

A Killer 5961

Chapter 5961: Underground cave

This underground cave seems to be very inconspicuous, but as long as you carefully observe it, you can find the difference between it and other places. Most people rarely observe it so carefully when they are here. One place.

"There seems to be something in this cave. Otherwise, just stay on it." Li Tian turned and looked at Ximen Yeshou behind him, and said, "It feels like a very simple place below. If you encounter any danger below, I may not be able to support you. It is relatively safer to stay on top."

"I don't need your help." When Ximen Yechou heard this guy say that to herself, her heart was immediately furious. If it weren't for the two of them to cooperate with each other, she might have turned around and left here. But after saying this, without looking back, he walked down into the cave in front of him without hesitation.

Li Tian stood alone behind and shook his head helplessly. He was only kind, but he didn't expect this woman to be indifferent at all.

The above must be very safe. If Ximen Yechou stays on it, he can also help Li Tian do a lot of things. Even if there is any danger inside, there is someone who can help him when he comes out.

But now that two people have entered together, the situation is not as simple as they thought.

But since Ximen Yechou had already made such a decision, it was definitely not Li Tian alone who could make the final decision, so he had to follow him and enter the cave together.

Sure enough, as soon as he entered the cave, he could feel that the environment around him suddenly became colder. Compared with the outside, the temperature inside the cave was also lower, which was totally inconsistent. It makes sense. According to the usual truth, this cave is under the ground, and it should be a place with temperature.

But everything they felt before them told them clearly that this cave was not as warm as they thought.

"The temperature in this cave is so low that it is no longer in line with normal conditions. What is certain is that there should be something in this cave that we don't know, which created the situation in front of us, otherwise I would not believe that the temperature of a cave will drop to this point for no reason. Thinking helplessly in his heart, Li Tian followed Ximen Yeshou in front of him.

"Be careful. We haven't studied many problems in this kind of place. We don't know what's in this cave. It's definitely not a very rational choice to move forward so recklessly." He looked at him. Ximen Yeshou, who was advancing fast, seemed to be irritated by this woman.

"So, I have to wait here now? Waiting for the enemy to take the initiative to find the door?" Ximen Yechou stopped and asked coldly.

"It doesn't hurt to be careful after all. What kind of place this place in front of us is is still unknown. Being careful can make our actions a little easier in the future. If there really is something inside. We can also choose to leave here as soon as we find any difficult monster beasts. Your reckless advance is likely to catch us by surprise."

"Oh, if you are so careful, then you can go ahead. I will follow you and I will listen to you."

Seeing her expression, Li Tian's brows frowned, feeling that this woman really couldn't communicate in normal words, and he didn't feel like he had said anything too much, but he came from Ximen Yeshou's side. Look, it feels like Li Tian insulted this woman with a very bad method.

After a bitter smile, he had to put his gaze in this cave.

The temperature in the underground cave is very low. This is a very strange place. At the same time, no frozen ice or the like can be found on the surrounding walls. In other words, there is very little water in the cave. It should be a very dry place at the very beginning.

Fortunately, all of this is naturally formed, and it is also possible to directly eliminate a trap created by someone.

As the pace under his feet got faster and faster, he soon came to a corner of the cave. As the corner approached, he felt a strong cold wind blowing on his face.

It's like walking in a blizzard.

"Below here I can feel a little energy fluctuation, there may be some creatures here, you help me look behind, if there is any problem, please inform me as soon as possible, as long as we are in danger. To leave here for the first time, it is difficult for us to fight safely in such a narrow environment, no matter how careful we are, we will still be a little threatened." Li Tian helpless, the environment in front of them is coming to them. It is indeed a big challenge, maybe just a small oversight may put them in great danger.

Of course, now they can't just say what dangers there will be this time.

However, the two people communicated well, and Li Tian started to go down step by step. His movements have always been very cautious, as if he was worried about something.

There is no obvious difference between the following roads and the above roads, they all look exactly the same.

However, when the two people walked for about a few minutes, they discovered that they had come to a very complicated maze. Here you can see many naturally formed caves. I don't know where to lead, but in some places I can feel it. There is cold wind in some places, which means that if you enter it, you may really get lost easily.

It was here that they saw a lot of bones.

"Although this is a maze, it doesn't make people feel like I can't leave here anymore. The back is where we went out. What does it mean that they died here?" Li Tian slowly wrinkled looking at the bones on the ground. He raised his brows and asked suspiciously.

Normally, even if they can't pass this maze, since they are all here, they can naturally rely on the exit behind them to leave here easily.

But looking at these few corpses on the ground, they all seem to have been dead for a while, that is to say, they have not been able to leave after coming out, but have died here alive.

He stepped forward and checked the bones.

"Almost a hundred years of history, and there are no particularly obvious marks on the bones." He squinted and said strangely.

Chapter 5962: maze

The maze in front of them did make them feel a little bit abnormal. It seemed that there was no difference here, but if you look closely, you will find a little bit of flaws and problems.

Two people stood here and checked the bones on the ground. They died at different times before and after. In other words, they may also know that the maze is dangerous, so they should be prepared in advance. Still dying here, it can only show that this place is really much more complicated than they thought. Otherwise, how could these guys who knew this place was dangerous, could die here so easily?

"Their state of death may be exactly the same. Since no wounds were found on their bodies, there is no trace of fighting here. That is to say, when they died, they all gave up resistance. What kind of opponents would they encounter? Let them give up resistance directly and choose to die here?" Ximen Yechou also frowned. The bones in front of him looked strange, and they were clearly at the exit.

"Let's go back and have a look." Li Tian seemed to think of what it was like, and rushed towards the exit behind him. As a result, the two people walked for only a few minutes and found that he was back to the original one again. position.

"We entered this labyrinth as soon as we entered here. It seems that we, like them, didn't know where we were from the beginning, and these people can explain it clearly when they die here." Ximen Ye Looking at Li Tian in front of him with a sorrowful expression, what is certain now is that this place should not be where Black Ice Grass grows.

This is obviously a terrible restriction designed by someone, so that many people who want to enter here are all lost here, never finding where the exit is.

Li Tian squinted his eyes and walked to Ximen Yechou's side, trying to use the void and leap to leave here, but found that it had no effect at all. Even if he used this trick, he would still be standing in the end. Location, it is impossible to leave here, this place is so weird, so weird that you can't find any weak points.

"Damn, I didn't expect that we were so cautious before. We thought we were enough to avoid a lot of dangers, but I didn't expect that we would end up in the enemy's trap. Now it is interesting. We want to leave. We must understand some brains here." Li Tian squatted down and exhaled a long breath. The harsh environment and thin spirits here told them that it would be really bad if you delay here for too long.

They can now feel that their body is uncomfortable. These people may also have very good masters, but they are also forced to die by the maze here. It can be imagined that this maze is better than they thought. The complexity of it.

And I don't know when they were directly plunged into this maze. Now Li Tian feels that everything around him is beginning to become unclear. He doesn't know where he is now. What kind of things should be done? This is the terrible part of the maze in front of me. It is precisely because I don't know where it all started, so it is even more difficult to find a solution.

"This maze looks very powerful. All of these people can die here, which means that the most powerful thing is that you have no way to find the weakness of this maze. You don't know when

you entered. Come into this maze, so it is impossible to find weaknesses in it. The solemn voice of the remnant soul of the ancient **** rang at this time.

This time Li Tian did encounter a lot of trouble. This maze was far more powerful than the many mazes he had encountered before.

He just feels that he has entered this maze now, which is equivalent to sentenced to death. All the immortals have died here, which is enough to prove that this place is easy to get in but not so easy to get out.

"What makes me most unclear is why such a maze appears in such a place. I never thought there would be such a place." Li Tian shrugged helplessly, not knowing what it was. What's the matter, he walked into this powerful maze without any trouble. His purpose was only to find Black Ice Grass and other herbs. He was really not interested in other things.

But life is so weird. You obviously don't like things at all, but when they really happen, you will find that all these things will come to you.

Everything is not under your control at all. What do you think you can change, in fact, it turns out that you think too much.

"It doesn't make sense to say so much now. If we want to leave here, we must know when we got into this maze, and we must also find out where the exit of this maze is. Since this is a maze, there must be an exit. If we are lucky, we should be able to try our luck and leave here." Ximen Yechou said with squinting eyes.

Li Tian did not respond, but stood still and continued to think very seriously. All this happened so suddenly that he has not recovered.

It was fine before, but when the thought in my mind had just changed for a few seconds, I realized that I had reached the current position, which really made you hard to guess.

But even with this appearance, Li Tian is not anxious to make sure that he can no longer leave here.

The situation in front of you looks very complicated, but you can still find some solutions if you think about it carefully.

"Let's make a mark here and take a look. If the mark can be used, it will be easy for us to leave here." After thinking about it, this is probably a very useful method. The situation is like this. You can only rely on this mark to think about changing the problem.

If you can't leave here even this way, then wanting to leave next is really a pipe dream.

While speaking, a mark was left on one wall.

Chapter 5963: complex

The path of this maze looks very complicated, it's impossible to find which one is correct

Of course, there is no road that looks very different from other roads. This way, it will cause a lot of trouble for them to choose. Although Li Tian made a mark, he did not make sure to go. Which one is correct?

"Let's take a chance. Maybe we can pass here if we are lucky. Now we can only pin our hopes on this." With a helpless smile, Li Tian said, and walked to the place where he made a mark. Inside this channel.

When they entered this passage, they felt dizzy. The passage in front of them didn't make any difference to the passage they had walked through before. After going all the way, they soon found themselves back to their original position again. , And the original marks disappeared at this time, and they seemed to have returned to the previous time period.

Standing here, Li Tian squinted his eyes and felt that his brain was greatly affected.

"I haven't found any clues, which means that the marks we made before are useless at all. It is definitely impossible to leave here with a mark." Ximen Yeshou also had a nervous expression on his face, and the maze in front of him looked like It was too complicated, and their attempt this time failed to bring them any breakthrough progress, and only made them lose some self-confidence.

Faced with such a maze, no matter what kind of master you are, you will definitely have a natural sense of frustration, and feel like you are going crazy.

Li Tian frowned. When he made the mark before, he saw it specially. Even now, he knows where he made the mark. If it is true here, the mark should not disappear. That's right.

"Theoretically speaking, it shouldn't be like this. If this is really a world that exists between reality, the mark I made before will definitely not disappear like this. You can see that there is no clue about how it looks now. Could it be that our timeline is out of order, or that the place where we made the mark before is just the same as here, but we are already moving forward?" Such intricate clues made Li Tian's head start to ache.

At this time, he understood that all the mazes he encountered before were all pediatrics. This one is considered to be the real maze, and there are all kinds of strange clues that will always make you subconsciously think of other places, a If you are not careful, you may fall into their trap

Just like now, Li Tian has no way to determine whether his timeline is still correct.

When they came here, they couldn't see the mark, because it was exactly the same as the place before. They moved forward, or the timeline was chaotic when they came back here, which made them go back to where they first entered here. Timeline, in this way they can't see the mark, which is a logical thing.

Both of these clues lingered in his mind, but for a while, he would want to find the right choice, but it was not that simple for him.

"It seems that this time we are really going to encounter a more difficult trouble. These things are far more complicated than we thought." Ximen Yechou frowned, and the sword in her hand was tightened by her. Holding it tightly in his hand, I thought that there would be some danger here, but now I realized that it wasn't the danger caused by any monsters, but that this underground cave was originally a very dangerous place.

Once you enter here, you feel that your whole life seems to be different. The most obvious thing is that your timeline can no longer be controlled by yourself in this kind of place.

"What should we do now? We can't just keep trying this way. You have also seen that such an attempt has no effect. Up to now, we have not really understood where the key point of this maze is.

Knowing why it has caused so many people to get lost here, it becomes even more impossible to find clues in it." Ximen Yechou looked at Li Tian, and saw that he was still standing on the ground, as if thinking about something. , He said quickly and uncontrollably: "If the timeline is chaotic, we may be very dangerous here."

"Indeed, if the timeline is chaotic, we are very dangerous here, maybe we may die here soon, the environment here is not enough for us to live here for a long time, and constantly return to the same timeline. Among them, we will not change, so we will die here very easily. For us, there is really little time." Li Tian nodded, looking at Ximen Yeshou, and said: "But now it is even more We can't be nervous anymore. If we become nervous now, it will be even more difficult to get out of here. Maybe the enemy just wants to make us nervous so that they can better play the role of this maze."

But in any case, the maze they are encountering now makes them realize how terrible the problem they have encountered this time.

This underground cave is really the same as they had imagined before, with a big difference.

"What should I do now, I can't just wait here, right?" Ximen Yechou glanced at Li Tian beside him and asked.

"What we have to know now is whether we are moving forward or have problems on the timeline, but this is the most difficult choice for us. The road just now has been passed. If it is the timeline As for the above question, even if we go to another road, it still won't produce any effect." He smiled helplessly, then squinted his eyes and walked forward.

He didn't know where he was wrong now, so he could only choose a path to go on constantly.

As time passed bit by bit, they tried again and again, but failed again and again. The maze in front of them was indeed difficult to entangle and exceeded their imagination.

It is impossible to pass this maze easily.

'Damn it, what the **** is going on in this place, we've all passed so long, haven't there been any changes? 'Standing on the spot, looking at the different roads in front of him, the expression on Li Tian's face also began to become helpless at this time. He didn't know what was going on in front of him, or what was wrong with the timeline. Or the route is wrong?

Chapter 5964: Space turbulence

North Cold Land

A man in a white robe appeared at the place where Li Tian and the others appeared originally, looking at the pit leading to the underground in front of him, frowning: "I didn't expect someone to go first. It's just that the labyrinth is far better than What they imagined is a lot more complicated."

"How about it, did you find the entrance?"

"There is no problem with the Sixteenth Sutra of Tianxin. We have found the entrance. If nothing happens, the following maze is the first difficulty we need to deal with. If we can't even get through this maze, we will naturally be unable to pass. "The white-clothed man glanced at the black-clothed man beside him and smiled: "And someone has entered before us, what do you think?"

"Huh, people who don't know enter this kind of place are basically a dead end. This place existed a long time ago, but because this thing has been constantly changing positions over the years, most people who die inside don't know. What kind of place is this, so they rushed in. They don't know how to leave this ghost place. It is naturally reasonable to die here." The man in black chuckled and said.

Both of them knew what this place was, and naturally they also knew what the maze in this underground cave was like.

This is a place where time, space and space are both chaotic. If you are not very clever, or have exceptional talent, wanting to pass through such a maze is simply a dream.

"It's really like this. It has been about an hour or so after watching the two people go down, but they shouldn't have a long time in it. If they are smart, they must have realized this." With an indifferent smile on the corner of his mouth, looking at the opened underground cave in front of him, the man in white sneered: "Let's stop here. If these people really pass after they go down, we will fall behind. Can't let them get ahead of us."

"Don't worry, there are some talented guys or lucky guys in this place, how could someone break through?"

"What to do? We have tried for so long. Now we can clearly see that our efforts are meaningless. This place is different from anything we imagined. It is too difficult to pass here. Now." Simon Yeshou stood there, looking at the bones in front of him, with a frustrated face on his face.

They don't know how much time has been wasted here, but as far as they are concerned, it seems that they have not been able to find a way to leave here.

"Are you going to give up so soon? We're just starting now." Li Tian smiled helplessly, looking at Ximen Yeshou behind him, and said: "The enemy probably wants us to be like this. Only in this way can they deal with us better, but now we need to face the situation more calmly, and only in this way can we survive.":

"Have you found a way?"

"No."

"You haven't found a way. What's the point of saying this here, I thought you found some clues." Looking at the serious Li Tian in front of him, Ximen Yechou almost cried out, and this kid didn't find any clues. It's really a top quality to say such blatant words in front of him.

"But now I know some clues. The place we are now in is constantly changing, which means that this is a place of turbulence in time and space, that is, time and space are very chaotic, so here It's very difficult to go out only by luck. You must know the layout of the maze to get out of here." Li Tian touched his hair: "I am very clear about the changes in my body. We are not here at all. The time in the past few days is only one or two hours so far."

"Is it possible? We have tried countless times here, and I am about to vomit when I see this scene. Now you tell me that we only spent an hour or two here?"

"It is indeed like this. According to my guess, most of the time is in the turbulent state of time and space. In this case, it is not that simple for us to leave here, but when the space turbulent time, time will naturally not change, so we We can get out of here by some means, so we have very few opportunities." Li Tian turned around and looked at the roads in front of him. They had tried it before. Obviously there must have been spatial turbulence before. Happening.

According to the ratio here, the situation of spatial turbulence is too low, but once it occurs, it is the only chance to leave here.

The only thing you need to judge now is whether you are in a state of spatial turbulence or space-time turbulence, and then just find an intersection. In the state of spatial turbulence, any place can lead to other places.

"I think you are here for the past few days to make them fascinate their brains. You can see that there is no change from before. It is so mysterious, but I don't feel anything. I see You are simply dreaming now. If there is something, you will take me out of here." Ximen Yeshou looked at Li Tian in front of him, and said very uncomfortably.

What space-time turbulence, space turbulence.

It sounds like it's amazing, but it's actually just talking on paper, haven't you still been able to find a way out?

Who knew that when she had just finished saying this sentence, Li Tian actually sat on the ground like this, then closed his eyes, and started practicing when this kind of spiritual energy was very thin.

"Hey, hey, can I ask what you are going to do? Do you know what our situation is like now?"

"If you still want to leave here, it's best not to interrupt everything I do. In my opinion, we should have entered an incredible place. Every next step is better than we thought. There are a lot of difficulties, the first level is such a difficulty, and the remaining two levels are even more impossible to imagine." Li Tian said as he practiced, "But since I have entered like this, I also want to see it. What kind of thing is behind this maze? It is worth guarding with such a powerful maze."

"You... have you found a way?"

"Almost, I don't know if I am right now." He said seriously.

Chapter 5965: Through the maze

When Li Tian closed his eyes and sat down, he could feel the aura around him beating very slowly.

These auras seem to be controlled by something, and it is difficult to figure out what their trajectory is like now, but what can let them know is that their guess seems to be correct.

Such a thin aura is indeed in line with the state here.

As time passed slowly, Ximen Yechou began to doubt whether Li Tian had such a true talent in front of him.

This guy said before, as if he could really find some clues, but now it looks like it's not like this at all, and the whole person is still trapped in this place. There is no way. If you continue in this state, It won't be long before they will follow.

Watching her current situation become so bad, she was really worried about dying in such a place, but now she can't really change anything.

"How worried are you?"

"In our current situation, I really want to know why I can't worry about it. I don't even have a clue how to leave here. If we continue in the current state, we will all die here soon. Like these bones, they have become the hapless person in the eyes of those behind. Can I not worry?" Ximen Yechou sneered. Although she said so, she didn't feel such fear on her face.

She just looked at Li Tian coldly. Although Li Tian closed her eyes, she could still feel a very cold eye staring at her back.

Don't even think about it or know that this is Ximen Yeshou.

I thought about what happened to this woman, so when she looked at many problems, she was quite different. Now that the situation is so calm, only this woman is left.

"If it's someone else, I might still worry about it, but if you say it, I don't believe you are really scared at this time. Although you have been forcing yourself to hate me, forcing yourself to distance yourself from me, but you I may not have noticed the inadvertent loneliness in your eyes, which you can't hide in anyway." He still closed his eyes, but he was full of aura when he said this.

Ximen Yeshou was stunned subconsciously, and he didn't seem to think that the thought in his heart would be seen through by this man.

But at the moment, I still don't want to remove my disguise, and snorted coldly. The corners of my mouth seemed to be smiling disdainfully: "Who do you really think you are? Dare to speak like this in front of me? Do you think this is enough? Do you think you have seen through me and understood me?"

"I've never thought of it like this before, but the information I have in my hands tells me that this is also a feeling of being inseparable." After a sneer, Li Tian said lightly.

At this moment, he suddenly opened his eyes.

At this moment, the immortal power flowing in the air seemed to be condensed because of this, and then the sword aura was slowly released. Li Tian slowly stood up and said: "The time is almost the same. Now, come with me."

"What do you mean?"

"It should be the time for spatial turbulence. I think you have sensed it before. When the space-time turbulence, the thinness of the spiritual energy here will not change, but you can feel it now. The aura is much richer than before, which means that the aura here has been filled by the outside world, and that can produce such a state, there is only space turbulence." Li Tianxin vowed to say, his tone There is steadfastness in it.

He knew that he was looking for the right direction this time, and he had some worries before, but when he felt the sudden increase in aura, he knew that everything he had considered before was all right.

"Are you sure? If we fail this time..."

"What can we do if we are not sure? There are only a few opportunities in such a short period of time, and the number of spatial turbulences is very good, so we need to grasp this opportunity well, if we even miss this opportunity, I don't know when the next time it will be." Li Tian's tone suddenly became serious, and then the whole person's movements quickly picked up at this moment.

There was still a little bit of unwillingness in Ximen Yeshou's heart. After all, this labyrinth had delayed them for several days before, and now Li Tian suddenly broke it like this.

Even if this young man is a very powerful genius in the previous rumors, he can't do this easily, right?

For her, being able to leave here now is an unimaginable luxury. In her opinion, they will stay here forever like these bones.

Who knows how long this idea hasn't appeared before Li Tian said something like this.

"What are you still doing? I probably told you. The opportunities are only so short a few times. If we miss it, we need to continue to wait. It is very serious for us to waste a little time here. I don't even know when the next spatial turbulence will be." Li Tian saw that Ximen Yeshou hadn't moved yet, so he said anxiously.

Ximen Yeshou snorted helplessly: "I believe you this time, if we fail this time, what do you think of me..."

As they rushed toward the front, a group of white light suddenly appeared in front of them, looking like the exit of a cave, the dazzling light was constantly shining toward them.

The speed of the two people is getting faster and faster, just as a traveler who is about to die of thirst in the desert sees a mirage.

Although I don't know if the light in front of me is really the exit they have been looking forward to, but at this time no one wants to leave here like this, all they want to rush out.

As the speed gets faster and faster, the light cluster in front of their fierce eyes gets closer and closer,

When in this position, Li Tian seemed to have felt a very strong spiritual energy fluctuation. He knew that this one in front of him was likely to be the real exit, and the maze they had progressed until now was considered a real breakthrough.

At this point, I can truly breathe a sigh of relief, and I don't need to worry anymore.

Chapter 5966: Furudono

When the light shined, the last thing that appeared in front of the two of them was a very magnificent and broad old road.

The reason why this is a wide old road is that this road seems to have a history of many years, and there are many corrosion marks on the surrounding buildings. It looks like a bridge, hanging on a Above the bottomless abyss, there seems to be a pair of invisible big hands in the dark abyss, which may pull you down at any time.

On this ancient bridge, you can see many old carvings. Although so long has passed, you can still vaguely see what it looks like.

A cold wind blows continuously from the abyss below, reminding the people on the bridge that there is an abyss below.

Standing at the entrance of this bridge, Li Tian glanced at Ximen Yechou beside him, and said, "Look, I was right. We did find the way to get out of the maze before, so we got to where we are now. , But where will I go next, I don't know."

"Since this maze is so difficult, the place we have to go to next must be very complicated. Will there be any traps on this bridge? As long as we make a mistake, we may die here?" Ximen Yeshou She still has a solemn face. After Li Tian said something like that before, her current state is also a bit complicated.

The bridge in front of them seems to be the only way to the distance, but this ancient bridge can't see where the end is, and they don't know when they will pass.

"Indeed, if it weren't for finding the key to the maze, and if we were lucky, we might really have to stay in that place forever. So many people died before. It is conceivable that this maze is not what we wanted It's so easy to deal with, and a little carelessness is the result of making yourself regret." Li Tianshen nodded with experience, and the two of them are also considered lucky.

If it hadn't been thought of the problem at that critical time, maybe it was still wandering in the maze, and it would be impossible to get out of it.

Just looking at the ancient bridge in front of them, they began to fall into contemplation.

Although it looks like they have passed the maze, no one actually tells them that they have passed the maze. Maybe the ancient bridge in front of them is also a kind of maze?

"Anyway, there are two roads in front of us, one is to leave here, and the other is to go all the way, no matter what is going on before, I really want to see what's so great about this place now. ." Li Tian squinted his eyes and looked at the ancient bridge in front of him. They couldn't see what the end of the ancient bridge was, but they always felt that it was not simple.

Ximen Yeshou was also a little worried at this time. Everything in the labyrinth was clearly told to them before. This is not a very simple place. ,

The consequences of a wrong decision may not be what they can imagine.

The old bridge in front of you looks simple, but who knows what will be behind it?

"Forget it, since you have already decided like this, I will walk with you."

"You can't say that, although I have decided, but if you refuse, we can also leave here. I never said that I have to figure out what is going on here." Li Tian turned around and smiled Looking at Ximen Yechou, he said, "I don't know what happened to you here, but if there is any place to help you, I would be happy to help."

"No need, you can just protect yourself, don't die in this place, or you will be ashamed." Ximen Yechou snorted coldly, with a disdainful expression on his face, very cold. After saying something, his gaze then fell on the ancient bridge in the distance: "There is not much time for us, let's go, and see what is at the end of this ancient bridge."

After the two had decided, they started walking towards the ancient bridge step by step.

Although this ancient bridge has been eroded over a long period of time, it has not been damaged as a result. It still looks good, and they did not feel the slightest danger when standing on it.

The bridge decks on the ground are all made of white jade, very practical, and there are also some white jade pillars around.

As the two of them moved forward, they looked at the bottomless abyss under their feet. This was indeed an invisible abyss, and the dark underneath was like a big mouth of a wild animal.

The wind continued to blow over, making both of them tremble.

"Be careful, we haven't seen anything different for so long. I'm worried that there are other creatures here. It would be embarrassing if we suddenly attacked before we could react. "After walking on the ancient bridge for a while, Li Tian said seriously that the two of them have been walking on this bridge for a while.

But so far I haven't encountered any weird situations, or even the slightest danger.

Obviously it does not meet here.

There was no monster or beast in the labyrinth before, so this place shouldn't continue like this, right?

Now think about it, there should be a very powerful monster guarding here, or else such a powerful place can be guarded only by these things?

"Don't worry, I don't need you to keep telling me here. I can know what I am doing. I think more clearly than you." Ximen Ye said sadly, all in his tone The feeling of contempt was obviously a bit irritable for Li Tian's continuous verbalism, but he didn't focus on talking about other things.

Li Tian didn't bother to pursue this kind of thing with this woman. He felt that this woman was a bit different, and it was too difficult to tell her clearly.

Unless you know what happened before, you don't want to communicate clearly with Simon Yechou at all. What is certain now is that something bad happened to this woman, which made it look like this, right. Everyone feels like being rejected from thousands of miles away, it's nothing more than worrying about being hurt by such feelings again.

However, before the words fell, an ancient temple suddenly appeared in front of them.

Chapter 5967: Shen Longyuan

The ancient temple in front of me is magnificent, with golden glazed tiles all over it, shining intoxicating colors under the shining of the black background.

The entire classical scale is also quite magnificent, it looks like an ancient emperor's palace, but it is a pity that there are no soldiers or anything else here.

After walking down the ancient bridge, Li Tian could see at this moment that there was actually a stone stele in front of them, on which were written three big golden characters of dragons flying and phoenix dancing; "Shen Longyuan"

"It seems that this should be the name of the bottomless abyss that we walked over before. It turned out to be Shen Longyuan, which is a very domineering name." Li Tian smiled faintly, and squinted his eyes. The bottomless abyss below said.

"Shen Longyuan, can it be said that there are many dragons under this bottomless abyss?"

"Who knows this kind of thing? We don't see what kind of situation is like now. It's just that there is such a stone stele here that tells us the name of this place." Li Tian shrugged and looked at this time. The bottomless abyss behind him really felt a little bit different.

But then the two people said that their attention was shifted away from this Shen Longyuan. After all, they have already crossed the ancient bridge. In front of them is an ancient temple with a long history. It is certain that this place is unusual. , But it should have nothing to do with the tomb.

According to the past situation, this hidden place is most likely to be the tomb of some powerful powerful man, but since such an ancient temple is used as his tomb, there must be other burial objects, and there should be some. The people who were buried, but they did not see any traces of these two things around this ancient temple, which means that their guess is somewhat wrong.

It is indeed an ancient temple in front of me, but it has nothing to do with any tomb.

Standing here looking at the ancient temple in front of him, Li Tian squinted his eyes and said solemnly: "This place looks different from others. After we go in, it is better to be careful. If there is any danger here, to It's quite embarrassing now."

"I thought you were not afraid of fear."

"I am indeed not afraid of the sky and the earth, but I also know that the sky is high and the earth is thick. Only when I can deal with it, I will be like this. In this situation, I still know what I should do and should not do. What do you do?" Li Tian sneered, and said helplessly on his shoulder. This is what he said. Although he is a genius and has enough strength, he must know when and what he should do. period.

The place in front of me looks different. The previous labyrinth almost made them die in it, not to mention how terrifying this place is now. In such a situation, I naturally have to be more careful. That's right, an inadvertent move may cause them to die here.

When the two people were talking, they began to slowly walk towards the ancient temple in front of them.

There are probably eight very strong pillars at the entrance. The strange thing is that there are no traces of dragons on these pillars. This is a bit weird. Generally speaking, there should be beetles carved on the pillars, but this On the eight pillars, there was not even a flat dragon.

"These pillars are naked and look ugly. They shouldn't be like this before. If they were like this before, how low is the taste of these people?" Ximen Yechou looked at this. The bare stone pillars wrinkled his brows. These eight pillars should have looked magnificent, but because there was nothing on them, they were bare red pillars, so they looked very It's weird.

This is completely inconsistent with the aesthetic concept of a normal person, so they also know very well what mechanism this place should have.

Li Tian squinted his eyes and looked at the stone pillar in front of him, and then said: "It is also possible that all the beon dragons on these stone pillars were resurrected, and then they were all hunted down and locked in Shen Longyuan." Li Tian could only guess at the appearance of the ancient temple in front of him. It is impossible for such a scale to have nothing here. On these pillars, there should be things like dragons.

While guessing, they slowly walked into the scope of the ancient temple in front of them. Although they still don't know what kind of creatures will appear in this ancient temple, they are not as panicked as they thought.

Li Tian walked into this ancient temple first.

There is no shadow of anything else in the empty ancient hall, and there are no carvings on these red pillars either.

There is no dust on the ground, it looks like it has been swept by someone,

"Strange, if this place is really so magical to us, then the second level should also have a very powerful existence protection, but we have all entered this place, and we have not seen any kind of people. Being here, is it because we thought wrong? There is nothing to protect here?" Ximen Yechou squinted, and the situation in front of her is still a little unbelievable.

There is no one to protect such a place, this is simply it.

"Who can tell this kind of thing clearly, even I don't know what's going on now." He shook his head helplessly, and Li Tian squinted his eyes to look at the hall in front of him, really puzzled.

Where is the connection between Shen Longyuan and this ancient temple?

The two tried to find a way to go on in this hall, but they found that they seemed to have reached the end, and they couldn't find a way to go on.

If they had spent a lot of effort here to see this empty hall, then no one would want to believe it.

But all of this tells them very clearly that the fact is like this, they are in front of this empty hall, and there is nothing else.

"There should be some organs in this hall. According to what we have seen before, there may be some organs in this place. If we find the organs, maybe we can proceed to the next step. Li Tian said, squinting his eyes, looking at the ancient temple in front of him.

Chapter 5968: Dragon figure

There were no clues in this hall to tell them what a great place was here.

Everything here is so sparse and ordinary, for many people there is nothing special at all.

After Li Tian finished speaking, he began to focus his attention on the hall in front of him. After they turned around, they did not find any clues. It looked like an end here.

"Perhaps it was originally that simple here, but we imagined it as too complicated, and therefore we can't find any clues right now, are you right?"

"We imagined this place too complicated? It's not that we thought it was too complicated, but it was originally so complicated. Even if it really has reached the end, there may not be a little treasure in a place protected by this kind of maze. ? If it is really just to protect this ancient temple, then there must be some valuable things in this ancient temple, or some things that cannot be seen again, but obviously we have not found anything now, can we still think that this is really just that simple ?" Li Tian asked.

In the original situation of this kind of protection, there must be something shameful, or a lot of treasures.

But nothing is seen here.

"Maybe it was just taken away by someone else. After all, we were not the only one who found this place, and it has been so many years, what else do you expect?" After a sneer, Ximen Yechou said coldly. One sentence.

So many years have passed here, and there should be too many strong people here. Who can find clues here and take away the treasures here is actually quite normal.

Li Tian definitely didn't want to believe in such a thing, he believed that there must be no end here.

Ximen Yeshou was obviously unwilling to continue searching, but he persisted like this. He could only stay here and watch this guy turn around in front of him, looking for clues. He simply dismissed it in his heart.

If any clues can be found, it would be a miracle.

This kind of place seems to be a sparse and ordinary place. Even if there is any treasure, it should have been taken away by others now, but it is just an ancient temple in an underground cave, which is nothing to her. There are so many powerhouses in the God Realm, and no one can't make such a place.

Li Tian still didn't want to believe it and didn't want to communicate so much with her.

Even the individual insisted on each other's ideas like this.

But Li Tian finally won. After only a few minutes, he found a strange place. In the very center of this ancient temple, there was a broken floor with a corner missing.

This is a very subtle difference, so if you don't observe it carefully, you won't find it at all.

He had always focused his attention on the periphery of the entire hall just now, but he didn't expect that the key point was actually at his feet. It was just this missing piece, but he didn't know how to find it.

"See, there is something missing on this dragon picture, because before our attention was not on this, so we could not find out in time. Now that we see it, do you still think this is really what we imagined? Simple?" Looking at Ximen Yeshou in front of him very seriously, Li Tian said excitedly: "You have to believe me. I never feel that my intuition is wrong. I just said there must be something unusual here. of."

"Don't be so anxious and just make your own conclusion, OK, maybe this is a very ordinary broken floor, do you really think you have found the key clue here? I don't think so." Simon Ye Chou smiled faintly. Seeing the excited smile on Li Tian's face, he said faintly: "What's more, even if you really found a clue to go down, are you really going to waste time here?"

"How can this be a waste of time? I think anyone who encounters a situation like mine will definitely continue to investigate. Don't you wonder what is behind so many things?" Li Tian looked at this in front of him. Long Tu was also looking for where this incomplete fragment was. This place had completely aroused his curiosity.

He really wanted to know what it was after this heavy mystery.

What kind of things are hidden in this underground cave?

"Forget it, since you really want to study it clearly, then try it. If you die here, there is no hope for anything." Ximen Yeshou snorted coldly, knowing that the man in front of her had a very temperament. Stubborn, even if Li Tian has decided, there is no point in his own nonsense, even Murong Ziqing can't make this kid compromise, let alone himself.

Looking at the excited expression on his face now, I wish I could get into this world now.

Unexpectedly, Li Tian ignored the helpless Ximen Yeshou, and began to search.

However, they did not notice that the people in white and black behind them also entered the maze at this time. When they came here, they frowned, "It is true that there are bones, but it seems that it has been a long time. The two people who died before, did the two people who walked in front of us really entered like this?" The white-clothed man squinted and asked.

"How is it possible? According to what I saw before, these people shouldn't know where this place is. How could they find a chance to get in?"

"Maybe it's the same as you said. These two people are geniuses, and they are lucky. They just waited for the time and space to be chaotic, so they found a way out of the maze. If this is the case, we must be faster. , If they are one step ahead, then all the efforts we have made so far will all fail." The white-clothed man clenched his fist and said nervously.

They all spent so much effort, and finally got here, and now they find that they have been taken the first step, they are naturally very upset in their hearts.

If he could, he would definitely want to kill the two ignorant guys in front.

"Don't waste time, hurry up and find the turbulence of time and space. We have to catch up with the two guys in front." The man in black glanced at the man in white and said seriously: "Never let things fall into their hands. ."

Chapter 5969: Longhang

"I can't see anything about this incomplete corner in this hall. Could it be that I have to find this thing to continue, but is this thing not in this hall at all?" Canglong's tired voice slowly sounded: "I What can be felt is that there used to be a strong breath of Shenlong here, that is, there should be a lot of Shenlong restrained here, maybe now they are really all trapped in Shen Longyuan."

"This is also the reason why I can still stick to my own mind. People who can do this are definitely not an ordinary person in my opinion. What they can do is completely beyond our imagination. There are many dragons trapped in Shen Longyuan. Apart from using a master to describe such a person, what else can he do?" Li Tian smiled helplessly, obviously more affirmed about the situation in front of him.

The master of this ancient temple is so powerful, even the dragons are trapped here so many, no one knows how many dragons are under Shen Longyuan.

The only certainty is that the master here may be more than anyone's imagination, is a real strong among the strong, and only in this way can achieve this point. ,

"It seems that we still have to do things in this Shen Longyuan. If we want to find a way to continue walking, the key point should be in the Shen Longyuan behind us, but I don't know the purpose of this master in making this hall. What is it? Since there are so many dragons ***** here, why wait

until we are here, but we find that all the dragons here have already disappeared?" Li Tian widened his eyes and asked strangely.

While talking, he once again came to Shen Longyuan, looking at the bottomless abyss in front of him, he was really worried that after he jumped down, he would never be able to get up again.

"What are you going to do? I tell you, you'd better think about your purpose of coming here this time. If you just jump like this, we won't be able to put into action in our next actions. They still Waiting for you to bring the herbs back, are you going to let yourself die in this place?" Seeing Li Tian standing here and looking at Shen Longyuan, Ximen Yeshou was anxious.

There are many people's hopes on this kid. I don't know how many people hope that he can take the herbal medicine back in this operation, so that it can change the current situation of Shuiyue Sect.

But this kid is thinking about jumping into this abyss now?

"I know exactly what I'm doing, but sometimes, some things are not as simple as we imagined." Li Tian stood up, the expression on his face became serious, and his eyes were all It was an unwavering look. He knew what he was doing and what he should do at this time. The situation in front of him definitely couldn't just retreat like this.

When talking, the person has already jumped down.

Before Ximen Yeshou could say anything, he jumped off.

"You...you lunatic, you are crazy..."

She snarled angrily, but it was too late. Li Tian had already jumped off and could no longer hear what she said.

Seeing a big living person just in front of him, jumping into this endless abyss, Ximen Yechou no longer had any indifferent expression on his face, and turned into a sad feeling.

However, this process didn't last long, and then I heard the sound of a dragon chant from below the abyss.

What followed was a group of red dragon's breath rising into the sky, making the whole cave crimson at first glance.

Immediately afterwards, a huge dragon shadow appeared under the abyss.

Following that, there was a figure that flew up quickly, and landed heavily on one side of the ground: "Let it die and then live. If you want to move forward, you must forget death. This is a very interesting place."

"It should have been written very clearly on the stone tablet. Shen Longyuan can restrain the immortal power of your immortals. Once you jump down, even if you have great magical powers, you can't get up. You dare to go on like this. You are really a one Madman?" Long Ying looked at Li Tian in front of him, and asked curiously, she didn't seem to think why this young man would do such a decisive thing.

The most frightening thing is that Li Tian didn't last long in this process, and he didn't hesitate at all.

"What is there to worry about? I know what kind of problems I will encounter, but no matter how difficult the problem is, I can still overcome it. Nothing will stop me from moving forward." Li Tian

raised his head. Come and look at the dragon shadow in front of you: "You should be the boss we are going to deal with this time, as long as we defeat you, we can pass this ancient temple, right?"

"It's really like this, but do you think it's possible to resist me with the strength of the two of you?" Long Ying nodded, a little compassion and disdain flashed in his eyes, and more seriousness followed. The look in his eyes looked exceptionally majestic: "A young man like you is simply dreaming, dare to be so arrogant in front of me."

"Hmph, how powerful you divine dragons are. Now they are not trapped in Shen Longyuan by others, and now they are not being guarded by others? What's so good about me, the gods are indeed very powerful. Race, but it doesn't mean that I have to be more careful about every dragon." Li Tian said coldly, confidently, as if he had found the weakness of the dragon in front of him.

Ximen Yeshou carefully wiped the tears from the corners of his eyes, looked at Li Tian in front of him, and cursed: "You are really a lunatic, do you know what you are doing?"

"I only knew at the moment I jumped down that I couldn't exert my original strength below here, but fortunately, this Shen Longyuan looked very fierce, in fact, he was not a man at all. The place used to kill people, the content written on this stone tablet is only for others to see and scare them."

"You...you are really an indescribable lunatic. I can't think of anyone who will do what you are. You...you are really too unreasonable." Looking at the serious Li Tian in front of him, Ximen Yeshou also I don't know what to say. What can I say to a madman?

Chapter 5970: Dragon Soul

The atmosphere started to become very strange at this moment, because Li Tian's work on this matter was really unexpected. No one would have thought that this person would eventually make such a bold decision.

Even the dragon shadow, who was tall and mighty in front of them, had a little more inquiring meaning in his eyes at this time.

"You didn't know that you might die if you jumped down, but you still chose to jump down. I really want to know what was in your heart that could make you make such a bold decision?" Long Ying Squinting his eyes, looking at Li Tian in front of him, he asked.

"Even if we know it, what can we do? If we were to turn around and leave here like this, I would definitely not be able to accept this result. It took a lot of effort to get to this place now. It wasn't because you told me to leave. Will leave, no matter how severe the danger is, I will continue to persevere until I think I can't persevere anymore." He smiled calmly, the muscles on his face did not even fluctuate sharply. It looks like a simple smile to others.

At this time, Ximen Yeshou has a better understanding of the man in front of him. This is not a simple madman, but a man who can think rationally at critical times, but is still crazy in doing things. .

It's no wonder that many people said that this young man is a man who can perform miracles. This is actually a matter of reason. No matter who encounters such a situation, he can be fearless and fearless and accomplish his goals according to his heart. Naturally, miracles can be easily created. Although the two of them didn't spend a long time together, but in the memory of seeing this man these days, he didn't seem to be afraid of anything.

Just as there is no fear of these two words in Li Tian's dictionary, even if there is a sea of fire in front of him, he can also remain calm at such a critical time and then make a shocking decision.

I have to say that this is a man who is very courageous and domineering. It's no wonder that such a loud voice has been received for so long.

At this time, it was not just Ximen Yeshou, Long Ying also admired this young man.

"I've been here for so long, I have seen more or less powerful people who don't know how many, but this is the first time I have seen a young man who thinks like you. At this time, there is no fear in his eyes, it seems There will be absolutely no mistakes in everything you decide. This aspect alone can actually make others understand that your strength is beyond the imagination of many people." Long Ying said, slowly making herself huge The body fell down: "But even in this way, you can't pass here unharmed, after all, I am the patron saint here."

"Patron saint? They probably never put you dragons in their eyes, or else it's best not to trap you in this Shen Longyuan, let you become the last key to activate this hallway. The reason why you are stopping me now is just that you still want to prove that your strength is as strong as before, and that's just that. There is nothing to worry about for me." Li Tian held Hong Zhan in his hand, at this time The aura on his body has slowly spread.

Although his aura spreads very slowly, his aura is turbulent, like a sea wave, which makes people feel uneasy. Such aura is really hard to measure.

Ximen Yeshou originally thought that his strength was before Li Tian, and there was no need to take this young man seriously, so her view of him was very simple in her eyes.

It was only now that she understood how ridiculous her previous thoughts were. The combat effectiveness of this young man can be said to be a rare genius in the gods.

The moment the aura exploded, she felt very strong pressure.

"This is absolutely impossible. It is obvious that my strength is above this guy. Why has it become like this now? Such a terrible aura is about to make my body unable to withstand such pressure. What kind of thing is in the kid's body that can give her such a terrifying aura, can I defeat such an enemy? '

Countless years have flashed in her mind, but at this time she truly realized where the gap between herself and this young man lay.

It's really horrible, you can do this just on the aura.

Looking at the young geniuses, there are not many talents who can exert their strength to this level, right? Li Tian in front of them may have rarely seen them for so many years.

"Very good aura and strong pressure, it makes you look very aggressive as a whole, but for me, is there a way for these things to affect me? I'm just a spirit body. Things can't touch me." Long Ying is no longer a real dragon, and now what is left is just a dragon soul. The body of that year has been eaten away in these long years.

Now he can only rely on the dragon soul that he has left to continue to help protect this place. Anyone who wants to pass this place must pass its test.

Li Tian in front of him is also one of the targets of the test. In fact, few people can pass here over the years, not only because it was difficult to be discovered before, but also because Dragon Soul has high requirements for these passers. Yes, if you haven't reached the bottom it wants, even if your strength is really good, you still can't leave here.

However, the young man in front of him gave it an unexpected surprise and let it know that such a young man actually appeared in the current God Realm.

"Naturally, I also know that you are in a spiritual state now, and my aura has no effect on you, but it doesn't mean that it won't work afterwards, doesn't it?" Long Ying, and then the dense sword aura was released, like a wild horse running off the rein, instantly bringing up an unparalleled aura.

Seeing this imposing sword formation, Long Ying's eyes were more or less solemn, but at this time he did not give up, but raised his head and roared to the sky.
