

Above All 196

Chapter 196 Book Search

Dong Xi knew that these things weren't something he could figure out by himself. She should go and look at what the predecessors had said.

The moon had just set, and Dong Xi was cultivating. Taking advantage of the fact that the sky was still dark and that no one would recognize her, she immediately headed for the Library Hall.

She should check the books and see what they say.

If there was no use in checking the books, Dong Xi could only be thick-skinned and make a deal with Kong Xing!

Dong Xi successfully entered the Library Hall and headed in the direction of the runes.

There were very few people reading books here, so she could read books alone to comprehend. The runes in the books were like scribbles, completely incomprehensible.

Therefore, most of the seal cultivation sects still relied on the guidance of their master.

This gave Dong Xi a chance to take advantage of the situation. Dong Xi was the only one who remained silent. She directly sat on the ground and casually took out a book called 'Beginner Runes Starting Stance' and started to read it attentively.

According to the book, the starting position of each rune was completely different. Different methods of gathering spiritual Qi were also different.

Dong Xi opened the table of contents and directly looked for the page with formation-breaking runes.

...

In some sense, Stealthily Swapping Pillars was also to break the formation, but it did not destroy the formation.

Dong Xi flipped to the formation-breaking runes, which explained the starting position of some runes.

How could she just look? There were some things that could be seen from the book, but doing it personally was different.

Dong Xi took out a pen and paper that she always carried with her. She was very glad to have such a good habit. Then, she began to write and draw on the paper.

Dong Xi followed the book's instructions and used the same starting gesture to draw the rune again, but it was still of no use.

Dong Xi did not want to solve it right away. She calmly drew a few more times and memorized all the starting movements. Then she put down the book and took out the Law of Runes.

Dong Xi had used all sorts of methods to draw those runes hundreds and thousands of times. Now, she could sense a bit of spiritual power.

A smile appeared on Dong Xi's face. It seemed that the direction of her research this time was correct.

Dong Xi immediately took out a new piece of paper and summarized her successful drawing method.

Looking at the results of her hard work, he was very satisfied. Even her handwriting, which had always been unremarkable, seemed to look better at this moment.

Dong Xi once again looked at the runes drawn on the wooden barrel by the stars, and she frowned.

...

What other reasons had she not found? This rune was too difficult.

Just as Dong Xi was thinking, she subconsciously looked at the blood vessels on the back of her hand.

A thought instantly appeared in Dong Xi's mind, and then she had a look of realization.

That's right!

How could Dong Xi have forgotten such an important thing?

The runes in the starry sky were drawn with her own blood, so blood must be an important medium!

Dong Xi once again looked at her fair and tender hand. She made up her mind. It's just a little blood. I'll go all out!

Dong Xi used a magic art that Second Senior Brother had taught him before, and a drop of blood appeared on her fingertip. Dong Xi began to draw on the paper with her finger.

But soon, another problem appeared.

The blood extraction method only required one drop of blood. This little drop of blood was clearly not enough for Dong Xi to draw the runes.

The most important thing about drawing runes was that one could not stop. It had to be completed in one go.

...

Dong Xi bit her lip and sighed. "It seems like it's impossible not to stab myself."

Dong Xi took out her sword and cut her finger. Seeing blood gushing out, she immediately started drawing on a new piece of paper.

She drew a few, but there was no effect. Dong Xi did not give up and continued to draw with other starting positions.

After more than 30 attempts, Dong Xi finally noticed a bit of spiritual power on the paper.

However, the spiritual power only lasted for a moment before it dissipated. Then, the paper immediately burst into flames.

Dong Xi immediately jumped in fright. This was the Library Hall. If it caught fire, it would be a great disaster!

Dong Xi immediately made a hand seal and extinguished the flame.

Looking at the raggle-filled corridor, Dong Xi was afraid that her Senior Sister would find out and deduct her points, so she cast a cleaning spell again to restore the place to its previous appearance.

Seeing that there were no traces, Dong Xi said in a low voice, "Fortunately, it was successful. Otherwise, I'm afraid I would have died from excessive blood loss."

Dong Xi put the book in her hand back on the shelf. Now, Dong Xi already had some insights in her heart.

The paper that Dong Xi had used to draw was ordinary paper, which could not withstand Dong Xi's blood and the infusion of spiritual Qi.

...

The broken wooden bucket that Kong Xing used to draw in the village, although it looked very broken, was still made of thousand-year-old peach wood.

"Forget it, I've already figured out what's going on. I'll try again when I get back."

Chapter 197 Points Awarded

Dong Xi left the Library Hall and returned to her cave abode.

Just as she was about to break the restriction and enter, she heard someone shout, “Junior Sister Dong Xi!”

Dong Xi turned around and saw a person flying up from the foot of the mountain.

Dong Xi felt a little strange. Ever since she moved into the inner sect, no one had come to visit her. Why did someone come today?

When Dong Xi saw her, she smiled and said, “Senior Sister Wang Ying? How come you’re free to come over today?”

Wang Ying circulated her spiritual Qi and increased her speed. She reached Dong Xi’s side in a few seconds.

Dong Xi immediately cupped her fists and bowed. Wang Ying returned the gesture.

“Junior Sister Dong Xi,” Wang Ying said with a smile, “I could’ve just sent you a message, but we didn’t leave any spirit breath, so I came here in person.”

Upon hearing these words, Dong Xi was even more puzzled. Just what matter could it be that would make her Senior Sister personally make a trip down?

Wang Ying did not delay and continued, "Junior Sister, the experience you shared half a month ago was recorded by the disciples. Not only were the Alchemy Sect disciples inspired, but the Array Sect and Equipment Refining Sect disciples also benefited greatly. After the Sect Master learned about this, he discussed with the 18 elders and decided to turn your experience into a book and put it in the library. You can also borrow two books at the same time in the future."

Dong Xi was stunned. Oh? Wasn't it a little ridiculous? She only explained how to change the variables for alchemy, right?

Wang Ying thought that Dong Xi was too excited and continued, "Other than these, because of your outstanding contribution to the sect, the sect has rewarded you with 30,000 points, which can be used to exchange for cultivation resources."

When Dong Xi heard this, she immediately drew in a cold breath.

No matter how good the reputation was, it was all fake. However, the points were real.

30,000 points! To Dong Xi, who could only get 20 points by completing a mission, that was a windfall!

Dong Xi sincerely cupped her fists and said, "Many thanks, Senior Sister!"

"Why are you thanking me?" Wang Ying asked with a smile. "It's all because of your good work!"

Dong Xi lifted her hand to remove the restriction and said with a smile, “Senior Sister, do you want to go in and sit for a while?”

Since she was already here, she could not just let her stand outside, right? Although the cave dwelling was occupied by the giant snake, Dong Xi could take her to the pond in the backyard to sit down.

The great snake was so alert that he could not have been discovered by a low-level cultivator like Senior Sister.

Dong Xi had already prepared herself mentally, but she did not expect Wang Ying to reject her directly. Wang Ying said, “I appreciate your kindness, but I just used a speed talisman. I need to go back quickly.”

Dong Xi fell silent as he watched Senior Sister Wang Ying leave.

This Senior Sister looked refined, but she was actually an impatient person.

After watching Senior Sister Wang Ying leave, Dong Xi took off the identity token from her waist. Without returning to her cave abode, she jumped onto the little turtle and flew toward the Mission Hall at the foot of the mountain as fast as he could.

She had to go and take a look personally.

It was useless to just listen to it. She had to see for himself that she had all the points in her account. Only then would Dong Xi feel at ease!

Dong Xi flew to the Missions Hall and immediately rushed in to place the waist token on the table.

Seeing the confused look in the Senior Brother's eyes, Dong Xi gasped and said, "I'll have to trouble Senior Brother to help me take a look, how many points do I have left?"

Usually, there were many underlings who came to inquire like this. After all, it was difficult to obtain points, and everyone's days were tight.

Once he had investigated clearly, he would know whether he would be taking on missions in the following days or living a calculative life.

The Senior Brother on duty picked up the identity card and placed it on the array. Then, a long string of characters appeared.

30,004 points.

When Dong Xi personally saw this string of numbers, the corners of her mouth were about to split open.

Happiness was always so sudden. How long would she be able to use these points?

When the Senior Brother on duty saw the number, he asked with a smile, "You're Junior Sister Dong Xi?"

Dong Xi nodded. The Senior Brother on duty continued, "Everyone knows that the sect has rewarded you with points. Now, everyone is under your influence and is working extra hard."

When Dong Xi heard this, she immediately felt a little embarrassed. The Senior Brother on duty continued, "Especially the disciples of the Sword Sect. They either practice their sword skills or take a bath every day."

Dong Xi's eyes lit up. She had just received another piece of news. The bathing pool of the Sword Sect had been completed! She could go and freeload tomorrow!

"Thank you for your help, Senior Brother," said Dong Xi with cupped fists. "Junior Sister still has some other matters to attend to. I'll take my leave first."

She had been a little anxious when she had come over. When she had been driving the little turtle, he had almost exhausted his spiritual energy. The spiritual energy he had left was only enough to use the Earth Bending a few times.

Dong Xi ate a medicinal pill and used Ground Bending to return to her cave abode.

Chapter 198 Good News

Dong Xi released the restriction and entered. Songsong and Liu Qing ran out.

Songsong jumped into Dong Xi's arms, grabbed her sleeve, and asked, "Xiaoxi, where did you go just now? Why didn't you come back?"

Dong Xi knew that the two little fellows had probably missed her. Dong Xi's face was full of smiles as she said, "There's good news. The sect has rewarded us with a lot of points."

Songsong and Liu Qing did not know what the points were for, but they were happy to see Dong Xi's happy face.

Dong Xi had already placed the futon under the willow tree. She cast a cleaning spell to clean off the dust on the futon and sat on it.

Dong Xi thought about the things he had obtained in the past two days, but what she should do now was to find a suitable carrier and carve the runes on it.

Dong Xi pondered for a moment and finally looked at the stone sculpture of a frog by the pond.

It should not be a problem to use this thing to draw runes, right?

Dong Xi raised her hand and used her spiritual Qi to control the frog to come over. However, the frog statue actually showed some resistance. It was useless to use a little spiritual Qi.

Dong Xi increased his spiritual energy, and the frog statue finally flew over.

Perhaps it was because the frog statue had been nourished by spiritual energy, but it had actually turned greener than before, as if it was showing off that it was not ordinary.

Seeing such a frog statue, Dong Xi was also a little excited.

Was there a better carrier than this?

Dong Xi took out her sword and drew a line on her hand. Then, she drew runes on the frog's body according to the method she had learned before.

In the end, the runes flashed, and Dong Xi felt the fluctuations of the runes.

Dong Xi was overjoyed. She had succeeded!

Dong Xi immediately wanted to try out this newly learned 'Stealthily Swapping Pillars', but she did not know if it was the same as Kong Xing's.

What should Dong Xi change to?

Dong Xi looked around and finally looked at the stone door of the Immortal's cave. A crazy idea appeared in her heart.

Didn't the great snake set up a restriction in the cave? Wasn't this a ready-made test subject?

Research had to be indomitable! Dong Xi immediately stood up and walked to the entrance of the Immortal's cave. She raised her hand and began to draw runes on the stone door.

Su Cheng, who was inside the cave, also felt the little girl's sneaky behavior outside. He saw the little girl drawing on the door, but he did not know what she was doing.

Just as Su Cheng was feeling puzzled, Dong Xi had already finished the rune. She looked at the work on the wall with satisfaction and put away the pen in her hand.

Under the cover of Su Cheng's divine sense, Dong Xi secretly pushed open the stone door, then activated a spell to reach the frog and quickly threw it in.

Su Cheng could not understand what the little girl was doing. This little girl always did strange things.

But this time, Su Cheng did not bother to understand...

Dong Xi saw a green light flash on the restriction of the stone door. The next moment, a figure appeared in front of Dong Xi.

The black clothes swayed slightly, revealing the black scales underneath.

His gaze slowly moved up, and a belt was casually tied around his waist, making him look like a strong man with a narrow back and a curly beard.

The man turned around. Dong Xi did not have time to avoid him and met the man's eyes.

Even though the sun was blazing, the temperature was instantly gone. Dong Xi could not help but shiver.

Dong Xi suddenly realized that she was courting death this time. Although the great snake's tolerance was still alright, he was still Demon Lord Su Cheng! Being toyed with by Dong Xi like this, in his eyes, didn't she deserve to die?

Dong Xi looked away in fear and guilt. Su Cheng coldly said, "Explain?"

Dong Xi peeked at Su Cheng and whispered, "I just... want to ask you... to come out to see the sun."

It's over. Even Dong Xi did not believe this explanation.

Su Cheng, "..."

Su Cheng looked at the stone door and the runes on it. He said, "You're really quite capable."

Dong Xi was so nervous that her toes were about to break the soles of her shoes. When she heard the great snake say this, she raised her eyebrows.

Dong Xu suddenly felt that the great snake did not seem to be too angry.

It was said that the demon was numb to killing, but in reality, he was so down-to-earth?

Dong Xi raised her head to look at Su Cheng. She wanted to say something, but in the end, she lowered her head.

There were some words that no matter how thick-skinned Dong Xi was, she could not say the words out loud.

"Speak immediately!" Su Cheng frowned.

Dong Xi looked at Su Cheng's expression with a strange expression. The snake asked her to say it...

“Isn’t it quite interesting?” asked Dong Xi. “Do you want to go in and try again?”

Su Cheng was confused.

Dong Xi was just casually saying it and did not dare to really do it. Without waiting for Su Cheng to speak, Dong Xi immediately smiled and said, “It’s just a joke, just a joke... Hahaha.”

Su Cheng’s looked at Dong Xi for a long time before looking away. The sunlight on her head was a bit glaring. Su Cheng narrowed his eyes and said, “I don’t think you have the guts to do so.”

Chapter 199 Breaking the Array Formation

When Dong Xi heard this, her fear dissipated and he heaved a sigh of relief.

Based on Dong Xi’s understanding of the great snake, this matter was considered over.

Demon Lord Su Cheng’s generosity was unbelievable.

The scene was frighteningly quiet. Songsong and Liu Qing stood under the willow tree, not daring to move forward. Dong Xi wanted to say something to break the silence, but she did not know what to say.

!!

“What were you doing just now?” Su Cheng asked.

Dong Xi lowered her head and played with her fingers, mumbling in a low voice, “Nothing much. I’m just doing some research on how to break formations.”

Su Cheng raised his eyebrows and said in surprise, “Breaking formations?”

Why did this human youngling start setting up formations again? She seemed to have some achievements...

Su Cheng reached out and grabbed the frog statue that Dong Xi had thrown into the cave.

Su Cheng looked at the item in his hand curiously and said in disbelief, “Is this the thing you’re using?”

Although this statue had some spiritual aura, it was not that strong. In the end, this little thing broke the restriction? And even got him out?

Dong Xi did not quite understand it either. Back then, Kong Xing could save Ah Leng with a broken wooden bucket, but he needed Ah Leng’s cooperation. Now, Dong Xi had swapped out the great snake without it knowing? Could it be that the runes were drawn wrongly?

But... This was also a type of success, right?

Before Dong Xi could say anything, Su Cheng saw the runes on the frog. He looked at Dong Xi and said, "So it's this a rune?"

Dong Xi came back to her senses at this moment and nodded. However, she suddenly thought of something and shook her head.

Su Cheng was immediately puzzled. He saw Dong Xi turn around and point at the runes on the door. Dong Xi said, "Not only that, but you also need this to use it together."

Su Cheng looked at it and suddenly became interested. He looked up at the cave and said, "You go in."

Dong Xi was a little confused.

Seeing Dong Xi's confusion, Su Cheng raised his eyebrows and a smile appeared on his face. He said, "You've summoned me once, so isn't it reasonable for me to summon you again?"

Dong Xi, "..."

It was reasonable, so reasonable that she could not quite understand it. Was the great snake addicted?

Even though she had some complaints in his heart, when he saw Su Cheng's gaze, Dong Xi cowered without a future.

Forget it, wasn't it just being summoned once? Let's go in and experience what it feels like.

Dong Xi walked to the stone door, pushed it open, and walked in.

Su Cheng held the frog and saw the stone door close. He walked to the door and transmitted his voice to Dong Xi. Su Cheng said, "We'll start now,"

Su Cheng's voice rang out. Dong Xi was standing by the door, her eyes filled with anticipation. She really wanted to know what it felt like to be replaced like this.

Then, the door opened a crack.

The frog statue was thrown in, and Dong Xi instinctively went over to catch it.

The statue in Dong Xi's hand flickered with light. She was not on guard at all. In the next second, it wrapped around Dong Xi's entire body, and her figure slowly disappeared from the cave.

Dong Xi opened her eyes again. She was not in a cava abode, nor was she outside the cave. She was not even in the Ningtian Sect.

It was pitch-black in front of Dong Xi. Her Eight-nine Cultivation Technique was still running, and he did not feel any danger.

The fire spirit essence was released from her palm, and a ball of fire lit up the place.

This was not a dark room, nor was it Shandong. It was a large field of green plants that did not seem to be wet.

Green plant?

The fire appeared on Dong Xi's hand, and she suddenly realized that the frog statue he had been holding in her hand was gone.

Could it be that Dong Xi was currently inside the frog statue?

"Hey!" Dong Xi shouted. "Can you hear me?"

Dong Xi's voice spread far and wide, but there was no response.

Dong Xi frowned and continued, you have so many spirit plants here. After eating my spiritual stones, you only gave me a few seeds?!

There was still no response. Dong Xi snorted and took out her storage bag. Dong Xi said, "If you don't say anything, I'll take all the spirit herbs here!"

There was still no response. Dong Xi did not hesitate. She would bring these spirit herbs back and use them to refine many medicinal pills!

Dong Xi happily waved her shovel and dug up these spirit plants. The high-grade ones were placed into a jade box, while the low-grade ones were casually thrown into the storage bag.

It was not until a huge fireball appeared in the sky that Dong Xi stopped what she was doing.

The sky was bright, but it was not the sun that rose.

How should she explain this? It was a huge fireball that rose to the sky, as if to allow the spiritual plants to grow well and act as an artificial sun.

Chapter 200 I've Arrived at a Treasure Land

Dong Xi's field of vision began to clear up. Only then did he see clearly that the distance was filled with nursery gardens, and Dong Xi was only in one of them.

When she thought of the many spirit herbs, Dong Xi was even more motivated.

Dong Xi ran forward to choose a high-grade spirit plant and dig it up properly!

However, just as Dong Xi was running forward, the air instantly distorted, and Dong Xi's figure disappeared.

!!

Dong Xi once again returned to the cave abode, still holding the shovel in hiers hand.

Su Cheng sensed Dong Xi's spiritual Qi outside the door and immediately walked in.

Seeing Dong Xi covered in dirt, Su Cheng frowned and asked, "Where did you go just now?"

Dong Xi looked at Su Cheng. She also wanted to know about this and wanted to go there again.

No, she did not mind if she lived there forever!

Dong Xi put away the shovel and looked at the frog statue on the ground. She went forward to pick it up and looked at Su Cheng, smiling proudly. Dong Xi said, "Tell me, you can't possibly be thinking that I've come to a treasure land!"

Hearing Dong Xi's words, Su Cheng was even more curious. He had felt the space fluctuation just now. Su Cheng said, "Treasure land?"

Su Cheng looked at the frog statue in Dong Xi's hand. The blood mark was still there, but it felt a little different from before.

Just as Su Cheng was sizing it up, Dong Xi suddenly stepped forward and placed the statue in his hand.

"Hurry up!" Dong Xi said. If you throw it again, I'll give you 20-80 percent of the spirit plants that I can dig up!"

Su Cheng looked at Dong Xi's money-grubbing face and raised his eyebrows. He wanted to tease her a little, but Su Cheng said, "20-80? You'll take 20 percent?"

Dong Xi, "..."

Dong Xi's shoulders drooped down in an instant, and she lost all motivation.

She could only get 20 percent? The labor was really cheap.

“Forget it, I’m not going. I’m going out to practice my sword,” said Dong Xi.

Dong Xi was about to walk out, but Su Cheng stopped her. He shouted, “Hold up!”

Dong Xi felt a gust of wind behind her and instinctively dodged to the side. When she saw that it was a frog statue, she reached out and caught it.

After that, Dong Xi disappeared.

Dong Xi’s vision turned pitch black once again, but she was extremely happy.

The darkness made her feel safe!

Dong Xi immediately stretched out her hand and circulated her fire spiritual energy to light up the surroundings. Then, she began to dig up the spirit plants.

Medicinal herbs in the Immortal cultivation world all had a temper. If they were pulled out and their roots were destroyed, their medicinal properties would quickly be lost.

Dong Xi did not have any treasures that could preserve the spirit herbs, so she could only use this method to dig them up bit by bit.

Dong Xi dug for the entire night, until the fireball rose, and Dong Xi's figure began to disappear.

When Dong Xi returned to the cave, she maintained her posture of digging spirit herbs.

Dong Xi, who noticed the change in the scene, sighed and stood up.

The snake was lying comfortably on bed with one hand supporting his head. Looking at the little girl who stood up, Su Cheng asked, "You're back so quickly?"

Dong Xi nodded. She had been digging for an entire night.

However, she had enough spiritual plants for two consecutive nights, so she could go again after a while.

Dong Xi's hand reached into the storage bag and took out the spirit plants she had worked hard to dig out, placing them on Su Cheng's table.

Su Cheng looked at Dong Xi and asked, "What are you doing?"

Dong Xi did not stop what she was doing. She said, "We agreed to give you 20 percent."

Dong Xi thought that this time, she would keep her promise. Next time, if she asked Su Cheng to send her in, Su Cheng probably would not refuse.

Su Cheng glanced at the spirit plants and said, "I have no need for this."

When Dong Xi heard this, she immediately said, "Alright!"

Dong Xi readily agreed and put the handfuls back into her storage pouch without the slightest hesitation.

He was a Demon Lord, so he naturally would not be interested in such a small amount of spirit plants! Dong Xi, on the other hand, bluntly kept it!

But before Dong Xi could be happy for a while, Su Cheng said, "You'll help me refine a cauldron of pills."

Dong Xi sighed in her heart. She knew that the great snake would not let her off so easily.

"What medicinal pill?" asked Dong Xi.

If the great snake's request was too high a grade, Dong Xi would definitely not agree.

"Three Purities Pill," Su Cheng said lightly.

"Three Purities Pill?" Dong Xi frowned and asked.

Don't even talk about refining it, Dong Xi had never even heard of the name of this pill!

"I don't have a pill recipe..." Dong Xi immediately asked, "And what grade is this pill?"

Su Cheng took out a blank jade slip and engraved the pill recipe into it. He then threw it to Dong Xi and said, "It's just a tier 3 pill."
