

A Killer 5941

Chapter 5941: Malicious Scythe

"This is a weapon I rarely use in front of others. After all, most people's strength is far from mine. It is reasonable to not be my opponent. When I face them, it is fundamental. There is no need to show his terrifying combat power like this." The mysterious man said as he approached Li Tian.

When he held the sickle in his hand, the aura behind him was also quite strong, with bursts of death shadow, and he rushed towards you directly.

The aura behind Li Tian was also frantically confronting at this time.

"At this point, you haven't been able to give up. This kind of mentality has surprised me a lot, but do you think you can stick to it in this state?" He looked at the front of him. Li Tian, who was still insisting, was also very surprised.

I thought that this kid wouldn't be so difficult to deal with after being injured, but now it seems that I think too much.

"It seems that you have already made a perfect plan before. You have already made it. Are you ready to kill me at this time?" Li Tian raised his head and looked at the mysterious person in front of him, and asked nervously.

"How many people want to kill you, but there are very few people who can do it. If you can't hurry up and prepare, it won't let you live for so long." The mysterious man grinned. As he approached step by step, the breath of death behind him also moved closer and closer.

His eyes are like a black hole, which can swallow your soul completely.

And every time he took a step, the pressure on Li Tian grew more and more, so that the mountain on his forehead now was full of bean-like sweat beads, which kept falling down, like a broken bead curtain.

Li Tian looked at the mysterious person who was pressing harder, and smiled slightly: "You did find a good opportunity this time. If you were not seriously injured in the land of no owner, naturally you would not be given such a chance. , Of course it's useless to say more now, you want to kill me, it's not that simple!"

He roared, and a huge shadow suddenly appeared behind him. This shadow was the previous external incarnation, and it was also a collection of hostility.

His eyes slowly turned blood red, and even some flames sprayed out of his eyes, which looked terrifying.

Ling Ling's aura, like a chill, was also fully deployed at this moment, doing everything possible to block the attack of this guy in front of him. The situation in front of him was really too much pressure.

"It's just daydreaming. Although you are a genius among young people, for many people, it's nothing more. If you are really a kid, and you delay the time like this, if others know about No joke to kill me? Now you should be very clear about what your state is. In front of me, it is impossible for you to have the slightest ability to resist!" As he spoke, the sickle in his hand had fallen: "This The two knives are called Malicious Zhilian. Do you know why they are called?"

‘Hiss’

There are a lot of black death auras inside Malicious Zhilian, turning into hideous souls. Their eyes are all azure blue, and the expressions on their faces can make you see clearly, one by one. With their hideous faces, no one knows what terrible torture they endured when they died.

What's even more frightening is that the moment these souls appeared, they kept roaring towards Li Tian, as if they wanted to vent all the grievances in their souls.

'bump'

Although he has his own aura and the protection of his own strength, facing such a powerful enemy, Li Tian is not as comfortable as he imagined to deal with now. The whole person directly flew out and hit the ground heavily. .

A mouthful of blood rushed to his throat and was forced down by him abruptly.

"Today's battle here once made your body unable to withstand such a state. Just look at the expression on your face and you can feel it. In such a battle, even a genius boy like you, I can't keep going."

"That being said, it is not that simple if you want to kill me quickly. I thought they would send some powerful characters this time. I didn't want to play just a guy who is one level higher than me. , So you want to kill me?"

"Really, you should know better than me. In this situation, everything is going to be much more complicated than we thought, although there is only a level difference between the two of us. , But this level is enough to make our strengths world apart, not to mention that you are seriously injured now." The mysterious man is very unconvinced, the young man in front of him is still underestimating himself at this time.

Does this kid really live in a dream? Shouldn't everyone start thinking of ways to beg for mercy at this time?

"Forget it, I have explained so much to you. You don't really understand. The gap between us has already appeared. Even if I explain it to you, you will only think it's a normal It's nothing more than that, it's better to just kill you like this."

Seeing that he was about to shoot again, this time Li Tian might not be so easy to follow, after all, such an offense was much more complicated than they thought.

But even at this time, Li Tian still couldn't think that he would die like this.

He is more confident in himself than anyone else, knowing that he will definitely survive this kind of time, because there is still a little witch watching quietly, if he is really in danger, might he not help? Such a situation of being at risk, in any case, definitely needs the help of the little witch?

"Who are you going to let die here, can you tell me? I really want to know what your identities are. I even went to such a place and said such blatant words. Could it be that I really think I am very Skill?" A man in white appeared next to Li Tian, squinting at the mysterious person, just like a high king looking at a ridiculous child.

He is standing here, but his aura is enough to tell others, he is not a character that can be easily dealt with.

If you really fight, even such a role can cause you considerable trouble, this can be said to be beyond doubt.

Chapter 5942: Homeward

"who are you?"

"Even if I tell you this kind of thing, what can I do? My strength is above you. Even if you know my identity, it can only bring you a lot of pressure. In this case, What's the point of knowing my identity?" He smiled and looked at the mysterious man in front of him, he said faintly: "The purpose of coming here today is just to tell you that this young man is under my cover. If you are not convinced, you can give it a try."

"You came?"

"In order to protect you kid, this time Shuiyuezhong is also the first to mobilize people. I was the first to greet you to protect you kid. You can basically relax now. These people want It's not that simple to deal with you."

Originally, after Shuiyuezhong learned about Li Tian's news, several days have passed. In order to make his current situation perfect in the news, Li Tian deliberately said this matter seriously. Of course, the situation is indeed very dangerous.

As if he was in a hurry, he also exhausted all kinds of methods and came to Li Tian frantically.

"Your such strength should be a master from Shuiyuezhong. I am not your opponent. I know this very well. What kind of skills do I have and what kind of roles I can deal with? It's still quite clear. I don't know if you can regard it as today's thing, it has never happened?"

"No, didn't you say that before, many people wanted to kill Li Tian, but because they were too young, they all failed after so many actions. I really want to see you now. What is the guy's ability to speak like this in front of me, whether he is confident that he can kill Li Tian in front of me."

The man in white is the mysterious person who is making things difficult for him. This guy is not ashamed, and now it is time to pay some price.

The aura on this guy's body was all dissipated at this moment, and the state of the whole person became very helpless at this time.

The ability to be proud of is meaningless by the white clothed man in front of him.

"Thank you senior."

"You don't need to be so polite with me. This is not the first time we have met. The purpose of coming to you this time is to bring you back. As for other things, I'll wait and talk about it later. I miss you. There are still many that have not been explained clearly to others, right?"

"What about Ningbing, how is she now?"

"After knowing that you are dead, she began to cultivate harder. She also seems to want to find a way, a way to resurrect you, so at this time, she has to work harder than before. After leaving the Ten Cities Conference, I went directly to Buzhou Mountain. The current combat effectiveness has increased by leaps and bounds, and the degree has exceeded the level many people imagined." The white-clothed man said with a little surprise.

At this point, the development of the matter was actually something that they had never thought of. Even Li Tian did not expect that such an effect would be produced after his death. Ning Bing not only didn't get helpless because of it, but on the contrary. It was at this time that I started to work harder.

Listening to what the white-clothed man in front of me meant now, it seemed that in the last few days, Ning Bing's state was far better than they had imagined.

"So I can rest assured. I really need to return to Shuiyue Sect. There are still some things that need to be explained, and I haven't seen Shuang'er for so long. I really miss this girl a little bit." Li Tian It's already very unnatural to think in my mind what this girl looked like when I saw myself. If it comes to that time, it will be very interesting.

"Hey, hey, it's not so good for you two, I'm still standing here, there is such an enemy in front of you, you are like this, really when nothing happened? How to say me You can be regarded as a great master, is it really appropriate for you not to treat me like this?" The mysterious person is the most uncomfortable, and he should be the protagonist here.

But looking at the situation in front of you, the two people are in a state of not taking this guy seriously. Who can imagine this feeling.

"Do you have anything else? If you can, please kill yourself in front of me now. It won't be very painful, so that you can have a good opportunity to sever yourself. If I did it, I I'm really worried that you won't be able to persist in this state." The man in white smiled and looked at the mysterious person in front of him, said.

"Hmph, don't think that your strength is above me. I am really afraid of you now. I can tell you. I have never seen such a big thing. If you think this is the case, you can really be scared. As for me, I really think too much. I will let you know what will happen if I underestimate me."

"Really a very boring guy. I have already told you where the gap between us is. At this time, you still dare to speak in front of me like this. You really didn't take the issues I mentioned before as One thing, if it turns out to be like this, then there is nothing to say, let me have a good time." When the white clothed man spoke, a sword light flashed in his hand and directly killed the killer in seconds.

The expression on the mysterious man's face was frozen at this time, even at the last moment of his death, his face still kept such an appearance that he didn't know what was going on.

With an indifferent smile on the corner of his mouth, Li Tian squinted at the white-clothed man: "It's really okay to kill like this? You are not prepared."

"What do I have to prepare for? What kind of role is this? I think you know it very well. Except for the Donggong family, probably no one will choose to deal with you at this time. I have nothing to interrogate. It's just wasting time on this guy. He definitely won't tell me what's going on." The white-clothed man turned around and said indifferently, everything seemed to be under his control.

Li Tian just smiled: "That's the case. You will make such a move at this time. Only the Donggong family who heard the wind before are left. Apart from them, I really can't think of anyone in this way. Time to send someone to deal with me."

Chapter 5943: The world is cold

"The Donggong family has already focused their attention on me. They don't want to deal with me in a day or two. Therefore, this ending is considered to be within my control." Li Tian He smiled helplessly. Although this result is not ideal, since it has already happened, there is obviously no way to change anything.

"I know you find it difficult to accept this situation now, but believe me this is definitely not the hardest time you have encountered right now. Your enemies are only slowly appearing now, and you will find out when they all appear. , I am really helpless in this situation."

The mysterious person's death is unclear, Li Tian stood up, spat out a mouthful of bruise, and looked at Yi Ze on the ground: "What about this guy?"

"Her action this time is still smart, although it is not a wise choice to deal with you, but at least this one can be regarded as a clear defense. There is another powerful expert on his head. We are now I can't do anything to this guy, just leave honestly."

"This time I go to Shuiyuezhong, it is impossible for me to stay for long."

"But there are only a few things that I really want to know from your side. We also know that you have a lot of things waiting to be resolved next. We are not that nervous."

After the decision was made, Li Tian began to return to the Shuiyue Sect in the next few days. This must be a very long process.

But in the process, Li Tian felt that this world is really a world of bleakness.

He didn't even feel a chill when he looked at him. Whenever he saw the treatment of these ordinary people, he couldn't believe it. This turned out to be a human society.

"It seems that you still can't get used to the situation in the God Realm now."

"Maybe it's because I like to be nosy in the lower realms too much, that's why it looks like this." Li Tian shrugged helplessly, looked at the person in white next to him, and said, "If I am really strong, even No matter how difficult this process is, I will find a way to change this situation."

"This is a world where the weak eats the strong. Only the strong can survive in this world. This can be regarded as the reason why many people can become stronger in disguise. Only in this troubled world is the easiest. You should be very clear about the emergence of strong heroes."

"It's true, heroes come out of troubled times, but the God Realm hasn't been able to appear many strong people for so many years. I can only say that this method is not correct."

"You don't understand this. How many strong people have appeared in the God Realm, can you figure it out?"

With an embarrassing smile, Li Tian had no choice but to assume that he hadn't said anything before.

"The so-called heroes in troubled times are because of the emergence of war, which forced many people to come forward. This situation is actually normal for many people, so they did not appear. Wait until they are really in danger. When the situation happens, there will naturally be more powerful people that you can't think of."

In this way, while chatting on the road and moving quickly, he soon came to Shuiyuezhong.

When I came to Shuiyuezhong again, many people at this time had truly realized Li Tian in front of him, and they did not hinder him.

He went all the way smoothly and directly entered the Shuiyuezhong.

And standing at the door was Shuang'er.

"Brother Li Tian, you... are you still alive?"

"What are you talking about? I just pretended to be dead before, and I didn't really die." Seeing that Shuang'er was holding his arm directly and almost crying, he didn't know what to do. Now, how to deal with this situation, it is really difficult for him to find a way.

"Okay, okay, don't cry, why have you been crying like this during this period of time, crying if you don't agree with me? Before you were much colder than now." Li Tian looked at the crying girl in front of him, very shrugged helplessly. At this time, I also felt a little weird.

"I'm worried, don't you know how I spent it before."

"All right, don't worry, I am much stronger than you think. Even if many people die, I won't die so easily." Li Tian touched her head: "As for your master, when I appear here, he didn't come here personally. She didn't even have any interest?"

Li Tian also felt very helpless. At any rate, he had walked around the line of life and death. This woman turned out to be.

"Master is still cultivating in her own small bamboo house, and she is still the Sect Master of our Shuiyue Sect. Can't anyone come out to meet him personally, right?" Shuang'er looked at Li Tian with a very dissatisfied expression. I had to explain on the side.

The person in white also smiled helplessly: "Well, you can handle the next thing yourself. I won't participate in these messy things."

After they left, Shuang'er took Li Tian to Murong Ziqing's side.

On this journey, she has been very serious about telling Li Tian what happened during this period. Not to mention that this girl has made great progress in her practice during this period, and she has a completely different attitude towards Li Tian. She looked like she was going to really become Li Tian's sister.

"You have to be careful this time. Master may have many things to tell you this time. Don't talk nonsense, otherwise..."

"Don't settle me for this kind of thing. I know what to do. You can rest assured." Li Tian squinted his eyes and patted this little **** the shoulder. When they spoke, they had already come to the back mountain, and in front of them, this is the rumored little bamboo house.

"Don't squeeze outside, come in, there is something you can tell me here." Murong Ziqing's voice slowly floated out, smiling and said: "If you are worried, I am sorry. If you let the three children show up in front of you, I can give you a chance."

'This woman is really scary, it feels like he knows everything. 'Li Tian also felt helplessly. At this point, I really don't know what the situation is. It seems that he

can't hide anything from this woman. He seems to know everything in this world, always It can make you feel at a loss when it is critical.

Chapter 5944: request

"Okay, let's stop here. Then I can only go in and communicate with you, the terrible master. If there is anything, I will come to you." Li Tian shrugged helplessly. Then swaggered into the bamboo house.

"Well, do you feel that I am in a heavy mood, as if I do everything under my nose, right?" Murong Ziqing turned around, smiling at Li Tian in front of him: "You should Feel like this, so if you have anything you want to say at this time, you can just say it directly."

"What else do you know? Tell me all at once. You will give me a surprise every time you save. I don't want to be shocked by you every time I see you."

"This is a very normal thing. After your strength slowly grows up, you will find that this is actually a very normal thing. This time, you have gained a lot in Borderlands, right?"

"Since you know everything, I don't bother to continue to sell things like this. You should know what Baicaomen has entrusted to me this time, right?" Li Tian squinted his eyes and smiled at the person in front of me. Murong Ziqing: "This time I have three children. The identities of these three children are very important. You can also see my current situation. No matter where I go, many people will appear for exclusive use to kill me."

"So, are you planning to entrust all these children to me at this time?" Murong Zi said with a clear daze.

"It is indeed like this. If they are in Shuiyuezhong, they seem to be the safest at the moment. It must be bad to be by my side." Li Tian shrugged helplessly. He was also helpless. This time Fang Yu was originally entrusted to Li Tian.

But when there is no other way, now I can only refer this question to Murong Ziqing.

"You kid knows how terrible your decision this time is. These three children have a lot of prescriptions. If they are handed over to others, it may cause a lot of trouble. These three children are handed to me. 0"

"In this God Realm, it seems that you can only have a better relationship with me. If you leave them to you, I can relax a lot. The strength of the Shuiyue Sect is now in full swing. I don't believe that there will be any problems. ."

"Are you a request?"

"It's true. I've known it for so long, and it's only the first time I have come to ask you." Li Tian shrugged helplessly. If his strength is very strong, he naturally doesn't have to worry about such things. Now The only helplessness is his current combat effectiveness, obviously there is no way to protect these three children.

In particular, these three children are related to the survival of the entire Baicao Gate. Such an important matter must be dealt with seriously by Li Tian.

"I thought you were a brave boy, you probably won't ask anyone in your life. Now it seems that there is still a little difference from what I imagined, you actually came to ask me It really surprised

me." Murongzi smiled and said: "But, since you have requested this, I will reluctantly agree to it, but these things must be kept secret. The three of them are here. My news here must not be known to others, or else I don't know what will happen."

"You can rest assured that what they survived this time must be very secretive, and no one knows about it now."

"Let them out."

When Li Tian released the three children, Nan Muye glanced at Murong Ziqing in front of him, and frowned for the first time: "Who is this person?"

"In the next period of time, you will slowly cultivate and grow here. The one in front of you can be regarded as one of your elders, or one of your masters. As for where you can grow, this It's something I don't know." Li Tian smiled helplessly and said.

"Hehe, are you afraid that we will cause you trouble?"

"It's not that you are causing me trouble, but I can't let you follow me right now. This is a famous and authentic place. The strength is not much inferior to your Baicao. The most important thing is that the strong here are like clouds, basically not If there is an enemy, you can practice with peace of mind here, so that you can realize the dream of your elders earlier. Isn't it like this?" Li Tian smiled helplessly, not thinking of his kindness, but it was not. Believed by these children.

"If you don't believe me, you can choose to leave here, but the shame should be here anyway. Once someone knows that you are a member of the Baicao Sect, it will be impossible for you to survive in the God Realm. The knowledge of this is your wealth, and it is also your drag."

"Are you sure, isn't your purpose to know something from us?" Nan Muye stared at Murong Ziqing in front of him. Although the one in front of him didn't look as evil as they thought, they didn't. I can really believe the one in front of me.

"Well, you will cultivate here during the next period of time. When your strength becomes stronger, many things can be solved very well." Li Tian said with a smile.

"Next, what do you want to know, how to make the condensing liquid and soul-returning pills? It's easy to know how to make this medicine, but you need to go to the northern cold land. Only in this place We can find the herbs we need. This process may take a long time."

"The Land of the North Cold?" Li Tian and Murong Ziqing were all stunned, a faint look of surprise appeared in their eyes.

The Northern Cold Land, this is a very famous place long ago. The reason lies in this place, but it has the existence of ancient modules.

Going to such a place this time is equivalent to finding trouble for the demons.

"Indeed, finding the materials we want in the Northern Cold Land is not as simple as you think. After so long, we have also encountered a lot of troubles. Every time we need to arrange a lot of powerful experts to pass. I can barely get some medicinal materials back. Now you are alone. Whether you can succeed depends on your strength. We can't do anything for you."

"It seems that in the next few days, you will start to be very busy again." Murong Ziqing smiled awkwardly. This Li Tian has just settled down, and now he needs to go out to perform the task again.

Chapter 5945: North Cold Land

There are countless dangerous places in the God Realm. Usually, many people find it difficult to find an unknown safe place in the God Realm. Except for the Central Plains of the God Realm, which is the range of activities of these immortals, in the entire God Realm. There are other places in it, but without exception, these places are very dangerous places in the entire God Realm. In these places that have not been explored, many things are not clear to ordinary people.

But this northern cold land is a little more famous than the land of no owner, because many people know why it is called this name, and also know where the danger is.

The climate in the Northern Cold Land is very harsh, and it can be said to be one of the few places with harsh weather in the entire God Realm. If you want to survive here, if you don't have a strong will, you are sure. There is no way to persist.

The climate in this kind of place is like hell. People living here have to endure a lot of torture, so few people have actually been here over the years.

Only after the defeat of a great war with the immortals many years ago, the demons were forced to a place where birds do not shit. They have been hiding here for so many years and rarely appear in other places in the gods. , The name of the Northern Cold Land came from this, once an immortal with poor strength enters the Northern Cold Land, you don't even need to know that they will be attacked by them.

These demons are far more dangerous than imagined.

"We have rarely set foot in places like the Northern Cold Land for so many years. I didn't expect that you immortals of the Baicao Gate would have been active in the Northern Cold Land for so many years. Your elders should have found some It's a way to communicate with the demons. Otherwise, if you only deal with these demons over the years, you will be overwhelmed." Murong Ziqing looked at Nan Muye and the two children behind him. , A faint smile appeared on his face,

In places like the Northern Cold Land, apart from those with the highest strength, few people will get involved. In such a harsh environment, the aura is very thin, and it is not suitable for human beings that require a lot of aura to cultivate. , So few people have entered this range over the years, and of course there are certainly some exceptions no matter what it is.

They were also very surprised a long time ago about the environment in this northern cold land, so they went in personally for a while.

So I knew what a terrible place this is.

"I don't know these things, but our Baicaomen will send some outstanding geniuses every once in a while, and they will be taken by the elders to the Northern Cold Land. Every time, they can return with a full load. Of course, there will always be people who do so. Injured, and therefore never come back. We have seen it many times so far, so there is no doubt that the legends of the demons in this northern cold land are all false."

"In that case, do I need to send you some people to protect you?"

"I'm enough by myself. Although I'm very curious about what kind of race the demons are, but if we really send a lot of people to protect me, our goal will be huge, so even if I want to hide I'm afraid I can't do the news of leaving here. I still don't want to let others know what I'm going to do. The Donggong family's goal has failed. Next time, they will inevitably launch a counterattack. They should also know about it. There are some other secrets hidden in the body, and this is the only way to start with me in such a hurry.

Li Tian shrugged helplessly. Although he helped Baicaomen in desperation this time, it was still a wish he had always wanted to fulfill. If he just looked at a huge sect and disappeared in history. In the torrent, no matter who it is, it will feel a pity. ,

What's more, in this situation, Li Tian desperately needs the help of their Baicao Sect.

Fortunately, the three children in front of them still have some research in this area, so the problem is not that big.

"I'll still send someone to come with you. If you just let you go by yourself in places like the Northern Cold Land, even I would be very worried about whether you can survive in this place. The hatred of humans is already quite serious. They even think that they can live very well without our humans." Murong Ziqing exhorted Li Tian with a relaxed look on his face.

This ancient and powerful race is said to be a race formed by the union of gods and demons many years ago. They have the blood of gods and demons flowing on their bodies, so when they are born, they are beautiful in appearance and powerful. .

Of course, God is very fair to everything in the world.

Raising a powerful race directly is an unstoppable pressure for many races. Therefore, the demons have always been difficult to thrive, and each of them has a very long life.

However, their ability to reproduce is almost absent.

In other words, it is quite difficult for the demons to reproduce their offspring, and it is for this reason that the demons have not been able to develop for so many years.

The glorious era of that year has passed. After a great battle, the demons suffered countless damages. For so many years, they have not been able to ease their vitality. Without enough people, they will naturally not be able to launch a war and seize their own territory.

What's more, there is a ban specifically for the demons in the northern cold land, so that they have not been able to leave the northern cold land alone for so many years.

"Trust me, there is nothing wrong with dealing with these guys alone, but it's just a demons. If I need to be careful with such opponents, I really don't think there is any need to work hard. People are growing. Now, I'm much stronger than you think." Li Tian looked at Murong Ziqing's worried look, and said with a helpless smile: "Besides, I always think you have no strength on me. What kind of suspicion? Otherwise, I wouldn't have asked me to do so many dangerous things so many times."

"That's because these things are all within my control, but this time going to the North Cold Land is different, everything is unknown, I don't know what will happen to you in this place." Murong

Ziqing shook his head. , Smiled bitterly: "If you die in this kind of place, everything will end like this."

Chapter 5946: Ximen Yeshou

"It is indeed like this. Our elders who have come back many times have told us very seriously. If you can, don't approach the portal to the northern cold land, otherwise it will bring you unimaginable dangers. , The demons in this place are quite powerful. Even if their numbers are small now, they are not something ordinary people can deal with. For so many years, all the luckiest people who encounter the demons will be seriously injured. It was killed directly."

"It's true. I let a person accompany you. You two can help each other. You can rest assured that this kid is also in the realm of gods, so there is no need to worry about him dragging you down, and he is a little older than you, so you will be more stable than you in this kind of thing. We can feel relieved to have such a person by your side." Murong Ziqing looked at Li Tian with a look on his face. With a clear expression, smiled and explained.

At this time, I was not worried that when this kid encountered such a demon, he really thought how powerful he was. If he didn't take this matter seriously, everything would be lost.

According to her original idea, she definitely wanted Li Tian to give up this idea, but after knowing the reason why this kid did these things, she didn't continue to investigate it.

For the sake of a Guo Xiangyi, this kid directly killed the city lord's son.

Although this is not the first time, but every time you do such a thing, you will not be particularly careful. From this incident, you can see that this kid is an emotional guy.

Once it makes him feel very uncomfortable, don't say that you are the son of the city lord, even if you are really the king of heaven, he dare to do it.

As long as Li Tian could handle it, he never frowned.

Now it's just a northern cold land, and this kid may not even take this northern cold land into his heart.

Therefore, he thought of the idea of sending a beetroot to this kid. If there is any danger, the two of them can help each other to provide something.

"In this way, what exactly we need to go to the Northern Cold Land this time, you always need to let me know what your goal is. If you don't even know your goal, how can you find it like this."

"The immortal lotus flower." When Nan Muye spoke, his little hand slowly condensed some immortal power in front of him, and then a very real black lotus appeared in front of them:

"Besides, There are also the fruits of Black Iceweed, Arclight Insect, and Blood Cursed Tree. These things are all things you must bring back this time, and it is important to keep them in a very cold environment. Once When exposed to hot temperatures, their original medicinal effects will disappear directly, and they may even have no effect at all."

"So many medicinal materials?" Seeing Nan Muye showing so many medicinal materials in front of him, Li Tian was still a little surprised. He thought that maybe he didn't need to take away much this time. Medicinal materials, it seems that I am still too young now, so many medicinal materials, even in the northern cold land, it is estimated that it will take many days to find it.

In addition, there are races like Demon Race in this place, which means that this time there is a high possibility that they will encounter Demon Race.

In this case, arranging someone to follow Li Tian might be a good choice.

Murong Ziqing looked at the unexpected expression on this guy's face and said with a smile: "Do you think the Baicaomen is so powerful, can you create this kind of herbs that can reverse everything by relying on some simple herbs?"

"Aren't these things in Shuiyue Sect?"

"We are only famous and authentic here. There are indeed some materials for refining herbal medicine, but the materials that this kid said are not available here. You have to know that these things are difficult to find even in the entire God Realm, not to say how many they are. It's just that these things are very harsh on the conditions of their growth environment. If they are different, then there must be no way to grow." She squinted and said seriously.

"It is indeed like this. My elders thought about planting these herbs in the Baicao Gate a long time ago, but later gave up this idea. The environment of the Northern Cold Land can be said to be a unique environment in the entire God Realm. , There is no way to replicate everything here, so naturally there is no way for these herbs to grow in the territory of our Baicaomen." Nan Mu Ye said calmly.

This young child made Murong Ziqing very interested. At such a young age, he looked only **years old, but this child really knew a lot. It seemed like an encyclopedia. Similarly, it is no wonder that the Baicao Gate can stand for so many years. With such young geniuses, it is difficult for them to disappear into the trend.

This time, if it weren't for many special reasons, even if the Donggong family sent so many people out, it wouldn't make much difference.

In the face of absolute power, what quantity can bring is nothing more than delaying time.

"The person I introduced to you this time is called Ximen Yechou. He is a very good disciple in our Shuiyue Sect, but he is a little older, so he can just help you." When Murong Ziqing spoke, Stepped forward and patted him on the shoulder: "You have to be careful, no one can protect you in such a place. Although I don't know why you are so bold, I think someone must be behind you. Right."

"In this God Realm, besides you are still interested in me, is there anyone else who would be interested in people like me? I don't know how many people want to kill me, and they say they're still interested in me. There are others behind him, which is too interesting. I have never said such a thing." Li Tian shrugged helplessly. In his current state, it doesn't look like someone is supporting him.

But Murong Ziqing can see it so easily, which means that he still considers too little when doing things. He didn't expect such small details to figure out something better than this woman, and he felt more right in front of him. Murong Ziqing became worried.

Chapter 5947: Team up

"Don't worry, I can't predict everything, but everything can be judged by some details. Although you are very hard-talking now, I know it is fine. It doesn't matter whether it is true or not. "Murong Ziqing took a step back, then sat down in his seat and looked at Li Tian with a smile: "This time I

go to the Northern Cold Land, I can't pay attention to you like I did before. This restriction is very strong. It was set a long time ago by a strong man who was many times stronger than many of us, which also cut off the communication between the demons and our humans."

"In other words, we can now enter the northern cold land, but the demons have no way to get out of this place. Do you mean that?"

"Of course that's what it means. If the demons can leave the Northern Cold Land, do you really think they will keep a low profile and wait for the opportunity after so many years? Certainly not. It will be possible to survive in a place like the Northern Cold Land. It makes their entire race more likely to die. In this place, apart from hating the harsh weather conditions, there are still countless monsters, which are the wild and wild animals in our mouth. These creatures are also threats. This is an important part of their survival."

After hearing Murong Ziqing's explanation, Li Tian began to sympathize with this race a little bit.

Under such circumstances, they could still exist for such a long time. Such tenacious vitality must be enough to make others admire. Li Tian also never thought that the Demon Race's ability would be so terrible.

Under such harsh climatic conditions, coupled with the attacks of monsters, such a race can continue in the God Realm for so many years. If they leave the Northern Cold Land, it will definitely make the entire God Realm uncomfortable. Peaceful, this point is definitely beyond doubt. These people in the God Realm have given them such a bad condition. If they can really leave from it, they will not retaliate.

It's just a pity that even if they have this idea in their hearts now, it doesn't make much sense.

It is obviously very difficult to leave that prohibition, so for so many years, they can only vent their anger on these immortals who accidentally entered the northern cold land.

This is why, for so many years, people who have entered the Northern Cold Land rarely come out alive.

They have all been killed by the demons.

After slowly learning this, some people began to dispel the idea of going to this place. Although the herbs in it were abundant, opportunities and dangers coexisted.

At that time, it seemed that many people were sentenced to death after entering the Northern Cold Land. No matter how strong you are, it has no effect. In this place, you are just like a helpless old man. I watched as I was dominated in such a place, but I couldn't find a way to change this situation.

"Okay, having said so much, you haven't seen the companion you are going to work with next, so you must feel unreliable in your heart, come with me, let the two of you meet, so that you can meet. The actions coming down can be smoother."

"These three kids?"

"The three of them will stay here. This is the back mountain forbidden area of Shuiyue Sect. Very few people come here without my permission. They stay here in a fairly safe place. Others know that they are here, you can rest assured." Murong Ziqing looked at the three of them and said: "Of

course, the premise is that the three of them also cooperate with me. If you really want to let many people know them I can't stop it."

"I see, the three of you will stay here for a while, but you must listen to the words of the predecessor in front of you. Don't think about rebelliousness and do something that you will regret for a lifetime. You are the hope of the Baicao Gate. If I can't protect even the three of you, then the entire Baicao Gate will disappear like this, and there will be no one behind the knowledge in you. From a very high point of view, this For the entire God Realm, it is a huge danger.":

"The three of us know very well what our current situation is like. During this period of time, we will honestly practice here."

After Nan Muye agreed, Li Tian and Murong Ziqing left. As for what will happen to the three children next, he is not particularly worried. Shuang'er's previous accomplishments have told Li Tian that this woman looks right. I don't have good intentions, but I'm quite authentic in handling some things. Even if I promise you something, I won't regret it anyway.

And once it's something agreed from your side, it will be very serious and will spend a lot of time doing it well.

There must be no way for these three children to practice well with Li Tian. It must be quite difficult to recover the entire Baicao Sect if you want to make yourself stronger one day.

But with Murong Ziqing's side, there is no way to say everything.

Walking on the bluestone path, how excited Li Tian was at this time is hard to describe in normal words. Even he himself felt that his emotions seemed to be out of control.

"It's not the first time you have come to Shuiyuezong, but there are still many places here that you haven't been to. Have you thought about going around here someday?" Murong Ziqing asked.

At this time, Li Tian's mind was still on the three children. When he came out, he didn't see Shuang'er. Is it okay for the three children to be there?

"I asked Shuang'er to prepare. She will take care of these three children for the rest of the time. Don't worry, she was sent in by you. Now let her take care of these three children. Do you feel more at ease than taking care of me?"

"I haven't doubted anything. I'm just worried that these three children are naughty and not so good. You know that children of this age have very simple thoughts at this time..."

"You and I are very clear. These three children are not as simple as they seem. We can't determine what they are thinking about. Is it a conspiracy created by Bai Cao Men? Judging clearly." Murong Ziqing interrupted Li Tian and said, Nan Muye was so smart that she didn't believe it very much.

Chapter 5948: Exhort

But it's just a **year-old child, who should be quite naughty at this age.

But there is no such factor in Nan Mu Ye's body. He is like an old fox, who can always figure out your lifeline at critical times.

"This kind of thing is not something we can think of clearly. It doesn't matter if Baicaomen planned all these things on its own. It is close to the three children, but they can't do anything in time. Wait

until we find out. Something is wrong, so naturally I have more time and strength to deal with them. Besides, you are the Sect Master of Shuiyue Sect. With your strength, can't you find out?"

Murong Zi cast her eyes to look at Li Tian next to her. The way this kid speaks is still the same weird as before, making it hard to figure out what the purpose of this guy is.

When they were speaking, they had come to the periphery of the forbidden area. At this time, there was a girl standing here.

Just from the appearance, this girl is a bit older than Li Tian, she should be the Simon Yesor as mentioned before, wearing a white sword robe, holding a blue and white scabbard in her hand, although It didn't get out of the sheath, but you could feel it when you were far away from the sky. The sword in the girl's scabbard was much more complicated than they thought.

"You should be Ximen Yeshou, Sect Master Murong told me a lot about you before."

"I will go with you this time. If you encounter the Demon Race, they will leave it to me to deal with it. You only need to run away." Ximen Yechou did not answer Li Tian's question directly, but was so abrupt. In response, the two people in front of him were stunned.

Murong Ziqing wasn't particularly surprised. This girl's indifferent character was not a day or two. She would say such words, strictly speaking, it was in her imagination.

But Li Tian didn't expect that, although he knew that all the women of Shuiyue were strong women before, but after seeing them so many times, no one can underestimate himself, and then look at the appearance of the woman in front of him. He didn't put Li Tianji in his eyes at all. If he really met the Demon Race, he might let such a woman help him block, and then leave by himself?

"If you speak like this, you are underestimating me. You are a woman and I am a man. If you are in danger, I should stand up to protect you, not you to protect me, so you should understand me. What does it mean? I don't need the protection of a woman. Even if I go to the Northern Cold Land by myself, I can still come out alive." He said in a ***** manner, Ximen Yeshou's attitude really made Li It was very irritable at first, and I could be underestimated by others anytime.

Seeing Li Tian like this, Murong Ziqing smiled faintly on the side, knowing that there might be some conflict between these two people.

It's just that she didn't expect this situation to come so quickly, she didn't even think about it, and it just started.

Ximen Yechou squinted at Li Tian in front of him, snorted coldly, and said, "In this way, you seem to be very confident in your own strength. At this time, you don't even take things seriously. Can I understand this?"

"It's really like this. If a person doesn't have the most basic trust in himself, he might as well just die. It's just the land of the North Cold, but just some demons. What about it? My words, dealing with them will also be very easy." Li Tian looked at the woman in front of him angrily and said with disdain.

"I hope it really is like this. When you really get the Northern Cold Land, you will know that it is impossible to defeat them like this!" She squinted at Li Tian in front of her, her eyes There was a touch of contempt in it, and the only one who wanted to stand in front of him was just a young man who didn't understand anything, and he didn't even care about such a young man.

Seeing that Li Tian is going to continue the theory, Murong Ziqing hurriedly said to stop: "It doesn't make much sense for you to continue to say this. If something happens, you will still need the help of the two of you to survive the past. , Such noisy words will do no good to any of you. In this kind of place, all you encounter are quite dangerous opponents. You should help each other at this time, instead of starting to conflict with each other like you are now. "

"Sect Master Murong, you have also seen that I am a man. How could I be insulted like this? After seeing the demon clan, let me leave here alone. If I really did that, I would not leave with you. ."

"Okay, okay, stop arguing. If you have something, you can solve it slowly on the road, but before that, I still have to explain to you something. No matter what, I have to leave the Northern Cold Land alive. Within our sphere of influence, not only the demons are very dangerous to you, but other forces may also have some ideas about you."

"Over there in the Northern Cold Land?"

"There is a force called Nangong. They look like an empire, but the area is not very large, but the masters in this Nangong have shown great interest in you so many times. If you come this time If you are close to Nangong, they may make things difficult for you, and even find ways to kill you. This is very likely to happen. This is why I tell you not to quarrel now. You can only find out when you really fight. Only when you trust each other, you can cooperate better. Otherwise, you will only have a choice of failure. I don't want the two people I chose to do nothing, and then just like this, others will kill them. "Murongzi said with a deep hatred that iron cannot become steel.

This time on this road, no matter what place they went to, it was much more complicated than they thought. Li Tian, the enemy of this kid, was really much more than he thought.

Not only the enemies in the lower realm, but after flying to the ***** realm, the enemies also increased.

"Of course, it is not without good news. I heard that the Zhuge family is also active there during this period. Maybe you can meet their team, maybe you can get some help in this way."

Chapter 5949: set off

"Why did the Zhuge family also participate in the affairs of the Northern Cold Land? Is it just because of a decision of mine, these people..."

"We haven't had time to investigate this matter. Maybe it's because something went wrong in the Northern Cold Land. Many people have passed by. You have to pass through the teleportation array now, but it will take a while on the road. Time." Murong Ziqing said as he began to lead two people towards the teleportation formation. This is a very necessary passage for Shuiyuezhong to various places.

Only here can you go from the Shuiyuezhong to many cities.

Li Tian followed Murong Ziqing, his eyes would fall on Ximen Yechou's body from time to time, and he was very curious about what secrets this woman might have.

Coupled with the power of the sword in her hand, it is even more suspicious.

And in terms of strength, this woman is also quite a master, even standing in front of Murong Ziqing, her aura has not been completely suppressed.

Just looking at it from this point, this Ximen Yeshou is definitely not a very simple woman.

Soon, the two of them came to the Teleportation Array. Only then did Murong Ziqing stop: "The main city you are going to this time is called Tianfang City. It is a city under the Emperor Beidou. You can I got a lot of the resources I needed, but after leaving Tianfang City, whatever you need, you have to arrange it yourself. I have arranged everything before, just wait for your departure."

"I really suspect that you are like a roundworm in my stomach. How did you know that I was going to the northern cold land?"

"Don't ask so clearly. Sometimes being confused is not a bad thing. When you are truly clear, you will hope that you will be as confused as you are now. Since it is like this, you still do nothing at all. I know it." Murong Ziqing looked at him with a puzzled look, knowing that if he didn't tell this kid something, he would probably die.

Li Tian is indeed uncomfortable. All his actions seem to be under the control of this woman. Just like a prophet, he can always know exactly what you will do next, no matter what the situation is. It would be the same as Li Tian's current state if it was put on anyone, with a look of bewilderment.

"Sect Master, the charging work of the teleportation array has been completed, and the other side has also passed through it. This time the action is absolutely very secret and there is no problem." At this time, a disciple on the side cautiously stepped up. Before, whispered.

"If there is no problem, just turn it on. A lot of time has passed now, and there is not much time left for you. If you still want to race against time, use your mind on the road instead of calculating here. I'm here." Murong Ziqing looked at what he was thinking about here, so he had to say: "If there is any need, please solve it in Tianfang City."

Li Tian nodded, and then took the lead to step into the teleportation formation, glanced at Ximen Yechou, and then stepped in.

When he opened his eyes, a very dignified middle-aged man appeared in front of him: "This is a unique teleportation formation of our Tianfang City and Shuiyue Sect. Under normal circumstances, this teleportation formation will not be activated, only It will be used in some special situations. It seems that you should be the special situation they said."

"you are?"

"The city lord of Tianfang City, Ye Gucheng, also got the news that you are going here before. It has been arranged here. If you have any needs, you can tell me directly."

Li Tian nodded, and was even more certain in his heart. The news that he came here seems to have been known to Murong Ziqing long ago. No one knows if this is a secret between them and Baicaomen. Conspiracy, but these don't matter. The goal now is to seize the time to go to the Northern Cold Land. Since the Zhuge family and some other forces have come here, it is also time to fish in troubled waters.

"There is nothing needed, we can leave here as soon as possible, and enter the Northern Cold Land, the things here are actually not very useful." Ximen Yechou said that the first time he came out of the teleportation formation. In a word, then he glanced at Li Tian faintly: "Of course, if you feel that the equipment you have now is not very safe, you can bring more things."

"I need some talisman paper."

"Talisman?"

"Indeed, the more high-end talisman paper appointments are made, I can make good use of these things. As for other problems, I don't need your help. I can solve them by myself." There were many spells, and it didn't cost much to travel to the Bordering Land this time. This time, he had only had a fight with the white tiger in the past.

Most of the rest of the time was paddling, and I didn't meet any great masters at all.

But now it's different. If the Northern Cold Land is really that powerful, then even a little witch, there should be no way to follow in, or she still has other ways.

There is currently no way to make it clear.

After Ximen Yeshou came out, he glanced at the night: "It was rumored that you would spell spells?"

"It can spell, and it's not an ordinary spellmaster."

"A spellmaster is a spellmaster. There is no difference between an ordinary spellmaster and an unusual spellmaster. Fighting by this kind of thing is not a skill, and it does not improve your own ability at all. But it's just speculation." She said coldly, with an expression of disgust on her face, looking at the look of disdain for Li Tian in front of her.

After all, her cultivation base and age are above Li Tian, naturally there is the feeling that I am better than you, and I speak better than you, and now I don't have much respect for Li Tian in front of me.

Although this young man was well-known in the previous God Realm, what kind of genius is rare in a century, but what about it?

Even if he is really strong, isn't he still not as strong as himself? For this kind of guy who is not as good as his own, of course there is not much meaning to give him a face.

Seeing Ximen Yeshou's expression, Li Tian shrugged helplessly, then glanced at Ye Gucheng: "These are these things, and I don't need the others."

Chapter 5950: More successful

Looking at the two seemingly unfriendly two people in front of him, no one knew that these two people had some opinions on each other.

Ye Gucheng smiled slightly and said: "Since the two of you are still going to rest here for a day or two, why not go to my mansion, it is also very safe there, you don't have to worry, I have already arranged it. Now, we will keep your whereabouts strictly confidential, and no one else will know your news here." He looks very kind, which is reasonable.

One of these two is from the Shuiyue Sect, and the other is a genius who has become a genius recently. Anyway, be kind to them.

Even Li Tian, who had previously fought against the Emperor of the Big Dipper in Tianqi City, shows that this young genius is quite fancy in the eyes of the Emperor of the Big Dipper, otherwise such an identity might condescend to be such a young man. Do people fight?

Just such a small move can easily show that the future status of this young man is definitely not unimaginable for ordinary people. If a young man of this status doesn't care, who cares?

"It is true that we need to stay here for a while, but not for a long time. We are going to set off directly today. The problems in the Northern Cold Land are getting more and more serious. All the forces have gathered here. We don't know where we are. Something happened on the side, so it's time for us to act anyway. It's impossible to waste too much time in Tianfang City." Li Tian smiled slightly, as he rejected Ye Gucheng's kindness. There are very important things to do, and it is reasonable not to waste too much time here.

Ximen Yeshou snorted coldly, "I said that I can't waste time, but I still talk nonsense here for so long."

"If you don't speak, no one treats you as dumb. If you don't like me, you can leave here alone. It doesn't matter if I go to the Northern Cold Land alone. If you can't do it, just follow me honestly. , Don't say anything." Li Tian didn't have a bad temper, and the usual embarrassing scenes have survived, but today he can't stand it anymore.

Originally, he and Simon Yechou should have no personal grievances. This is the first time the two have met. Is there anything wrong with regard to each other? Obviously not.

But just because of this, Li Tian feels incredible. Everything this woman says and does everything seems to be aimed specifically at Li Tian.

No matter how good the temper is, there is definitely no way for a person to accept such a thing, and naturally they will completely burst out their emotions.

Seeing that Li Tian was angry, Ximen Yechou still didn't mean to change, but he didn't continue to speak, and calmed down.

Looking at the appearance of these two people, Ye Gucheng also began to worry in his heart. In such a dangerous place as the Northern Cold Land, they have rarely set foot in these years, because once in, it is really difficult to come back alive.

These demons have a very bad view of them, and they can't wait to cramp them, and of course they won't show them the slightest good face.

But look at the appearance of the two people in front of you. They were originally going to cooperate with each other to enter the Northern Cold Land to perform tasks, but at this critical time, they can still make such a noise. How can such a state be in the Northern Cold Land? How to coordinate with each other? It's just that they will think about their own affairs, and will not take care of others at all.

"This hasn't even entered the land of the Northern Cold, you have started quarreling like this. If you really encounter any problems inside and need to discuss with each other, then it's even more impossible to change anything. Since Sect Master Murong asked you to If you cooperate with each other, you should let go of your prejudices about each other. After all, it is only possible for you to work together to complete the task better. Such noisy has no result, right?" Ye Gucheng smiled awkwardly.

"Lord City Lord laughed. I don't know where I offended this woman. She was like this when we first met. I have nothing to do. I can trouble you to hurry up and find some talisman paper. We Ready to leave today."

"So anxious?"

"It is indeed like this. We could have relaxed a little bit, but looking at the situation in the North Cold Land, I am worried that something that we don't know has happened. Under such circumstances, we should hurry up and deal with them. , Dare to hurry up in front of anyone to figure out what happened, and this will lead to the current situation." He said with a helpless smile.

"Well, I will arrange for someone to go there. You can wait here for a while."

After Ye Gucheng finished speaking, he went down to make arrangements. Li Tian and Ximen Yechou remained here, and the guardians and initiators of the surrounding magic circle all retreated.

Ximen Yeshou sat down on one of the chairs, staring at the teleportation formation in a daze, but he didn't pay attention to Li Tian, as if there was no such man in his eyes.

Seeing this woman's expression, Li Tian felt rather helpless.

"I really don't know what I have offended you, and made you hate me like that, even once or twice. It's certainly not unreasonable for you to say so many times. Let's talk about it at this time. It's time to enter the Northern Cold Land. Even if you want to communicate with our enemies, you won't give us this opportunity. At that time, it will only be even worse for the two of us.

"This has nothing to do with you. It's impossible for someone like you to complete the mission. That's why the Sect Master asked me to come with you." Ximen Yeshou still said with a stern face, looking like this. It seemed that he was not interested at all in what Li Tian said.

In the next few hours, after getting the talisman paper, Li Tian began to make some advanced charms. Of course, these charms were definitely not as simple as he thought. Many charms failed to make.

The success rate is very small, even if it is successful, it is still of low quality.

But even this kind of charm can also play a key role in this time in the North Cold Land.

After doing all this, they will be considered ready for everything.
