

A Killer 97

Chapter 97: win!

When Feng Wuye heard Meng Chong say this, he smiled at the corner of his mouth and said faintly: "I am optimistic about that kid named Shen Feng."

After speaking, he stopped saying a word, and the eyes of the yin owl continued to focus on the ring.

On the ring at this moment, the former Shen Feng and the Muay Thai boxer fought each other, and at this moment they basically understood each other's moves, and now they have begun a real fight.

Shen Feng relied on his flexible boxing techniques and still had considerable advantages.

I saw him hit the Thai boxer's left cheek with a left uppercut, and the boxer instinctively dodged.

But Shen Feng shook his fist, which turned out to be a fake move, and then a beautiful right fist directly hit the Thai boxer's head.

With a bang, as Shen Feng hit the Thai boxer's head with a punch, the boxer's body retreated.

Shen Feng spotted the opportunity, moved forward quickly, and shot 7-8 punches.

Fist to the flesh.

Such an explosive scene made the audience boil over.

That series of fierce attacks pushed the Muay Thai into the corner.

Even Li Tian couldn't help being happy in the audience, and his heart lined up: Shen Feng, this kid can really fight!

But when the audience thought that Shen Feng's victory was set, suddenly they saw the passive Muay Thai boxer, who didn't dodge or dodge, letting the fist of Shen Feng Thunderstorm hit him.

And he? It was cold eyes, spotted the opportunity, and puffed!

A deadly fist slammed Shen Feng's left cheek.

Shen Feng was directly hit by a punch and fell to the ground with a thump, a wow of blood spilled out of his mouth.

Obviously, Shen Feng of this heavy punch was not light.

Most of the cheers from the audience suddenly disappeared, and the crowd was stunned.

Li Tian was also stunned, how could this be? How could that Muay Thai fighter be so powerful, beaten like that by Shen Feng and still have the power to fight back?

He knew that Shen Feng's series of attacks just now did not really hurt the Muay Thai fighter.

And now the Muay Thai boxer started to show off his real power.

Li Tian looked at the field worriedly, and at the same time glanced at the group of people from other provinces, those guys in suits looked at the field with a sly smile.

And Master Feng Wu in the stands couldn't help but frowned slightly.

However, he said that Shen Feng just now was hit by a punch and fell to the ground. At this moment, he was lying on the ground and his head was dizzy. There was no way that the punch was too heavy.

Trying to shake Shen Feng in his head, he slowly got up.

The Muay Thai boxer hit Shen Feng's head directly with one knee.

With a fierce blow, if it really hit Shen Feng's head, he wouldn't be able to directly kill Shen Feng. Shen Feng quickly dodged his body, and the Thai boxer slammed an elbow and hit Shen Feng's waist.

With a click, Shen Feng could hear the sound of his rib being broken.

Enduring the pain, Shen Feng threw a punch, and the Thai boxer did not dare to retreat carelessly. Only then did Shen Feng stagger and escape the fatal blow.

Although Shen Feng was standing there, his injuries were much heavier than the Muay Thai fighter. It seemed that the Muay Thai fighter's death of the fighter was true.

Everyone in the audience is still yelling there, and some of those who bet Shen Feng to win, even yelling there.

Scold Shen Feng and let him fight.

Li Tian in the audience also looked at Shen Feng anxiously, because he also saw that Shen Feng had become more and more unable to hold on. Shen Feng, whose face was full of blood, looked extremely embarrassed.

After being forced to retreat, the Muay Thai fighter rushed up again, slamming a pair of fists towards Shen Feng, Shen Feng protected his head with both hands, and tried to block.

Fists punched his head-protecting arm, and Shen Feng beat passively like that.

A bang hit Shen Feng's chin with an uppercut, and Shen Feng was beaten up and flew upside down, a mouthful of blood spattered.

Fell to the ground.

"Shen Feng..."

Li Tian exclaimed.

The voice was suppressed by the harsh scream.

The fat guy over there turned pale: "Fuck me, this **** will definitely make me lose money this time..."

The paparazzi next to him watched with a treacherous smile, and couldn't help cursing Shen Feng in his heart: "Asshole, do you still pretend to be forced? Kill you!"

It was said that after Shen Feng was knocked down again, it took more than ten seconds to get up with difficulty, his face was bruised, the corners of his mouth were still swollen, and he looked exhausted.

Seeing Shen Feng standing up again, the Muay Thai boxer had a fierce killing intent in his eyes.

Turning to look at the people from other provinces in the audience, the men in suits suddenly nodded coldly and signaled to kill Shen Feng on the court.

So, Muay Thai is manual.

Hoop the neck and knee!

The most famous killer move in Muay Thai.

He lifted his left supporting heel to rotate inward, twisted his body to the left, kicked on the ground with the sole of his left foot, twisted his heel inward, twisted his body to the left, and coordinated, making his right knee rush forward, reaching the tip of the knee, and suddenly the whole His knees hit Shen Feng's chest directly.

The strength of this knee can be said to be more than a thousand catties.

If Shen Feng was hit, he would definitely die on the ring.

In the screams of everyone, the Muay Thai boxer's killer move directly hit Shen Feng.

Now Shen Feng looks powerless, with blood on his face, he looks dying.

But just when everyone thought Shen Feng would really die in the ring, a strange scene happened suddenly.

Suddenly, Shen Feng gritted his teeth and rushed towards the Thai boxer like an arrow.

The Thai boxer originally thought that Shen Feng had no strength to move, but he did not expect that Shen Feng would rush towards him directly.

With a loud bang, the neck-knee collision really hit Shen Feng's chest. Shen Feng suddenly surged in blood and his face became as pale as death, but what about his hands? Then the cross clasped his hands for an instant, twisting the Thai boxer's head.

With a bang, both of them fell to the ground.

Everyone in the audience was stunned, even Feng Wuye was slightly stunned and took a closer look, but he saw that one arm of Shen Feng locked the Thai boxer's neck tightly like an iron chain. The violent arms strangled the Muay Thai fighter's throat, as long as Shen Feng used a little force, the Muay Thai fighter's neck would definitely be severed by him.

The Thai boxer was strangled by his neck, and his body was struggling vigorously, while Shen Feng did not let go, gritted his teeth, and exerted all his strength to restrain the Thai boxer's throat.

The Muay Thai boxer almost suffocated and died on the court, when suddenly one of his hands slapped on the ring.

Admit defeat?

Yes, everyone who plays black-market boxing matches knows that such a move represents a loss, and he admits that he has lost.

The people in the audience finally cheered when they saw the Muay Thai fighter admit defeat.

And how about Shen Feng? Then he slowly loosened the arm that was holding the Muay Thai's throat, and climbed up from the ground with difficulty. Now he can be said to be dying, standing there, only feeling that his feet are floating and his face is bloody. It looks hideous and dazzling.
