Chapter 211 Bad Person Mentality?

After Dong Xi lit the incense, she thought about whether she should perform a divination to see how the success rate of the pill refinement was today. After thinking for a moment, Dong Xi gave up.

If the result of the calculation was not ideal, then it would be bad for her mentality, right?

Dong Xi took out a spirit plant from her storage ring.

No matter what the success rate was, she had to try it first.

The difficulty of refining third-grade pill was not only the fusion in the later stage. Even the first step of extracting the essence was extremely difficult.

Moreover, the spirit plants were also higher in quality than the first and second grades she had refined before, so the fire spiritual energy required was naturally much higher.

Dong Xi exerted the earth fire in the alchemy room to the extreme and used her own fire spiritual Qi to harmonize it.

The quality of Dong Xi's fire spiritual energy was extremely high. Even so, the first step of extraction consumed a lot of her spiritual energy.

Dong Xi ate the Spirit Restore Pill and began to try to fuse the extracted medicinal liquid.

However, these medicinal liquids seemed to have a mind of their own. Dong Xi had just fused one side, and the other side separated by itself.

As for the fusion, the separation began.

Beads of sweat began to appear on Dong Xi's forehead. Her spiritual Qi was also about to be exhausted, so he had no choice but to divert his attention and take out the Spirit Restore Pill.

At this time, the extracted medicinal liquid also broke through the control of spiritual energy, and a crisp collision sound came from the pill furnace.

Dong Xi was shocked. She immediately swallowed the Spirit Restore Pill and stood up to look at the pill furnace in front of her.

Upon a closer look, he realized that the pill furnace was still fine, without any cracks.

Dong Xi immediately heaved a sigh of relief. Fortunately, the pill furnace was fine. Otherwise, Dong Xi would definitely look for Su Cheng and force him to pay for another furnace!

Dong Xi's spiritual power hit the lid of the furnace, and the lid was destroyed.

Dong Xi sighed softly. Her heart ached for the spirit herbs, but even more so for the pill furnace.

She raised her hand and cast a cleaning spell to clean up the pill furnace. There were no impurities left, and she continued to try.

The study of human experience was very impressive. Many things were much easier to do after having been done once.

This time, Dong Xi removed all the impurities in the spirit plants as usual, but just like before, there were some problems at the fusion step.

Dong Xi tried all kinds of fusion techniques. She knew that in such a tug-of-war, his spirit Qi would be exhausted very quickly.

If she ran out of spiritual energy, she could eat the Spirit Restore Pill, but what if she ran out of physical strength?

This time, the fusion failed again.

After Dong Xi ate the Spirit Restore Pill, she collapsed on the floor, her body in a mess.

What was the reason? Did she really have to use spiritual energy to fuse them?

Dong Xi pondered for a long time before sitting up and continuing to try.

However, she failed every time. On the sixth time, Dong Xi made a bold attempt and extracted the fire spiritual Qi that originally wrapped the medicinal liquid, relying on the earth fire to maintain the heat.

After that, she converted all of her spiritual power into wood spiritual Qi. Dong Xi began to form hand seals and injected them into the pill furnace.

With the wood spiritual energy as a medium, the spiritual liquid finally began to merge.

This continued for two hours, and the spiritual liquid was completely fused. In the red alchemy furnace, a dark shadow could be faintly seen hanging in the air.

Dong Xi was immediately overjoyed and began to try out the last step.

Forming the pill was a very important part of pill refining, and it consumed a lot of spiritual power.

Dong Xi had already made preparations, but she was still almost drained of all the spiritual Qi in her body. When Dong Xi thought of how all her spirit Qi had been consumed and he had been poisoned, he immediately retracted his hand.

These medicinal pills could be considered useless, but they were still at the stage of pill formation, so they still had some medicinal properties. Dong Xi thought about it and decided to keep all these useless medicinal pills.

This time, Dong Xi fell into deep thought. After his previous attempts, Dong Xi also knew.

Even if she was already at the sixth level of Qi Refinement, she did not have enough spiritual energy to make pills that were above the tenth level of Qi Refinement.

If she took the Spirit Restore Pill as she performed refinement, she would inevitably be distracted.

It would be great if there was someone to help feed her the pills.

Just as Dong Xi had such a thought, a light flashed in her eyes as she suddenly had an idea.

After cleaning up the pill furnace, she took out the spirit plants again, with a bottle of Spirit Restore Pill in her mouth.

When she ran out of spiritual Qi, Dong Xi could directly eat one, and she would not have to be distracted.

When the sky turned dark, Dong Xi returned to her cave abode in exhaustion.

Dong Xi used all of his strength to open the stone door and then walked into the cave abode. As soon as she entered, her legs were weak and she knelt on the ground.

Su Cheng was startled by Dong Xi's movements. He immediately opened his eyes and looked at Dong Xi with a puzzled look.

What's wrong with this little girl?

"It isn't a special day or a festival," Su Cheng said indifferently. "Why are you suddenly kneeling?"

Chapter 212 Powerless

Dong Xi did not struggle and just lay on the floor.

"I'm powerless," Dong Xi said.

Seeing Dong Xi in such a sorry state, Su Cheng wanted to ask what she had done, but before he could say anything, he saw Dong Xi take out a bottle of pills from her storage ring and throw it over.

“Here, these are your medicinal pills,” said Dong Xi.

Su Cheng took the bottle, opened the cork, and sniffed it. He was satisfied.

The medicine bottle in Su Cheng’s hand disappeared into thin air. He said, “You actually managed to refine it so quickly? It seems that I’ve underestimated your strength.”

Dong Xi did not say a word. Su Cheng continued, “Although the quality of your pill is a little lacking, I have forgiven you. What we agreed on before is still valid. Now, are you going to that treasure land?”

Dong Xi thought to herself, ‘Can’t he see that I’m already so tired? What can I do after sending me in? This snake is the reincarnation of an idiot, right?’

Dong Xi stared straight at Su Cheng for a long time before tactfully saying, “I’m a little tired.”

Unexpectedly, Su Cheng raised his eyebrows in surprise. He said, “What? A competitive queen like you can get tired?”

Dong Xi was silent for a moment. After a long time, Dong Xi said with hidden bitterness, “It’s all because of you, right? I’ve never seen anyone so crazy as to force someone else to refine pills so much higher than their level. In order to refine these pills, I ate an entire bottle of Spirit Restore Pills!”

Su Cheng looked at Dong Xi with a rare look of appreciation. He said, "As expected, it's better for humans when someone is forcing them to do something. Why don't you try to refine a fourth-grade pill tomorrow?"

Dong Xi rolled her eyes and did not want to continue talking to such a person.

Dong Xi stood up and walked out. It was already very late, and the moon was hanging in the sky. It was just the right time to cultivate.

But after Dong Xi took a few steps, she heard Su Cheng say again, "When's the next time you're going to refine pills?"

Dong Xi looked tired, but what did this have to do with Su Cheng? Su Cheng was determined to get those pills.

Dong Xi stopped in her tracks. She wanted to say next month, but after thinking for a moment, she felt that something was wrong. A smile appeared on his face. Dong Xi said, "We'll talk about it when we're happy."

With that, Dong Xi pushed open the stone door and left. Who knew when she would be happy?

At that time, Dong Xi could be in a bad mood because of the hot weather or Su Cheng's cold face. Who could control that?

Su Cheng looked at the closed stone door and fell into deep thought.

Happy? What would make that little girl happy?

Su Cheng thought for a long time but still could not figure it out. He took out the communication jade slip Dong Xi gave him and sent an anonymous message. This was the first time in a thousand years.

[How can I make a little girl happy?]

After Su Cheng sent it out, he did not have much hope. In Su Cheng's eyes, no one in the Immortal cultivation world would care about these things, right?

However, there were still many people who meddled in other people's business. Not long after Su Cheng's message was sent out, it resonated with many people.

[Fellow Daoist, do you have a child at home? How old is the little girl? A little girl is even more difficult to deal with than a demon beast.]

[Not only are they difficult to deal with, but the cost is also very high. Just the marrow cleansing alone has cost me half of my assets, but I'm still not willing to do it. Immortal master has given me four sets of spirit plants, and there are still three sets that I haven't used yet. I'm afraid this money has been spent in vain.]

[The Fellow Daoist above is right. My little girl is the same. Every time I coax her, I have to spend resources to make her happy.]

...

Su Cheng read each message seriously and had some thoughts in his mind. Compared to these little girls, the one in the courtyard did not seem too hard to please.

After checking more than a dozen messages, someone finally answered the question.

[When little girls throw tantrums, they usually come and go quickly. Fellow Daoist, you can prepare something that the little girl usually like. This way, the little girl will be happy faster.]

[I have a lot of experience in this area. Every time my little girl gets angry, I will take her out to play. She will be fine after she has had enough fun.]

...

Su Cheng noted down all their ideas. The easiest one was to buy something that the girl liked and spirit fruits.

Su Cheng held the spirit fruit in his hand and thought for a moment. Su Cheng slowly disappeared, and no one in the courtyard noticed.

Dong Xi sat cross-legged on the futon, feeling the rich spiritual Qi in the surroundings. Suddenly, an idea came to her. Had her spirit root value also increased?

In the beginning, Dong Xi thought that there was a problem with the testing spirit stone. However, after three consecutive tests, the value of her spirit root had also increased three times.

Moreover, the speed of her cultivation could not be fake.

Chapter 213 A Bag of Spirit Fruits

Even a slight difference in spirit root value would make a difference. Moreover, Dong Xi's current spirit root value had already increased by five points compared to the beginning.

Dong Xi pondered for a moment and felt that it would be best to find her teacher and test her spirit root value again.

Dong Xi cultivated until the moon fell before opening her eyes.

As soon as she opened her eyes, a snake tail appeared in front of Dong Xi. She was stunned. She looked up from the black snake's tail and saw black clothes.

!!

There were many spirit fruits in the pockets of his clothes.

There were many spirit fruits that Dong Xi, this little country bumpkin, had never seen before. Su Cheng grew up in the jungle, so he was very clear about what spirit fruits could and could not be eaten.

Dong Xi did not know what Su Cheng meant. Su Cheng loosened his hand, and all the fruits fell into Dong Xi's arms.

"Are you happy?" Su Cheng asked.

Su Cheng's voice was cold, which was a big contrast to his current behavior.

Dong Xi thought, 'Happy? What was there to be happy about?'

Su Cheng saw that Dong Xi was frowning and seemed a little unhappy. Su Cheng silently crossed out the spirit fruit suggestion and thought about buying something else one day.

Dong Xi looked at Su Cheng's disappearance in confusion. She then looked at the fruit in his arms and picked up a fruit that looked good. The sweet taste spread in her mouth in an instant.

Dong Xi's eyes lit up. She put the fruit into her storage ring and took out a few more, giving them to Liu Qing and Songsong to eat together.

Su Cheng, who was in the cave, saw this scene and could not help but frown.

As expected, the little girl was still not happy. Otherwise, she would not have given these fruits to others.

Dong Xi did not think much about Su Cheng's abnormal behavior. She went straight to the Sword Sect and practiced her sword. She even took a bath in the Sword Sect.

Now, Dong Xi's body was much stronger than before, and she could cultivate the big snake's body-tempering cultivation technique.

Dong Xi did not start off with body cultivation. Instead, she first studied the entire cultivation technique.

She could not cultivate blindly. She had to choose carefully. If it was not suitable, no matter how good the cultivation technique was, it would be useless.

Before practicing a cultivation technique, the first thing was to acknowledge the cultivation technique in one's hands from the bottom of one's heart.

Dong Xi did not expect this cultivation technique to start from breathing.

The author of this book believed that the internal organs of the human body were especially fragile. Breathing and expiration could absorb the essence of heaven and earth to temper the five internal organs. After the five internal organs were completely tempered, the bones and muscles would be tempered, and finally, the skin would be tempered.

Moreover, she could also rely on external objects to temper her body.

For example, she could use the power of fire and lightning to strengthen her body.

It was because of the so-called power of fire in the book that Dong Xi directly went to the alchemy room to cultivate.

The rest of the people knew that Dong Xi was very competitive, so they were pressured to start refining pills.

But this time, no one had expected that Dong Xi wasn't here to refine pills at all, but to refine her body.

Turning the earth fire to the maximum, Dong Xi did not use any spiritual power to protect herself. Under such high temperature, the pores on Dong Xi's body also opened up.

No matter what, the fire spiritual Qi here was rich. To cultivators with fire spiritual roots, it would be twice the result with half the effort.

Almost all of the alchemy sect disciples had fire spiritual roots. It was also because of this that the alchemy room became the alchemy sect disciples' favorite place.

Just like before, Dong Xi was sitting on the ground with her eyes closed, feeling the spiritual Qi.

However, with Dong Xi's constitution, she could only feel a little spiritual Qi during the day.

Fortunately, Dong Xi's body was still at the initial stage of body refining. Otherwise, if she had absorbed too much fire spiritual Qi at the beginning, her body would not be able to bear it.

This time, the spiritual Qi absorbed by Dong Xi did not enter her Dantian. Instead, it was slowly absorbed into her lungs.

The moment the spiritual Qi entered, Dong Xi's face flushed red, and white smoke came out of her nostrils.

Dong Xi only had one thought right now. 'It was too hot!'

When all the spiritual Qi had been absorbed, Dong Xi heaved a sigh of relief. After her body temperature had completely dropped, Dong Xi could continue to try.

In one day, Dong Xi tried a total of five times. Then, while the alchemy room was still open, she quickly refined a furnace of pills and earned back the points she had used the alchemy room.

When Dong Xi was taking out the pill furnace, she inadvertently glanced at her hand.

Huh? Why did her hands seem much whiter and more delicate?

Dong Xi recalled that she had previously read in a popular science book on alchemy that the lungs were mainly made up of skin and hair. Although it was extremely uncomfortable to fuse fire spiritual energy into it, it was greatly beneficial to the body.

Dong Xi guessed that the female cultivators in the world of cultivators definitely did not know about this benefit. Otherwise, all the female cultivators would choose to refine their bodies.

Dong Xi did not care much about this. It was not that Dong Xi did not like beauty, but her body was less than 12 years old, and her skin was in the best condition.

Chapter 214 Exiting Seclusion

Dong Xi collected her thoughts and finished refining a furnace of medicinal pills. Her time was also up, and she had to exit the alchemy room.

Dong Xi walked out of the alchemy room and took out a communication jade slip. On it was a message from Ke Xin.

[Sister! I've broken through! Let's go out!]

Seeing Ke Xin's message, even if Dong Xi was not by her side, Dong Xi could imagine that Ke Xin must be very happy.

This time, Ke Xin really went into seclusion for five months. Ke Xin loved to play by nature, so she did not use her communication jade slip even once for five whole months.

Although she had been in seclusion for a long time, she had finally broken through.

Her double spirit root value did not break through 80, but she managed to break through to the third level of the Qi refinement stage in two years. This was enough to show Ke Xin's hard work.

Dong Xi immediately sent a voice message to Ke Xin, "Why don't we go to the county to celebrate with you?"

Cultivation also had to be both tight and loose. Ke Xin had been in seclusion for such a long time, it was time for her to go out for a walk.

Ke Xin immediately replied with a voice message, "Okay!"

The two of them set a time. The next morning, Dong Xi stopped cultivating. She did not cultivate her body or the sword, nor did she practice alchemy. She changed her clothes and rode on little green leaf to the outer gate to pick Ke Xin up.

Ke Xin saw the familiar little green leaf fly over. Dong Xi made way for her and Ke Xin immediately jumped on it.

Ke Xin said, "Little Xi, I've broken through. I should be able to refine pills now! You told me to store all the spirit herbs I brought, and I've stored them all!"

Speaking of this, Ke Xin had to admit that this sister of hers had great foresight.

Ke Xin knew a few people in the outer sect. Most of them were in a hurry to refine pills the moment they broke through to the second level. The ten portions of spirit plants that they had every month were all wasted.

"In two days," Dong Xi said with a smile, "go to the alchemy room and cultivate in seclusion for a few days. I think you'll be able to do it very soon."

Ke Xin said, "I don't need two days, I'll go immediately tomorrow! Also, I've stayed up all night today to read the experience you've taught me in the alchemy room. I'm sure it'll be of use tomorrow."

Dong Xi was very pleased to see Ke Xin working so hard.

"If there's anything you don't understand, just ask me. I'll definitely tell you everything I know," said Dong Xi.

"Alright, it's a deal then," Ke Xin nodded.

The two of them happily ran to the county town, wanting to have a good meal to celebrate. However, when they passed by a young Immortal's shop, Dong Xi seemed to see a very familiar back.

Dong Xi could not tell who it was for a moment. Perhaps she was mistaken, so she did not pay much attention.

...

It was Su Cheng's first time in a place like this, and there were many little toys inside.

There were ducks that could spray water, and there was a water-elemental formation in the ducks. There was also a zipline device that contained a wind-elemental formation, which could train the children's eyesight.

Su Cheng raised his hand and touched the hanging tiger. The tiger opened its eyes and roared.

Su Cheng had been disinterested the whole time, his expression calm.

The waiter looked at Su Cheng. Although his appearance had changed a little, Su Cheng's strong aura was still there, so the waiter did not dare to act rashly.

Seeing that Su Cheng had been shopping for a long time and still had some doubts on his face, the waiter immediately smiled and said, "Immortal Master, is this your first time being a father?"

Su Cheng, "..."

What? A father? Su Cheng was still young and did not have a partner. How did he become a father?

The change in Su Cheng's expression was undetectable, and the waiter guessed it right. He said, "Immortal Master, the goldfish bubbles there are selling very well. There is a water-type formation that can create bubbles. The bubbles can last for more than 15 minutes..."

"Give me one," Su Cheng said lightly.

The waiter saw that Su Cheng immediately asked for it, and his smile became even wider. The waiter continued, "And this is a psychedelic ghost formation. It's used to deal with disobedient children and is also very popular. Of course, it's not that your children are disobedient. It's just that after you buy this, not only can children play with it, adults can also encourage adults to play with children. It can promote parent-child relationships."

Hearing this, Su Cheng thought of Dong Xi, this little girl. She was indeed disobedient. He said, "I'll take that one too."

The waiter continued, "This is called 'dance upon hearing the rooster'. It's used to urge children to cultivate. If the child only wants to play and doesn't want to cultivate, this rooster will chase after him and peck at his buttocks. Of course, it won't hurt him much."

This was good. Su Cheng nodded and said, "Not bad, get one too."

...

Su Cheng bought a lot of things without even realizing it. He bought so many things that the waiter ran out of items to recommend to him. Su Cheng said, "I'll take these first to settle the score."

The waiter was overjoyed. It was not easy for mortals like them to survive in the world of cultivators. Today's big order would allow the waiter to live comfortably for two to three years.

Chapter 215 God of Wealth

Thinking of this, the waiter smiled brightly and said, "Immortal master, these will cost 50 upper spirit stones in total."

Su Cheng waved his hand, and the items on the table disappeared. The waiter was shocked and immediately looked at the Immortal Master in front of him. He saw the Immortal Master casually throw a spirit stone and then disappear. He just said coldly, "You can keep the change."

The waiter caught the spirit stone. It was heavy. After taking a closer look, he realized that it was a top-quality spirit stone!

And the Master did not even want the change? The waiter looked around and found that the Immortal Master had already left.

The waiter was overjoyed. He had met a powerful being this time. He did not know which powerful being it was or which person he was reincarnated into. He was actually able to reincarnate into this Immortal Master's family in such a short time.

Not only was he rich, but he was also so patient to pick out a toy personally. He was a considerate person.

The waiter was extremely envious. Some of these people had already won the world from the moment they were born.

Dong Xi, who was standing at the entrance of the shop, could not help but sneeze.

The child that the waiter was envious of was right there. Ke Xin looked at Dong Xi and said, "Little Xi, are you alright? Did you catch a cold? That's impossible, isn't your fire spiritual root still alright?"

Dong Xi said, "I'm fine, my nose was just a little itchy. I'll bring you to eat something good. Last time I came here with Senior Brother Rui Ming, we found a shop. The boss has ice spirit root, and the spirit fruit smoothie he makes is very delicious!"

When Dong Xi went there the last time, she was so excited that she thought she had met someone who had also come through the book. She secretly exchanged secret signals with the boss. Dong Xi said, "Palace Jade Nectar Wine?"

Unexpectedly, the boss glared at Dong Xi and scolded, "This little girl, she wants to drink at such a young age? Where is your Master?"

Dong Xi, "..."

Dong Xi was a little disappointed.

However, she was not that disappointed.

After all, the smoothie was really delicious.

Ke Xin had rarely heard Dong Xi praise something like this. Previously, Dong Xi had used such a tone to talk about sword practice.

"Really?" Ke Xin asked. "Was it really super delicious? I have to try!"

In Dong Xi's previous life, her health had not been very good and she had rarely eaten cold things, but she was no longer afraid in this life.

The children born in the cultivation world were completely different from those in her previous life. These children had long since gotten rid of the pain of their periods. Moreover, Dong Xi had a fire spiritual root, so she would not be afraid even if she ate cold desserts every day.

Dong Xi and the other man came to the door of a small shop. That's right, the shop was called a small shop. The two of them sat at the table at the door and each of them ordered a large bowl of ice desserts.

The two of them chatted as they ate.

Ke Xin said, "Little Xi, I've heard that something big has happened to the sect these few days. The Sect Master used the Backtracking Mirror to exchange for the Masked Moon Sect's Soul-Amassing Lamp. The jade slip guesses that our Eastern Continent's sects are going to re-rank this time and that none of them want to suffer a loss. It also says that the Earth Fiend Valley has recently asked the Sect Master to borrow the Backtracking Mirror. As for what they've paid, we, the low-level disciples, don't know."

Dong Xi was very surprised to hear Ke Xin say this. Didn't Ke Xin just come out of seclusion? How did she know so much?

Ke Xin continued, "I also heard that this time, the Green Cloud Sect is going to pay a huge price. They deserve it. Evil will be punished."

...

As the two of them were talking, the smoothie was served. The boss said, "Please enjoy your meal."

The boss's face was extremely cold and unfriendly. If it was not for the smoothie being super delicious, no one would be willing to come.

The two of them finished their smoothies and got up to leave. As they walked, Ke Xin felt that something was amiss. "Sister, do you find anything strange?"

"What's strange?" asked Dong Xi doubtfully.

Ke Xin said, "Ice spirit root, that's a mutation! He's a complete genius, and the heavens blessed him with a special talent. Why would such a talent come out to open a small shop and rely on ice desserts to attract people?"

Hearing Ke Xin's words, Dong Xi replied calmly, "So what if it's strange? Sister, to be able to open a shop here in this county city, the sect has already investigated it. There's definitely no problem with this uncle, so don't worry."

Ke Xin scratched her head. Dong Xi had convinced her with just a few words.

Indeed, it would not be a problem to open a shop here.

The conversation between the two was heard by the boss not far away. The boss's face was calm, and he casually wrote down a stroke on the jade slip.

4,740. The boss was cursed. It was said that he could not count beyond 9,999. This also became the boss's Mental Demon.

Every time he cultivated, he would start counting. However, every time he counted to 9,999, all his previous efforts would be in vain. The boss gradually became crazier because of this.

Chapter 216 Frozen

The Boss even almost went crazy and killed the servant who had followed him for a long time. Fortunately, at the last moment, the Boss regained his senses and sealed himself in ice.

Later on, the Sect Master suggested that the Boss come out to gain experience, and that was how they came to this town.

By the time Dong Xi and Ke Xin returned to the sect, the sky had already turned dark.

Just like before, Dong Xi opened up the restrictions of the sect, and the moment she stepped in, the scenery around her changed.

The familiar cave abode, the big willow tree, and the flowers in the experimental field had all disappeared. In their place was a large willow forest and a black shadow that hit her face.

Dong Xi was shocked. Then, she calmly reached out and hugged the black shadow.

Squeak...

The black shadow returned to its original form, a squirrel the size of a palm. It hugged Dong Xi's finger and acted coquettishly.

"Did you do all this, Songsong?" Dong Xi frowned.

Songsong immediately shook its head. Its voice immediately appeared in Dong Xi's mind. Songsong said, "Songsong didn't do it! This is all the work of that snake!"

"The big snake?" asked Dong Xi, puzzled.

The big snake did not look like someone who would do such a childish thing, right?

Could it be that the big snake felt that the cave dwelling's restriction was not safe enough, so he strengthened it? Scaring Dong Xi was unintentional?

As Dong Xi was thinking, Songsong jumped off her body and came back with something in its mouth.

Dong Xi sat on the futon, playing with the thing in her hand. It was a tree. Dong Xi sent a stream of spiritual Qi, and the surrounding scene started to change, but it seemed to be...

A cartoon?

However, it was impossible for her to be crazy enough to let her watch a horror cartoon.

After Dong Xi activated this thing, she put it back.

Since it was brought back by the snake, she should keep it properly. Perhaps the snake's race preferred such an environment?

Su Cheng secretly used his divine sense to check Dong Xi's expression and could only see that Dong Xi's expression was complicated, but she did not seem particularly happy.

Su Cheng was depressed. He took out another small thing and threw it out.

Dong Xi had been cultivating the entire time. No matter how terrifying it was, this was only an illusion. The moonlight would still shine on Dong Xi's body, and she could feel it.

However, these shadows kept climbing up Dong Xi's body, and a cold feeling spread over Dong Xi's body...

Even if Dong Xi had strong mental strength, she could not stand being in such an environment for a long time.

Dong Xi's scalp went numb. She was a little puzzled. What was the big snake trying to do? Wasn't the feeling of this Illusionary Realm too strong?

Dong Xi could not help but open her eyes, but when she saw what was in front of her, she was instantly stunned.

This... What the hell was this?

The black shadows in front of her were still crawling toward her, but these shadows were separated by many bubbles. All the shadows had an indescribable sense of joy. The entire illusion seemed to have become a horror paradise?

Dong Xi was not as scared. She curiously reached out and touched the bubble. The popping and cold feeling was very real.

From the looks of it, this bubble was not an illusion. Dong Xi immediately became alert. The spiritual Qi in her Dantian circulated rapidly. The inner core that belonged to the big snake began to rotate rapidly, but she did not discover any poisonous mist.

It seemed like no one had plotted against her... But what was going on with these bubbles?

It could not be a prank on purpose, right?

Dong Xi stood up somewhat unwillingly. A ball of fire appeared in her hand as she walked toward the place where the bubbles had come from.

With each step Dong Xi took, the black shadow retreated a little, and many bubbles burst.

The fire in her hand flickered, and bubbles burst, producing the sound of bubbles. Dong Xi now saw a clay man blowing bubbles at the entrance of the cave. It was obvious that this was the work of the clay man.

Dong Xi could not see anything in her eyes and was only stunned for a moment. She took out the frog statue, activated the rune, opened the door, and threw it in. She was very familiar with this set of actions and did not panic at all.

This time, the previous shadows had all turned into little snakes. It instantly made the terrifying atmosphere a little funny.

Dong Xi also admired herself very much. She managed to create such a chaotic scene. Looking at the little snakes, she could tell that the big snake was not in a good mood.

“It seems that you like this humid and terrifying environment very much,” Dong Xi said immediately. “I don’t dare to enjoy it alone, so I can only ask you to come out with me.”

Su Cheng looked at the human-shaped mushroom in front of him. It had a strange face and its mouth was opening and closing. Su Cheng’s expression started to become strange.

This... You call this terrifying?

Su Cheng thought about it. Of course, the little girl could not be like him. After all, she was still a ten-year-old child. It was normal for her to be afraid.

Su Cheng immediately remembered that he had another toy, the Dancing Rooster!

Chapter 217 Go and Cultivate!

Su Cheng immediately took it out, and the toy chicken immediately rushed to Dong Xi, crazily nudging Dong Xi’s butt and repeatedly saying, “Go and cultivate! Go and cultivate!”

Dong Xi was speechless.

Dong Xi now somewhat understood why he was called Su Cheng the Demon Lord Commander. However, this 'demon' word should be replaced with the word 'clown'.

Dong Xi sat back down on the futon, and the toy chicken immediately stopped. However, it stood beside Dong Xi and had no intention of leaving, as if it was a supervisor.

Dong Xi slowly got used to the feeling of the bubbles bursting on her skin and entered a meditative state again.

Su Cheng stood beside the red flower and glanced at Dong Xi, who looked more beautiful than the flower.

This time... The little girl should be happy now?

When the moon set and the illusion in the courtyard dissipated, a pile of bubbles might evoke a fear of collapsing instantly, but Dong Xi did not care.

Dong Xi was surrounded by a circle of yellow spiritual Qi. Although he did not understand why the big snake was doing this, she did not care.

The snake's things were all a little strange. If they were damaged, wouldn't the snake ask for compensation? The people in the world of cultivators were all bad, especially those who tried to scam others. They were even worse than those in her previous life.

When Dong Xi walked out of the restriction, the feeling of moisture had completely disappeared. The toy chicken that was following behind him had also completely stopped.

Dong Xi felt extremely relaxed, as if she had just been reborn. She turned around and saw a willow tree, a pool of water, and a cave. It was peaceful and quiet.

Dong Xi did not know how the snake did it. Looking inside from the outside, she could not see anything. Only the people inside the restriction knew how deep the water and fire were inside...

Dong Xi came to the alchemy room. The scorching temperature in the alchemy room made her sigh. It was still more satisfying here. Everything that happened last night seemed like a prank no matter how she thought about it. However, all of this happened because of Su Cheng. Dong Xi could not help but think carefully. What was Su Cheng's purpose?

Dong Xi had only trained her body for the entire morning. At noon, she left the pill refining room.

The fellow disciples who had been dragged into Dong Xi's mess heaved a sigh of relief when they saw Dong Xi leave. They had not expected Dong Xi to head straight to the Library Hall after leaving.

There were many books about pills in the Library Hall. The Ningtian Sect would compensate the disciples for the secret manuals and pill rooms that they had contributed. Therefore, whoever had extra books would be very willing to contribute to the sect.

Dong Xi searched for a long time, and after more than six hours, she finally found a book in the corner that had already turned yellow.

Dong Xi originally did not have any more hope, but she did not expect to have an unexpected harvest and really find what she wanted.

The Exorcism Pill was almost useless to cultivators, as it could get rid of the demonic Qi.

Dong Xi was stunned when she saw this sentence. Many romance plots flashed through her mind. He changed her face for true love, dispelled the demonic Qi, and cultivated the Righteous Path...

Dong Xi guessed everything, but she still could not guess what Su Cheng's goal was.

Dong Xi had also thought about reporting the giant snake, but even the patriarchs of the eight big sects could not kill Su Cheng. Plus, Su Cheng had the power of space. How could the Ningtian Sect be able to defeat him?

According to the original book, Dong Rourou had become one with her sword and combined the power of the eight great sects, but she had only injured Su Cheng.

Su Cheng's inner core was still in Dong Xi's Dantian. If Su Cheng wanted to take it back, it would be an easy task.

Moreover, after spending so much time with Su Cheng, Dong Xi realized that this Demon Lord Commander was completely different from the one in the book.

There was no ruthlessness at all, but a little... silly?

After all, how could a proper Demon Lord play with some bubbles-spitting toy, and a chicken that only knows how to peck people's buttocks?

In fact, he would even beg Dong Xi to refine Exorcism Pills...

According to the original book, Su Cheng, as a Demon Lord, would lead thousands of demons to attack the Immortal cultivation world, causing the Immortal cultivation world to be full of demonic Qi. After being contaminated, it was almost impossible to remove it. If it could not be suppressed, it would turn into a demonic creature.

Thinking of this, Dong Xi pondered for a moment before finally deciding to refine the Exorcism Pill.

Not only to make it for Su Cheng, but also to make more. When the time came, she would secretly keep it so that she could live on!

In the original book, the time when Su Cheng attacked the cultivation world and caused the cultivation world to be filled with demonic Qi was very vague. What Dong Xi could be sure of was that Dong Rourou would also be in the cultivation world at that time.

In other words, there were still more than six years left. Dong Xi had originally planned to run away after six years. If she happened to encounter a period full of demonic Qi, she would really cry.

Dong Xi closed the book. When the other disciples heard the voice, they looked at Dong Xi strangely. Dong Xi came back to her senses. She was a little excited just now and could only smile apologetically at the crowd. Then, she left the Library Hall quietly.

Chapter 218 Did She Run Away?

That night, Dong Xi did not return to the courtyard. The next day, she still did not return.

She did not return on the third day, and Su Cheng could not wait any longer.

This little girl, did she run away? Su Cheng had prepared so much for her, but the little girl was still unhappy?

Su Cheng took out his communication jade slip. There were many replies to his previous question. They were even discussing how to take care of a girl.

Su Cheng frowned. He did not agree with what these humans said...

Su Cheng looked through it and stopped when he saw one.

[Although they are both children, boys and girls are completely different. Boys like to play, while girls like beauty... If the child is a girl, you should give her some beautiful clothes or jewelry...]

Su Cheng looked at it and pondered.

Dong Xi always wore men's clothes, and her hair was tied into a simple ponytail. If it were not for her eyes, most people would not have thought that she was a girl.

Su Cheng did not know that most of the female disciples in the Alchemy Sect and Sword Sect were influenced by Dong Xi. They felt that it was a waste of time to dress up every day. Almost all of them wore simple ponytails and wore men's clothes.

When Dong Xi returned to the cave abode, it was already a month later. She had just entered the restriction when she saw the familiar horror theme in the courtyard.

Dong Xi's expression was cold as she opened the door of the cave.

Su Cheng had long sensed Dong Xi's return and was not surprised to see her.

Dong Xi took out ten bottles of Exorcism Pills and handed them to Su Cheng. Su Cheng wanted to say, 'Oh, so you still remembered how to come back?'

However, when he saw the pills, he could not say anything.

Su Cheng opened the bottle and smelled the familiar scent. He was stunned for a moment and said, "You've been refining pills all this time?"

"That's right." Dong Xi nodded and said, "I've only refined a few, so you can keep them first."

Although she said so, how could Dong Xi only make so little? She had made a total of 20 bottles, and now she was giving them half each.

Su Cheng wrapped the pills with his spiritual sense and could feel that the quality of these pills was different. Compared to Dong Xi's perfect pill, there was a huge difference. It was enough to know that refining a third-grade pill was still a difficult thing for Dong Xi.

However, Su Cheng was already very satisfied. The people on the jade slip said that the children in the family only knew how to go out and play. When it came to cultivation, they were hopeless.

Look at Dong Xi, this little girl, whether it was cultivation or alchemy, she did not need Su Cheng to care at all. Dong Xi handled it all by herself.

Su Cheng's face revealed a gratified smile, and then he threw a storage ring to Dong Xi.

"Take it and play with it," Su Cheng said.

Dong Xi immediately caught it and examined it with curiosity. She was instantly shocked.

The storage ring should be about 40 square meters in size, and it was filled with all kinds of clothes. Moreover, Dong Xi had never worn clothes of this color in both of her lives.

Dong Xi looked at Su Cheng in confusion. He's a snake, so where did he find so many women's clothes?

Su Cheng then gently touched Dong Xi's forehead. Dong Xi's forehead suddenly felt a little cold. Su Cheng said, "You should wash your head of useless thoughts."

In an instant, Dong Xi fell into the pond in the courtyard.

Dong Xi stuck her head out of the water.

As she looked at the cave dwelling, she felt that this huge snake was really a little strange.

Dong Xi wanted to sell these clothes. She took out a pink dress with lace on it. If it was in her previous life, many young girls would definitely like it.

Dong Xi quickly found the description on the clothing.

[If attacked, a defensive formation will be activated immediately. The formation will immediately record the attack so that it will be easier for friends and family to seek revenge.]

Dong Xi was stunned when she saw the description. She took out another dress.

[If you receive respect from others, you will immediately activate a continuous spiritual attack accompanied by an illusion. One-time use, lasts for one day.]

Then, she took out another dress.

[This dress is called the Appearance-Changing Dress. It can change one's appearance.]

...

Dong Xi's eyes brightened. She felt that her taste in aesthetics seemed to have changed. Looking at the dresses of different colors, they were very pleasing to the eye.

Sell them? How could she sell them? Every dress could provide Dong Xi with a chance to live. How could spirit stones be more important than her life?

Dong Xi came out of the pool and used a cleaning spell. Her wet clothes and hair were all cleaned.

Dong Xi excitedly ran towards the cave dwelling and pushed open the stone door. Dong Xi's head stuck in and she shouted, "Thank you, big snake!"

Su Cheng looked at the smile on Dong Xi's face. He smiled and said, "We're just holding our end of the bargain."

Su Cheng thought, 'The jade slip was right, they didn't lie to me!'

Chapter 219 I Won't Go Back on My Word

When Dong Xi heard Su Cheng's words, she felt that he was right. Dong Xi felt that the things that the big snake had given her had long exceeded the value of the Exorcism Pill.

Even so, the conditions that they had agreed on before could not be changed. Dong Xi immediately said, "Snake, you're still short of 170 items."

Although Dong Xi did not say what was missing, Su Cheng knew. He smiled and said, "I know, I won't go back on my word, as long as you don't feel tired."

The big snake's words were clearly mocking Dong Xi, saying that she was tired. Dong Xi immediately said, "That will never happen again. Send me in now."

!!

The frog appeared in Dong Xi's hand and was thrown to Su Cheng.

Su Cheng caught it and played with it for a moment. He looked at Dong Xi and said, "Are you all ready?"

Dong Xi nodded, and the frog was thrown over.

Dong Xi raised her hand to take it, but then she appeared in the darkness.

This place was simply too familiar. Dong Xi took out the illumination treasure she had exchanged her points for, and the surroundings immediately lit up.

Dong Xi immediately began to dig for spirit plants and herbs. When she got tired halfway, she would eat a Spirit Restore Pill and then look up at the sky.

The sky seemed to be different from before. There were some stars in the sky, arranged in an orderly manner.

A sentence suddenly appeared in Dong Xi's mind. The sky as the chessboard, the stars as the chess pieces?

Weren't the spirit herb fields here the chessboard? What would happen if the starlight in the sky was put into the chessboard?

Dong Xi's brain started to work. She took out the green leaf that Song Qingfeng had given her and jumped on it, wanting to fly high to see the whole view of the spirit plant field.

However, the illumination treasure could only illuminate a certain area. Dong Xi could not see the edges at all. The places further away were all hidden in the darkness.

Dong Xi had no choice but to land. It seemed that this place was not dark under the light, but everywhere was dark. If she wanted to see the rest of the place, she would have to wait for the moment he was teleported out at dawn.

Dong Xi continued to dig the spirit herbs obediently, not wasting any time. Dong Xi was very particular about digging the spirit herbs. She did not dig all of them, but only one out of a few.

When the sky was slightly bright, Dong Xi immediately stopped digging for spirit herbs.

The sky brightened very quickly here, and once it was completely bright, Dong Xi would be teleported out. Therefore, Dong Xi had to fly high into the sky before it was completely bright to explore.

Dong Xi immediately took out her green leaf and rose into the sky.

Dong Xi's field of vision gradually widened, and everything around her could be seen.

These were all spirit plant fields, and not all of them had spirit herbs and plants. This world was not without boundaries, it was like a small square box.

Dong Xi had only taken a glance at it, and before she could study it properly, she had been teleported out in an instant.

Seeing Dong Xi come out, Su Cheng was not surprised. He just said, "Do you need to go in again?"

However, Dong Xi seemed to be lost in thought and did not pay attention to Su Cheng. Dong Xi took out a pen and paper and started to draw.

Su Cheng furrowed his brows, his eyes turning sharp. However, when he saw what Dong Xi was drawing, his expression also became strange.

What was this girl drawing?

Before Su Cheng could see clearly, Dong Xi stopped and looked at the painting seriously. Dong Xi frowned and thought for a long time, but she did not continue.

In the end, Dong Xi looked directly at Su Cheng and said, "Send me in again."

Su Cheng saw how serious the little girl was and knew that she seemed to have discovered something related to the treasure land.

Su Cheng waved his hand and the statue that fell on the ground directly came to his hand. He casually threw it at Dong Xi and Dong Xi disappeared again.

Su Cheng hit the stone bed in boredom and quietly waited for Dong Xi. Soon, Dong Xi's figure appeared.

The drawing in Dong Xi's hands was also completed.

It looked like a chess game, but... Does this little girl know how to play chess?

Su Cheng thought of the pills Dong Xi gave him and said, "Do you need my help?"

"No need. You probably won't understand it," said Dong Xi while shaking her head.

Su Cheng was confused.

Who was the little girl looking down on? Su Cheng's face suddenly darkened.

Dong Xi only thought: How could a snake know how to play chess? Moreover, this place was the treasured land, so this chessboard was definitely not an ordinary chess board.

As for what kind of chess it was, Dong Xi needed to study it carefully to know.

Dong Xi held the paper and pondered seriously. She pushed open the stone door and left the cave. However, she did not realize that the face of the great snake behind her was already extremely ugly.

Su Cheng's face darkened. He could not be nice to this little girl!

Just as Dong Xi left, Su Cheng's figure also disappeared from the cave.

"Xiao Qiu, Xiao Qing," Su Cheng said.

Two figures quickly appeared and knelt on the ground. "We're here. What are your orders, Your Excellency?"

Chapter 220 Swordsmanship

Su Cheng took out the pill and threw it to them. He said, "Take it and give it to Lady Rong. Let her arrange it."

“We understand,” the two men replied.

...

Dong Xi cultivated the entire night. She planned her time very well. In the morning, she would practice her swordsmanship. In the afternoon, she would refine pills or body. At night, she would cultivate properly, balancing work and rest.

!!

Dong Xi’s swordsmanship was already very proficient, but its power was still a little lacking. This swordsmanship was the signature of Daoist Yijian, so it was impossible for it to be so weak. It was most likely that Dong Xi had not mastered it.

When she arrived at the sword-testing stone, there were already many disciples there. She did not know if they had come very early or if they did not go back to rest at all.

Dong Xi took out her wooden sword and found a corner. Just as she got into position, it started to rain before she could start.

The surrounding disciples lit up their spiritual energy shields one after another, but Dong Xi didn’t, allowing the rain to fall on her body.

The rain was getting heavier and heavier. Dong Xi closed her eyes and heard the sound of the wind, the rain, and the sound of her fellow disciples practicing their swordsmanship...

As the sound of the rain grew louder and louder, a blurry world appeared in Dong Xi's mind. Dong Xi did not have any divine sense now, so these were only images formed by her perception.

The raindrops in the sky fell directly from the clouds. Dong Xi raised her hand and the sword in her hand was raised, the tip of the sword facing the raindrops.

Ding...

After cultivating the sword technique for hundreds and thousands of times, Dong Xi's movements became faster and faster, and the raindrops falling on her body became fewer and fewer.

The surrounding crowd noticed Dong Xi's actions and stopped, looking at her.

Dong Xi did not use any spiritual power, only her sword technique. However, no one doubted the power of this sword technique.

When the sword shadow turned into a protective barrier around Dong Xi, all the raindrops were repelled. Dong Xi suddenly stabbed her sword into the sky.

She cut through the rain!

The rain clouds scattered, the sun shone down from above the clouds, and the rain disappeared for a short time, but it did not take long for it to return to its original state.

Dong Xi let out a breath of turbid air. Her heart was surging, and she wanted to shout out in joy.

When the surrounding crowd saw Dong Xi put away her sword, they immediately stepped forward and spoke.

“Junior Sister, you’re amazing!”

“It hasn’t been long since Uncle-Master Yijian taught you this sword technique, but you’ve already reached such a realm. I’m truly impressed!”

“Junior Sister, can you give us some pointers?”

...

Dong Xi was also very happy to hear everyone’s compliments, but she also knew her own limits.

This time, Dong Xi had also borrowed the momentum of the storm. Using this momentum to comprehend sword arts should have been an opportunistic move.

Dong Xi was surrounded by the crowd, all asking her to spar with them.

There was no swordsman who did not want to fight. When Dong Xi heard everyone's request, she also wanted to give it a try. It was impossible for one person to improve faster than two people sparring.

But just as Dong Xi was about to agree, a person ran over with his eyes fixed on the spiritual energy shield. That person shouted, "My brothers and sisters, hurry! Quickly go to the square, the Sect Master is going to gather the souls of a few of our former sect members!"

Dong Xi immediately perked up. Sparring was fine at any time and place, but if she missed this soul gathering, who knew when the next time would be?

The others had the same idea as Dong Xi. They took out their magic weapons one after another or stepped on their swords directly... They quickly gathered at the square.

The Sword Sect was rather far away from the square. By the time the disciples of the Sword Sect arrived, all the good spots had already been taken.

Dong Xi sat on the little green leaf and found Ke Xin, who was in the crowd. Ke Xin looked at the many magical artifacts in front of her and sighed, "Isn't it still blocked?"

Dong Xi was very optimistic. Pointing at the gap between the two magical artifacts, Dong Xi said, “Just make do, there are too many people in the sect.”

In addition to the unjust deaths of those disciples, many people did not dare to continue going out to train and all stayed in the sect.

While Dong Xi and Ke Xin were talking, a bird flew over.

Then, a figure appeared in front of Dong Xi and Ke Xin. There was a feather under her feet. It was Chi Yan.

“I can’t believe there are so many people in our sect and so many magic tools,” Chi Yan said “I almost couldn’t find you.”

Ke Xin looked at Chi Yan and said, “There are still quite a few people who haven’t come yet. Those who are in closed-door training, or those who are just not interested.”

Chi Yan shook her head, looked at Dong Xi, and said, “I’ve just come out of seclusion. I heard others say that this matter is related to you?”

Dong Xi nodded. After thinking for a moment, she started to shake her head again. Dong Xi said, “It’s somewhat related, but not much.”

The feathers on Chi Yan's head had already regrown. Hearing Dong Xi's words, Chi Yan asked doubtfully, "What do you mean?"

"Although I've spoken to the Sect Master about this, he wouldn't have agreed to this just because of me," said Dong Xi. "It's probably something else."
