

A Killer 73

Chapter 73: ambush

When Li Tian arrived at the dormitory with infinite hatred, Xiao Zhao in the dormitory was blowing his head with a hair dryer after washing his hair.

Seeing Li Tian turning back, he said hello: "Li Zi, why are you running back, aren't you standing guard?"

Li Tian said angrily: "Who the **** will stand guard with them in the future."

"I'm **** quit."

While roaring Li Tian, he packed his things there.

That Xiao Zhao was stunned.

"Don't do it? Li Zi, didn't you promise our section chief to replace the two-day shift?" Xiao Zhao asked quickly.

Li Tian suddenly turned his head and red eyes and said angrily: "No more!"

"Xiao Zhao, if you go back and tell Brother Yu, you just say I'm sorry for him. I really can't stand this **** anger. I will leave this broken company now."

While talking about Li Tian, he carried his packed things on his back, and then suddenly turned and strode towards the outside of the dormitory.

"Li Zi, do you really want to go?" Xiao Zhao ran over and looked at him and said.

Li Tian turned his head and looked at Xiao Zhao, reached out and patted Xiao Zhao on the shoulder and nodded.

"Anyway, meeting you during my time as a security guard is the happiest few days I came to Kyoto." After saying these words, Li Tian said nothing, turning his head and walking towards the door of the Tang company. go with.

Xiao Zhao opened his mouth as if he wanted to say something, but in the end the words seemed to be stuck in his throat and he didn't say it again. He just watched that Li Tian's back walk step by step toward the square.

Li Tian left the Tang company. When he decided to step out of the Tang company's door step by step, his heart was completely dead to the Tang company because he hated and hated all those who looked down on him.

From now on, Li Tian will step out of the Tang company, and he will never step into this company again in his lifetime.

And for the people of the Tang family, Xiao Zhou, and the big man who looked down on him behind the scenes, Li Tian will let them know what regret is, and one day Li Tian will let these people who all looked down on him, the little security guard, crawl on him. Look up at him under his feet.

With the vow he himself made, Li Tian walked towards the gate step by step.

At this time, he did not notice that a silver-gray Buick GL8 commercial vehicle was parked outside the Tang company.

That silver-gray Buick GL8 commercial vehicle has been parked near the Tang company for the past two days, but Li Tian has never noticed it at that station.

What on earth does this Buick GL8 commercial vehicle do?

The inky car window glass blocked it, making it difficult to see who was sitting inside. After a closer look into the car through the inky car window glass, we immediately saw a strange scene.

In the car, there were 5 sturdy men with fierce faces. At first glance, they knew that they were not kind.

"Scarface, that kid has finally come out, everyone pay attention." He said with a sharp voice, but he saw a guy with yellow hair who was talking. This guy was wearing a skull stud on his ear and his face was long. With some black freckles, plus the yellow hair on the head, it makes people look like a full-blown type.

He stretched out a hand and pointed at the vicious-eyed Li Tian who came out step by step from the door of the Tang company.

The man next to him, called Scarface, has a pair of wolf-like cold eyes, and a narrow and dazzling scar on his face from the corner of his eyes to the nose.

At this moment, Li Tian was staring at Li Tian, who stepped out of the Tang company.

"Fuck, the **** finally came out." The scarred man said fiercely, holding a sharp wooden machete on his right hand.

The other three men behind him also held machetes in the same hands and stared at them.

Who are these people? What are they doing here? Could it be that.....

"Brothers, when you go up to the meeting, don't be soft-handed, Shao Wang said, you must make this **** kid." The guy named Huang Mao said with a sharp voice.

The scar face in front of him sneered: "Don't worry, I'd better put 10,000 minds on my Scarface's business."

Who is Shao Wang?

Wang Feng! Yes, it is Wang Feng, the eldest young master of the Wang family, and it is also the guy who Tang Feifei ordered a baby kiss since childhood.

Since the last time Wang Feng met with Li Tian, he wanted to kill the little security guard, so he hurriedly found someone to settle the little security guard (Li Tian).

In the past two days, Huang Mao with a scarred face and the remaining three men have been guarding the spot here in order to destroy Li Tian.

But Li Tian still doesn't know at all. Could it be said that Li Tian will really encounter bad luck today?

Li Tian, who walked out of the Tang company's square, suddenly his right eyelid beat a few times.

With this beating, his heart felt uncomfortable for a while, and he was taken aback for a while, wondering what happened.

As the saying goes: the left eye jumps for money, the right eye jumps for disaster. My right eye suddenly jumped just now. Could it be that I have some disaster? Li Tian thought as he walked, but he also thought about it as he wanted, and did not pay too much attention to it.

After leaving the Tang company, Li Tian really left the Tang company, suddenly feeling a sense of loss in his heart.

The reason for the loss? Of course it is because of Feifei.

To be honest, after spending so many days with Feifei, although that girl is sometimes savage, willful, and loves to play with herself, but since Li Tian came to Kyoto City and met Feifei until now, he always has something for that girl. A trace of nostalgia.

But for Li Tian now, it is not important anymore. What is important is that he will never have a little relationship with these rich people in the future.

After leaving the company, Li Tian looked at the crowded streets and suddenly felt that he was really nothing.

Those faces on the street are not familiar to me. Those people who are wearing suits and hurriedly walking with their leather bags seem to live in two worlds with themselves. They dismissive of themselves and walk on their own.

Looking at the busy streets, Li Tian felt hesitating for the first time.

He didn't know where he should change to, or where he should go, so he walked aimlessly along this street.

In Kyoto City, Li Tian is a relative, friend? Except for the two Xiao Zhao who are the same security guards as himself, and Yu Dahai, Li Tian can say that he doesn't know anyone. Now he has left the Tang company and even his most basic friends are gone? Can he still look there?
