

A World 981

Chapter 981: 1 Person Can Live

one! !

...

Seeing this number, Xu Ming was a little puzzled. He didn't know what the word "one" represented.

And the other fifteen masters, including the existence of the king, suddenly turned pale.

"one!"

"It turned out to be 'one'!"

"It's over!"

"It's too much luck, isn't it?"

"Dead!"

Immediately, the entire third-layer world was filled with an aura of despair.

"It seems that everyone's luck is really not very good. You actually got a 'one'!" The magnificent voice above the dome seemed to have a taste of schadenfreude, "Since the number drawn is 'one', then It means that among the sixteen of you, only one person can leave the third floor alive!"

Sixteen people, only one can live! ?

Now, Xu Ming finally understood the meaning of the sixteen numbers that appeared just now! – Sixteen numbers, whichever one is randomly drawn, I am afraid it means how many people can survive! For example, if “ten” is randomly drawn, that means ten people will survive!

“One?” Xu Ming’s expression was also a little weird, “This luck is really bad!”

Of course, Xu Ming did not mean that he was unlucky, but that the other fifteen people were unlucky!

Since only one person could survive, Xu Ming certainly couldn’t sacrifice himself for others! Then, the other fifteen people can only die!

Swish!

Swish!

Those half-step king masters, after a short period of despair, all reacted.

The seven half-step kings who came up with Xu Ming hurriedly hugged together; and among the eight people in the previous batch, the seven half-step kings also hurriedly hugged together.

Immediately, Xu Ming and the only king-level existence from the previous batch were isolated.

These half-step king masters know very well that since they can only survive one, they must form a group and solve the two strongest ones first! In this way, these weak ones have a first-line hope of surviving.

The atmosphere on the field suddenly froze.

Everyone, look at me, I look at you, and no one wants to take it lightly.

“What should I do?” At this time, when he was in the second-layer world, Ji Ran, the third one who arrived, suddenly opened his mouth and asked aloud at the audience.

Among the seven half-step kings in Xu Ming's group, Ji Ran is the strongest and the strongest!

Originally, Ji Ran felt that with his own strength, it should be no problem to break through the third layer of the world and leave the world of no difficulty alive! Unexpectedly, their luck was so bad this time, and they drew the most unlucky "one".

Only one person can leave the third-layer world alive! With Ji Ran's strength, Rao really doesn't have the slightest confidence.

However, even if you have no confidence, you have to fight! Anyway, no matter whether you fight or not, you will die horizontally and vertically!

The only one at the king level, the "Chou Burial King", looked very ugly at this time. Although he was at the king level, he was only at the beginning level of the king. At the same time, facing more than a dozen half-step king masters, it was really true. Not so sure. What's more, there is such a strange silver moon fourth rank as Xu Ming.

In the last batch of seven half-step kings, a young man with elegant temperament but gloomy eyes looked at Ji Ran and asked, "What's the situation over your side? Is that Yinyue fourth-grade strength strong??"

"Very strong!" Ji Ran shouted, "He killed Zuo Bai with one shot!"

Zuo Bai, in the world of no difficulty, still has some reputation. Many of the masters present also have some understanding of Zuo Bai's strength.

"hiss-"

"One shot to kill Zuo Bai?"

"Then his strength has reached the level of a king!?"

"Yinyue fourth-grade, but has the strength of the king level? – Monster!"

...

Ji Ran had expected this reaction on the other side. He hurriedly asked, “What’s the arrangement now?”

The last batch of half-step king-making masters discussed it and shouted: “You guys, deal with this silver moon fourth rank; we, deal with the burial king! – First kill these two king-ranking warriors, and finally we will deal with them. Who can survive depends on their ability!”

“it is good!”

“it is good!”

All the half-step king masters have no opinion!

Even some masters such as Ji Ran have excited expressions in their eyes – it is true that for the half-step king, it is almost a dead end! But at the same time, isn’t it a great opportunity?

Whoever survives in the end will be able to obtain the treasures of the other fifteen masters in one fell swoop!

The treasure of fifteen masters! —Let’s not mention anything else, there are more than 30 bottles of the spirits rewarded in the first layer of the world alone!

You must know that an ordinary first-level king, who can have a bottle of spiritual essence, is already rich! Just like King Xingluo, who is entrenched on Xingluo Island and has been in business for hundreds of millions of years, he has only saved a bottle of Spiritual Essence!

More than 30 bottles of spiritual marrow... Such a huge amount of wealth can even start a war in the existence of the king!

...

No trouble.

The dense cloud layer in the endless high sky is a place that cannot be penetrated by the existence of the emperor.

Above the dense clouds, there are three towering thrones.

On the throne in the middle, sat a dignified plump woman; she looked indifferent, seemed to see through everything, and seemed to care about everything in the realm of trouble.

On the throne on the left is a righteous general; on the throne on the right is a black-robed figure with a somewhat gloomy imposing manner.

The combination of these three people seems a bit strange; but in fact, the three of them are: the “Continent Spirit” of Suffering Continent, the “Motor Spirit” of Wudi City, and the “Tower Spirit” of Wudi Tower!

Yes, the Continent of Suffering, the City of No Difficulty, and the Tower of No Difficulty were all refined by the peak existence by means of refining divine artifacts; therefore, there are existences similar to “artifact spirits”.

Like the Continent of Suffering, there are countless secret entrances hidden in it, like a secret room of experience—and the one who controls these secret entrances is the Spirit of the Continent, the dignified woman.

The City of No Difficulty and the Tower of No Difficulty are also secretly controlled by the “tool spirit”.

“Maybe something big is about to happen!” The black-robed figure, who had been closing his eyes, suddenly opened his sharp eyes, and said excitedly. He is the towering spirit of the Tower of No Difficulty.

“Major event?” The spirit of protecting the city snorted coldly, “Just in your place, what major event can happen? At most, a relatively powerful genius?”

The Spirit of the Continent also said with a bit of interest: “I often hear you talk about genius, but I have never seen you choose a qualified genius as a great master!”

The figure in the black robe was a little depressed and said: “The geniuses are not up to the standard and can’t get the inheritance of the master. What can I do? – However, this genius is definitely different!”

“What’s different?” The Spirit of the Continent asked with a smile.

“Very different! I think he might have some hope and get some inheritance from his master!” Hei-robed Taring said, “On my side, the good show is about to start, you can come and see!”

Anyway, idleness is idleness. The spirit of the continent and the spirit of protecting the city directly descended their consciousness into the Tower of No Difficulty.

Chapter 982: And Slow Down

“Silver Moon Fourth Grade?”

“Is this the genius you were talking about?”

After the consciousness of the spirit of the earth and the spirit of protecting the city came to the Tower of No Difficulty, they were all speechless.

“Yes! It’s him!” Ta Ling said with great certainty, “Although he only has the cultivation base of Yinyue Fourth Grade, his strength is not simple! I estimate that his strength may have reached the middle level of the king!”

“what?”

“Yinyue fourth-grade, has the strength of the middle-level king?”

The spirit of the earth and the spirit of protecting the city couldn’t believe it: “If this is the case, then this kid is really not easy!”

“And...” Taring said again, “His breath of life is very young! Although I can’t judge his exact age, it should be no more than 100,000 years old!”

“So young?” The Earth Spirit’s eyes brightened. “The younger you are, the younger your heart will be! Maybe, this kid really hopes to get the inheritance of the master!”

Suddenly, the spirit of the moat said: “It’s him! – I know who he is!”

“Oh?” Taling and the spirit of the earth looked over curiously.

The spirit of protecting the city said: “Not long ago, the stele spirit of the inheritance monument reported to me that there was a peerless evildoer. The first time he accepted the inheritance, he broke through from the demigod to the first grade of the silver moon; the second time he accepted the inheritance, it was even more so. From Silver Moon Rank 1 to Silver Moon Rank 4!—Yes, I just confirmed with the tablet spirit, he is right!”

“hiss-”

“hiss-”

The Spirit of the Earth and the Spirit of the Tower both sucked in a breath of cold air: “Two inheritances, broke through from the demigod to the fourth rank of Yinyue? Moreover, the strength is even more comparable to the middle-level king!?”

Who would believe this if you hadn’t seen it with your own eyes?

“Peerless monster!”

“Unprecedented peerless evildoer!”

“Master... Maybe there is a successor!”

“He is such a monster, will he have already obtained the inheritance of other peak existences?” The spirit of protecting the city suddenly thought.

“It is possible! But so what? The inheritance of the master, and the inheritance of other peak existences, do not conflict with each other!” The spirit of the earth said indifferently.

“Don’t talk about it, the battle is about to start!” Taring said, “You said... Should I make him more difficult?”

“How to increase?”

“Look at me!”

...

The third-level world of the Tower of No Difficulty.

The atmosphere is tense.

Fourteen half-step king conferring masters stared at each other, ready to take action against Xu Ming and the enmity king at any time.

King Qiufu had a serious look on his face—although he was a king-level existence, he had to pay 100% attention and deal with it carefully when facing seven half-step king-making experts at the same time.

Xu Ming is very relaxed – let alone seven half-step kings, even if all fifteen people present besiege him, there is not much threat!

Suddenly, the fourteen half-step king conferring masters slammed together: “Kill!”

But at this moment, the magnificent voice on the dome sounded again: “Everyone who breaks the tower, slow down!”

“Um?”

Xu Ming, Qiu Fuwang, Ji Ran and others all looked at the air in confusion.

“I remind you...” The majestic voice on the dome seemed a little obscene, “This fourth-grade Yinyue, his real combat power should be in the middle rank of King Feng!”

“what!?”

The sixteen people on the third floor, including Xu Ming, were all dumbfounded.

Qiu Fuwang, Ji Ran and the others were all shocked: “Fengwang middle-level? How is it possible...”

At this time, the magnificent voice said again: “Okay, I will say so much, you can do it yourself!”

Immediately, the magnificent voice disappeared without a trace.

Xu Ming was speechless for a while: “Just talking so much? Just came here to reveal my strength? – This is playing me!”

Although Xu Ming doesn’t mind “one enemy fifteen”, he doesn’t want to be played like this either!

“I rely on!”

However, people had to bow their heads under the low eaves.

Xu Ming cursed angrily, clenching the spear in his hand! – With one enemy and fifteen, Xu Ming did not dare to be too careless.

At this time, the expressions of King Qiufu, Ji Ran and others became very complicated.

“Fengwang middle-level...”

“I met such a strong opponent, and I can only survive one...”

Everyone quickly communicated in private, and soon reached an agreement – join forces to kill Xu Ming first!

Everyone glanced at Xu Ming, and then...

Fifteen people were very tacit, and they all killed Xu Ming.

boom! boom! boom! boom! ...

One after another, terrifying murderous aura charged towards Xu Ming. Under the strong murderous aura, even Xu Ming felt a little heavy.

call out...

Around Xu Ming, hundreds of millions of invisible causal lines suddenly undulated like waves. All the cause and effect related to Xu Ming were disturbed at this moment.

“There is a master of cause and effect!” Xu Ming’s eyes instantly locked on a Taoist robe and a half-step king. This wave of causal attacks was exactly what he sent.

shhhhhhhh...

Immediately afterwards, countless causal threads were madly entwining towards Xu Ming; between the lightning and flint, Xu Ming was entangled into a silkworm cocoon!

“Causal bondage!”

At the same time, the space beside Xu Ming began to distort. In the severely distorted space, Xu Ming took a step forward, or even took a step back—this situation is very dangerous, because Xu Ming may have accidentally bumped into someone else’s blade.

hiss-

Immediately afterwards, Xu Ming suddenly panicked, as if he felt that his fate was no longer in his control.

“Fate tampering! He is a master of fate!”

boom! boom! boom! ...

The other masters also showed their means and besieged Xu Ming at the same time.

Among them, the most terrifying attack by King Qiufu was the most terrifying; as soon as his blood-colored sword light came out, he seemed to be able to directly sever everything.

Under the joint efforts of a junior king and fourteen half-step kings, Xu Ming felt a lot of pressure in an instant!

“Some tricks!” Xu Ming snorted coldly, “I really underestimate them! But...”

The long spear in Xu Ming’s hand trembled, and the sound of a dragon roared faintly.

“However... It’s too naive to want to deal with me with these flashy means!”

boom!

Xu Ming’s aura erupted violently, and the causal cocoon bound to him was instantly shattered to pieces Break the law with force!

The causal order related to Xu Ming also briefly fell into chaos.

“Humph!”

Xu Ming’s spear took the initiative to meet King Qiufu.

“The Heaven of Reincarnation Five Forms Collapses!”

Heaven collapsed!

The ultimate strength, the ultimate domineering one-shot marksmanship!

Under the crushing of absolute power, all laws and orders will be broken!

The spear in Xu Ming's hand blasted through the distorted space beside him, as if a large truck ran over a small puddle – the distorted space was directly flattened by this gun!

rumbling...

The long spear crushed the heavy law shackles, and finally smashed it with the knife of the burial king.

Chapter 983: Whetstone

boom! !

Even though Xu Ming's spear, after breaking the shackles of many laws, already felt a little bit at the end of the line. However, when the spear and the **** knife collided, the mysterious power contained in the spear completely crushed the blood-colored light of the burial king.

Xu Ming is safe and sound.

But King Qiufu was blasted back a hundred miles, and his divine body was slightly damaged.

“what!?”

The Qiufu King and the half-step kings who were besieging them all watched this scene in shock – fifteen of their masters joined forces to besiege Xu Ming, and they were still at a disadvantage! ?

“Feng Wang Intermediate!”

“It is definitely the strength of the middle-level king! Moreover, in the middle-level king, there is no weak existence!”

King Qiufu, Ji Ran, etc. all exclaimed.

“Fortunately, the tower Ling of the No Difficulty Tower reminds us that Xu Ming is a middle-level king; otherwise, if we don’t all unite, we will definitely not threaten Xu Ming at all!” Ji Ran thought with lingering fears.

“However, why does Taring remind us of this?” Someone immediately wondered.

“Yeah! The Tower of No Difficulty, and even the entire Realm of No Difficulty, should have been set up by some super existence to select geniuses, right? – Xu Ming is obviously a lot more genius than us. Even if Taling wants to help, he should help Xu Ming, you shouldn’t help us!”

“Yeah! It doesn’t make sense!”

“In my opinion...” King Qiu Fu flew back from a hundred miles away in an instant, “Ta Ling regarded us as Xu Ming’s whetstone!”

“Dare to treat us as whetstones!?” Ji Ran stared, “Ta Ling is not afraid, we broke Xu Ming’s knife?”

“Humph! Kill him!”

“Even if I die, I will pull him back!”

The masters present, even if the talent and aptitude are not as good as Xu Ming, but who is not the favored one? How can they tolerate that they become Xu Ming’s whetstone?

“Whetstone?” Xu Ming sneered in his heart.

If you want to be a whetstone for Brother Ming, it depends on whether you are qualified or not!

With the fifteen rabble in front of me, it’s almost the same for Brother Ming to warm up; but if they want to be Brother Ming’s sharpening stone, they are still too tender! – If it is really sharpened, I am afraid that the stone will be broken before the knife starts to be sharpened.

Moreover, if Xu Ming really wanted to start the killing ring, as soon as the “Book of Life and Death” opened, fourteen half-step kings such as Ji Ran and Ji Ran could be instantly crowned!

There is only one burial king who is at the beginning of the rank of the king, isn't it still for Xu Ming to knead?

However, that Taling, since he kindly arranged so many sharpening stones for Xu Ming; if Xu Ming did not give it a symbolic sharpening, it would really be a bit of a waste!

“Let's not use the ‘Book of Life and Death’ to hang them, and directly use force to defeat them!”

Xu Ming's eyes froze: “Kill!”

boom!

Xu Ming held a long spear, his eyes were frosty, and he took the initiative to kill him.

“Dare to take the initiative to attack!?”

This move by Xu Ming undoubtedly provokes King Qiufu and others.

Chou Burial King was covered in blood, and roared: “I'm the main attack, you guys assist me and kill him together!”

boom!

The monstrous blood on King Qiufu turned into hundreds of millions of blood dragons in vain. Every blood dragon is rolling with a ferocious killing intent, making people tremble!

This move is exactly the domain secret technique of King Chou Burial—Blood Dragon Realm!

Countless blood dragons attacked Xu Ming and entangled Xu Ming.

And Xu Ming, facing the harassment of these blood dragons, completely turned a blind eye!

boom!

Xu Ming's divine body violently smashed away countless blood dragons, and slayed the king of burial.

Not to be outdone, his ***** knife was just raised, and countless blood dragons in the "Blood Dragon Realm" converged on the blood knife!

"Wanlong Slash!"

"Residual blood of the fifth form of reincarnation!"

shhhhhhhh...

The fourteen half-step kings also showed their means; causal attacks, fate attacks, time and space restrictions, and other means, all greeted Xu Ming.

And Xu Ming, like an invincible ***** of war, no matter what means attack him, it will sink into the sea, and it will not have any effect.

"I don't believe it. You, a middle-ranked king, can be much stronger than me!" King Qiufu roared with a grim expression on his face.

boom!

The Wanlong Slash slashed across the blood and hit Xu Ming!

Seeing that, Xu Ming and King Qiufu were about to confront each other again! But suddenly, the corner of Xu Ming's mouth evoked a playful smile.

Then, the next moment—

Swish!

Xu Ming immediately disappeared!

“What?” King Chou Burial’s ultimate move suddenly lost its target, and he was suddenly stunned, “Where’s the person?”

Immediately, King Choufu reacted: “It’s teleportation! But... it’s not right! Isn’t this kid taking the route of breaking the law with force? Why is he also so accomplished in time and space that he can even teleport?”

“Not good!” Almost at the same time, King Qiufu felt a huge sense of crisis – because Xu Ming teleported behind him!

boom!

The secret skill “Remnant Blood” mercilessly blasted towards the King of Enemy Burial!

“Hey—” King Qiufu suddenly felt a chill in his heart—he wanted to dodge, but it was too late! Moreover, King Qiufu does not have the ability to teleport!

“No—” King Qiufu never expected that in the second round of the fight, he would face a huge crisis of life and death.

“Can’t escape!”

“It’s too late to turn around and resist!”

The burial king was almost desperate!

At this moment, the space between Xu Ming and King Qiufu suddenly distorted seriously.

“Space distortion?” Xu Ming couldn’t stop sneering – if it were a Yinyue-level attack, he would indeed lose his way in the space distortion! For example, it was originally attacking forward, but it is likely to be sideways due to space distortion.

but!

In the face of an attack of Xu Ming's level, this little space distortion is not worth mentioning at all, and it can be crushed directly! At most, it can slow down the speed of Xu Ming's shot a little bit!

Enemy Burial King, still have to die!

But then something unexpected happened to Xu Ming! ——I saw King Chou Burial, who had no time to dodge, and his entire figure teleported a short distance to the side very strangely!

But it was this short distance that allowed King Chou Burial to escape!

“Huh?” Xu Ming was slightly startled, “What's the situation? How could King Qiufu teleport?”

Immediately, Xu Ming understood that it wasn't that the King of Burial would teleport. It was the half-step king conferring master who practiced space-time and applied a teleport on Qiufu Wang, helping Qiufu Wang teleport away a short distance!

“Is this all right?” Xu Ming has a long experience! – You must know that Xu Ming's “teleport” hang, but he can only use it himself, and can't help others teleport!

“It's so dangerous!” King Qiu Fu breathed a long sigh of relief. Just now, he really walked at the juncture of life and death!

Xu Ming was a little annoyed: “The master of Space-Time One is really annoying enough to crack my ultimate move! – In this case, I will kill this one who cultivates Space-Time One first, so as not to be disturbed by him later!”

Xu Ming immediately turned the gun around!

Chapter 984: Go To Level 4

Hou Qing, half-step king, proficient in space one. ≡ Le ≡ Wen ≡ Xiao ≡ said | When he saw Xu Ming turn the gun on him, his face turned blue with fright!

“I...why should I meddle in my own business and save King Qiufu...” Hou Qing couldn’t help but regret, “If I didn’t act, I wouldn’t be targeted by this perverted Yinyue Fourth Grade!”

At this time, Xu Ming had turned the gun and aimed it at Hou Qing.

“kill!”

Xu Ming’s figure flashed and disappeared instantly!

Teleport!

“Huh?” Hou Qing suddenly became vigilant, “Behind me!”

Without any hesitation, Hou Qing immediately teleported and disappeared from the spot. And just as he disappeared, Xu Ming’s spear shot through in anger.

“It’s dangerous...” Hou Qing broke out in a cold sweat. Although he is proficient in space and escaping, his frontal combat ability is undoubtedly a major weakness. Both attack and defense are relatively weak.

You know, Xu Ming’s spear is hard to resist even the King of Chou Burial! If he was shot by Xu Ming, he would be killed immediately.

“Fuck me?” Xu Ming missed the shot, and cursed inwardly, “How dare you hide!?”

Swish!

Xu Ming teleported again and appeared beside Hou Qing again. And Hou Qing, without the slightest pause, teleported again, dodging far away.

Swish!

Xu Ming teleports again!

Swish!

Hou Qing hides again!

shhhhhhhhhhhhhhhhhhhhh...

In an instant, the sky was filled with afterimages of Xu Ming and Hou Qing.

Hou Qing knew that he was not Xu Ming's opponent at all, and he couldn't even take Xu Ming's shot; therefore, he did not dare to confront Xu Ming at all.

Although Xu Ming completely overwhelmed his opponent in terms of strength, his opponent was too good at teleporting, and he ran faster than a rabbit with "swoosh"; while Xu Ming could only use his "teleport" to catch up, and every movement was slow. After a little bit of it, he couldn't catch Hou Qing at all.

"Damn it!" Xu Ming was a little depressed after chasing him.

King Qiufu, Ji Ran, etc. looked a little confused.

"Isn't Xu Ming taking the route of breaking the law with force? Even teleportation?" Ji Ran was extremely frightened, and even a little desperate – able to teleport and attack strongly, such an opponent is undoubtedly very, very, very terrifying!

If at the beginning, Ji Ran and others still had a little illusion about defeating Xu Ming; then, now, they have extinguished even a little illusion!

Because, Xu Ming, who can teleport, can teleport away as soon as he perceives the danger; the fifteen of them have no chance to kill Xu Ming at all! – Can't kill Xu Ming, and there is only "one person to live" in the third-layer world, what will be the result?

Without a doubt, Xu Ming was the only one who survived!

King Qiufu was also full of despair: “Looking at how skilled he is in teleportation, I am afraid that his accomplishments in space and space are very profound! Could it be that he has simultaneously cultivated ‘Breaking the Law with Power’ and ‘Time and Space’?”

No matter how Xu Ming cultivated, the burial king was already desperate! —Strong strength, teleportation, and very young! King Chou Burial couldn’t imagine what kind of peerless evildoer Xu Ming was!

“To die in the hands of such a peerless evildoer is not a humiliation for me!” King Chou Burial was already disheartened, and he was even ready to die.

...

At this time, above the clouds above the No Difficulty Tower, the three tower spirits, the spirits of the earth, and the spirits of the moat also looked at them in shock:

“It even teleports!”

“Great! He also has some accomplishments in time and space, so he is more likely to accept the inheritance of the master!”

“The real invincible evildoer! The disciples that the master accepted at the beginning are probably not as evil as him, right?”

“Absolutely not!”

“The outcome of this third-layer world test is clear!”

Of course Xu Ming didn’t expect that his own “teleport” hook would cause so many people to think wildly. Xu Ming is now depressed, how can he kill Hou Qing.

“Could it be... are you trying to force me to open a ‘book of life and death’?” Xu Ming hesitated for a while.

But immediately, Xu Ming rejected the idea!

“No!” Xu Ming secretly said in his heart, “If I can’t even kill a mere half-step king, and I have to rely on the ‘Book of Life and Death’, it would be a shame!”

At this moment, Xu Ming’s stubborn temper came up!

In any case, he will kill Hou Qing with his hands!

shhhhhhhhhhhhhhhhhhhhh...

The sky is full of afterimages left by teleportation.

Every moment, there will be hundreds of thousands of afterimages.

“Xu Ming, don’t kill me!” Although Hou Qing was on the run, gradually, he began to feel powerless – because every teleport, he had to concentrate 100%. When Ming caught it, it was when his body died and his soul was annihilated.

And Xu Ming, when teleporting, his mood is more relaxed. Because Xu Ming doesn’t care how many times he fails, as long as he succeeds once, he can kill Hou Qing!

“Don’t kill you?” Xu Ming couldn’t help sneering, “You’re in a life-and-death situation, tell me not to kill you?—You’re too naive, aren’t you?”

If Xu Ming didn’t kill him, could he still choose suicide?

“But you can’t chase and kill me. If you continue like this, you will only be wasting time!” Hou Qinglian shouted.

“I can’t chase you down?” Xu Ming sneered, “You look down on yourself too much, don’t you? – I just warmed up with you just now, now is the real start!”

When the voice fell, Xu Ming directly called out the “exploration” link.

“Xiaohang, help me find out which coordinate point his next teleportation will appear at!”

With the tacit understanding between Xu Ming and Xiaohang, Hou Qing’s next “foothold” was discovered.

“It’s there!” Xu Ming did not continue to follow Hou Qing’s buttocks, but teleported to an open space, and the spear in his hand was very strange, and stabbed towards the open space!

“what happened?”

“Why did Xu Ming shoot into the air?”

King Qiufu, Ji Ran, etc. are a bit baffling. Even the three “tool spirits” couldn’t understand Xu Ming’s actions.

But then, a scene that made everyone stunned happened! – I don’t know if it was a coincidence or something, but Hou Qing actually teleported and just appeared in front of Xu Ming’s spear tip.

“I...” As soon as Hou Qing teleported over, he realized that he had made a fatal mistake.

But, it’s too late!

boom!

A shot of “residual blood” directly penetrated Hou Qing’s divine body.

The indescribable power contained in the spear exploded in Hou Qing’s body instantly!

“No—” Hou Qing only had time to roar in horror, every particle of his was annihilated at the particle level!

Hou Qing lost his breath of life in an instant, and the dead can no longer die!

After killing Hou Qing Xu Ming teleported one after another, and started slaughtering the other fourteen masters!

King Qiufu, Ji Ran, etc., after seeing Xu Ming's strength, they all felt that they gave up and struggled. Moreover, among the fourteen of them, none of them could teleport; even if they wanted to struggle, they couldn't resist Xu Ming's teleportation and just a shot!

Wherever Xu Ming teleports, he instantly kills wherever he goes!

Not long after, everyone was slaughtered.

Xu Ming put away everyone's relics – this is a huge wealth! There are as many as twenty or thirty bottles of spiritual marrow alone; there are countless other treasures!

Such wealth, even in a king-level existence, would not be considered poor!

“Congratulations!” On the top of the dome, the magnificent voice that ran out to add chaos to Xu Ming just now appeared again, “You have successfully passed the third floor of the Tower of No Difficulty! Now, you can choose to leave the Realm of No Difficulty, or It is to enter the fourth floor and continue to challenge!”

Xu Ming did not hesitate at all: “Enter the fourth floor!”

Chapter 985: Grinding Hall

Whoa!

After a dazzling white light passed in front of him, the scene around Xu Ming changed and appeared in a huge hall.

The circular hall is a hundred miles in size and dozens of miles high, but there are no doors and windows. On the bright white walls, the texts of the Divine Realm were written all over the place; the text seemed to contain some kind of deep coercion.

What surprised Xu Ming the most was that the ground under his feet seemed to be a huge grinding wheel. Xu Ming felt that he seemed to be standing on a grinding wheel.

“What a strange hall!” Xu Ming observed carefully, “I don’t know, what kind of tests will be on the fourth floor!”

rumbling...

At this time, the countless words of God’s Domain on the walls of the hall began to emit a faint light.

Taring’s voice also sounded again: “Welcome to the fourth floor – Grinding Heart Hall! In this floor, as long as you persist long enough, you can pass; if you fall into syncope, you will fail to pass the level!”

Hold on long enough?

Don’t fall into fainting!

It sounds like the rules are pretty simple!

But Xu Ming knew that if he wanted to persist long enough, it might not be an easy thing!

“bring it on!”

Xu Ming gritted his teeth and shouted.

boom!

The text of the Divine Realm in the hall suddenly became so dazzling that Xu Ming could hardly open his eyes. The “grinding disc” under Xu Ming’s feet trembled a few times, and then began to slowly turn.

“Damn it? It’s really a grinding disc!”

Xu Ming let out a secret cry.

Immediately, a tyrannical coercion suddenly pressed down.

boom!

Xu Ming's heart seemed to be hit hard, and his whole body was stunned.

Even his knees shook violently—a terrifying coercion, trying to force Xu Ming to kneel on the ground!

“Want me to kneel!?”

Xu Ming's body was erect, his aura was limping, and his unyielding will rose to the sky.

This will is even stronger than the terrifying coercion in the Hall of Grinding Heart!

rumbling...

The terrifying coercion seemed to be provoked by Xu Ming's provocation.

The countless Divine Domain characters on the wall became more and more dazzling; the grinding wheel under Xu Ming's feet also slowly accelerated. The terrifying coercion is naturally even more terrifying!

...

Above the clouds above the No Difficulty Pagoda, the three “Artifact Spirits” looked in amazement:

“What a tenacious willpower! The coercion in the Hall of Grinding Heart did not force him to kneel!” Ta Ling said in shock, “Strong strength, strong willpower, and still so young... How did this kid cultivate? what!?”

“It doesn’t matter how he cultivated! The evil genius can’t be measured by common sense!” The Earth Spirit said indifferently, “Also, even if he can stand now, when the pressure in the Hall of Grinding Heart gets stronger and stronger, In the end he’s going to kneel down!”

“Also... Even if he can pass the test of the Grinding Hall, he must pass the test on his knees! – No one can pass the test of the Grinding Hall set by the master standing up!” Ta Ling nodded.

Suddenly, the spirit of protecting the city, who had been silent, exclaimed: “Have you noticed that this kid’s ‘mind’ is very strong?”

“yes?”

The tower spirit and the spirit of the earth all looked at it in amazement – isn’t the Hall of Grinding Heart the place to test “mind power”?

Soon, the three spirits were shocked: “The second level of mental power!?”

“This kid has such a high talent in terms of mental strength?”

“At such a young age, he has the talent of the cultivator of the mind! It seems that he is very hopeful to realize the ‘third level of mind power’ and pass the test of the Heart Grinding Hall!”

The three artifact spirits all looked forward to watching: “It has been a long time since no one has passed the fourth-layer world of the Tower of No Difficulty!”

...

rumbling...

The grinding disc of the Grinding Hall was slowly turning, and it was turning faster and faster.

Xu Ming felt that his soul was like a diamond being ground by an invisible grinding disc.

With the rotation of the grinding disc, the impurities in Xu Ming's mind were ground away, and the original heart became more and more tenacious, and the mental strength became more and more tyrannical!

However, this process of "grinding the mind" is undoubtedly extremely painful! Fortunately, Xu Ming is very young, his "heart" is still very young, and there are not many impurities in his "heart"; therefore, this kind of pain is still within his range!

If it were replaced by those older gods, hundreds of millions of years old, billions of years old, even tens of billions of years old – their "hearts" are already old and full of various impurities; once they are ground in the Hall of Grinding Hearts, I am afraid Soon you will faint in severe pain! In that case, the test of Heart Grinding Hall will naturally fail!

In the Hall of Grinding Hearts, the "young heart" undoubtedly has an advantage over the "old heart". However, for a young heart, it is very likely that the willpower is not strong enough; it may not be fainted by the pain, but it is oppressed by the willpower to the point of fainting – the test is naturally a failure!

And someone like Xu Ming, with a young heart and a strong will, is undoubtedly rare!

rumbling...

Xu Ming's current mood can be described in five words: Painful and happy!

Grinding the mind is naturally painful; however, seeing his "mind power" grow rapidly during grinding, Xu Ming is extremely happy!

Xu Ming could feel that his mental strength was like a budding sapling, growing vigorously and rapidly growing into a towering giant tree.

After an unknown amount of time, Xu Ming's will has been oppressed to the point of being a little confused. The terrifying coercion kept hinting to Xu Ming: Kneel down! As long as you kneel down, it will be a lot easier!

However, no matter how terrifying the coercion of will, how could Xu Ming kneel down!

“Roar!!” From Xu Ming’s throat, he couldn’t help but let out an unyielding roar.

Will coercion is getting more and more terrifying!

The grinding disc under Xu Ming’s feet was also spinning faster and faster!

Suddenly, Xu Ming felt that his mental strength no longer continued to increase!

“It’s the limit!” Xu Ming knew that his mental power had reached the limit of “the second level of mental power”; if he went further, he would enter a new level!

The first level of mental strength is comparable to the “Taoist” level combat power.

The second level of mental power is comparable to the “demi-god” level combat power.

The third level of mental power, that is, the mental power school proving the Tao and becoming a god!

“Humph!”

Xu Ming gritted his teeth.

The will of the outside world is getting stronger and stronger, and the power to grind the mind is getting stronger and stronger! —Xu Ming’s mental strength Although it is no longer increasing; however, he is silently accumulating strength, ready to break the shackles between “second level” and “third level” in one fell swoop!

“Ahhhhh!!”

Xu Ming’s steel teeth shattered, his veins protruding.

“Break it for me!”

“Broken! Broken! Broken!”

...

Suddenly, Xu Ming’s mind roared, like a big explosion in his head, almost knocking him unconscious!

Xu Ming’s mind has undergone an unprecedented transformation.

“Is this the ‘third level of mental power’? Really...”

Xu Ming was extremely shocked to see his transformation!

The mind force school becomes a god, it is really much stronger than the other four major schools become gods!

Chapter 986: Heart World

fried!

Xu Ming felt that his heart seemed to “explode”!

It really feels like a blast! – If it is said that Xu Ming’s original mind is like a bean; then the current situation is that this bean has been blown up, and an endless and vast void has been blown up!

“There is also a void in the mind?” Xu Ming was extremely surprised.

Immediately afterwards, Xu Ming saw that in this “spiritual void”, changes began to occur – the turbid air was sinking, the clear air was rising, and the yin and yang were divided; the sky and the earth began to form!

“This... is this in the evolution world?”

Xu Ming guessed right, his mind is evolving into the world! The third level of mind power – mind world!

...

The one who was amazed was more than Xu Ming?

“Heart world?”

“How long has it been since he stepped into the third level of mental power!”

“What a terrifying mental school qualification!”

“Terrorist aptitude is one aspect. His ‘heart’ is young enough and easy to polish. It must also be one aspect!”

“Master is finally expected to get a successor!”

“It’s too early to say this. It depends on whether he can pass the subsequent test! However, he is at least much bigger than the previous tower breakers!”

The spirit of the moat, the spirit of the earth, and the tower spirit are all looking forward to watching. The meaning of their existence is to select suitable descendants for their masters.

...

At this time, Xu Ming’s “heart” was undergoing earth-shaking changes.

From the material level, “heart” is obviously an incomparably small existence; however, inside this small “heart”, a vast world has opened up! —Although this “heart world” is not very big, it has a diameter of thousands of miles!

“It’s so mysterious!”

“Is this the feeling of ‘one sand, one world’?”

Xu Ming was completely immersed in the development of the “heart world”, and even his understanding of the way of heaven was improved.

The heart world is getting more and more perfect, and the sun, moon, stars, mountains, rivers and rivers gradually appear. Some of the most primitive creatures also began to be born and evolved in the heart world.

“This...this...” Xu Ming was stunned.

The evolution of the mind world to this level is almost complete.

The “grinding disc” in the Grinding Hall turned faster and faster, and the willpower became stronger and stronger; but to Xu Ming, it was like a breeze blowing on the face, and it could not cause any oppression – obviously, the test of the Grinding Hall was no longer available to Xu Ming, any sense anymore!

The rapidly spinning grinding wheel slowly stopped, marking that Xu Ming had passed the test of the fourth-layer world!

At this time, Xu Ming felt the strength of “the third level of mental strength”.

“It’s too strong... I’ve only just entered the third level of mental power, and the strength of mental power flow is comparable to that of a ten-star deity!”

The third level of mental strength corresponds to the strength of the “star level” gods! However, it is clear that the combat power of “Xinli Liu” is obviously stronger than that of “Heavenly Dao Liu”!

“This Heart Grinding Hall really made me gain a lot!” Xu Ming secretly sighed.

Xu Ming has long felt the power of the mind force genre; however, Xu Ming has always been suffering, unable to truly embark on the road of “heart cultivator”! And now, Xu Ming has reached the third level of mental power, and the mental power school has become a god, and he has finally become a true “mind cultivator”!

and!

You must know that the most powerful part of the mind force school is that no matter which avatar of Xu Ming, the “heart” is the same, so the strength of the mind force flow is also the same!

For example, Xu Ming’s avatar of Heavenly Dao Liu—Heavenly Dao cultivation base is the fourth grade of Yinyue, and mental power cultivation base is the “early stage of the third level of mental power”, which is comparable to ten-star gods!

For example, Xu Ming’s ancient cultivator clone – Gu Xiulu’s cultivation base is an eight-star god, and his mental strength is also a ten-star god!

Another example is Xu Ming’s avatar of Faith Stream – Faith Stream cultivation base has not yet become a god, however, mental stream cultivation base is also a ten-star god!

In other words, no matter which avatar of Xu Ming, from this moment on, he can add a layer of “ten-star gods” strength to the original strength! In this way, no matter which avatar Xu Ming is, his combat power will not be weak!

And Xu Ming’s strongest avatar at this time – Tiandao Liu avatar, with the addition of mental strength and plug-ins, the combat power has reached the extremely powerful level of the middle-ranking king, even close to the high-ranking king!

“I don’t know, what surprises are waiting for me on the fifth floor!” Xu Ming secretly looked forward to it.

At this time, two ladders extended from above to Xu Ming.

The grand voice said: “Come on the left ladder, you will end the test and leave the Tower of No Difficulty; walk up the ladder on the right and enter the fifth floor of the Tower of No Difficulty! – Please note that starting from the fifth floor, life or death! No Way back!”

Live or die!

There is no turning back!

In other words, stepping on the fifth floor means – either clear the No Difficulty Tower, or die in the No Difficulty Tower!

“It seems that above the fifth floor, it is likely to involve the core secret of the peak existence who created the world of trouble-free!”

Xu Ming was slightly serious, but without any hesitation, he directly stepped on the ladder leading to the fifth floor!

...

The fifth-layer world is an endless white world.

The ground is an incomparably smooth mirror surface that extends to infinity and has no end. The sky is empty, and there is no limit to the height.

tread!

Xu Ming landed his feet on the mirror, carefully guarding his surroundings.

“Welcome to the fifth floor!”

Suddenly, the mirror that was thousands of miles away from Xu Ming opened a hole. A black figure emerged from the mirror.

“Huh?” At the realm of Xu Ming, thousands of miles away, as if in front of him. Xu Ming looked at the black figure with a little doubt, “This...isn’t a person?”

The reason why Xu Ming said this was because this black figure, although it was humanoid, had a metallic sheen all over it. There is no life breath on “it”.

“It’s a puppet!”

The puppet one, in the realm of the gods, is a relatively partial road! After Xu Ming came to God's Domain, he had never seen any powerful puppet masters.

"Could it be that the test on the fifth floor is to let me defeat this puppet?" Xu Ming secretly clenched the spear in his hand.

The puppet looked at Xu Ming, his eyes flashing with mechanical light: "Welcome to the fifth floor Tower Breaker! – On this fifth floor, I will teach you the holy-level mind power secret technique "Wanxin" "Yin"! If you learn it within a limited time, you can go to the sixth floor and get a big chance; if you don't learn it, you will...die!"

If you learn it, you will lead to the sixth floor; if you fail to learn it, you will die!

It's so arrogant!

However, Xu Ming knew that this was probably the way that the peak existence who created the Realm of No Difficulty could prevent the spread of secret techniques! -It is necessary to prevent the rumors of secret techniques, and also to allow You Yongcai to get the great opportunity he left behind, so such harsh conditions are set up!

"I don't know, what kind of level is the 'Holy' secret skill; is it more powerful than the emperor level?"

Learning secret skills, Xu Ming still has confidence!

Moreover, even if the study fails, Xu Ming does not believe that the other party can really kill him – at most, Xu Ming will lose two avatars; Existence should not threaten his deity!

The puppet said in a cold voice, "The holy-level mind power secret technique "Wan Xin Yin", the teaching begins! The first mark – the instant kill mark!"

Chapter 987: Wanxinyin

Mind power, shapeless.

However, Xu Ming himself is a mind cultivator, so he can naturally see the puppet working his mind.

“Puppets that can use mental power are really rare!” Xu Ming secretly said.

Mind cultivators are extremely rare; the puppet genre is also extremely rare – if you want to refine a puppet that uses mental power, you must master both, which is naturally the rarest of the rare!

This black human-shaped puppet moves at a very slow speed, which is a bit like slowing down its movements; Xu Ming knew that it wanted to make himself see clearly and use his heart to construct the principle of the “Instant Killing Mark”.

“It feels... a bit similar to an inscription!” Xu Ming secretly said, “However, the inscription is mainly based on divine power, while this instant kill mark is based on mental power!”

Divine power and mental power are two completely different powers.

Divine power is the power drawn from the order of heaven, and it is extremely tyrannical; while mental power is derived from the heart and has no shape at all. It is difficult to feel the power of mental power even if you are not a mind cultivator.

The structure of the Instant Killing Seal is extremely complicated. The puppet manipulated divine power and went through tens of thousands of steps before condensing the instant kill mark.

call out!

The “Instant Killing Mark” disappeared in an instant. Almost at the same time, Xu Ming felt a killing intent that penetrated into the depths of his heart. However, this Instant Killing Mark was only a “test item” and did not have much power. Naturally It also did not pose any threat to Xu Ming.

However, Xu Ming understood some of the mysteries: “So this is the purpose of the instant kill mark!”

The Instant Killing Seal is directly condensed into a seal with mental effort, attacking the enemy's mind. If the enemy's will is not strong enough, it is likely to be killed instantly by a seal!

Of course, the instant kill mark also has its flaws, that is – either instant kill or no effect!

A very straight forward move!

The puppet paused for a while, and then began to practice the second seal in “The Seal of the Thousand Hearts” – the seal of confusion!

The Confusion Seal can confuse the enemy's mind; make the enemy fall into confusion in the battle and cannot play a perfect state!

The third seal: the seal of weakness!

The fourth seal: body seal!

Fifth Seal: ...

...

Six hundredth seal: God's armor seal! – Condense the divine armor with your heart and resist the enemy's attack!

Six hundred and twelfth seal: Wan Jian seal! – Heart and mind become a sword, and ten thousand swords are sent together!

Nine hundred and thirtieth seal: Delay print!

The Thousandth Seal: The Golden Seal!

The 1001st Seal: Wooden Line Seal!

The third thousandth seal: teleportation print!

The 3800th Seal: Time Slowdown Seal!

Eight thousand eight hundred seals: Cause and effect kill seal!

The 10,000th Seal: One Seal!

...

“Wan Xin Yin” really contains 10,000 kinds of talismans of the mental school, including the nine heavenly ways of gold, wood, water, fire, earth, wind, thunder, yin and yang, as well as all means of the four major orders of time and space, cause and effect, destiny, and reincarnation!

“horrible!”

Xu Ming completely felt the horror of “Wan Xin Yin”!

Although Xu Ming has just broken through to the “third level of mental power”, in terms of mental power, he is comparable to a ten-star god; however, Xu Ming has almost no means of using mental power. strength! -Using mental power in this way, although mental power and other powers can be superimposed to achieve a “strong alliance”; however, the mystery of mental power cannot be brought into play at all!

And this set of “Wan Xin Yin” secret skills can be called the use of mental power to the extreme! — With the strength of the mind as the foundation and the talisman as the carrier, all the means of heaven and order have evolved!

Such as “time deceleration print”.

In fact, Xu Ming didn’t understand the “order of time and space” at all, let alone the mystery of “time”. However, as long as Xu Ming constructed the “time deceleration mark” with his heart, he could also achieve the effect of time deceleration! – As for how good the time deceleration effect is, it depends on how strong Xu Ming’s mental strength is and how strong his opponent is!

Another example is cause and effect, fate, etc., Xu Ming does not understand! However, through “The Seal of Ten Thousand Hearts”, Xu Ming was able to display the means of “resemblance”!

Similar in appearance, but not like God!

Although it is only similar in appearance, it is enough! After all, who can master almost all the means of use of the Nine Heavens and the Four Orders at the same time? – And “Wan Xin Yin” did it!

“This set of holy-level mental power secret skills is too precious! Far surpasses the emperor-level secret skills!”

Xu Ming completely felt the preciousness of “Wan Xin Yin”!

No wonder, before entering the fifth floor, Taring reminded Xu Ming – starting from the fifth floor, either life or death!

This kind of terrifying secret skill can be passed on to successors, but it must not fall into the hands of others!

At the same time, Xu Ming secretly guessed: “Is this set of “Wan Xin Yin” created by the master of the Realm of No Difficulty? If so, that Peak Existence can actually integrate the nine heavenly ways, The four major orders, how strong is his strength! – And if it wasn’t created by the master of the Realm of No Difficulty, who would have created it?”

...

Above the No Difficulty Tower.

The three “tool spirits” all looked forward to watching.

“The puppet has already fully rehearsed the entire set of “Wan Xin Yin”! I don’t know how many heart marks Xu Ming has learned?” Taring said.

“What’s the hurry? This is only the first time!” The Spirit of the Earth said, “I guess Xu Ming only understands a little bit now. It turns out that there are so many ways to use mental power; I can’t even practice it!”

The spirit of protecting the city also said: “Don’t worry! The puppet will practice the secret skills a thousand times! Of course, if Xu Ming still fails to fully learn “The Seal of Ten Thousand Hearts” after a thousand times, he will be punished by the puppet. Killed!”

This black human-shaped puppet has the attack power of an emperor-level existence and is indestructible! The only way to solve it is to put all 10,000 mental powers on the puppet before the puppet has practiced the secret technique a thousand times!

“Xu Ming... Can it be done?”

The three spirits are clueless.

In their view, such a test is really too difficult! After all, how could it be so easy to learn the secret skills of the Holy Spirit?

Moreover, before, although some people have reached the fifth floor of the Tower of No Difficulty, but no one has ever been able to pass this test.

And the fate of failing the test is – death!

“The test set by the master is too harsh, it is almost impossible for anyone to do it!” Ta inspired.

“I really don’t know if the entire Divine Realm has been able to meet the master’s requirements in the past, and in the future, whether there is a genius!” The spirit of protecting the city also said.

“Humph!” The spirit of the earth snorted coldly, “Master’s wisdom is beyond your imagination! Master does this, naturally he has his reasons!”

“That’s right!” Ta Ling and the spirit of the moat broke out in a cold sweat when they heard the words—yes! A great master, how can they be questioned by the humble ones! ?

Even the towering spirit and the spirit of the moat have a deep sense of uneasiness in their hearts because of their little thoughts just now; it's like two children who have done something wrong.

...

The fifth floor world of the Tower of No Difficulty.

The puppet rested for a while and explained the rules of breaking the tower to Xu Ming in detail, then restarted his mental energy: "This is the second time, you can see clearly! – I can only demonstrate it a thousand times, and I will not be able to do it once. Many!"

"Second time..." Xu Ming thought for a while and said, "What the hell! From now on, I can gather my heart and attack you?"

The puppet smiled disdainfully: "As long as you can condense your heart!"

Want to condense the heart imprint the second time? Just a crazy dream!

Chapter 988: It Shouldn'T Be A Monster Like This

"Okay, I'm going to start the second demonstration!"

The speed at which the puppet manipulates the mind and condenses the mind is still very slow, like slow motion!

The second demonstration starts from the first "Instant Killing Seal"!

However, when the puppet started to condense the heart imprint, Xu Ming actually began to manipulate the mental force to condense the heart imprint!

"Huh?" Seeing this, the puppet couldn't help sneering, "It's only the second time, you definitely won't be able to condense your heart! I advise you, don't be too lofty and low-minded, or down-to-earth, watch me practice a few more times first, Let's try to gather some simple heart marks again!"

Even the three artifact spirits who were watching secretly shook their heads: “Hurry up! Xu Ming is in a hurry!”

“Yeah! It’s only the second time, and he is in a hurry to gather the heart imprint. It’s too impatient! It’s better to concentrate on studying a few more times, and when you are sure, then gather the heart imprint!”

“Genius, is the common problem of being unable to hold back! I thought that Xu Ming would be an exception; I didn’t expect that he would not be exempt!”

“Look... I hope he can pass the fifth floor smoothly!”

...

Of course Xu Ming didn’t know, because one of his actions would actually cause so many thoughts from the three spirits. However, even if Xu Ming knew about it, he wouldn’t care, because... For Xu Ming, it would be no pressure to pass through the fifth floor; but Xu Ming, he just wanted to make a quick decision and pass it earlier!

shhhhhhhh...

Xu Ming’s mental strength was constantly condensing and changing, and he quickly completed the first few thousand steps of the tens of thousands of steps to construct the instant kill mark; and each step was exactly the same as the puppet’s demonstration, exactly!

“Oh?” The puppet was a little surprised, “You have forcibly condensed so many steps? – However, it is estimated that you just memorized it by rote, and you don’t understand the mystery of the flow of mind power; in this case, you will still not be able to go smoothly in the end. Condensed the instant kill mark!”

The puppet said so much with “hard-heartedness”, and seeing that Xu Ming was still “going my way”, he couldn’t help shaking his head: “There is no cure!”

However, Xu Ming ignored the puppet at all and continued to “go his own way”. The flow of mind power controlled by him is also completely synchronized with the mind power controlled by the puppet; whichever step the puppet takes, he will follow it!

At first, the puppet was still there, “hating iron is not steel”; but gradually, the puppet’s expression began to become serious – he found that Xu Ming’s mental energy flow was exactly the same as himself from beginning to end!

“Could it be... He can condense the instant kill mark just the second time?” The puppet couldn’t believe it.

But after just a few short breaths, the puppet has to believe if he doesn’t believe it! – Because, Xu Ming actually completed the tens of thousands of steps of the Instant Killing Seal almost at the same time as him, and successfully condensed an Instant Killing Seal!

“What!?” The puppet was also wise, and was also very confused at this time.

“Impossible!” The three artifact spirits watching in secret exclaimed in unison.

impossible?

In the next moment, the instant kill mark in Xu Ming’s hand disappeared abruptly; at the same time, a small light lit up on the body of the black puppet – this small light lit up, which represented Xu Ming’s “instant killing”. Killing Yin”, has passed the test and is qualified!

“He...” The puppet stared blankly at the little dots on his body, “He succeeded!?”

You must know that the puppet will practice this holy-level mental power secret skill a thousand times! And now, only for the second time, Xu Ming has successfully condensed the Instant Killing Seal—although the Instant Killing Seal is almost the easiest one of the “Wanxin Seals”; however, the previous tower breakers, the fastest It was only after the puppet had practiced the secret technique ten times before successfully condensing an instant kill mark!

Compared with Xu Ming, the previous tower breakers were really...a judgment!

“abnormal!”

“evildoer!”

“He was just born for ‘Heart Force One’!”

The three spirits sighed with emotion.

At this time, the puppet calmed down his shocked mood, and began to practice the second seal – the confusion seal!

This Heart Seal is obviously much more practical than the Instant Kill Seal!

Because, the instant kill mark can only kill those enemies whose strength is much lower than the caster; it has almost no effect on enemies of the same level; this is very tasteless – after all, to deal with enemies whose strength is much lower than you, even if you don’t use it Instant Killing Seal can be easily defeated! And it’s useless to deal with enemies of the same level, so what else can the instant kill mark be used for besides being used to install X?

In comparison, the Confusion Seal can play a role even against enemies of the same level, or even one or two levels higher; it can make the enemy fall into confusion, unable to play a perfect combat state!

Seeing that the puppet began to practice the Confusion Seal, Xu Ming immediately drew the gourd and began to condense this second seal.

And Xu Ming’s action naturally caused the three spirits to exclaim: “What? He still needs to condense the mark of confusion? – Even if he has just successfully condensed the mark of instant killing, this move is too self-sufficient. Are you big?”

“That’s right! The difficulty of the Confusion Seal is much higher than that of the Instant Kill Seal! – This is the second time, and he will condense the Confusion Seal. Where does the confidence in the confusion come from!”

but...

After a while, the spirit of the earth, the spirit of protecting the city, and the tower spirit all seemed to be slapped in the face!

There is no suspense, Xu Ming successfully condensed the confusion mark again; this is equivalent to directly hitting the faces of three artifact spirits!

“Forehead...”

“Forehead...”

“Forehead...”

The three spirits were all speechless. They just want to say—Xu Ming, ah Xu Ming, you can be a monster, but you shouldn’t be like this, right?

Don’t give the three spirits any time to react Xu Ming followed the puppet’s footsteps and began to condense the third seal—the sign of weakness!

The puppet looked at Xu Ming with a bit of melancholy – would you give me some face? This way of condensing the heart marks over and over again makes me feel very embarrassed when I teach the secret skills!

As for the three artifact spirits, they have become cautious now, and dare not arbitrarily assert that Xu Ming cannot successfully condense the sign of weakness!

“The Weakness Seal is slightly more difficult than the Confusion Seal! In my opinion... Xu Ming should, estimate, probably, probably won’t be able to condense it?” Taring said hesitantly, “What do you two think?”

The spirit of the earth and the spirit of protecting the city were also worried about being slapped in the face by Xu Ming again, so they did not dare to say too absolute: “It should, estimate, possibly, probably cannot be condensed!”

However, not long after, a gleaming sign of weakness appeared in front of them.

“It’s too enchanting...” The puppet sighed and began to practice the fourth seal – the immobilization seal!

“I want to see, how many heart imprints you can continuously practice!” The puppet is a little unbelieving.

Chapter 989: Permission Denied

Do not believe in evil?

It's okay, Brother Ming made him believe in evil in minutes!

The fourth seal, the body seal! —Xu Ming is perfectly condensed!

The fifth seal, the seal of fury! – perfect cohesion!

The sixth seal...

The six hundredth seal, the seal of the divine armor! Still perfectly condensed!

Ten Thousand Swords Seal, Slow Seal, Gold Line Seal, Wood Line Seal, Water Line Seal...
Teleportation Seal...

When the puppet demonstrated for the second time, no matter what kind of heart imprint the puppet condensed, Xu Ming condensed it perfectly at almost the same time!

The puppet has completely believed in evil at this moment!

Completely served!

The expressions of the three artifact spirits watching in secret have long since become numb! – Xu Ming's perverted monster has deeply shocked them!

Shocked to numbness!

Next, no matter how perverted Xu Ming behaves, they probably won't have any reaction – because they are completely numb!

“Even such a difficult ‘teleportation seal’ was condensed by him...” Taring was dumbfounded.

Although “Teleportation Seal” is slightly simpler than “Time Deceleration Seal”; however, its agglomeration difficulty is definitely ranked in the top 100 in “Wanxin Seal”!

Compared with the teleportation print, those instant kill prints, confusion prints, etc., are simply the gap between “1+1” and advanced mathematics!

“Could it be... Xu Ming can really condense 10,000 kinds of heart imprints in just the second drill!?” Taring couldn’t help but thought in horror, “If this is the case, then the previous fifth-floor tower breakers, How stupid compared to Xu Ming!”

You must know that on the fifth floor, the puppet will practice the “Seal of the Thousand Hearts” a thousand times in total; but even so, with endless long years and countless peerless geniuses, none of them can pass the fifth floor!

actually...

Xu Ming himself was also a little shocked!

Xu Ming’s talent, aptitude, and comprehension are indeed very strong, but generally speaking, the speed at which he learns secret skills is far from that fast! What’s more, it’s a secret skill of the mental power genre that has never been touched before!

But now, Xu Ming found that he felt like a duck to water when he learned “Wan Xin Yin”.

No matter which heart imprint it was, after watching the puppet show it once, it seemed to be directly imprinted on his mind; therefore, when the puppet demonstrated it for the second time, he was able to follow the puppet and unite the imprint together!

“What’s going on here? Why am I learning so fast?”

To be honest, Xu Ming is now learning the speed of “Wan Xin Yin”, not only so fast that others are numb, and even he himself is a little scared!

This kind of learning speed, there is a feeling that it is faster than hanging up!

But...Although he was shocked, Xu Ming was enjoying it. After all, who would dislike cultivating too fast?

The puppets practiced the Heart Seal one by one.

And the little dots on the puppet also light up one by one – each time one lights up, it means that Xu Ming has a heart mark that has passed the test and has been “qualified”!

A thousand highlights!

Two thousand highlights!

Three thousand highlights!

Five thousand highlights!

“Nine thousand nine hundred and ninety-nine bright spots! – With the last ‘Unity Seal’, Xu Ming will be able to pass the fifth floor!”

Although the three artifact spirits had long been shocked and numb, they couldn’t help but be amazed.

“The second time I practiced, I passed the fifth floor. Xu Ming is really about to do it!”

“His aptitude in the mental school is much better than what the master requires! Maybe, in the future, he will be able to reach the height of the master!”

“Achieving the height of the master? That is the pinnacle of God’s Domain! – To reach such a state, talent alone is far from enough, and many opportunities are needed!”

“Yeah... The existence of any peak in the Divine Realm is created by great chance! Without enough great chance, even if the talent is against the sky, it will not help!”

...

In the amazement of the three artifact spirits, Xu Ming had perfectly condensed the 10,000th seal “one seal”!

The puppet looked at Xu Ming both excitedly and disappointedly: “Congratulations, you have successfully passed the fifth floor!”

The meaning of the puppet’s existence is to select a suitable successor for the great master; now that a perverted Xu Ming has been selected, of course he is very excited.

But at the same time, the puppet also thought that his existence in the future might not have any meaning, and it was inevitable that he would be lost for a while.

“Passed?” Xu Ming was not surprised at all.

Taring’s voice resounded throughout the space again: “Xu Ming, you can go to the sixth floor now!”

Go to the sixth floor?

Xu Ming thought for a while and said, “Don’t worry! Let the puppet accompany me to practice a few more times! I have just mastered “The Seal of Ten Thousand Hearts”, and I am not skilled enough!”

“Um...” Taring was the first to encounter such a request.

However, Xu Ming’s request is reasonable, and of course Taring is willing to see Xu Ming’s strength stronger. So, Ta Ling instructed the puppet to accompany Xu Ming to practice a few more times.

The puppet is also very happy – it has already lost its “meaning of life”, and now he can practice with Xu Ming a few more times, and the meaning of life will come back all of a sudden!

And Xu Ming practiced “The Seal of Ten Thousand Hearts” several times, and the result was that the three artifact spirits were severely shocked several times!

After a few more practice sessions...

Xu Ming has mastered some simple heart marks to the extent that he can use them in actual combat! – You must know that every heart mark in “Wan Xin Yin” is extremely complicated; even the simplest instant kill mark has tens of thousands of steps! In actual combat, there is no time to give you a step by step to condense your mind; tens of thousands of steps must be completed in a single thought!

A single thought condenses the mind – such a mind is at the level of actual combat!

If you can’t “consolidate the seal with a single thought”, then in the actual combat of the electric light flint, it has no meaning!

...

“The sixth floor!”

After getting familiar with it, Xu Ming raised his head and walked to the sixth floor.

“I don’t know, what is waiting for me on the sixth floor?” Xu Ming was looking forward to it.

In the Tower of No Difficulty, I went all the way to the fifth floor.

The first three layers, although there are some gains, are only material, and the benefits are not much.

For Xu Ming, the fourth and fifth floors were quite rewarding! – On the fourth floor, Xu Ming honed his mind, and the mentality school became a ***** in one fell swoop; on the fifth floor, Xu Ming learned a “sacred mental power secret skill”!

Especially the holy-level mental power secret skill of the fifth floor, this is a priceless treasure!

Normally, the higher the tier, the richer the reward! Therefore, Xu Ming is full of expectations for the sixth and seventh floors.

However, it is more than Xu Ming who is full of expectations; even Ta Ling is full of expectations. Because... even with Taring's authority, you can only see the situation on the first five floors; starting from the sixth floor, even Taring has no authority and can't know what's on it!

Yes!

Not even Taring knows!

The sixth and seventh floors are not controlled by Taring!

Chapter 990: Heart-Killing Arrow

The sixth layer of the world is filled with thick gray fog.

These mists not only block sight, but also block mental and mental power. Xu Ming was in the thick fog and lost his direction for a while.

"What kind of test will there be on this sixth floor?"

Xu Ming waited for a while, but did not wait for the voice to instruct him what to do; he had to try, choose a random direction, and go out to explore—however, what Xu Ming did not know was that the space of the sixth-layer world had been seriously distorted; Whichever direction he goes, in the end, he will come back to the same destination.

Walked about half a day.

Xu Ming suddenly felt a tyrannical pressure of will, attacking from the front.

"Something?"

Xu Minglian quickened his pace.

The further forward he went, the more tyrannical the willpower became, and even Xu Ming felt a sense of difficulty walking.

“Could it be... This sixth floor is to test my will?”

Gradually, Xu Ming felt difficulty even raising his head; his whole body was already dripping with sweat.

“Humph!”

But Xu Ming still gritted his teeth and moved forward firmly.

After walking for another quarter of an hour, Xu Ming finally arrived at the central area of willpower. When he got here, every step he took, he seemed to use up all his strength.

And Xu Ming finally saw the shadow of a black arrow floating in the sky in front of him.

This is a very ordinary looking arrow! But that powerful and terrifying willpower coercion emanated from this arrow.

As long as you are not a fool, you can guess that this black arrow is not simple – not only is it not simple, but it is also very scary!

“What kind of arrow is this...” Xu Ming looked at him in shock.

In fact, at the level of gods, weapons have become somewhat unimportant. Artifacts such as swords, spears, swords, and halberds are the most important for the gods to cooperate with the use of secret skills; if you do not use secret skills, then whether there are weapons or not has little impact on strength!

However, the arrow in front of him is obviously different from ordinary artifacts.

This is a “magical arrow” that will obviously have a huge impact on strength!

Xu Ming held the pressure of his will, and reached out his hand to reach the black arrow with difficulty.

However, when he touched the arrow, he seemed to have touched a piece of nothingness – he could see it, but he couldn’t!

“Huh? What’s the situation?” Xu Ming was slightly startled, “Could it be that this arrow doesn’t exist in the material plane?”

Since it does not exist on the “material level”, does it exist on the “spiritual level”?

Xu Ming also manipulated his mental power to form a mental tentacle and grabbed the arrow. However, what the mental power caught was also nothingness.

“This...” This is the first time Xu Ming has seen such a treasure – neither the material level nor the spiritual level exists!

“Could it be that this is... a treasure like mental strength?”

Xu Ming had never seen a treasure of the mind force – after all, mind cultivators are really rare, and treasures of the mind force genre are even rarer!

The mental level is completely different from the material level and the spiritual level!

Matter and spirit cannot interfere with things at the mental level.

“Try to use your mental power!” Xu Ming manipulated his mental power again and touched the arrow.

This time, Xu Ming touched it!

This black arrow feels extremely cold to the touch, and seems to be able to freeze people's hearts; and the pressure on it can even shatter people's hearts!

“Sure enough, it's a treasure like mental strength!” Xu Ming was secretly shocked, “But, what should I do next? Refine this arrow directly?”

Just then, a message came from the black arrow.

This piece of information should be left by the peak existence of the Divine Realm who created the Realm of No Difficulty. After reading this message, Xu Ming immediately understood a lot, and became more and more shocked: “Chaos Divine Weapon!?”

What is “chaos”?

Heaven and earth are bred from chaos.

When the heaven and the earth first opened, that is, when the chaos just began to breed this world, it also gave birth to some treasures and weapons! – Treasures nurtured by chaos are called “Chaos Treasures”; weapons are called “Chaos Divine Weapons”!

And the black arrow in front of Xu Ming's eyes is one of the Chaos Divine Weapons nurtured by heaven and earth!

“The origin of this arrow is really not small!” Xu Ming pondered with fear.

You know, this is the magic weapon that Chaos gave birth to when the world was bred together! To put it bluntly, this black arrow is equivalent to the “twin brother” of God's Domain!

However, in the process of gestation, this side of the world, that is, the realm of the gods, absorbs more chaotic energy, so it is “the most nutritious” and the best chaotic; and the black arrow in front of me absorbs the chaotic energy. It is estimated that there is very little gas, so it looks a lot more depressed!

But no matter how downhearted, it is still a powerful chaotic weapon!

I am afraid that even the emperor-level powers are not qualified to own such treasures! Only the peak existences of God's Domain can have Chaos Divine Weapon!

Thinking of this, Xu Ming couldn't help but get excited: "On the sixth floor of the No Difficulty Tower, there is nothing else but this black arrow. Is this... the meaning of letting me refine this chaotic weapon?"

But at the same time, Xu Ming also had some doubts: "Why is there only 'arrow' but no 'bow'?"

A bow and arrow is complete with a bow and an arrow; if there is an arrow but no bow, what is the use of this arrow?

Suddenly, a voice resounded in Xu Ming's mind: "The chaotic weapon 'Heart Punishing Arrow' uses the divine body as the bow and the heart as the string, mobilizes the order of the heavens, and kills everything! – Refine it quickly!"

Take the ***** body as the bow!

Take the heart as the string!

Xu Ming seemed to understand something instantly.

"Refining!"

Xu Ming's mental strength instantly penetrated into the interior of the black arrow and began to refine this chaotic weapon.

"I don't know... How powerful is this chaotic weapon!"

However, since this black arrow is the "twin brother" of God's Domain; Xu Ming estimates that no matter how weak it is, it will not be weak! After refining, it is not surprising that Xu Ming's strength has soared to a great realm!

Xu Ming sat cross-legged in the void, his mind condensed into hundreds of millions of threads, bounding the black arrows like a cocoon, refining with all his strength.

...

Exactly ninety-nine-eighty-one days later.

“Finally the refining is successful!”

After such a long time, Xu Ming even felt exhausted. But fortunately, the refining was finally successful!

call out!

The black arrow disappeared directly from the sixth-layer world, and instead appeared in Xu Ming’s “heart”.

The treasure hidden in the “heart” is undoubtedly hidden very secretly, even more secret than the “memory”. Even other mind cultivators who are much stronger than Xu Ming would not be able to know that Xu Ming has a chaotic weapon hidden in his “heart”!

“Let me feel a little bit, the power of this Chaos Divine Weapon ‘Heart Punishing Arrow’ ...”
