Chapter 201 Insufficient Abilities

This pill recipe was also given to Su Cheng by Lady Rong. The token that Dong Xi had given to Lady Rong previously contained a wisp of Su Cheng's divine sense. Originally, it was impossible for Lady Rong to intimidate those demon beasts by herself. Dong Xi had just delivered the token to her, which was a timely help.

Dong Xi took the jade slip Su Cheng threw over and pressed it against her forehead to feel the contents.

Dong Xi said, "tier-3, huh... I don't think I'm capable enough..."

Now, Dong Xi had 30,000 points and so many spirit plants. There was no problem with the spirit plants being used to refine pills, but Dong Xi's own spiritual energy might not be enough.

!!

Dong Xi currently had no problem refining low-grade Spirit Restore Pill and so on... She could even refine slightly higher grade Fasting Pills.

However, this tier-3 pill required twice as much spiritual energy as the Wind Speed Pill.

Hearing Dong Xi's words, Su Cheng said, "Aren't you about to break through?"

Dong Xi, "..."

"I'm indeed about to break through, but what makes you think that a little disciple like me can cross so many levels and refine pills that can only be refined above the tenth level of Qi Refinement?" Dong Xi said.

Dong Xi felt that he had to explain. If this continued, Dong Xi would not be able to continue hiding his strength.

Su Cheng smiled. He said coldly, "You've reached the sixth level of the Qi Refinement stage. Are you ordinary?"

Dong Xi frowned and stared at Su Cheng. Dong Xi said, "How did you know?"

Su Cheng looked at Dong Xi's Dantian. He said with a meaningful tone, "How do you think I know?"

Dong Xi was speechless. He had almost forgotten that the snake's inner core was still in her Dantian.

This traitor! Dong Xi had nourished it with spiritual energy for so long, yet this broken inner core still dared to help its original owner?

Su Cheng saw Dong Xi's dissatisfaction. He sat up and said lazily, "How about you make a deal with me?"

"What deal?" Dong Xi pondered for a moment and asked.

Su Cheng looked at the stone frog and said, "If you help me refine pills, I can send you to the treasured land if you want to go there next time."

Dong Xi's eyes lit up. She asked, "Just one cauldron of pills?"

Su Cheng shook his head. "No, the more the better. For every cauldron of pills, I will send you to that treasure land 10 times."

Dong Xi calculated for a moment and felt that this was still somewhat inappropriate. Dong Xi immediately bargained and said, "Each cauldron of pills, and you'll send me there 20 times. My cultivation level is still not high enough, and I need to eat a lot of Spirit Restore Pill to make one. 10 times is a little too little."

"Your cultivation will continue to rise, so at most 12 times," Su Cheng said.

When Dong Xi encountered such a situation, she would become very serious. She did not even notice the snake tail that was already at her feet. She said, "There isn't even much effort on your part. All you do is throw a frog at me, right? 18 times, it's decided. If you don't agree, I won't refine the pills."

As soon as Dong Xi finished speaking, the snake's tail wrapped around Dong Xi's ankle.

Dong Xi instinctively activated the spiritual energy in her body, but the moment the fire spiritual energy produced a spark, the snake tail instantly extinguished it.

Dong Xi was immediately picked up. Su Cheng touched the red bracelet on his wrist and said indifferently, "15 times. If you dare to say anything else, I don't have that much patience."

Was this a threat or a bribe?

Dong Xi looked at Su Cheng. After all, an arm could not win against a thigh, so she could only agree in the end.

In the next two days, Dong Xi would go and exchange for a treasure that could provide light and illumination, and then enter that treasured land. If she kept using fire spiritual energy, it would be a waste.

After coming out of the Immortal's cave, the sunlight outside was piercing, and Dong Xi's eyes were not used to it for a moment.

Dong Xi raised her hand to block the sunlight. After she got used to it, she turned her head to look at the big willow tree not far away.

Liu Qing and Songsong sat together on the tree branch. When Dong Xi walked over, Songsong and Liu Qing quickly came down from the tree.

“Little Xi, you’re finally out,” Liu Qing said with concern. “Did you get bullied?”

Songsong looked at Dong Xi with a pair of big eyes and kept nodding.

Dong Xi was stunned for a moment, then she smiled. She had indeed bullied by the big snake, but she could not lose face. Dong Xi tried to save face by saying, “Why would I be bullied? This is my Immortal’s cave!”

After Dong Xi finished speaking, she saw that Liu Qing still wanted to ask something. Dong Xi immediately continued, “How long have I been in there?”

Songsong did not know how to explain the time, so it could only look at Liu Qing.

“About 15 minutes,” answered Liu Qing after a moment of thought.

Chapter 202 Unknown Origin

When Dong Xi heard Liu Qing’s words, she was stunned. One had to know that Dong Xi had dug for spirit plants for two nights in a row, and even haggled with Su Cheng for half a day, but it had only been 15 minutes?

It seemed that the space and the outside world were two different worlds. Dong Xi was a little excited. It seemed that even if she went to dig for spirit plants, it would not delay her cultivation!

It was just that the origin of this frog statue was somewhat unknown, and it even contained a small world inside it.

Dong Xi looked at the statue in her hand and was no longer willing to throw it into the pool as a landscape ornament. If such a good thing were to get lost, Dong Xi's heart would really ache.

!!

Dong Xi put the frog statue into her storage ring and then went to the Points Hall.

Dong Xi used the points that she had just received to exchange for a treasure that could light up the night. After injecting some spiritual Qi into it, the treasure would light up and float in the air.

The person from the Points Hall said, "Junior Sister, this treasure only costs 100 points. At night, it can light up about three feet of the area. During the day, it can be restored in two hours. It depends on how you use it."

Three feet was a little small, but it was not too far off.

This was Dong Xi's first time learning that exchanging for a treasure was actually so expensive. This was even the most useless illuminating treasure, yet it still cost 100 points.

If it was not for Dong Xi suddenly obtaining those points, just this illuminating treasure alone would have caused Dong Xi to be bankrupt.

"Sure, I want this!" Dong Xi immediately said.

When people had money, they had to think about the days when they did not have money. They could not squander it casually.

"Senior Brother Chu Fan, pack the treasures for Dong Xi. Dong Xi also requested some jade boxes that can be used for storing spirit plants and herbs."

In comparison, these jade boxes were really cheap.

Dong Xi exchanged for ten jade boxes and an illuminating treasure, spending a total of 200 points.

After exchanging for the things she needed, Dong Xi did not return to the cave abode directly. She turned around and went to the Sword Sect.

She still had to go to the Sword Sect to practice her sword skills. The gravity of the sword stone array made it even faster to practice her sword skills.

During this period of time, Dong Xi's body-tempering had also shown some results. She had also grown quite a bit, and she was now almost 1.5 meters tall.

When Dong Xi was walking along the road, she was spotted by Xiong Ye. Xiong Ye started to greet her warmly from a distance.

"Junior Sister Dong Xi!" Xiong Ye suddenly roared, causing everyone to stop what they were doing and look at Dong Xi.

After a moment of silence, the crowd immediately surrounded Dong Xi and began to talk.

"Junior Sister! Have you finished your training?"

"Long time no see, did Junior Sister encounter any danger?"

"Junior Sister Dong Xi, you've grown quite a bit."

"Many people have been attacked when they went out to train. Did Junior Sister encounter any danger?"

...

When Dong Xi heard everyone's words of concern, she felt very warm in her heart.

"I didn't encounter any attacks, but I heard that almost all our Senior Brothers and Sisters were attacked out there," said Dong Xi. "Was it a sneak attack from the Green Cloud Sect?"

"I don't have any evidence," Xiong Ye said. "Master Yijian has already gone to over to the sect to obstruct them at the gate. There's a high probability that it's the Green Cloud Sect."

Dong Xi's expression was somewhat unsightly as she said, "It seems like what I heard in the Alchemy Sect was right. I heard that the sect had a total of six disciples who died."

The crowd immediately fell silent. Everyone's face was filled with anger. Those who had died were all fellow disciples, and they were ordinary disciples like everyone else.

With the Green Cloud Sect's actions, they might be the next ones to die.

Everyone was an ordinary disciple, so they naturally felt sad about the death of their fellow disciples. Dong Xi's heart was also very depressed. Dong Xi's current cultivation level was still a little low, so she could not help her fellow disciples.

Dong Xi clenched the wooden sword in her hand and said with a serious expression, "Today, the Green Cloud Sect killed my fellow disciples. My cultivation level is too low. In the future, when my swordsmanship is complete, I will definitely beat up the Green Cloud Sect disciples whenever I see them!"

As soon as she said that, everyone agreed.

"That's right, we're going to snatch their opportunities!"

"Destroy their treasures!"

"Break the legs of those Green Cloud Sect bastards!"

...

If it was not for the agreement between the Righteous Alliance, the Sword Sect disciples would also want to kill a few Green Cloud Sect people to vent their anger. However, they could not do it without leaving evidence like the Green Cloud Sect.

"Senior Brothers, how many of our Sword Sect's people are injured?" Dong Xi continued.

“About 70 people were injured.” Xiong Ye pondered for a moment and said, “Fortunately, the sect has abundant spiritual Qi, so they’ve recovered very quickly.”

When Dong Xi heard this, she frowned. She asked, “Didn’t the sect distribute pills to everyone?”

“Yes, but some of the disciples are seriously injured, and the Alchemy Sect can’t keep up with the supplies,” answered Xiong Ye.

Dong Xi frowned. She took out the Spirit Restore Pill she had kept earlier from her storage bag and handed it to Xiong Ye. Dong Xi said, “Senior Brother, distribute these pills to the injured. I’ll think of a way to get more pills for the rest.”

Chapter 203 Come Get It

Dong Xi took out the jade slip and immediately sent a message to Second Senior Brother.

Song Qingfeng did not waste any time and only replied with three words.

[Come get it.]

Sure enough, Second Senior Brother was rich and generous. He was too straightforward.

!!

As for Eldest Senior Brother Liang Yan, Dong Xi did not have any trouble with him. After all, she still owed Liang Yan a lot.

Dong Xi immediately used spatial bending and arrived at the entrance of Song Qingfeng's cave.

The restriction of the cave dwelling slowly deactivated, and the door opened. It opened just wide enough for one person to pass through. After Dong Xi entered, the door quickly closed.

Dong Xi had been here before. This time, she looked at the scenery of Song Qingfeng's cave. Although it was still as beautiful, it was not as shocking as the last time.

Dong Xi stepped on the rainbow and arrived at a pavilion. She saw Song Qingfeng brewing tea in the pavilion.

With smoke and water vapor swirling around, Song Qingfeng poured a cup of tea and motioned for Dong Xi to sit down.

Song Qingfeng poured the tea and took out ten pill bottles from his storage ring.

Dong Xi frowned when he saw Song Qingfeng take out only ten bottles. Dong Xi said in disbelief, "Senior Brother, you're only taking out ten bottles? This isn't enough for us to split, right?"

Song Qingfeng glanced at Dong Xi with a look of disdain. Dong Xi did not quite understand.

Song Qingfeng said. "The Spirit Restore Pill is such a trashy pill, so how can it be in my storage ring?"

Dong Xi blinked her eyes and seemed to have thought of something. She immediately revealed a smile and said, "As expected, I still have to come here for your advice, Senior Brother! Senior Brother, what kind of pill is this?"

Song Qingfeng proudly raised his chin and said, "Universe Pill."

Dong Xi immediately spat out the tea she had just drunk. She then shouted, "Senior Brother is awesome!"

The Universe Pill was a seventh-grade pill. With just one pill, even if one's arm was broken, it could grow back.

But more importantly, if a person with low cultivation consumed such a high-grade pill, they would easily explode and die. However, the Universe Pill would not have such effects.

As long as the seriously injured Senior Brothers and Senior Sisters of the sect ate this Universe Pill, they should be able to jump around immediately.

Even a Nascent Soul cultivator would have to be careful with these pills. However, Second Senior Brother had taken out ten bottles of them!

Dong Xi had always known that her Second Senior Brother was a rich man, but she had never thought that he would be this rich. It had completely exceeded Dong Xi's opinion of him.

Song Qingfeng looked at Qing Xi in disgust. He used a cleaning spell to clean the table, then poured away all the tea and made a new pot of tea.

Song Qingfeng said, "Look at you. Okay, I've already given you the pills. Hurry up and send them over. Don't waste Senior Brother's good tea."

Dong Xi was also thinking about the Sword Sect. Hearing Song Qingfeng's words, she stood up and bowed respectfully.

"Senior Brother, thank you!" Dong Xi said.

After saying that, Dong Xi did not leave. Her master was still in seclusion, and there were some things that Dong Xi had to consult with his Senior Brother.

"Senior Brother, Junior Sister has something that she needs your help with," said Dong Xi.

Song Qingfeng glanced at Dong Xi and continued to make tea. He said, "Eh? What else is there? Tell me about it."

Dong Xi's face became serious as she solemnly said, "Senior Brother, I want to see the Sect Master. Can you give me a recommendation?"

"Sect Master?" Song Qingfeng asked in surprise. "You're just a Qi Refinement stage disciple, why are you going to see the Sect Master?"

"I want to buy something from the Sect Master," said Dong Xi.

...

Song Qingfeng brought Dong Xi to the Drunken Peak, where the sect leader was. The disciple at the entrance went in to report.

Not long after, the young disciple walked out and said, "The Sect Master invites you in."

Wei Nan was surprised to see Song Qingfeng, and he was even more confused when he saw Dong Xi behind him. He had never seen this girl before.

"Song Qingfeng," Wei Nan said, "what brings you here today?"

Song Qingfeng glanced at Dong Xi, who was beside him, and said, "My Junior Sister insisted on coming to see you, so I had no choice but to bring her here."

Wei Nan looked at Dong Xi and thought for a few seconds before saying, "You're Dong Xi?"

Master Lingxu had five disciples in total. Two of them were female, and one of the female disciples was the young mistress of the Red Flame Bird clan. It was said that she had already used the Marrow-cleansing Gold and now had a heavenly spirit root. This disciple here did not have a very strong fire spiritual aura, so she should be the other female disciple of Lingxu.

"That's right, that's me," Dong Xi cupped her fists and respectfully said.

A few days ago, Dong Xi had explained her experience to everyone, and it had spread throughout the sect. In the end, she had been accepted by the Library Hall, and Wei Nan had even given her 30,000 points.

Although he did not know why Lingxu would accept a disciple with three spirit roots, from the aspect of pill refining, this disciple was indeed a genius.

Chapter 204 Soul-Amassing Lamp

Wei Nan looked at Dong Xi with a gentler expression. He said, "Why have you come to find me?"

Dong Xi respectfully cupped her fists and said, "Sect Master, I would like to ask if our sect has a Soul-Amassing Lamp?"

At that time, the giant snake had said that if anything happened to Dong Xi, he would go find the Soul-Amassing Lamp and save her.

Could it be that the Soul-Amassing Lamp could also gather the souls of the dead Senior Brothers, and these Senior Brothers would have a little hope of survival?

!!

Hearing Dong Xi's question, Song Qingfeng was very surprised.

Wei Nan was also very surprised. He said, "What? The Soul-Amassing Lamp?"

Dong Xi nodded, and Wei Nan continued, "We don't have one in the sect, but the Masked Moon Sect does. What do you want it for?"

Dong Xi was a little dejected. It would be really troublesome to borrow from other sects.

"Sect Master, this disciple is thinking that if we have the Soul-Amassing Lamp, we might be able to help those dead Senior Brothers and sisters by gathering their souls," said Dong Xi.

Dong Xi also did not know that she had accidentally created a difficult problem for the Sect Master. The Soul-Amassing Lamp could indeed gather souls, but if souls could really be revived so easily, how could the Masked Moon Sect not use it after so many people had died?

There was a huge price to pay for summoning a soul with the Soul-Amassing Lamp, and it might not even succeed. Even if one were to succeed by luck, it would be extremely troublesome for the soul to return to the physical body.

Wei Nan sighed. "You are very thoughtful, girl. However, the Soul-Amassing Lamp is the treasure of the Masked Moon Sect. If you want to borrow it, you have to be able to afford it."

Dong Xi knew that many people in the sect lost their lives every day. These Sect Masters and elders might have long been used to it. However, to Dong Xi, those who had been practicing swordsmanship with her two days ago and affectionately calling her 'Junior Sister' had lost their lives in the blink of an eye. Dong Xi's heart had fallen greatly.

Dong Xi only wanted to do her part to save these people. If she tried her best, and she really could not save them, then at least, she would have a clear conscience.

Dong Xi raised her head and said with a firm expression, "Sect Master, is the 30,000 points enough to exchange for a lamp?"

Hearing this, Wei Nan had a whole new level of respect for Dong Xi. 30,000 points was nothing to the Sect Master and elders, but to the disciples, it was a huge sum of money. It was rare for Dong Xi to be unmoved by the money and maintain her heart of sincerity.

Seeing that Wei Nan was still silent, Dong Xi immediately said, "If it's not enough, I can make up for it by doing alchemy tasks in the future, is that okay?"

Dong Xi was very nervous, and the way she looked at Wei Nan was very serious.

Song Qingfeng thought Dong Xi was too naive. 30,000 points was indeed a lot, but how could it be easy to gather a soul and revive it?

Just as Song Qingfeng thought the Sect Master would refuse, he saw the Sect Master think for a moment and then look at Dong Xi. The Sect Master said, "Sure."

Dong Xi's eyes immediately lit up and she bowed to the Sect Master. Dong Xi said excitedly, "This disciple thanks Sect Master!"

After leaving the Sect Master's cave, the sea of clouds in the mountains was dyed golden by the sun.

Song Qingfeng's expression was a bit subtle. He glanced at Dong Xi and said, "Little Girl, is 30,000 points worth it?"

Dong Xi looked at Song Qingfeng. The sunlight shone on Dong Xi's body and seemed to cover her with a layer of gold.

Dong Xi laughed openly and said, "These points were all given by the sect. If it wasn't for everyone's appreciation, how could I have 30,000 points? This can be considered as taking it from the people and using it for the people!"

If it was not for everyone's admiration for Dong Xi, she would only have 30 points or so.

Moreover, using these 30,000 points to exchange for sect disciple's favorability, this deal was a huge profit.

Then, Dong Xi raised her eyebrows at Song Qingfeng. Dong Xi said, "Respected Senior Brother, when you took out those Universe Pills, did Respected Senior Brother think it was worth it? Even for Respected Senior Brother, it was quite an expense, right?"

Song Qingfeng was not used to hearing Dong Xi say 'Respected Senior Brother'. He rubbed Dong Xi's hair and saw the seriousness on her face. Dong Xi looked at Song Qingfeng angrily.

At this moment, Song Qingfeng finally felt that she was being genuine. He smiled and said, "Junior Sister, I think you should go and cultivate Buddhism. You might be able to become a Buddha."

Song Qingfeng had given her a lot of pills, but he had a lot of them, probably more than 10,000 of those pills. However, for Dong Xi's to give up 30,000 points, she was giving up everything.

Not only that, people in the world of cultivators had very long lives, and their personalities were very cold. It was almost impossible to see people who could do their best for others.

Song Qingfeng had lived for more than 100 years, and he had only met someone as stupid as Dong Xi.

Chapter 205 The Difference Is Too Great

Although Song Qingfeng was kind, he could not even compare to Dong Xi.

Hearing Song Qingfeng's words, Dong Xi touched her own hair. After being reincarnated here, she was most proud of her hair. She would never cut it.

In her previous life, Dong Xi often stayed up late to study, and her hairline grew higher and higher by the day. Although she stayed up late every day in this life as well, she did not lose as much hair.

Dong Xi could not help but sigh in her heart. Immortal cultivation was too good!

!!

As soon as the two left, Wei Nan's eldest disciple looked at his master with some difficulty. The eldest disciple said, "Master, how can 30,000 points be enough? Even if we have a good relationship with the Masked Moon Sect, we will still need a lot of money, especially to gather a person's soul. It will consume a lot of spirit stones. It's really burning money."

If the eldest disciple could think of it, how could Wei Nan not know about it?

Wei Nan said, "It doesn't matter. This little girl's actions have also given me a reminder. Previously, in the Backtracking Mirror, I saw that when Jiang Lu was ambushed, she burned her cultivation to split open a treasure that could change a person's appearance. Jiang Lu should know who the ambusher is."

Previously, Wei Nan and the others had been trying to find clues from the bodies of those who had died, but they had forgotten that people would not speak after death.

"Master, Junior Sister Jiang Lu didn't want to be humiliated, so she self-destructed," the eldest disciple said. "Even if we can gather her soul, there's no place for her soul to rest."

Wei Nan looked at his eldest disciple and said, "Let's see what Jiang Lu will choose. Will she reincarnate or become a ghost cultivator?"

The eldest disciple nodded and said, "Junior Sister Jiang Lu can be saved, but the other disciples will be in a dilemma."

Jiang Lu had the highest cultivation among the disciples who were ambushed this time. She could reach the Golden Core stage one step ahead. The rest of the disciples had very low cultivation, so there was no need to pay such a big price.

Wei Nan thought for a moment and said, "If it's really the Green Cloud Sect's doing, then the spirit stones used this time must be paid by the Green Cloud Sect! Also, didn't the Masked Moon Sect elder always want to take on the Backtrack Mirror? Tell them if they can use the Soul-Amassing Lamp to exchange for it."

...

Dong Xi took the Universe Pill Song Qingfeng gave him and used spatial bending in front of him, covering a thousand feet with one step.

It was Song Qingfeng's first time seeing Dong Xi's movement technique. Out of curiosity, he immediately followed.

Song Qingfeng asked, "Junior Sister, is this a movement technique?" Who taught you this?"

Song Qingfeng thought to himself, 'I just gave Junior Sister so many Universe Pills, can she teach me the movement technique?'

This movement technique covered a thousand feet with a single step, and it was not much more elegant than stepping on a fan!

"It's Li Li," Dong Xi said. "At that time, I taught him the method of fortune-telling, and Li Li taught me movement techniques. This movement technique is really useful."

"Li Li from Destiny Valley?" Song Qingfeng asked.

“That’s right,” Dong Xi nodded.

Song Qingfeng, “...”

Dong Xi had been busy all this time, and he did not see her at all. In the end, she had learned so much in private, especially with the elder of Destiny Valley? Although Li Li’s fortune-telling was not very accurate, he was still a Nascent Soul stage cultivator!

Li Li was able to teach his skills to Dong Xi just to learn some divination? What did Li Li stand to gain by doing this?

Song Qingfeng asked with great interest, “Is Li Li trying to poach you as a disciple?”

“No.” Dong Xi immediately shook her head. “Li Li wanted me to be his master, but I refused.”

Hearing this, Song Qingfeng almost fell off his fan.

Li Li is already a Nascent Soul cultivator, right? He wanted the Qi Refinement stage Dong Xi as his master? How could Li Li have such an idea?

Song Qingfeng was dazed for a moment, and then he immediately pulled away from Dong Xi.

Song Qingfeng came back to his senses and immediately chased after her. He said, "You have a divination calculation method? I didn't hear you mention this before."

"It's actually a method of arithmetic," said Dong Xi. "Next time, Senior Brother, if you're hesitating about something, just come and find me. I'll calculate your fortune for you."

It was impossible for Song Qingfeng to trust Dong Xi's little ability.

"Junior Sister," Song Qingfeng said, "I can see that your movement technique is not bad. Can I learn from you?"

Dong Xi thought about the possibility of teaching Song Qingfeng, but she shook her head and said, "Senior Brother, it's not that I'm not willing to teach you, but you don't have the earth spiritual root."

Song Qingfeng, "..."

With that, Dong Xi left. Song Qingfeng did not chase after her this time. He sighed and waved his fan.

'Forget it, if it's meant to be, it'll be. Even if it's not, it can't be forced!'
