

## A Killer 6051

Chapter 6051: Temporary cooperation

"Are human beings really that hateful in your hearts? Even our humans' views of your demons are just fearful, because you are so powerful, if you leave this difficult place, I'm afraid it will quickly burn the war to the entire God Realm." After Ximen Yechou heard the words of these two men, a very helpless expression appeared on his face.

Looking at the two people in front of me, I wanted to explain something.

"Needless to say, the relationship between humans and demons has been decided a long time ago. This is something that there is no way to change it. No matter how hard you work, it won't change anything." Xu Ying glanced at it. Ximen Yeshou said, "Just as you don't want to believe in our demons, our demons also don't want to believe in your humans. Even if there is really any misunderstanding, what can we change now?"

This is a very helpless thing.

Even if they know that there is really any misunderstanding between each other, it is impossible for them to change the current situation.

Because all this has been something that every member of the Demon Race must remember from a long time ago. For them, the most hateful enemy in the world should be humans. If the Demon Race members are allowed to leave In the Northern Cold Land, the first thing they did was to completely wipe out the entire human race, and no one would be left.

Seeing that he could not convince the two people in front of him, Ximen Yechou coldly snorted: "Even you high-ranking people think so. No wonder it has been so many years. The relationship between humans and demons is still this. It's all because you people didn't do anything that led to the way it is now."

Xu Ying smiled, did not speak, but began to communicate with the little princess in a low voice: "This young man is very threatening, and I feel that if we continue like this, this kid is likely to really get the eye of the dragon. At that time, there will be a more dangerous strong man among human beings. This is not very good news for us demons."

The little princess glanced at the phantom in front of her, and she naturally knew what the elder was talking about. As the saying goes, the wood is beautiful in the forest, and the wind will destroy it. Now Li Tian is really too public.

This kid seems to be very ordinary, but as you slowly learn about this kid's ability, you will find that you really know less and less about this young man, and you don't know how to make this young again. If people continue to grow like this, what kind of dangerous existence will they become? Their demons have enough enemies now. If this young man grows up, the problem will only become more and more difficult to deal with.

"We must seize the time to kill this young man. We must never allow humans to reappear such a strong man. In this way, the situation of our demons will only become more and more dangerous."

The little princess frowned and said, "I know what you mean, but it seems a bit difficult to do such a thing in our current situation. This kid is completely different from the guys we saw before. Even

if we really want to do it, it's too difficult here. It's better not to be like this now, and wait until the end of the matter to think about how to do it. Let's temporarily It's still a cooperative relationship, so both parties are more advantageous. After all, relying on your clone, obviously there is no way to truly protect me here."

The clone, probably no one thought that the phantom standing in front of the little princess turned out to be just a clone.

And the magpie in the cloud was about to die at this time, his body began to slowly melt from the arm to another position, even if the bones were melted at this time, the neck was still grasped by the phantom, even listening When these words arrived, they couldn't say anything. As time passed, the black energy on the phantom began to slowly swallow the power from the cloud magpie at this time.

He could never survive again.

On the other side, Li Tian and Yun Zhonghe were fighting fiercely, but at this time the two of them calmed down. They looked at their opponents and figured out what their will was.

When the two people fought before, Yun Zhonghe thought that his tricks hit Li Tian, so he took it lightly, but now he will never feel such emotions anymore. He knows that the young man in front of him is terrible in combat. What kind of situation, and just now, in the instant of the black hole that was floating in the void, a clone was created.

The next second after coming out of the black hole is to let one's body enter the next black hole again, so the continuous use of void transitions must be quite a huge loss, but look at Li Tian in front of him, His face didn't seem to care about this point of loss at all. This is the strength of the young man in front of him. If he were to reach the level of the gods, I am afraid that he will not be able to fight at all.

'Boom Rumble'

The two transformed light beams collided completely at this moment, and in a blink of an eye, the disastrous building on the ground in front of them disappeared instantly.

Several strong men were still standing here, but the next second, the powerful aura directly crushed them.

On the other side, Xu Ying stood beside the little princess and Ximen Yeshou, whispering: "The strength of these two people is really good. It seems that there should be more powerful people among human beings in recent years. Even my clone can't hold on at this time. If it's not because this place cannot allow a strong person above the gods to enter, I will use my own body to protect the princess."

"This is enough. Our purpose here is to withstand the test and get the final eye of the dragon. If we violate the rules here, there will be no good fruit." Little princess It seemed quite normal. She knew exactly how terrifying the phantom's strength was. If it were to be done, it would be because the two people in front of her were not opponents of the phantom's body.

But with such a powerful opponent, facing the ban in front of him, he felt a little bit helpless.

Chapter 6052: The power of the gods

At this time, among all the people standing here, not a single person can truly understand what Li Tian is feeling in his heart now. It is probably the first time he has felt this feeling since he was born until now. .

This kind of feeling between heaven and earth seems to be under one's control, even one's own body can be controlled at this time.

Seeing Li Tian in front of him getting closer and closer, Yun Zhonghe's face showed a crazy expression: "You kid is too dangerous. If you continue to do this, I don't know how you will grow. At this point, the current situation in the God Realm is already chaotic enough. You must not let you, a young man, leave here alive. I will let you die here."

"You really worry about eating radish. It seems that I have nothing to do with you when I grow up here. If you think you can change something, then you are very wrong. Unless you are in this situation. You use your life to die with me, but even this way you may not really be able to defeat me." Li Tian said with a sneer, looking at the guy in front of him.

Although the strength of the two people is not much different, if Yun Zhonghe wants to die with him, it is completely impossible.

Yun Zhonghe stopped talking, and seemed to want his whole person to enter this state of combat. At this time, the short knife in his hand was shining with a very dazzling light, and even the lightning between the sky and the earth began to follow. They cooperated, and they flickered continuously from the air, as if the whole world had been destroyed by shaking at this time.

Faced with this situation, Li Tian showed a very calm state.

"This guy probably wants to drag me to die here. After all, it is very difficult for him to change the situation now. It is impossible for him to defeat the two strong guys here. Now We are already injured, and it is even more impossible to think of killing us. At this moment, Li Tian had already thought of what the guy in front of him wanted to do.

The moment the short knife attacked, he didn't even move. ,

"What this guy is doing, the attack has already arrived, and there is no movement at this time. What do you mean?" At this time, Ximen Yeshou and the little princess were all frozen in place, completely unaware of Li Tian in the sky. What does it mean? Below the sky, only three of them and two in the sky can be seen at this time, everything else is wiped out.

"Elder, what's going on? Why did this kid give up resistance at this time?"

"That's right, if you are stabbed by this knife, I am afraid that the whole body will be split at this time." Ximen Yeshou was also full of doubts, why there is no movement in Li Tian at this time.

Xu Ying raised his head to look at Li Tian in the air, and said, "What this kid wants to do now is to see how his true strength is. At this time, he is just testing his own power. What kind of combat power can be displayed in the state of respect, you'd better also honestly watch what is happening in front of you, it won't be long before you will encounter such an opponent."

"The strength of the gods?"

"It's not wrong, if there is nothing wrong with my guess, as this kid grows up, everything he brings to him will be completely different. It is even possible to say that this is the strongest person in the

lower realm who has soared to the \*\*\*\* realm. Among them, that's why they have this kind of strength, and only this kind of explanation should be enough to explain why the young man in front of him can be so strong, and his talent is so terrifying." Xuying explained, He is like a teacher, looking at Li Tian in front of him, analyzing the identity and thoughts of the young man in front of him bit by bit.

As a Sanxian, he could grow to this level at this age, and he can only use this kind of explanation.

Just as they were talking, Yunzhonghe's short knife had penetrated Li Tian's body. At this moment, the whole world seemed to be silent. Everyone looked up at the two people in the sky, wanting Let's take a look at which of these two people will eventually become the winner, but the situation before them is still beyond their imagination, and it can even be said that they never thought that anyone could do this.

All of Yun Zhonghe's knives have already submerged into Li Tian's body at this time. According to this situation, he should be in a state of being completely seriously injured now, but looking at Li Tian's face, it seems that he has something to do with him. There are no problems.

Moreover, if the entire short knife is not in, then a trace of penetration can be seen behind him.

But there was no way to see the short knife penetrated through, as if Li Tian's body had completely eaten this weapon.

"This... how is this possible? Why can't I see any trace of a short knife on this guy's body, not even a slight injury, what's going on?" the little princess asked.

Of course, they also have the same idea, there should be a crane in the cloud.

He personally felt that his short knife had indeed penetrated into Li Tian's body, and he could distinguish it with his naked eyes.

But it's a pity that now I don't feel any hits at all.

"This...this is..."

"I originally wanted to end this battle soon, but seeing you working so hard, I suddenly lost such thoughts. I want to see how my body can grow to At what level, how difficult can you people feel?" Li Tian smiled, squinted at Yun Zhonghe in front of him, and said: "You probably didn't expect it, your own weapons will I have already hit my target, why can't I feel a bit of physicality? It seems that the knife stabbed in the air. Is it like this?"

"You...what's your situation?"

"I don't know what the situation is, but what I know is that as my strength grows, this skill will become more and more difficult." Li Tian smiled and looked at Yun Zhonghe in front of him, but He didn't want to say what was going on at all, as if he was deliberately trying to sell the stuff here.

Yun Zhonghe had doubts in his heart, but only relying on his own eyes could not find anything at all.

Chapter 6053: All off

"Everyone in your team is the only one left at this time. If I kill you, no one will know what happened here. This kind of thing is fair to me. Well, what worries you most before is to beware of

your family's revenge after killing you people. Now it seems that this is completely unnecessary." Li Tian smiled, and then slowly took a step back.

The short knife slowly detached from the body, but what they could see was that there were no scars on Li Tian's body.

"This... it's impossible, no one can do this."

"It is true that no one can do this, but it is a pity that I am no longer a normal human being. I can no longer rely on your very scarce knowledge to explain everything that happened to me. Even I can't explain these things myself, don't you think you can help me explain clearly?" Li Tian sneered, and slowly raised the red cut in his hand.

When the enemy attacked before, he also did not relax at all.

I've been talking about my power slowly condensing to the sword body. At this time, the power of Red Slash is already quite terrifying, enough to destroy the world.

Looking at the cloud crane in front of him, he slowly swung his sword out.

In the next second, everything between the whole sky and the earth seemed to be dimmed. The lightning in the sky disappeared at this moment. The crane in the cloud was still in the air, but it was already covered by a scarlet flame. It was swallowed directly, and as the flame slowly burned up, it quickly disappeared completely like this, and a powerhouse of the gods level died just like this.

"Although there is a magic weapon in the body that can show his strength, a place like Heaven and Hell is an absolute nightmare for any strong man. If their soul power is not strong enough here, it is impossible to survive at all. Compared with this young man, it is too far." Void shook his head slowly, with a weak tone in his tone.

This sword seems to be very ordinary, but in fact it is because this sword aura is too solid, giving people a feeling of not having any gorgeousness, but if you think so, think it is a It would be too idiotic to use ordinary offenses.

This trick, even if it is the body of the phantom, dare not really eat it, otherwise it may hurt his body.

Li Tian slowly fell from the air, the hostility in his eyes slowly disappeared, and the red wing \*\*\*\* outfit on his body also disappeared. He looked at the phantom in front of him from a distance, and did not walk over in a hurry. .

"When did you discover my existence?"

"You are very strong. I have never found you behind us, just because this girl is a princess of the demon clan. I think with such an identity, if there is no one to protect it, it would be too much. So I want to be by her side, there must be a very powerful powerhouse." Li Tian looked at Xu Ying and said calmly.

"Just because of a judgment in my mind, and then I designed so many links, even let myself go deep into the tiger's den?"

"What's the matter? This guy is an idiot. Even without your help, I'm more than enough to deal with this kind of scene today. I thought this family in the cloud could do something unexpected to me. ,

So I have always been worried about whether you will make a move, but I didn't expect that this guy's ability to show now makes me feel a little bit boring."

"Then what are you going to do now, fight with me?" The magpie in the cloud in the hands of the ghost has been completely swallowed, and it can make a scream at the beginning, but gradually over time In the past, he found that it seemed that he could no longer feel the pain in his body, and even his throat gradually became silent.

"If you are going to fight with us, I think you can give it a try. After all, everyone here is fighting power at the deity. I didn't expend much energy to deal with this guy. A deity who has not practiced soul power is here. Like a trash, what can be achieved?" He said disdainfully, looking at the demons in front of him, Li Tian was full of confidence.

But what he knows is that the phantom in front of him should be just a clone, and even if it is a clone, the soul power of this guy is already outrageously strong. It is conceivable that if this is his own body. Here, what kind of powerful and terrifying existence would it be?

But it is such a terrifying existence, just a bodyguard next to the little princess, so what kind of existence would the bodyguard next to the devil be?

"I advise you to stop thinking about things in your mind. Today's things are best treated as if they haven't happened. I can forgive you for the things you did before. After all, I'm also involved in it. Everything that happens here is treated as if nothing happened. It has happened. If someone tells you one day, I will definitely make you regret saying it. None of you can escape the palm of my hand."

"Leaving the Northern Cold Land, can you still attack me?"

"You can give it a try, even if I leave this place, can I still take action against you." Xu Ying sneered, not knowing what the expression on this guy's face looks like now, it seems that he doesn't care at all What will happen after this is the same, but this is a very indifferent saying, so that Li Tian also has some doubts about this guy's true strength.

Just a clone is here to oppress itself like this, if the main body is here, I don't know how far it will be.

"Forget it, I think we are still cooperating now. Since you are not in a hurry, you are obviously ready to cooperate with me. After all, I know the things here more clearly than you do, right?" Li Tian smiled shyly, with an expression like a profiteer on his face.

Xu Ying said: "Indeed, there is no plan to kill you as a young man now, but your talent already makes me feel very dangerous."

Chapter 6054: Hall of Remembrance

"Why, are you worried that one day I will become the enemy of your demons?" Li Tian asked curiously after hearing the voice.

"Is not it?"

"Humans are born with different personalities, and I don't know what kind of person I will be in the future, but I know that I hate the situation in the God Realm now, but my strength is not enough to

change this. A pedantic world, so I need to make myself stronger." Li Tian looked at the phantom in front of him and said sadly, then slowly stepped forward, passing towards them unsuspectingly.

This can be regarded as an expression of attitude, and it can be regarded as an expression for them.

"You really don't worry that I will kill you here. Young people like you grow up to be a huge threat to our demons. If I kill you, it will be normal to our demons. Development is a very good help." Xu Ying watched him walking step by step, without the slightest defense.

"I know you won't take action now, even if you want to kill me, it won't be at this time. People like them all know these things. Besides, don't you, the old antique in the magic palace, still know these things?" Li Tian looked helplessly at the phantom in front of him, said, and then came to Ximen Yechou's side and looked down at the woman: "Are you okay?"

"No, it's okay..." Ximen Yeshou froze for a moment, and looked at Li Tian in front of him, with a surprised expression on his face: "You...how did you do it just now, why did you attack you? But you haven't suffered any harm?"

"This is my secret, I can't tell you easily."

"I'm afraid it's because of your trick. When you reach the level of the gods, you can let your body part enter the space of the black hole, or let the object attacking you enter the black hole. , This also explains why the short knife has penetrated into your body, but it did not leave any clues." The ghost looked at Li Tian and said lightly.

"Ha ha."

"But this trick is not without its drawbacks. If you are launching an offense, naturally you can't use this skill to avoid the attack." Ghost said again.

"..." At this moment, Li Tian didn't know what to say. Although this process was only a short moment, the guy in front of him could judge what happened so easily. With such a keen perception, It makes people very helpless.

"It seems that there is nothing wrong with what I said. Your skill is indeed very good, but even if you know it, it is difficult to deal with." Xuying glanced at him, and seemed to be thinking seriously about how he could kill it. The young man in front of him, in this Devil Dragon Skeleton Cavern, there must be no way to change any problems, and kill this young man. After all, he is equivalent to invincible here.

As long as he is not ready to attack, you will not be able to injure Li Tian in front of you with any attack. Although this consumes a lot of Li Tian, you don't know how long this young man can stay in this state. time.

"Is it really like this? If it's like this, you will be invincible here. Will our future battles become easier?" The little princess laughed and looked at Li Tian said.

"Your bodyguard is really a powerful character. It's so easy to know what my trick is, but even if you know it, it doesn't make any sense. You can't do anything with me anyway." Tian smiled slightly, but didn't mean to take this matter to heart. Even if the person in front of him knew what his abilities were, even if he knew it, there would be no way to compete with him.

"Don't say this, hurry up and prepare to go up. We haven't arrived at the Yisheng Hall. So many things have happened here. If it is at the Yisheng Hall, I still can't figure out what it will be like." Ximen Yechou saw that these people were still wasting time here, so he had to remind them to say that their current situation looks like they have to waste more time here.

"Little baby, don't be so anxious. Do you really think that what you see in front of you is so simple?" Xu Ying turned around, looked at the road leading to the sky in front of him, squinted his eyes and said: " This place looks a bit more dangerous than we thought. If something like this happened here, more people will follow soon."

"It's really like this. The battle we have here is equivalent to a signal to many people. More people will come here soon, but even if they get here, it doesn't make much sense." Li Tian squinted his eyes and said, although people will find this place soon, it will be of no use even if it is found here.

"If you perform well in this action, I can consider letting the two of you leave here alive, otherwise you will stay here forever just like the guys who entered here. We demon have already done it. Prepare absolutely, as long as the Eye of the Devil Dragon falls into the hands of others, we will dispatch a large number of troops here, no matter who is in the hands, there is only a dead end.

"Looking at it this way, the elites dispatched by mankind this time are likely to all fall in this place, do you mean that?"

"It is indeed like this. Do you think this eye of the dragon is so easy to be taken away by you? If humans can't find any other way, then all those who dare to come here today will die here, as long as they Leaving the Devil Dragon Skeleton Cave means that he has embarked on a path to death. Unless a few gods come here in person, it is impossible to change anything."

After hearing this answer, Li Tian's emotions began to become tense at this time, and things developed to the point it is now, which really made them feel a little surprised.

Although I know that this is the territory of the Demon Race, I have never thought that these guys of the Demon Race have such an appetite, and they are already ready to give these people who come to the Northern Cold Land. Kill it, this is a new force of humanity.

Chapter 6055: Naihe Bridge

The moment they walked on this road to heaven, Li Tian felt a very uncomfortable feeling in his body, as if something was awakened, and he couldn't help but want to get from him. Break through the body.

'It seems that the legend about Yishengdian is really not false. This place seems to be much more complicated than we thought. This thought flashed in his heart, and a faint smile appeared on his faces as he looked at the little princess and Simon Yeshou who were following him.

Although Xuying took the lead, he knew everything behind him.

"You can't stop on this road, you must keep your mind sober, otherwise you will fall deeply into it, and you can't extricate yourself, is that right?" He asked.

"It is true. Once you fall into this memory, it is quite difficult to get out of it. Throughout the ages, almost no one can escape from this predicament."

"Speaking of which, someone really did it before, fell into this illusion, and then escaped from it?"

"There is such an existence, but it is only a legend that has been circulating. No one can explain clearly whether this person exists. Everyone just thinks this way, but no one can guarantee that what he said is 100% correct. There are too few people involved in this matter. Most of them are hearsay, or it may just be other people's nonsense." Li Tian thought about it, and felt that whether this person exists is still very unreliable. They currently know The content is still very scarce.

The four remained silent and began to move on to the sky.

This road is endless, giving you the feeling that you have to walk on this road for the rest of your life, so that an unnatural feeling of irritability will appear in your heart.

It just so happens that the memories around you start to evoke your thoughts, so if you are not careful, the whole person will fall deeply into it.

With a faint smile at the corner of his mouth, Li Tian had already walked a long distance on this road, and Ximen Yeshou and the little princess had always been by his side and did not lag behind.

They did not encounter any danger along the way, as if everything was safe here.

I also don't know how long it has passed, everything between the sky and the earth began to eclipse, just like an oil painting, suddenly being splashed with water.

There was also a gust of yin wind blowing slowly, and several people felt the cold that was hard to describe all over their bodies, and even their bodies trembled unnaturally at this time.

"Where is this, why... Why do I feel so cold? I have never felt this way before. What's the matter?" The little princess's voice couldn't stop trembling at this time. At the same time I looked at the two people around me in a puzzled manner. Their condition was also not very good. I think they must have felt this way.

"It seems that we have reached the door of Yisheng Hall. This is the coldness of the road to death. It is inevitable. Even if it is running the fairy power in one's body, it is impossible to avoid this cold." Li Tian glanced around. , The sky in front of them had an end, it was a black endless space, like a sea of ink condensed.

And a bridge can be seen vaguely above the ocean.

"Naihe Bridge, it is said that every deceased person has to withstand the test here when he passes here, and drink a bowl of Wanghuntang, so that everything in his life will be forgotten like this. I thought it was in the mortal world. It's only in hell, but I didn't expect to see the so-called Naihe Bridge here." Li Tian couldn't help but say when he saw the bridge sitting on the black water in the distance.

While speaking, they were already close to the Naihe Bridge in front of them.

The entire Naihe Bridge is made of a kind of crimson wood. Because it has been in disrepair for a long time, it looks very broken. You can hear the sound of 'creaking' when you step on it. It seems possible at any time. It's the same as breaking apart, this kind of scene is really surprising.

Ximen Yechou asked in a low voice, "This kind of bridge looks dangerous. What if we fall?"

"If you fall, I'm afraid I will become one of these people." The black shadow glanced at the black water. In the black water, there were countless hands extending out, all of which were bright red.

With blood and various scars, through the black water, one could vaguely see the hideous and distorted faces, which made Ximen Yechou pale in shock and never dared to look down here again.

Li Tian said: "Every person who is caught in the memory will become an embellishment on this road, so as to warn the people behind what is the price to be paid to pass here."

'Oh, I never thought that after such a long time, there are still young people who have come to such a place to find their own way. 'Suddenly, a very strange laugh rang in their hearts. It was a completely unsuspecting laugh. In the sharpness, there was an indescribable charm. When the body felt numb, there was a fatal feeling like a rose.

Xu Ying and Li Tian became dignified almost immediately, there are others on this Naihe Bridge?

"Who is talking?" Li Tian asked, and at the same time, his eyes swept around. On this bridge, he only saw the shadows of the four of them, but nothing else.

But the weird sound just now kept surrounding them, and it can be concluded that what I heard was definitely not a false sound, and what exactly happened in it.

"You ran to this kind of place yourself, but you don't know what kind of identity you are talking to. Don't you think this is a funny thing?" The voice rang, making several people feel they all became heavier.

Li Tian squinted his eyes and clenched his fists at this time. Listening to the voice, they couldn't tell where the opponent was.

Even if Xu Ying and his current strength are very strong, they may not be the opponent of the voice's master.

After all, they are fighting away, and here should be the home court of their creatures. Naturally, the situation is not so easy to solve.

Chapter 6056: Meng Po

"Pretend to be a god, you should be the patron saint here, come out and tell us clearly, that's it." Li Tian said in his mouth, but in his heart he asked about the remnant soul of the ancient gods, because I mentioned the Hall of Yisheng. At the time, I didn't say that there was a bridge of Naihe outside the Hall of Remembrance, nor did it say that there was another existence on the bridge of Naihe.

"I don't know what's going on here. There should be no Naihe Bridge outside of the Hall of Remembrance in Heaven and Hell, and what we see in front of us now is likely to have exceeded my opinion. The recognition here." The remnant soul of the ancient gods is also incomprehensible here, why in the rumored Heaven and Underworld Hell, there are so many scenes that are completely inconsistent with their imagination.

It seems that this place should appear in mortal hell, right?

"Guardian general? Heck, Nujia is not a patron saint general. Nujia is the master of this bridge. If you want to go here, you have to drink Nujia's Wanghuntang before you can pass." At this time, a pretty woman appeared in front of them, her face was peach blossom, her eyes were autumn water, and the corners of her mouth always had a flattering smile, making you uneasy.

She is standing here, she is a pretty girl who still has the charm. How can she compare with the rumored Po Meng?

Even Li Tian felt that his worldview was completely broken at this time. In the myths on the earth, Po Meng should be an old grandmother, but the royal sister in front of him is obviously similar to the image of Po Meng in the legend. It is totally inconsistent.

"You are Po Meng?"

"Why, it doesn't look like it?" Po Meng took a pipe in her left hand and took a bite. Her small cherry mouth was really attractive: "Xiangyouxin, no matter how good the look is in my opinion It's just a pair of stinky skins. Whether it's a grandmother or an old lady, I still have the charm, I am Po Meng and I have not changed."

"But this is heaven and hell, why are you here?"

"Who told you that this is the \*\*\*\* of heaven and underworld, but in all hells, there will be a place with a short gap. This place is neither a place of the living nor a place of the dead. When you cross this Naihe bridge, I just entered the \*\*\*\* of heaven and underworld, everything you saw before is just the simplest test." Meng Po said charmingly, then lightly lifted her red lips, and swallowed a mouthful of smoke: "I want to pass now. , After drinking my elder mother's Wanghuntang, let you pass."

"But we are not dead."

"I don't care about it. You will listen to me when you arrive at the Naihe Bridge. If you don't drink, it is completely impossible to want to pass. If you stay here for forty-eight hours, you will become a member of the Black Soul River. I will never be superborn, I will be tortured here forever, tormented by my own past, until my soul is annihilated, and there is no way to be superborn again." When Po Meng said this, the expression on her face became cold.

It doesn't seem to be a joke. If they really didn't agree to the request of the person in front of them, they would really be locked up in this kind of place, and there would be no way to reincarnate.

But at this time they definitely can't drink Wanghuntang.

"Why, don't you have this courage? But you just forgot everything that happened before. After you leave here, you will naturally find your own memory. If you don't find your own memory, this is also you It's destined, why you need to struggle here, unless you think you are my opponents." Meng Pojiao laughed. Who would have thought that after this sentence, Li Tian and the little princess were all excited.

Even if it is a phantom, at this time, I feel that the aura of this guy has changed a lot, and fighting the rumored master of the bridge of Naihe is something that many people have never thought of before.

Even Li Tian would never think that one day he would become an opponent with an existence of Meng Po's level.

At this moment, squinting at the Po Meng in front of her, she said, "What if we defeat you?"

"If you can beat me, you can pass through here unscathed, but if you can't do this, I advise you not to waste time. I don't have so much time to waste here with you." Speaking lightly, it seems that she

is quite confident of her own strength. No matter how strong these people are, they will only add up to a few god-level powerhouses.

"What do you think?" He turned around and asked the phantom.

"You can try it, but since she dared to say such a thing, she is obviously quite confident in her own strength, and the battle will definitely not be so easy. If we fail, there is no reason to refuse to forget the soul soup." Xu Ying said, but he heard a little bit of excitement in his tone. People like them are considered to be the best in the God Realm, but here they are nothing.

Before them were all true gods who had been famous for a long time.

For example, the person in front of him, everyone knows what level of power he is in front of him, if he really fights, his chances of winning would be quite small.

But since I met here today, if I miss this opportunity like this, it is a pity for many people to go there,

Regardless of whether it is Li Tian or Xuying, at this moment, I hope that the two of them can give it a try and fight with Po Meng in front of me to see who is the last strong one.

"You have decided, but there is no way to change it. Now it's too late to regret it. There are not many people fighting against my old lady, but there are not many people who are really successful enough. If I were you, I would definitely not choose to fight against me at this time. Yes, your power here is completely limited, even if it can be shown, your soul power is not as powerful as mine, why bother to yourself?" Po Meng said, it sounds like a very friendly word : "As long as you drink Wanghuntang, all this will be fine."

"If we believe you, I'm afraid we will become the following guys." Li Tian suddenly seemed to have realized something, staring at the Po Meng in front of him, and said: "Your real purpose, Do you want us to sleep in this place forever?"

Chapter 6057: By heart

"How do you know that every word I say is meant to harm you? Maybe I really want to help you. This situation is actually very unfavorable for you, isn't it?" Po Meng smiled Looking at the four people in front of him, he said, "You are on my territory and you want to fight with me. This is nothing more than a waste of time for yourself."

"If we drink the soul-forgetting soup, we will become dead souls in this black water, tortured here forever, as a punishment for entering the heaven and hell, this is what Tiansheng meant when he created it." Li Tian At this time, there was already a firm feeling in the tone, as if he knew something, there was no longer the feeling of confusion before.

I don't know if it was time for this kid to know something extraordinary. It was surprising that many people could make such a decision at this time.

Ximen Yeshou walked to Li Tian's side and said, "What are you talking about, after we drink his Wanghuntang, will we become one of the undead in this black water?"

"It's indeed like this. If this kid doesn't say anything, I would have forgotten. We are still limited by our own inherent thoughts. If we can't be a bit tricky, I am afraid that today we will really be

deceived by this guy. At this time, even the phantom sneered as if it had understood something, and said: "If we drink Wanghuntang, we will really become a member of this black water."

"Hehe, two incomprehensible boys, they thought they were right. I have already told you. Only after drinking my soul-forgetting soup you guess you can leave here, otherwise you have to overcome Me, but after failing, you will become a member of it. Don't you still understand what's going on?" It seems to be very upset, and Po Meng's voice sounds a little impatient.

"You have said these things before, but when we decide to fight you, we have to repeatedly emphasize the disparity in power between us. Why is this? Because you also know that you are not our opponent at all. Coupled with the remarks you said before, let us completely doubt your identity." Li Tian explained, stepping forward slowly: "It is precisely because what we see here is Naihe Bridge, that's why you think of Po Meng. That's why you appear here as Po Meng. Isn't it like this?"

"How do you know that I am in your fantasy?"

"I don't know, I just think so. No matter what, I definitely can't drink this soup. There is only one battle between us. If you think you can defeat the two of us, you can just try it." Li Tian smiled. At this time, the aura on his body has slowly released, and the whole person is ready to go all out with the Meng Po in front of him.

Although the woman in front of Meng seemed to be very powerful, no matter in terms of aura or other aspects, even if he and Xuying joined forces, they might not be the opponent of this woman.

But after drinking Wanghuntang, they still don't know what choice they will face, so at this time they can only choose to fight with the woman in front of them like this, even if they fail, there is nothing to say.

"Looking at how you are so anxious and want to explain clearly, you should also be worried that you are going to fight with us. After all, although the two of us are not very good masters, if we really fight, we will still let you. It feels tricky, so you really want to dispel this idea in our hearts and let this matter go by like this, right?" The phantom on the other side also slowly walked forward and asked with a smile.

At this time, Po Meng should be very clear about what her current situation is like.

I was able to suppress the two people in front of me by relying on my own aura, but as time passed bit by bit, the two people in front of me had a deeper and deeper understanding of her, and they were more aware of what happened on the Naihe Bridge. These things have also seen through everything, there is no way to hide it.

At this time, the Heishui River around them suddenly began to slowly become transparent, and the Naihe Bridge in front of them slowly disappeared.

What appeared in front of them was a magnificent ancient temple with three big characters "Yisheng Hall" written with three dragons flying and phoenix dancing.

The three of them didn't know when they had already stood at the door of Yisheng Hall. After looking back, they only saw a road leading to the ground, where there was a bridge.

Everything that happened before them is vivid, but now they don't even know whether what they saw in front of them is real or fake.

"What's going on? Could it be that all the illusions we saw before, are all things that we thought of in our hearts?" Li Tian stood here, looking at the ancient temple in front of him, this ancient and heavy aura was impossible. It was disguised, but because of the previous Naiheqiao incident, the four people had already become sensitive, for fear that they would enter another illusion again by accident.

"Although I don't know what happened here, but I think we have probably passed the test now. This should be the real Hall of Recalling." At this time, Ximen Yeshou stood aside. The two people and the little princess said in unison that after the previous test, everything they saw in front of them should be the real reality.

But even in this way, Li Tian still feels a little bit unreal.

Looking at the magnificent palace in front of me, I feel that my whole person's mood is almost intoxicated.

But they are also worried at the same time. This is just another illusion. With everything that happened before, everything they see now is full of deception.

"If what we saw before was an illusion, is everything happening in front of us an illusion? If we think in accordance with normal thinking, such a thing is not impossible." Li Tian smiled and looked. Looking at the magnificent palace in front of them, I feel a little uneasy. What kind of test will they encounter here?

Chapter 6058: Trial of Courage

Suddenly, a gust of wind blew by their side, bringing a burst of chill.

At the moment when the four people were thinking, they did not know when a man in a white robe appeared in front of them. He looked at a few of them and said, "No need to think, what you see here is a real existence. You have passed the previous test. What is tested here is your courage. If a person dare not even fight, there is no way to pass here."

"Courage is the test?"

"That's right, this is a rule that has been handed down a long time ago. The Hall of Remembrance is just the beginning. Only those who are really full of courage can pass here. Those who are afraid to fight and think they can pass here by luck, all are Lost on the previous road, they will become a member of the black water river, and they will never be able to survive."

"In other words, does the Heishui River really exist?"

The man nodded, turned to look at the palace behind him, and said, "I have become the patron saint here. I don't know how many years. Few people who came here in the past can pass this level. They are all The scenes I saw before my eyes were confusing, and they were all worried that they would not be able to overcome them, and they all lacked the courage to put them to death at a critical moment and live thereafter. Therefore, they died here and they will never be able to live beyond."

"If we pass the test, can we go directly to the next place?"

"If you are prepared, it is naturally possible, but don't want to know from me what the next test is. If you want to find the eye of the magic dragon, you must pass this level of test after another. , Only the strong who have truly withstood the test are worthy of becoming the master of the Eye of the

Devil Dragon, and only in this way can they prevent the gods from making a mess." The man said very seriously. Hearing this, it seems that all this happened a long time ago. Just as the arrangements have been made,

The eye of the magic dragon will eventually fall into the hands of someone. There is a very complete rule and system here. If you can't reach this level, naturally there will be no way to get the eye of the magic dragon.

After receiving the news, Li Tian still felt a little bit surprised.

"We can rest here for a while, and then wait until we have a good rest, and when we are ready, we can leave here and go to the next challenge. That's what it means."

"It is indeed like this, because the challenges at each level are quite difficult, so for the challengers, we will give them a little bit of help. If you encounter any problems here, you can just speak up. It's not too much demand that we can all meet you, but you have to think about it clearly. If you waste time here, others will follow up quickly."

"I always feel that something unusual is waiting for us in this. Is it that the first test is so simple to pass? We haven't even fought, and then just passed it like this, which is also... "

"We are all standing here now. All this looks lifelike. I really can't find any flaws. Everything here really looks like it was built long ago. I want to find it from here. It's too difficult to make a little breakthrough." Looking at the huge palace in front of him, Li Tian could only helplessly shook his head and said.

He had no idea where he had entered now, and felt that everything here was incompatible with what he had imagined.

The previous test seems to be very simple, but in fact, most people will easily choose the wrong one. If fighting can be avoided, who would choose to continue fighting under such an absolute disadvantage?

But if it was just such an explanation, they wouldn't really believe it.

Is the Hall of Remembrance in front of you really what you saw in reality?

The four of them thought this way, and at the same time slowly walked into the interior of Yisheng Hall.

Here you can see a huge black ball with many spikes, which looks like a cactus in the shape of a ball. The only difference is that the ball shines with different lights. Colorful colors are constantly flowing in it, like the feeling of different colors of paint mixed together, producing more colors.

In addition, the surrounding buildings are not as incomprehensible as they thought, just like a simple palace.

"The scale of Yishengdian here is not very large, it can only be said to be a very normal place, so it is still a bit difficult for you to see what you want to find here." The man was aside. Explaining that, behind this black ball, there is a long and narrow road: "Pass here and you can go directly to the next test site."

Standing here, Li Tian felt a little bit of truth.

"Everything here seems to follow a pattern, although it can't be said, but my intuition tells me that this man probably didn't joking with us, this should be the place to enter the next test." He took a look. Ximen Yeshou and the little princess beside him said: "The road is already in front of us like this. It's all up to us whether to pass this way."

"There are still many people behind us who are catching up. As the difficulty of the following levels becomes higher and higher, we need to waste more and more time on this. We want to be in the situation where others don't know. It is difficult to complete the test, so if you can buy a little more time now, let's buy a little time. Since we have not consumed much power, now is indeed the best chance to start." Xuying said decisively, they encountered later. The enemy will inevitably become stronger and stronger. In this process, it is not that simple to change these endings.

If they were caught up by the guys behind, their advantages so far would be wiped out.

After the four people discussed it, they all decided to take the time to act, and when no more people came here, they had better get ahead of these people and complete their final goal.

Therefore, they didn't waste much time in the Hall of Yisheng, they just went straight ahead, followed the long and narrow path towards a place.

Chapter 6059: The meaning of life

As soon as they left the Hall of Yisheng, there was a wave of very sensitive fluctuations in their bodies. This feeling was as if something had been breached in their bodies, making them feel a little bit uncomfortable.

Li Tian stroked his forehead, he felt a little dizzy in his head, and pain in many parts of his body.

"What's going on? I feel my mental state is getting worse and worse. I almost fell asleep here. What's the matter?" Ximen Yechou glanced at Li Tian next to him. I can only pin my doubts on this guy, presumably this guy should know what happened.

"I don't know what's going on, but I want to come and have a lot to do with where we are going next. Although we won't encounter any Heavenly Plutos now, but the strength of these guardian generals is better than A strong, the man before looks very ordinary, but I think the strength must be higher than us, if we really start, we will definitely not get any benefit." His eyes There was still a little bit of horror. Although he had left the Hall of Recollection now, he was still a little afraid of that guy's existence.

The man only needs to stand in the original position and he will exude a very dangerous feeling, making you dare not look at the man easily.

The guardians here are all such terrifying existences. It is hard to imagine how strong the Heavenly Sage would have been before so many strong guards will appear here. If it is just an ordinary god-level strong, it should be It is also impossible to direct so many people to come here.

While thinking, they endured the torment of their bodies, and slowly walked down this path, faster and faster, or in other words, the time in front of them began to flow faster and faster.

I don't know how long it has passed, and suddenly a virgin forest-like world appeared before him.

What you can see in this virgin forest is a very huge tower. This tower stands between the sky and the earth. You can easily see this tower from a long distance.

'It seems that this is our goal here this time, and the final result is to find out what's going on on this tower. 'Li Tian squinted his eyes, and he could see the tower from a long distance. The key to their action this time should be completely on the tower. It's just that there is still a distance from here to the tower. I don't know what will happen on the journey.

"Don't look, we still have to go there anyway, it doesn't make any sense to see more things here, it's better to come up and see what kind of world this is." Xu Ying said lightly. And then went out first  
This process looks very long, but it is actually very slow.

It seems to have gone for a century, but it also seems to have gone for an instant,

When the four of them came back to their senses again, they found that they had entered the interior of the tower. There were no upward stairs here, only a few futons, and an old man who seemed to have been sitting cross-legged here for many years. The monk, after seeing the two people, whispered softly: "Several benefactors, have you seen anything along the way?"

"They have witnessed the rise and fall of history and the cruelty of the food chain." They encountered no danger along the way, but all they saw were scenes of the weak and the strong, the weak countries being bullied by the powerful countries, and the powerful countries Will be eaten away by the internal \*\*, weak creatures will be swallowed by powerful creatures, until completely disappeared in this world.

Along the way, all they saw was the course of life.

"I don't know how many people, how do you feel in my heart now?" The old monk slowly opened his eyes. They were a pair of muddy eyes at first sight, but as you slowly and carefully observe, you will find that they are muddy here. Among them, there is a kind of wisdom that is difficult to describe in words. This is a truly cultivating moral monk, and perhaps the most powerful monk Li Tian has seen in so many years.

He has been sitting here for so many years, is he just waiting for an answer?

"What is the opinion of the monk."

"You are here to answer this question of mine, you little baby, why did you ask me instead?" The old monk's long eyebrows twitched, as if he was very dissatisfied with Li Tian's actions. , Said lightly, and then said: "You have seen the ups and downs of the world, don't you have anything to say at this time? What is the meaning of life, who can answer it?"

Several people looked at each other, it seems that this is the test.

Everyone has a different view of his own life, so the answer is definitely not one, but whether it will be allowed by the high monk in front of him is not necessarily.

Xu Ying looked at the senior monk in front of him, sat down, and asked, "Everyone has different opinions, what do you think?"

"Life is fragile, no matter whether it is strong or not, fighting is just a flash in the pan. In a strong existence, it cannot match the rules of this world. Since the donor is here to seek the source of the strong, I think you might as well give up. What about being weak? When you become stronger, the

enemies you see will become stronger. Why should you trap yourself in this mundane world, unable to extricate yourself?"

"I don't agree with these remarks of the monk." Li Tian shook his head, and then said: "Some people are strong just to live better, and some are strong just to protect the people in their hearts to live better. I'm here. Looking for the eyes of the dragon is not because I want the eyes of the dragon, but only because I want to protect the weak."

"Human power is limited. What can you change by yourself?"

"If you don't even have this idea, then what is the meaning of existence in this human world, and what is the meaning of the existence of gods and Buddhas? Don't they exist just to get rid of sentient beings?" Li Tian asked.

The old monk looked at Li Tian, then showed a faint smile and stopped talking.

The remaining two people, Ximen Yeshou and the little princess, looked at each other. I don't know what these three people said just now.

"What about the two female donors, do you have an epiphany in your heart?" the old monk asked.

Chapter 6060: Sit and watch

The meaning of life.

For many people, this is an unthinkable thing, for them it is difficult to find the answer to such a thing.

The old monk looked at the people in front of him with a smile at the corners of his mouth, and said, "Several benefactors, it seems that you haven't fully understood the meaning here. You have withstood the test of courage before. What you need here is to show that you are right. In the view of life, only those things can be cleared by real epiphany. Although Lao Na has the heart to point out the confusion, but you and I are different in mind, it is impossible to talk about it."

"Life in this world is nothing more than going through the weak and the strong. Only the appearance of the weak will be fierce and the emergence of the strong will have more long-term peace." The little princess suddenly looked at everyone here with serious eyes. , The tone was filled with a sense of reason, as if the weak were born to be bullied or protected by the strong.

Of course, there is nothing wrong with this mentality.

It is precisely because there are too many weak people in this world, that is why an era of peace is needed. When there are more and more weak people, people will become more and more united, and the world's peaceful age will be longer and longer.

This is why, only in troubled times will there be so many strong men,

Ximen Yeshou did not think or hesitate: "I and Li Tian have the same thoughts. We are here only to save others, just for a wish in our hearts. It's just that simple and nothing else. "

The old monk smiled: "Since all of you have your own thoughts in their hearts, it's better to sit down here and learn."

Li Tian took a look, and obviously did not understand what this enlightenment meant, but he also knew that he must not miss this opportunity now. Now he has no idea how long they have wasted here. If the time is long, I am afraid it is to make Guo Xiangyi unable to wait for himself.

‘Never continue to waste time here, hurry up to act and complete my goal. This thought flashed through his mind and then sat down first.

When he sat down, everything that happened on the earth flashed in his mind. There were many scenes that he hadn't seen before, and he didn't know whether it was true or not. The five thousand years of history was like a slide, it flashed crazily in front of him.

During this process, the old monk always looked at Li Tian in front of him, as if he was thinking about something. At this time, the ghost and the little princess were all incomprehensible.

time flies.

When Li Tian opened his eyes again, he found that the two people around him had disappeared. When he was panicking, Ximen Yechou's voice came from his ear: "You finally woke up, I still I thought what happened to you."

"This is..."

"You didn't know why you were in a coma for a long time before. I was worried about what danger you might encounter, so that I have been guarding by your side."

"Where are the little princess and the phantom?"

"They don't know where they went. We appeared here after passing the old monk's test, and completely lost contact with them." Ximen Yechou looked at Li Tian in front of him, with a helpless expression on his face: "What exactly happened to you and why it suddenly became like this makes me very worried."

"It doesn't matter. Although I don't know what happened here, I still know my current state very well. I don't have any problems now. It seems like this can be done here. The time is over, you don't need to worry about anything, I have nothing to do." He slowly stood up, only to realize that his body felt a little tired.

This feeling is like that after many days of fighting with someone, this feeling will only appear in this way.

In front of them, there is now a very simple wooden house. Behind this wooden house is a black void, behind which is the endless grassland. The two of them are here, and they seem to be between the world. The only life seems to be a little bit lonely.

Li Tian took a step slowly, as expected, his body was very stiff.

"You have been in a coma for a long time. It seems that many days have passed here." Ximen Yechou said.

"We don't have time to waste any more. My purpose in coming here is to find herbs to save people. Since we have found the Devil Dragon Skeleton Cave this time, it means that we can definitely find some more powerful herbs here. It is enough if all these herbs are picked. As for the eyes of the dragon, it is not that important to us, as long as we make sure that this thing will not fall into the hands of those bad people."

"Are you not worried at all? Your current physical condition is very weak. If you don't have the Eye of the Dragon, you will definitely become a stepping stone in the eyes of others. They will kill you, and you can't make yourself become. More powerful, don't you really want to come here to find the Eye of the Devil Dragon and make yourself stronger?" Ximen Yeshou asked seriously.

"Of course not. Although we didn't know very well before, I thought you should be very clear about what is in my mind now. This time I came here just to find some herbs. There are still people waiting. I'm going to save, I don't have so much time wasted on these tedious things." Li Tian said lightly, and there was also an expression in his eyes.

I always feel that Ximen Yeshou in front of me seems to have something wrong with it, but there is no way to tell what is wrong.

Ximen Yeshou looked at Li Tian, and then said, "It seems that you already have your own views on all this in your heart. The so-called Eye of the Devil Dragon is not within your needs at all."

"The so-called strong people rely on their own practice to become stronger step by step, and rely on some external factors to make themselves stronger. For me, I despise such behavior. Such a person is even strong. When you get up, you will be immersed in your own world because you can't control your powerful power. Sooner or later you will be harmed by your own power." He sneered, looking like he really had some thoughts about the eyes of the dragon. Nothing looks like.
