Chapter 296 I'm Only There to Fight Him

Dong Xi knew in her heart that it was probably the group of people from the Earth Fiend Hall who were spouting nonsense outside.

Dong Xi sighed and immediately sent a voice message to Second Senior Brother. She said, "Second Senior Brother, I went there to fight, not to chase after men, okay? I didn't even know who that person is before I met him."

Song Qingfeng sent a random message, and he said, "Then why did you ask for Qian Yun specifically?"

"That's not right, I'm just asking who has a lightning spirit root!" Dong Xi hurriedly explained.

Song Qingfeng was stunned when he heard the voice message. After he came to his senses, he immediately said, "What lightning spirit roots? What did you do this time?"

Dong Xi smiled and then sent a voice message, saying, "I'm doing body refinement."

Song Qingfeng immediately fell silent and controlled his emotions. He sent a voice message, "You wait there, don't run around."

Dong Xi blinked her eyes and hesitated for a while. Although she really wanted to run, she was afraid that she would anger Second Senior Brother. He'll kill her, and that would be more of a loss than gain. Dong Xi could only stay where she was and continue to check the messages in the communication jade slip. She found that there were messages from other Senior Brothers and Senior Sisters.

Many of them were just here to watch the show, so Dong Xi casually explained.

Only Kong Xing's reply was different.

[Junior Sister, tomorrow, the Iron Head Technique.]

Dong Xi immediately replied.

[Got it, Senior Brother.]

Kong Xing saw Dong Xi's message and immediately replied.

[Are you really going? I thought you'd be scared after the last time.]

"Why are you afraid?" Dong Xi sent a voice message. "I'm fine, I'm not particularly tired."

Even exhaustion had a critical point. Dong Xi admitted that practicing the Iron Head Technique was very tiring, but she had not reached her limit yet, so she could still bear it.

After a long silence, Kong Xing sent a voice message, "Out of all the 2,400 disciples from all eight sects that participate in this tournament, you're the only one who is a freshie. You're the only one who just joined a sect. Junior Sister, you are more like a monk than the monks of the Buddhism sect."

Dong Xi was speechless.

Dong Xi did not want this to happen either, but she had no choice. She would basically reach her own deadline in eight years. Eight years later, she will be in a life-threatening situation. That's right, there are still six years left.

Dong Xi had to reach Foundation Establishment within these few years. If it had been two years ago, Dong Xi would not have dared to think this way, but now it was different. Dong Xi was now at the seventh layer of the Qi Refinement stage. Even if she wanted to reach the upper limits of the Foundation Establishment stage, eight years would be enough.

"We", it's not that hard. At the end of the cultivation, all the hard work will belong to ourselves," Dong Xi said via voice message.

Kong Xing said in the voice chat, "Junior Sister, I heard that you went to the Earth Fiend Hall to pursue some guy? Junior Sister, it's not that I want to criticize you, but you're still so young..."

Dong Xi only heard half of it before she immediately sent a voice message, "That's just a rumor, Senior Brother. I'm just going to fight with Qian Yun. There's no love between us. It'll only delay my cultivation."

Kong Xing was delighted, and he said with a hollow voice, "Junior Sister, I think you're more suitable for Buddhist cultivation."

Dong Xi was speechless.

The two of them chatted more before a voice came from outside. Dong Xi knew that it was Second Senior Brother.

Dong Xi hurriedly got up and opened the door. She found her two Senior Brothers there. Dong Xi said in surprise, "Why is Eldest Senior Brother here?"

"I'll explain everything to you today," Liang Yan said with a frown. "Otherwise, don't even think about leaving the house."

Junior Sister is very young and her talent is not bad. Those shameless sects actually used a method like Beauty Trap to lure her? Are they trying to steal a genius disciple of the Ningtian Sect?

Impossible, this was impossible! If they were tricked away like this, how would Liang Yan and Song Qingfeng face their Master and the Sect Master?

Dong Xi was already a little annoyed by the explanation. She said, "Eldest Senior Brother, Second Senior Brother, I've said it before, I only went there to fight with that guy. There are very few lightning spirit root users. I'm very grateful that Senior Brother Qian Yun is willing to fight me."

Song Qingfeng was still rational, but he did not want to believe the Earth Fiend Hall. He believed that this cunning Junior Sister would not be so easily deceived.

"Then tell me," Song Qingfeng said. "What's the situation with that body refinement "

Dong Xi looked at Song Qingfeng and said with a smile, "Senior Brother, the power of thunder and lightning can temper one's body. Did you know that?"

"Everyone knows that the Heavenly Lightning from the Heavenly Tribulation can be used to train the body," Song Qingfeng said.

Dong Xi suddenly thought of something. The human body was too weak, and the Heavenly Dao had set up those Heavenly Lightning to help refine the human body.

If a person could withstand all the Heavenly Lightning, his physical strength would probably easily surpass that of a demonic beast.

However, the human body was too weak, and it was impossible for it to withstand the Heavenly Lightning.

Luckily, humans were an intelligent race and knew how to use all kinds of treasures to help even the odds with the Lightning Tribulation.

Chapter 297 That's Indeed the Case

If Dong Xi could temper her body to a certain degree, wouldn't she be able to continue tempering her body with the help of the Lightning Tribulation?

Song Qingfeng did not know that a casual sentence could cause his Junior Sister to have so many wild ideas.

Seeing Dong Xi's silence, Song Qingfeng continued, "So, you went to find Qian Yun just to use the lightning spirit root to temper your body?"

"That's indeed the case," Dong Xi nodded.

Song Qingfeng frowned and said, "He... was he willing?"

Dong Xi said with a smile, "That's why I went to fight him. I just... didn't fight back."

Song Qingfeng immediately knew why the rumors were so ridiculous. She did not even fight back. What else could she have other than true love? No one would have thought that this little girl would actually use the power of lightning to temper her body!

Dong Xi thought for a moment and told him about her cultivation. She said, "Senior Brothers, if you use lightning to train your body, your body will slowly become immune to lightning. I want to keep using lightning to train my body so that it will be easier for me to pass the Lightning Tribulation."

After leaving Dong Xi's place, Liang Yan and Song Qingfeng no longer suspected that Dong Xi was in love.

This Little Junior Sister was a cultivation fanatic. There was only cultivation in her world and no love. Even if she had a man, he was just a tool.

Song Qingfeng looked at Liang Yan who was deep in thought. He waved the fan in his hand and said, "Senior Brother, you don't really want to do what Little Junior Sister said, do you?"

Liang Yan looked at Song Qingfeng and did not say anything.

The two of them grew up together. How could Song Qingfeng not know what Liang Yan was thinking? Liang Yan did not say anything, which meant that he was thinking the same.

Song Qingfeng said, "Senior Brother, what Little Junior Sister said might make sense. But you have to know that your next Tribulation will be the Nascent Soul stage's Lightning Tribulation. Do you think such a thing is possible? If there's any mistake, you'll be annihilated."

The method was not bad, but it was too late. Junior Sister's cultivation level was low now. She was currently refining her body, and when she reached the Golden Core stage, she might be able to do it.

According to Eldest Senior Brother's talent and age, he was a person who threatened the Heavenly Dao. His Nascent Soul Lightning Tribulation would be much more powerful than what their Junior Sister would face.

Liang Yan was already at the late Golden Core stage. It was a waste of time to train his body now. He had to seize the time to search for natural treasures and prepare for his Tribulation.

Song Qingfeng tried to persuade Liang Yan. Liang Yan knew that Song Qingfeng had good intentions. Although they did not get along since they were young, they were still brothers when it came to right and wrong.

"I know," Liang Yan said with a serious face.

After taking a few steps, Liang Yan said, "Junior Sister's idea is quite crazy, but it isn't impossible. I'll train and refine my body in the future. If my body is stronger, I'll have a higher chance of surviving when I go out traveling."

Then, Liang Yan looked at Song Qingfeng and said, "You can also refine with me."

Just as Song Qingfeng was about to refuse, Liang Yan said in a tone that he could not refuse, "If you don't practice it, I'll immediately tell Master that you set up a private betting den in the Buddhist temple!"

Song Qingfeng, "..."

Song Qingfeng was starting to treat his Senior Brother like a true brother, and he just had to say such things and destroy the illusion.

...

The next morning, before the moon had disappeared, Dong Xi jumped up from the futon.

Dong Xi looked at Su Cheng on her wrist. She said, "Didn't you say that there's no more power of lightning? There's some now, right?"

Su Cheng's cold voice appeared in Dong Xi's mind. He said, "I'm not lying. You've run out of the power of lightning, but I still have some."

Dong Xi was seething with anger, feeling as if she had been deceived.

"And you were the one who asked me to wake you up," Su Cheng continued.

Su Cheng kept the time and was very punctual. If the little girl dared to be unhappy... Next time, he's not going to wake her up, and let her be late.

Dong Xi's anger immediately dissipated. She was not very angry at first, but she was suddenly electrocuted, and it did not feel good.

Dong Xi put away the futon, made a hand seal, and used a cleaning technique to clean herself up. Then, she went out. Now, she did not need Kong Xing to lead the way, and Dong Xi could find the place.

In addition to the few people he had met before, there was also a disciple from another sect in class.

From their clothing, they should be from the Masked Moon Sect. Seeing Dong Xi enter, this person was not very surprised.

The two of them looked at each other. This Masked Moon Sect disciple was tall and sturdy, much bigger than Dong Xi. The muscles on his body were even more solid, and his arms were thicker than Dong Xi's legs.

Dong Xi did not doubt in the slightest that this person's punch could shatter steel and wood.

It was completely understandable for such a person to practice the Iron Head Technique. After all, he looked like a physical cultivator.

The two of them nodded as a form of greeting. Dong Xi still stood in her previous position, and not long after, Master Wang Chi walked in.

Chapter 298 Again?

Wang Chi looked at the crowd. When he saw the disciples of the Masked Moon Sect, he remained calm. However, when he saw Dong Xi, he was a little surprised.

This little girl... again?

Could it be that the forgetfulness training was too simple? It did not seem so.

It didn't matter. She could hold on last time, but she might not be able to this time.

!!

The Iron Head Technique was not something that could be easily cultivated. It required years of cultivation.

There were not many people in Thunder Sound Temple who could endure it now. When these people returned to their sects, would they have the fortitude to cultivate the technique on their own?

Wang Chi did not say anything unnecessary. He taught everyone a few warm-up moves, then took out a piece of Steel Wood and told them the essentials of the Iron Head Technique.

This disciple of the Masked Moon Sect was called Tie Zhu. He was indeed a body cultivator. Tie Zhu took the Steel Wood and carefully observed it for a moment. Then, he smashed it down on his head. His body shook and he fainted instantly.

Dong Xi was speechless.

Everyone also stopped what they were doing and looked at Tie Zhu on the ground in confusion.

Dong Xi did not know if should say that this person was too honest or that he was too stupid. Although he was a body cultivator, he did not have to be so ruthless, right? He was probably the first person in the world to knock him unconscious right after starting the class, right?

Master Wang Chi did not say anything, but his thoughts were similar to Dong Xi's.

Such inflexible cultivators were even more of a headache than those who ran away. When would the disciples learn that they needed to use their brains to cultivate?

Wang Chi sighed softly and went forward to inject spiritual Qi into Tie Zhu to wake him up.

Tie Zhu clutched his head and sat up. He opened his eyes and angrily said, "Who is the shameless one who dared to attack me from behind?"

Dong X, "..."

Master Wang Ch, "..."

The remaining people were all silent.

This person... Was he here to be funny?

Tie Zhu shouted for a long time, but when he saw the expressions of the people around him, he suddenly remembered what he had just done.

Today, Tie Zhu seemed to... He had come here early in the morning...

Furthermore, no one had sneaked an attack on him. It was Tie Zhu who had knocked himself out.

Tie Zhu's face immediately turned red and he smiled awkwardly. He instinctively wanted to scratch the back of his head, but the pain made Tie Zhu grimace.

This was really... It was too painful.

Master Wang Chi saw that Tie Zhu had woken up. He stood up, tidied up his clothes, and then looked at the crowd. He said, "You've just started cultivating, so you can be gentler."

This sentence was clearly directed at Tie Zhu, and everyone understood.

After Master Wang Chi had finished speaking, Dong Xi was about to use cultivation to cultivate when she suddenly realized that there was an additional person beside her.

Dong Xi looked over in surprise and saw Tie Zhu at the side. He revealed his white teeth and laughed foolishly.

Tie Zhu said, "Umm... Junior sister, I really can't bear to do knock myself out again. Why don't... why don't we work together and take turns?"

Dong Xi, "?"

Tie Zhu could not bear to do anything to himself, but he was prepared to knock Dong Xi unconscious?

Dong Xi did not dare to agree. Tie Zhu had been so ruthless to himself just now. Wouldn't he be even more ruthless to hit Dong Xi?

"Senior Brother, I'm also embarrassed to act against you," said Dong Xi with a refusal.

Tie Zhu raised his hand and scratched the back of his head. The pain made him suck in a breath of cold air and quickly put down his hand.

Tie Zhu said, "Junior Sister, as Immortal cultivators, we can't be soft-hearted. Why don't we do this... Just imagine I'm a demon beast, okay? Maybe we can take action immediately."

Dong Xi was speechless.

Was this Senior Brother the key to the problem?

Just as Dong Xi was thinking of a way to reject Tie Zhu, Master Wang Chi said, "Don't talk when you're cultivating,"

Dong Xi immediately picked up a brick and smacked it on her head without listening to what Tie Zhu said.

Tie Zhu was worried that he would be driven out by Master Wang Chi, so he returned to his place obediently.

Perhaps it was the pain in the back of his head that made Tie Zhu panic. Even if Tie Zhu was a boor, he did not do it too hard.

Dong Xi had originally thought that this was her second time here and that she would feel better this time with the foundation she had built up before.

However, she did not expect it to be even more tiring than before.

Dong Xi sat cross-legged on the ground, looking at his fellow brothers lying around him. She took out a bottle of Body Refining Pills and ate one pill.

Fortunately, Second Senior Brother had made a lot of them before, and there were still some left.

The medicinal power flowed slowly through Dong Xi's meridians and slowly seeped into her flesh and blood.

As expected of a Body Refining Pill. When the medicinal effects of the pill took effect, Dong Xi immediately felt as if she had recovered and was in high spirits.

No wonder Senior Brother Kong Xing said that ordinary disciples would not come here more than three times.

Normally, there were only four people. Kong Xing was forced to come by his Master, and the other three...

The other three had become Wang Chi Master's disciples the moment they entered Buddhism. It was impossible for them to run now, so they could only persist whether they liked it or not.

Chapter 299 Shocking

Dong Xi now understood that Master Wang Chi never expected people to come again after his training.

This also aroused Dong Xi's competitive spirit. Only with pressure would there be progress. Dong Xi would not leave. She also wanted to see how much she had grown under Master Wang Chi's strict control during this period of time.

Dong Xi tidied up her clothes and stood up calmly. She casually used a cleaning spell to clean herself up.

When the others saw Dong Xi's actions, they struggled to look over, their eyes filled with shock.

!!

Dong Xi gave Kong Xing another pill. The originally exhausted and paralyzed Kong Xing did not even have time to react before the pill dissolved.

Kong Xing trusted Dong Xi, so he allowed medicinal power to circulate in his body.

Not long after, Kong Xing stood up.

The two of them left under the envious gazes of the others.

“Junior Sister, what pill did you give me just now?” Kong Xing asked after they came out.

“It’s a fifth-grade Body Refining Pill,” said Dong Xi. “My second Senior Brother refined it for me.”

When Kong Xing heard Dong Xi mention the item so easily, it was as if it was not even worth mentioning.

Only then did Kong Xing remember that Dong Xi was also a pill cultivator. That’s right, Dong Xi was a pill cultivator.

Kong Xing, who originally wanted to buy some medicine from Dong Xi, immediately dispelled the thought.

Usually, even if Kong Xing worked hard, he could not afford to eat a fifth-grade pill. To be able to eat one today, he had totally lucked out.

After returning to his room, Kong Xing received news from his other Junior Brothers as expected.

[Senior Brother Kong Xing, what did Fellow Daoist Dong Xi give you today? Can you help your Junior Brothers buy some? You know, we can't hold on much longer.]

Kong Xing smiled as he replied.

[Why? Is Master's personal guidance not enough?]

The few of them were afraid that Kong Xing would tell on them, so they immediately replied.

[We're very content, but wouldn't it be perfect if we had pills?]

Kong Xing smiled helplessly and replied.

[Junior Brother, don't think about it anymore. I've asked Junior Sister Dong Xi, and she said that its a Body Refining Pill. We can't afford it!]

After a long time, his junior brother replied.

[Sorry to disturb you.]

Even through the communication jade slip, Kong Xing could see how lonely his Junior Brothers were.

Kong Xing shook his head, took out some paper, and started to write and draw. This was a technique he had learned from Junior Sister Dong Xi, and it was indeed very useful.

‘Junior Martial Sister gave Kong Xing a fifth-grade pill, and Kong Xing had nothing to repay her with.’

He quickly created a group chat on the communication jade slip.

...

Dong Xi did not know that a pill she gave out casually would have such an effect. She took out his communication jade slip and set a time to fight with Qian Yun again.

[Senior Brother Qian Yun, are you busy? Shall we spar?]

Without waiting for Dong Xi to return to the meditation room, Qian Yun replied.

[There’s a competition today, so I have to wait until very late. Can you wait, Junior Sister?]

When Dong Xi saw that her 'tool' was willing to spar with her, she was instantly happy. Dong Xi immediately replied to the message.

[I don't have any matches today. I'll wait for you, Senior Brother.]

Qian Yun did not know if the rumors from the past two days had affected Dong Xi. Qian Yun had also asked his Senior Brother who Dong Xi was looking for that day, and found out that Dong Xi was not really looking for him. She was only looking for the lightning spirit root.

Right now, the rumors outside were all about the inner disciples of the Earth Fiend Hall being in love with each other. Qian Yun felt that this was not good. After the competition, he had to go back to the sect and tell his Master.

Qian Yun pondered for a moment before sending another message.

[Junior Sister, let's meet at the Lotus Pond today. What do you think?]

There were a lot of onlookers at the back of the mountain. He wanted to change to a quieter place.

Dong Xi immediately replied.

[No problem.]

Dong Xi flipped through the Big Snake's Body-Tempering Cultivation Technique manual and studied it again and again. She put down the book and began to study the rhythm of her muscles.

Time flew by, and Dong Xi arrived at the Lotus Pond at the agreed time.

The lotus flowers in the pond were in full bloom, and there were little turtles on the leaves. The surroundings were very quiet, and there were not many cultivators here to see the scenery.

Dong Xi observed his surroundings and saw Qian Yun's figure appear at the end of the bottom lane.

Qian Yun walked over and cupped his fists, "I made Junior Sister wait for a long time. It took me some effort to get rid of those nosy people."

Dong Xi, "..."

The two of them, who were originally magnanimous, really looked like they were on a date after being tricked like this.

Dong Xi also did not waste time. Smiling as he said, "It's okay, I just got here."

Seeing that Qian Yun was about to say something, Dong Xi continued, "Senior Brother, time is limited. Shall we start now?"

Qian Yun had wanted to apologize on behalf of his Senior Brothers, but when he saw Dong Xi's face, it was as if she was not bothered by the rumors at all. Qian Yun nodded in agreement. "Alright, let's begin."

Dong Xi was prepared to continue being beaten up when he heard Qian Yun say, "Junior Sister, please make the first move in this spar."

Chapter 300 I Really Can't Beat Him

Dong Xi was instantly stunned. A thought suddenly appeared in her mind: Does Qian Yun also want to be beaten up?

However, Dong Xi had already finished asking around. Qian Yun was at the 11th level of the Qi Refinement stage. Dong Xi really could not beat him.

The two of them persisted for a while. Dong Xi saw that Qian Yun had no intention of attacking and sighed in her heart. Dong Xi said, "Senior Brother, please enlighten me."

Dong Xi still did not take out his sword. She raised her hand and began to form hand seals. Dong Xi said, "Power of the Earth."

A huge earth hand appeared in the air and smashed towards Qian Yun.

The attack was easily repelled.

Qian Yun retracted his hand and looked at Dong Xi. He said helplessly, "Junior Sister, can you be more serious?"

Dong Xi did not say anything, nor did she look at Qian Yun. Dong Xi frowned, deep in thought. It was unknown if she had heard Qian Yun's words.

Qian Yun did not disturb Dong Xi and just looked at her as she pondered. After a while, Dong Xi formed another hand seal. She used the Power of the Earth again, but it was slightly different from before.

Qian Yun felt the ground beneath his feet move, and the cobblestone path seemed to have become a flowing stream.

Qian Yun instinctively used his flying magic tool and glanced at the serious-looking Dong Xi.

Dong Xi's hand seals became faster and faster. At the same time, Dong Xi's entire body was wrapped in khaki-colored spiritual Qi, as if she was in an eggshell.

As Dong Xi completed her hand seals, a huge fist slowly rose from the ground and smashed toward Qian Yun in the sky.

Qian Yun did not dare to act this time and immediately flew up a few hundred feet. Qian Yun shouted, "Divine Lightning!"

Qian Yun's cultivation was still lacking, so he could not use the perfected Divine Lightning skill. However, even this half-baked skill was hard for many people to bear.

To be able to use this move to resist Dong Xi's Power of the Earth also meant that Dong Xi's attack this time was much stronger than before.

However, Qian Yun had not expected that after the Divine Lightning had nullified the Power of the Earth, Dong Xi would actually appear under the Divine Lightning and voluntarily get struck by it.

The power of the Divine Lightning was much weaker after being consumed by the Power of the Earth, but it definitely did not feel good to be struck by lightning.

Dong Xi absorbed the power of the lightning and began to meditate, refining it.

In this way, Qian Yun seemed to have realized something.

At first, Dong Xi asked around who had lightning spirit roots, then said she wanted to spar, and even let lightning strike her continuously.

Could it be that Junior Sister Dong Xi... liked to be struck by lightning?

This was indeed very strange. There were actually people who liked to be struck by lightning? What was Dong Xi trying to do?

Qian Yun did not continue to attack. He stood quietly beside Dong Xi as if he was protecting her. When Dong Xi opened her eyes, Qian Yun said seriously, "Junior Sister, are you really here to spar with me?"

Dong Xi knew she could not hide it anymore. Just as she was about to explain, sounds came from the grass behind him.

The two of them looked at the grass at the same time. Qian Yun shouted, "Who's there?"

A group of people walked out from the grass one after another. They were all Qian Yun's Senior Brothers. Everyone laughed awkwardly and started talking.

"You guys continue to chat. Don't pay attention to us. We... were just passing by."

"That's right, we're just passing by."

"By the way, Junior Sister, you're definitely not here to spar with Junior Brother Qian Yun, right? We understand."

...

Dong Xi realized that there was going to be a new round of rumors. She quickly said, "No, I'm only here to spar."

Dong Xi took out the iron sword that he had prepared earlier. Dong Xi said, "Senior Brother, please enlighten me."

Dong Xi had just comprehended a little bit of the Power of the Earth and was interrupted by these people. The Power of the Earth was kind of spiritual Qi. If it could be poured out by the vast earth, its power would be very great. However, it was not that simple. Dong Xi had only comprehended a little bit.

When she had time in the future, she would slowly cultivate it. For now, she would focus on body cultivation.

When Qian Yun saw that Dong Xi had taken out an iron sword, he wanted to remind her that using an iron sword was not a good idea. However, he was afraid that his Senior Brothers would misunderstand and say that he was being lovey-dovey with Dong Xi, so Qian Yun could only shut his mouth.

He thought to himself, 'Forget it, when we spar, I'll have to control my strength.'

He wanted to let his naïve Junior Sister know that an iron sword was not a good choice of weapon to deal with cultivators with lightning spirit roots.

Dong Xi naturally knew about this. She was not a fool. Moreover, everyone knew that iron was conductive.

The reason why Dong Xi used an iron sword was to better conduct electricity. She was using it deliberately for body tempering. Such a good opportunity, how could she miss it?!

Qian Yun threw out a spell technique, and Dong Xi did not even think before raising her iron sword to meet the lightning attack. It looked as if she was fighting, but in reality, she purposely blocked the attack.

At first, Qian Yun still wanted to warn Dong Xi, so he did not hit her too hard. Dong Xi happily received the power of the lightning, feeling the electricity coursing through her body.

After she did this a few times, not to mention Qian Yun, even the spectators realized that something was wrong.
