

THE STARS ARE ORIGINALLY A PAIR - OUT OF THE RESULTS

After the class meeting, Class I and Class XXI were the first in science, and the first in arts class average, but the first in science total grade score did not appear in Class I this time, but in Class VII.

That's right, it was Class 7. At first, everyone did not believe it, and also picked out the grade first test paper, which was graded again by the correction teacher, but to our surprise, people were really deserving of it.

Therefore, the whole face of the class teacher of the first class is black, before the test is boasting that the first in the grade will definitely appear in the first class, did not expect to run a dark horse to. This is the first time I've ever seen a woman in the world.

The other side of the coin is that the smile on Wang Ya's face has not disappeared, even if the others in the seventh class did not do well, it does not matter, at least there is a super powerful in support of the field.

The other people are crying blind in the toilet. (>People<;=)

After looking at everyone's results, Wang Ya probably had a number in his mind, and the most surprising thing to him was that night Xiu Chen actually did not turn in a blank paper, but probably because the second semester of the first year of high school were not how to learn, and this month also did not how to listen to the class, so the score is not very high.

But he is willing to do the paper, may indicate that he is going to start studying, hahaha, the big devil finally lost his way.

I have to say, this is a wonderful misunderstanding, people do the test papers just for the little table to deliver the gift.

"Ahem, as you all know, our first monthly exam is over, and your results are in my hands." Wang Ya cruised around for a week and saw that everyone's attention was drawn to him before continuing on.

"This time everyone did better in the exam than before, really you have to believe in yourselves, see, it's not very good. And our class president Zhao Yuan ranked third in the grade in physics this time, but why should it be biased? Ha, language and English actually down, Zhao Yuan you tell me how did you do it?"

Wang Ya glared at Zhao Yuan and said, "Mo Zhicheng's language ranked second in the grade, very good. Zhao Yuan you give me a good lesson. There are other students who also did well in the exams, I won't praise them all here, and I won't name the ones who did poorly."

"But I want to focus on praising An Xingyue students, she achieved the first total score in science in this monthly exam, and single subject is also the first in each subject, that is to say, An Xingyue students are not only the total score, even the single subject results are pressed everyone, so this time the top students of the first class is not much trick."

"Crap, the new students are so powerful?"

"Hahahaha, this time to see how the first class still laugh at others, it is estimated that their class fell into the joke."

"Wow, good-looking, the results are still so unbelievable, want to chase." (●?' ●)

"If you're not afraid of the big devil getting you, you should go after him."

"Hahahaha, don't say wear well, and isn't the big guy still not chasing?"

.

Su Zhiqing heard that the first in the grade is An Xingyue, the whole person is stunned, although she knows she has good grades, but did not expect her to be so fierce ah, the first test directly to the previous first in the grade down, it is estimated that that now are confused.

And night Xiu Chen lightly laughed, his little table is more excellent than he imagined ah. Sure enough he has a very good eye.

Wang Ya let this group of people make a fuss before signaling them to quiet down and continued, "In addition to that, I would like to say a few words about student Night Xiu Chen, he took the exam very seriously this time and did not turn in a blank paper, so everyone should learn from student Night Xiu Chen, take the exam seriously and do not just turn in a blank paper."

"Okay, now the class representative of each subject will come and give out the answer cards to everyone, as for your report cards, I will give them to your parents on Friday during the parent-teacher conference, and for the rest of the day, after you get the answer cards, look at what you got wrong and borrow the ones that others got right to see, and tomorrow we will start talking about the test papers. I'm going back to the office, if you have any questions, class leaders come to the office to find me."

After saying that, Wang Ya left.

Zhou Junxing grabbed his ears and said, "Fox ah, did I hear wrong, the boss this time turned in not a white paper? Can he do it? Not been not listening to the class?"

It was really incredible, since the second semester of senior high school, the boss's papers were always blank, and sometimes he would miss exams, but this time he actually did the questions seriously.

Luo Junxian didn't answer, his eyes looked at the two people who were talking, the usually arrogant to the point that the big devil was asking for gifts from his little tablemate without any skin.

"Little tablemate, you said that you will give me a gift if I do the test paper seriously, you just heard it, the old king said I am doing the test paper seriously this time, so where is my gift?" Night Xiu Chen eyebrows with a smile looking at An Xingyue who is drawing.

An Xingyue was embarrassed, it was the first time she saw someone would ask for a gift so actively.

"I'll bring it to you tomorrow." An Xingyue replied as her hand kept drawing. This is the gift she promised, she will not go back on her word.

"Then you have to remember, little table." Successfully reminded An Xingyue, the thought of tomorrow can have a gift to receive, night Xiu Chen until the end of school are the corners of the eyes with a smile.
