

Above All 386

Chapter 386 Wronged

Dong Xi noticed that Lingxu was looking over and immediately placed the communication jade slip in front of him. Dong Xi said, "Master, do you want to talk to Second Senior Brother?"

Seeing that Dong Xi had already handed over the jade slip, Master Lingxu did not refuse. Dong Xi formed a hand seal and let Master Lingxu speak.

"Told Two, how did you find him?" Master Lingxu coughed a few times and asked. "Didn't I tell you not to use spells in the mortal world?"

When Song Qingfeng heard his Master's voice, he was stunned for a moment before he said, "Master, I'm innocent. I swear to the heavens that my cultivation has already been sealed by you. I only have 10 percent of it now. How dare I use a spell technique casually? It was Little Junior Sister who helped me find the person."

When Lingxu heard this, he looked at Dong Xi. She immediately waved her hand and said, "Second Senior Brother asked me to help. I don't even know who I'm looking for... Master, it's Second Senior Brother's fault. When Second Senior Brother comes back, I'll teach him a good lesson on your behalf."

"You helped him find it?" Lingxu snorted coldly.

"I've divined the location for Second Senior Brother." Dong Xi nodded and said, "I heard that Third Senior Brother was the one who helped him find it."

Destruction. Everyone was destroyed. No one could be left behind.

The look in Master Lingxu's eyes slowly changed. If Song Qingfeng could find the person he wanted so easily, he would not have needed so many years.

He had found the wrong person more than ten years ago.

Master Lingxu thought that Dong Xi and Li Li had learned a little and were just fooling around. He did not expect Dong Xi to actually have the ability to perform divinations.

Dong Xi was no longer slanderous. Seeing her Master's expression, she knew that her Master was not very angry. She immediately let out a sigh of relief and said with a smile, "Master, do you know who Second Senior Brother is looking for? Is she his sweetheart?"

Dong Xi was very gossipy in her heart, but she was stopped by her Master's glare.

"Little girl, don't talk nonsense," said Lingxu.

Dong Xi quickly shut her mouth.

The moment she quieted down, the communication jade slip lit up again.

This time, it was not Second Brother's message but Mo Han's. Mo Han's voice was still cold.

"Dong Xi, give the jade slip to your Master," Mo Han said.

Dong Xi obeyed and respectfully handed the jade slip to her Master.

Master Lingxu took the jade slip and said, "Daoist Master Mo Han, I'm Daoist Master Lingxu."

Mo Han said in a voice message, "I received the voice transmission talisman from you just now. I did tell Dong Xi to go to the Void Sea to find the Ice of Extreme Cold. I can't say that I gave her advice. I just sold some information."

Daoist Master Lingxu had just heaved a sigh of relief when he heard Mo Han's last sentence and his expression became serious again.

When it came to Mo Han, the price of his divination was never low.

How much wealth did Dong Xi have? How could she afford it?

Dong Xi rubbed her nose and said, "I promised him... The friendship of a future Alchemy Grandmaster."

At that time, Dong Xi was penniless. Other than painting a big picture, there was nothing else.

"..."

"And he agreed?" asked Daoist Master Lingxu.

Dong Xi nodded.

Master Lingxu's expression was suddenly surprised. In the end, he could only sigh and say, "Daoist Mo Han has a strange personality."

Daoist Master Lingxu and Daoist Master Mo Han thanked him and then returned the jade slip to Dong Xi. Daoist Master Lingxu said, "Forget it. Since it's Daoist Mo Han who's giving pointers, you can go."

"Thank you, Master. You're the best," said Dong Xi with a smile.

Daoist Lingxu glanced at Dong Xi and said, "Even if I keep you here, I can't keep your heart here."

Dong Xi was silent.

Seeing Dong Xi being defeated, Lingxu found it very interesting. He continued, "Give me a communication jade slip."

Dong Xi came back to her senses and knew that her Master had already seen the benefits of the jade slips. She immediately took out one and placed it in front of Lingxu. Dong Xi said, "Master, study it yourself. If there's anything you don't understand, call your disciple over."

Seeing that Dong Xi was about to leave, Master Lingxu immediately said, "Where are you going? Not leaving any spiritual breath?"

"I forgot about it," said Dong Xi with a smile.

Dong Xi immediately added her Master as a friend. Her Master also asked Dong Xi to add her Senior Brothers. Then, Lingxu took the communication jade slip and began to study it.

After receiving her Master's affirmation, Dong Xi went to make arrangements for her trip. After leaving her Master's cave abode, Dong Xi returned to her own.

The experimental farm in the courtyard was well taken care of by Songsong. Dong Xi was very pleased at first, thinking that Songsong had grown up.

However, when she returned this time, she happened to see Songsong drooling as it stared at a few small spirit seedlings. Only then did Dong Xi understand why Songsong was taking care of the experimental farm .

Chapter 387 Indecency

Dong Xi walked forward and hugged Songsong. Then, she started to rub Songsong's tail and stomach.

She had been playing around like this before, and there was no problem at all.

This time, it was different. Dong Xi had just touched it when its loose little claws covered its stomach and it began to cry out.

Songsong's voice sounded in Dong Xi's mind. Songsong shouted, "Molest! It's molestation!"

Dong Xi, "..."

Dong Xi had just let go of her hand when Songsong said, "Damn, if I don't let you touch me, you're really not going to touch me?"

"?"

What kind of vicious words were these?

Dong Xi pinched Songsong's ears and said with a gloomy face, "Who did you learn this from?"

Songsong directly jumped onto Dong Xi's hand, pinched its waist, and wagged its tail. Songsong said proudly, "I learned it your Senior Brothers and Sisters from the same sect? Did Songsong learn very well?"

Dong Xi pinched Songsong's ears and said, "Others have already grown up, but you're still young. You can't just randomly learn!"

Songsong felt the pain in its ear. It looked at Dong Xi aggrievedly and said, "Songsong doesn't want to learn anymore. Don't bully Songsong."

Dong Xi immediately let go of her hand. She was annoyed. Was it because of her body refinement that she was so strong now? Therefore, she did not go too heavy handed.

Songsong immediately jumped out of Dong Xi's hand and ran to the tall willow tree, shouting crazily.

"Indecent assault!" Songsong shouted. "Don't touch my loose tail, you bastard!"

Dong Xi gritted her teeth as she looked at Songsong, who wanted to be beaten up. Just as she was about to grab it, the scene around her changed.

The surroundings had turned into a desert. Dong Xi stood in the middle, her legs sinking into the sand.

The pressure on her legs also kept rising. Dong Xi tried to move, and the sand flowed faster.

The sun was shining brightly above them, and yellow sand filled the sky.

As the sand reached his chest, Dong Xi felt a little suffocated. Her chest was extremely stuffy, as if it was being squeezed by some great force...

Songsong was scared out of her wits when she saw that Dong Xi had stopped moving. It immediately removed the illusion and ran into Dong Xi's arms. When it saw that Dong Xi's eyes were closed, Songsong panicked. It slapped Dong Xi's face with her two small claws and cried out in panic.

Songsong said, "Little Xi, wake up. Don't scare me. Sob,sob... Little Xi, it's Songsong fault. You punish Songsong..."

Songsong cried pitifully. Just as she wiped her tears, she saw Dong Xi's half-smile.

Songsong immediately realized something and wanted to run.

Dong Xi reacted quickly and hugged Songsong.

“Little guy, you want to run?” asked Dong Xi.

“Let go of Songsong,” Songsong struggled and said.

Dong Xi hugged Songsong. When Songsong stopped struggling, Dong Xi said, “If you continue to be so mischievous, I won’t bring you out.”

What was that?

Songsong immediately raised its head and looked at Dong Xi. Songsong said, “Songsong, don’t be naughty anymore. Songsong will be obedient.”

“Go play,” said Dong Xi with a smile.

Songsong did not leave. It ran straight to Dong Xi’s shoulder and said, “Little Xi, are you bringing Songsong with you? Songsong is the most obedient.”

Dong Xi did not agree immediately. A cunning look flashed in her eyes as she said, “Let’s talk about it in a few days.”

Songsong was a little disappointed, but it still looked at Dong Xi and said, “Little Xi, you must bring Songsong with you this time. Songsong is very powerful now and can protect Little Xi.”

Of course, Dong Xi knew. She had experienced it just now.

Songsong's environment illusion was very strong, and in the environment illusion, all the Dong Xis were physical entities. The feeling of the wind and sand blowing was very real.

Just based on this point alone, Dong Xi must have brought Songsong with her when she went out this time. With Songsong's ability, she should not have been growing flowers and plants in her cave abode.

She could bring Songsong along and teach it well, so that it would not have to run around the sect and learn all that nonsense.

Dong Xi sat on the praying mat and took out a communication jade slip to send a message to Senior Brother Tie Zhu of Masked Moon Sect.

[Is Senior Brother here? Junior Sister plans to go to the Void Sea in the next few days. Does Senior Brother have time?]

Tie Zhu was currently bare-chested. His storage bag and clothes were thrown aside, so he did not see them at all. He waited until sunset. Tie Zhu wiped his sweat and cast a cleaning spell on himself. Then, he took out his communication jade slip and read it.

Seeing Dong Xi's message, Tie Zhu smiled and immediately replied.

[I have time. When will Junior Sister go? I'll go find you?]

Dong Xi thought for a moment and replied.

[Senior Brother, there's no rush. When I'm ready to ask you out, it'll take about a month.]

After Tie Zhu saw it, he replied.

[No problem. I'll wait for Junior Sister's news.]

The preparation Dong Xi mentioned was to refine some Water Repellent Pills. Now that she could swim, she would not really need them.

Chapter 388 Water Repellent Pill

The Water Repellent Pill was a tier 2 medicinal pill. It was very simple, but Dong Xi had never refined it before.

On this trip to the Void Sea, Dong Xi suddenly thought of something. If the thing she wanted to find was at the bottom of the sea, what should she do?

Therefore, this Water Repellent Pill had to be refined.

Dong Xi used her points to exchange for some medicinal herbs, and then let the Big Snake send her into the Frog Space.

The required medicinal ingredients were almost ready.

Dong Xi memorized the key points of refining the Water Repellent Pill and then walked towards the pill refining room.

Dong Xi thought that with her current Foundation Establishment cultivation, it would be easy for her to concoct a tier 2 Water Repellent Pill. However, when she actually concocted it, she realized that it was not easy at all.

Although the Water Repellent Pill repelled water, one must have some understanding of water spiritual power. Alchemists basically all had fire and wood spirit roots, and almost no water spirit roots.

It instinctively repelled water spiritual energy, so there were not many Water Repellent Pills on the market.

Dong Xi had failed the first batch. She lowered her head and looked at her hands. Her fingers were long and slender, and there were calluses on her knuckles from practicing the sword.

Dong Xi's thinking was too simple. The Water Repellent Pill was meant for humans or demon beasts to eat and move freely in the water.

It could extract the oxygen in the water for the human body.

Of course, there was no such thing as oxygen in the cultivation world. Therefore, the senior who invented this pill must be a genius.

The oxygen had the effect of supporting the combustion, so it was very easy for the fire to go too far during refinement, and in the end, it would become a useless pill.

Dong Xi's fire spiritual Qi was already at a high temperature, so how could it not be crippled?

Dong Xi opened the pill furnace and looked at the pitch-black inside. She sighed helplessly.

Fortunately, the furnace given by her Master was not bad. Otherwise, the furnace would have exploded.

Dong Xi used a cleaning spell to clean up the pill furnace. Then, she took out another set of medicinal ingredients and began to refine.

This time, Dong Xi was very careful. She only injected a little fire spiritual energy, and used the rest of the earth fire in the alchemy room.

However, this time, Dong Xi still failed.

Dong Xi scratched her head helplessly and sighed. She took out her communication jade slip and started to call for reinforcements.

Dong Xi looked at Chi Yan's name and thought for a moment before immediately swiping it.

Little Senior Sister's flames were even more terrifying. It was better to forget about asking Little Senior Sister for help.

In the end, Dong Xi looked at Ke Xin's name and smiled.

That's right. At this time, she still needed Kexin, this fake sister.

"Sister, can you help me?" Dong Xi immediately said through voice chat.

"Hurry up and say it. Don't delay my cultivation," Ke Xin immediately said through voice chat.

"Help me refine some pills. I'll give you the herbs. You refine them," said Dong Xi through voice chat.

When Ke Xin heard this, she was a little stunned. Ke Xin sent a question mark. "?"

"Sister, are you crazy? You're already at the Foundation Establishment stage, and you want me, a 5th level Qi Refinement trash, to help you refine pills? You can't joke like this, right?"

"No, I can't refine this pill. After thinking about it, I have no choice but to look for you," Dong Xi said helplessly.

"What medicinal pill? You can't refine it either?" Ke Xin asked in a puzzled voice.

"Water Repellent Pill," said Dong Xi through voice chat.

...

Ke Xin did not reject Dong Xi. She went to the pill refining room and found Dong Xi's room.

Dong Xi saw that Ke Xin had come and immediately stood up. She grabbed Ke Xin's hand and ran into the pill room.

"Sister, I can only look for you now," said Dong Xi.

Ke Xin saw a jar on the ground. She stretched her head out to take a look. It was filled with black waste.

"Little Xi, are there things you're not good at?" Ke Xin asked with a smile.

"I'm not good at many things. If it wasn't for the fact that I can't buy them, I wouldn't have refined them myself," said Dong Xi with a shrug.

When Ke Xin heard Dong Xi's words, she also sighed lightly. Ke Xin said, "What if I can't?"

"Try. If it really doesn't work, I'll think of another way," said Dong Xi indifferently.

As she spoke, Dong Xi cupped her fists in a fawning manner and continued, "I'll have to trouble you to make a trip. Good sister, I won't treat you unfairly."

When Ke Xin heard this, her eyes immediately lit up. Ke Xin said, "What do you mean?"

Dong Xi smiled meaningfully and said, "Chicken butts are enough."

Ke Xin's expression immediately became serious as she said, "You're trying to bribe me with chicken butts?"

Dong Xi hurriedly pulled Ke Xin and said, "I'll buy you that robe you liked before."

Ke Xin said with a triumphant look, "Deal, Xiao Xi. Don't forget your promise."

"You should try to refine some pills." Dong Xi nodded and said, "I'll buy you the Daoist robe if you succeed."

Dong Xi had the token given by Second Brother, so a Daoist robe was nothing.

Ke Xin sat down, tidied her clothes, and looked at Dong Xi. Ke Xin said, "Where are the herbs?"

Chapter 389 Mental Preparation

Dong Xi immediately flipped her hand and took out the herbs. Dong Xi said, "Here."

"How should I refine it?" Ke Xin asked. "I've never concocted a Water Repelling Pill before. For tier 2 pills, I've only concocted a Wind Speed Pill before. The success rate isn't very high, so you have to be mentally prepared."

Ke Xin knew that Dong Xi was very strong. Usually, Dong Xi's pill concoction was perfect. This had become the benchmark in the Alchemy Sect.

Ke Xin was afraid that if she did not refine it well, Dong Xi would be disappointed, so she said it in advance.

"Don't worry about the success rate. It doesn't matter even if all the pills are wasted," said Dong Xi.

As she spoke, Dong Xi pointed to the jar at the side. Dong Xi said, "Look at how much I've wasted."

After Dong Xi said this, Ke Xin no longer felt any psychological burden.

Dong Xi took out her previous experience and told Ke Xin everything she could use.

Ke Xin listened very seriously. Dong Xi had a unique understanding of pill concoction. After listening to a few words, she benefited greatly, unlike Ke Xin and the others, who were completely imitating others in pill concoction.

It was also Dong Xi's first time seeing Ke Xin concoct pills. From the moment Ke Xin injected her spiritual energy, Dong Xi frowned.

She did not say anything and just quietly looked at Ke Xin's ruined furnace.

Looking at Ke Xin's dejected appearance, Dong Xi said, "If you give too much spiritual energy at the beginning, pill refinement is a continuous process. It's impossible to succeed in a short time. If you inject too much spiritual energy in the early stages, you'll be too weak in the later stages. When fusing, the various parts of the pill refinement will be uneven, and it'll be easy for it to be wasted."

"You're right." Ke Xin nodded.

Dong Xi smiled and said, "At the beginning, you should first use your spiritual energy to circle around the furnace. This is a hot furnace. This way, you can ensure that the medicinal herbs are heated more evenly in the furnace. Do you understand?"

Ke Xin understood. In the past, pill refinement was something she had to ponder over by herself. Although there was a Senior Sister explaining it in the Skill Teaching Hall, it was not as detailed as this. Perhaps... Senior Sister did not understand this either.

Later on, when Ke Xin entered the inner sect, she was still being let loose. Her Master had never seen her before, so no one would talk about these things.

"I'll keep trying," said Ke Xin.

This time, Ke Xin's spiritual energy was much more stable than before. Ke Xin only had fire and wood dual spirit roots, so she would not be affected by other miscellaneous spiritual energies. At the same time, her spirit root values were not high, and the temperature of the flames was not high. She did not need to grasp the elemental balance here like Dong Xi.

Ke Xin focused on the pill furnace, paying attention to the changes inside. When it was about time, she immediately formed hand seals and cast them one by one.

After a while, there was no sound from the pill furnace, nor was there any strange smell. Could it be... she succeeded?

Ke Xin suppressed the excitement in her heart and immediately stood up to check. Dong Xi also stood up.

The two of them opened the pill furnace and were excited when they saw the three pills inside.

"You are indeed amazing. You succeeded in the second batch. Sister, your talent is not bad," said Dong Xi.

Ke Xin suddenly became a little shy and said shyly, "Not really."

As soon as she finished speaking, the room instantly fell silent.

Ke Xin raised her head and looked at Dong Xi. The two of them laughed at the same time.

After laughing for a long time, Dong Xi pushed Ke Xin to the praying mat from behind and let Ke Xin sit down.

"It's not over yet. Continue refining," said Dong Xi.

"How much do you want to refine?" Ke Xin asked in puzzlement.

Dong Xi raised his eyebrows. With his short hair, he looked like a young man.

"Of course, I'll stop until you can perfectly concoct the pill," said Dong Xi.

Ke Xin, "?? "

"Perfect pill concoction?" Sister, do you think I'm like you? I have never refined a pill perfectly before. This is a tier 2 medicinal pill. I can't, I can't..."

Dong Xi stood beside Ke Xin and said, "You can!"

Ke Xin was stunned for a moment. Looking at Dong Xi, Ke Xin's eyes were filled with unconfidence.

Dong Xi looked down at Ke Xin and said firmly, "Even if you couldn't do it in the past, you can do it today."

Dong Xi's gaze seemed to contain a magical power, and Ke Xin slowly calmed down.

Ke Xin did not say anything. She followed Dong Xi's instructions and used the spiritual energy to heat up the furnace.

Seeing Ke Xin's actions, Dong Xi immediately took out two sets of medicinal herbs and handed them to her. Dong Xi threw the medicinal herbs in one by one. Dong Xi watched Ke Xin from the side, wondering if she was writing something on the paper.

The cauldron of pills succeeded once again. It was clearly better than before. This time, there were four pills. Although they were all low-grade, it still gave Ke Xin confidence. Ke Xin had a lot of room for improvement. Although it was a little difficult, as long as she refined more and became familiar with it, there was still a lot of hope. Ke Xin secretly cheered herself on.

Chapter 390 Experience

Just as Ke Xin was about to continue refining, Dong Xi interrupted her. Dong Xi took the paper and said while reading, "The heating time of the furnace can't be too long, but it can't be too short either. Wait until the temperature of the path is about the same as the temperature of the spiritual energy you injected. You can try to change the order of the medicinal herbs entering. Some spiritual plants have better medicinal properties the longer they are grown. Some are the opposite. You have to think of a way to make these medicinal herbs have the best medicinal properties..."

Dong Xi said that this was all from her past experience. There was nothing to hide between sisters.

Ke Xin was stunned when she heard this. Ke Xin suddenly felt that when compared to Dong Xi in terms of alchemy, it was like a child playing around. Ke Xin was completely wasting materials.

After half a day, Ke Xin still had her mouth agape in shock. When Dong Xi finished speaking, Ke Xin said, "So there is so much knowledge in alchemy."

Dong Xi smiled but did not say anything. Ke Xin continued, "How do I know when the medicinal properties are the strongest?"

"There's no shortcut. We can only refine more," said Dong Xi.

Although she said it lightly, Ke Xin's heart trembled. No wonder everyone said that Dong Xi seemed to be living in a pill concocting room. The Spirit Restore Pills that Dong Xi concocted raised the sect's welfare by a whole level.

Today, Dong Xi was able to clear up Ke Xin's doubts, and what she said was so reasonable. Even if she did not say anything, it was enough to make many alchemists think for a long time.

This was something that Dong Xi had come up with after refining countless pills. Ke Xin sighed. This sister was clearly younger than her, but she had lived a very clear life. Ke Xin thought about herself... The longer he stayed in the sect, the less she would think. Everything she did was based on books.

Dong Xi looked at Ke Xin in a daze. She raised her hand and pinched Ke Xin's face.

Now that Ke Xin was 15 years old, the baby fat on her face had slowly disappeared, and she had a beautiful oval face.

Ke Xin instantly came back to her senses. Dong Xi said, "Don't be lazy, Sister. Continue refining. You help me refine pills, and I'll find your flaws. We'll win!"

Ke Xin slapped Dong Xi's hand away. Ke Xin nodded with a serious expression. She took the medicinal herbs again and changed the order of the medicinal herbs according to Dong Xi's words.

Some herbs looked thick but could not withstand fire. Some looked ordinary but would burn for a long time.

This was also Ke Xin's first time seriously examining these spirit herbs. She felt that it was very strange. She watched as these medicinal herbs became purer bit by bit. After burning them for a while, the medicinal effects would appear. Ke Xin also slowly understood when these medicinal effects were the best.

Ke Xin copied Dong Xi's appearance and took out a pen and paper to record everything she found.

After a dozen rounds of refining, Ke Xin opened the furnace again. This time, there were five medicinal pills inside, one of which was a middle-grade.

"It's really useful, sister. You're too amazing," Ke Xin said excitedly.

Dong Xi also noticed that Ke Xin had slowly mastered how to summarize her experience. This way, she did not need to watch from the side

Dong Xi could help Ke Xin for a while, but not for a lifetime. In the future, no matter what kind of pills she refined or what cultivation method she learned, this method could be used.

Ke Xin now also understood Dong Xi's words, and she knew that practice makes perfect.

Ke Xin also understood why even though Dong Xi was young, she was always more powerful than the others. Other than Dong Xi's natural endowments being very good, Dong Xi had perseverance and wisdom that others did not have.

Previously, he heard that Dong Xi had refined more than 10,000 batches of Spirit Restore Pills, and this was not counting the Vitality Reinforcement Pills, Spirit-Nourishing Pill, and other pills.

Ke Xin and Dong Xi entered the sect at the same time. Even 100 Ke Xins added together would not be able to produce as many pills as Dong Xi.

Although it was due to her cultivation speed, Ke Xin was not as hardworking as Dong Xi.

On the other hand, Dong Xi was brave, smart, and had good aptitude.

Therefore, Dong Xi entered the sect for three years, and she already reached the Foundation Establishment stage. Many cultivators with Heavenly Spirit Roots could not do it.

Ke Xin suddenly thought of something and raised her head to look at Dong Xi. Ke Xin said, "Little Xi, you're a Perfect Foundation Establishment Cultivator?"

When Dong Xi participated in the competition, she was only at the 7th level of Qi Refinement. Now, after half a year, she had already reached Foundation Establishment.

It could not be that she would cultivate to the perfected 12th level of Qi Refinement stage in half a year, and then break through to the Foundation Establishment stage perfectly, right?

However, Ke Xin could not figure out why Junior Sister Dong Xi was in such a hurry to reach the Foundation Establishment stage when she had such good aptitude and was still young. When the final meridian channels were all opened up, wouldn't it form a perfect cycle?

Ke Xin was still thinking when Dong Xi said indifferently, "I have obsessive-compulsive disorder."

"?"

Still not understanding, Ke Xin frowned and said, "Sister, are you sick? What was obsessive-compulsive disorder? Can it be treated?"

Dong Xi, "..."
