

A Killer 6041

Chapter 6041: Flame

"Master, we will never talk about this matter, but if you want us to participate in this matter, it is also completely impossible." The remaining three people still shook their heads helplessly. , If it's something else, they might still agree to help, but this matter can't be intervened at all. Yun Zhonghe has already said it seriously before.

If you really kill these three demons, of course Yunzhong Magpie will not have a little trouble.

In any case, blood is thicker than water.

But they are not necessarily the hands-on people. If Yun Zhonghe is to be really angry, it may not be surprising that they die a hundred times.

"Forget it, since you are unwilling to participate in this matter, you will immediately disappear from my front, but it is best to control your mouth. This matter has a very serious impact. If you let me know Before the action, anyone leaked the matter out, but don't blame me for being rude, I can be very good to you at ordinary times, and I can also be cruel to you." The expression on the face of the cloud magpie suddenly became serious. Get up, it looks like both grace and strength.

If he didn't urgently need some manpower to cope with the next thing at this time, the three people in front of him might be killed by the magpie in the cloud.

After the three people left, they began to discuss the next action.

What Li Tian didn't know was that an assassination against them was proceeding slowly at this time.

At this moment, she was thinking about where Yunzhonghe had gone, whether she really doubted the identities of the three of them. If they were like this, they might be exposed soon.

It was night, Ximen Yechou looked at Li Tian and asked, "Elder, how long do we need to wait here."

"Hehe, these humans don't seem to dare to go forward at all. They probably need to prepare for nearly a day or so. They will be on the road tomorrow night." At this time, Li Tian just said lightly. It seems that Ximen Yeshou can't wait to fight, and as a prisoner, their treatment is actually not very good.

Because the little princess is also a demon princess anyway, she has not received any bad treatment these days.

But Ximen Yeshou is different. In the eyes of others, this should be just a maid next to the Demon Princess. I don't know how many times I want to do something to her these days.

These men have not known how long they have been here, and it seems that they have never seen a woman during this time.

Suddenly there were two women like this in the team, and of course their male hormones would start to secrete quickly. The little princess is a demon princess, and she must be immobile.

What is left is a Ximen Yeshou, which has become the ideal target of many people.

But because of the words Yun Zhonghe said before, these people are just awkward, thinking a little bit more bad things in their minds, but asking them to really do it is really not many people dare to do.

"At this time, we must be calm. We must wait patiently. Anxiety will only expose us to our weaknesses faster." Li Tian said lightly, looking like a step-by-step instruction, but in fact it is just in front of warnings. Ximen Yeshou, don't waste too much thought on this matter, they need a very stable time to wait slowly.

What the enemy is doing is still unknown, and it is naturally impossible for them to relax their vigilance at this critical time.

"Elder, do you have to wait forever like this? What should we do if they have been here all the time preparing, should we follow them all the time?" the little princess asked suspiciously.

"Don't worry, there are more powerful masters behind us. These guys are like some hunting dogs. They will catch up quickly after sniffing your taste. They won't let us get it easily. The eyes of the magic dragon, if we want to get rid of them, every time we act must be much faster, so the Yunzhong family cannot waste a long time here."

Li Tian's words made the little princess in front of me feel at ease like a reassurance pill. What I was most worried about before was that if the people in front of me waste too much time here, all the efforts they made before are all in vain. If they were overtaken by the army behind, it would be even more difficult for them to grab the treasure from their hands.

Li Tian smiled faintly. There are so many secrets in this Devil Dragon Skeleton Cave. Maybe few people can really see through the secrets before. It can be seen that no one has ever entered the places behind. , They are the only people who are lucky enough to come here for the first time without knowing anything.

But the current situation is still quite awkward.

At this moment, Li Tian suddenly saw a fire that was slowly burning in the distance, and then on the ground in front of the three of them, a circle of fire suddenly appeared, trapping all three of them. Inside, at the moment he saw the flame, Li Tian actually realized that the three of them were in a dangerous situation.

Looking at the crazy Yunzhongmagpie in front of him, he was even more sure of his thoughts, because Yunzhonghe was not here, and now this young kid really started to become crazy.

"what do you want to do?"

"What do you do? I don't think you should be a fool or an idiot. You can see clearly what the situation is. Do you still need to ask me what I am going to do? My purpose is very simple, it's just to kill the three of you here. As long as I can kill the three of you, everything will be solved better." He walked forward slowly, and he just came here. Inside this circle of fire.

Looking at the magpie in the cloud in front of him, Li Tian just smiled faintly, and said: "Do you really think we are really ready to shoot you? If this is the case, we have done it a long time ago, so why bother? It's been so long."

"Don't think I don't know what you are thinking about. Now you have only a dead end, and no one can save you." Yunzhong Que stepped forward step by step, and soon forced him to Li Tian in front of him.

Chapter 6042: Dig your own grave

Looking at the magpie in the cloud in front of him, Li Tian was already ready.

But after thinking about it, it seems that this matter can't really be that simple.

Although the crane in the cloud is not here, he must know what he will do when he leaves here, and naturally he will know that if the magpie in the cloud does this, the next price will be paid. How tragic, no matter what, he can be regarded as a strong man of the gods, he still has a little brain, how can he watch such a thing happen?

Therefore, he still didn't do anything at this time.

Ximen Yeshou and the little princess had already screamed, looking at the magpie in the cloud in front of them, screaming loudly.

"Papa Papa"

The magpie in the cloud directly slapped the two people's cheeks, and soon some delicate red appeared on their cheeks.

Ximen Yeshou didn't feel much about it. After all, she is a cultivator of immortals. Although she is a girl, she has suffered hardships on the way and before. What kind of scenes have not been seen, what kind of punishment has not been experienced, this matter But it was just two slaps, which was quite normal for her, and the expression on her face was as calm as ever, as if the things that happened before her had nothing to do with her at all.

But the little princess must not be the same as Ximen Yeshou, this one is a real princess, but a little princess with a high status in the magic palace.

No one has dared to do this before.

Only the little princess had the chance to hit someone else, and there was never a chance that others had shot the little princess. At this time, they were hit by a human who they thought was very low, and naturally they couldn't bear it.

"You **** human being, what do you want to do, do you want to die?" She widened her eyes, and murderous expression appeared in her eyes, and even Li Tian was taken aback for a while, wondering whether this girl should Maybe it's going to be a shot. At the same time, I looked around subconsciously, worried that the strong man next to the little princess would take action at this time, so their plans would all be messed up.

But obviously this strong man is also very clear that this time is not an opportunity to take a shot. At this time, he still maintains a very quiet state and is not very anxious to take a shot.

This can be regarded as a relief for Li Tian. As long as this strong man is not so anxious to expose their purpose, they can find many ways to deal with the magpie in the cloud.

"Hmph, do you really think that you are still a princess of the demon clan now? Do you really think that all of us are going to be afraid of you?" Yunzhong Magpie, with a smug look on her face, slowly bent down and gently She squeezed the little princess's cheeks, and said, "Ask me what else

to do? Soon you'll know what I'm going to do, hahaha, but before that, I still want to tell you that you think you're perfect, but I don't. It is impossible for you to get what you want."

Li Tian smiled and looked at the cloud magpie in front of him, and said, "What do you want to do? If you want to bully others, just come and bully the old man. Don't do anything to the princess. I can do whatever you want. I will never fight back."

"Old guy, the sandbags that won't fight back must have no interest in hitting them. How could I take action against old guys like you? I know, you are the elder in the magic palace. Your face has played with the princess of your demon clan. This is the most difficult thing for you to accept, right." Yunzhong Magpie said as she was actually ready to do it.

Seeing the action of the guy in front of him, Li Tian had to make his tone sound a lot better: "I know you are very upset with me in your heart. You must have a lot of things to vent on me, but I miss you. Now it's better to calm down and figure out when and what kind of things you should do, right? If you do this, your second uncle has come out, how should you explain it?"

"This doesn't need you to worry about it. When things get to this point, it's time to let you know the end of going against me." Yun Zhongmagie said as he started to tear the clothes on the little princess.

At this time, Li Tian had slowly appeared a little bit of murderous aura. He really couldn't accept the facts in front of him at this time. He originally thought this guy was just talking casually. After all, they are still in the demons. In the realm, doing such a thing is really a problem, but seeing this guy's movement in front of him, it is obvious that he has thought of doing it before.

Now that this kid had already thought of doing this, Li Tian definitely couldn't continue to wait like this now.

The original plan was not like this, but now that it has developed to this point, it can only be done.

Seeing that the scene is already very difficult to continue to clean up, if it continues like this, it will definitely be a very tricky thing for Li Tian, after all, he has only prepared all this before, but now it is out of control. Choose to change the plan forcibly.

At this moment, a strong wind suddenly hung over.

Originally, Ximen Yeshou and the little princess were also ready to take action. Both of them knew that things had reached this point. Even if they wanted to continue according to their original plan, they definitely couldn't. They had no choice but to take action.

But at this moment, the moment the wind blew, a figure also appeared in front of the cloud magpie.

Yun Zhonghe looked at the crazy young man in front of him, then sneered, and said, "Are you questioning my ability or my IQ?"

"Second uncle, if these people are not killed, it will have a great impact on us. If this continues, the problem will only become more and more serious. We..."

"I know what you are talking about, but now I just want to ask you, did you take what I said to your heart? Do you think I'm joking with you?" Yun Zhonghe's face at this time. He looked angry, squinted angrily at the cloud magpie in front of him, and asked: "If you really didn't hear what I said before, I won't be standing here today."

"Second uncle, I know what you mean, but if I listen to you, all of us will die here today. The identity of these three people is suspicious, and no one knows what their purpose is." Yunzhong Que looked at it. He said helplessly.

Chapter 6043: Shot

"Do you think I don't know?" At this moment, Yun Zhonghe suddenly smiled.

He laughed!

The smile on his face is very indifferent, but there is something that makes it difficult to describe in normal language.

Looking at the guy in front of him, the expression on Li Tian's face also solidified, and he seemed to think of something.

"Do you really think that we are such idiots? Do you really think that we can be easily played by the three of you? Li Tian, although I don't know why you are like this, I think that everything has a great connection. You have become like this. That's why you really have such a cooperation with the demon princess in front of you, right?" At this time, Yunzhonghetui He opened the magpie in the cloud, then used the sword in his hand to resist the little princess's throat, looked at Li Tian, and said.

"What are you talking about?"

"Don't pretend to be here, do you really think I have been deceived by everything you have done these days? Since I have come to Heaven and Hell, you should know that it is impossible to go back to the previous position. I have never heard of anyone who can go back to the original world like this. You know this so well, don't you know these things?"

Li Tian still didn't say anything at this time, and still performed his acting skills as much as possible.

"Hehe, you are innocent. You think that everyone thinks as simple as you. I don't know what you want to do, but I know what your purpose is. It's really hard to come here. You Now that I know so many issues here, I should know how I can pass here, so there will be an ending like this, in fact, I am not surprised at all." Yun Zhonghe grabbed the little princess of the demon in his hand. , Said: "The strength of the two of you shouldn't be weak, why haven't you shown it? Are you ready to show your true strength when you die?"

"I do not know what you're talking about."

"No need to pretend. Although your acting skills are good, there are still many logical flaws in it. Coupled with what Xiao Que said these days, I can easily draw some In conclusion, although your current aura has completely changed, this little girl of yours will not change. You probably won't know it. The old man is very sensitive to this aura." At that time, Yun Zhonghe looked at Ximen Yeshou in front of him and said.

Obviously, the strength of this person is really terrifying to the point that it is difficult to describe in normal words. Even Li Tian has not guessed these things so quickly, and for their aura. It was so terrifying.

"Since this is the case, it seems that if we continue to pretend to be like this now, there is nothing we can do." As Li Tian spoke, all of the sleepy locks on his body suddenly broke apart and turned into one. Tuantuan's energy disappeared: "I thought you didn't know anything. Now it seems that I am thinking too much. You old guy knows a lot, and are you staring at us so soon?"

"Hehe, as early as in that cave, when I felt your aura, I knew that I might meet you next. Although I knew that you were two people, this time there was one more person, but I was very sensitive to the aura. I actually knew your identities a long time ago." Yun Zhonghe said, staring at Li Tian and said: "Now she is in my hands, you should know what you should do. "

"Do you think that you can ask me to do what you can do with this Mozu princess? She is just a guy to use to me. Since our cooperation is meaningless now, it can be ended like this now. "Li Tian smiled, and then a very sharp aura quickly appeared on his body. In the next second, a black black hole suddenly appeared behind the cloud magpie.

So the trick was repeated. Since there is a hostage in the hands of Yun Zhonghe, Li Tian must still need a hostage to help him threaten Yun Zhonghe in front of him.

Who knew that this black hole had just appeared, almost in such a short tenths of a second, a hurricane appeared in Yunzhonghe's hand, which instantly exploded at the location of the black hole.

'Humph'

Li Tian snorted and took his right hand back. At this time, there were already some blood stains on it.

"Do you think that others don't know how to defend with your means, so I don't know anymore? Although your void leap is very fast, it is only because your opponents have too little to deal with such skills. After clearing what you are going to do, pay a little attention to your movements and you can clearly know what your next step is to do." Yun Zhonghe looked at Li Tian in front of him with full confidence and smiled: "You His soul strength is not weak, so even if he defeats you here today, he won't be said by others that he is incapable of victory. How about, are you ready?"

His smile actually made Li Tian in front of him even more at a loss. The combat effectiveness of this guy was really terrifying.

"Now that I'm at this point, you can't let me go even if I'm not ready. If it's like this, it's better to let it go and let me see how well you are." Li Tian stood up slowly, holding the sword in his hand tightly, and looking at the cloud crane in front of him: "We can fight if we want, but you are holding the hostage in your hand. Isn't that good?"

"Is this not so good? I think it's good. You guy is very treacherous. Although I don't know what is going on in Yishengdian, I know that I must be careful here, otherwise it may be. There is a price to pay." Yun Zhonghe said seriously, and then squinted at Yun Zhongmagie: "If it is not for the current enemy, I will let you know today what will happen if you go against me, you The kid is really getting lazy now, and he doesn't even know what I am saying."

"Second Uncle, you knew it a long time ago. Why didn't you tell me earlier? If you told me earlier, there would be no such thing as today, right?" Yun Zhongqu looked at the angry cloud before him. He said helplessly, he also had no confidence in his heart now, for fear that the crane in front of him would really do something to invite him.

Chapter 6044: Phantom

"I said, I'll tell you after this matter, now you'd better be honest with me." He snorted and looked at the cautious cloud magpie in front of me. He also suddenly moved his hand and rushed towards Li Tian in front of him: "Come on, let me see how powerful your soul power is, the young man in the rumor."

Li Tian is not really anxious now.

He knew that he might have to fight with this guy in front of him for a while, and he also knew that these people might be a little bit dangerous in their hands, but he also knew that he had to concentrate his whole mind at this time. , Don't make any mistakes, as long as there is a little problem, then the consequences may be completely unimaginable.

Watching things develop to the point where they are now, he can only rely on a little thought in his mind to settle the situation.

The moment Yun Zhonghe rushed over, there was already a small dagger in his hand. This old guy is worthy of a god-level powerhouse. He knew exactly what to do in battle, and he didn't face Li Tian in front of him. The slightest amount of nervousness means that he has always performed very calmly, and he is very careful when facing any situation.

In this way, Li Tian could feel a little bit of meaning.

After I came to the God Realm, I actually didn't have many serious battles. It was a real evenly matched battle, and the one in front of me was going to be a master who has experienced many battles, a master who has reached the level of a god. Naturally, he also had countless battle experiences. Such battles are actually Li Tian's favorite. Only such battles can truly grow oneself.

Both mental states are highly concentrated powerhouses, relying on their own soul power, began to fight here.

On the other side, the magpie in the cloud came to Ximen Yeshou and the little princess and said, "Look, I have already said very clearly before. Your plan will not succeed, but you guys are actually paying. If you don't want to believe it, if you confess to us earlier or find a way to leave, maybe none of these things will happen today. The fault is that you regard us as idiots at your disposal."

Ximen Yechou sneered, staring at the magpie in the cloud in front of him, and said: "Do you think all this has anything to do with you? Even if our plan has failed now, it is only because of your second uncle, and You have nothing to do with yourself. If we could, you would have become a corpse on the ground, but even this way, it doesn't matter. It's impossible for you to defeat Li Tian."

"If you are so naive, you can tell, who is Li Tian, who is my second uncle, even if this Li Tian has already created countless miracles in the God Realm before, what if you really think this young man people....."

'boom';

A group of flames suddenly exploded in the air, and numerous potholes appeared on the ground in front of them.

Yun Zhonghe quickly smashed down from the air, just like a meteorite, and the entire ground began to tremble.

Yunzhong Magpie said: "Second Uncle, what are you...":

"This kid deserves to be a miracle guy, and his strength has reached this level. You must have cultivated your soul power. If you have not practiced, it is impossible to reach this level." He looked at Li in front of him. God, asked very surely.

Although it is clear that this young man must have practiced, he still doesn't want to believe this in his own way.

"Haha, was it surprising?"

"It is true. As a Sanxian, you know how to cultivate this way. You have already won at the starting line. No wonder so many people are not your opponents. The strength of your young man has already surpassed their imagination. It's level." Shrugging his shoulders helplessly, Yunzhonghe slowly walked out of the pothole and looked at Li Tian above his head: "Unfortunately, you shouldn't be my opponent."

"Yeah, do you still think that you will be my opponent?" Li Tian also smiled. He is only showing about 80% of his strength now. The real form has not appeared yet, if it does. At that level, it may not be the opponent of the guy in front of him.

The reason why the truly terrifying combat effectiveness has not been demonstrated is that Li Tian has not yet been able to determine the safety of the little princess and Ximen Yeshou. As long as the two cannot be truly safe, then this battle will not Maybe they have really entered the white-hot stage. These two hostages are like a bondage, firmly suppressing Li Tian, so that he has no way to show his true strength.

The surrounding powerhouses were unable to stand up at this time. Their strength felt very weak at this time, and the aura of the two powerhouses in front of them was really terrifying, so they had no way to get from it. Standing up on the ground, looking at the two people in front of him, the expression on his face began to become solemn: "Is this the aura of a real strong man? It's really scary."

"It's the young man who is even more terrifying. At such a young state, he has such power. It is surprisingly surprising."

On this side, the cloud magpie snorted coldly: "It seems that I need to do something to distract Li Tian. Only in this way can my second uncle defeat this guy better. You two should suffer a little bit. Today I will..."

When he spoke, he raised his palm and prepared to slap the little princess in front of him again.

But at this moment, a phantom appeared in front of the little princess.

Then he raised his hand slowly, just understatement, and grabbed the arm of the magpie in the cloud, and a hoarse and indifferent voice rang: "Humble humans, do you really think that you can let the demon race Are you acting recklessly?"

"You...who are you." Looking at the phantom in front of him, the cloud magpie felt an indescribable fear, and at the same time an irresistible fear. In front of this phantom, she didn't even have the power to resist. .

"It doesn't matter who I am. The important thing is that none of you can live today." The phantom voice said calmly, as if the fate of these people had been pronounced, without any emotion.

Chapter 6045: Worry free

Li Tian was truly relieved when he saw the phantom in front of him appearing. The strength of all this should not be terrible.

Although there are a few hard requirements here, even the strength of the gods can help Li Tianlai solve the problem here.

"Master...Master, why are you here?" The little princess widened her eyes, looked at the phantom in front of her, and asked worriedly: "Father, he... isn't he?"

"The Lord is very worried about your safety, and I am also very worried about your safety, so I have been following behind you all the time. I see everything that happens on the road." The ghost voice said calmly, his eyes still intentional. Inadvertently transferred to the body of Simon Yeshou next to him. Obviously, the emotions expressed by this woman before were also clearly seen by the phantom.

Ximen Yechou wanted to kill the little princess, but the phantom in front of him was also very clear. At this time, the meaning of this sentence was to warn Ximen Yechou and tell her not to act rashly.

The situation in front of them was strange and unpredictable to each of them, and no one knew what would happen in the next period of time.

"I didn't expect such a master to exist beside this little witch. My decision so far is not wrong." At this time, Yun Zhonghe turned around and looked at the imaginary person in front of him. Ying said with a smile, "I think you have seen how I treated this little witch before, and I didn't think about doing it right with your demons."

"What do you mean by this sentence, do you want to get rid of these suspicions from yourself, so that we think the whole thing has nothing to do with you?" Looking at the cloud crane with a serious expression in front of him, the ghost in front of him He also gave a faint smile, and then a teasing taste appeared in his tone: "The reason you told me this way, you just want me to help you solve these two humans."

There is such a powerful expert around the little princess. This is something Yun Zhonghe did not expect before. They have done too much before. The purpose of this is to attract the strong behind this.

But so many consecutive tests had no results, and Yun Zhonghe believed one thing. The little princess must have ran here alone.

This is also in line with the plot.

For princesses like her, who have a golden spoon in their hands, stretch out their hands and open their mouths, and live in the palace all day long, their greatest wish is to find a truly free life.

Therefore, running away from home alone is not difficult to understand.

After testing so many times and found no results, he knew that the little princess really ran out by himself, and maybe because he was too careful, there was not even a protector behind him.

After so many things have been determined, this is where the situation is now.

Who knew that just when they thought they were about to succeed, things turned out to be such a huge turnaround, and they all froze in place, and they couldn't turn the corner for a while.

"Hehe, it seems that you are still scared. I thought that the members of your Yunzhong family have always regarded themselves as gods in the sky. Any enemy is not worth mentioning in your eyes." smiled slightly. Looking at the stunned Yun Zhonghe in front of him, Li Tian snorted disdainfully, and said: "You don't even look at yourself like this, do you really think it is so easy for them to cooperate with you?"

"It is indeed like this. You have all heard what I said before. If one day I can get rid of your control safely, I will make you regret having an enemy like me." The little princess said decisively at this time. In one sentence, a murderous look broke out in his eyes: "Although you did nothing, or even said nothing, I just wanted to kill you here, for no reason at all."

"you you....."

"Second Uncle, save me... save me soon." Yunzhong Que suddenly screamed, and his wrist started to melt slowly at this moment. It felt a bit like being in a high temperature state. Like a little bit of melted chocolate, the skin on the body showed a red light at this time, melting little by little, slowly disappearing.

He has never seen such a scene before, and he has never encountered such a powerful opponent. What is certain is that they are definitely not enemies of the same level. What is the result of this battle? I don't know yet.

Yun Zhonghe originally wanted to join forces with the virtual shadow. This old fox knew very well that if there was a strong protector by the little princess, the strength would inevitably exceed the imagination of people like them. Can not easily conflict with this level of power, otherwise the cost can be imagined.

He originally thought that his plan must be seamless, but he didn't expect to have reached this stage.

The little princess is a rather unexpected existence. Let them all miscalculate their calculations. The only winner may be Li Tian in front of him. This kid seems to be born to death, but in fact, no matter what happens. Transformation, it is impossible for Li Tian to die. This kid's intelligence is bound to be impossible to put himself in such an embarrassing situation.

"It really surprised me. It made me come to the field where I am today. It seems that you people are really powerful." Yun Zhonghe held the short knife in his hand tightly and squinted at Li Tian in front of him. , But his entire aura is paying close attention to the phantom behind him. Although he hates this little boy who is not on the stage, after all, blood is thicker than water, so naturally it is impossible to easily assume that nothing has happened. .

"If you can pretend that you don't know anything, and if you choose to leave here, we don't have to go to this point. Now that you already know my plan, but you still have to choose this way, you just think that I am not yours. The opponent, isn't it?" Li Tian smiled and looked at Yun Zhonghe in front of him, and said: "Since you have already taken the lead in drawing a conclusion, it should make you suffer a bit."

"Haha, yeah, it seems that today I do have to suffer a bit, and I may even have a somersault here." Yun Zhonghe smiled slightly, using some strength in his hands.

Chapter 6046: I don't interfere

The scene became very tense at this moment. Yun Zhonghe looked at the cloud magpie in the distance. Although he was very anxious, he could not do anything.

I could only watch the flesh and blood on the arm of the magpie in the cloud melt away bit by bit, and then fell to the ground, becoming a very strange blood flower.

"Is it uncomfortable?" Li Tian asked suddenly.

"Could it be, what's uncomfortable? For this stubborn boy? Even if he died, he should be considered as he should be. Who made this boy not serious before, and naively thought he was very powerful." With a sneer, he said: "If it were not for this kid to seek his own death, we would not be where we are today. We are now in the current situation, and there is nothing to say."

"Second uncle, you can't, you can't do this, you can't give up on me." Hearing Yunzhonghe said such words, Yunzhonghe's whole person began to become nervous at this moment. I was very anxious at the moment and said: "How do you say we are thicker than water, I am still your junior, I have always been obedient, am I? Only this time I am worried that my second uncle will be deceived by them. It's such an excessive thing, but in essence, I have never thought about causing trouble to your second uncle."

Hearing that he was about to be given up, Yun Zhongmagie's mood at this time can be imagined. It must be more uncomfortable than death. He really wants to hurry up and change the embarrassing situation before him.

"Don't worry, your second uncle can't save you today, let alone your second uncle. Even if your family is here, you can't do anything to us. The Northern Cold Land is the territory of our demons, here Even the strong of your human race rarely get involved, just because they know very well that once something trouble is involved, how to solve it is a very difficult thing, so everyone is clamping their tails at this time. To do things, you are the only kid who is much more arrogant than we thought. You know that this is the place of our demons, but you dare to do such things. You are probably so many people we have met. There are only a few remaining among them." Xu Ying said with a sneer.

He knows that these young people will be a little more rampant, but these are actually no problems.

Young people, it is normal to be young and vigorous. Under normal circumstances, it is understandable to do some excessive things.

But the really smart young people know where to be. This is not the territory of the human race. Even if their Yunzhong family is very famous among the human race, there is no way here.

This is the territory of the demons, and no one here can easily buy it.

The magpie in the cloud has done too much here, and at this time it is impossible to be forgiven so easily.

Seeing that his right hand is turning into pus a little bit, if there is no other way to do this, I am afraid that the magpie in the cloud will become a real useless person.

But on the other side, the battle between Li Tian and Yun Zhonghe has not ended. The two men are still facing each other at this time, and no one knows what will happen in the next second.

"If you are very nervous, I can give you a small opportunity to help you, but I think it will be useless even if you pass. This one is the real elder in the magic palace, and I am a fake. It's very different. Even if you pass by yourself, you can only touch your nose." He looked indifferent and said indifferently.

The analysis of the situation in front of us is quite thorough. Just as Li Tian said, the strength of this phantom is also controlled by the gods. Even if the crane in the cloud is gone, he cannot save the magpie in the cloud. .

"Second Uncle... Hey hey... Second Uncle, please help me soon." The screams of Magpie in the cloud continued to be heard, and the muscles on his arm had melted a lot at this time. It was all exposed, showing that the pain he endured was also quite tragic.

Yun Zhonghe wanted to help very much, but at this time, he was also unable to protect himself. He could only stand here and watch eagerly. No matter how entangled in his heart, there was no way at this time.

Li Tian was holding a sword in one hand, and there was already a figure in shape behind him. At this moment, he squinted at Yun Zhonghe in front of him: "Give up. If you think you can defeat the two of us alone, you can also try. Try, of course I think the chance of success like this is quite small."

"Even if I really can't do it, what about it? Is it really because I can't do it, that's why I have to do this?" When Yun Zhonghe spoke, he suddenly moved towards the other side of the cloud magpie. It seems that he is ready to fight the phantom in front of him. Although he is unlikely to defeat the enemy in front of him like this, he may still be able to deal with it for a while and give himself a chance.

Seeing that this guy in front of him was ready to do it, the sword in Li Tian's hand was also shining, and he quickly caught up.

The phantom is still shrouded in darkness. Until now, no one can really see what kind of existence this guy in front of him is. Whether it looks from the facial expression or the body shape, it seems normal. Looks like, but the aura emanating from this thick black mist is not something they can easily handle.

"I will not intervene in the matter between you, but I hope you never intervene in my matter, otherwise this matter today will not be so easy to solve." One hand is holding the magpie in the cloud, the shadow is slow. Taking a step forward slowly, although it was only a very simple sentence, it had a very calm domineering, but after saying this, the figure of Yunzhonghe stopped in the air.

"Hmph, I think you should be more honest. This is the territory of our demons. You humans are really naive to think, can you do it with us here? If I were you, I would definitely turn around and leave now. Here, instead of wasting time here, is it because you think we dare not attack you?" The little princess also sneered, looking at the Yun Zhonghe in front of him, and said something very serious.

The situation in front of him suddenly reached a verdict, and Yunzhonghe was in a dilemma. No matter what, it can be seen that the Yunzhongmagpie is in a catastrophe here today.

Although he has the heart to save, he really has more than enough heart but not enough energy.

Chapter 6047: Fight

There were two more spells in Li Tian's hand at this time, but it was just a simple fireball technique, and threw it behind the crane in the cloud: "You are already a mud bodhisattva crossing the river, and you are hard to protect yourself. Don't think about saving now. Others, this time should be thinking about what you should do."

‘Boom boom boom’

Although the voice was not particularly intense, there was still a very clear voice in this area. What can be seen is that Yun Zhonghe finally turned around and faced Li Tian head-on.

Looking at Li Tian and Yun Zhonghe, the little princess asked: "Elder, the two of them..."

"Don't underestimate the strength of this young man. Although it is rumored that this young man is only capable of the realm of gods, it is actually not like this at all. His own soul power has reached the level of gods, if he cultivates later The speed is getting faster and faster, so the gap with others will only get bigger and bigger. This is a really dangerous young man. Dealing with a strong person at the godly level may not necessarily fail."

"Are you serious?"

"Do you think I am joking? Although it is hard to believe such a thing, the truth is like this. This kid can no longer be regarded as a pure human in terms of physical or mental power. This kind of talent and this kind of chance have long been such a weird young man and it is really normal, and this battle will be very exciting."

"Is Li Tian already cultivating to this level? No wonder I always feel that my strength seems to be lacking in front of this man. I thought that the strength of me and the guy in front of me was so different, I thought I was It's better than him. Who knew it was only here to find out that it would be like this." Ximen Yechou didn't speak, but he couldn't believe it in his heart. Such a fact is indeed a bit unbelievable for him.

Looking at the three people in front of him, Yun Zhongmagie said, "Don't be too happy for you. After my second uncle kills the kid who knows nothing about life and death, it's your death date. What are you guys still watching from a distance? Well, come over and help, help me kill these three people, and save me."

Although the magpie in the cloud had spoken, the surrounding powerhouses were all staring at this side, but no one dared to step forward.

In the past, it was just the aura of Li Tian and Yun Zhonghe fighting, which made it impossible for people like them to stand upright, not to mention that they now have to face this kind of powerhouse of the gods. It is an unimaginable challenge for them. Normally speaking, there is almost no possibility of defeating such an opponent, right?

"You must have a clear understanding of yourself so that you can survive in this world. Why don't these people dare to take action? Because they know that they are not my opponents. They are better than you. The kid is much smarter. They know that even if they rush up at this time, they can't take advantage of it, and if they die in my hands like this, it won't do them any good." Xu Ying sneered, looking at nothing in front of them. Action powerhouses, their strength may be good on the outside, but here they are reluctant.

At this time, only one of these people needs to dare to act rashly, and the end is a dead end, and it is absolutely impossible to escape from his hands.

Cloud Magpie originally thought that many people would come forward to help after his voice went down. After all, his identity is already here. Even if these guys are really idiots, they now know what to do. Okay.

But watching these subordinates who were all standing still in front of them, a desperate expression appeared on their faces.

"You young man is too rampant. If you are in the God Realm, that's fine, but you are still in our Northern Cold Land, or our Demon Race's territory. You dare to do such a thing. I can't forgive, since you're already bold enough to this point, let me let you learn about our greatness today."

'call out'

Li Tian flew upside down, and then his body quickly rose into the air. He paused in the air and looked at the cloud crane below: "As expected of a god-level powerhouse, he can actually put me in this state. Forced to this point, it seems that our battle today is destined to be very interesting, but I think you don't seem to be fully committed now, are you still prepared to have reservations?"

"Huh, it's just to deal with a young man who doesn't know how to live or die. Do I still need to show my full strength? Although I don't know how you, a young man, do it, but this little soul power is enough. It proves that you and those little guys are indeed different, but even so, it doesn't matter. No one can save you in front of me." Holding the short knife in his hand tightly, he looked at Li Tian in the air. , Yun Zhonghe said solemnly.

Although he said that, he didn't dare to feel a little slack about the young man in front of him. He seemed to be very serious. He squinted his eyes and looked at Li Tian, as long as he could stay here for a short time. After catching the slightest flaw in this young man within a short period of time, he can shoot this kid from the air in a very short time.

It's just that although Li Tian is now in mid-air, like a living target, there are no flaws in his body, giving you the feeling that you will be tricked as long as you rush up. Naturally, the crane in the cloud does not dare to move rashly.

"It's just talking about it, anyone can do something like this. I don't know what chance you have to defeat me, but if I were you, I would definitely not brag like this at this time. If you fail, you can find yourself a step down. You can see the level of my strength. Will you be my opponent?" Li Tian asked.

"Don't forget, you were my prisoner before, and don't forget how you were beaten by me. Since I can beat you before, I can beat you now." He sneered and looked in front of him. Li Tian, who was still calm, and Yun Zhonghe could only calm himself down as much as possible.

Chapter 6048: weakness

'Monster, this kid is simply a monster. It is impossible to imagine that there is such a monster in this world. It was originally a loose fairy, but its own power can be so powerful, even if it is A powerhouse like me at the godly level has no chance of winning in front of this kid. If he is given a little more time, he still doesn't know what will happen next. Yun Zhonghe stared at Li Tian in the

sky, the battle situation was stalemate, and he was trying very hard to find the flaws in Li Tian before him.

But this kid is obviously a kid with a lot of combat experience. After turning it over, Ben couldn't find any weaknesses in this kid. He was like an iron bucket. There was really no way. Looking at the triumphant kid in front of him, now he can only try to find a little opportunity as much as possible, and only in this way can he get a head start in this battle.

At this time, on the stone tablet on the other side, many people can be seen here.

When these people appeared here, they were all very rules and did not take action. They looked like they were abiding by some treaty. The leader was a young man, followed by a man in black.

"Master, we have arrived."

"Is this the rumored Hell of Heaven? Li Tian and those people have been here for a long time, and I don't know what will happen next." The young man squinted his eyes after hearing the man in black talking to him. , Looked into the distance: "You and him probably haven't seen him for a long time, but I heard that this kid has now reached the realm of gods, and he is really making rapid progress."

"As a Sanxian, but can grow to this point in such a short period of time, the talent and strength of this young man is indeed quite terrifying, if such a person can become friends with him is the best, even if You cannot be a friend, and you must never be an enemy. The young master's previous decision was quite correct. It is not worth offending such a young man for a quota." The black man squinted his eyes and said.

"Well, we gathered all these scattered immortals this time because we know what kind of trouble we will encounter next. If we want to catch up with them, we must rely on the power of these scattered immortals. It's quite difficult for two people to want to go over." The young man nodded, with a smile on his mouth: "Li Tian, I thought once I would definitely not lose to you again."

Among the crowd, there was also a hot-looking figure. At this time, he stood alone, looking at the stone monument in front of him, and muttered: "There is still this guy's aura on this, it seems he really is I've come to this place, but I don't know what's going on now. It's said that Heaven and Underworld Hell is very dangerous. As a Sanxian, it seems difficult to get past if you are just a person?

In this place, it seems that many old friends have gathered here.

The God Realm is very large, but in recent years there are very few places that are truly worthy of their efforts. At this time, so many people are gathered here for the eyes of the magic dragon.

After the dispersal of immortals arrives at this thing, they may instantly become a powerhouse of the **** emperor level, and if the **** emperors get this thing, it may impact the realm of the real god.

So no matter who it is, this is a vital thing.

"Everyone, I think you have all seen what kind of world the world in front of us is like, where our personal combat effectiveness is constantly suppressed, which means that we want to advance on our own strength here. It is possible, so next we must be united before we can really get to the road of test. If we are killed by these gods on this road, then there will be no chance of winning."

"Roar!"

The crowd shouted, although it was just a group of scattered immortals, it was precisely because they had no organization and no support.

Therefore, it is easiest to unite when it comes to life and death.

Of course, it just needs a little bit of profit now, and this team may collapse in an instant.

After these people got together, they started to act, and after that, more people came here one after another.

At this moment, a red light and a blue light collided together in the distance, just like the pillars between the sky and the earth, so that many people could see it. At this moment, everyone knew it. A real event had already begun in the distance. It was a terrible battle. Although they were far away, they could still feel a very weak aura, which made them feel terrible.

Such a long distance can be passed over, and you can imagine the strength of these two fighting people. It may be the point where they have truly obtained the gods.

‘Huh huh’

Gasping for breath, holding the sword tightly in his hand, and his body trembling constantly at this time, it may be because the successive collisions were too intense, so that my body began to be unable to withstand such intense collisions. As for the whole person's current state, he looks very tired. Although he is very confident about himself, his opponent and himself are evenly matched, and it is not so easy to overcome.

"Damn guy, I thought this battle could be over easily, but now it seems I think about it a lot, this guy is far more difficult than we thought," he said helplessly. , Slowly squeezed the sword in his hand and squinted at the Yun Zhonghe in front of him. Li Tian became a little anxious. It is an unreasonable behavior to waste too much time here.

At this time, Yun Zhonghe was no better to go anywhere than Li Tian. There were all kinds of wounds on his body, looking very embarrassed.

The two people are truly evenly matched, and no one can open the deadlock, and can only let the situation worsen.

"Look at what you look like now. It's really embarrassing. Maybe I never thought that you would look like this before. As a god-level powerhouse, but even a god-level young man If you can't win, you must be uncomfortable?" Li Tian smiled and looked at the cloud crane in front of him. At this time, he was a little bit proud.

"Boy, don't be too happy, our battle has just begun."

Chapter 6049: Behead

"Really? I thought the battle had reached the stage of heating up. After all, our current battle is not interrupted by anyone. We can all use our original strength as we wish. If we wait a little longer, the problem may be gone. It's that simple." Li Tian smiled, clasped the sword in his hand tightly, and then slowly exhaled, entering the realm of heart-like water.

Everything around him turned into silk, gently brushing over Li Tian's body slowly, allowing him to easily understand every move around him.

Void Transition opens instantly.

At the moment when the black hole appeared, Li Tian disappeared. After having a demon body, his body was no longer the normal way of human exercises. At this time, once Li Tian entered a state of combat, the same was true. It was a very scary existence, and the red wing divine outfit on his body had become even harder than before. Even if it was hit by a magic weapon full of immortal power, it was just a few white marks.

I think that unless it is much stronger than Li Tian, it is impossible to leave a trace on this armor.

And Hong Zhan hasn't changed much, but it always feels more difficult to control than before. It seems that it is because the hostility and demon aura in his body are too strong, and it has begun to affect the sword in his hand.

In many cases, Li Tian could clearly feel that the sword in his hand was completely directing him to fight.

When he disappeared in the black hole, Yun Zhonghe also became nervous: "This kid's skill is very easy to deal with if you know the details, but if you keep using this trick in battle, it is easy to miss you. There are some things, this kid is very smart, he knows when to do something. '

When I was thinking like this in my mind, a strong wind suddenly came from behind me.

Yun Zhonghe, who had been prepared a long time ago, turned around decisively, and the short knife in his hand stabbed behind him, passing with a strong wind and a very strong immortal power.

That dagger didn't look like a powerful treasure, but after the immortal power was injected into it, it felt like a state of change in an instant, and it became sharper in the next year. ,

A little white light film can be seen on this blade. The light film is actually condensed by the power of the fairy. It is quite a shell protecting the short knife, but the actual application is to make this short knife now It became harder, bigger, and sharper, even if there was a mountain in front of him, he could split it with a single knife.

Li Tian snorted, his left hand tightly grasped the short knife in front of him, and the sharp blade instantly caused blood to flow from the palm of his hand. Of course, such efforts were not without results. The short knife was He caught it firmly, no matter how he moved, he couldn't escape from his hands.

"What's the meaning of your method? Do you think you can defeat me with one right hand?" Yunzhonghe thought of a formula, which turned out to be condensed in front of him. Li Tian's Red Slash also resisted, so that the two people resisted each other's offensive. He was also full of confidence and firmly believed that his enchantment must be no problem.

At this time, Li Tian suddenly laughed.

"You kid, what are you laughing at?"

"I laugh at you, although this fellow has experienced many battles, he will still look down on your enemy inadvertently. Although this is not a fatal danger, it is enough for me to kill you here." A

black hole appeared in front of again, and this black hole directly caused Hong Zhan to pierce out from behind, directly at the back of Yun Zhonghe's heart.

There is no defense here, maybe Yun Zhonghe himself didn't think that he could perform such two void transitions in such a short period of time.

'Damn it, I underestimated this kid's ability. I didn't expect this kid to have another chance to leap into the void so quickly. 'He sighed secretly in his heart, Yun Zhonghe is also a very decisive man, and the short knife in his hand directly let him throw away, then the whole person stepped on the void, his body quickly rose into the air, and his mouth was thinking. Cast a spell.

A huge scarlet firebird swooped down towards Li Tian in this way, just like a ball of flame, with a clear killing intent in that eye.

When he saw this firebird full of killing intent, Li Tian snorted, and there was a fiery pain on his left hand. When he concentrated, he realized that he was holding a ball of flame in his hand. The short knife had already disappeared at this time, he hurriedly let go, and at this time the firebird had already spit out flames and rushed down. Looking at this posture, he was preparing to burn Li Tian to the end.

"Huh, life and death kid, do you really think that your little tricks can really trap me? You don't know what my methods are, but I know what your methods are like, Wanting to kill you is also easy." Yun Zhonghe was panting in the air. The two people made a very fast confrontation in this short period of time. It seemed very simple, but it consumed all of them. very big.

The moment the voice fell, I heard a burst of explosion, and then a cloud of black smoke enveloped it.

"Hmph, after eating my phoenix, no matter how good you are, there is only one dead end. Naive kid, I thought I was really invincible, but I didn't know that your strength was in me. It's still not worth mentioning in front of him, killing you is just a breeze." Yun Zhonghe looked very proud at this time, laughing disdainfully.

But what followed was a chill in my staying power,

He subconsciously dodged to the right, but in the end he was chopped on his shoulder by the sword, and blood spurted out instantly.

He was shocked. If he hadn't reacted quickly, he might have been killed by Li Tianji at this moment. What made him wonder is how this kid did it. After the move, he could react so quickly. I didn't feel it at all just now. The Phoenix didn't hit its enemy. Then what happened to Li Tian behind him?

Chapter 6050: Anger

"You must always pay attention to the opponent's every move during the battle. This should be something that any strong man must do." With a faint smile on the corner of his mouth, Li Tian held the sword in one hand and looked at the cloud in front of him. Zhonghe, the mood in his heart is also ups and downs at this time. Before this guy dared to show off in front of him, but now he can't do such a thing.

The eyes of the two of them are facing each other, and they can actually feel what the emotions in the other's heart are at this time.

Although he didn't say it outright, it was already obvious.

"I really shouldn't have kept you until this time. If I killed you before, nothing might happen now. Is it like this?" Yun Zhonghe was holding a short knife in his right hand, although his left hand was not. The whole arm looked down, but at this time it was almost abolished, and he couldn't continue the fight at all. It is conceivable that he has received a huge blow this time.

"If I were you, I would definitely not ask myself to continue fighting at this time. After losing an arm, your current combat effectiveness should be indescribably weak. Would you like to fight with us?" Li Tian smiled, squinted at Yun Zhonghe in front of him, and said: "You have already failed. Even if you continue to fight, you are just adding some troubles to yourself."

"Stop talking nonsense, today I am going to kill you this guy who is in the way personally. How could so many things happen without you being here? If this is the case, I will let you know the fate of going against us. What is it, I won't give you the slightest chance." He snorted, and he rushed over again like this. He looked brave, but he was still too reckless in Li Tian's eyes.

If he wants to fight against himself in his state now, there is definitely no chance of winning.

The entire arm on the left is completely abolished, and there is no way to complete the slightest tactical action. Even if you want to use your own spells, it is completely impossible. The situation is difficult to control.

With blood flowing, Yun Zhonghe's problem was really serious at this time, and it was so serious that he had to treat it like this.

But this guy still insists on fighting Li Tian even now.

"Since you think this can make you feel more at ease, then I will satisfy you and let you know where the gap between me and you is." I shrugged my shoulders helplessly, looking as if there was really nothing. What could be done, Li Tian slowly raised the sword in his hand, and then quickly tapped his feet in the air, and the whole person rushed towards the cloud crane like a rocket.

The two men are now rushing towards each other, just like two trains, rushing towards each other at this moment.

It's just a narrow encounter.

At this time, only the strong can survive. After fighting for so long, the two men finally have no idea of continuing to fight. Both sides are ready to show their 100% combat effectiveness at this time. Preparation.

"The strength of this young man is really terrifying. When the soul power of a fairy has reached such a point, it is no wonder that he can become a genius among young people. No matter what, such a young man stays for us. It's all very tricky. We must not let this young man leave here alive, let alone let this young man really touch the eyes of the dragon. '

At this time, the crane in the cloud had already begun to feel a heroic twilight, and also a feeling of helplessness.

He knew that he would definitely not get any benefits here.

Not only is it difficult to talk about Li Tian in front of him, not to mention that there is also an elder of the demon race here, now it is only certain that the elder of the demon race should be at the level of the gods, or even possible. Even more powerful, such an enemy itself is very difficult for them to deal with. At this time, if these two people shoot together, all these people here will die here. There is no problem at all.

"Hehe, it seems that this battle is enough. Although your second uncle's strength is good, the soul power of this young man is also strong. In this world, the strength of the soul power represents everything, even if it is No matter how powerful your second uncle is, it is only a god, and it is still too inferior to this kid." He glanced at the magpie in the cloud in front of him, and said Xu Ying.

"Second Uncle...Second Uncle, you can't lose. If we all die here today, our family's great cause will be ruined here. You know how much effort we have spent on this matter." Yunzhong Magpie screamed and roared loudly. The more thought was that if the crane in front of him died, he would not be able to leave here today, no matter how lucky he is.

This is what Yun Zhongmagie is thinking now. Without the man in front of him, he would really die here. He definitely doesn't want to die in such a place so soon.

"Don't worry, even if this guy can show his true strength here, there is no way. The magic weapon in your body is only for you to show your original strength here, but there will be no other way for you. For your help, it is too naive for you to want to fight us here." Xuying knew that this battle would be over soon.

The combat effectiveness of this young man is certainly not so easy to be underestimated. Perhaps in the eyes of others, Li Tianzhen still has nothing to be afraid of, but in the eyes of Xu Ying, this young man is likely to become The last one who got the eyes of the dragon: "Princess, what do you think of the character of this kid?"

"As far as his identity is concerned, we must be their enemies, but during the time this kid is with me, I can feel that he is completely different from the humans we knew before. He looks smarter. Although sometimes he is rude, there is no way to hide the little kindness in his heart. He is a good person." The little princess glanced at Li Tian in the distance and thought about it. I came to such a conclusion from my mind.
