

### THE STARS ARE ORIGINALLY A PAIR - EVALUATION

After An Xingyue returned to the hotel, she took some pastries she bought on her return to Ji Yiyao and mentioned to her about her encounter with Su Chon at the hotel this morning.

"Yueyue I guessed it a long time ago, with his strength unless he gave up himself, how could there be no seat for him in these competitions." Ji Yiyao swallowed a piece of pastry before taking a sip of water and said slowly.

"Well, that's also true, but I didn't see his little girlfriend." An Xingyue nodded in recognition, at least she had stayed in that school, and she was clear about Su Chon's strength.

"His girlfriend's grades are not as impressive as his, and I heard my mom say that Su Chon showed his parents the girl's picture after he came back from his trip, which is considered to be over the bright side." Ji Yiyao held her cup, thinking of her mom talking to her and side-stepping her.

"By the way, Yueyue you schoolboys fall in love like in the parents over the clear way first?" Ji Yiyao thought of An Xingyue and big brother in love is also known to parents, so quite puzzled.

Usually these things should not be hidden tightly, afraid that others know, but they? The parents directly on the side of the clear way, and then openly in love, afraid that others do not know that they are a pair of that way.

An Xingyue ruffled the hair around the ear, do not know what to think, smiled, "This is mainly depends on the person, when I and night Xiu Chen thing is mainly a parent meeting and then a little accident, so both people shouted parents, and then confused by the parents know."

She and night Xiu Chen also because of this look inexplicably began to fall in love.

"So this is the way ah, when the first middle school also spread some small version, at that time I was in the first class also heard quite a lot, and then there are some small version, I heard when I also feel crying and laughing." Ji Yiyao thought of the messy little stories she heard at that time, if she didn't know something from An Xingyue, she probably would have believed it.

"Right, Yue Yue why don't you don't go back to your room to sleep tonight, sleep directly at my place, we two have a good chat." Ji Yiyao wanted to transfer to class 7, but before she did she still wanted to get to know the people in class 7 from An Xingyue first.

Anyway, with Yue Yue's character, she would definitely not fool her. (\* ^ ^ ^ \*)

An Xingyue agreed after thinking for a while. After being with Night Xiu Chen, she did have a little less time to talk with Meow Meow, and it was true that they hadn't slept together for a long time.

So, that night, the two sat on the bed and started talking.

Even if the competition is coming tomorrow, it can't stop them from chatting.

"Yueyue, tell me how you feel after spending a semester in class 7, you know it's your first time to study in that atmosphere." Ji Yiyao asked curiously, their family Yue Yue grew up excellent, always stay

in the top class, did not expect to come to the South City First High School, will apply themselves to the seventh class.

At first she thought Yue Yue might ask to change classes in a week or two, but she didn't expect Yue Yue to stay in class 7 for so long, and she even made friends with those people and fell in love with the big guy.

It is estimated that when she told her former people about this, those people would find it unbelievable, after all, it is quite difficult to be friends with Yue Yue.

"At first when I arrived in class seven I felt quite new, meow you know, it was my first time studying in this kind of class, and then although everyone's grades weren't very good, their personalities were all quite pleasing and everyone was very enthusiastic."

An Xingyue thought of the first day into the seventh class, the whole person's three views are a little shocked, and then slowly found that although everyone's overall grades are not very good, but everyone has their own bright spot, and to their own class are very gentle, perhaps for some people their temper is not very good, but I to their own class, the seventh class boys always have a few more patience, even the night Xiu Chen also.

"Maybe the people of class seven will sleep in class or something, but they definitely will not disturb the teacher in class, and then A Chen began to study seriously, the people of class seven saw the school bully this way, they also slowly began to change, so by the time the final exam results came out, their efforts this semester have paid off."

"Although Class 7 is not as good as Class 1, but Class 7 has slowly started to change, everyone is starting to take responsibility for their own lives, regardless of the ridicule outside, they are starting to be willing to try again and give themselves another chance."

"So in my opinion, the people in Class 7 are really great."

An Xingyue thought of when she first came here, although the people in Class 7 sometimes said some off-key things, but they always had something to take when it mattered.

"Yueyue has a high opinion of the people in class 7, it's really unexpected." Ji Yiyang didn't expect An Xingyue to have such a high opinion of Class 7 in her heart, the sentence alone that they are all great is very weighty.

"If that's the case, then it's not a bad idea for me to transfer to class 7." Ji Yiyang said with a smile, not giving a cushion to her BFF An Xingyue classmate at all.

An Xingyue heard Ji Yiyang say that she was going to transfer to class 7 and was confused for a moment, "Meow meow did you say it wrong or did I hear it wrong?"

Give you a chance to say it again, An Xingyue thought as such.

"Hee hee, Yue Yue didn't hear wrong oh, I am planning to transfer to class 7 next semester, I talked to my parents and they also said that they will go with my wish." Ji Yiyang squinted her eyes and looked at An Xingyue's dumbfounded look, a little funny.

"But Meow Meow, you've been in class one, and you're used to the teaching style of class one, aren't you afraid that you won't adapt when you come to class seven? You should know that there is a lot of difference between the contents of class seven and class one." Especially the people in class seven are very biased, so those teachers talk about very basic things, as for those more in-depth, like class one these are certainly mandatory, and in class seven you need to communicate with the teacher yourself.

But the in-depth things the teacher will still hand a copy of the information, you can drill you will drill, can not be good to go to the foundation.

"It's okay, and I don't like the first class too much anymore, especially after Yue Yue you stole the limelight from the first class in the seventh class, the class teacher of the first class is like a demon, a bit paranoid, I think I will not be able to stand it if I stay any longer." Ji Yiyan said seriously, "And there is still Yue Yue you in class 7, what am I afraid of?"

"That's fine, meow you just decide for yourself." An Xingyue also heard before that the class teacher of class one is a person who pays a lot of attention to face and students' performance, now she has stolen a lot of limelight from class one in class seven, so it is estimated that she has lost her face a bit, no wonder she has become stricter to class one, and she also often disciplined class one people, just to get back face, but how is this possible?

She has no intention of giving up the first position to anyone else, unless she is tired of it.
