Chapter 351 Leg Technique

Baki asked Dong Xi to go to the courtyard and start practicing her leg techniques. Baki said, "This leg technique is very unusual. No matter if you are a mortal or a cultivator, as long as you practice martial arts, your lower body is the most important part. This leg technique can not only attack but also refine your body. When you master it, even if you can't beat him, you can still run away. No one will be able to catch up to you."

Dong Xi began to practice according to Baki's instructions. After kicking 300 times, Dong Xi's legs were a little sore.

In the past, Dong Xi had trained her legs by running with weights. She had never practiced this kind of leg technique before. Now, it seemed that this kind of leg technique was somewhat effective.

When she practiced 500 times, Baki said, "It's your first time practicing today. 500 times is enough. Otherwise, you won't be able to walk tomorrow."

Dong Xi was not in a hurry. After returning to the sect, she would have plenty of time to cultivate.

Dong Xi thought to herself, 'Baki is quite generous. I drank the Green Bamboo Wine as soon as I came here. This wine was not cheap, but it's good for body tempering.'

After leaving the tavern, Baki brought the slightly tipsy Dong Xi to a restaurant and ordered roasted venison. However, the roasted venison was not very good. It could not be compared to the roasted venison Dong Xi had in her previous life.

Fortunately, there was spiritual energy in the venison. When it entered her mouth, it had a fragrance and a chewy texture.

Baki and the others kept letting Dong Xi eat. Dong Xi's bowl of meat was never empty, and she looked very enthusiastic.

If she was a sentimental person, she would probably be so touched that he would cry.

Dong Xi did not feel that way. He also knew that Baki and the others did not treat Dong Xi well. He did not even know Dong Xi's name. In the eyes of Baki and the others, she was probably a piglet waiting to be slaughtered, ready to be killed at any moment.

Dong Xi ate the venison calmly, not afraid of being poisoned.

After all, there was the inner core of the Big Snake in her Dantian. What could be more poisonous than the inner core of the Big Snake?

No matter how poisonous it was, it would become nutrients for the Big Snake's inner core.

Seven days passed by in a flash. In these seven days, Dong Xi had already mastered the leg technique. Her Master had also sent a message to ask about her condition. Dong Xi had told him where she was and that she was learning leg techniques from others.

Master Lingxu was upset and warned Dong Xi not to simply ask random people to teach her things. In the end, he told Dong Xi to be careful. If there was any trouble, she would immediately crush the jade pendant to escape

Dong Xi listened to the old man's long speech and agreed with a smile. Then, she continued to practice her leg technique in the courtyard.

...

This morning, Dong Xi woke up as usual and raised her hand to cast a cleaning spell on herself.

Opening the door, he saw Lone Wolf and everyone waiting in the courtyard. Dong Xi was not surprised. After all, these people had taken care of Dong Xi for many days. It was about time.

"Boss, are we going out?" Dong Xi pretended to be curious. Are we going to catch demon beasts?"

A cunning look flashed in Lone Wolf's eyes. He said, "That's right. We're going to catch demon beasts. Otherwise, how can we eat and drink so well?"

“I’ll follow Boss’s arrangements,” Dong Xi nodded and said.

Dong Xi walked into the crowd. Someone quietly stood behind Dong Xi and blocked her way.

At this moment, she was already surrounded.

Dong Xi sneered in her heart. Was she afraid that she would run away?

Dong Xi circulated her cultivation technique. Currently, it seemed that there was no danger.

She followed the crowd out. These people’s cultivation levels were not very high, and they did not have flying magic tools. They could only rely on their legs to travel.

Fortunately, these people were all body cultivators. Although they were very tired, no one fell behind.

Of course, Dong Xi was not among these people. Dong Xi had just left the city gate when she stopped.

Lone Wolf looked at Dong Xi coldly and said, “What’s wrong?”

Dong Xi immediately put on an extremely aggrieved look. She rubbed her leg and said, "Boss... I can't walk anymore. You guys are too fast."

Lone Wolf gave Baki a look and said, "Baki, you carry her."

"Okay." Baki nodded.

Dong Xi was lying on Baki's back. The smell of sweat rushed into Dong Xi's nose.

Dong Xi would rather be carried by the Big Snake than be carried by Baki. Baki was too smelly.

In the end, Dong Xi could not help but use a cleaning spell on Baki, and she instantly felt much better.

Baki also noticed it. Baki smiled and said, "You're too pretentious."

"Big Brother, you won't be able to find a partner if you don't bathe," said Dong Xi softly.

Baki was stunned. Baki said, "What do you know!"

Dong Xi did not say anything. Baki continued on his journey seriously. Dong Xi watched as everyone headed toward the depths of the forest, feeling even more puzzled.

Dong Xi came from the south and knew that the level of the demon beasts in the depths of that place was higher. Where were these people going? These first and second-tier demon beasts could not even satisfy their appetites?

Chapter 352 Human Bait

Everyone walked all the way to the territory of tier 4 demon beasts. If they walked any deeper, they would really be going on a suicide mission.

Lone Wolf gave Baki a look, and Baki immediately took out a porcelain bottle from his storage bag.

Baki opened the porcelain bottle, poured out the powder inside, drew a big circle around everyone, and then put the porcelain bottle away.

Dong Xi was an alchemist. Frowning, she immediately smelled what it was.

This powder was the feces of a tier 7 demon beast, the Mountain Suppressing Ape. Demon beasts mostly relied on their excrement to divide their territory. With this, those tier 4 demon beasts would not dare to come over at all.

"Boss, it's done," Baki said.

“You guys went out hunting. Do you remember the place I marked earlier?” Lone Wolf nodded.

“Of course I remember.” Baki rubbed his fists and said.

“Then go quickly,” said Lone Wolf.

After thinking carefully for a moment, she realized that something was wrong.

The earring that Lone Wolf had been wearing was gone. Dong Xi remembered that when she went out in the morning, Lone Wolf was still wearing the earring.

From the looks of it, the earring should be a magic tool. As for what type it was, Dong Xi was not sure.

Seeing that Baki and the others were about to leave, Dong Xi followed suit.

“Stop!” shouted Lone Wolf.

Dong Xi looked at Lone Wolf in confusion. Dong Xi said, “Boss, you called me?”

“They’re going hunting. What are you going to do?” asked Lone Wolf with a gloomy face.

Dong Xi was very puzzled. Dong Xi said righteously, “Of course I’m going to help.”

“How are you going to help?” asked Lone Wolf. “It’s better for you to stay put. Wait here.”

Dong Xi then looked at Baki. Baki only glanced at Dong Xi for a moment before turning around, not daring to look at her.

Baki’s actions made Dong Xi feel that something was wrong.

“Hurry up and go,” Lone Wolf continued.

“I’m going, Boss,” said Baki and the others.

After saying that, everyone quickly left, leaving Dong Xi and Lone Wolf.

Lone Wolf looked at Dong Xi and said, “Little Girl, they’re going to catch a tier 4 Blood Moon Lightning Tiger. The few of them aren’t good enough to catch it. I’m going to help. You stay here and don’t go out, understand?”

Dong Xi nodded. Seeing Lone Wolf leave, Dong Xi was speechless.

In the eyes of these people, was Dong Xi really that stupid?

They brought Dong Xi here and then drew a circle, then asked her to stay? Then why did he bring Dong Xi along?

Wasn't this asking for trouble?

Dong Xi knew that the excrement of a tier 7 demonic beast was quite expensive.

Dong Xi sat down and began to meditate, absorbing the Qi of plants and vegetation.

After about 15 minutes, Dong Xi opened her eyes and looked in the direction she came from.

Sure enough, another group of people walked over. These people were dressed much better than Lone Wolf and the others. At the very least, they were dressed in Daoist robes.

There should be more than 20 people in this group, surrounding a raised chair. The red roof of the sedan chair was particularly eye-catching in this forest.

They stopped in front of Dong Xi. A feminine man was sitting in the palanquin.

The man's temperament was different from Su Cheng. Su Cheng was scary. This man, on the other hand, was disgusting.

"You're the bait?" the man asked.

The man's voice had a feminine tone to it. It sounded like fingernails scratching a blackboard, and it was especially ear-piercing.

Dong Xi had goosebumps all over her body. However, that did not stop her from catching the strange word.

Bait?

As expected, she was right. They were using Dong Xi as cannon fodder.

"I'm not. I'm waiting for my big brother to come back," said Dong Xi.

The little girl's innocent voice rang out, and it was out of tune with the current atmosphere.

When the feminine man heard Dong Xi's words, he instantly laughed. Then, he looked at the person beside him and said, "Take her away."

"Why should I follow you?" Dong Xi struggled. "My Big Brother is very powerful! He'll bring people to settle the score with you."

However, no matter what Dong Xi said, these people did not answer.

"Let go of me! Help!" Dong Xi shouted.

...

Baki, who was hiding not far away and watching everything, frowned. Baki had a complicated expression as he looked at Lone Wolf and said, "Big brother, are we just going to let them take her?"

Lone Wolf raised his hand and hit Baki. Lone Wolf said, "What else do we do? If we don't hand her over, how can we earn spirit stones? Even if we don't want spirit stones and don't give them bait, we have to become bait ourselves. You Qi Refinement stage cultivators will all be targeted. If it wasn't for me, you would have died several times! It's best to throw away softheartedness. We cultivators don't have to have a Bodhisattva heart!"

Baki looked at his other brothers and sighed. "Forget it, I won't look. Big Brother, I'm going to the toilet."

“Get lost,” said Lone Wolf.

Chapter 353 Very Tactful

Dong Xi was taken away by these people. After walking far away, she stopped struggling.

These people continued to head south. Dong Xi sighed lightly. When they came here, Baki had carried her on his back. Now, she had to walk herself.

The feminine man did not tie Dong Xi up. Seeing that she was quite obedient, the feminine man smiled and said, “This little girl is very tactful.”

It was very slow to rely on just two legs. Even if it was slower, they arrived at the place two days later.

Dong Xi saw a deep pool and immediately fell silent.

Was this group of people crazy? Why would they provoke this damn thing?

Dong Xi secretly read her fortune. Shaoyang.

It meant that the process was bumpy, but they could still go back.

However, Dong Xi thought that it was easy for problems to arise when he calculated for herself.

Dong Xi looked at the feminine man in the sedan chair and said, "Fellow Daoist, do you need me to read your fortune?"

The effeminate man frowned in surprise. He did not expect this girl to know how to read fortunes.

"That's fine too, but if it's not accurate" said the feminine man.

He stopped halfway because she felt that there was no point saying it.

He wanted to say that he would take this girl's life if she did not calculate correctly, but after thinking about it, he was going to kill her anyway. Did he need to warn her?

Dong Xi took out two pieces of paper and began to write and draw.

When a guard saw this, he said, "Is this divination? Don't tell me she's drawing runes?"

Dong Xi did not raise her head. She said, "This is a mortal paper. There's no spiritual energy on it. You'll know when you sense it."

Seeing that the guard still had something to say, she continued, "Don't talk. If you disturb me again, something will go wrong."

Dong Xi finished calculating very quickly. Looking at the paper that she had calculated, Dong Xi looked at the feminine man not far away and said, "Fellow Daoist, can you give me a word?"

"A word? Any word?" the feminine man asked. "Then my word is 'human'!"

Dong Xi wrote the word 'human' on the paper and was stunned. He was actually not going to die?

Dong Xi said, "According to my calculations, the word 'human' will become the word 'prison'. When the word 'sun' is added to 'human', it also becomes the word 'sun'."

"Speak normally," the feminine man said impatiently.

"That is to say, you will be imprisoned today because of something," said Dong Xi seriously.

The feminine man laughed and said disdainfully, "I will be imprisoned? You're the one imprisoned now, aren't you? Since you know how to calculate, why didn't you calculate that there would be such a calamity in your life?"

Dong Xi looked at the feminine man calmly and said, "I've already calculated my own fortune, and the result is that I'm fine. So, Fellow Daoist, do you want to make a bet? "

The effeminate man looked at this little girl. He could strangle her to death with one hand, and she actually wanted to gamble? It was really funny.

Dong Xi continued, "If I'm not wrong, you're at the Intermediate Nascent Soul stage. A tier 7 demon beast can probably make you suffer. Yet, you brought people to this deep pool. You must have something that shields your aura on you"

The feminine-looking man was surprised. This girl did not look very old, but she could tell his cultivation level?

The feminine-looking man did not believe that Dong Xi had calculated it. The feminine-looking man said, "My nickname 'Zhi Lang' is considered a tyrant and famous in the city. It's normal for you to find out."

Dong Xi looked at Zhi Lang as if she was looking at an idiot. Dong Xi said speechlessly, "Have you seen the demon beast in the deep pool? You still dare to come and fight with it?"

Zhi Lang ignored Dong Xi. He looked at the guards around him and said, "Get ready. Let's do it."

"Yes, Sir," the guards immediately replied respectfully.

“Same as before,” said Zhi Lang. “When the flood dragon comes out of the deep pool, you guys can cut its scales and take its blood. Be quick.”

“Yes,” the guards replied.

Blood extraction? Just to extract blood?

Dong Xi could not understand. No matter how powerful the flood dragon was, it was still a flood dragon. Why would he go through so much trouble?

At this moment, Dong Xi’s sea of consciousness rang with Su Cheng’s voice. Su Cheng said, “There’s a dragon vein on this flood dragon’s body. Not long ago, it passed the Lightning Tribulation and is now officially weak.”

When Dong Xi heard Su Cheng’s voice, she felt much more at ease. She said in her sea of consciousness, “Big Snake, are you okay?”

“I’m fine,” Su Cheng said lazily. “I haven’t fully recovered yet. My body is still weak. I’ll borrow your divine sense for a while.”

Dong Xi was speechless.

Alright, use it however you want. Anyway, Dong Xi still could not control her spiritual awareness.

“Even the flood dragon in its weakened state almost killed me. I ate the Wind Speed Pill and wore the Speed Boots. I even had a Speed Talisman stuck on my body” Dong Xi sighed.

“No matter what, the flood dragon is a demon beast. Its body is strong, and its strength is even stronger,” said Su Cheng.

“Can a mid-Nascent Soul stage cultivator defeat it?” asked Dong Xi.

“If he can defeat it,” said Su Cheng, “he wouldn’t just be taking its blood. You have to believe in the greed of humans.”

Dong Xi, “...”

Chapter 354 What Race?

Although Dong Xi was also a human, she felt that Su Cheng was right.

“Oh right, is the blood of this flood dragon useful to you?” asked Dong Xi.

If it was useful When Dong Xi became stronger, she could consider helping Su Cheng.

“I don’t need such an inferior and mixed bloodline,” said Su Cheng.

Dong Xi could hear some pride in Su Cheng’s tone. She was also a little curious. What kind of race was Su Cheng? Why did it look down on someone with a dragon vein?

Zhi Lang did not give Dong Xi too much time to think. Dong Xi was tied to the cliff. The deep green pool and the steep stone wall. The escape from before was still vivid in his mind, but now, it was about to happen again...

Zhi Lang stood at the side and looked at the surrounding guards who were about to set up the array. Zhi Lang picked up a stone and smiled. “Little girl, are you ready?”

The stone was not big, but it was wrapped in spiritual energy, causing a large splash.

Dong Xi watched as the deep pool calmed down. Then, circles of ripples appeared.

The ripple in the deep pool grew bigger and bigger, like boiling water, constantly rolling.

Finally, a head surfaced.

Dong Xi’s eyes widened. This time, she saw it clearly. It was something with a dragon’s beard and looked like a snake!

Dong Xi took out the jade pendant that she had hidden. A stream of spiritual energy was injected into it. The jade pendant emitted a violent energy fluctuation. The rope that was tied up was also broken by this energy. A pale golden palm attacked the deep pool.

The big head immediately shrank back. The moment Dong Xi landed on the ground, she immediately used her Earth Evasion to sink into the ground.

Zhi Lang subconsciously grabbed Dong Xi's leg, wanting to lift her up, but was dragged into the ground by Dong Xi.

Dong Xi propped up a protective shield and shuttled through the giant rocks. She did not forget to kick Zhi Lang, who was grabbing her ankle.

The cliff behind her collapsed once again, and the earth trembled. Zhe Liang that was grabbing Dong Xi's foot refused to let go.

"Damn it, why is this flood dragon recovering so quickly?" Zhi Lang cursed.

Dong Xi cursed Zhi Lang in her heart. How could he compare a human's recovery speed to a demon beast's? If Zhi Lang was thinking like this, he had already lost.

At this moment, Dong Xi's Earth Evasion had already been used to the extreme. He was carrying a person and affecting his speed.

Fortunately, Zhi Lang was not stupid enough to attack Dong Xi now. As Dong Xi ran, she ate the Spirit Restore Pill.

Zhi Lang was shocked when it saw this scene. It thought that it had caught someone as bait, but it turned out to be a person who pretended to be a weak?

Where did this girl come from? How could he have so many good things on him? She consumed pills like they cost nothing!

Dong Xi ran for an hour until he was thrown out of the rocky area. When she was surrounded by loose soil, Dong Xi stopped.

He used Earth spiritual Qi to push away the surrounding soil, forming a square space.

Dong Xi sat down and ate a top-grade Spirit Restore Pill. Then, she looked at Zhi Lang.

"I thought you had some ability. I didn't expect you to be an empty shell. Tell me, how many pills did you take to raise your cultivation to this level?" Dong Xi said.

Zhi Lang glared at Dong Xi and said," Even if I took pills to improve myself, I'm still stronger than you. Do you believe that I'll kill you right now?"

Dong Xi smiled contemptuously as she held a jade pendant. Dong Xi looked at Zhi Lang and said, "You can try and see who will die first, you or me?"

Zhi Lang did not dare to gamble. Dong Xi's attack was a Soul Formation stage attack. Wolf said, "Who exactly are you? You're definitely not an itinerant cultivator!"

Dong Xi looked at Zhi Lang innocently and said, "When did I say I was an itinerant cultivator?"

He looked like he had been deceived. He gritted his teeth and said, "Who exactly are you? What are you doing here?"

Dong Xi said with a serious face, "Listen well. I'm Dong Li of the Beast Trainer Sect!"

Zhi Lang was stunned when he heard this. He said, "Beast Trainer Sect?"

Zhi Lang had heard of the Beast Trainer Sect. It was one of the eight great sects, but he had never heard of her name.

However, at such a young age, she already had so many good things on her. She must be the personal disciple of some Elder?

Dong Xi stood up and looked at Zhi Lang who was deep in thought. She said, "Do you still remember the fortune I read for you at the beginning?"

Zhi Lang was stunned. Dong Xi said, "You can stay here."

Finished talking, Dong Xi formed a seal and burrowed into the ground.

Zhi Lang angrily threw a spell in the direction where Dong Xi had disappeared. The protective barrier on Dong Xi's body was instantly shattered, and dozens of defensive talismans on her body were also shattered.

Even so, Dong Xi still spat out a mouthful of blood.

Chapter 355 Fake

Dong Xi could not help but sigh. The original level was indeed different. Even if this guy was a fake, it was not something Dong Xi could withstand.

Fortunately, she had burrowed very deep into the ground just now. This imposter did not have an earth spirit root yet. For a while, this fellow would not be able to come out.

Dong Xi crawled out of the ground. In front of her was a pile of unknown grass, and there was a shadow above her head.

Dong Xi raised her head and saw a smooth butt.

Seeing that his butt was about to come close, Dong Xi immediately drilled back into the soil.

The demon beast with a smooth butt was also shocked and quickly ran away.

Dong Xi waited for a moment before coming out to take a look.

Realizing that there was nothing wrong, Dong Xi took a few breaths of fresh air and immediately climbed out. Then, she cast a cleaning spell.

If Dong Xi was not mistaken, that demon beast with a smooth butt was a Hairless Silver Boar. It was powerful in battle, but it was especially timid.

It would be very difficult for Zhi Lang to come out. He did not have an earth spirit root, so he could only dig bit by bit. If he dug too fast, the soil would collapse easily.

Dong Xi could not defeat a Nascent Soul cultivator opponent yet, so she could trap Zhi Lang for a while. When he came out, Dong Xi would have already returned to the sect.

Dong Xi took out a long sword and made a wooden sign here. She marked it so that she could remember that Zhi Lang was trapped below.

After everything was done, Dong Xi felt the fluctuations of the communication jade slip. He took out the jade slip and saw that it was a message from Senior Brother Shu Fa.

[Junior Sister Dong Xi, Master said that you're currently in Qinan City? There's a mission from the sect that just happens to be there. Do you want to take it?]

Dong Xi thought about it and knew that if it was an ordinary mission, Senior Brother Shu Fa would not specially find him.

Dong Xi replied.

[I'm not taking it. Senior Brother, ask the others.]

Shu Fa saw Dong Xi's reply and thought for a moment before sending another message.

[Mission reward is 3,000 points and one Sword Array Trial.]

Dong Xi immediately replied when she saw the generous reward.

[I'm already here. It's not good to trouble others, right? Senior Brother, tell me?]

Shu Fa quickly sent a message to Dong Xi.

[The youngest daughter of the City Lord of Zhaofeng City went missing. I heard that the last time she appeared was in Qinan City. The Sect Master said that you happened to be there, so it's appropriate to give this mission to you.]

Dong Xi instantly understood that this had been rigged. Of course, Dong Xi was also the one who benefited.

Dong Xi also understood that the daughter of the Zhaofeng City Lord was not easy to find and even gave the mission to the Ningtian Sect.

Dong Xi did not agree immediately. She said in her sea of consciousness, "Big Snake? Do you want to accept this mission?"

"Why are you asking me about your mission?" asked Su Cheng.

"I dare to accept it just because you said so. I'm afraid I won't be able to do it if I'm alone" Dong Xi replied honestly.

"You're already dressed like this. How can you be afraid?" Su Cheng smiled.

"I'll give you 100 batches of Exorcism Pills. Are you going or not?" Dong Xi gritted her teeth and said.

"200!" Su Cheng immediately said.

Dong Xi did not hesitate at all. She took out his communication jade slip and said, "Then I'll refuse the mission."

"Forget it, 150 batches will do," said Su Cheng helplessly.

"You have so many spirit stones. If you send someone to the Rainbow Store" Dong Xi pondered in puzzlement.

Speaking of the Rainbow Store, Dong Xi thought of something and said, "That's right. How could I forget? Where did Second Senior Brother put the token?"

Dong Xi took out the little turtle and was about to rush back to the sect when she suddenly felt a tremor not far away.

Dong Xi raised her head and saw a large group of pigs following behind the pig with a smooth butt.

Dong Xi was speechless.

Was it necessary? Wasn't it just a glance at its butt? Did it have to call so many pigs over?

She cursed in her heart, but her hands were quick. She injected spiritual energy into the little turtle, and the little turtle instantly grew to the size of a praying mat. Dong Xi immediately jumped on it and fled south of the forest, leaving a faint purple light in the air.

This time, Dong Xi finally understood the use of the earring on Lone Wolf's ear. Lone Wolf had used this magical treasure to trap a tier 4 Blood Moon Lightning Tiger inside.

The rest of the people outside would sneak an attack on the Blood Moon Lightning Tiger from time to time. The trapped tiger could only circle around inside no matter how hard it tried.

"So that's how it's used" Dong Xi muttered softly.

Dong Xi could not help but think that she did not see it in Lone Wolf's ears before. At that time, did Lone Wolf use his magic tool on Dong Xi to trap her?

It turned out that Lone Wolf was not afraid of Dong Xi running away because he felt that Dong Xi would not be able to escape at all.

Dong Xi was very angry. She suddenly had an idea, and a wicked smile appeared on her face.
