

## A Killer 5951

### Chapter 5951: Iriyama

"Can you really let Simon Yeshou do this? You also know what happened to this girl. I thought you wouldn't let her get close in your life."

Murong Ziqing slowly opened his eyes, looked at the white-clothed man standing in front of him, and said, "We always have to face it. Avoidance can never get rid of everything. At the beginning we thought that time can change together, but now it doesn't seem to be. In this way, even time can't let a person's inner fear dissipate."

"So you let him and Li Tian go over this time, just want to remove the hurdle in his heart?"

"If you can, it would be the best. This girl followed me in cultivation before, but after that incident, the whole person started to stay in place. There has been no good progress. This time it happened to be a good one. There is a chance that Li Tian is very capable, even without our attention, I think he can still survive this dangerous situation."

"This is the first time I have seen you place such a high value on a young man in so many years. I thought this young man was nothing in your heart." Looking at the calm expression on Murong Ziqing's face in front of him. Obviously, a lot of calculations were made in this matter, otherwise Ximen Yeshou would not be handed over.

---

The Northern Cold Land, as the name suggests, is a very cold place in the north.

The climate here is bad, and it can be said that it is a place where many creatures cannot survive. However, it is precisely because of the bad climate here that it is inaccessible to people. Instead, it becomes a place where some magical medicines and monsters gather.

In addition to the powerful demons here, there are even more powerful spirits and monsters. These creatures are all the most dangerous in the Northern Cold Land.

This is also why few people have entered the Northern Cold Land for so many years, because these monsters and spirits are too difficult to deal with. If they entangled here, it is equivalent to sentenced to death.

After so many years of development, the demons seem to have given way to these monsters to a certain extent. They have no intention of choosing to interfere with each other. This also allows them to better in this harsh environment. Survived.

When Li Tian and Ximen Yechou came here, the entire Northern Cold Land was still in darkness.

"This is the land of the North Cold. It seems that we haven't wasted any time on this road. We haven't seen anyone else here, so we should be the first to come here."

"Not everyone who comes here has to tell you that they have been here, they may have gone in." Ximen Yechou said coldly.

Glancing at this woman with a very cold expression, Li Tian shrugged helplessly. Such a woman really feels that she has no way to communicate.

Fortunately, after the previous anger, this woman seemed to know that she was a little too much doing things like this. The time in the next few days was much less, but the expression on her face was still not. The slightest change seemed to be deeply rooted, and could not change his opinion of Li Tian. Of course, Li Tian could not force her to do anything.

As long as you don't block yourself, it's enough. As for other things, the two of them negotiate and handle it.

"Since it's like this, it certainly doesn't make much sense for us to stand here. Take the time to enter here and see what the situation is like. It just so happens that I also want to know what kind of place the Northern Cold Land is. It deserves so much attention from so many people. In my opinion, there is nothing to be afraid of in such a place." He smiled and said calmly.

"I'll know after you get in." Ximen Yeshou said coldly, and then walked in first.

Seeing Ximen Yechou entered, Li Tian also hurriedly followed the woman in.

The first time you enter the northern cold land, you feel the bone-to-the-bone cold. These cold air is pervasive. As long as there is a little gap in your body, they will get in, or even directly into your body, let you I felt my body started to become very cold at this time.

So the two people shivered the moment they came in.

"Sure enough, such a cold place is very suitable for this name. If it is from the general humane side, it will definitely not be able to bear this kind of cold now. This kind of cold even makes people feel that it is directly acting on one's soul. "I shook my body, feeling the fairy power in my body slowly turning around, and then my whole person became much better.

Unlike Li Tian's astonishment, Ximen Yechou appeared calm, as if he had become accustomed to such scenes.

At this time they really started to observe this mysterious world.

In front of them is a dense forest, but all the plants here have not been seen at all. I think the plants that can grow in this harsh environment must be similar to those they have seen before. It's a world of difference, maybe even a completely different kind.

These plants are not only growing, but also extraordinarily mason. The dense green branches and leaves obscured the sky above the head, so that the forest was dark, because the sun's rays were no longer felt, which made the temperature here even lower and made many people clearer. I felt the cold temperature here, which is the power of the Northern Cold Land.

Such a cold temperature, even the poles on the earth are completely different grades from here.

"The creatures that survive in this cold environment will inevitably undergo many heavy tests, and after they have just arrived, they will definitely need to undergo large-scale elimination. The difficulties in this process are also unimaginable by many people."

"It's really like this. That's why the Mozu has always had a bad attitude towards us for so many years. It's all because of us that led them to where they are now. It is reasonable for the Mozu to hate us." Ximen Yeshou said a word, almost making Li Tian suspect that the person in front of him was not the Ximen Yeshou he knew.

"When you get here, you have to look after yourself. No one can protect you. It all depends on your own ability." She said.

#### Chapter 5952: First appearance

The most intuitive feeling brought by entering the northern cold land still makes Li Tian uncomfortable. Even his cultivation of the gods realm is also very stressful in the face of such a bone cold.

This kind of cold is completely different from that on the earth. Even if they have a body of the fairy level, they still can't persist in the face of this kind of cold, and they must use the power of the immortal to continuously in their body. Run, so that you can create some temperature, so that your body will not become so stiff.

The clothes on his body have also thickened a lot, but it still doesn't help.

The ground was covered with snow nearly half a meter later. After a person stepped on it, he felt that he was going to sink in. The road was quite difficult.

The two people rarely communicate, only relying on some gestures on the top to communicate how to act next.

In this harsh and cold environment, no matter what kind of strong you are, you must use your own fairy power to ensure that the temperature in your body will not disappear completely. This process obviously takes a long time. of.

Moving forward step by step, they didn't have a specific direction. It's just that Nan Mu Ye had told them where these herbs were grown before, and now this is obviously not enough, and they must continue to go deeper.

"These herbs are very fond of such an environment. Such an environment can't be simulated outside. This is why these things become unique here, because everything here cannot be simulated outside." Ximen Yechou looked at the expression on Li Tian's face and said in a low voice: "We will continue to go to the back. Just be careful on the road. We may meet the demons."

Demons, what exactly this race looks like, there is still no clear conclusion.

But if you encounter them, it will be a very difficult process. This kind of extremely powerful race by nature can inevitably show many places that many people can't imagine when fighting. There is no doubt about this point. .

Li Tian didn't dare to continue wasting too much time here, and the pace under his feet was also subconsciously quickened.

Their speed here is getting faster and faster, but soon they still found some traces on the ground, some traces of other people entering here.

Thinking of people who haven't encountered any forces here before, it may be because they have entered here beforehand, and they have not left any traces outside, which naturally gives people an illusion.

'I didn't expect them to act so quickly. It seems that things inside the North Cold Land should be very anxious. They can't wait any longer. They started acting so anxiously, but so many families

began to pay attention. In this case, what happened? Looking at these footprints on the ground, Li Tian slowly fell into a state of contemplation.

He didn't know what caused this situation, so that so many big families would all send their own teams here.

You must know that for the moment they see these conditions are quite bad, and once they encounter these dangers, it is extremely difficult to change.

"This team looks like there are about 30 people. According to the ratio, there are at least \*\* or so powerful masters. Such a team enters a place like the Northern Cold Land, even if it meets the demons. I'm afraid they also have the power to fight. It's no wonder they didn't choose how much time to wait outside, but took such anxious shots. They didn't worry about what the Demon Race could do to themselves."

"If it is such a team, there is no need to worry about entering such a place so easily. Their own power is enough to deal with some small teams of the Demon Race, but if they encounter the large-scale Demon Race As for the team, they also have the strength to fight and can barely escape, so there is no need to wait outside for a good opportunity, just dispatch them directly." Ximen Yeshou nodded, agreeing with Li Tian's current view.

These people are very aware of the power of the demon in this forest. It seems that they have done this kind of homework before, or do they know the situation here a long time ago, so they can act so quickly?

These are all unknown things now, but the only thing told them is that besides the two of them, there should be more immortals in the Northern Cold Land.

"With so many immortals, it is not difficult to imagine what the next move of the Demon Race will be. It seems that our luck this time is really not good. We may encounter a large-scale Demon Race army next time."

Ximen Yeshou snorted: "If you are afraid, it is still too late to leave here."

"Haha, have you ever heard of when I was scared and when I ran away? I have already warned myself secretly in my heart. I can't hold back for the rest of my life, even in dangerous situations. Rush up bravely." Li Tian sneered and said disdainfully. Even if the current situation looks complicated, it is impossible for Li Tian to shrink back like this.

He had his own belief in his heart, and he should never go back.

Retreating means losing. He would rather die with his brothers and friends than survive alone. Such a situation is too painful and unacceptable.

"Be careful, let's hurry up and go ahead. Although the two of us don't need to worry about them, if we really meet the demons, it might not be so easy to get rid of them, so this This is the best way to avoid collisions with them along the way. Even if you accidentally encounter them, there is nothing to say, but you can only choose to fight with them." Li Tian shrugged helplessly and said.

He smiled and looked at Ximen Yechou in front of him, and then passed to the front.

Ximen Yechou looked at Li Tian's back and sneered and said, "I don't believe that you will really have no fear of the current situation. When we really meet those guys, you will know what you are. The courage at that time was all wasted. After seeing them, you don't have any courage to fight."

"In this world, there are not many people who can make me lose confidence in battle."

#### Chapter 5953: Xuanbing Demon Snake

In the following process, Li Tian and Ximen Yechou both began to become cautious.

They couldn't help but look like this. Compared with the previous team, they are too weak now. If they really meet the demons, they will find a way to leave, and there is no chance to defeat them. ,

It is said that although one of these demons here has a strength higher than that of divine cultivation, even some of the older ones may have reached the fighting power of immortals or even higher levels.

So once you meet them, there is really no possibility of winning. The best choice is to hurry up and disappear from them, so that you may still survive. ,

The two people on the road are so careful that they need to take precautions. If they find any unexpected movement around, they can choose to leave here at the first time.

"I really didn't expect the current situation to become this way. If we didn't have them, we wouldn't need to worry like this now, but because they came here, we need to be a little more careful now. Once we meet the demons As for the large army, you must not speak, I will take you directly and leave here." Li Tian, who was walking in front, said to Ximen Yeshou behind him.

Getting along in such a short period of time also gave Li Tian a different view of this woman.

In the Northern Cold Land for such a period of time, he has already seen the harshness of this place. If it is an ordinary woman, he will definitely start complaining here.

But Ximen Yechou hasn't said a word until now. Li Tian's speed itself is also very fast, but she has no intention of falling, and has always followed Li Tian closely.

It is said that women's talents in these areas are not as good as men's from the beginning, but it is not like this at all.

"We should be much closer to our destination now." Li Tian stopped. There were no footprints on their side, even the footprints of some monsters.

"What's going on here? It has been a long time since we got here to say anything, but so far we haven't seen a monster, nor have we seen a trace of a demon clan's activities. It should be like this." Ximen Yeshou also stood still, with such a puzzled expression on his face. Their current situation is really weird.

"It's true. I haven't even seen any traces here. It seems that these creatures don't exist here. But we all know that such a thing is absolutely impossible. The monsters in the Northern Cold Land are so powerful. They are all places that we know very well, how can there be no clues so far?" Li Tian frowned and asked very seriously.

The situation in front of them is indeed too weird, making them wonder if there is anything they don't know.

"Go ahead. Although this situation is very strange, we can't continue to waste time here. If there is any problem, we can find a way to solve it." Li Tian said indifferently. The situation is also outside the scope of consideration, but the danger of staying here is a little bit more dangerous. I have not yet seen the demons. They do not know when they will suddenly appear in front of you, in order to avoid such a situation. , Now it is natural to seize the time to leave this place of right and wrong.

After the two people discussed it, they started to move faster, and the speed on the road was a little faster compared to before.

I thought that the road should be quiet, but I didn't expect that just a few minutes later, Ximen Yeshou heard a muffled voice.

Li Tian hurriedly stopped and asked, "What's wrong?"

"I... I seem to have stepped on something." Ximen Yechou raised his head and slowly pulled out his left leg from a pit. They could see that there were still many broken pieces in the pit. The eggshells, these eggshells are full of strange creatures, which look like something like a snake.

"Get out of here now. It shouldn't be a problem." Li Tian didn't have any special feelings when he saw these broken eggshells. He would also often encounter such situations before, but it was just some eggshells. , Maybe some creature left it, leaving here now is the most critical thing.

"En." Simon Yechou said as he prepared to deal with the mucus on his body.

But at this moment, a small snow-white snake suddenly shot out from the snow. The eyes of this snake are all white. If you are still on the snow, you can't tell where the snow is. , Where is the snake.

And this snake moved very quickly, almost in front of Ximen Yechou in an instant.

At the moment when it was about to be bitten, a ball of fire flew over and hit the little white body, causing the little white body to fly out, and was wrapped in flames in the air in just a few seconds. , It turned into a plume of smoke and disappeared.

"What is this, why haven't we found it before?" Li Tian's eyes widened. The movement of this little white snake was really too fast. If it weren't for the state of being in the realm all the time before, maybe it is now Ximen Ye Chou has been attacked.

"Hurry up and get out of here." Ximen Yechou suddenly roared, and then he started to leave here quickly.

Seeing this expression on this woman's face, Li Tian also had an unclear look, and said: "What's wrong, this snake is dead, why are you so worried?"

As he rushed past Li Tian, he said loudly, "This is the mysterious ice demon snake. These individual demon snakes are not very powerful, but they live in groups. When you see a mysterious ice demon snake , It means that there will be more mysterious ice devil snakes around you, which is why we can't see traces of other creatures here, because they have been eaten by these mysterious ice devil snakes."

Before Ximen Yechou's words were finished, he saw a lot of mysterious ice snakes appearing on the surrounding snow.

The previous disguise of these mysterious ice devil snakes is really speechless. You will find out when they really appear, you don't know when you have entered their attack range, and you are still surrounded by them. Unable to leave such an embarrassing situation.

Chapter 5954: Group attack

‘Hiss’

The bodies of these Profound Ice Demon Snakes are truly snow-white, and they are perfectly integrated with the snow. If you don't observe carefully, you really can't find that there are so many strange creatures beside you.

Li Tian has indeed discovered it now, but it is difficult to find a way to deal with these guys.

It seemed that there were at least thousands of mysterious ice devil snakes around.

"I didn't expect that we would have fallen into their encirclement without knowing it. It's just that they didn't take the initiative to attack before, which surprised me a bit." Li Tian said suspiciously, knowing that snakes are cold-blooded animals. They shouldn't be active in winter, but these mysterious ice magic snakes are obviously not like this.

They seem to have chosen to act specifically at this time.

Moreover, the way of hunting prey is completely different from that of ordinary snakes. They wait for the prey to get into the trap by themselves, and then take action.

"I think it's because I stepped on their snake egg to make it look like this." With a bitter smile, both of them knew what Ximen Yechou had stepped on just now. It should be this. The snake eggs of the Xuanbing Devil Snake, their descendants were trampled to death, and these Xuanbing Devil Snakes didn't mean to wait for you anymore, they just started to do it.

Seeing the situation in front of him, Li Tian stepped forward, squeezing out a few spells in his hand: "You stand at the back, then give it to me."

"Your body hasn't improved. At this time, it is too reluctant to deal with these mysterious ice devil snakes."

"It doesn't matter. I know my current state very well. Although my injuries are indeed not fully recovered, there are a lot of spell classes in my hands. These mysterious ice snakes want to take advantage of my hands, but it is fundamental. Impossible things, today I will let them know what is going to happen against me." When Li Tian spoke, all the charms in his hand were thrown out like this.

At this moment, the explosion sounded endlessly, and many of the surrounding mysterious ice magic snakes were all killed.

But when they look like this, they seem to be very powerful. In fact, they have not produced much help to the situation in front of them. The number of mysterious ice snakes around is still increasing. You don't know how many these creatures are. You can only see the mysterious mysterious snakes that are slowly poking their heads out beside you.

"Damn, the number of these profound ice devil snakes is too much. There is no chance to leave here at all. You are close to me and we leave here." At this time, Li Tian and Ximen Yechou are still a

little apart. They can only leave here by the way of void migration, but if they want to use the way of void migration safely, they have to get closer.

But at this time the distance is still far, he can't do this.

"Damn, you get closer to me, so that I can let you and I leave here at the same time."

"It's useless, these mysterious ice devil snakes have high intelligence. They know that we are more difficult to deal with if we are together, so it is ready to wipe us out completely before we join hands." Ximen Yechou shook his head. , Said desperately, the wisdom of these mysterious ice devil snakes is really not as simple as they thought, and now these mysterious ice devil snakes have begun to separate the two of them.

In this way, they have an absolute advantage in the battle, because Li Tian and Ximen Yechou are separated, naturally it is not that easy to deal with these tricky mysterious ice snakes.

Not being able to get close to Ximen Yeshou, coupled with the interference of so many Profound Ice Demon Snakes around, they would actually be very dangerous.

Li Tian had no choice but to consume some immortal power, and was ready to borrow his own power to jump to Ximen Yechou's side first, so that the two of them could leave here instantly.

But this thought had just appeared, but suddenly found that his void mobility was restricted.

"Damn it, these mysterious ice devil snakes actually restricted my methods."

"The reason why they are so powerful is that they can use the cold inside your body to confine all your celestial powers. After a while, you won't be able to keep fighting." Ximen Yeshou looked at Li helplessly. Tian said, their current situation is really extremely dangerous.

Seeing that the situation is getting more and more anxious, Li Tian at this time also had no choice but to throw all the charms in his hand directly, and the explosion sounded endlessly, relying on these fireball techniques to slowly approach Ximen Yeshou.

"For such a huge group, if there is no snake king to control them, they can't do it at all. There must be places where we haven't found that there is a snake king controlling them." Li Tian slowly wanted Breaking through the shackles in their bodies, although these spells in their hands are not a problem for temporarily dealing with them, if they are really like this, they will not be able to win without killing the snake king.

"I have never heard of so many theories. There are many immortals who have been killed by the mysterious ice demon snake over the years, but I have never heard anyone talk about the snake king. This seems to be a non-existent one. Creature." Ximen Yechou looked at Li Tian's serious expression, and had no choice but to say: "Our best way now is to kill all these magic snakes."

"Impossible. There are so many mysterious ice devil snakes, they do not have the same thinking. It is absolutely impossible for you to let them cooperate to deal with us like this. Even if these mysterious ice devil snakes are really smart, the same is true. It is impossible to do this. In places we don't know, there must be a snake king secretly controlling all this." Li Tian was very firm in his mind.

Without the Snake King, these mysterious ice devil snakes should be self-contained, how could they cooperate and attack like this?

And such a group certainly cannot break away from a natural law.

Such a huge group inevitably needs a leader to control them.

His eyes flowed, but in this vast sea of snakes, it was really not that easy to find the Snake King.

The fireball technique in his hand was thrown out crazy, the mysterious ice devil snakes were dying more and more, but the number still couldn't be felt to decrease. The most terrifying thing about the fast reproducing mysterious ice devil snakes is their astronomical numbers. The quantity, once encountered, it is really impossible to completely eliminate them no matter how hard you try.

Chapter 5955: Completely different

The dense dense ice demon snakes are pressing on like this step by step, looking like they will soon be in front of you.

In this tense situation, Li Tian appeared very calm, as if he hadn't seen the situation before him at all. The mental state of the whole person also improved to the extreme at this moment, and the fireball technique in his hand continued Throw it out, the cultivation in the past few days has made his body heal a lot, but if it really can be said that nothing has happened, it still won't work.

"How long can you hold on? If it's the same as you said, if these mysterious ice devil snakes are controlled by a snake king, you will find me where the snake king is now. This situation will continue. It will not be long. The two of us are going to die here." Seeing Li Tian who was still indifferent in front of him, Ximen Yechou also became nervous. The sword in his hand exploded and shot out sword aura, but he still couldn't reduce the number of these mysterious ice snakes.

Just as they had imagined before, the number of these mysterious ice magic snakes is quite terrifying. If there is really no way to find the snake king behind these magic snakes, it would be a daydream to deal with them.

"Naturally, I also know that the situation is tense now, but we have the final say on many things, and I am also very uncomfortable now." Li Tian shrugged helplessly. He naturally wanted to find where the King Snake was, only to see it before his eyes. All of them are densely packed with mysterious ice snakes, but there is no trace of the snake king's position at all. In this way, looking for it is like finding a needle in a haystack.

And it was too difficult to find a snake king among so many mysterious ice devil snakes.

'Now it's up to me to see if I can find the existence of the Snake King among so many Xuanbing Devil Snakes this time. If I fail, the two of us will probably be buried here today. 'Looking at the more and more magic snakes around, Li Tian's expression on his face became more and more serious, the sweat on his forehead slowly seeped down, dripping onto the snow-white snow, slowly melting A little bit.

In such an environment, no matter how much attention is paid, it is useless.

"Can you hold on? The situation of the two of us is already very dangerous now, if we still can't find it..."

"Don't speak, let me calm down by myself. I'm working hard." After being urged, Li Tian also looked a little impatient. In his current state, he himself knew exactly what was going on. The

situation is much more complicated than they thought. It is really not that simple to find the position of the snake king in such a complicated state.

He could only start to speculate wildly in his mind. If there is really a snake king here, it must be in a place where he can coordinate the strategy. Among the dense snakes, probably leaning on the east. Location, there is a seemingly large number of locations.

‘A huge group of Xuanbing Devil Snake must be controlled by a Snake King. If there is no Snake King, it would be completely impossible for them to cooperate in battle like this. Li Tian squinted his eyes and thought of something in his mind. According to the current layout, it is not difficult to guess where the snake king is.

The reason why no one had discovered before that a huge cluster of mysterious ice devil snakes was controlled by a snake king was probably because this snake king was completely different from what they imagined, and it should be a very difficult to find body shape. In this way, if you weren't smarter, there would be no way to find out where the snake king was. This would also answer why no one has understood this for so long.

However, he has discovered a special place now, that is, there are so many magic snakes in the east. It seems that there is no connection with the attack, but the number of magic snakes is unexpectedly large.

"Probably there is only one chance. If this snake king can be killed, these mysterious ice snakes and dragons have no heads, and naturally they are not my opponents." Li Tian held several spells in his hand, one of which was done before. A good fire rain technique can just be used here now. The attributes of these magic snakes are cold attributes. When encountering this kind of hot fireball, there is definitely no way to resist.

He threw the charm in his hand, and then said to Simon Yechou beside him: "Be careful, these little things are much smarter than we thought. Don't be negligent and give them a chance to attack. ."

With a rumbling sound, a big scarlet rock in the sky fell like this, and a mysterious ice demon snake was discovered early and wanted to stop it.

But he couldn't resist at all, and was directly smashed to death by this red big rock.

The moment the stone fell, the snow on the surrounding ground began to melt a lot. Many mysterious ice demon snakes also subconsciously retreated a lot towards the back. This stone is like being burned red, all of which are distributed With unimaginable heat, these Profound Ice Demon Snakes didn't dare to have any formation with stones of this temperature, and they were afraid that their bodies would be destroyed in this flame.

"Even if you are all terrifying and powerful monsters, you will find your weaknesses in front of me." Li Tian watched these mysterious ice demon snakes slowly separate their paths in front of him. Then, he sneered, said lightly, and at the same time walked towards the east step by step. He had to make sure that it was the place of the Snake King.

Of course, he looked more like running away at this time, and he never thought about making these mysterious ice devil snakes realize what his purpose was.

Ximen Yechou looked at Li Tian's back and frowned, "This guy is really a lunatic, and he is getting closer and closer to the snakes. When he wants to leave here, he will find that what he does is meaningless. Up."

Now even she doesn't know what Li Tian's purpose is. So close to the group of mysterious ice demon snakes, don't you know what kind of trouble this will bring to her?

However, while speaking, these mysterious ice demon snakes rushed up again and again, and they didn't give her the slightest chance to think about other things. Now there is no way to take Li Tian into consideration, and she can only deal with these problems herself.

Seeing that guy farther and farther away, I could only pray silently in my heart.

#### Chapter 5956: Snake king

The temperature in the air is still very low. It can make people feel that their bones and even their souls are cold. But as Li Tian approached step by step, the fireball in the sky continued to fall, just like the next one. As dense as the rain, these hot and dry temperatures kept the surrounding temperature rising, and it soon made them feel as if they were in a sea of red flames.

At this time, the Xuanbing Demon Snakes finally realized what Li Tian's purpose was.

Before, he pretended that nothing happened, and the whole person looked like he was escaping aimlessly. In this way, these mysterious ice devil snakes did not feel any doubt, but now the situation is very big. It's different, he has inadvertently approached the snake king in their cluster!

Li Tian didn't know at this time, his guess was indeed very correct.

The Snake King had always been hiding, secretly observing what happened here, waiting for Li Tian to reveal a flaw, and then directly killed the two humans in front of him.

According to his previous experience with humans, his position should be difficult to find.

The size of the Snake King is much smaller than that of the normal mysterious snake. If it is hidden in this piece of snow, it will make you feel that it does not exist at all, because you want to find a size like this in such an environment. The little snake king, and it comes with camouflage special effects, it is really too difficult, no matter how good your eyes are, you can't accomplish such a thing.

This is not the case. The Snake King in front of him also thinks that Li Tian can't find where he is.

Over the years, humans have failed in this place more than once, and they don't know how to deal with the mysterious snakes. All people who saw them escaped or died in their hands. I have never heard of anyone who can stand in front of them for such a long time, and looking at this appearance, he seems to be preparing to kill the snake king.

When the Snake King discovered what Li Tian's purpose was, he began to greet his hand frantically and stop him. If Li Tian were allowed to swagger close, what would this kid do in the next second? , Many people can't guess.

It can be clearly seen at this time that Li Tian already knows where the King Snake is. Next, he only needs to step forward and kill the King Snake in front of him.

‘Hiss’

Originally, when these mysterious ice snakes encountered Li Tian's fireball, they all fled subconsciously. Maybe they also knew that they weren't the opponent of this fireball at all, and staying here was simply making themselves trouble.

But when Li Tian was getting closer and closer to this position to the east, these Profound Ice Demon Snakes could no longer act as if nothing had happened, and all rushed over as if they were desperate.

At this time, he can be more sure of the thoughts in his heart, and the snake king must be in this position.

It's just that it's not yet possible to find out where the King Snake is. It can be seen that the King Snake is very smart and has a good way of hiding himself. No one has discovered the existence of such a creature so far. It is conceivable that this is. What a disguised creature, it's no wonder that few people have discovered it for so many years, even with sharp eyes like Li Tian, they can't find their existence.

Ordinary people seldom calm down when encountering the current situation, so most of the time, because their brains start to become confused, they don't know what they should do at this time, and naturally they will lose to Xuan. The ice magic snake.

Powerful masters, in this situation, they basically only need to show a little bit of their strength casually, and these mysterious ice magic snakes will leave.

They are smart, knowing what they can deal with and what opponents they cannot defeat, so when they find that they cannot defeat their opponents, they will choose to leave the battlefield as soon as possible.

Now, Li Tian is obviously not in the category that Ximen Yeshou can't deal with, so they will send so many of the same kind here, the purpose is to completely eliminate the two people in front of them.

Watching myself getting closer and closer, the performance of these mysterious ice magic snakes became more and more weird. At this time, the expression on Li Tian's face finally showed a dismissive smile: "This opportunity is waiting. , Didn't you always want to hide here? Today, I will see how long you can hide. Let me die."

A spell appeared in his hand, and then he chanted the spell quickly, Zhi heard a clear thunder, and then a sky thunder fell directly from the sky.

This sky thunder is all purple, and looking at the thick mouth of the bowl, if it really hits the east, at least it will kill the snake king and the mysterious ice devil snakes around it. This is a killer move. It is forcing the Snake King to reveal where he is. If he still stays in place at this time, it is really a dead end.

When Li Tian got here, it was already very difficult to keep going. He didn't know what happened to the reproduction of these mysterious ice snakes. At this time, they didn't worry that their group would fight because of such a battle. And the destruction was all madly blocking Li Tian, using his own body to forcibly block his way forward, one can imagine how helpless this situation is.

Li Tian also had a helpless expression on his face now. At this point, he really couldn't find any way to change this situation.

Therefore, what he hopes now is to use this trick to make the Snake King himself appear. As long as he finds where his goal is, all subsequent actions will become much easier. This is Li Tian's current thinking. Of course, this idea was well implemented at this moment. ,

At this moment, a very cold air current suddenly appeared in the surrounding air, and the fireball that was still burning was all extinguished at this moment.

Immediately afterwards, a snow-white mysterious ice magic snake slowly emerged from the snow. Its body continued to grow huge, and in the blink of an eye it became a large snake that was more than ten meters long.

Compared with these Profound Ice Demon Snakes, the size of the Snake King is simply unimaginable. It is just such a Snake King that controls the entire group of Profound Ice Demon Snakes.

Chapter 5957: Spirit Snake

'Hissing', it spit out snake letter, a solemn color flashed in its golden eyes, looking at Li Tian in front of it.

After so many years of experience, only failed this time. The human being in front of them seemed to look different than any young man they had imagined. At this time, Ximen Yeshou was not besieged anymore, only a few remained. Xuanbing Demon Snake stared at it, as long as she wanted to support Li Tian, or when she wanted to leave here, she would only do it.

Most of the Xuanbing Demon Snakes all rounded back to Li Tian's side.

It seems that the Snake King also knows that this young man is very dangerous, and it is difficult to deal with them on his own. At this time, he really needs a lot of similar people to help him.

"I really thought that my previous guess was wrong. It doesn't look like this now. The Snake King really exists in this group of Xuanbing Devil Snake. No matter how we deny it, we can't deny this ending." Li Tian He sneered and looked at the snake king in front of him: "It looks like you have been cultivating for a long time, right? You should also have human-like wisdom, right?"

"Hiss"

The Snake King couldn't answer Li Tian's question, but now he could only tell its enemies by spitting out the snake letter, and he didn't deal with it as expected.

"I didn't expect that my random calculations like this would actually succeed, and it really allowed me to find where the snake king in this group of mysterious ice devil snakes is. If it was such a huge number, if I were to come. There is not much chance of winning if you deal with it, but I just need to kill you and everything that follows will be all right." He said confidently, although all the powers in his body are controlled, but at this time There is still no intention to stop resisting.

Even if the power of immortality can't work, it doesn't mean that Li Tianzhen now has no strength to fight back. He can still change a lot with his own ability. The charms in his hand are still useful. The strong physique he trained before. It is also useful. All of these can be things that produce great efficiency at critical times.

'Hiss'

The Snake King seemed to have lost the meaning of communicating with the man in front of him, so he rushed over. The huge body splashed white snowflakes on the ground, just like the waves in the sea. It was especially obvious. The speed is very fast, and the attack is also very strong. Li Tian just felt a rush of cold wind blowing on his face, and in the next second, a huge tail was thrown towards his cheek.

At this time, his advantage of quickly casting spells can be revealed, and the whole person doesn't have much time to hesitate, but he just sneered, then squeezed the spell in his hand, and quickly read the formula.

First, the imperial wind technique, this enhanced imperial wind technique, is now more helpful to Li Tian.

His speed can still become very fast even under such bad conditions. The whole person quickly jumped on the ground and then soared into the air.

"I have found the Snake King. What should I do now? These mysterious ice devil snakes still control the immortal power in my body. In this case, I can't use my original strength to deal with them at all." Li Tian fell in the tree. Behind the scenes, thinking that Ximen Yechou could still use the sword in his hand to release his sword energy in the previous battle, he asked suspiciously at this time.

He thought that Ximen Yeshou might have some solutions. Only by finding a way to use his body's strength, can he cope with this situation better.

"It depends on the strength of your spiritual power. The reason why these mysterious ice snakes can restrain the immortal power in your body is because their spiritual power is very powerful, and their consciousness can directly affect your body. Above, there is an illusion that you cannot control the immortal power in your body. If you can detect this and counter it, you can successfully get rid of this and that restraint." Simon Yeshou said from a distance. To.

After hearing this explanation, Li Tian was relieved. It turned out that the key point of the matter was in this place.

His spiritual power is so powerful that many people can't imagine. As a normal fairy, generally speaking, it's impossible for his spiritual power to be very powerful. After all, things like forging gods disappeared a long time ago. The immortals don't even know what soul power is like. They just know that they want to make their spiritual power stronger, but they don't know that this requires the help of the forging god, rather than relying on meditation. of.

At this moment, after hearing Ximen Yechou's answer, he felt as if Mao Sai suddenly opened up, and instantly felt that all of his body became thorough.

In the next second, a strong aura was released from Li Tian's body, followed by Ling Li's chill, mixed with a strong hostility, making the Snake King in front of him also surprised.

At this time, I began to regret why I had to deal with these two humans. The combat power of these two humans was far more complicated than they thought, especially the soul power of the man in front of me, and any gods I had seen before. The immortals of the realm are not the same, even those of the \*\*\*\* king and deity level, they are a little inferior to Li Tian.

It is conceivable that this young man's mental power should be so strong that he can easily get rid of their shackles in such a dangerous situation.

Such a young man should be a difficult opponent, and according to normal principles should be avoided.

But now that the battle has started, now I can only choose to fight against the immortal with extremely powerful soul power in front of me. It opened its blood basin and spouted a cloud of white ice from its mouth. , These ice cubes slowly condensed in the air, turning into a huge iceman, and then step by step walked in front of Li Tian.

At this time, Li Tian was still immersed in this feeling of surging power.

I was worried that I could not fight in such a situation before, but now I don't have any worry.

You only need your own fairy power to control it, but it's just dealing with a few mysterious ice devil snakes. It's not a problem at all. Even if all the surrounding mysterious ice devil snakes attack, there is no way to kill Li Tian in front of him. This is him. Now where I am particularly confident.

Chapter 5958: Horrible sword intent

Holding the Hong Zhan in his right hand, feeling the increasingly intense pressure coming from the surroundings, these auras are like crushing Li Tian's in front of him, and people start to get a headache.

But for Li Tian, it was not so uncomfortable.

There are so many mysterious ice demon snakes around, no one dares to approach Li Tian in front of him at this time. The amazing aura displayed by this human being makes them clearly aware that this is a human that they can't defeat at all. A good choice is to treat nothing happened, know nothing, and wait honestly.

Watching the current situation, the Snake King was also very anxious.

This human being is really too powerful, but since he has been exposed now, there must be no way to leave here, and he can only bite the bullet and play. ,

Its strength itself is not very strong. The combat effectiveness of the Black Ice Demon Snake individual can be said to be quite poor, but the combat effectiveness of their group is exceptionally terrifying, but at the level of Li Tian, if it is not a very powerful group , It is very difficult to defeat him alone, plus the methods that the Profound Ice Demon Snake was proud of have now all failed, so naturally they are more worried.

At this time, the ice giant walked towards Li Tian step by step, looking like he was ready to kill this guy before he could fully concentrate his attention.

However, at this moment, Li Tian suddenly opened his eyes.

At this moment, it gave people a feeling of being stared at by some terrible creature. Looking at the Li Tian in front of them, it made them feel that their entire mental state became worse at this moment. The next second, The Hong Zhan in his hand swayed quickly, and then the whole ground began to tremble, and the snow on the ground also shot up high like a jet of water splashing on the water at this moment.

Then more and more explosions rang around, and another Li Tian appeared in front of Li Tian, followed by another Li Tian.

The eyes of the three Li Tian were all the same, they were all very indifferent, looking at the ice giant in front of them as if they were looking at a clown.

One of them, Li Tian stepped forward, and then cut it down with a sword.

The ice giant's body stopped at this moment, Ximen Yeshou also stopped at this moment, squinting at Li Tian in front of her, she also wanted to know how terrifying this man's combat effectiveness would be. , Is it so arrogant in such a place.

After exhaling a breath, this Li Tian slowly put away the sword in his hand, then turned around and walked to the other side. When he was on the road, his body also naturally burst out. The sword qi came and wiped out all the Xuanbing Devil Snake that had not had time to resist, and the snow on the ground was all reddened by blood red blood for a while.

In just such a moment, I don't know how many Xuanbing Devil Snakes died here.

The high temperature also caused a lot of snow here to melt, exposing the originally dry ground, but now the ground is all covered with blood, which looks like the ground after a heavy rain.

The state of each of these mysterious ice devil snakes is not as good as before.

After all, the temperature here is very different from before, and it is not a very suitable environment for them.

"Sometimes I am really weird. When you do it, don't you look at what kind of opponent you are facing? Could my strength be so easily trapped by you?" Li Tian sneered. The ice giant that hadn't moved, making others wonder why it had never happened, exploded at this moment.

The ice on his body quickly flew out. ,

But when he approached Li Tian, in such a short instant, he made a sound of 'chicks', and disappeared completely.

This is Li Tian's current strength.

Although the realm of the gods is not very powerful, it is enough to deal with the mysterious ice snakes in front of them.

"If you don't want to die here, you will disappear from my front right now. I don't care about those things you did before." Li Tian squinted his eyes and showed a very cold smile. His sword should be for The Snake King in front of him had a great deterrent, such a huge ice giant, was just a flash in front of Li Tian and was directly killed.

Such a powerful opponent should be rare. Under normal circumstances, now it is definitely necessary to choose some other means.

And the current mood of the snake king is indeed like this. The terrifying combat power displayed by this human being does indeed make them realize where the gap between themselves and this human is, although now because of their own face, they don't want to leave here. , But his life is obviously more precious at this time, and the end of staying here may be death here.

The combat power of this human being is so terrifying, it is naturally not something they can handle with the mysterious ice demon snake.

Although he was not reconciled in his heart, the Snake King could only make a whirring sound. Soon, these mysterious ice magic snakes began to slowly retreat, just like a low tide. In just a few seconds, Completely disappeared from their sight.

After Li Tian saw this scene, he snorted coldly, walked to Ximen Yechou's side, grabbed the woman's shoulder directly, opened the void, and disappeared here instantly.

All this happened between the electric light and flint. He originally thought that Li Tian would use the sword in his hand to eliminate these mysterious ice demon snakes and the snake king this time, but he did not expect that nothing happened in the end.

"I thought you were so powerful, but it looks like this now. You don't even have the courage to fight a snake king."

"It's not that I don't have the courage, but that my current physical state does not allow me to do this. Even if I can defeat this king of snakes, the price may be that I cannot show myself in the next period of time. This is probably not what you want to see, not to mention that we have been fighting there for so long, and we must have exposed our position. At this time, the longer we delay over there, there will be The more people come to find us and meet the Demon Race, it will not be as easy to deal with these mysterious ice devil snakes."

#### Chapter 5959: Investigation

Li Tian was also very helpless at this time. It's not that he didn't want to eliminate these mysterious ice devil snakes, but that the current situation simply did not allow it.

They must not spend too much time fighting in one place. This is the place of the demons. Once they are aware of your existence, they will send their own team to investigate as soon as possible, and if they know where you are Locally, I am afraid that it will always follow you behind you like a tarsal maggot. In this way, it will be very difficult to complete the task.

He is still very clear about what the reporter should do now. The choice in front of him is obviously not a good choice.

You can leave here unharmed, this is what Li Tian needs now.

"I didn't expect you to be afraid of such things."

"Hehe, no one is not afraid. Although I know that I am strong, I also have a very deep understanding of my strength. I know what kind of opponents I can deal with, and what kind of opponents I cannot deal with. It is for this reason that I can live for such a long time, so that I can slowly become so strong, and rashly fighting against those opponents who are not opponents at all, is tantamount to looking for death." After a faint saying Li Tian took a step forward: "But after this battle, many people must have discovered us."

"How do you know they found us."

"I didn't deliberately constrained when I released my aura. I think as long as there are others around here, they must have noticed the existence of my aura, and there is no need for what will happen next. Let me explain it to you clearly. The purpose of our coming here this time is not to fight with

them. Now we should hurry up to complete our task and leave this place of right and wrong.” Li Tian's steps are getting faster and faster. The previous battle did not cause him much trouble.

After he can control his immortal power, he has many ways to kill so many mysterious ice devil snakes, but he did not do so, because the existence of these mysterious ice devil snakes may bring some help to his escape. .

And during this period of time, others know where you are. Naturally, you have to find a way to hurry and leave, and you still stay where you are trembling. This is simply a dream. When you have defeated your enemy, There may be a lot of enemies you can't imagine appearing in front of you. Li Tian's consideration above is very clear, so he didn't even think about how much time he would stay there.

Although Ximen Yechou wondered why this kid knew so clearly, he also knew that the moment Li Tian released his aura had indeed brought a lot of influence.

Even she was taken aback at that moment.

I thought that Li Tian was just a guy who was touted by others. Now it looks like this is not the case at all. The talent and strength of this young man are really terrifying. The combat power displayed at this moment also gives her a A little bit of accident, has a different view of this young man, of course, this is only a small change, I still dismiss Li Tian in his heart.

Li Tian can still feel this in the subsequent getting along. After this battle, he thought he had gotten closer to this woman, and he couldn't say that he liked him, but at least it could make her not as small as before. Look at yourself, who knows that things are not like this at all, Ximen Yeshou is still the same as before, and Li Tian is not in his eyes at all.

It seems that no matter what effort Li Tian makes, it is meaningless. This woman's view is deeply ingrained, and it is impossible for Li Tian to change a little bit by himself.

"We still have to be careful along the way. If we can, try to avoid fighting with others. Our purpose is different from them. We only need to take these herbs and leave here. If we can know what they are doing. It's the best. If you don't know, you don't need to investigate.” Li Tian said seriously on the road.

"You don't need to emphasize this. I know what I am here for. I will cooperate with your actions and will not cause you any trouble." Seeing the serious expression on this guy's face, Ximen Yexiu I said something impatiently, as if I didn't know anything, I needed someone to settle down like this.

Looking at the figure of the man in front of him, he felt a little more unhappy with Li Tian in his heart.

On the other side, in an ancient hall, a soldier in black armor walked in, and then knelt on the ground: "Master, we have investigated, it should be another group of immortals coming in."

"Hmph, it seems that they have forgotten our greatness for so many years, and even dared to run to our turf to run wild like this."

"Lord, I also think it is time to take the initiative to let them know that our demons are powerful." At this time, a man next to him stood up. This is a man who looks about twenty years old, with two ears. The sharp, red pupils of the eyes are the rumored demons, and the gray hair looks even more chic.

The God Realm has long recorded these demons, so if Li Tian were here at this time, he would definitely be able to judge it in the first time, and these people in front of them should be demons.

"Don't worry, they haven't been able to figure out what kind of creature they are about to face, so rushing in is nothing more than trying to get ahead of others. Human beings are not a very united ethnic group. We just need to wait quietly for them to fight with each other. At that time, when we take action, these humans must have no way to resist. Of course it is easy to deal with them." A middle-aged man sitting in the highest position said lightly, although he is getting older, he seems to have the charm of a mature man.

The charm of the demons can be seen.

But what they said is not wrong. Over the years, the weakness of human beings is still obvious, that is, there is no way to unite this group under any circumstances. Naturally, it gave others some opportunities to let them know. How to deal with humans.

Chapter 5960: Little gain

After repelling the Xuanbing Devil Snake, Li Tian and Ximen Yeshou were safe in a short period of time. After that, they belonged to the Xuanbing Devil Snake within the territory for a long time.

After this great battle, these mysterious ice devil snakes would definitely not take the initiative to trouble them.

However, Li Tian now had another idea. He hadn't found any herbs he needed for so long here, but hearing the name of Xuanbing Devil Snake made him easily think of Xuanbing Grass.

The connection between this herb and this creature really made him think of it easily.

"Where can we find Xuanbingcao near here?" Li Tian said to Ximen Yeshou beside him as he walked, "I haven't seen any traces of herbs anywhere else along the way. , I saw the Black Ice Demon Snake here this time, can I also find Black Ice Grass here?"

"Who knows this kind of thing, but it is rumored that Black Ice Grass grows in a very cold place. I have never seen it before, but it sounds like there is a high probability of finding Black Ice Grass here. "Ximen Yechou nodded, looking as if he agreed with Li Tian's point of view. There were no other monsters or any unusual herbs nearby.

This is indeed not in line with common sense. Generally speaking, these powerful herbs are all protected by monsters. Only in this way can these herbs grow better, otherwise they will be picked long ago.

And monster beasts can also use these herbs to slowly improve their own strength, which has the general effect of helping each other.

"It's very likely. There must be a mysterious ice grass in the area near the mysterious ice devil snake. Although we don't have any evidence, I think it should be fine." When Li Tian spoke, his eyes began to be around. Observed, if Xuanbingcao is really here, it will save them a lot of trouble, and it will definitely be no problem to get a herbal medicine as soon as possible.

However, it is really not so easy to find the existence of any herbal medicine in this white land.

The two of them moved forward while concentrating, slowly watching the north pass.

According to Nan Mu Ye, the remaining herbs should have grown from the bones of a magic dragon. For so many years, their Baicaomen have all gone to this place when picking herbs, but for this magic dragon. Nan Mu Ye couldn't tell where the bones were located. They had always been the masters in the door before, and there was no need for them to know the news.

"The approximate location is in the north. As long as we find the bones of the devil dragon, we will find these herbs." Li Tian squinted his eyes and stepped on him, feeling that he was about to sink deeply into the ground.

"Stop talking, saying one more word here will consume a lot of celestial power. I don't have time to waste my celestial power with you. If I can't find the position of Xuanbing Grass here, we will go to the bones of the Devil Dragon. That's all right, but in front of it, this place sounds very unusual. It should be guarded by a powerful demon. The success rate of the two of us was not very high in the past."

Li Tian didn't answer this question because he himself knew this very well.

The current strength of the two of them is not very strong, and they have begun to struggle against the Xuanbing Demon Snake Swarm. If you meet those masters of the Demon Race, then the battle will definitely become more anxious. Evacuation from the enemy's hands is also a very difficult choice.

But since they are all standing here, even if the possibility of this kind of thing happening is great, the two of them can't just give up like this.

Besides, I don't know how many immortals and scattered immortals have rushed in in the entire Northern Cold Land. They probably came for some kind of treasure or something rare. At this time, the pressure of the demons is also great, so many people rushed into it. Within the scope of their territory, it is definitely impossible to annihilate them at once, so naturally they have to divide their own power and kill them in small groups.

In this way, the pressure on them is actually not as great as imagined.

The two continued to move forward, not knowing whether the existence of Black Ice Grass could really be found nearby, but now these were the only goals they had left, and their eyes were full of solemn colors.

I don't know how much time has passed, Li Tian suddenly stopped.

Ximen Yeshou looked at him suspiciously. He didn't understand what this guy meant, but he didn't speak.

Li Tian didn't mean to explain at this time. Instead, he was always observing the surroundings with his own eyes. If he saw it right, he felt that he should now find a place where Black Ice Grass might exist.

In front of them, there is a very inconspicuous small pit. This small pit does not look very obvious. It is the size of a leather ball. Under such an environment, it may not attract the attention of others.

Li Tian saw it because he saw some human footprints here.

"There should be some mystery in this pothole, but it is covered by snow. In our opinion, this seems to be a very simple pothole, which won't make people pay more attention, but it is precisely this

kind of unfavorable situation. The obvious place, I think, is the most likely place to appear Xuan Bingcao." Li Tian squinted his eyes and looked at the pothole on the ground, and the expression on his face became serious at this time.

What they saw may be just the tip of the iceberg, and the real content left in it has not yet been completely exposed to them.

When he was speaking, he stepped forward and used his sword in his hand to slowly clear the snow around the pit. He didn't know how long the snow had been covered here. Now it was like a block of ice. On top of this, it will not be easily broken, so that the scene inside the pit will not be so easily discovered by them, but after Li Tian knows it, it will naturally take a look.

After clearing the snow on the top, there really appeared a pit that could accommodate two people in, diagonally downward.

At this time, inside this pit, you can still feel a faint cold air radiating from it, which is obviously an extremely cold place.

The two looked at each other, knowing that they had gained a little this time.
