

## A Killer 84

Chapter 84: Mystery

Li Tian was stunned, picking up the boxing gloves on the ground and watching.

Then he found that there was a dusty cabinet in the front place, and Li Tian subconsciously reached out and opened the cabinet.

After the cabinet was opened, there were belts dangling transparently inside.

Take a closer look, in addition to those belts, there are also photo frames thrown inside. If a boxing player takes a closer look, he will definitely be able to see what belt it is, the golden belt in boxing!

Symbol of boxing champion!

I picked it up and took a look, but who was the person in the photo inside? Isn't it this kid Shen Feng? In the photo, the kid wore gloves with his hands tightly, posing a powerful look. In addition to this photo, there were a few photos inside. Li Tian picked it up and looked at it, suddenly shocked.

It turns out this kid is a boxer...

No wonder there are so many gloves, sandbags, and photos taken at home.

Li Tian couldn't help frowning in shock. What kind of character is this kid?

Is his job to fight in the ring?

No wonder that Xia Xue said that when she talked about Shen Feng's work, she seemed to be worried about something.

After thinking about it this way, Li Tian wanted to open up, but he only knew one thing and didn't know the other. What did this kid really do? He hasn't figured it out yet.

Looking at these things, Li Tian gently closed the cabinet again, then walked over and glanced at Shen Feng, who was asleep, sitting down next to him, slowly lowering his backpack.

He took a cigarette out of his pocket, lit it, and took a puff.

There is not much to do with him about this matter called Shen Feng, and he and he are just one-sided fate, not a deep friendship.

Hey, forget it, when he woke up, Li Tian said goodbye to him.

Li Tian thought about it this way, so he found a dilapidated sofa next to him and lay down, silently thinking about his own thoughts.

"My wife (Situ Ningbing) is there now? Is she still being chased by the (Qingsha) organization? Has she ever thought of herself?"

"And that eldest lady, Tang Feifei, how is she? Hey, she is a eldest daughter, what else can she do? I must have a good time."

Thinking of this, Li Tian became more and more depressed. Depressed, he couldn't sleep.

Li Tian, who fluttered and sat up from the bed, stretched out his hand to touch his travel bag.

But when his hand touched the travel bag, Li Tian was stunned for an instant. The travel bag was soaked.

No way, he walked in the heavy rain for an hour or two, if the travel bag is not wet, that would be a weird thing! He hurriedly opened the travel bag, why was he so nervous, and Li Tian's heart was pounding.

The reason is, that (broken book), he was afraid that the broken book would rot after getting wet.

So quickly open your travel bag, after opening it.

Quickly took it out, Li Tian was stunned, and the book was soaked in water.

Thinking of this, Li Tian quickly took out the book, but saw that there was nothing serious about the cover. After all, the cover was made of animal skins. Although it was a little wet, it was okay.

But unexpectedly, after Li Tian took it out, he saw that the corners of the cover after soaking in rainwater seemed to molt. Li Tian was taken aback for a moment, and quickly and slowly uncovered the skin with his hands.

As his hands slowly uncovered, he saw a thin layer of skin uncovered by him. After uncovering the cover all at once, he saw that the cover was completely renewed, and it was a black cover.

There are no fonts, no patterns, only a weird pattern left at the corners, that pattern looks like a dragon totem.

Li Tian couldn't help but froze for a moment, then looked at it carefully, and said to himself: Why is this book so strange? It seems that I can't see through.

Then he didn't care about the cover anymore. He quickly opened the page inside. He was afraid that the tadpole text inside would be soaked by rain and become nothing. In that case, he would really be useless in the future and he could no longer use it. To enhance the potential of your body.

After he opened it quickly, fortunately, there was nothing major about the page inside. Although after the rain baptism, he could still see the tadpole text inside.

After turning a few pages, Li Tian finally felt relieved. The tadpoles in the first large article are still there, and it has not become unclear because of the rain.

After taking a look like this, Li Tian hurriedly found a place to dry the book. There was a fireplace on the left, and it was still steaming slightly inside.

Li Tian took the (broken book) and squatted on the stove, carefully drying the book.

When ten minutes passed, Li Tian had almost dried the previous part.

Just when he was about to dry the back, there was a pattern in the middle of his eyes.

This made him stunned for a moment, because he had rummaged through the entire book before, and had never seen any pattern or the like, but now he saw the pattern at random? This of course shocked him.

So I opened it quickly and looked at it.

The pattern is the second largest! It is indeed the second largest one.

This broken book is divided into three chapters. In the past, the first one was tadpole text, and the second and the third were completely blank. There was nothing left. Li Tian once thought that it was waste paper.

But now? In the second large part, the pattern appeared out of thin air.

Looking closely at the pattern, it turned out to be a weird human body movement. The villain painted on it poses in strange poses, like, like, martial arts filmed in TV dramas.

This made Li Tian suddenly startled, and he quickly turned to the back page to read it, but he saw that page after page was full of such weird actions, some were putting his hands together, some were tricks...

Is this martial arts practice?

Li Tian was shocked, and quickly turned around and sat on the sofa and began to look carefully.

Li Tian was stunned at this strange posture after turning over a dozen pages.

The second big story is more than 20 pages, and now these more than 20 pages are all weird human poses.

After turning over these more than 20 pages, it was the third chapter. When Li Tian, who was curious, opened the third chapter to see what was going on here, he was suddenly disappointed.

It turns out that the third chapter is still blank and has nothing.

Why is this so? Why do weird patterns suddenly appear? Is it because it is only shown after the flood? Could it be that it came out after the fire dried up?

All the questions were crowded in Li Tian's mind.

He knew that in ancient times, there was a kind of weird potion. The name of that potion was (Mist Water). As the name suggests, it was a special potion that was not easy to be discovered. Once these potions were dropped, the words would disappear. , It can be seen clearly after being dried by fire.

By coincidence, Li Tian revealed the secret of the second major part of this book. I wonder what changes will happen to him in the future?
