

Chapter 846: Critical

Yin Jian leaped up in shock. "What do you mean?"

"I mean exactly what I said..." Director Wang said bluntly.

Yin Jian's expression changed drastically. "I could feel something was wrong, and it seems like the problem could only lie with you. Tell me, what exactly did you do to me? Why is my health good at times and bad at other times? What kind of injection did you just give me?"

Director Wang said with a smile, "Can't you just obediently be a patient? There's no need for you to know so much. With your status, you're born to enjoy life. You just have to muddle along and wait for your death. You don't need to know so much. There's a limit to a person's luck. You should cherish it."

After that, Director Wang left Yin Jian feeling uneasy.

When Director Wang emerged from the room, the young nurse asked tentatively, "What should we do if he really realizes it?"

Director Wang said indifferently, "From today onward, increase their dosage every day. It's about time anyway."

The young nurse nodded silently.

Director Wang said softly, clearing the young nurse from all culpability, "Xiao Yang, the medicine you gave them and the drugs you administered were all done according to my instructions."

Xiao Yang raised her head and looked at Director Wang with a firm gaze as she said, "Director, each of your instructions was to treat the two patients' conditions. There's nothing wrong with your instructions. The patients have indeed exhibited relevant symptoms. I'll be responsible for this at any time and anywhere."

Director Wang was slightly surprised. "Xiao Yang..."

Xiao Yang lowered her gaze and bowed slightly. "Director, I'll return to my work first."

Director Wang looked at Xiao Yang's back silently. At this time, she did not care about anything else. The matter had already come to an end.

...

The next day.

The two young masters of the Yin family were seriously ill, scaring everyone in the Yin family. Together with Old Master Yin, they rushed to Yi Garden.

Director Wang looked at everyone and said in a troubled tone, "After the madams left yesterday, the two young masters' conditions worsened. We spent the entire night treating them before their

conditions finally stabilized. Everyone, the kidney and bone marrow transplants I told you about earlier have to be carried out as soon as possible. Otherwise... I'm afraid they won't have much time left."

Qin Shuang, Kang Ru, and Guan Ning burst into tears immediately.

Yin Bin and Yin Yang were so anxious that they did not know what to do with themselves.

Old Master Yin frowned and asked, "Director Wang, is there really no other way?"

Director Wang shook her head gently. "I'm sorry, Old Master Yin. There's nothing I can do."

Qin Shuang sobbed. "Old Master, please think of a way to save the children. If there's no other way, why don't we kidnap Cheng Che and exchange his life for two lives? It's still worth it. Worse comes to worst, I'll bear the blame alone."

"Preposterous!" Old Master Yin bellowed immediately.

Qin Shuang timidly took two steps back, but her eyes were brimming with hatred.

Old Master Yin rose to his feet and said to Director Wang, "Please take me to see them."

Director Wang quickly stood up and led the way.

...

This time, Yin Jian and Yin Zheng were lying in the same room.

Director Wang explained, "Previously, the two cousin brothers had bad tempers and often fought. Hence, we separated them. However, in order to take care of them better, we put them together. Moreover, they no longer have the energy to fight now."

Old Master Yin nodded with a gloomy expression on his face as he looked at his two grandsons who looked haggard as they slept.

Director Wang gently lifted Yin Jian's quilt. He was naked under the quilt, and his important parts were covered with bloody scratches.

Old Master Yin was shocked. "What happened?!"

After covering Yin Jian with the quilt again, Director Wang said softly, "It's the toxin in his body. It'll attack the weak parts first before it slowly spreads to the entire body."
