Chapter 376 Stealing Spirit Stones

The little thing started pecking at the spirit stone. In just a moment, it had eaten one-third of the spirit stone.

With the help of the magic ball's light, Kong Xing and Kong Yang could clearly see the little thing that was stealing spirit stones to eat them.

"What kind of bird is this?" Kong Xing asked. "Where did it come from?"

Only then did Dong Xi react. She immediately picked up the Clown Bird and said with a smile, "Senior Brother, this is mine. It just hatched and doesn't know anything. Don't lower yourself to its level."

As Dong Xi spoke, she took out a spirit stone and handed it to Kong Yang.

"Senior Brother, I'll compensate you with these spirit stones," said Dong Xi.

Kong Yang did not take the spirit stone. Kong Yang said, "Junior Sister, wait a moment. I'll copy these runes first, then we'll go and take a look at the others."

Dong Xi nodded. The three of them copied down a few teleportation formations and then pieced them together.

Dong Xi instantly knew what these two wanted to do.

The four teleportation formations were all exactly the same. The Liu family had occupied one and destroyed three, but the locations of the destroyed teleportation formations were not the same. By comparing the locations of the destroyed teleportation formations, they would be able to make up for it.

Dong Xi had a rough idea of how to fix it, but she did not know how to do it.

The operation of the array required spiritual energy, and it was important for the operation to be smooth.

It was originally destroyed. Even if it was repaired, the circulation of spiritual energy would still be blocked. Even if it was repaired, it still could not be used normally.

Dong Xi looked at the two of them curiously. Kong Xing took out a piece of paper and drew a complete formation on it.

Then, the two of them stood up. Dong Xi said, "Senior Brother, can it be repaired?"

Kong Yang shook his head and said, "No, even if there is a perfect repair medium, it won't be able to last very long. In the end, it will still break. This array is used by everyone who travels to Qinan City. It's not a one-time use. This one won't be able to withstand the wear and tear."

Dong Xi knew that Kong Yang was right, and her heart turned cold. Kong Yang continued, "It doesn't matter. We'll just draw another one."

Dong Xi's disappointed expression instantly disappeared. She said, "Senior Brother is so awesome. You can just draw another one."

When Kong Yang saw Dong Xi's look of admiration, he immediately felt a little embarrassed. Kong Yang said, "I might not succeed. Let's try first."

Kong Yang took out a carving knife and drew a small version of the teleportation array beside it.

Golden spiritual energy gathered at the tip of the knife. As Kong Yang finished drawing the final rune, the array emitted a bright light. Then, it returned to normal. The smooth lines drew a mysterious pattern. It was these patterns that supported everyone's teleportation.

"Senior Brother, you succeeded just like that?" asked Dong Xi.

Dong Xi had some good eyesight. The formation needed to be drawn in one go. Senior Kong Yang did not even need to eat the Spirit Restore Pill to draw a miniature version of the teleportation array formation.

From this, it could be seen that Senior Kong Yang's cultivation was very high.

"Almost. We're just missing the last step." Kong Yang nodded.

"Which step?" asked Dong Xi.

"The teleportation formation here needs to establish contact with Fotai City, so we must know the coordinates. Otherwise, they won't be able to connect it..." Kong Yang said.

As Dong Xi listened to Senior Brother Kong Yang, she suddenly thought of something and said, "Senior Brother, can this formation teleport us to Blazing City?"

If it was possible, it would be much more convenient to come over in the future.

"Yes, we must know the coordinates of Blazing Formation," said Kong Yang.

Kong Xing smiled and said, "Senior Brother, you go to Fotai City. I'll go to Blazing City. On my way back, I'll also go to Hongwu City. With the teleportation array, it'll be more convenient for us Buddhist cultivators to train."

Kong Yang thought that she was right and agreed.

Dong Xi watched from the side as Kong Xing and Kong Yang made their decision. Dong Xi knew that she had found the right people.

Kong Xing smiled as he looked at Dong Xi. Kong Xing said, "Junior Sister, since you can redraw it, you don't have to spend a lot of money to buy this old one."

Hmm?

Dong Xi's eyes lit up. That's right, she had almost forgotten that she could save a lot of spirit stones by not buying these old formations.

"We're just helping to draw the formation," Kong Xing continued. "As for how to operate it, I'll need Junior Sister to think of a way."

"Alright, I can do that," Dong Xi immediately patted her chest and said.

The next day, the three of them split up. Two went to find the coordinates, and one went to find the people.

Five days later, the sound of firecrackers rang out in Qinan City.

The passersby all looked over. What good news was this?

A middle-aged woman shouted, "The teleportation array formations that connect Fotai City, Blazing City, and Hongwu City has been completed. One way only costs 188 low-grade spirit stones!"

When everyone heard this, they immediately became serious. Was it really only 188 low-grade spirit stones?

What happened to the Liu family? Why did they suddenly become so kind?

Chapter 377 Ecstatic

Many cultivators rushed over to join in the fun. In the end, they found out that the owner of these three array formations was not the Liu family at all.

Everyone was ecstatic and began to discuss.

"Finally, someone who dares to go against the Liu family."

"That's right. The 800 low-grade spirit stones is half the price of what the Liu family charges."

“At that time, I thought that I would come here to catch demon beasts to earn some spirit stones. In the past two months, I couldn’t even earn any money because of the travel expenses.”

...

Dong Xi watched from afar as everyone walked into the teleportation array with spirit stones. She was very satisfied.

With so many people, how many spirit stones would he get? She had made a killing.

Dong Xi’s eyes were bright, but a scream came from behind her.

Dong Xi turned her head and saw more than ten men walking over with magic tools.

Dong Xi’s expression instantly turned serious. As expected...The Liu family would not let this go so easily.

Dong Xi crushed the jade slip in her hand. The people of the Rainbow Store also gathered.

Just as they were about to make their move, a familiar voice came from the sky. “Little Xi.”

Dong Xi was a little nervous at first, but when she heard this voice, she was stunned. Then, she looked up.

She saw her Master standing in the air with a Buddha shawl on his arm, smiling at Dong Xi.

Dong Xi immediately turned into a pitiful child, looking at her Master with tears in her eyes.

“Master!” Dong Xi bowed and said.

Dong Xi did not expect that her Master would personally come to pick her up. Seeing that her parents had come, Dong Xi felt much more confident.

When Master Lingxu landed, Dong Xi bowed obediently and said, “Master, why did you come to pick me up?”

Master Lingxu looked at Dong Xi’s teary appearance and was unmoved. He snorted softly.

“Some people are so happy that they don’t even think about home. Some people even refused to go back when her Senior Brother came to pick her up. She even asked me, an old man, to come personally. Now, you’re blaming me?”

Dong Xi chuckled and immediately went forward to massage his back. Dong Xi said fawningly, “Master, I just happened to have an opportunity to train. I was just about to go back, but I was stopped by the high teleportation fee.”

In this way, the Liu Family Head had to come. Otherwise, with so few people, they would not even be able to withstand a palm strike from a Soul Formation cultivator.

“Retreat,” said the group leader from the Liu family.

Dong Xi saw that the Liu family members had all run away, and her worried heart also relaxed.

Dong Xi let go of her Master’s sleeve and secretly looked at the retreating Liu family. Lingxu said, “What, you still want to chase after them?”

“No!” Dong Xi immediately shook her head and said.

Daoist Lingxu looked at Dong Xi’s head, then at Kong Xing and Kong Yang. Lingxu said, “Very good...”

As soon as Daoist Master Lingxu said it, Dong Xi immediately knew that her Master had misunderstood. Dong Xi hurriedly said, “Master, I didn’t enter the Buddhist sect. I accidentally ruined my hair while cultivating. As for these two Buddhist Senior Brothers, I invited them to help.”

When Linxu heard Dong Xi's words, his expression became much better. He said, "Hmph, at least you still have some conscience."

Dong Xi chuckled and Lingxu continued, "Recently, the world outside has not been good. Your cultivation is at the 9th level of Qi Refinement..."

Halfway through his sentence, Lingxu eyes suddenly widened.

"What's wrong with your cultivation?" Lingxu asked in shock.

After pausing for a while, Lingxu raised his hand to set up a shield around himself and Dong Xi. He said seriously, "Little Xi, tell me the truth. Did you have some fortuitous encounters this time? Or did you take a shortcut? How did your cultivation increase so quickly?"

The others only saw Lingxu's serious expression and his lips moving.

"It's a long story," Dong Xi sighed.

Master Lingxu glanced at Dong Xi and said indifferently, "Then tell me slowly."

Dong Xi looked at her Master's appearance and knew that it was impossible to muddle through.

“Not long ago, I broke through once in the Beast Trainer Sect. Then, when I was cultivating in Qinan City, I absorbed the purple Qi in the morning and broke through again. I directly reached the perfected Qi Refinement stage.”

As for how she broke through in the Beast Trainer Sect, Dong Xi did not elaborate. She did not know what happened when she crossed three cultivation realms in a row.

After hearing Dong Xi’s words, Master Lingxu naturally thought that the increase in cultivation was related to that purple Qi.

“You can go and absorb the purple Qi?” asked Master Lingxu.

“My cultivation is still shallow.” Dong Xi nodded and said, “The spiritual Qi in my Dantian is easily devoured by the purple Qi. I can only take advantage of it occasionally.”

Chapter 378 Grounded

Master Lingxu has cultivated for so many years and has also encountered people who can comprehend purple Qi. However, this is the first time he has heard of someone who can absorb purple Qi.

Even the legendary Innate Moon Spirit Body had no record of absorbing purple Qi.

“Your cultivation is growing very fast now, but it’s still not enough in the cultivation world where the strong prey on the weak. Follow me back. Don’t even think about leaving the Ningtian Sect before you reached the Foundation Establishment stage,” said Lingxu.

Dong Xi was silent. Was she grounded? When she looked at her Master again, her gaze became stranger.

Master Lingxu rolled his eyes at Dong Xi and said, "Why? Do you have any objections?"

"No, I'll listen to Master's arrangements." Dong Xi shook her head.

Dong Xi handed over the task of re-carving the formation to Xiao Han. As for how to split the profits between Kong Xing and Kong Yang, there was no one more professional than Xiao Han.

Master Lingxu casually threw out a flying magic tool. Dong Xi reluctantly bid farewell to everyone and followed her Master onto the magic tool.

"Master..." Dong Xi whispered.

Master Lingxu glanced at Dong Xi and said, "What is it?"

"Nothing, it's just..." Dong Xi hesitated.

"Just say what you want to say," said Lingxu.

Dong Xi coughed lightly and said vaguely, "Disciple discovered a flood dragon..."

Dong Xi spoke very quickly. Master Lingxu frowned and said, "Speak properly."

"Master, I found a Deep Sea Flood Dragon in a deep pool in the forest," said Dong Xi seriously.

When Master Lingxu heard this, he nodded and said, "Very good."

Dong Xi, "?"

That's it? Could it be that her Master did not have the urge to catch the Deep Sea Flood Dragon?

Master Lingxu turned around and happened to see Dong Xi's expression. How could he not know what Dong Xi was thinking?

Master Lingxu raised his hand and knocked on Dong Xi's forehead. Master Lingxu said, "If you want to catch it, then work hard and catch it yourself. Even if I help you catch the Deep Sea Flood Dragon, do you think the Deep Sea Dragon will submit to you?"

Dong Xi shook her head. She still had some self-awareness.

Master Lingxu injected spiritual energy into the magic tool, and the magic tool slowly rose up. Then, it quickly disappeared from everyone's eyes.

Dong Xi had just sat down when a small head popped out from the Demon Beast Bag at her waist.

Dong Xi knew that the Demon Beast Bag could not contain the beast at all, so she directly took it out and placed it in her hand.

It had only been six days since this little fellow hatched, and it was not as ugly as before.

Some light golden fur grew out of its body, and it no longer looked like an ostrich. Instead, it looked like a chick that had just hatched.

It had to be said that her current appearance was very cute.

Dong Xi reached out to help comb the chick's fur. Daoist Master Lingxu also looked at the chick.

"Why are you raising another demon beast?" asked Daoist Master Lingxu. "If I remember correctly, wasn't there still a squirrel and willow tree in the cave abode? Disciple, your talent is outstanding. You must not be too distracted..."

Dong Xi hugged the chick and said, "Master, Second Senior Brother promised me that if I can enter the top 100 in the competition, he will give me a mount. Second Senior Brother gave me a demon beast egg. This is what it hatched from."

Master Lingxu looked at Dong Xi's indescribable expression and said, "Little Xi, I see that you are usually very clever. Why are you being fooled by your Second Senior Brother now? Did he call this a mount? How can a little chick carry you?"

The little chick seemed to understand what Master Lingxu said. It stuck its head out from the gap between Dong Xi's hands and stared at Master Lingxu.

When Master Lingxu saw little chick's eyes, his expression instantly became serious.

Dong Xi lowered her head and hesitated for a long time. Then, she said, "Master is right. This little guy has a big appetite and eats all the good things. It will eat until I collapse sooner or later. Since you said that I can't be distracted, I will raise the little guy a little and set it free."

Dong Xi felt a sharp pain in his finger as soon as he finished speaking.

Dong Xi lowered her head and saw a ball of bright red blood on her fair fingertip.

The edges of the chick's beak were also a little red.

The little chick was the culprit.

“There’s no need to set it free. It’s not bad to raise it,” said Lingxu.

The change in attitude was so fast that Dong Xi was stunned.

After regaining his senses, Dong Xi picked up the chick’s leg and lifted it upside down. She gritted her teeth and said, “Master, this little thing has only hatched for less than two days and already has a fierce nature. Now that it’s a little bigger, it dares to peck my finger. If it’s a little bigger, won’t it eat people?”

Master Lingxu said seriously, “Little Xi, because this little fellow has a fierce nature, you have to raise it and slowly convert it to change it! “

Chapter 379 Enlightened

Dong Xi looked at her Master with a dumbfounded expression. She opened her mouth and said hesitantly, “Master, what you said just now... You sound like an enlightened Buddhist monk!”

Daoist Lingxu was stunned for a moment before he came back to his senses. Daoist Lingxu said, “Hurry up and grow your hair out!”

Dong Xi touched the hair on her head. When she saw her Master’s disappointed gaze, she sighed softly. She took out hair growth cream from her storage ring and wiped it on her head.

Dong Xi frowned and whispered, "Master, this hair growth cream is useless. The story is all a lie. Senior Brother is also lying..."

!!

"Humph!" Lingxu snorted coldly. "Your body, hair, and skin are all from your parents. You were so reckless. Now you're blaming the hair growth cream?"

What did Dong Xi say? Her hair had been repeatedly electrocuted, and it would take a lot of effort to grow it back. It would be easier to shave it off and grow it back.

Daoist Master Lingxu did not know that his beloved disciple had actually developed a new hair growth cream because it was useless. It even had some miraculous effects.

Of course, this was all in the future.

Dong Xi brought the chicken in his hand to Lingxu. The man and chicken looked at each other and looked especially stupid. Lingxu patted its forehead helplessly. Dong Xi said, "Master, you asked me to raise it. Do you know what kind of bird this little thing is? This little thing... Can it really be used as a mount?"

Dong Xi's tone was a little doubtful while Lingxu had a complicated expression. Upon closer inspection, there was even a hint of envy on his face.

“It’s not a problem to be a mount,” said Lingxu.

“What kind of demon beast is this?” asked Dong Xi.

Lingxu shook his head. It was not that he did not know, but he could not say it.

A demon beast of this level was the favorite of the Heavenly Dao. Unless one exposed themselves, no one could say its name.

Dong Xi saw her Master like this and immediately felt troubled.

Was this little fellow very rare? Even someone as knowledgeable as his Master did not know? Forget it, I’ll go back to the sect and take a look at the library.

The speed of a Soul Formation cultivator was very fast. Even if he brought along Dong Xi, this little girl, it would not affect him.

Moreover, they had flying magic tools now, so their speed was even faster. When night fell, the full moon in the sky slowly rose, and the master and disciple slowly landed on the sect square.

Dong Xi immediately sent a message to Ke Xin and Chi Yan. When Dong Xi was about to reach the cave abode, she saw that the two of them were already waiting for her in front of the cave abode.

Dong Xi ran over with a smile and hugged the two of them.

"I'm back," said Dong Xi.

The other two hugged Dong Xi happily as well. After the moment of happiness, Chi Yan's lips twitched and he raised his hand to stroke Dong Xi's bald head.

No, it was not as smooth now. It looked more like a kiwifruit.

"Junior Sister, what kind of trendy outfit are you wearing?" Chi Yan asked. "Could it be that you want to enter the Buddhist Sect at such a young age?"

Dong Xi said with a serious face, "If my hair grows, it will affect my cultivation. Although cultivators don't have to wash their hair, it will be troublesome if my hair is too long when practicing the sword."

Ke Xin, "..."

Chi Yan, "..."

Although they knew that Dong Xi was talking nonsense, they felt that it made sense.

“Hurry up and recuperate, or else Master will think that you want to betray the sect,” Chi Yan said.

Dong Xi opened the restriction of the cave dwelling and invited the two of them to sit inside. After entering, Dong Xi found that he had fallen into a swamp, surrounded by mud with a rotten smell, and there seemed to be something Dong Xi moving below.

Chi Yan and Ke Xin were shocked when they saw this scene. They immediately looked at Dong Xi. Dong Xi’s forehead was twitching.

“Be careful!” Chi Yan shouted.

Following Chi Yan’s voice, the creature in the mud jumped out and pounced on Dong Xi’s head.

Dong Xi did not dodge, nor did she activate her protective shield.

A squirrel whose fur was getting thicker and thicker, jumped onto Dong Xi’s head and said, “Bad Little Xi, bad Little Xi. You promised to bring Songsong along, but you didn’t.”

As Songsong jumped onto Dong Xi’s head, the environment disappeared.

Chi Yan and Ke Xin looked at the squirrel on Dong Xi's head and gloated.

Dong Xi looked ridiculous wearing a squirrel as a hat!

Although the two of them were gloating, they were not new to the cultivation world. The squirrel's environment was so realistic. Not only was it visual, but it was also very realistic to touch. Most importantly, it was the smell. The smell just now almost suffocated the two of them.

With such a powerful demon beast, why didn't Dong Xi bring it with her?

This was because everything Dong Xi did outside was shameful.

Dong Xi distributed the local specialties that she had brought back from Qinan City. The three of them sat by the pond in the backyard and began to barbecue.

After sending the two sisters away, Dong Xi sat on the praying mat.

Chapter 380 Breakthrough Again?

Just as Lingxu returned to his cave dwelling, he suddenly noticed a fluctuation of spiritual energy coming from the next door. This kind of fluctuation of spiritual energy was not something that he cared about, but it did not seem to be something that could be caused by a Qi Refinement cultivator.

Daoist Master Lingxu spread out his divine sense. When he saw everything next door, he was instantly stunned on the spot.

Dong Xi had broken through again?

Daoist Master Lingxu was shocked. It was as if a great war had occurred in the Central Plains. Dong Xi had just returned to the sect and had broken through? She had not eaten the Foundation Establishment Pill and had not made any preparations. How could she break through so easily?

Master Lingxu came back to his senses and his figure began to dissipate. In the next moment, he appeared in Dong Xi's cave abode.

!!

Master Lingxu looked at Dong Xi, the willow tree, the squirrel, and the chicken with a complicated expression.

Dong Xi was still closing her eyes to stabilize her cultivation realm. She looked inside her dantian and saw that the purple Qi had gathered into a ball.

Drip...

In the end, it turned into a purple liquid and dripped into Dong Xi's Dantian. Her body shook.

Dong Xi felt as if her body had changed, and it was no longer limited to the change in her cultivation realm.

As for the other changes, Dong Xi could not tell if it was an illusion.

Everything around Dong Xi turned into elements. The trees were wood elements, and the cave abode was earth elements...

She raised her head and saw a large ball of fire elements not far away. There seemed to be some wood elements too?

Dong Xi was stunned. What was this?

Dong Xi took a closer look and realized that this was her Master.

Dong Xi quickly stood up and walked forward happily.

"Master," replied Dong Xi respectfully.

Daoist Master Lingxu's thoughts were pulled back. Hearing Dong Xi's passionate call, a thought suddenly came to his mind.

It seemed that the treasures in the storage ring were no longer safe. Now that the child achieved success, she'll be asking for a reward again.

"You've already reached the Foundation Establishment stage?" asked Daoist Master Lingxu.

"Master, do you remember what you promised me?" Dong Xi nodded.

Daoist Lingxu glanced at Dong Xi and said, "I haven't forgotten."

Thinking about it this way, it was no wonder why Dong Xi had such an expression when he said that he would wait for her to reach Foundation Establishment before going to train.

Lingxu wanted to refine a cauldron of Foundation Establishment Pills in the next two days. When Dong Xi broke through, Lingxu wanted to protect her.

But before Lingxu could make a move, Dong Xi had already broken through.

Looking at the happy Dong Xi in front of him, Master Lingxu did not say anything.

He suddenly understood that these disciples all had their own opportunities. He had to let them out and let them find their own opportunities.

Raising his head, he saw this resentful disciple looking at Daoist Lingxu eagerly. Dong Xi said, "Master, I have already broken through. You..."

"Your cultivation speed is so fast. You're going to suck me dry of my resources. I can't keep up at all." Lingxu sighed.

After pausing for a moment, Lingxu continued, "Fine, fine."

After saying that, Lingxu resigned himself to his fate and took out a storage bag and gave it to Dong Xi. He said, "You talk a lot, so your expenses must be quite high. This is all I can help you with."

Dong Xi took the storage bag, and Daoist Master Lingxu immediately turned around and left.

Dong Xi was surprised to find that her Master, who had always been steady, seemed to be a little anxious this time.

Dong Xi respectfully bowed to his Master's back and said, "Disciple respectfully sends off Master."

When Master Lingxu heard Dong Xi's words, his footsteps became even faster.

Dong Xi watched as her Master disappeared before looking at her storage pouch and sighing.

It seemed that her Master's family fortune was gone. His storage ring had become a storage bag.

Dong Xi opened the storage bag and saw that it was filled with spirit stones. She silently retracted her previous thoughts.

Dong Xi knew that she was too shallow. Her Master was an 8th grade alchemist, how could he be poor?

With a lot of money in his pockets, Dong Xi was much more generous when feeding her little chicken. She actually gave two spirit stones at a time.

The two spirit stones disappeared as she fed it to the chicken.

Dong Xi frowned. This little chick would not have such a big appetite. Why did it disappear just like that?

Could it be... This little chick also had a storage bag?

It can't be... Two spirit stones were bigger than this little thing. How could the little chick put them away?

Dong Xi grabbed the back of the little chick's neck and started to size it up. After looking around, Dong Xi suddenly had an idea.

Could it be... This little chick had a storage space?

Dong Xi was speechless.

To have a storage space, it was definitely not an unknown demon beast. Even Songsong only had a storage bag.

What kind of demon beast was this little chick?

Dong Xi felt that she still had to go to the Library Pavilion to take a look.

Of course, before that, Dong Xi had to collect all her benefits.

Now that he had been in the sect for three years, the novice benefits were long gone.
