Chapter 476 The Gods Will Bless You

Dong Xi was still thinking about something when her communication jade slip fluctuated.

However, at this time, Dong Xi was using the identity of a native. Of course, she could not use something that would expose her identity.

As the man in black chanted, the door became even more solid.

The man in black looked at the attendants, and two attendants went forward to push open the door.

Inside the door, smoke swirled around and emitted a red light.

The man in black said, "Go in, believer of God! Go after what you want, and the Gods will bless you."

Immediately, some people started to move, but most of them remained kneeling on the spot.

As more and more people entered, the others did not dare to dawdle.

What if there was really a treasure inside? Wouldn't it be gone if she went in too late?

Dong Xi did not move, because her cultivation technique was circulating rapidly. Dong Xi also discovered that almost none of the natives here moved.

This was obviously abnormal!

Humans would have close and distant relationships, and there was a saying that fertile water should not flow into other people's fields.

If the Gods really had treasures, why didn't they give them to their most devout believers? Instead, they let these outsiders enter to rob them?

Fortunately, Tie Zhu and the others saw that Dong Xi did not move, so they did not dare to move either.

Dong Xi's cultivation technique slowed down, and the red color inside the door turned golden.

At this moment, the natives walked through the door one after another. Dong Xi followed the natives and put her palms together before walking in.

Cultivators had extremely strong five senses. Although her eyes were closed, Dong Xi could faintly smell the scent of blood.

Dong Xi frowned and walked for a long time. The smell of blood slowly faded until she suddenly felt relaxed and opened her eyes.

At this moment, behind Dong Xi and the others was a cliff that was ten thousand feet high. No one knew how they had gotten there.

No wonder the natives had to close their eyes. If they could see, even if there was a path, ordinary people would not dare to walk!

More and more people stopped. In front of them was a vast ocean. No one could tell where the treasure was.

Everyone had come from the Void Sea, so they naturally had their own methods to deal with the sea.

Dong Xi watched as the aborigines entered the sea, and she followed them into the sea.

After walking for a short distance, Dong Xi realized that something was wrong. These people seemed to have... long lost their vitality.

Dong Xi immediately stopped and took out the boat that he had prepared earlier. He pulled Tie Zhu and the others up one after another.

“We can’t go down now,” Dong Xi said. “The bottom of the sea is full of dead bodies.”

No one liked the feeling of being in the sea. Even Shangguan Yun’er, who had been in the Void Sea since she was young, felt the same.

Dong Xi’s fire spiritual energy started to circulate, and the clothes on her body dried up very quickly.

Only then did Dong Xi look towards the shore. There were almost no more natives who had come in.

When Dong Xi thought of how the natives looked as if they were unafraid of death when they entered the sea, a phrase suddenly came to her mind.

Sacrifice!

But what was going on? When they had just arrived here, Songsong had warned them that there were many illusions here, and they were a combination of reality and illusion. If they were not careful, they would easily fall into the illusion.

In that case, were those people who jumped into the sea real or fake? Dong Xi frowned. She suddenly felt that after so many years in the cultivation world, she was really lacking in talent and knowledge. Now, she could not even distinguish between reality and illusion.

Dong Xi sat cross-legged on the boat and began to sense.

What were the real waves like? What was the sea breeze like? The sun by the sea should be very hot.

When people started to distrust their eyes, their senses became an important way of judging.

Shangguan Yun'er, who was sitting beside Dong Xi, took out a handkerchief and helped Dong Xi wipe away her sweat. Dong Xi suddenly opened her eyes and looked at the handkerchief in Shangguan Yun'er's hand.

Natural silk.

Shangguan Yun'er loved the shark gauze the most, and she would never use anything other than the shark gauze.

At this moment, the scene around Dong Xi began to change.

Dong Xi was still kneeling in the rear hall, but the surrounding environment had changed.

The originally glorious temple had now decayed, and the surroundings looked like it was in decline.

Dong Xi stood up and observed the surroundings. Then, she walked out. The originally lively crowd had disappeared. Even the steps were covered in moss.

“Is there anyone here?” Dong Xi was stunned.

No one said anything. Dong Xi entered the hall once again and discovered that there was an incense stick in front of the statue.

Dong Xi pondered for a moment and went forward to light the incense. Dong Xi said, “I only want to get the treasure and leave this place. May the Gods bless me!”

The moment the incense was inserted into the incense burner, Dong Xi saw the statue suddenly light up.

Dong Xi thought that it was a divine manifestation and quickly looked up.

However, what happened next stunned Dong Xi. Umm... How did the face of the statue turn into Dong Xi’s face? Were they trying to tell Dong Xi that it was better to rely on herself than to rely on others?

Chapter 477 Do We Still Have a Chance of Winning?

Dong Xi sighed softly. Just as she was about to see if there was any other way out, the scene changed again. She watched as the man in black opened the door while offering incense.

This time, there was no red light inside the door. The natives and cultivators all ran inside happily.

After entering, there was no fog.

Because, this time, everyone appeared directly in the sea.

Everyone had a protective barrier that looked like a bubble on their bodies. The only difference was the color.

Some of them were white, some were red, some were black, and only Dong Xi's was gold.

The bubble seemed to carry everyone with it. One unlucky guy hit the reef and the bubble burst. He could not breathe and immediately swam to the surface.

When everyone saw this situation, they also realized that these bubbles were the key to the bottom of the sea.

Dong Xi immediately wanted to swim into the distance. As soon as Dong Xi swam, the people behind him began to attack each other.

The battle seemed to reach a climax in an instant. Countless bubbles burst. After the bubbles burst, these people either used their magic tools to stay in the sea or swam upstream.

The number of cultivators in the sea instantly decreased by one-third. Some cultivators reacted and immediately shouted, "Stop fighting. Didn't you notice that there are only foreign cultivators here? There are no natives. Maybe this is what the natives are trying to achieve. They want us to have internal friction. If we fight like this, do we still have a chance of winning?"

When everyone heard this, they all stopped.

Among the remaining people, at least half of the white bubbles were gone.

At this moment, everyone realized that the white bubble seemed to have the weakest defense. As for the defense of the other colors, they could not accurately estimate it for a moment.

With this knowledge, the cultivator in the white bubble immediately retreated vigilantly.

Dong Xi was originally at the periphery, and seeing that they could not fight, Dong Xi no longer cared and continued to swim towards the west.

The sea was dark, and Dong Xi felt that she was heading west.

There were many who chose the west side like Dong Xi. While swimming, Dong Xi took out her communication jade slip and called for people in the group.

[Have you guys entered into the sea? Where are you guys? Why haven't I seen any of you?]

After Dong Xi sent the message, Tie Zhu looked at the two huge shells on his body and pondered.

The communication jade slip lit up. Tie Zhu took out the communication jade slip and immediately replied.

[Junior Brother, I don't know where I am. There are seaweed everywhere. Also, I've turned into a huge shell. I don't know what this shell is made of, but it's quite heavy.]

Long Wei also replied at this time.

[Guess what I became?]

When everyone saw Long Wei's message, they began to guess in the group.

[Seaweed?]

[No, coral?]

...

Long Wei replied after a moment.

[You won't believe it if I tell you. I've become... a merman.]

Dong Xi thought of Long Wei's face, coupled with the mermaid tail...

She suddenly felt that the mermaids in fairy tales were a little wretched.

Shangguan Yun'er also sent a message in the group.

[I've also become a mermaid.]

Dong Xi recalled Shangguan Yun'er's appearance and immediately came back to her senses.

From the looks of it, everyone had a different identity. It was just that he did not know what their functions were.

The shell's defense should be much stronger than the bubble's, but its movement speed should not be much.

The merman's movement speed was very fast and their combat strength should not be that great.

Dong Xi asked where everyone was and what the surroundings looked like. The final outcome was not surprising at all. Everyone was not in the same place.

Dong Xi could only tell everyone to keep in touch and see where they could gather.

Dong Xi had just finished sending the message when there was a sudden movement above her head.

Dong Xi immediately dodged, only then did she see what was attacking her.

It was a huge fish. Its eye alone was almost as tall as Dong Xi.

Dong Xi climbed onto the big fish's fin. Feeling the speed at this time, Dong Xi was very pleased.

No wonder the old man said that she was like a fish in water. This was probably the case. Was this speed not much faster than Dong Xi's own swimming speed?

Moreover, it also saved Dong Xi a lot of energy. When she reached the place, he would be able to snatch the treasures better.

Dong Xi was still feeling happy. She lowered her head and saw a few cultivators sitting on the back of the big fish.

Dong Xi was speechless.

As expected, everyone was smart. Who would have thought of that?

Dong Xi smiled and waved at them. She said, "Hello!"

...

Dong Xi sat on the back of the big fish and used her spiritual energy to firmly absorb it.

The few of them looked at each other. No one attacked Dong Xi.

Seeing this situation, Dong Xi knew that they could not fight for a while. The spiritual energy in Dong Xi's palm dispersed.

Chapter 478 Are You the Saint Child?

At this moment, a female cultivator among them said, "You're the Holy Child?"

Dong Xi looked at this female cultivator indifferently. Don't think that just because she had an innocent face, Dong Xi could not tell.

This female cultivator asked on purpose. She did not have any good intentions.

As expected, as soon as the female cultivator finished speaking, the others looked at Dong Xi warily.

"Are you a native?" asked one of them.

Dong Xi nodded her head calmly and looked at the crowd meaningfully. She said, "So what if I am? Anyway, what we want is different."

Dong Xi did not know what these people were looking for, so her words were just to confuse them.

Dong Xi promised that as long as she, the Holy Child, said this, all the cultivators who came in would soon know.

When these people heard Dong Xi's words, they immediately became interested. One of them said, "Holy Child, what do you know?"

Dong Xi smiled, smiled, and used her eyes as if she could see through people's hearts. Her eyes swept across several people, and finally looked at the female cultivator with ill intentions. Dong Xi deliberately stopped for a long time.

Only when the female cultivator felt uneasy did Dong Xi retract her gaze. Dong Xi said, "What we want is different from what you want. What you want is treasures, what we need... It's Power of Will."

Dong Xi was spouting nonsense. Combined with her identity as the Holy Child, her words suddenly became more believable.

"Holy Child, do you know what treasure we want?" a cultivator immediately said. "It is fate that we met. If you can point us in the right direction, we will also help you obtain the Power of Will."

Dong Xi shook her head and said, "God has given an oracle. He wants to find the next God. We are the servants of God. We don't dare to interfere with the matter of God's successor. Everything has its own fate..."

After saying that, Dong Xi closed her eyes. Coupled with the golden bubbles on her body, she really looked like a servant of a God.

The big fish swam all the way to the west, as if something was attracting the big fish.

Dong Xi and the others successfully reached their destination. The big fish directly crashed into the restriction and knocked everyone off its back.

Dong Xi looked over. In front of her was a flat land at the bottom of the sea. This place did not seem like a place with treasures at all.

Dong Xi raised her hand and touched it. A transparent restriction appeared.

This restriction did not isolate everything. At least the seawater could flow freely.

Just as Dong Xi was thinking of a way to remove the restriction, Dong Xi's finger actually pierced through it!

Dong Xi was extremely shocked. Suddenly, a suction force appeared within the restriction and sucked Dong Xi into it.

This made the surrounding people dumbfounded.

"What's going on? Could it be that only the natives could enter?"

"But there's nothing inside. So what if we don't go in?"

As soon as he finished speaking, the earth shook and the mountains shook. Not long after, a beautiful crystal palace appeared in the restriction.

Dong Xi did not even think about it and directly walked towards the crystal palace.

Since the pie was already in her mouth, how could she not eat it?

The voice inside spread in all directions. Those who had chosen the wrong direction also came over. Those who had chosen the right direction were even more desperate.

Tie Zhu carried the shell on his back and hurried along. What was this heavy shell made of? It was much heavier than the usual ironwood.

However, the good thing was that Tie Zhu could still breathe underwater.

Tie Zhu even wondered if he could bring this shell back with him when he left. If he could, he could use it to refine his body. This trip would be worthwhile.

Considering how heavy the shell was, Tie Zhu's speed was commendable.

At this moment, Dong Xi was the first to enter the crystal palace. As soon as she entered the door, a huge golden map appeared in front of her.

On the map, Dong Xi only knew the lake that she had dug out herself, which was thousands of miles away from where she was.

On the map, only the palace where Dong Xi was located was lit up. The rest of the places were dark.

Dong Xi looked at it for a long time, then took out a photostone and took a complete picture of the map.

After everything was done, Dong Xi strolled around the crystal palace again, but there were no treasures.

At this time, the noise outside was getting louder and louder. Dong Xi also had a headache. If Dong Xi told these people that there was nothing here, would they believe it?

Of course not. Dong Xi had to think of other ways.

Dong Xi quickly thought about it. Finally, she took out a sound amplifying stone and transmitted her voice.

"The Gods love their people," Dong Xi said. "I have received the divine decree of the Gods to choose a prodigy to enter and receive the inheritance of the Gods."

Anyway, these people all knew that Dong Xi was the Saint Child, so it was not a problem for Dong Xi to do this.

Chapter 479 Do You Really Think You Are the Dragon King?

When everyone heard Dong Xi's words, they immediately quieted down.

Dong Xi stood on top of the crystal palace and pretended to throw out a stream of spiritual energy to envelop a person.

This person immediately revealed a happy expression and immediately walked toward the restriction.

What was shocking was that this person actually came in directly.

Dong Xi was also a little dumbfounded. What was going on?

Spiritual energy? Gold? Attraction?

When the people outside the restriction saw this scene, they began to cheer. Dong Xi secretly said in her sea of consciousness, "Big Snake, what is going on? Why did my spiritual energy turn golden? Why were they allowed to enter? Could it be that I've really become some kind of Holy child?"

Su Cheng said lightly, "Just because you lived in the Dragon Palace for two days, you really think you're the Dragon King?"

Dong Xi immediately laughed. She said, "So I'm not. Have you ever seen such a shabby Dragon King?"

When Su Cheng heard this, he also laughed. Su Cheng said, "That's right. You're not some Saint Child. All of this is just a coincidence."

Dong Xi nodded. Then, she thought of something and said, "Big Snake, what's the situation with the Fire Tribe? Do you know about it?"

"Don't talk nonsense, I don't know anything," Su Cheng said.

"Impossible! What's going on?" Dong Xi said. "Why did all the people of the Fire Tribe disappear the moment they came out?"

...

After that, no matter what Dong Xi said, Su Cheng ignored her.

More and more people gathered outside the restriction. Seeing that everyone was running out of patience, Dong Xi let a few more people in.

Those who entered naturally did not find any treasures. They wanted to go out but could not, so they could only wait on the spot.

When the number of people entering the secret realm reached 300, the crystal palace shook again and sank.

Dong Xi, who was sitting on top of the palace, almost fell down. He immediately steadied himself and watched as the palace sank.

Dong Xi suddenly understood something and muttered to herself, "No wonder... Nothing."

It turned out that the crystal palace was an elevator. However, no one knew what the trigger condition was.

There were all kinds of seaweed in the abyss, and many of them were emitting light. It was obvious that these seaweed were not ordinary.

When Dong Xi saw this scene, she almost cried tears of joy. A Golden Core stage Secret Realm made like this almost made the people who came in return empty-handed.

The people who came down with Dong Xi did not hesitate to rush out, wanting to snatch these spirit herbs.

Dong Xi glanced at the crowd. There was no sign of Senior Brother Tie Tie Zhu and the others. She wondered if Senior Brother Tie Zhu and the others had gone in the wrong direction.

Dong Xi took out a jade slip and sent a message to everyone in the group. Long Wei immediately replied.

[I'll be there soon. I'm so tired. Fortunately, I didn't run in the wrong direction.]

When Dong Xi saw Long Wei's message, she immediately asked Long Wei if there were other mermen like Long Wei. Long Wei immediately replied.

[That's right, they're all here. It's just that there were two earthquakes just now. The mermen felt that the water fluctuations were very obvious, so they all came over.]

When Dong Xi heard this, she recounted everything that had happened in the group and sent another message.

[I'll go in and take a look first. You guys can see if you can come in later. If you can't, I'll think of a way to bring you in.]

Dong Xi swam to the place marked on the map and lit up the map first.

Dong Xi did not know how long she had been swimming for. Her arm felt numb, and she saw a battlefield in front of her.

It was so quiet that even the fish circled around.

War flags, swords, and white bones...

Dong Xi immediately sucked in a breath of cold air. Dong Xi had thought of countless possibilities, but she had never thought that this would be a battlefield.

Dong Xi had lit the Rebirth Mantra that she had copied when she was idle in Thunder Sound Temple. The specks of golden light looked very strange in the water.

At this moment, Dong Xi's Demon Beast Bag suddenly moved.

Dong Xi lowered her head and saw a small head.

It was Da Niu!

Soon after, Songsong also came out.

"I can't hold Da Niu still," Song Song said. "He's very disobedient today."

Dong Xi rubbed her head and said, "It's okay. It doesn't matter if it happens once in a while."

Songsong cried out happily. In the next second, Da Niu came out of the Demon Beast Bag and rushed straight to the underwater battlefield.

Dong Xi was also shocked and immediately chased after him.

It was ridiculous for such an ancient divine beast to drown in the sea.

However, he did not expect Da Niu to jump into the ruins. Immediately after, he let out a miserable cry and the seawater started to swirl.

Dong Xi's small body could not withstand such a vortex at all. If the golden bubble on her body burst, Dong Xi really had no way out.

Chapter 480 Taunt

Dong Xi could only shout, "You clown chicken, Da Niu, come back quickly. What are you doing?!"

Dong Xi was extremely anxious at this moment. Su Cheng said mockingly, "No wonder this little bird refused to turn back. A Bright Bird with such a name... He can really die of shame."

Dong Xi fell silent. She admitted that she gave him this name. It was not such a big deal, was it?

How old was this child? Would he take things too hard for a down-to-earth name?

"It's not really that name. It's just a random nickname. Who would blame this?" Dong Xi said.

After saying that, Dong Xi continued without hesitation, "Could it be that when you were young, your mother didn't give you a nickname?"

"No," said Su Cheng.

Dong Xi actually heard a very complicated emotion from these two words. There was regret and joy in them.

Dong Xi was stunned. Su Cheng said, "I don't have parents."

Dong Xi subconsciously said, "How is that possible? Did you jump out of a rock?"

Su Cheng laughed and said, "I hatched from an egg. When I came out, there was no one else beside me."

When Dong Xi heard this, she suddenly felt a little guilty, as if she had touched someone's sore spot.

"What a coincidence," Dong Xi coughed a few times and said. "When I was born, my parents threw me into an orphanage."

Although Su Cheng did not understand what the orphanage meant, from what he heard, it seemed like she had been abandoned.

Su Cheng was silent for a moment before he said, "Don't interrupt Da Niu. This is Da Niu's good fortune."

"What..." Dong Xi was confused.

However, halfway through, Dong Xi suddenly understood something.

"It's Da Niu's fortune..." Dong Xi repeated.

After coming in for so long, after so much trouble, he finally encountered a good fortune, but it had nothing to do with Dong Xi. Dong Xi felt very complicated.

Su Cheng noticed Dong Xi's strange behavior. Su Cheng snorted coldly and said, "The greatest benefit of this Secret Realm is already yours, yet you still think so. Aren't you going too far?"

When Dong Xi heard this, his eyes widened. He took out his storage ring and looked at it for a long time. Dong Xi frowned and said, "What benefits? Not at all. The general token had been given away. There was only one piece of Deep Sea Extreme Ice left. There was still a Fire Spirit Crystal left... Could it be that the best thing inside was the Deep Sea Extreme Ice?"

If so, she could accept it.

Su Cheng slapped Dong Xi twice, but the two of them were only talking in the sea of consciousness, so Dong Xi couldn't see Su Cheng's displeasure.

"Why do you think you can pass through the restriction freely?" Su Cheng asked. "Why do you burn incense to ascend the clouds? Why are your bubbles golden?"

This time, Su Cheng spoke for a very long time. Su Cheng had never said so much before. After listening, Dong Xi asked curiously, "Why?"

Su Cheng's words were filled with envy. Su Cheng said, "You have received the blessings of the citizens of the Fire Tribe..."

Dong Xi's ears perked up when she heard that.

Dong Xi knew that blessings were also Power of Wishes.

Many people stepped into the Dao from the mortal world by borrowing the Power of Wishes of mortals. The Power of Wishes made those people powerful, but after these people's strength increased, they would also fulfill the wishes of those mortals.

Both sides complemented each other.

Su Cheng continued, "The Fire Tribe was exterminated 10,000 years ago. The Fire Tribe has never been able to leave. What we see is only the obsession of the Fire Tribe."

After Dong Xi heard this, she immediately thought of the Fire Tribe's leader. As a prophet, the Fire Tribe Leader's eyes could see through everything...

Dong Xi let out a long sigh, as if she had thought of something. She said, "But... You were the one who let them out back then, right? Why did the blessing of the Fire Tribe reach me?"

After a long time, Su did not answer this question.

Dong Xi waited for a long time, but still did not get an answer. She said, "Forget it!"

Dong Xi sat in her own bubble and watched the vortex spinning not far away. She thought of the great war between the ancient Gods and the first time she had taken the wrong path to the Skill Teaching Hall when she had just entered the sect. She thought of the scene she had seen on the murals...

Only in a battle of that scale would be worthy of the Bright Bird's identity.

Finally, the vortex calmed down.

Dong Xi's thoughts were instantly pulled back as she looked at the center of the vortex.

A bunch of meaty things were thrown out from inside.

Dong Xi instinctively raised her hand to catch it. After seeing it clearly, Dong Xi immediately fell silent.

This little fellow had not grown up at all. The fur that had finally come out had all fallen off.

Dong Xi thought of the Bright Bird's habit of plucking all its feathers at the slightest disagreement and suddenly understood.
