

Above All 141

Chapter 141 Do You Want to Learn Divination?

Li Li looked at the porcelain bottle in Dong Xi's hand, as if he wanted to see the pill inside through the porcelain bottle. He asked in shock, "All of these are top-grade Spirit Restore Pill?"

Dong Xi nodded.

"You can refine pills perfectly now?" Li Li was even more shocked.

Dong Xi bit her lip and said with some embarrassment, "These are all basic operations."

!!

Li Li, "?? "

In the past, Li Li did not feel that he was old, but why did he not understand the words of the young man now?

Fortunately, Li Li was a Senior Brother, so it would not be embarrassing to ask. Li Li asked, "What's the meaning of this?"

“The basic operation is that every disciple here can do it,” said Dong Xi with a low-profile expression.

But why did her words sound so complicated?

Li Li’s feelings were extremely complicated and indescribable. Looking at the little girl in front of him, Li Li wanted to say something, but he couldn’t.

After a few times, he finally asked, “Xiaoxi, do you want to learn fortune-telling? Divination?”

Only mediocre people would specialize in one. A true genius would do well in everything they learned.

Dong Xi, “...”

Of course, if she wanted to learn! In her previous life, she even went to fortune-telling to scry her luck before the exam!

However, it was a little awkward.

Dong Xi looked at Li Li and said with embarrassment, “Senior Brother, I do want to learn, but... Isn’t your divinity inaccurate?”

If it was in the past, Dong Xi's words would have been able to affect Li Li's Dao Heart. However, after being provoked by Dong Xi several times, Li Li did not care about such a small attack anymore.

As long as Li Li admitted his failure, no one would be able to use this to attack him!

Li Li sat on the ground calmly and picked up his fan again. Li Li smiled and said, "I won't allow it now, but I know all the ways of Fortune-telling. I'll teach you, so can't you just perform divinity yourself?"

Dong Xi waved her hand, and the cauldron lid flew back to the cauldron. Then, she looked at Li Li. Dong Xi cupped her fists and said, "Senior Brother, please teach me!"

He couldn't teach Dong Xi the cultivation techniques of Destiny Valley, but the six elements and eight trigrams were traditional divination techniques, so it did not matter if he taught them to Dong Xi.

Dong Xi's own cultivation technique was also an extremely powerful eight-nine cultivation technique, which did not conflict with divination.

Li Li immediately said, "The number of heavenly fate is 50, and its use is 49, which is divided into two segments..."

Dong Xi heard Li Li's words and suddenly realized that this seemed to be 'probability theory'?

According to Li Li's explanation, the great yang was three-sixteenth, the great yin was one-sixteenth, and so on. This meant that the luck and misfortune were basically half and half.

After Li Li said so much, he looked up and saw that the little girl seemed to be distracted.

Li Li sighed and said, "Forget it. You don't really understand these things at your age. If you don't understand anything, tell me. I'll explain it to you again."

When Li Li first studied this, he did not understand it at all. In the end, Li Li only understood it after his master took out an item and demonstrated it many times.

Dong Xi was a few years younger than Li Li back then, so she naturally did not understand.

But just as Li Li finished speaking, Dong Xi came back to her senses and said with a smile, "Senior Brother, please continue. I understand."

Li Li asked in disbelief, "You really understand? Little girl, don't pretend to be clear just for the sake of your face."

"Just continue, Senior Brother, I really understand," said Dong Xi.

Li Li continued to say that yin and yang would reverse for things, and things would reverse when they reached an extreme.

When Dong Xi heard this, a look of realization appeared on her face. Li Li asked, "You can really understand?"

"You've explained it in great detail, Senior Brother. It's easy to understand," said Dong Xi with a nod.

Li Li did not know if Dong Xi really understood or if she was trying to save face by saying this. Li Li said, "Since I've made it clear, let me ask you. Next month, the Ningtian Sect will be having a competition. Do your calculations and see if you can enter the top ten."

When Dong Xi heard Li Li's words, she remembered that the competition was coming soon. In the past few days, Dong Xi felt that she seemed to be about to break through again. If she successfully broke through to the fifth level of Qi Refinement stage and entered the top ten, it should not be a problem, right?

But these were all Dong Xi's conjectures. Now that Li Li asked Dong Xi to calculate it herself, Dong Xi had to do good divination!

Dong Xi took out some papers from her storage ring.

Li Li originally wanted to give Dong Xi a set of Oracle Bones, but when he saw Dong Xi's actions, he asked doubtfully, "What are you doing?"

Dong Xi dipped the brush into some ink and said lightly, "Senior Brother, don't panic. I'll be able to calculate it in a moment!"

Li Li looked curiously at the symbols Dong Xi wrote on the paper that he could not understand at all, and an idea suddenly appeared in his mind.

Chapter 142 How about I Acknowledge You as My Master?

Li Li thought in his heart, this girl couldn't possibly be a talisman cultivator, right?

Although it was not quite possible, Li Li felt that it was not strange for such a thing to happen to Dong Xi. As the saying goes, 'It is reasonable if it exists.'

Dong Xi wrote an entire page, and on the top were Arabic numbers that only she could understand. Finally, she came to a conclusion.

Dong Xi said, "Senior Brother, according to the divination, it's impossible for me to enter the top ten with my current cultivation base. However, it's not to this extent. Therefore, I've done some divinations for this competition. According to my calculations, this competition might not be able to be held!"

!!

Li Li, "?"

This girl just casually wrote a few strokes on the paper, and she performed two divinations? Who was this girl? Was she really just a little girl?

Li Li could not believe it. He took out the Oracle bone and began to calculate for a long time.

Dong Xi was a little impatient from waiting. During this time, she had refined two furnaces of pills. Li Li finally stopped with a complicated expression and muttered to himself, "It's true..."

Was this really the girl's first time learning fortune-telling?

When Dong Xi saw Li Li stop, she immediately asked, "Senior Brother, are you done? Did I calculate it correctly?"

As she spoke, Dong Xi began to form seals and congeal her core.

Li Li looked at Dong Xi's small movements and said in shock, "You're saying that you can be distracted while refining pills?!"

"I can multitask," said Dong Xi indifferently.

She did not feel any pressure at all.

Li Li continued to ask shamelessly and asked in confusion, “What’s ‘multitask’?”

Dong Xi put all the refined pills into a porcelain bottle, took out a blank Jade slip, and copied the basic law of ‘two minds at the same time’. Then, she threw it to Li Li and said, “This is it. I’ll give it to you. You teach me divination, and I’ll teach you how to do two things at once. We’re even!”

No one could reject the beauty of multitasking. After all, a person’s energy was limited. If one could multitask, it would save a lot of trouble.

Li Li kept the jade slip and decided to learn it when he had time in the future.

He had to ask what Dong Xi had written just now. Li Li was more interested in the symbols that he could not understand.

“Junior Sister, what did you just write?” asked Li Li. “Can you tell me? You calculated so much faster than I did!”

“No!” Dong Xi shook her head and casually said, “This is my unique secret manual. I can’t teach it to others!”

“That’s a pity!” Said Li Li with some disappointment.

It was not that Dong Xi did not want to teach Li Li, but she had to start with basic mathematics, which could not be learned in a few days.

Just as Dong Xi was about to say that She would teach him slowly after all the debts were paid off, Li Li suddenly said, "How about I acknowledge you as my master? If you teach it to your own disciple, does that mean it's not considered an external teaching?"

Dong Xi, "?? "

For the sake of learning mathematics, he had to do this?

"No, it can't be like this, right?" Dong Xi's face was stiff.

The fan in Li Li's hand had also been put away. He cupped his fists to Dong Xi and said, "The ancients once said that if three people walk together, there must be a teacher. If I can learn this method, I can even kowtow three times and bow nine times!"

It couldn't be helped, he was so eager to learn.

Dong Xi would not really take Li Li as a disciple, so she avoided Li Li's bow and said, "Senior Brother, you don't have to do this. My method is nothing. If you really want to learn, I can teach you."

“Alright, I won’t let you teach me for nothing,” Li Li said with a smile.

Only then did Dong Xi mention the divination from before. Dong Xi asked, “Senior Brother, was my divination correct?”

“It’s correct. It seems that your sect can’t hold the competition this time,” said Li Li seriously.

At first, Dong Xi was very happy. She had just finished learning and he was already able to calculate it correctly.

However, on second thought, if the competition could not be held, would Ke Xin be unable to enter the inner sect? Furthermore, something that could affect the competition must be something very important. Dong Xi could faintly feel the calm before the storm!

As Dong Xi was thinking about this, her hands did not stop at all. She refined two more furnaces of medicinal pills. now, Dong Xi’s alchemy was no different from an assembly line.

Dong Xi refined pills during the day and began to meditate and cultivate at night. Li Li, who had always been free and unruly, was influenced by Dong Xi and followed her to meditate and cultivate for three days.

Li Li was very surprised when he meditated this time. The bottleneck that had been bothering him for a long time showed signs of loosening.

Although he was happy, Li Li still asked doubtfully, “Although Immortal cultivation is a heaven-defying cultivation, don’t you feel particularly tired by not sleeping or resting like this?”

Chapter 143 Death in the Tomb of Life

Dong Xi looked at Li Li in surprise. She did not expect Li Li to ask such a question.

Dong Xi said calmly, “Even if a thousand insects die, a day passes nonetheless. We cultivators may have about a thousand years of life, but in the eyes of demon beasts, isn’t it only a few days? You also know that Immortal cultivation is a heaven-defying cultivation. Since that’s the case, why don’t you work hard? After all, if you don’t advance, you’ll fall behind!”

When Li Li heard this, it was as if he had been hit in the head. He only came back to his senses after a long time, and the way he looked at Dong Xi also gradually changed.

Li Li could not help but sigh. “Junior Sister, you have such awareness at such a young age. It really makes me blush with shame. I’ve really lived my hundreds of years in vain!”

!!

Dong Xi did not expect that she would succeed in acting tough again. She looked at Li Li in surprise. Sure enough, the world of Immortal cultivators did not care about looks like his previous life. Here, any young man who looked very young could be older than Dong Xi’s ancestors!

Dong Xi’s expression was serious as she tried to correct her twisted form of address. Dong Xi said, “Why don’t I just call you Martial Uncle!”

Li Li: “?”

Why couldn't he praise her? You still want to change the topic? How could this be?!

Li Li said with some hidden bitterness, “Junior Sister, are you looking down on my old age?”

Dong Xi did not dare to say this directly and immediately said, “Senior Brother, how can you be old? In the world of cultivators, you are considered young. You can't undervalue yourself like this!”

The hidden bitterness on Li Li's face lessened a little. He said, “I've gained a lot from being with Junior Sister these few days. Just now, Junior Sister's words woke me up from my dream. I've come to a realization and need to go into seclusion to cultivate for a while.”

Hearing Li Li's words, Dong Xi was overjoyed. She could finally cultivate alone for a while!

Previously, it was fortunate that Li Liwan knew to leave in the evening. Otherwise, Dong Xi's did not even know where to hide.

“I wish you all the best in advance, Senior Brother,” said Dong Xi immediately with cupped fists.

After watching Li Li leave, Dong Xicai took out a piece of paper again and started to write and calculate.

If the tournament could not proceed as planned, Ke Xin would have to stay in the outer sect for a longer period of time. the difference between the inner and outer sect was huge. It was not just the resource merchants but also the cultivation techniques. This was not a good thing for Ke Xin.

Dong Xi used the skill she had just learned to read Ke Xin's fortune.

According to the divination, there would be some gossip while waiting. As long as Ke Xin appraised it, there would not be any major issues.

Dong Xi immediately heaved a sigh of relief. Thinking of the inner tank in her Dantian, she suddenly had a flash of inspiration and directly calculated the great snake's fortune.

However, this divination was very strange. At first, it was calculated that something good would happen in the next two days, but it seemed that someone was interfering, and the divination became messy.

The more she calculated, the more unclear it was.

Could it be that she had not learned it yet, so it was only right that she could not calculate it properly?

At this moment, Su Cheng, who was standing in the valley, looked at the sky and asked, "Is it Destiny Valley?"

Those fortune-tellers from Destiny Valley always wanted to find out where he was. Now that his inner core was still in that girl's body, they could be considered to have confused the heaven's secrets. However, this time, Destiny Valley had found him. It was even more effective than a dog's nose. It made him want to get rid of Destiny Valley!

Su Cheng stepped on the spirit vein that the Zhang family bought and said, "Using the spirit vein to seal that Huan Ye is really a waste of God's gift!"

The snake tail knocked on the barrier a few times, and Huan Ye opened his blood-red eyes. After seeing who it was, his face was filled with anger, and a thick demonic Qi spread out. Huan Ye said fiercely, "You actually still dare to come?"

Su Cheng looked down at Huan Ye, his eyes locked on to him like he was his prey. "Is there anything I don't dare to do?"

With a casual wave of his tail, there was no spiritual energy fluctuation in the surroundings, and the Huan Ye let out a painful roar.

Huan Ye roared, "If you have the ability, let me out! All you do is stand there and rely on a human's barrier and seal!"

With killing intent in his eyes, he stood on the barrier and casually extracted the spirit vein.

The enchantment that had been operating on the spirit vein also had a flaw.

The vibration of spiritual Qi could be felt within a thousand miles of the valley. The Ningtian Sect was the first to know about this news.

The Master of the Ningtian Sect, Wei Nan, asked again in disbelief, "What? You're saying that someone broke the seal on Huan Ye?"

The disciple did not dare to hide anything and immediately said, "Sect Master, it's absolutely true. According to the news sent back by the disciples who went to investigate, the entire mountain range is filled with demonic Qi. They were about to activate the protective shield to go in and investigate, but they couldn't last more than 15 minutes!"

Chapter 144 Any Casualties?

Wei Nan frowned and asked with a dark expression, "Are there any casualties?"

"Three ninth level Qi Refinement disciples died, but nothing happened to the Foundation Establishment disciples and above," the disciple replied.

"If these three disciples still have relatives alive," Wei Nan said, "give each of their family members a Rejuvenation Pill. Also, those disciples who are in a hurry and above the Golden Core stage, as long as they don't have any tasks at the moment, immediately rush over!"

...

Dong Xi refined a few more cauldrons of medicinal pills. There were still 38 years to go before her debt to Second Senior Brother would be paid off!

Dong Xi had just gotten up to move her body when a bell rang from within the sect.

Dong Xi had read the rules of the sect. Something big must have happened when the bell rang.

Dong Xi's expression changed. Could it be that she had really predicted this?

Just what kind of major event could make the sect postpone the great tournament?

Dong Xi put away his bag and walked out of his room. People from the surrounding pill refining rooms also came out from time to time to inquire about news.

Dong Xi had just walked into the courtyard when he realized that many people had already come out.

A scroll appeared in the sky and it was slowly opening. The words on it jumped into the clouds. This was the sect leader's order. There were two messages.

First, all disciples above the gold core realm must immediately receive ten bottles of top-grade Spirit Restore Pills and head to the Illusionary Valley.

Second, inform the sect disciples that the sect competition has been postponed. I hope that the sect disciples will not forget their original aspirations and continue to cultivate.

“Illusionary Valley?” Dong Xi asked, puzzled.

Dong Xi guessed in her heart. Could it be that t demonic beast that had been sealed previously had once again come out to stir up trouble?

However, Dong Xi still did not understand. The last time, only four Senior Brothers at the Golden Core stage went to seal it. Why did so many people need to go this time? It was as if they were sending all the people of the sect there.

Dong Xi had been more interested in fortune-telling these two days, so she subconsciously took out a piece of paper and began to do it.

But a moment later, Dong Xi looked at the results of her divination and began to think again.

“Everything went smoothly?” Dong Xi was puzzled. “How did this happen?”

Dong Xi could not understand, and she did not expect that the incident that shook the entire sect was actually caused by the great snake.

Huan Ye had also expected that this stinky snake would actually let him go. Huan Ye stepped on the demonic Qi and soared into the sky. He raised his head and let out a long roar. He was extremely arrogant. Everyone within a hundred miles could hear his roar, including those disciples of the condensing heaven gate who were guarding the periphery.

The disciples of the Ningtian Sect started to discuss.

“As expected, that demon beast ran out! Didn’t the sect just send people to seal it?”

“I don’t know!”

“This demon can only be sealed, but can not be killed! They might have even more powerful abilities, but we don’t know!”

Su Cheng did not stop the demonic Qi. Huan Ye walked on the air and stopped in front of Su Cheng. He bared his teeth and drooled on the ground, emitting white smoke.

“You idiot!” Huan Ye said provocatively. “Back then, Ningtian had only sealed me. You’re just a snake demon who has been here for a thousand years. How dare you disrespect this Demon King!”

Su Cheng raised his head and patted his shoulder. A green light flashed on his body. The surroundings of Su Cheng seemed to become a vacuum. The demonic Qi automatically avoided Su Cheng!

“Oh?” Su Cheng faintly said. “How do you know that I can’t do what that old man in the Ningtian Sect can’t do? You’re just a stupid dog. This low-level demonic Qi has a stinky smell. It’s really disgusting!”

When had Huan Ye ever suffered such humiliation? He roared in anger, “Stinky snake, you’re looking for death!”

Huan Ye moved, his speed extremely fast. This sky full of demonic Qi was also Huan Ye’s best protective color.

However, as soon as Huan Ye appeared in front of Su Cheng, he was immediately whipped away by a huge snake tail.

Huan ye crashed onto the ground, not knowing why that green spiritual energy was so powerful, almost scattering the demonic energy on Huan Ye’s body.

Huan Ye roared in anger. This sound made the disciples of the Ningtian Sect cover their ears immediately to prevent themselves from being bewitched by the Demon King.

Looking at Huan Ye, who had suddenly become a hundred feet tall, he laughed in disdain, “You’ve been sealed for so many years, but you still haven’t learned how to be a good dog. Since that’s the case, I’m in a good mood today, so I’ll kindly teach you again!”

The golden color in Su Cheng’s eyes became more and more intense. Just Huan Ye was about to rush up, the surrounding air seemed to have become a wall.

Spatial Law?! Huan Ling was surprised.

Su Cheng did not have the patience to talk nonsense. His snake tail whipped at Huan Ye with the power of thunder.

Most of Huan Ling's demonic Qi was scattered.

Huan Ye wanted to fight back, only to find that he was trapped in the air, unable to move.

Chapter 145 The Laws of Heaven and Earth

He did not even have enough demonic Qi to cast spells.

This snake was so strange. He was clearly just a poisonous snake, but it could use Spatial Laws and the power of lightning?

What was the cultivation level of this venomous snake? He could not see through it at all!

Su Cheng looked into the distance and sensed someone coming. He whispered, "How reliable. You're going to die so soon."

As soon as he finished speaking, Su Cheng's hands formed a seal. His movements were so fast that only afterimages could be seen.

The Spatial Cage that trapped Huan Ye shrank bit by bit, squeezing toward Huan Ye.

"So what if we're demons?" Su Cheng asked. "So what if they are humans? Since you exist in the world, you must abide by the laws of the world. Even if you can use demonic Qi to regenerate your flesh, I want to see if you can recover this time!"

As soon as Su Cheng finished speaking, his palm slowly clenched into a fist. The Spatial Cage could not withstand the pressure and directly exploded, turning the space into fragments.

Huan Ye within also followed these fragments into the long river of space.

"He's really weak," Su Cheng said indifferently.

Su Cheng took out a handkerchief and slowly wiped his fingers.

Looking at the entrance of the Illusionary Valley again, he turned around and flew in another direction.

As Su Cheng walked past, the surrounding demonic qi disappeared. The sun in the sky once again shone into the valley as if nothing had happened. Only the withered plants on the ground told him what had happened here.

A disciple ran back to the entrance of the valley and said, "Brothers! The demonic Qi inside has dissipated!"

"What?" another person asked. "It dissipated? Huan Ye has already run away?"

"I don't know," the disciple from before said. "But we've been waiting here all this time. We didn't see anything come out!"

A disciple with a higher cultivation level said, "Alright, let's go report to the Sect Master first!"

...

Hearing this news, Wei Nan frowned and asked in confusion, "The demonic Qi has dissipated?"

The reporting disciple said, "That's right. The sect disciples just went in to check and found traces of a fight. But we don't know where Huan Ye went. It's as if she disappeared into thin air. There's not even a corpse."

Wei Nan could not figure it out either, so he asked the Sect Master of Destiny Valley to check it out. This Huan Ye was very powerful. Back then, Lord Ningtian was already at the Mahayana stage, and his sword technique was even more powerful, but he still could not kill Huan Ye.

Wei Nan did not believe that Huan Ye was dead. Maybe he had run off somewhere?

Before the Wei Nan people could go over, the disciples of the Ningtian Sect came to report again. "Sect Master! The spirit vein in the Illusionary Valley has been taken away!"

When Wei Nan heard this, he wasn't too shocked. If Huan Ye had run away, how could he not have taken the spirit vein with him? After living for so many years, Huan Ye couldn't be a stupid dog!

"You guys stay here," Wei Nan said. "I and the sect Master of Destiny Valley will rush over immediately."

Dong Xi refined pills until evening before taking out the jade slip and looking at the square. Only then did she know that something big had happened.

The demon in the Illusionary Valley had escaped and taken away the spirit vein!

For a time, the entire cultivation world was in a state of panic. All the major sects and families told their disciples not to go out and travel.

Everyone was trying to find out if anyone had already died at the hands of the demon race, but up until now, not a single one had died. Only three disciples of the Ningtian Sect had been invaded by demonic Qi during their investigation and had unfortunately died.

Dong Xi touched her chin. No wonder her previous divination had said that everything was going smoothly. The demon race had escaped. Of course, there would not be any danger.

However, she did not know where this demon had run off to. If she ran into the demon, she would basically be in trouble.

Dong Xi saw that the sky was already dark, so she put away her alchemy furnace and planned to return to her cave abode.

Now, the alchemy room had the earth fire drawn in by the sect, so the spiritual power had decreased a lot. However, one still had to return to the cave abode to cultivate. The matter of Dong Xi's spirit body had to be kept a secret for the time being.

But this time, as soon as Dong Xi opened the seal of the Immortal's cave, she discovered that something was different. Why did the spiritual Qi in the Immortal's cave suddenly become denser?

Could it be that Master could not bear to see his little disciple cultivating the inner scroll every day and specially came over to change it to a better Spirit-gathering Array?

Dong Xi had also been to her master's Immortal's cave before, but it didn't have such dense spirit Qi.

Dong Xi entered the room and saw that the bed was occupied by a man. The huge snake tail was hanging by the side of the bed. Even if this person turned into ashes, Dong Xi would never forget him.

Songsong, who was sleeping soundly on the bed, was thrown onto the futon. She hugged her tail and continued sleeping. But she looked so pitiful that one could not help but want to hug her!
