

# A World 2221

## Chapter 2221: But Disrespectful

The inheritance tower left by the Eternal Great Venerable can almost be said to be the biggest chance in the true universe!

You must know that the entire universe has only evolved to the fifth universe era, and only two world breakers have appeared. Among these two world breakers, the Eternal Great Venerable is stronger than Kunpeng Great Venerable.

Although I don't know how much stronger the Eternal Great Venerable is than the Kunpeng Great Venerable, even the image left by the Kunpeng Great Venerable admits that he is not as good as the Eternal Great Venerable – to allow a world breaker to admit this, it can be seen that the Eternal Great Venerable Zun is by no means a little bit stronger than Kunpeng Da Zun.

In the real universe, even the Great Venerables are eager to enter the inheritance tower of the Eternal Great Venerable; however, the Eternal Hall is clinging to the inheritance tower and never allows the Great Venerables of other forces to accept the inheritance of the Eternal Great Venerable.

Under the protection of the Eternal Hall, the Inheritance Tower is extremely “reserved”, and strangers should not approach it. But now, the Inheritance Pagoda actually put down its restraint and took the initiative to “pick up” Xu Ming, which was undoubtedly unexpected by all the Great Venerables.

“This is... the inheritance tower is inviting me in?” Xu Ming couldn't help asking, “Master of the Eternal Palace, your inheritance tower in the Eternal Palace is really hospitable!”

hospitable?

The upper echelons of the Eternal Hall are all covered with black lines. They cursed inwardly—our inheritance tower is very reserved, right?

But now, it is indeed impossible to see that this is a serious inheritance tower.

“Haha...” Eternal Palace Master can only laugh, “This is the first time we have encountered this situation!”

“I have admired the reputation of the Eternal Great Venerable for a long time!” Xu Ming said, “I naturally have a lot of interest in his inheritance! Since now, the inheritance tower has taken the initiative to invite me, I am disrespectful!”

But disrespectful?

The upper echelons of the Eternal Hall were speechless again.

Xu Ming, on the other hand, has followed the projection of the beam of light and walked towards the inheritance tower.

“Xu Ming!” At this time, the Eternal Hall Master couldn’t help but reminded, “In the inheritance tower, there will be many tests. The stronger the strength, the more difficult the test will be; however, those who pass The more tests, the more benefits! I hope... you can go further in the inheritance tower!”

Have a test?

Xu Ming secretly said in his heart, “The thing I’m not afraid of the most is the test!”

Immediately afterwards, Xu Ming flashed and disappeared into the inheritance tower.

“Palace Master!” At this time, the Deputy Palace Master of Eternal Palace couldn’t help saying, “This Xu Ming, although he is on good terms with our Eternal Palace, he is not from our Eternal Palace, so why remind him of this? ”

In the opinion of the deputy hall master, the more inheritance Xu Ming accepts, the more it seems that it will not benefit them in the Eternal Hall, right? Although this time, it was the inheritance tower who took the initiative to seduce people, but it seems that there is no need to remind Xu Ming about the details of inheritance, right?

“I have my own plans!” The Eternal Palace Master said lightly, without explanation.

The Eternal Palace Master was appointed by the Eternal Great Venerable Tugu; therefore, he has absolute power in the Eternal Palace. Since the Eternal Palace Master does not want to explain more, other high-level officials will naturally not ask more.

However, the eyes of the Eternal Hall Master always fell on the inheritance tower and did not take it back. His heart was full of thoughts, and he didn't know what he was thinking.

“Inheritance Tower, there has never been such a vision before!” The Eternal Palace Master secretly said in his heart, “I don't know, what is so special about Xu Ming? If he can climb to the top of the inheritance tower...”

The Eternal Hall Master always remembers the entrustment of the Eternal Great Venerable to him before he left; he is also very clear about what it will mean if someone can climb to the top of the inheritance tower.

Thinking of this, the Eternal Hall Master couldn't help but look forward to it, expecting that Xu Ming would really be able to climb to the top of the inheritance tower.

“Father will definitely be able to climb to the top of the inheritance tower!” Xu Yin was also secretly looking forward to it.

Xu Yin has learned about Xu Ming's past experience. I have to say that every experience of Xu Ming is simply a legend, an unparalleled legend!

Climbing to the top of the inheritance tower left by the Eternal Great Master? —Although no one has ever done it, Xu Yin believes that his father can definitely do it!

...

cosmic sea.

It's an endless darkness.

At this time, Great Senior Long Ye was in this boundless darkness. Darkness gave him a kind of blood-connected intimacy; darkness gave him a sense of security like a duck to water.

Behind the Great Senior of Changye, there is a huge “cold moon”. This cold moon is indescribably huge, occupying almost half of the field of vision behind him; however, no matter how huge this cold moon is, it cannot illuminate the cosmic sea.

This cold moon is the home universe of Chang Ye Da Zun. It is also the common hometown of Xu Ming, Kunpeng Dazun, Eternal Dazun and others.

In the far distance of the dark background of the cosmic sea, there are countless faint starlights – although these starlights are extremely faint, but that is because the distance is too far; in fact, every starlight is an independent universe! Moreover, among these starlights, there is almost no universe that is smaller than Xu Ming’s hometown universe.

Among these faint starlights, there are some slightly brighter and more rare “dazzling” starlights- those are the rays of light emanating from the detached universe and the eternal universe And beyond the extreme distance, there is a starlight... Oh! Do not! That can no longer be called starlight! It was a mass of raging flames, burning quietly and furiously in the center of the endless darkness!

Even the Great Senior Long Ye looked at the “Raging Flame Starlight” with deep awe and yearning – that is the only Holy Emperor-level universe known to Great Senior Long Ye!

This holy emperor-level universe seems to be the center of the entire universe! The endless universe seems to be revolving around it!

“If only I could become a member of the Holy Emperor-level universe, that would be great!” Great Senior Chang Ye couldn’t help but yearn for – in the reincarnation-level universe, the transcendent-level universe, and even the Eternal-level universe, he and Changye Great Senior have the same The power of longing is too much, too many to count! However, there is no one in the billions who can truly become a member of the Holy Emperor-level universe!

However, what the Great Master Changye didn’t know was that Xu Ming was already a member of the Holy Emperor-level universe! To be precise, he is not only a member of the Holy Emperor-level universe, but also the core disciple of the Temple of Discord, and the most talented disciple of the Temple of Discord so far! – If Great Senior Changye knew this, not only would he be jealous, but he would probably not dare to seek revenge against Xu Ming at all.

It's a pity... Great Senior Chang Ye doesn't know!

Ignorance hurt him, and after he escaped to the sea of cosmos, he was still thinking about how to take revenge.

"Xu Ming, you caused me to leave my hometown like a bereaved dog!" There was a deep hatred in the eyes of the Great Master Chang Ye, "If that's the case, don't blame me for unscrupulous!"

Chang Ye Da Zun finally looked back at his hometown universe, and when he turned his head away, his eyes were full of gloom and emotionless. Immediately afterwards, Great Senior Long Ye found a direction in the darkness and flew away at extreme speed.

Chapter 2222: Really Good 2!

real universe.

Eternal Temple.

Inside the Heritage Tower.

Xu Ming stood at the bottom of the inheritance tower and looked around. This entire layer is a pitch-dark space, not a trace of light can be seen, let alone anything.

"I don't know why, but I still feel a familiar feeling..." Xu Ming couldn't help frowning slightly.

There was no light in the empty, dark space, and there was nothing, but it still made Xu Ming feel familiar. Xu Ming just wanted to say that it was really weird!

"I don't know, when other people enter the inheritance tower, do they feel the same as me?" Xu Ming thought to himself, "No matter, let's take a step and see! Listen to the meaning of the eternal palace master, in the inheritance tower The ordeals should not be easy; then I'll pass them all first and see what happens!"

As for whether the test will be difficult...does it matter?

The difficult test, Xu Ming has seen a lot! And there was only one test that Xu Ming had never seen before, and that was the test he couldn't pass!

“No matter how difficult the test left by the Eternal Great Venerable is, will it be more difficult than the test of the Temple of Disorder?”

of course not!

No matter how strong the Eternal Great Venerable is, he is only a world breaker who has gone out from a small reincarnation-level universe. The Temple of Discord is the superpower that controls the Holy Emperor-level universe; in the Temple of Discord, I don't know how many “Boundary Breakers” level existences have walked out! Compared with the Temple of Disorder, the Eternal Great Venerable is undoubtedly too small!

“What about the test? Why haven't you come yet?” Xu Ming looked around.

Suddenly, Xu Ming felt a wave of time and space fluctuations. In all directions in all directions, something seemed to appear.

“The test is coming?” Xu Ming's eyes lit up, and he quickly cheered up, ready to meet the test.

However, after waiting for a while, Xu Ming did not see the enemy. Instead, he saw thousands of bookshelves and tens of thousands of world rings flying towards him.

Xu Ming was stunned on the spot: “What's the situation?”

Xu Ming could see that the bookshelves of thousands of cabinets were filled with books of various exercises and secret techniques. You must know that powerful exercises, secret techniques, and classics will all carry some power; because the heaven-defying exercises and secrets are not allowed by the rules. If the classics themselves do not carry enough power, then these I am afraid that the secret skills of the exercises will be directly erased by the power of the rules, and there will be no chance for others to learn at all.

And based on the power of these books on the bookshelf, Xu Ming was able to judge that none of the books in the cabinets were simple! And here, there are thousands of cabinets, and the number of ancient books is probably in the millions!

As for the world ring that flew over like a meteor shower, Xu Ming's spiritual sense can easily see the inside of these world rings, all of which are all kinds of medicine pills, weapons, origin stones and other treasures; tens of thousands of worlds Together, the rings are invaluable!

"These are the tests for me?" Xu Ming became more and more confused.

What is this testing?

To test whether Xu Ming can withstand the temptation of treasures?

Or do you plan to directly use these treasures to kill Xu Ming?

Moreover, Xu Ming heard the Eternal Hall Master say that the test in the inheritance tower is very difficult. But now, as soon as Xu Ming just came in, this inheritance tower is sending exercises and treasures!

Xu Ming just wanted to say, "Will this be a little too attentive?"

This is the first time I encountered such a "diligence" test scene. For a time, Xu Ming was also a little overwhelmed. This treasure flying over the sky, should he take it? Or take it? Or take it?

boom! boom! boom! ...

Bookshelves surrounded Xu Ming. Amidst the dense array of secret techniques, Xu Ming deeply realized what a "book mountain and sea of books" is. The world ring in the sky is like a sky full of stars, floating not far above Xu Ming, within reach.

Xu Ming just wanted to say: "You may not believe it! As soon as I entered the inheritance tower of the Eternal Hall, I was surrounded by treasures!"

"What should I do?" Xu Ming really didn't know what to do.

“Can’t take it!” Soon, Xu Ming made a decision, “As the saying goes, if something goes wrong, there must be a demon! The current situation is more than an anomaly? The test is ‘greed’! If I take it, I will fail the test, and it is definitely impossible to get these treasures!”

Thinking of this, Xu Ming couldn’t help but praise his wisdom: “Yes! It must be like this!”

At the same time, Xu Ming put on a splendid pair of “rich and noble can’t be promiscuous”, with his hands on his back, he looked around the mountain of books and countless world rings lightly: “Take it all away! I, Xu Ming, have no greed in my heart; this point A small test is useless to me!”

After speaking, Xu Ming waited for these treasures to fly back to tell the truth. Seeing the treasures in front of him fly away, Xu Ming’s heart was very painful! But there is no way, in order to pass the test of the first floor!

However... Xu Ming waited for a quarter of an hour, these treasures showed no sign of “going” at all. The passage leading to the second floor of the inheritance tower has never appeared.

“What’s the situation!?” Xu Ming couldn’t help being even more confused.

What Xu Ming didn’t know was... everything he faced was not a test at all.

Other geniuses and great powers enter the inheritance tower. After passing many tests, they can pass the first floor and obtain a secret technique or a treasure; and Xu Ming did nothing, and countless treasures flew there. In front of him, waiting for him to take this situation is not normal at all! In the inheritance tower, it has never happened!

“Looks like... it doesn’t seem like you can’t take it?” Xu Ming understood the meaning of the inheritance tower.

“Since you can’t take it, then...”

Swish!

Thinking of this, Xu Ming moved!

Between the lightning and flint, Xu Ming instantly collected all the exercises, secret skills, and treasures around him into the “Heart Universe”.

Not one piece left!

After collecting the treasures into the universe, Xu Ming was still careful, for fear that these treasures would disappear. However, Xu Ming was on alert for a long time, and these treasures were still well in his heart.

“Although I don’t know what’s going on, but just these gains, this inheritance tower, I’m not in vain!” Xu Ming certainly understood that these treasures, if they were placed in the sea of cosmos, would be of great value.

And at this moment, the passage leading to the second floor finally appeared.

Looking at this passage, Xu Ming became more speechless: “This should be the cheapest inheritance I’ve ever seen, right? I didn’t see the promised test, but when I came in, I sent exercises, secret skills, and treasures. It’s not enough if you don’t take it! I must take it all before I can enter the next floor!”

Xu Ming just wanted to say: This inheritance tower is really good!

Chapter 2223: Take It All And Say It Again!

Really good second!

“The second floor, will it be the same?”

With doubts and expectations, Xu Ming stepped into the second floor.

“I don’t know what the test of the second floor is...”

As Xu Ming was thinking about it, the bookshelves and the world ring were again rushing towards him “aggressively”! It’s a “don’t take it, don’t take it” attitude.

“I...” Xu Ming didn’t know what to say – you are an inheritance tower responsible for the test! Can there be some principles? If you let the Eternal Great Venerable know about it, I’m afraid I’ll be \*\*\*\*\* off, right?

Xu Ming couldn’t help but look at the treasures surrounded by the second floor.

The number of treasures is slightly less than the first floor. However, whether it is the level of the secret technique or the treasure, it is one level higher than the first level—in terms of value, these treasures on the second level are probably ten times more precious than all the treasures on the first level!

“Do I take it? Or take it? Or take it?”

As the saying goes, once is born and twice is cooked.

After gaining the experience of the first floor, when Xu Ming faced the scene of being “besieged” by treasures again, he hardly hesitated – accept! receive! receive!

As for doing so, will it be a bit embarrassing for the Eternal Hall? Xu Ming didn’t think about it so much – this inheritance tower has been in the Eternal Hall for many years. If you have the ability in the Eternal Hall, why didn’t you remove these treasures?

Besides, now it is not Xu Mingqiang robbing the treasure, but the treasure in the inheritance tower brought to the door voluntarily! Really speaking, Xu Ming is still a “victim”!

Xu Ming just wanted to say: I don’t want it either! But the inheritance tower doesn’t allow me not to!

In order to save face for the inheritance tower, Xu Ming had to accept these treasures reluctantly.

Um!

It’s really difficult!

Xu Ming counted the harvest on the second floor of the inheritance tower, and couldn't help but feel a sense of euphoria. And when he finished collecting the treasures on the second floor, the passage leading to the third floor also appeared.

Xu Ming was a little soft-handed and a little embarrassed to take it for nothing: "The third floor, should I go? Or should I go? Or should I go?"

After some "psychological struggle", Xu Ming stepped onto the third floor.

As expected! As soon as Xu Ming entered the third floor, he was "besieged" by treasures again!

Treasures on the third floor are worth ten times as much as those on the second floor.

"Huh? This is...?" Xu Ming saw that several world rings were densely filled with treasures similar to the Nine-Star Disorder Chapter, millions of them, "These Nine-Star Disorder Chapter, although it has no meaning to me; but any piece, placed in the real universe, will cause the entire real universe to compete!"

Like before, let alone a nine-star disorder chapter, even if it is just a five-star or six-star disorder chapter, it will make the major forces of the real universe jealous!

"It seems... Eternal Palace is much stronger than it looks on the surface!" Xu Ming secretly said, "At least, a character like Chang Ye Da Zun should not be able to threaten Eternal Palace in the slightest! So I have been patient, I am afraid it is also to show the enemy's weakness! After all, it is the safest to never let others know the true strength!"

One time, it's cooked twice, and three times with eyes closed.

On the third floor of the inheritance tower, Xu Ming almost closed his eyes and "laughed" these treasures on the third floor as a matter of course. After all, other people's inheritance towers are so proactive and polite; if Xu Ming is awkward, then it's too hypocritical!

"Fourth floor!"

Stepping on the fourth floor, sure enough, the treasures on the tenth floor are ten times more valuable than before!

“The inheritance left by the Eternal Great Venerable is really rich!” Xu Ming couldn’t help but sigh – you know, this is only the fourth floor! And the inheritance tower, but there are a total of nine floors!

“The world breaker is worthy of being a world breaker!” Xu Ming couldn’t help but sighed the wealth of the Eternal Great Venerable again, “I’m afraid, in a situation like this, it is the wealth that a world breaker should have! And the reason why Kunpeng Great Venerable was so poor before. ‘Yes, there are not many treasures, probably because he did not leave the treasures in the real universe!’”

Xu Ming guessed right!

For Kunpeng Dazun, in the real universe, there is no one worth caring about at all; naturally, there are no treasures left. The Eternal Great Venerable actually cares about the Eternal Hall, so he left so many treasures in the inheritance tower.

Of course, although there are many treasures in the inheritance tower, for a powerful world-breaker like the Eternal Great Venerable, it is actually just a drop in the bucket, not worth mentioning! The real treasures of the Eternal Great Venerable are...

“Tens of millions of low-grade power source stones!”

“Millions of eleventh-order runes!”

“Tens of thousands of tenth-order puppet warriors!”

...

Although Xu Ming was shocked by the treasures on the first three floors, to be honest, it was not enough to make Xu Ming excited; after all, after Xu Ming went to the Holy Emperor-level universe, he was already rich!

However, the treasure on the fourth floor really shocked Xu Ming!

Tens of millions of low-grade Originium stones, this is nothing! However, tens of thousands of tenth-order puppet warriors are precious—you must know that the tenth-order great servant given to Xu Ming by Saint Hemo is only a thousand; and the puppet The value of a warrior is equivalent to that of a servant of the same rank!

“Take it! Take it! Take it!”

In the first three floors, when Xu Ming collected treasures, he could still maintain a little restraint. But on the fourth floor, Xu Ming couldn't wait to put it away, regardless of his image!

Of course, although Xu Ming doesn't care about his image, he is much better than the inheritance tower with “no principles”! There is no one else in this inheritance tower, so Xu Ming is not afraid of being laughed at by anyone.

After collecting the treasures on the fourth floor, Xu Ming's eyes were already a little hot: “The treasures on the fifth floor will continue to be worth ten times the value of the fourth floor?”

Soon, Xu Ming entered the fifth floor.

However, Xu Ming discovered that the treasures on the fifth floor were not ten times as valuable as those on the fourth floor. It's...a hundred times more valuable! !

“Hundreds of millions of mid-grade power source stones!”

“Tens of millions of Tier 12 runes!”

“Hundreds of thousands of eleventh-order puppet warriors!”

Just crazy!

“The Eternal Great Venerable is too rich!” Xu Ming suddenly realized that this treasure on his body was really nothing compared to the Eternal Great Venerable.

Of course, the more treasures there are, the more doubts Xu Ming has in his heart: “Inheritance Tower, why did you give me so many treasures for no reason?”

Because of Xu Ming's strength? —Xu Ming is a little unbelievable! No matter how strong your own strength is, what does it matter to the Eternal Hall and the Eternal Great Venerable who has been away for a long time?

Or is it because the inheritance tower is “disordered”? – Xu Ming is even more unbelievable! The inheritance tower left by the Eternal Great Venerable has experienced the reincarnation of the universe and is immortal, how could it be possible to leave such a low-level mistake?

For a while, he couldn't understand the reason, and Xu Ming didn't think about it too much: “Take it all and talk about it!”

#### Chapter 2224: Twenty-Five Level Hanging Point

For the treasures on the fifth floor, Xu Ming was rude and accepted them all!

For the treasures on the sixth floor, Xu Ming was still rude, and continued to accept all the treasures!

The treasures on the seventh floor are still collected according to the order!

...

“The Eternal Great Venerable is really too rich!”

The further up he went, the more shocked Xu Ming became.

Originally, Xu Ming thought that although the Eternal Great Venerable was a world breaker, he was only a weak reincarnation-level powerhouse after all; he was definitely incomparable with those powerhouses of the Eternal-level universe and the Holy Emperor-level universe! Even, the wealth of the Eternal Great Venerable may not be as good as that of a holy envoy of the Holy Emperor-level universe!

And now, Xu Ming found out that he was too naive! The existence of the “Boundary Breaker” level is not something that can be figured out at the level of the Great Senior; the wealth of the Eternal Great Senior is not comparable to that of Saint Mo and his like!

On the fifth floor, Xu Ming harvested hundreds of millions of middle-grade Originium of Power! And other treasures of higher value!

On the sixth floor, Xu Ming harvested billions of high-grade Originium Stones! There are other treasures of higher value!

On the seventh floor, tens of billions of top-quality Originium Stones were harvested! Of course, there are more treasures with higher value!

Yes!

Tens of billions!

The ultimate power source stone!

You must know that even the Holy Emperor-level cosmos He Mo is only worth millions of Origin Stones! But now, Xu Ming has obtained tens of billions of Origin Stones of the best power in the inheritance tower left by the Eternal Great Venerable! – This is a ten thousand times difference!

“I’m afraid... the world-breakers of the Holy Emperor-level universe are not necessarily richer than the Eternal Great Venerable, right?” Xu Ming has already guessed that even in the sea of cosmos, the Eternal Great Venerable may be the most powerful among the world-breakers. that level!

and...

The inheritance tower has nine floors!

Xu Ming is now only on the seventh floor! Then, what about the eighth and ninth floors?

With anticipation, Xu Ming stepped into the eighth floor.

“In the sea of cosmos, is there anything that is more precious than the best source of power?”

At least in Xu Ming’s vision, he had never seen such a treasure.

On the eighth floor of the inheritance tower, there are no bookshelves and no world rings to surround Xu Ming. There are only tiny black dots floating in the space of the eighth floor.

These tiny black dots are incomparably tiny!

It’s an indescribably tiny size!

It was countless times smaller than the tiniest particles on Xu Ming’s body!

Even Xu Ming could hardly find these black particles!

“What are these?” Xu Ming was puzzled. However, Xu Ming could vaguely feel that these innumerable, extremely tiny black dots were probably much more precious than the top-quality Originium of Power!

at this time-

Xiaohang, who hadn’t spoken in Xu Ming’s mind for a long time, suddenly said, “Found a treasure that can be exchanged for level 25 hanging points!”

Level 25 hanging point?

Xu Ming was startled.

The 23-level hanging point is exchanged with “Cosmic Origin·Void”.

The 24-level hanging point is exchanged with “Cosmic Origin·True”.

Before, Xu Ming had been thinking about how to get a level 25 hanging point, but he never got it. Even the top-quality Originium of Power cannot be exchanged for level 25 hanging points.

And now, treasures that can be exchanged for level 25 hanging points have finally appeared!

You know, the small hanging has a function, but you must use a level 25 hanging point to enable it! That is – take the universe!

It's just... what are these extremely tiny black dots?

When Xu Ming was in doubt, a voice suddenly sounded in the space on the eighth floor: “These black dots are the heart of the universe!”

Heart of the universe?

“Eternal Great Venerable?” Xu Ming couldn't help asking.

“Every heart of the universe can have a big bang and explode into a nascent universe!”

The primary universe is the universe in the “first universe age”. Like Xu Ming's hometown universe, it is still in the “fifth universe era”.

Xu Ming suddenly realized: “So...the value of every heart of the universe is worth the universe of your hometown?”

What value is this?

Xu Ming has no idea!

The hometown universe that gave birth to countless great masters and countless heavenly masters seems to be the value of a black spot? And on the eighth floor of this inheritance tower, there are countless billions of black spots! That value is comparable to... countless billions of home universes?

Xu Ming was a little confused!

Really confused!

He feels that at this moment, his values have been subverted!

Previously, when Xu Ming was on the seventh floor, although he obtained tens of billions of top-quality Originium Stones, in his concept, he always felt that his home universe was extremely precious! Even tens of billions of top-quality power source stones are not as precious as the home universe!

But now, Xu Ming suddenly understood one thing – his hometown, the universe, is really not worth mentioning in the universe!

“No!” The voice on the eighth floor continued to sound To be precise, every heart of the universe is more valuable than the home universe! Because... our home universe has been plundered, and the resources are already very poor! ”

“Uh...” Xu Ming was even more shocked.

“Put away all the hearts of the universe! It doesn't matter if you put them in the universe or elsewhere, you can! I know, you must have a way!”

“Little Hang!” Xu Ming shouted in his heart, “After converting the Heart of the Universe to level 25, can you still transfer it back?”

“Yes!” Xiao Hang replied.

Xu Ming couldn't help but asked the surrounding space: “Eternal Great Venerable, why did you give me so much?”

This is what Xu Ming can't figure out the most! – He came to the Eternal Hall for the first time, and he had no interaction with the Eternal Great Venerable before; but why did the Eternal Great Venerable give him so much?

Xu Ming believed that, let alone for him, even for the “Boundary Breaker”, these treasures given by the Eternal Great Venerable, especially these hearts of the universe on the eighth floor, are incalculable!

After all... any reincarnation-level universe may be born with a world breaker! If Xu Ming caused the Big Bang to occur in all of these universes, I don't know how many “Boundary Breakers” level existences would be born!

Eternal Great Venerable, why did you give Xu Ming so many treasures?

What kind of existence is the world breaker?

“Put away the heart of the universe first... As for your doubts, you will understand after entering the ninth floor!”

ninth floor?

Xu Ming did not hesitate, and directly asked Xiaohang to exchange all the Hearts of the Universe for level 25 hanging points.

Then, he walked to the ninth floor to find the answer.

...

In the space on the ninth floor of the inheritance tower, there is an empty space without any treasures. Yes, it's just an extremely ordinary standing mirror.

Chapter 2225: I Am You!

In the space on the ninth floor of the inheritance tower, there is an empty space without any treasures. Yes, it's just an extremely ordinary standing mirror.

Xu Ming looked around the empty space on the ninth floor for a week. After confirming that there was nothing, he unknowingly walked towards the mirror and stood in front of the mirror. In the mirror, Xu Ming's figure is reflected.

Is this the ninth floor?

“Eternal Great Venerable?” Xu Ming couldn’t help shouting.

“Didn’t you already see me?” In the ninth floor space, the voice of the Eternal Great Venerable sounded.

“See you?” Xu Ming was full of confusion – when did he see the Eternal Great Venerable?

Xu Ming couldn’t help but looked around the space on the ninth floor for a week, but it was still empty; finally, Xu Ming’s eyes fell back to the mirror.

“Aren’t you looking at me?” Eternal Great Venerable’s voice sounded again.

watching?

Xu Ming couldn’t help staring blankly at the mirror in front of him – Eternal Great Reverend, could it be a mirror?

how is this possible!

This is clearly a very, very ordinary mirror!

Gradually, Xu Ming’s eyes fell on himself in the mirror.

Suddenly, Xu Ming was startled, and a look of incomparable horror flashed in his eyes.

“The whole universe, even the sea of cosmos, knows that I am the Eternal Great Venerable!” The eternal Great Venerable’s voice continued to sound, “However, no one knows what my real name is! Xu Ming! – I am not calling you. , but to tell you, my real name is... Xu Ming!”

Eternal Lord...

His real name is Xu Ming! ?

The horror in Xu Ming's eyes was even stronger, but he had already vaguely guessed something.

“Yes! I have fallen!” Eternal Great Venerable said lightly, “Then, it becomes you! So... I am you! Or, to be more precise, I am you in the past! And you are now me!”

Without waiting for Xu Ming to say anything, the Eternal Great Venerable said again: “Xu Ming, because I am you, I know everything about you! You... are not from this world! Your hometown, the universe, is not here!— Endless Continent is not your hometown! Divine Realm is not your hometown! Endless Chaos is not your hometown! Anarchy is not your hometown! The real universe is also not your hometown! Even, even in the cosmos sea , can't find your hometown...”

Xu Ming was horrified again!

He is a traveler! -This should be his biggest secret! No one knew that he came from modern society, but was struck by lightning to the Endless Continent.

And Xu Ming also tried to find his real “hometown” in the past. However, Xu Ming's endless incarnations are spread all over the virtual universe, and there is no news about his hometown “Earth”.

As for the real universe, it is even more impossible for an “earth” to exist!

Originally, Xu Ming also planned to wait until the sea of cosmos, and then find a way to find his hometown “Earth” – although, after Xu Ming crossed, hundreds of millions of years have passed; such a long time, the earth is as small as dust The planet, I am afraid it is very likely that it no longer exists! However, Xu Ming still wants to find the earth.

This is a thought!

“I also know...” Eternal Great Venerable continued, “The ‘little hanging’ on your body!”

“Hey—” This time, Xu Ming's horror was even worse!

Small hang!

It is also Xu Ming's biggest secret!

It is Xu Ming's invincible reliance!

And the Eternal Great Venerable, even knows?

Of course, the Eternal Great Senior should really know, after all... Eternal Great Sovereign is Xu Ming!

“Could it be...” Xu Ming couldn't help but guess in his heart, “Could it be that the Eternal Great Senior also relied on Xiaohang to embark on the road of invincibility? Even invincible in the sea of cosmos?”

Xu Ming was a bit strange at first. How could the Eternal Great Senior, the world breaker who walked out of the weak universe, possess so many treasures? Even, it is much stronger than other world breakers in the sea of cosmos! Now Xu Ming understands a little bit – if the Eternal Great Venerable also has the help of Xiaohang, then everything can be explained!

The power of the small hanging, who knows who uses it! Xu Ming has a deep understanding of it!

However, at this time, there is another question – since the Eternal Great Venerable is so tyrannical and has little help, then how did the Eternal Great Venerable fall? How can it be reincarnated and become the self in this life?

“I think you have already guessed a lot, and have a lot of doubts!” The voice of the Eternal Great Venerable was extremely calm, “Although you are me, you have not yet become a world breaker, so many things, I can't follow you Say! After all... this involves the secrets of the world breaker level, as well as the restrictions of the supreme rules!”

Under the restrictions of the supreme rules, the secrets of the world-breaker level cannot be known to those whose realm is not at the world-breaker level. This point, Xu Ming had already heard from the Holy Envoy He Mo when he was in the Holy Emperor-level universe. pass.

So now, Xu Ming is not surprised to hear the Eternal Great Venerable say so.

“However, the doubts in your heart are not really important, it’s just a matter of solving it earlier or later!” Eternal Great Venerable said lightly When you reach the level of a world breaker, you will Naturally, the memory of the past life will be awakened! By then, you will know everything! ”

Breakers...

Xu Ming is confident that he will be able to achieve it soon!

“But don’t be in a hurry! Don’t try to attack the world breaker level at will!” Eternal Great Senior seemed to see through Xu Ming’s mind, “I, that is, you in my previous life, just because I was too eager to attack the world breaker level. I have regrets...”

The Eternal Great Venerable spoke, his voice getting softer and softer, even Xu Ming couldn’t hear any sound.

“What’s going on?” Xu Ming was a little puzzled.

“Haha! I can’t go on!” At this time, the consciousness of the Eternal Great Venerable left in the inheritance tower, said with a smile, “Under the interference of the supreme rules, there are some things, even if I can say it, you can’t say it. Way to hear!”

The supreme rule is invisible and invisible, but it is everywhere.

“Okay! As long as you remember what I said! – Stay at the Great Senior level as much as possible, and after you have accumulated enough height, at least you can kill the World Breaker at the Great Senior Realm by leaps and bounds, and then consider breaking through to The realm of the world breaker!” The Eternal Great Venerable said solemnly, “As for the rest, I don’t have much to say! I have already left it to you who should be left to you in this life! – There are so many treasures, more So many level 25 hanging points, I think, are enough to make you roam in the universe! It’s only a matter of time before you awaken your past life memories!”

“Yeah!” Xu Ming nodded slightly.

The treasure he got in the inheritance tower is indeed enough to make him traverse the sea of cosmos!

“Okay! That’s all! I’m afraid that the consciousness that I have left to this day will be forcibly erased by the supreme rules! Before that, I have one last thing for you, which is what you cultivated in your previous life. The supreme power method...”

Chapter 2226: Sojourner

The endless deep and mysterious universe sea.

“It’s in the dark void ahead!” There was anticipation in the eyes of Great Senior Long Ye, and the excitement of revenge.

In front of him is a dark and empty space. However, Great Master Changye knows that in this darkness and nothingness, there is an extremely distorted space-time, and there is a powerful universe hidden in it.

The Demon Court Universe has evolved over 5,000 Universe Ages so far!

More than 5,000 cosmic eras, what a long time! You must know that the lifespan of a general reincarnation-level universe is only about a hundred universe eras, which is less than a fraction of the years experienced by the Demon Court universe; and Xu Ming’s home universe has only evolved to the fifth universe era!

The Demon Court Universe is far more mature than Xu Ming’s hometown Universe!

The number of powerhouses in the Demon Court universe is simply not comparable to Xu Ming’s home universe.

When Chang Ye Da Zun approached this dark void, there was a mysterious gravitational force in the space, which acted on him. The Great Senior of Changye did not resist, and let the gravitational force drag him forward.

With a violent change in time and space, the Great Master Changye was already in the interior of the Demon Court universe.

The powerful space-time suppression is always admonishing Chang Ye Da Zun that after arriving in the Demon Court Universe, he must not act rashly.

“What a strong cosmic will!” Chang Ye Da Zun couldn’t help but sigh. It is also the will of the universe. The will of the Demon Court Universe is much stronger than the will of the home universe. “Why am I not born in the Demon Court Universe? Otherwise, my achievements will definitely not stop there!”

In fact, Chang Ye Da Zun has always complained about his origin in his heart, but there is nothing he can do. How he hoped that he was not born in the reincarnation-level universe, but was born in the transcendence-level universe! Of course, it would be even better if it was an Eternal Universe!

“Outsiders!” At this moment, a ripple appeared in the space in front of Chang Ye Da Zun. A strong man with a long blade walked out of the ripples in the space; he looked at the Great Master Changye indifferently, and asked, “How long do you want to stay when you come to my Demon Court Universe?”

“Magic Court Guard!” It was obviously not the first time for Chang Ye to come here. He said respectfully, “I’ll be leaving soon!”

Mo Tingwei was expressionless and said indifferently: “If it is not more than one epoch, hand in a fragment of the power source stone! If it exceeds this time, you will be expelled by the will of the universe!”

“Do not exceed! Do not exceed!” Great Senior Chang Ye said while handing over a piece of power source stone.

Mo Tingwei put away the fragments of the power source stone without expression, then turned and walked into the space ripples.

Great Senior Chang Ye couldn’t help but sigh again: “The detachment-level universe is different. If you stay here, you must pay for treasures!”

You must know that if you stay for no more than one era, you must pay a piece of power source stone; then, what if you stay here for a cosmic era? A cosmic era, it is not known how many billions of epochs!

And in the sea of cosmos, there are actually many great masters, and those who have to stay in the Demon Court universe for a long time are those great masters whose home universe has been completely destroyed!

You must know that once the home universe is shattered, then the creatures in the entire universe will also be wiped out; even if the powerful Great Senior escapes to the sea of cosmos, he will still die! The only way to survive is to live in another universe before the home universe is destroyed!

Sojourning to other universes is no easy task! In the sea of cosmos, there are very few universes with the will that are willing to accept “sovereigns”; and the Demon Court universe happens to be a rare universe that is willing to accept sojourners! Therefore, many great masters have come to the Demon Court Universe in order to survive!

Of course, it is not free to want to be a sojourner in the Demon Court Universe! In every era of the universe, those sojourners need to hand in a lot of treasures to the will of the universe, otherwise they will be expelled; in order to survive, many sojourners are actually working for the Demon Court Universe!

There are many great masters who venture in the sea of cosmos at all costs, in fact, to pay “rent” to the universe of Demon Court. And if at any time, they can’t pay the “rent”, that is their death.

In fact, Chang Ye Da Zun has already thought about it for a long time. If the home universe is destroyed, he will only be able to live in the Demon Court universe in the future. Therefore, he would be particularly envious of those strong men who were born in the Demon Court universe; because the aborigines here do not need to “pay rent” like their outsiders.

“Humph!” Great Senior Chang Ye had a cold look in his eyes, “I think... in those sojourn worlds, there are many strong people who would be interested in Xu Ming, right?”

In the Demon Court universe, there are many sojourn worlds. Most of the people who live in the alien world are aliens.

And now, the plan of the Great Master of the Night is to find those sojourners to deal with Xu Ming. After all, Xu Ming’s top-quality Originium of Power has an almost fatal attraction to any sojourner.

...

Chang Ye Da Zun guessed right.

He soon found a sojourner who was willing to take action against Xu Ming, who was a “thirteenth-order” powerhouse of the Universe Sea, the Heavenly Demon Lord.

The homeworld of the Heavenly Demon Lord has long since been completely destroyed. He took the great masters of his home universe and settled in the Demon Court universe; now, his own strength and the “compatriots” he brought have grown a lot.

“Aren’t you kidding me? Hundreds of top-quality power source stones!?” The Lord of Heavenly Demon looked at the Great Master Changye in disbelief, “And in your small universe that only evolved into the fifth universe era?”

“Don’t dare!” Great Senior Long Ye continued, “He should have passed some examinations of the Holy Emperor universe, so he unexpectedly obtained so many top-quality Origin Stones! His own strength is actually only ‘Eleven’ It’s just a step!”

“There are really so many top-quality Originium Stones?” Holy Master Tianmo couldn’t help but ask again.

Hundreds of top-quality Originium Stones are enough for him, and the great masters who are with him, to pay the rent for dozens of cosmos eras in the Demon Court Universe! If you can really get so many top-quality power source stones, the Holy Master of the Demons and the others will not have to go to the cosmos sea to risk their lives for a long time in the future!

Of course, the premise is that Chang Ye Da Zun did not lie to them!

“I saw there are hundreds of top-quality Originium Stones!” The Great Master Changye vowed, “Maybe, he has more top-quality Originium stones, or other treasures. Woolen cloth!”

“What if you lied to us?” The Lord of Heavenly Demon asked coldly.

“I’ll go with you! Besides, without me leading the way, I’m afraid you wouldn’t be able to enter my home universe, right?” The Great Master Changye said, “If I lie to you, you will kill me on the spot!”

“Yes! Without you to lead the way, we really can’t forcefully break into your home universe!” The Lord of Heavenly Demon nodded.

Generally speaking, the will of the universe will exclude outsiders.

And if you want to enter the interior of a universe, the first method is to have a strong strength like the Temple of Disorder, and can forcibly establish a transmission channel to the interior of each universe; the second method is to have ” “Aboriginal people” led the way, through the outer wall of the universe, which is countless times more complicated than the maze, and then entered the universe from the most fragile part of the cosmic membrane wall.

As long as you can enter the universe, then, in the universe, as long as you don’t do too much, you will generally not be forcibly expelled by the will of the universe.

“Then take us to find those hundreds of top-quality power source stones!” The Lord of Heavenly Demon grinned. Around him, more than a dozen Great Seniors soon appeared, all of them of the eleventh and twelfth ranks; the weaker ones were impossible to live to the present, “I hope you didn’t lie to me! Otherwise... I will let you Know, what an extravagant desire to die!”

“Don’t dare! Don’t dare!” Chang Ye Da Zun agreed.

At the same time, in the depths of his eyes, the light of revenge flashed: “Xu Ming, Xu Ming, even if you have the means, can you have more means than the super powerhouses in the universe? This time, I will see how you die!”

Chapter 2227: Betrayed Home Universe

Invading a different universe... The first big problem is how to enter a universe.

You must know that the mighty Great Venerable in the cosmos sea can forcibly break the cosmic membrane wall of the reincarnation-level universe; however, forcibly breaking the cosmic membrane wall is undoubtedly an act that provokes the will of the universe. And provoking the will of the universe... Even the existence of the world breaker level would not dare to provoke the will of the reincarnation level universe at will.

The universe has the responsibility of nurturing life.

The will of the universe is protected by the supreme rules and cannot be provoked at will.

Therefore, if you want to enter a universe, the usual way is to find a native to lead the way.

For example, like the current Chang Ye Da Zun.

The Great Master of Changye, he went out from the most vulnerable position of the cosmic membrane wall; therefore, it can be said that he is familiar with the path of his home universe. Under his leadership, more than ten Great Venerables, including the Lord of Demons, soon entered the real universe.

“Your hometown universe, as you said, before that Xu Ming appeared, you were the most powerful Great Venerable in the entire universe?” The Lord of Heavenly Demon looked at Great Venerable Changye and asked.

“Absolutely!” Great Senior Chang Ye said without hesitation, “In terms of his own strength, and in the entire universe, no one is my opponent! After Xu Ming was born, he was only slightly better than me!”

“Yeah!” The Lord of Heavenly Demon nodded slightly and asked no more, “As far as your reincarnation-level universe has evolved to the fifth universe era, it is indeed impossible to be strong! There can be one or two ‘eleventh-level universes’. ‘The Great Senior of the level is already quite difficult! But...I heard you say before, there are two world breakers in your universe?’”

Speaking of which, the Lord of Heavenly Demon couldn't help but look surprised – you know, world breakers are not so easy to appear! In some reincarnation-level universes, until they are completely destroyed, there may not be a world breaker!

In less than five cosmic eras, there have been two world breakers? Such a universe, in the sea of cosmos, I am afraid that it is rare!

“Yes!” Chang Ye Da Zun said, “In our universe, their names are: Kun Peng Da Zun and Eternal Da Zun!”

The World Breaker and the Great Senior are actually two completely different levels.

But in the real universe, because the number of “Boundary Breakers” is too small, there are no two great powers at the world breaker level. . But in fact, in the sea of cosmos, it is not called this way.

“Kunpeng Great Senior? Eternal Great Sovereign?” The Holy Master Tianmo thought for a while, and said, “I haven’t heard of it! Maybe they changed their titles after entering the Universe Sea!”

Entering the sea of cosmos and changing a new title is normal.

After all, in the sea of cosmos, you don’t know what kind of enemies you will encounter; if you enter the sea of cosmos as a real identity, you may inadvertently bring trouble to your home universe. In order to avoid this, many great masters will change their names after entering the sea of cosmos, so that it is not easy for others to find their home universe; and this can be regarded as a kind of protection for the home universe!

And someone like Chang Ye Da Zun who betrayed his hometown universe is definitely despised in the universe sea. But now, for the sake of revenge, Chang Ye Da Zun has nothing to do with his face!

“Humph! What does the universe in my hometown have to do with me? All I need is revenge!” Great Master Chang Ye thought fiercely in his heart.

At this time, the Holy Master Tianmo said again: “At that time, after killing that Xu Ming and robbing Xu Ming’s treasure, you can take a look and see if you can get the treasure left by the two world breakers or inherited!”

“The place where Xu Ming is now should be the inheritance of one of the world breakers!” The Great Master Changye returned to the real universe, and naturally there was a way to find out Xu Ming’s location.

“Oh? That’s even better! It happens to kill two birds with one stone!” The Lord of Heavenly Demon laughed, “But... to prevent extravagant branches, we still quietly lurked there!”

“Yes!” Great Master Chang Ye said, “Otherwise, if Xu Ming was scared away and he escaped to the Sea of Cosmic Universe, it would add a lot of trouble!”

Under the leadership of the Great Master Changye, more than a dozen great masters, including the Lord of Heavenly Demons, soon quietly came to the outside of the Eternal Hall. The great powers stood in all directions, enclosing the Eternal Temple in the middle.

“Xu Ming! Come out quickly and die!” The Great Master Chang Ye shouted loudly, “Eternal Palace Master! I know Xu Ming is in the Eternal Palace, so hand over Xu Ming as soon as possible to avoid trouble!”

The shout of the Great Master Changye resounded throughout the Eternal Hall.

The Eternal Hall Master and other powerful people were pondering when Xu Ming would be able to come out of the inheritance tower, when they suddenly heard the shouts of the Great Master Changye.

“Long Ye Da Zun?”

“What’s the situation? Didn’t the Great Master Changye escape to the Universe Sea after being killed by Xu Ming? How dare you come back?”

“It doesn’t matter if you come back, but also took the initiative to find the Eternal Palace, to find Xu Ming? Could it be that you can’t find death?”

With doubts, the great powers of the Eternal Hall all looked outside. At this look, the faces of the Eternal Hall Master and others all changed greatly—they naturally saw that the Demon Lord and others were more than ten. An unfamiliar great man. Moreover, these Great Seniors unabashedly exude a tyrannical aura; obviously, these are the powerhouses from the Universe Sea!

“Cosmic Sea powerhouse?” The face of the Eternal Hall Master suddenly changed greatly – he has been to the Cosmos Sea, and he naturally knows how terrifying those Great Venerables of the Cosmos Sea are!

“Long Ye Da Zun!” The Eternal Palace Master couldn’t help scolding, “You actually brought back the Da Zun of the cosmos sea? Are you trying to destroy your hometown universe!?”

“Hometown universe?” The Great Master Changye laughed suddenly, “For you, it is indeed the hometown universe; but for me, if I don’t get rid of Xu Ming, I can’t go home! In order to go home, I can’t help it. Ah!—Xu Ming is in your Eternal Hall, right? Eternal Hall Master, I advise you, hurry

up and hand over Xu Ming, so as not to cause trouble! I think you should know the power of the Great Master of the Universe Sea. , don't know how to live or die!"

"I can't hand over Xu Ming for the time being!" The Eternal Hall Master said the truth. Xu Ming is now in the inheritance tower, even the Eternal Palace Master can't get Xu Ming out!

However, the Eternal Hall Master is not very worried about these powerhouses brought back by the Great Senior of the Night – he has seen Xu Ming's servants of the Great Senior, and he naturally understands that with the dozen or so rabble that the Great Senior of the Changye brought back, Not enough to threaten Xu Ming. The Eternal Palace Master also wanted to hand over Xu Ming and let Xu Ming handle his own grievances; but the problem was that he really couldn't hand it over!

However, the words of the Eternal Hall Master have another meaning when heard by the Great Senior of Changye.

"What, Eternal Palace Master, listen to what you mean, your Eternal Palace, do you want to protect Xu Ming?" Great Master Chang Ye grinned, "Then let's see if your Eternal Palace has the strength to withstand the power of the universe sea. Angry!"

Chapter 2228: Gu Hanmo Arrives

real universe.

The edge of the eternal realm.

Gu Hanmo's figure quickly crossed this place.

Shockingly, as Gu Hanmo moved forward, her aura continued to soar—you must know that in order to avoid being pursued, Gu Hanmo turned into hundreds of millions, scattered throughout the real universe and the virtual universe; and Gu Hanmo's power was also Scattered over the billions of incarnations.

Now that Xu Ming is invincible in the real universe, Gu Hanmo naturally does not need to hide; her billions of incarnations naturally begin to dissipate. When the incarnation dissipated, there was a steady stream of power flowing back to Gu Hanmo's deity, making Gu Hanmo's momentum soar.

When Gu Hanmo entered the Eternal Realm, her breath had returned to the level of the Great Senior.

However, incarnating hundreds of millions, after all, caused Gu Hanmo to lose a lot of power; moreover, when Gu Hanmo was reincarnated in the past, he also lost a lot of power. Now, although she is also at the level of the Great Senior, she is far worse than the peak period; at best, in the real universe, she is only the strength of an ordinary Great Senior, which is equivalent to the “ninth order” of the universe sea. level.

Although the strength is not as strong as the previous life, Gu Hanmo is not worried. After all, when Xu Ming was projecting the real universe, he clearly said that he was invincible to the real universe, so Gu Hanmo didn't need to worry, he could just go directly to the Eternal Palace, there would be no danger.

Gu Hanmo naturally had no doubts about Xu Ming's words.

She is not worried that someone will pretend to be Xu Ming. After all, no one in the real universe can use the method of projecting the real universe. A few giants will not be idle and pay a huge price to do this kind of thing!

Therefore, when Gu Hanmo saw Xu Ming projecting the real universe, he could be sure that it was definitely the real Xu Ming! No one can impersonate!

Gu Hanmo couldn't hide his excitement when he thought that he would be able to meet Xu Ming again when he arrived at the Eternal Hall, and his speed was a little faster.

...

At this time, outside the Eternal Hall, more than a dozen cosmic sea powerhouses brought by Changye Great Senior are frantically besieging the Eternal Hall.

boom! boom! boom! boom! ...

However, no matter how besieged by more than a dozen cosmic sea powerhouses such as the Lord of the Demons, the guard formation of the Eternal Hall remained unmoved, and there was no sign of being breached at all.

“This...” Great Senior Chang Ye did not expect that the Eternal Palace was so difficult to break; after all, Great Senior Chang Ye had never attacked Eternal Palace head-on.

“As expected of the power left by the world breaker!” The Holy Master Tianmo frowned, “Even if the world breaker called ‘Eternal Great Venerable’ has already left this universe; however, he left behind It’s not so easy to break through the power nest!”

However, the Lord of Heavenly Demon just felt a little difficult, but he was not discouraged at all. After all, it is not the first time they have peeped at the treasures left by the world breaker, the Lord of Demons!

“Eternal Palace Master, right?” The Lord of Heavenly Demon looked at the Eternal Palace and sneered, “I don’t know how strong your Eternal Palace’s formation is, but you should always understand the principle of ‘drops of water pierced through stones, and sawed wood broken by ropes’. Right? For us, it is only a matter of time to break through your Eternal Palace; as long as we are patient enough, we can even grind through your Eternal Palace! Now, there are two choices before you—the first First, you will remove the defense of the Eternal Palace and hand over Xu Ming; after we get what we want, we will naturally leave, and will not hurt your Eternal Palace! Second, that is to wait I stormed in; but at that time, there is no need for your Eternal Palace to continue to exist!”

The threat of the Lord of Demons is very strong. However, he seems to have given the Eternal Palace two choices; but in fact, no matter how the Eternal Palace is chosen, the Holy Lord of the Demons will not show mercy to the Eternal Palace.

After all, what the Lord of Heavenly Demons is interested in is not only the treasures on Xu Ming’s body; at the same time, there are also the inheritance and treasures left by the world breaker!

The reason why the Lord of Heavenly Demon said this was just to trick the Eternal Hall to open the “city gate”.

Of course, the Eternal Palace Master will not fail to see through this little trick. However, the Eternal Hall Master is very confident about the guard formation left by the Eternal Great Venerable: “If you have the ability, you can break our Eternal Hall and talk about it!”

The Eternal Palace Master said indifferently. He can clearly remember that the Eternal Great Venerable once said that the guard formation of the Eternal Hall, even if the general world breaker

comes, can't break it – even the world breaker can't break through, then, change it to the Great Venerable level, Even if there is another way to defy the sky, it is impossible to break through!

Therefore, from the beginning to the end, in the eyes of the Eternal Hall Master, more than a dozen cosmic sea powerhouses such as the Heavenly Demon Holy Master seemed to be shaking the tree there. Even if it took them ten cosmic eras, it would be impossible for them to break through the Eternal Hall.

Of course Eternal Palace Master knows that these outsiders from the universe sea cannot attack for so long.

“Now Xu Ming is still in the inheritance tower. When he comes out, let him solve it himself!” The Eternal Hall Master knows Xu Ming's strength! Not to mention, it is absolutely easy to deal with the crowd of a dozen or so rabble of Heavenly Demon Holy Master. “When Xu Ming comes out, it will be time for these outsiders to regret it! And Great Master Changye, this time should also be doomed!”

In the eyes of the Eternal Hall Master, after the Great Senior Changye fled to the sea of cosmos and never returned to his hometown, it would be difficult for Xu Ming to kill him. !

“Do your own fault, don't live!” The Eternal Palace Master showed no mercy at all—he and Chang Ye Da Zun were both one of the three giants, but they didn't have any friendship with each other, and they were even thinking about how Kill each other.

Great Senior Chang Ye didn't even know that he was in danger. He also thought that with the powerhouse of the Universe Sea, he would be invincible; beheading Xu Ming and destroying the Eternal Palace would be a no-brainer!

In the mind of the Great Master Changye, he has even imagined the scene of his own \*\*\*\*\* of the true universe in the future.

“Eternal Palace Master, you really don't hand over Xu Ming? You really have to court death!?” Great Master Chang Ye said coldly, “Then don't blame me for not thinking about the past!”

The Great Lord of the Night, the Lord of the Demons, etc., continued to attack the Eternal Hall. Although they don't know when they will be able to break through, they firmly believe in the truth that “drops of water penetrate the stone, and the rope saw and wood break”!

However, no matter how hard they tried, the guard formation of the Eternal Hall showed no signs of being broken.

Just as Great Master Changye and Holy Master Tianmo were pondering whether to attack the Eternal Hall in a different way, they saw a figure coming towards the Eternal Hall. And this figure is... Gu Hanmo!

## Chapter 2229: Intersection

Xu Ming in the inheritance tower did not know at all that Gu Hanmo had come to the Eternal Hall.

At this time, Xu Ming was accepting the Eternal Great Venerable, that is, the inheritance left by his previous life.

“Eternal Great Venerable is taking a completely different cultivation route from Kunpeng Great Venerable!” Xu Ming has not awakened the memory of his previous life, so he cannot regard Everlasting Great Venerable as himself; in his consciousness, he is more accustomed to Eternal Great Venerable as “other people”.

“However...I can understand what the Great Senior Kunpeng said at the beginning!” Xu Ming couldn’t help but remember what the Great Senior Kunpeng said in the inheritance place of the Great Senior Kunpeng.

At that time, Xu Ming obviously went to the inheritance place of Kunpeng Dazun for the first time, but Kunpeng Dazun said that this was the “second time” for Xu Ming. At that time, Xu Ming didn’t understand the meaning of Kunpeng’s words; now in retrospect, Xu Ming suddenly understood: “I’m afraid... I have long recognized the image left by Kunpeng, and I am the reincarnation of the Eternal. However, he didn’t break it directly!”

As for how Kunpeng Dazun recognized it, Xu Ming has no idea! That is the method of the world breaker level, which is incredible.

Xu Ming continued to immerse himself in the inheritance left by the Eternal Great Venerable.

“Kunpeng Dazun’s cultivation route is the limit of exploring the divine body! Every particle of the divine body is developed into a ‘particle universe’, and the particle universe is constantly expanding! And the eternal Dazun’s cultivation route...” Xu Ming said in his eyes. With a stunning color, “it is to explore the limit of the mind!”

What the Eternal Great Venerable cultivates is the “Heart Universe”!

It is said that when the Eternal Great Venerable just broke through to become a world breaker, his spiritual will is so tyrannical that he can almost compete with the cosmic will of his home universe! Against the will of the universe? What a terrifying power this is! ?

Later, the Eternal Great Venerable left his home universe and entered the sea of cosmos to continue his cultivation; no one in his home universe knew how tyrannical his spiritual will was.

“Eternal Great Venerable’s cultivation method is called “Eternal Realm”!” Xu Ming pondered the essence of this practice, “The Eternal Realm is actually the sea of the universe opened up by the power of the mind!”

Xu Ming’s previous self-created “I Am the Universe” exercise was to use the divine body as the “real universe” and the mind world as the “virtual universe”, and finally cultivate to the same scale as the universe in his hometown! In Xu Ming’s vision, when his practice is complete, he will be able to rival the entire universe!

Xu Ming’s idea of creating this exercise is not wrong, but it is limited by “vision”.

At that time, when Xu Ming created this exercise, his strength was too weak, he thought that the universe in his hometown was everything, and he didn’t know or dare to imagine the existence of the “cosmic sea”! Therefore, the pattern of the practice method “I am for the universe” is still a little small.

However, the Eternal Great Venerable, that is, Xu Ming’s previous life, obviously knew the existence of the universe sea before creating “Eternal World”! The Eternal Great Venerable has bigger ambitions and a bigger pattern. He directly takes his “heart world” as the foundation and wants to open up the heart world into a sea of cosmos!

What a pattern this is!

The heart world is opened up into the universe sea, and then a large universe that is comparable to the hometown universe, or even stronger than the hometown universe!

In the vision of “The Eternal Realm”, when the cultivation reaches the final stage, the world of mind should be directly comparable to the sea of the universe, and the “supreme will” will be held head-on!

“But... I failed!” The Eternal Great Venerable sighed, “I’m too self-righteous!”

“Huh?” Xu Ming, who was accepting the inheritance, couldn’t help but wonder, isn’t the idea of “Eternal World” a good practice? Isn’t the layout great? What’s the problem?

The residual will of the Eternal Great Venerable continued: “I ignored the influence of the Supreme Rule, and I found nothing, but it was everywhere! In the early days of my practice of “Eternal World”, the influence of the Supreme Rule was not large; but , when my strength was invincible to all the world breakers in the universe, the influence of the supreme rule finally showed...”

Eternal Great Venerable... Once invincible in the sea of cosmos!

But in the end, he still couldn’t escape the shackles set by the supreme rules.

“I instead hope that when I first created the “Eternal World” exercise, the Supreme Rule warned me! In that case, I would definitely not continue to practice in this direction; after all, everyone knows that the Supreme Rule , no provocation!” The Eternal Great Venerable said, “But... the supreme rule will only start to deal with me after I have successfully cultivated! At this time, my practice has been completed, and I can’t change it if I want to. It is equivalent to walking in by myself. In the trap of the supreme rule, you can’t even jump out of it!”

“The supreme rule must be intentional!” Eternal Great Venerable said bitterly, “I was targeted by the supreme rule, and there seems to be only one path left for me... reincarnation! Otherwise, it is death!”

“So... if you want to practice “Eternal World” or, no matter what your future cultivation path is, you must block the prying eyes of the supreme rules!” Eternal Great Venerable continued, “Must be If the supreme rules cannot know, what kind of cultivation you have become! If you don’t know the supreme rules, you will naturally be unable to limit you or deal with you!”

“It makes sense! But...” Xu Ming said embarrassedly, “How to block the prying eyes of the supreme rule?”

Xu Ming thought about it with his toes and knew that it was not easy to block the prying eyes of the supreme rule! At least... at Xu Ming’s current level, it is absolutely impossible to think of any way!

“It’s really difficult! It can even be said that it is almost impossible to block the prying eyes of the supreme rules!” Eternal Great Venerable said, “But... I still thought of a way!”

“Oh?” Xu Ming’s eyes lit up.

“I made a treasure! This treasure came to the home universe earlier than you, who was reincarnated!” Eternal Great Venerable said, “Also, this treasure has actually intersected with you!”

“Have you crossed paths with me?” Xu Ming was a little confused, why couldn’t he remember when he had come into contact with that level of treasure?

The most precious treasure in Xu Ming’s hands is probably the “Boundary-Breaking Spear”, the world-breaking magic weapon of the Great Master Kunpeng, right? Will the Boundary Breaker have such a function? Xu Ming thought it was impossible!

“Haha! Stop guessing!” Eternal Great Venerable laughed, “Although you have had an intersection with this treasure, you have never seen this treasure!”

Have an intersection, but have never seen it?

what is this?

“Haha!” Eternal Great Venerable laughed, “Also, this treasure is now in the hands of your relatives!”

In the hands of my relatives?

“Who?” Xu Ming’s mind was spinning, but he didn’t have the slightest clue.

The Eternal Great Venerable smiled and said, “Gu Hanmo!”

Chapter 2230: Life And Death

Gu Hanmo!

These three words made Xu Ming’s heart tremble. At the same time, some doubts hovering in his mind suddenly became clear at this moment, as if he understood all at once.

Gu Hanmo was besieged by the Great Venerables because he competed for a mysterious treasure, and was forced to reincarnate. But what made Gu Hanmo extremely depressed was that until after she was reincarnated, she didn’t know the use of the mysterious treasure that she was fighting for.

I really don’t know what’s the use!

Moreover, after reincarnation, he continued to be chased by other great masters.

Knowing this earlier, Gu Hanmo even wished he hadn’t grabbed the treasure in the first place.

Xu Ming suddenly understood: “Shield the treasures that the supreme rules spy on... It’s no wonder that Han Mo can’t discover the usefulness of the treasures!”

This is not a treasure that can be understood by the “Great Senior” level! Not even an ordinary world breaker can use that treasure!

The Eternal Great Venerable continued: “As the Great Venerable Gu Hanmo, after the reincarnation, the reason why he happened to meet you is not only a kind of fate, but also related to the treasure she got! – That treasure is for me. After reincarnation, it is prepared for you! Therefore, the treasure will find its own owner and find you!”

“Oh...” Xu Ming suddenly realized.

really!

The Eight Great Limits of the Virtual Universe! Each quadrant is a territory of billions; each territory is an endless microcosm; within each microcosm, there are countless billions of chaotic worlds! – Why is it such a coincidence that Gu Hanmo happened to be in the same world of dust as Xu Ming after reincarnation? And the two met when they were very weak and came together!

Before, Xu Ming was indeed a little puzzled by this, but he was only sighing that good luck would fool people! Now Xu Ming knows, it turns out that all this has a cause and effect!

“What is that treasure called?” Xu Ming asked.

“Death and life!” Eternal Great Venerable said.

Then, he added: “My name!”

The Eternal Great Master, named “Eternal”, named it “Death and Life” for this piece of treasure that could be considered the most precious to him. What is the meaning of this, Xu Ming is not very clear.

“I have to remind you...” Eternal Great Venerable said again, “Blocking the prying eyes of the supreme rule is actually a confrontation with the supreme rule, which requires energy! At present, ‘death and life’ has not been activated, but once activated, It will enter a state of consumption; moreover, this consumption cannot be recovered – the stronger your strength, the faster the ‘death and life energy’ will be consumed! When the energy is exhausted, the supreme rule can no longer be shielded!”

Xu Ming understood; “That is to say... I must cultivate to the highest level before the ‘energy of life and death’ is exhausted? Otherwise, I will be targeted by the supreme rules!”

“That’s right!” Eternal Great Venerable said, “As long as any exercises that defy the sky will definitely be targeted by the supreme rules, this is unavoidable! The only way is to grow up before the supreme rules react. To the extreme, let the supreme rules not be able to target you!”

Xu Ming seems to understand but does not understand, but he is not aware of it, and continues to accept the inheritance of “Eternal World”.

To be honest, the practice of “Eternal World” makes Xu Ming feel very simple!

Yes!

It's simple!

This should be the easiest exercise Xu Ming has ever seen! It was even simpler than the exercises he had come into contact with when he was still in the dusty world or in the mundane era! – This is a kind of pure to the ultimate return to the original, the avenue to the simplicity!

It's as simple as "1+1=2"!

However, "Eternal World" is the most difficult exercise Xu Ming has ever encountered! It's hard because... Xu Ming doesn't know how to start cultivation! There is absolutely no way to practice!

It looked like a very simple exercise, but Xu Ming found that he couldn't practice it at all.

It's a very strange feeling.

Until Xu Ming fully accepted the inheritance of "Eternal World", he still didn't know how to cultivate.

"Don't worry!" Eternal Great Venerable smiled faintly, "'Eternal World", when you can't understand it, it's impossible to get started; but as long as you understand it, you can master it in an instant!"

"Oh?" Xu Ming was suspicious.

"Also... There is still a lot of pure energy in this ninth-layer space!" Eternal Great Venerable said again, "These energy are to preserve the existence of "Eternal World"! Now, the exercise method "Eternal World" It has been passed down, and it is useless to keep these energies on, it can just be used to strengthen your divine body!"

The Eternal Great Venerable looked at Xu Ming's divine body with a smile, and praised, "As expected of my reincarnation! Kunpeng Great Venerable's exercises have not only been practiced by you, but have also been improved! Your current Divine body, the potential is much greater than

Kunpeng Dazun! With such a powerful divine body as the foundation, when you practice “Eternal World” again, I am afraid you can really create surprises!”

There is a strange look in the eyes of the Eternal Great Senior, which seems to be looking forward to, but also like recalling: “However, it is really not easy to cultivate such a divine body to the ultimate achievement!”

The stronger the practice, the more difficult it is to cultivate to great success!

Just like Xu Ming’s Divine Body Universe! Every particle on the divine body is a particle universe, with infinite possibilities; if you want to cultivate to the highest level, you must make every particle universe grow to the extreme!

When a particle universe grows to the extreme, what will it become?

Become a “primary universe” comparable to the universe sea?

Or become a “reincarnation-level universe”?

Even... detachment-level universe, eternal-level universe, holy emperor-level universe?

If every particle universe on Xu Ming’s body grows into a “sacred emperor-level universe”... Of course, this assumption is impossible! Even if the energy of the entire cosmic sea is supplied to Xu Ming to absorb, it is not enough for Xu Ming’s particle universe to grow to that level.

However, in any case, if Xu Ming cultivated the Divine Body Universe to the highest level, he would definitely be a very, very terrifying strength! Even at the “Boundary Breaker” level, I am afraid that it is possible to be invincible in the sea of cosmos like the Eternal Great Venerable in the previous life!

Fortunately, the particle universe wants to grow, it is too easy, just need to eat!

eat!

Continue to devour all kinds of pure energy! You can continue to grow a particle universe!

Although pure energy is rare, the treasure on Xu Ming's body can already provide a lot of pure energy; maybe, it is enough to make Xu Ming's cultivation level enter the "Boundary Breaker" level!

Moreover, there is also a lot of pure energy in the ninth floor space in front of you, which is enough to increase Xu Ming's strength a lot!

"Then start... eat!"

The Eternal Great Senior unsparingly released all the pure energy in the ninth floor space, while Xu Ming greedily swallowed everything.

eat! eat! eat!

Xu Ming's divine body has also grown stronger and stronger! The cultivation base is also constantly improving!
