

# ABOVE THE GRAY FOG

## Chapter 5: Strange Line Fish

After escaping from the trapped forest, the scene in front of me was completely different. The purple flowers and the towering trees 100 meters high were all gone. In front of me were endless hills with undulating terrain and covered with gravel.

Lin Shan watched all this quietly, and his ominous premonition came true.

"Where are we? I want to go home..." A woman couldn't help crying and murmuring.

"We... can't go back. We can't find the way back." A fragile woman cried out and her body shook. If someone hadn't been supporting her, she would have fallen to the ground.

"How should we... survive in this strange world?" Even some men's voices were trembling at the moment, full of strong fear and uneasiness.

"Don't panic, stay calm, there will be a solution." Zhang Zhonghua shouted.

"That's right." Lin Shan nodded in agreement: "The gray fog has been dispelled, we can explore the surrounding area."

The unknown fills some people with awe and fear, while also giving others a desire to explore.

Lin Shan took the lead and walked forward, wanting to take a look at the situation nearby.

Zhao Xiaoan was not far away, seeming a little cold, with his arms folded, his beautiful face a little pale. When Lin Shan passed by, she took off her coat

and handed it over. She said thank you, then shook her head and refused: "I'm not cold, I'm just a little scared..."

Lin Shan didn't say much. He was just offering kind help from his companion. When he saw the other party's refusal, he put on his coat and continued walking forward.

After traveling a few hundred meters, another river appeared in front of us. It was much smaller than the river we saw before, only about ten meters wide.

Wu Wang's eyes lit up when he saw the river: "Old Lin, don't leave. I can't walk anymore. Let's see if there is anything to eat nearby."

Others are exhausted, too.

"I've been hungry for a long time. I wonder if there are any fish in this creek..."

"I just saw some fruit on the trees near here. I wonder if I can eat it."

"I also saw that the fruits were ordinary in shape and not bright. They looked like ordinary wild fruits."

"But don't forget, this is a world with extraordinary power, so be careful."

Seeing that the sky was getting dark, everyone discussed for a while and decided to camp here.

Zhang Zhonghua looked around and said: "Lin Shan, Wu Wang, Jin Tianzong, you make a simple harpoon and go to the river to see if there are any fish. Luo He, Si Zhennan, let's go pick some wild fish from the trees." fruit."

After a pause, he took out a lighter from his pocket and handed it to Chao Yuxin, saying, "The remaining five girls will go pick up some dead branches from around to make a fire."

Fortunately, the lighter was worn by him and traveled through time with him. Otherwise, he would have to imitate the ancients by drilling wood to make fire.

"good."

"no problem."

Everyone responded.

Ten minutes later, looking at the branch in his hand, Lin Shan couldn't help but fall into deep thought. He knew how to make a simple harpoon. He didn't have any tools, so he couldn't chew one out with his mouth...

Wu Wang and Jin Tianzong were the same. They had no choice but to stare at the branches in their hands.

Sighing, Lin Shan suggested: "Just find a few sharp branches. Let's go to the river first and have a look."

Wu Wang smiled and said: "The fish in the other world may not have seen humans and are not smart. They may be particularly easy to catch."

"Jie Jie, is there a possibility?" Jin Tianzong laughed strangely and said: "The fish in the other world are more powerful than us..."

Lin Shan smiled and said: "It's really possible. Don't forget, there are extraordinary beings in this world."

"That's right, we have no ability to resist at all when faced with such weird things." Wu Wang nodded.

"Stop it, stop it." Jin Tianzong made a stop gesture: "I was just joking. What you said seems to be true. It's scary."

Lin Shan smiled and said nothing. Although Jin Tianzong was almost forty, there was no trace of an elder in his character.

The three of them walked another hundred meters and came to the river. The water was crystal clear, and at a glance they could see a fish that looked like a human being swimming in the river.

The reason why it attracts people is because this fish has two heads, which makes people panic just by looking at it. Moreover, this two-headed fish is actually a bit silly as Wu Wang said, and will not swim away when it sees people coming.

The three of them hesitated for a moment, not knowing whether they should grab it or not. Their hands holding the sharp branches were trembling.

"Boom!" There was a sound of branches entering the water, and the two-headed fish was directly stabbed through. The penetrated fish was stunned for two seconds before starting to struggle desperately. Unfortunately, it was too late. Lin Shanmeng forced it Pick ashore.

Looking at the two-headed fish still jumping alive on the shore, Wu Wang gave Lin Shan a thumbs up. This fish was half a meter long and very fat. Just one fish was enough for two adults to eat.

"Is this fish edible? The two heads look weird." Wu Wang felt numb looking at the fish on the ground.

"Don't look at creatures from other worlds with the eyes of earthlings." Lin Shan replied, and then said: "Look again and catch a few more. This fish may not be afraid of people because it has never seen people before. Easy to catch."

"Okay." Wu Wang responded and began to search carefully on the shore.

...

"Boom!" With a sound, another half-meter-long two-headed fish was picked up ashore. This time it was caught by Jin Tianzong.

"That's enough, let's go back quickly. We've gone a little far." Lin Shan looked at the darkening sky and reminded: "It may be completely dark in half an hour."

Each man held two fish in his hand and returned along the original path along the river bank.

Suddenly, a huge blue full moon suddenly appeared above everyone's head, illuminating the earth with a faint blue light.

Lin Shan looked up at the blue moon above his head in shock. This blue moon suddenly appeared without any signs, and it was so huge that it hung above his head, making people feel that it would fall down in the next second.

"Blue moon..." Wu Wang and Jin Tianzong also looked at the blue moon that suddenly appeared in amazement.

"Hurry back." Lin Shan urged. He felt an inexplicable pressure under this blue moonlight.

"Huh?"

At this moment, Lin Shan looked at the river.

There was a group of twisted black lines in the river, which looked a bit like a fish.

"Strange line fish?" Lin Shan was a little surprised and doubtful.

Jin Tianzong asked in confusion, "Why do I feel a little cold all of a sudden?"

"Yes, yes, yes." Wu Wang hugged his arms and trembled, "From the beginning, I felt a chill on my body, just like the air conditioner was turned on."

Lin Shan felt even more obvious. Not only did he feel cold all over, but he also had a lot of cold sweat on his forehead. His body was a little weak, and his strength was lost unconsciously.

He immediately realized that something was wrong and shouted, "Get out of here quickly."

"Bang!" With a sound, Jin Tianzong fell straight to the ground. Lin Shan's pupils shrank, and he wanted to call Wu Wang to carry Jin Tianzong and run out.

Before he could open his mouth.

"Bang!" There was another light sound, and Wu Wang also fell down.

What was creepy was that the fish-shaped strange thing swimming in the water actually floated directly on the water surface, and its whole body was trembling at a high frequency.

"Buzz~"

With the strange trembling, the darkness as thick as ink quickly attacked.

At the moment of darkness, Lin Shan threw the fish in his hand directly, hitting the high-frequency vibrating ball of thread. The moment the fish touched the ball of thread, it rotted directly! Not even the bone residue was left after a while.

In the end, Lin Shan was still wrapped by the darkness.

He could feel that he had lost control of his body. Except for his brain, other parts were slowly losing consciousness, as if something was gnawing at him. As time passed, more and more parts lost consciousness... If it spread to the whole body, Lin Shan could be sure that his fate would not be better than the previous fish.

Lin Shan was sweating all over. He tried his best to break free, but it was useless. His whole body was like being nailed by iron nails, and he didn't move at all.

He struggled desperately in various ways, but it still didn't work.

"Am I going to die here?" This was the only thought in his mind at the moment.
