white tiger was cut in half before he could even react.

The blood spewed out and then hit the ground.

But Li Tian's sword abruptly created a wide ravine of more than 100 meters in front of him.

This sword consumed a lot of his strength, he took a big breath, and even a look of exhaustion appeared in his eyes: "Damn it, I almost died in this guy's hands today."

The explosion of the six-pointed star is not to be underestimated. He relied on his own trick of moving into the void without much thought at the time.

Because of his arrogance in his heart, it almost became his last thought in this world. If it weren't for the last second of approaching, he would continuously launch a void leap to transfer this huge six-pointed star to the other side. Leaping through the void directly came to Bai Hu's face, maybe he was already dead in that energy group now.

At this point, he didn't have the slightest doubt.

After this series of battles, he also consumed eight tenths of the immortal power in his entire body. If there is no way to defeat the white tiger in front of him, I am afraid that he will really die here today.

The battle changes so rapidly, you will never understand what the result will be in the next second.

The Canglong fell, and his figure slowly shrank: "The opponent here is very difficult to get around. Even such a wild and wild beast, which is not at the first level of the gods realm, almost killed the two of us here."

"If you continue to encounter some terrible wild animals, I think the possibility of dying here will really increase. If everyone has such a BT trick, even if I have three heads and six arms, don't want to pass. Here it is." Li Tian panted, stood up, straightened his hair, wiped the blood from the corners of his mouth, his eyes flashed with unwavering gaze: "But even if there are many crises ahead, the same is true. There is no way to stop my mind about where to go, I must find the Baicao Gate."

"It's just that I don't know how many people the Donggong family has sent, and how many strong people there are. If they are really strong, I'm afraid it's not that simple to defeat them this time. The Donggong family is better than we thought. It's too much to deal with."

"I hope it won't be like this, and I also hope that those guys at Baicaomen can help. If they can't even help, it is reasonable for us to lose to them now." Li Tian shrugged helplessly. Shrug your shoulders.

In the next few days, although Li Tian's speed slowed down a lot, he didn't encounter more powerful wild animals. For him, this was a very important thing for him.

Many problems can be changed without encountering so many enemies.

Time passed bit by bit. After three days or so, Li Tian finally arrived. The place written on this ciphertext should be very close to the Baicao Gate.

It was already night.

His position at this time is on a small hill close to the west, and to the east of this hill is a prairie of Pingchuan, but at this time, you can see many brightly lit camps on the prairie. In addition to this, there is a main city the size of Luoyang City on the east side of the hill, and the lights are also on at this time.

It's just that you can see a lot of guards standing on the city gate, it should be defending the guys in the camp in front of them.

'I didn't expect the Donggong family to mobilize so many people this time. It seems that they also spent a lot of effort to make the state of Donggong pardon improve. 'Looking at so many camps in front of him, Li Tian couldn't help but said with emotion, the fighting power of this family is still quite terrifying, and they can mobilize so many people to come here. It seems that they are really determined to win the herb this time. The door is up.

Seeing the battle in front of him, he knew that this time the Donggong family was really thinking about it, sending so many people out at once, just to completely break the Baicao Gate.

"What are you going to do now?"

"Of course it is to give them a surprise. These guys want to destroy the Baicao Gate so much. I just don't want them to be satisfied. Today I will let them know what they will end up offending me." Li Tian sneered, then Squinting his eyes, he slowly fumbled down and moved cautiously. He was afraid that he would be discovered by the enemy before he got close.

And at this time, no one in the camp had noticed that there was an enemy they didn't know about, approaching them cautiously.

In the center of these camps, there is a very huge tent. At this time, the person inside is the leader of the Donggong family this time, and the commander of the entire operation. All up and down must obey this person's orders.

Donggong Ye Wu squinted his eyes and touched the stubble on his chin: "Have you talked about it yet?"

"They said that Baicaomen has been unwilling to participate in the disputes of right and wrong in the outside world for so many years. They just want to live here silently and never leave here again." Standing below, then It was a soldier wearing a dark golden armor. It seemed that this

should be the uniform of the Donggong family this time. The tone of this soldier's speech was also very helpless.

"These guys are really shameless. We ran all the way to this place in the hope that they can cooperate with our actions, but now it seems that these guys have already forgotten what they are." Ye Wu snorted angrily, as if he was very dissatisfied with the attitude of Baicao men. The purpose of their coming this time was not to hear their dissatisfaction.

"This is also something that can't be helped. The Baicao Gate has existed for so many years. I don't know how many people want to find them to do things, and I don't think they are worried that we will take action. After all, although we have entered here, it's not that simple to want to leave here. If you spend too much manpower and material resources against the Baicao Gate at this time, it will not be so easy to wait until you want to leave here." The soldier whispered aside.

Chapter 5903: Sneak attack

Dongfang Ye Wu still squinted his eyes, tapping on one handrail lightly.

This kind of thing that even this little soldier knows, he naturally knows it too. It would be best if he could not fight the Baicao Gate, but if there is no other way, they can only act hard.

The purpose of coming here this time is to bring back the treatment formula.

As I said before, at all costs, even if all the people here are dying, as long as one person is left, it is a pretty good reward for them.

"Marshal, what shall we do now?"

"People have already arrived here. If you leave like this, it will definitely not work. Looking at the Baicao Gate means you are ready to fight with us. The walls are full of their guards. Naturally, you are ready for this. I will call all the generals over immediately. I think we must tell them what happened today." Donggiya Ye Wu patted the table and made up his mind.

When things reached this point, he could only say that he was very helpless.

At this time, Li Tian on the other side had already fumbled over. When he just approached the camp, he could see many middle-aged people wearing armors moving towards the center.

He slowly leaned down. At this time, the surrounding guards had not been able to find out that there was such a young man wearing a black night clothes and holding a dagger in the darkness.

'It seems that they are ready to fight the Baicao Gate. After wasting so long here before, they still don't want to go to the present level. After all, this kind of place is so dangerous. A smarter choice. Li Tian thought secretly in his heart. He also knew that his current thoughts were not much different from those of these guys.

After coming to Borderlands this time, he saw what is called a difficult opponent. These wild and wild beasts are more difficult to deal with, and he has no mind to get entangled with this kind of thing now.

And I believe that the people of the Donggong clan should have a clearer understanding on this point. If they consume a lot of fighting here, it would be too difficult to leave here.

Even Li Tian has a headache now how can he leave here.

He can only pin this hope on the Baicao Gate. He does not believe that the previous legend about the Baicao Gate is really groundless. Maybe someone really left Borderlands in some way, and they did not go crazy. Everything said. It is true, and this legend will be passed down afterwards, but if there is such a thing, it must have a lot to do with the Baicao Gate in front of you.

"Hey, have you heard that, today the marshal sent an envoy to negotiate with them, but the negotiation failed. It looks like we are going to war with them." In the distance, the two guards looked bored, and said in a casual manner .

"It's going to go to war? How could it be so fast."

"Who said no? We all thought it would take a while. We didn't expect that the war would start so soon, but this is also a logical thing. When did you see it, the marshal suffered? This time it was originally. To give Baicaomen a little bit of face, but these guys don't give us face at all, the marshal is very angry, and naturally won't give them the slightest chance." Another soldier said.

"What do you know? The purpose of our coming here this time is to bring back the formula for healing our ancestors. For this reason, even if all of us died here, we would not hesitate."

"They are really going to be ready to do it, and to see what this means, they should be ruined now and have no choice." Canglong's voice rang in Li Tian's ear and asked: "Do you have any ideas now? "

"What ideas can I have, since they have all decided like this, the only thing I can do is to kill all the enemies in front of me." Li Tian said with squinting eyes. I saw that a few of the more important generals have been killed, and the rest is left to talk about. As for what happens next, it doesn't matter.

"I think the Baicaomen should also know that the battle is about to begin. At this time, you are a bit irrational. They are likely to treat you as a spy."

At the moment, the enemy suddenly came over and said something to cooperate with you.

No matter what kind of person encounters such a thing, he will definitely not believe it. If he trusts his enemy so credulously, he still doesn't know what the consequences will be like.

"I might as well kill a general first, and then take the head of the general to make a nomination certificate, tell them that I and them are not enemies, and then let them know what my purpose is. In this way, they will also have a high probability. You choose to believe me." Li Tian squinted his eyes and made a decision. Only in this way can the people of Baicaomen not doubt himself.

On the other side, Yun Fanhui wearing battle armor was walking triumphantly on the small road between the camps. When the soldiers around saw him, they all asked cautiously, with a respectful tone in his tone. No one dares to feel a little dissatisfied with him at this time.

‘Hmph, look at these guys in front of you. Before them, I was just a capable person and stranger with no status and status, but now who dares to look down on me like this? Anyone who underestimates me will be killed by me. Yun Fanhui smiled triumphantly on his face. His previous position in the Donggong family was so low that few people would really take him to heart.

Now it's different. He has become a real general of the Donggong family. There are still many people who are powerful above him, but at least there are not many people now, who dare to look down on him in front of him.

There are still too few people who can be a general in the Donggong family.

But when he was so triumphant, his back suddenly became cold, and then a black whirlpool suddenly appeared in front of him, so he swallowed him directly without any precautions. It just happened to be here. It was a blind spot of vision, so few people noticed that this general had disappeared from them in this way, and Yun Fanhui could not say a word by himself.

The last thought is, who would dare to plot against himself in such a place?

Chapter 5904: Voting certificate

Donggong Ye Wu has been waiting in his camp for almost ten minutes. All the generals have arrived, but the idiot alone has not come.

"This bastard, he really thought that after he became a general, he didn't need to put others in his eyes? I dare to be late for such an important meeting." Donggong Ye Wu couldn't bear it, slapped him on the table, angrily said.

"Marshal calmed down. This guy was originally an unrelated person without a name and no surname. If we hadn't found Baicaomen and needed this guy's help this time, we would have killed him directly. Why bother with such a person?" The general said cautiously, and then ordered to a soldier behind him: "What are you still doing here, hurry up and call General Yun."

"Yes, I will go now."

The soldier arched his hands and left in a hurry.

But the anger on Ye Wu's face in Donggong obviously didn't disappear like this.

I've been very displeased with this guy before. What grade is their Donggong family? Even such an anonymous little character can become the general of their Donggong family. This is simply an insult to the rest of them. There are many standing here. People don't catch a cold to this man.

But Yun Fanhui is also a guy they can't live without. This guy knows how to enter the Borderlands, how to avoid the wild beasts here, and how to find the Hundred Grass Gate, and he has his own strength. It is not particularly weak, it can be regarded as a living map here, and it is just a normal thing to be able to get the appreciation above.

After all, the sky is big and the ancestor's affairs are the biggest.

The soldier went around outside, and hurried in after about ten minutes: "Marshal, we searched the entire camp. We did not find any traces of General Yun, but we found something unusual. The footprints, it looks like someone is lurking in. These footprints are all in some darker corners, and they are all in the blind spot of our sentry."

"Who would be so bold and would come to us to do this kind of thing?" A general sneered, and said disdainfully: "Baicaomen should be thinking about how to stop us now. If they dare at this time If we send someone over, we will directly destroy them now."

"That is, since it is the footprints of human beings, it can only be the footprints of the Baicao Gate or our people. Does it have anything to do with the disappearance of General Yun?"

"I feel that this seems to be someone sneaking in. Maybe the purpose is to assassinate the generals here. When we all die, the combat effectiveness of the entire Eastern Palace expeditionary force will be greatly reduced. At this time, fighting the Baicaomen must be at a disadvantage. Maybe this is the purpose of the Baicaomen."

There are different opinions, but there is nothing more than a topic that can't escape, Yun Fanhui really disappeared.

Even if they dismiss this person no matter how much they look down on this person, they are part of their Donggong Clan Expeditionary Force anyway, and now they disappear under their noses, and no one wants to. Treat this as if it never happened.

Donggong Ye Wu, who was very angry before, even roared at this time: "What the \*\*\*\* do you trash do, the enemy has swaggered in. You haven't found it yet, so you dare to report to me like this."

"Marshal...this..."

"Arrange for someone to find it right away."

---

At this time, Li Tian was also far away.

This place is about a few kilometers away from the plain where the camp is located.

Looking at Yun Fanhui who had fallen out of the void, he said, "It's very surprising that someone will attack you at the camp, and it's still so unconscious."

"Who are you? If you are just fleeing here and want to meet someone who has opportunities, I advise you to apologize to me now, otherwise I will kill you later, don't blame me for not being affectionate, since you see When we arrive at our camp, we should also know that I am from the Donggong family. There are not many people who dare to make trouble with our Donggong family in the God Realm." He squinted his eyes and said confidently.

"Is the Donggong family very powerful?" Li Tian pretended not to know anything, and said with a smile: "I'm very embarrassed, I don't know how powerful this family is, nor what do you stand for in the Donggong family. So it's useless if you tell me these things. I only know that you are about to go to the Baicao Gate, but I really want to enter the Baicao Gate. If I want them to believe in my identity, I can only use one person. His head has been changed."

"Do you want to use my head as a testimonial to make them believe in your identity?" Yun Fanhui stepped back a few steps and carefully looked at Li Tian in front of him, because everything happened suddenly and he is still I don't know what the talents of the young man in front of me are, and I can't see the cultivation level. At this time, he can only be cautious, afraid of accidentally doing something wrong.

"It can only be in this way. I can say that this is something I can't do." Li Tian shrugged his shoulders and looked at Yun Fanhui in front of him: "Unfortunately, you are among them. The only one who left alone, I will take you away without knowing it. When they find you missing, you may be dead."

"Although I don't know what your identity is, but I think it seems that it is not so easy for you to kill me. How can I say that I am also a general of the Donggong family, with superb strength, you think I might be killed by you so easily "Even though Yun Fanhui said that, he didn't dare to think like this in his heart. Li Tian in front of him had done this directly, so what else could he not do?

"If I can do it, you will know soon. Now to answer my question, you just need to tell me what is your purpose here this time, do you want to help your ancestors find a cure? That's enough." Li Tian sneered. He is still not sure what the purpose of the Donggong family is, so interrogating Yun Fanhui in front of him is a good choice.

"Do you think I will tell you?"

"Of course I don't think you will tell me, but smart people usually do smart things. Now it's time for you to choose. It's up to you how you end up." He said lightly.

Chapter 5905: Strangers

In the Donggong family, there is really a group of people whose skills are very different from ordinary people.

Generally speaking, these people are considered guest Qing.

The Yun Fanhui in front of him was one of them.

This is what makes him special and different from others, so his status in the Donggong family has always been very weird. You can say that he is Ke Qing, he is usually not respected by many people. You say he is not, but there are still many things that cannot be separated from Yun Fanhui in front of him.

"If you really want to use my head to do something, then I can only tell you that you have found the wrong person. As for the purpose of our coming here this time, it doesn't matter if we tell you, anyway, according to you These current methods cannot stop us. The purpose of coming here this time is nothing more than to find a medicine to treat the ancestors of the Donggong family, nothing more." Yun Fanhui didn't hide this kind of thing.

Of course, there is no need to conceal it at all. This kind of thing is far less serious than they thought.

Even Li Tian couldn't really destroy this matter.

It's ridiculous that they brought an entire expeditionary army this time, and they had enough combat power to fight the Baicao Gate. What could just one Li Tian change?

Perhaps a person's power will be very strong, but to reverse this situation, one needs to be indescribably strong.

"Looking at what you look like now, you really didn't regard me as a threat. Even if you were caught in a place like me, you can still remain so calm and confident. It seems that I have found an interesting opponent this time." The corner of Li Tian's mouth rose slightly, looking at Yun Fanhui in front of him, and then he showed a satisfied smile, as if he was very interested in the situation before him.

And Yun Fanhui smiled disdainfully: "Almost five minutes have passed since you caught me here. They must have discovered the fact that I was missing, and they must have discovered that you sneaked into the barracks. If you don't do it now, there will be no chance later."

In his opinion, Li Tian has not done anything now, or because he is worried that he is not Yun Fanhui's opponent.

But in fact, it's just because Li Tian still has some things that he hasn't figured out. He knows himself and knows the enemy before he can win all battles. Now he doesn't know much about this expeditionary army. It's easy to defeat this guy, but he wants It is not so easy to defeat this expeditionary army, and every step that follows must be taken carefully to ensure that there are no flaws.

"Excessive self-confidence usually leaves oneself dead. If you go deep into the tiger's mouth and dare to say such a thing in front of me, it's almost lifeless." His eyes flickered and he raised his hand and touched it. The stubble on his chin showed a very indifferent smile, just looking at Yun Fanhui in front of him, and stepping forward step by step at the same time: "Also, what I hate most is that you think you are very strong. The guy, if you were really that powerful, you wouldn't be standing here today."

Seeing Li Tianchao walking in front of him, Yun Fanhui yelled angrily: "Since you have been reluctant to do it, then let me do it today, and it will end up with your sad life."

'call out'

A magic weapon that looked like a token flew directly from his waist and instantly became huge, looking at Yun Fanhui like a shield protecting him.

There are many strange words on this token. These words seem familiar, but they cannot be interpreted that way.

"Your magic weapon is very interesting."

"Isolate and ignorant, when you choose your enemies, haven't you thought about seeing what your enemy's abilities are, or what their fighting methods are? You dare to take me without knowing anything about me. Caught here, let alone kill me, it's hard not to be killed by me today." He stared confidently, as if he was dissatisfied with Li Tian's current performance: "My magic weapon is named Tongtian. Decree, but can control all things in nature, how much do you think you have the chance to win in such a place?"

"Who knows that, although you can control everything, it doesn't mean that I am inferior?" Li Tian smiled slightly.

While I was speaking, stone tips suddenly appeared on the ground.

Just like mushrooms after the rain, these stones rushed out very quickly, and there was no sign beforehand, and the coverage area was also very wide. If he didn't fly into the air in the first time, he might have his legs destroyed.

"The magic weapon in this guy's hand is a bit tricky. If you can really control all things in nature, then I want to get close to him here. No matter it is any natural element, if you use it well, you can create a very scary one. Combat effectiveness. Looking at the weird magic weapon in front of him,

Li Tian whispered secretly in his heart. Although it doesn't matter what he said, he still knows the level in his heart.

The power of this kind of natural magic weapon is still there, but the guy in front of him looks at his status and status is far from as strong as he imagined, how could he possess such a powerful magic weapon?

The Canglong was attached to Hong Zhan at this time. After the previous battle with the White Tiger, he wounded its tail. Now it will take some time to take care of it.

At this time, Li Tian encountered a difficult opponent.

"How, do you find it very difficult? When I can control everything in the world, all your actions are under my control. No matter how hard you work, there is no way to change this result. I feel very uncomfortable and want it. What should you change?" He smiled and looked at Li Tian in front of him triumphantly, speaking like this, looking like he thought he just won.

"If you want to find a way to sever the connection between this guy and the magic weapon, only this way can really suppress this guy, otherwise, even if I have something, he can find it through the magic weapon for the first time, so there is no way to achieve it. Unexpected effect." Li Tian squinted his eyes. This magic weapon can control nature. This is the point that threatens him the most.

No matter what kind of fighting method is shown, this magic weapon can be discovered at the first time.

In this way, there is almost no way to reverse the situation.

'Humph, overwhelming. Seeing Li Tian who had not yet taken the initiative to attack, Yun Fanhui was even more proud of him, snorted coldly, and looked very satisfied with the situation before him.

Chapter 5906: Big Dipper

'Roar'

There was a sound of dragon chanting from the sword, which made the place here suddenly different.

Li Tian's eyes slowly became sharp, looking at the guy in front of him, as if he was looking at a ridiculous lunatic, he slowly raised the sword in his hand: "Although I don't know why the magic weapon in your hand can reach today At this level, but if you want to stop me like this, it's still too tender. I won't give you this opportunity, and I will still take your head."

In the next second, Jian Qi instantly enveloped hundreds of miles around.

At this moment, he has truly exposed his strength and his aura.

Ling Li's aura suddenly shrouded, and Yun Fanhui's eyes widened. Since he can become a living map here, it can only show that he has considerable knowledge in many aspects.

It just so happened that I also had a little understanding of Li Tian's current state. After just knowing it, my heart was naturally very nervous, and his voice trembled: "This... how is this possible? This

is the aura that a young man in the realm of gods should have Isn't it? It's as if I'm in Jiuyou Hell. The biting cold is about to freeze my body. Even a genius can't do this."

The sky-reaching edict burned out a ball of flames, and the flames swept Yun Fanhui's side instantly, and also eased his temperature a lot.

But even so, there is still a lingering fear at this time.

A young man's strength has reached this point, so what kind of point will it be given time for him to grow up.

"What is your identity? I don't believe that the strength of a young man can reach this level. There must be a very powerful backstage behind you, or maybe you are a member of Baicao Sect?"

"If I were from the Baicao Sect, what I would do now is to kill everyone in this camp, instead of taking your head alone to do something fame." Li Tian sneered, if he was himself If you are a person from the Baicao Sect, you will definitely take countless people up and down to destroy your enemies, and let these guys know how powerful they are.

But all he needs now is the head of a general to make a name for himself. As for what else happens after that, it doesn't make much sense to him.

As time passed slowly, the light of the sword in his hand became stronger and stronger, and the sword aura was at its peak at this time.

Some flowers and trees on the ground were cut off in an instant, and the cuts were very neat, and there was no trace of flaws. It can only be said that the power displayed by the sword energy in this situation is quite terrifying. Such a neat cut can only prove that the sharpness of this sword aura has exceeded ordinary people's imagination, even if it is replaced by Yun Fanhui in front of me, I am afraid that there is not much to me.

"It seems that you are unwilling to show your true identity. What are you worried about? Worried that we will do something bad to you when we know your identity?" Yun Fanhui asked, while secretly stabilizing His own emotions, he is really a little nervous now. The combat power that this young man has shown at once makes him a little unbearable, and he feels a little worried in his heart.

The combat effectiveness of such a young man is not that simple at all.

Suddenly, the Big Dipper in the sky suddenly lit up, and starlights were thrown down from the sky, just like the brilliance of the sun, but at this time the degree of shining of the Big Dipper was much stronger than that of the sun. The starlight is very dense, and the target is obviously Li Tian in front of him.

"Although I don't know what your identity is, but I also know that you, a young man, is far less simple than I thought. If this is the case, I don't need to retain any of my own strength, otherwise I might die in your hands like this. Well, today might as well let me see what kind of fighting power you, a young man can show." He said unremittingly.

What followed was such dense starlight, which directly enveloped many areas around Li Tian.

"No, these stars have the power of heaven. Once they touch it, it may become a kind of prohibition, and then make you unable to show your fighting power. This guy is also worried that your fighting

power can instantly kill him, so this It's time to take the lead, so that you can grasp the opportunity in your own hands." Canglong's voice was conveyed from the top of the sword.

Now Li Tian also knew what the enemy's goal was in front of him. He just wanted to prevent him from showing his true combat effectiveness.

This guy in front of me should be very worried.

Worried about the strength that would be revealed next, he would not give him a great opportunity to show his magic weapon, and then killed him in an instant.

He knew that he might not be able to defeat Li Tian. After all, just being on the aura almost made him faint. It is hard to imagine how such a young man can perform in the next stage. The fighting power comes.

So I had to start first, so that even if Li Tian can't be defeated, at least I can let myself take a first-hand advantage. As long as I persist for enough time here, I believe everyone in the camp will soon find this The side fights.

At this time, the dense starlight in the sky has already fallen.

Li Tian dodged quickly, but the speed of the light was too fast, for him a little overwhelmed, there was no way to show his counterattack power in time.

At this time, Yun Fanhui would not give up this opportunity to take advantage of your illness and kill you.

This is a point that is clear in many people's minds.

At this time, he roared, and it made the air roar, just like a huge wave of tens of meters, the air began to slowly compress and squeeze, like six square glass.

At this time, Li Tian was in this glass, a relatively innocent boy.

He knows whether he can defeat the Li Tian in front of him, it depends on how long he can persist in this first move. If he is defeated by Li Tian at once, he wants to persist until his reinforcements come. It's not that simple. The young man in front of him will definitely not give him much time under his own advantage.

"Go to die, hahahaha, go to die."

Chapter 5907: One after another

"Your sky-reaching decree really makes people feel a bit difficult. After this struggle, I didn't expect that I was still controlled by you." Li Tian was squeezed by the air abruptly, and the power of nature is still Some are terrifying, and there will be a little helpless, even these immortals, until now, can't really compete with the forces of nature.

At this moment, he was standing here feeling the air that was constantly squeezing toward him, and the whole person was almost out of breath.

At this time, the starlight on the other side had already followed.

The next second, it fell on Li Tian.

"Desperate, your strength is indeed very good. Among so many young people I have met, you may be far more powerful than any of them. Your combat effectiveness exceeds many people's imagination. I dare not convince them that this is a level that a young man can show, but through everything you have done so far, I probably know your identity." Yun Fanhui looked at him and said confidently: "No wonder it will When I came to such a place, I didn't expect that it was Li Tian, who was famous in Tianqi City before, and came here."

"Do you know my name?"

"In the God Realm, there are probably very few people who don't know your name. Almost everyone knows your name. The only difference is that they may not know what you look like, but what you show today This level still made me aware, you are the rumored genius teenager, the teenager who constantly creates miracles, right?" Yun Fanhui asked.

At this time, he saw Li Tian bathed in starlight, and he was already relieved. After all, in this situation, Li Tian's immortal power must have been completely restrained, and it is impossible to fight him. .

In this way, it doesn't matter if he spends a little more time.

"It seems that you are not a fool. You are really capable of becoming a general of the Donggong family, but your status in the Donggong family is not very high and you have no friends. Why do people like you help them do things? You obviously know that doing so by yourself may not bring you any benefits. If I were you, I would choose to turn my face with them instead of doing my best to help them." Li Tian seems to be instigating discord. Looks like this, thinking about it, it should be like this, I am in deep danger, and only in this way can Yun Fanhui let him go.

Yun Fanhui naturally knows what he can know. At this time, he smiled chastely: "Do these things have anything to do with you? Anyway, you are about to die, if you want me to betray them. , I think you'd better give up this idea. If I was really upset with them and wanted to betray them, I would have betrayed a long time ago. Why fight with you here?"

"If it looks like this, I am destined to die in such a place today. There is no chance at all." A decadent expression flashed across Li Tian's face, as if he was very dissatisfied with the current situation. : "If you can let me go, we will kill all these guys here, and then what kind of things can be divided between us, don't you feel jealous at all?"

"Give up, it is impossible for you to provoke me. If I want to betray them, I will betray them very early. Why wait for such a long time here?" Yun Fanhui said disdainfully, "You don't know. There are many things here, but I can only say that you, a young man, have really bad luck. You came here to provoke me. Unfortunately, you didn't find a suitable candidate."

Seeing him smiling triumphantly, Li Tian also smiled.

"People will become indifferent when they die. You don't look like someone who is afraid of death, but this time I can kill you. It is a big event for our Donggong family. They have always I want to kill you, but failed many times, now it's alright, you are in my hands, I won't let you go today,"

"How do you know that I will definitely die in your hands? How do you know that the Donggong family will reward you? In my impression, those guys should be iron roosters, and they rarely do anything to others. Yes, you want to exchange my head for rewards is too simple, not everything can be done according to your ideas."

"You said to talk more nonsense here, now I will kill you." The Tongtian Decree was shining with a strong light at this time, and Yun Fanhui at this time had rushed to Li Tian's eyes, with a glint in his eyes: "You can't blame me for this kind of thing. To blame, you can only blame your bad eyes. If you don't choose a character that you can deal with, you have chosen me instead. Since this is the case, I must also I can't let you down."

When this guy spoke, there was an extra dagger in his hand, and then it went down towards Li Tian's heart.

At this time, he almost thought that he was about to set foot on the pinnacle of his life. If Li Tian could be killed in this kind of place, then he would surely become more powerful in the Donggong family. Few people now look down on him. , I thought that if Li Tian was killed this time, no one would dare to look down upon himself.

His only purpose now is to prove himself, to prove how huge the gap between himself and these people is.

At this time, the one in my heart was very satisfied with the result, and naturally he would not let it go easily.

It's just that the moment this dagger pierced Li Tian, it gave him an unreal feeling. Li Tian in front of him didn't even give him the feeling of piercing the entity.

"It's very strange, why does it feel like it has hit some fantasy or something." Li Tian smiled behind him, a crystal clear dagger made of immortal power has fallen on his shoulder Above: "I said, although your strength is very good, but it is also very good. The combat experience is too little. This is one of the places where their Donggong family looks down on you, not your birth. The moment I restrained it, I directly used the clone and the void to move to another place, but it's a pity that you haven't been able to find this now. It's not wrong to lose to me."

"Impossible, how did you do it in such a short time?"

Chapter 5908: Hand up and down

"I don't need to be particularly careful about how I did it. Now that you know what my identity is, you haven't been able to treat me with this kind of thing. A guy like you also makes me think It's unbelievable. It's reasonable to defeat a guy of your level today. Any immortal must remain calm in the battle to ensure that he won't be dazzled by a momentary victory. Obviously you haven't been able to do this. ."

If you are a nervous person, you will naturally know this.

But Li Tian knew that the guy in front of him had very little combat experience, and he was easily proud.

This person was looked down upon by many people when he was in the Donggong clan, so it created a very huge pressure in his heart. He wanted to prove himself in front of others. This was almost the only wish in his heart now.

Before, Li Tian would say those nonsense, but he just wanted to determine whether his guess was correct.

There was a time when I was not valued by others. At that time, there was a very strong resentment in my heart. At the same time, I also wanted to prove to them the value of their existence and their strength. This is a matter of common sense.

When a person is discriminated against, what they naturally want is to do everything possible to change everything.

Li Tian also has the same idea.

He knows Yun Fanhui's status in the Donggong family. Such a guy with not very strong combat experience will certainly not have a very good status in the Donggong family. Maybe there are not a few people who are willing to look up to this guy. All he knows. thing.

Now that I know this, I know how to deal with this guy in front of me.

This series is actually just a conspiracy in Li Tian's heart. From the beginning, he knew how to deal with this guy in front of him. The Heavenly Law restricted his many abilities.

But no matter how powerful the magic weapon is, it must follow its own master to show different combat effectiveness.

Obviously the guy in front of him couldn't do this.

Holding such a powerful magic weapon in his hand, he has not been able to bring much pressure to Li Tian.

When he thought he was catching Li Tian, Li Tian had already used the void transition to get to the other side, and then took the opportunity to catch this guy by surprise, and failure was a logical thing.

Failure to remain calm during the battle, and to observe everything in this battle carefully, failure is also normal.

"You... this... this is impossible... I..."

"You have never been able to find the place they like. You can only say that you are a very dull guy. Maybe your talent is very good, but you think you are too confident in yourself. I really want to change something. This will make your own problems more and more serious." Li Tian squinted his eyes and said with a smile.

"Then what are you going to do, kill me?"

"I won't give you any chance. You are my stepping stone this time. If I want to enter the Baicao Gate, I must use one of your heads. I think the battle here, your companions probably know too. Yes, although they look down on you, you are one of them after all. If you die like this, they will lose their faces, so they will definitely come to save you."

"..."

"At that time, all they can see is the sad body of your fellow. Of course, you may not be able to blame me for this kind of thing. I really want to make you stronger. It's a pity that you are A guy who can't support the wall with mud." After he said something, he really didn't hesitate, so he just dropped the knife and cut off the head of the guy in front of him.

The Heavenly Decree lost its master, and instantly became desolate, as if being pulled away from everything.

"Such a magic weapon is also a good treasure for me, make good use of it, and maybe it can play a good role in the future." Looking at the small token in front of him, Li Tian smiled and put it away.

All this may seem long, but in fact it is just a few minutes.

After all, things like fighting happened in a flash of lightning and flint. The two of them were talking a lot, but in fact, it was just a moment of fighting, which was enough to tell the winner.

The enemy's combat experience is so scarce that Li Tian doesn't need any other means to ease the battle.

This can only be blamed on this guy, his mind is too dull, and I haven't been able to see what kind of people these people in the Donggong family admire for so many years.

If it weren't for their enemy, Li Tian, who has experienced many battles, must already be the guest of the Donggong family.

"Well, it seems that we have done almost everything now, and it should be time to leave here. Those guys from the Donggong family will take the initiative to look for them soon."

"They definitely can't believe that this kid will die in your hands so soon, this time they are ashamed."

"I just took this guy's head to Baicaomen, but I don't know whether such a decision is right or wrong. If others don't appreciate it, it would be embarrassing."

---

"Did you feel the aura just now?" Donggong Ye Wu, who had just come out of the camp, stared and asked.

"I felt it. It was the feeling of the Heavenly Decree. We could not detect the aura of another person. This aura is extremely fierce and terrifying. If you are in that place, it may cause I can't get my hands on it myself." A general next to me said cautiously. After such a long distance, I still have a lingering feeling about the aura.

And Donggong Ye Wu also nodded and said, "Although the strength of that young man is only in the realm of gods, but I think the real battle should be more terrifying than this, the guy Yun Fanhui should not survive."

"What does the marshal mean?"

"You don't need to worry so much. Just hurry up and bring the idiot's body back. Now we are attacked by the enemy, and our defensive force will be doubled every night. The same thing, I will never allow it to happen in my camp. The second time, if you dare to allow such a thing to happen, I will ask you to bring your head to see me next time." Donggong Yewu said with a serious tone and angrily.

Chapter 5909: Into the city

In the wee hours of the morning, the temperature inside Borderlands also began to rise a lot, and a round of rising gradually tomorrow.

But between this world, there is still a vast expanse of whiteness.

On the wall of the Baicao Gate, well-dressed and morale disciples were faintly patrolling back and forth. Although their faces were a little sleepy, they did not lose any sharpness, and their eyes were sharp, like a falcon.

Everything outside the city wall is inevitable.

The moment Li Tian came to the city gate, he heard an angry shout from his head: "Who is the one who is here, don't hesitate to report his name."

"Baicaomen has been hiding from the world for hundreds of years. Even if I say my name, can you recognize it?" He raised his head and looked at the slightly naive disciple above his head. He was obviously not very old and spoke a little. Unreasonable.

The young disciple was stunned for a moment, and was speechless for a moment by his rhetorical question.

Another disciple who was on the side said, "What's the matter with you here? If you are still their messenger, I think you can go back now."

"On the contrary, I came here this time to fight against the running dogs of the Donggong family, but now I think you should let me in and talk first? Baicaomen is also a famous family, although it has been hidden for a long time, but There are still countless legends about you, so to keep your guests away, this is not something that a famous family does." Li Tian spoke calmly, but his voice was high.

When several young disciples heard this, they all looked at Li Tian below with a posture of disdain for the heroes.

I thought that this kid would have a role as himself, and he would dare to run wild in such a place?

Just as the disciples were talking, an old voice came from above: "Let him in."

"Yes, Grand Elder."

When the voice fell, the city gate made a dull sound, and then it was opened little by little. A little light penetrated from the inside, and then a spacious main road was placed in Li Tian. In front of, on both sides of the road, you can also see the disciples wearing Taoist robes, all looking at Li Tian in front of him with strange eyes, this young man wearing black clothes with a little blood on his clothes.

But Li Tian didn't realize it, and strode into the city gate.

Seeing the city gate closed afterwards, I saw the great elder in front of him.

It seems to be 70 or 80 years old, but I want to be here for at least a hundred years, even thousands of years old. The disciples around them all look at the big elder in front of him with respect, and it is not difficult to judge. This person should be a respected person here.

It's just such a character, why does it appear here?

"Why are you here this time?"

"To break the Donggong family's plan, but also to ask for a prescription." When Li Tian spoke, he took out a piece of paper from the ring. This is the conclusion reached by the pharmacists of the

Guo family after careful diagnosis. Above, Baicaoomen can also come up with a suitable prescription to save Guo Xiangyi.

"That's it?" The Great Elder raised his brow.

"I have always had feuds with the Donggong family. I only wanted to find the Baicao Gate this time, but I didn't expect to meet them here, and even want to attack the Baicao Gate. Naturally, I would not let them be satisfied." He turned his head and looked at the great elder in front of him seriously. He knew that he must not say a lie at this time, what to say, so as to gain their trust.

"Why should I believe you?"

"This is the head of the general in the Donggong family army. I just picked it off and it's still warm." Li Tian took out Yun Fanhui's head from the ring and threw it on the ground, looking at the elder in front of him. The tone was passionate: "Now you should always know what the purpose of my visit this time is. I really want to help your Baicaoomen. The Donggong family is strong, and I can also help you do something."

The great elder did not speak, but just glanced at the head on the ground lightly, and all the disciples around were stunned, and stepped back a few steps, obviously did not expect it to be such bloody.

Many people have seen such a horrible scene for the first time.

Li Tian looked at the great elder in front of him, wondering what the great elder was thinking in his heart, and why he had not given himself an accurate answer.

"This kind of thing is not something I can decide alone. Come with me, and I will take you to see the Sect Master." The elder looked at him, seeing that his face was very curious, but there was no malice, and he couldn't help but sigh. He took a breath and said.

"Elder, never." A disciple on the side walked forward, arched his hands, and asked: "If we really want him to see the suzerain, what if this is an assassin? Although we don't know the Donggong family, But this time they are coming aggressively, with so many people, obviously they are bound to win, who knows what conspiracy they will make, maybe this kid is an assassin they sent."

"Yes, yes, at this time, everyone who enters the main city must be strictly inspected, and they must not be allowed to penetrate into the core of our Baicao Gate. It is very likely that all the people who come to this place are spies. ."

After the first one, many people appeared after that, all with very unwilling attitudes.

In their opinion, Li Tian may really be a spy.

The elder raised his hand, looked at Li Tian, and asked, "What do you think?"

"Fair and free, I am a spy, of course it doesn't count if I say it myself, but time will be fast, you will soon know if I am."

"Hehe, you kid is very interesting. Although I don't know who you are, I think you are very pleasing at first glance. Come with me. I will take you to the lord." The elder raised his hand. Everyone fell silent. They knew that when the great elder decided something, there was no way to reverse it.

The elder walked ahead, looked at Li Tian next to him, and said, "You must be mentally prepared. If other people don't treat you as a friend, you might even be imprisoned and suffer a bit in the past.

At this time, the situation is very dangerous, and we have no way to determine whether everyone we meet is an enemy."

"I know that I knew this would happen when I decided to come to Baicao, but I still want to come. If you are really captured by the Donggong family, it will be a pretty terrible result for me. Li Tian shrugged and said with a smile.

Chapter 5910: Connect with the world

The position of the Great Elder in the Baicao Gate is evident. Even if many people object, he only needs to stand up and say a word, these people are obediently obedient.

And Li Tian also felt that the strength of this person can be said to be unfathomable. It is worthy of the Baicao Sect that has existed for such a long time in this place. Everyone's strength is unparalleled in the world. I gave Li Tian a big surprise, whether it was in aura or in his style of work, he was worthy of his current status in all aspects.

Squinting his eyes and following behind the elder, he did not forget to observe the world around him.

Baicao has been disconnected from the outside world for so long, and no one knows what changes have taken place in these long years.

It can be seen from the dimensions that this place is still exactly the same as before. Many buildings look very old and not as perfect as Li Tian imagined. After seeing that they have nothing to do with the outside world, it's even harder to continue to improve your architectural style. After all, there is a specialization in the art industry, and Baicao can't do everything.

"We have been in seclusion for so many years, almost everything here has always been like this, and we have never encountered any changes. Even I am wondering whether the original decision was correct." I also noticed that this young man had been observing these things by his side, but he didn't feel surprised in his heart.

Whoever thinks it will be surprised.

In the eyes of the outside world, their Baicao Gate is actually a legendary representative, a representative that can be met but not sought.

"After so many years of development in Baicao, I originally thought that you have to exceed our imagination in all aspects. Now it seems that there has not been a big change. In these years, you may only be developing yourself in medicine. He has trained his own disciples, but he hasn't thought about other changes, so it has always been like this, which is actually reasonable."

"Yeah, after all, I can't keep up with the trend of the times. It's good to be like this now, as long as it doesn't become more embarrassed." The elder smiled wryly, and said a lot to Li Tian at the same time. Regarding the Baicao Gate, there are of course many things in this main city.

It looks like a sect, but after so many years of development, it has actually become a main city.

In addition to the disciples of Baicao, there are also many adventurers here. Those immortals who entered the Borderlands in despair, after discovering this place accidentally, did not choose to leave here, but chose to stay. Here.

Become a member of the main city of Baicao.

As time went by little by little, it seemed that there were not many outsiders at first, but now they have gradually become a part of this main city.

It is conceivable that there are still a lot of people who have come to the land of no owner. If they had not been killed by the wild beasts, they might all have become members here.

"Over the years, there have been more and more foreigners like you. I can feel that our choice to disconnect from the outside world is wrong. As long as we are still human beings, such behavior is ultimately undesirable. Over the years, the Baicao Gate has indeed survived many times of chaos, but it has also completely cut off our contact with the outside world. So when we need outside help one day, I am afraid that no one is willing to stand. come out."

"It is reasonable to say that this feeling of being shut up and shutting down the country may give you some advantages, but in fact, this is not a good choice. If it is me, I am still willing to take a good run in this world, even if it is because of this. Destroyed, it doesn't matter to me."

"There is no need to say anything about this. You have to be careful when the meeting passes. There are eight elders in our Baicao Gate. Although I have agreed to your request, it does not mean that others will agree to your request. If you say something wrong, you may be imprisoned in prison for this reason. Even if I speak, it may not have any effect. You must know that in extraordinary times, extraordinary means are required."

"I understand that, now that the outside world is all your enemies, of course you have to find a way to prevent your enemies from infiltrating in. It is only reasonable to be cautious with me. I knew it as early as I came here. I just hope that everything I have shown now doesn't make me look like a spy." Li Tian shrugged helplessly. This is what he is most worried about now.

But I finally came here, the purpose is to help Baicaomen against the Donggong family.

Maybe he has very little power alone, but through the skills of Void Leap, he can form many tactical advantages, and Li Tian is standing behind an entire Yaksha clan. If it doesn't help, you can summon all these Yakshas. , It may not be so easy to destroy the expeditionary army in front of them, but if they cooperate with the Baicao Gate, their chances of winning are still considerable.

"But I'm very curious that your meridians seem to be very different from others. I can't see what level your cultivation has reached, and there's nothing else in your body, showing me you Just like an ordinary person, are you really an ordinary person?" The elder looked at Li Tian suspiciously, this guy's system still brought a lot of surprises to the elder. ,

After such a long period of time, I couldn't even see what kind of state this young man had reached.

"I can't talk about these things. This is already a very secret secret of mine. If someone knows it, it may not be a good thing." Li Tian smiled awkwardly, although he lost a vote here. Fame, but it does not mean that I must cooperate with them: "However, my current cultivation base is in the realm of gods, so naturally it will not be a problem to deal with this general."

"Divine Spirit Realm?" The great elder raised his eyebrows and looked unexpected, but he stopped and looked up and down at Li Tian in front of him.

It could be seen that he really did not expect that this young man would have cultivated to this level at such a young age. Compared with their disciples of the Baicao Sect, it is not a level to be strong.

Why would such a genius come to such a place as the Borderless Land?
