119 Excitement Across the Internet! Luofeng Discovers an Ancient Tomb! (1)

“Holy sh*t! He already reached the tomb walls? This...”

“Shocking! Luo Feng is now my idol! How on earth did he even manage to find the tomb?!”

“Has he finally made it?”

“Damn! Old Luo’s abilities really aren’t for show!”

“Haha, now that he has found an ancient tomb, I wonder who would still dare to claim that his streams are scripted? Hmm?”

“Yeah, what now, haters?”

“Are you going to claim that our host traveled to the past to make this happen? Hmm?”

“It’s a pity that the host applied for a permit. He really has foresight!”

“Had he not applied for the permit, this tomb would have become the government’s property by now!”

“The registration itself only costs 1 million yuan. With this, the host is guaranteed to make a profit!”

“He has already made a profit a while back, alright? Remember that the fossil is worth 5 million!”

“Man, if there are somehow heaven-defying funerary objects down there, the host would make a killing, literally, this time!”

“I don’t think there’s anything good inside. It’s already been visited by tomb raiders, after all.”

“You’re joking, right? Even if they had already combed through the tomb, the fact that a landslide had happened means that most of the treasures are still buried within!”

Luo Feng was ecstatic. He had finally located a priceless tomb. There was a whole swathe of riches waiting for him.

“Brother An, Brother Zhang, there’s no need to wait till tomorrow. Let’s work harder today and continue digging. I don’t think I can sleep until I find the tomb’s entrance!”

“Agreed!”

“Let’s do this!”

Luo Feng observed his two partners and felt that they were even more excited than he was.

“Little Qin, why don’t you go and rest? You’ll be able to see the fruits of our labor by tomorrow morning!”

Luo Feng suggested to Qin Rubing.

However, all he got was a vigorous shaking of her head.

“No, no, no, I’d better keep an eye on you guys. If you end up finding any treasures, I’ll need to inform you guys for fear of you breaking them on accident!”

“Alright, alright! So, we’re all staying up late, huh? Alrighty then!” Luo Feng shrugged helplessly. He directed his gaze at Huang Tianba at the foot of the mountain and shouted, “Old Huang! I doubt you have enough manpower at the moment! Go and call over all your Shuitang Village villagers! I want you all to guard this ancient tomb properly!”

“What’s this? An ancient tomb?”

“Did you really find an ancient tomb?”

Huang Tianba was overjoyed. This meant that he was going to make good money again.

Huang Tianba had already made around 13 million yuan just by following Luo Feng’s commands.

Heck, just from the 200 million that Luo Feng had made from the steel factory, Huang Tianba had made 10 million from it!

He had shelled out a bit of his employment fees to his villagers, but even then, he had still made a good amount of money.

After all, paying his villagers had only cost a couple hundred thousand yuan, but he was making 10 million in profits!

Back when he was working for his cousin Su Meiji, it had taken him 7 years just to make 30 million!

In comparison, he had barely worked a few months for Luo Feng.

Man, if I could get Luo Feng to marry my cousin, I’m looking at potentially 10% in future commissions, right?

But... That b*tch Li Shishi and Qin Rubing seem to be interested in my cousin-in-law too...

This won’t do. This won’t do at all, I have to tell my cousin about this...

...

...

Since Luo Feng had already reached the tomb’s exterior, there was no need to dig any further down. After all, he did not possess the strength to shatter the brick that comprised the walls anyway...

Instead, his job had shifted to removing the mud covering the surface of the ancient tomb’s walls.

Very quickly.

Around one square meter of the brick surface had been cleared.

“Look, everyone, these are ash sand bricks. Basically, the ancient tombs of the Ming dynasty are constructed using this kind of brick. With everyone’s intelligence, you should have already figured out that this is an ancient tomb from the Ming dynasty, right?”

“...”

“Host, any one with average intelligence would be able to figure this out!”

“I’m speechless. Do you think we’re fools? ”

Luo Feng chuckled. “Well, I’m not going to waste any more time talking with you guys. I’m off to make a fortune!”

Now that Luo Feng had confirmed the location of the tomb...

Things were definitely much easier than before.

Despite this, he could not act recklessly.

He must not use any explosives or break anything.

Even though he had a permit, one of the conditions stipulated was that any items that could not be brought away must not be damaged.

Otherwise, Luo Feng would have to pay for damages.

...

...

Meanwhile, news of Luo Feng locating an ancient tomb had reached the top of Weibo’s trending search once more.

“Damn, him again?!”

“Is this streamer trying to dominate the trending topics bar?”

“Why is it always him!?”

“There’s no choice, he just can’t stop! This time, he’s dug up an ancient tomb, and from the looks of it, it seems to be a rather massive one!”

“I really don’t understand how he does it. Most professional treasure hunters might not even find anything noteworthy in an entire year!”

“Hehe, this is all due to the host’s great wealth of knowledge! No one can refute the knowledge he dishes out in his livestreams. And if you think about it, if no one out of hundreds of thousands of people can refute him, it means that what he says is right!”

“I agree with that. I’m a treasure hunter too, and from what I can confirm, what he speaks is the truth. You stand to gain a lot of professional knowledge by watching his streams.”
