

Affinity 1191

Chapter 1191 Cori's Guardian

A middle-aged man walked into the Hall, his hands behind his back. He heard a serious expression and his beards had hints of turning gray.

Grey accessed the man as he walked into the place. When the man was walking by, he paused and looked at Grey, then turned his attention to Cori, who was standing beside Grey.

He hadn't seen Grey before, but after trying to sense his cultivation and was unable to, he felt disdain. Although people like this were rare, it didn't mean they didn't exist. The fact that Grey didn't exude even the tiniest bit of essence proved that he didn't have any element. Such people are regarded as a waste to society.

He didn't spare them a glance and walked to the main seat in the Hall, after taking his seat, he looked at Cori with a cold expression.

"I made an example of your brother because he was caught stealing from me. Now, you dared to do the same thing?" He said coldly.

"I didn't steal from you." Cori pouted.

"Little girl, return the things you took. I'll not ask you again." The man said coldly. He was furious, his treasury, everything he had collected over the years and even before he became the head of the Family was gone.

"I didn't take anything from you." Cori stood her ground, just like a ferocious little tiger, she looked defiantly into the eyes of the man.

"Take her storage ring. You'll suffer a fate worse than your brother." The eyes of the man exuded killing intent.

But he was in no hurry to kill Cori, he couldn't afford to leave those items behind. If he killed her now, how was he going to get them back?

His plan was to torture her into telling him where she kept them. After retrieving them, he would kill her.

One of the guards in the Overlord Plane approached Cori, but her aura exploded out and the guard was sent flying, slamming into the wall by the side.

"Little girl, you dare show you little strength in front of me?" The man stood up and the aura of an Elemental Venerable spread out.

Everyone below the Elemental Venerable Plane found it out to breathe, they could barely keep their heads up as a few of the weaker ones even fell on their knees.

Cori tried her best to withstand the pressure, but she was slowly going down. Of everyone present, the pressure was focused on her, so she felt the brunt of it.

Just when she was about to fall, a figure walked in front of her and everything disappeared. She raised her head and saw the familiar black cloak that belonged to Grey.

The old man, along with the rest of his family who were sitting behind him, looked at the scene in shock. The man in particular couldn't believe his eyes. He originally thought the pressure would kill Grey, but Grey was not just fine, he stood in front of Cori and the pressure he was using to suppress her was gone.

"Isn't this a bit too much for a little girl?" Grey asked with a calm expression.

He didn't seem to be under any duress, whatsoever.

The eyes of the man turned sharp and he asked, "Who are you?"

"Her guardian. I believe we can work things out without you having to bully her." Grey smiled.

The young man who was speaking to Cori before the appearance of his Grandfather stood up from his seat angrily and reprimanded Grey, "Who do you think you are to speak..." I think you should take a look at pandasnovel.com

His voice disappeared mid speech, and so did he. No one understood what happened, except for the middle-aged man, his Grandfather.

The eyes of the man enlarged when he saw how Grey killed his grandson in an instant.

"I don't like noisy people." Grey commented after dealing with the young man.

pandasnovel.com The technique he used was a simple space elemental attack. But he timed it very well, and given his strength, he hid it from the middle-aged man. As long as the attack wasn't aimed at the middle-aged man, there was no way he would be able to sense it.

He used an enlarged form of dimensional slash, but kept it hidden until the last minute.

"You... who are you?" The middle-aged man stuttered, he couldn't believe his eyes.

Not sensing Grey's cultivation base only indicated one thing, Grey was far more powerful than he is.

"I already told you, I'm her guardian." Grey said calmly.

A chair appeared behind him and Cori, made purely from the earth element. The duo took their seats and he looked at the man coolly.

"Right, where were we? Oh, I believe it's discussing the terms of falsely accusing her." His sitting posture was one of an unruly king.

Everyone present in the Hall gasped in shock when they heard his words.

This was the first time they were witnessing anyone speak to a member of the Tekik Family in such a manner, and this middle-aged man was not just any member, but he was the Head and strongest person in the Family, yet Grey was showing him little to no respect, and even sent the grandson away.

Most of them didn't believe Grey killed the grandson of the Tekik Family, even those close to the young man didn't think he was dead, they all felt he was sent to another place.

The middle-aged man was no fool, seeing Grey use the space element, he quickly understood that he was the one who must have robbed them. He soon started to think of a lot of things.

'He wasn't here when I ordered for Ryla's execution, he must've come after the execution. How did he become friends with Cori then?'

He spent more time thinking of what and how someone like Grey would choose to become friends with Cori after just spending a day in their town, but he couldn't think of anything.

"I don't understand what you're getting at." He feigned ignorance and replied.

"Oh, you don't?" Grey raised an eyebrow.

The middle-aged man shook his head. They both fell silent after his reply.

Grey raised his right hand and pointed at one of the young men sitting by the side of the man.

Chapter 1192 Are You Calling Me A Thief?

"Do you understand now?" Grey asked, still pointing at the young man.

The middle-aged man looked at the person he was pointing at and then at Grey once again. His eyes turned serious and he made a decision internally. He didn't know if he could fight against Grey, but this was the best way to test Grey's strength out.

If he could block Grey's attack this time, then he would know if he's within his league or not. Although he still felt that Grey was powerful, the fact that he never expected Grey to attack or even kill his grandson never crossed his mind, so when it happened, he was slow to react.

'This time, I'm prepared, let's see how you're able to kill anyone else.' He thought internally.

"I don't understand what you're saying." The middle-aged man answered.

Grey chuckled, he already knew what the middle-aged man was thinking, but he was not bothered. There was no way the man would be able to block his attack.

With a nonchalant wave of his finger, the young man he was pointing at started to disintegrate right in front of everyone present.

The pupils of the middle-aged man shrank. When he was about to block the attack, he saw a small orb appearing beside the young man. Even he felt some threat from it. Of course, he believed it wouldn't be able to kill him, but the feeling the attack gave him was one that unless someone was in the Elemental Venerable Plane, they wouldn't be able to block it.

Grey saw the eyes of the man and chuckled, he purposely didn't create an orb that would be too threatening to the man. He wanted to give the man a little hope and then crush it.

People like this man who abuse their strengths are one of the few people Grey hated. He was not against stealing from others, he had done it a lot of times. But oppressing others with his strength was something he wouldn't do unprovoked, much less stooping as low as threatening a little child.

The man looked at Grey and felt he could match Grey's strength.

"Look, I'll admit that you're strong, but do you think you're invincible?" The middle-aged man snorted and stood up from his seat, "You come to my town and wantonly start killing my grandchildren, after stealing from me too!"

pandasnovel.com The aura of the middle-aged man spiked at this moment, he was staring at Grey like a lion ready to pounce.

Grey tilted his head to the side and his eyes turned blue, "Sit down."

His voice was low, but everyone present felt their souls freeze up just from it. The middle-aged man felt a cold chill run down his spine and the entire Hall fell silent. The cold in the Hall started to increase and the middle-aged man felt his body starting to freeze up, not just his body, but even his consciousness started to freeze.

His aura which spiked a few seconds ago had deteriorated. His body started to shake from the cold, and when he could see his breath while breathing. He looked at his fingers and saw it had started to freeze, without hesitation, he sat down.

The cold in the area died down almost immediately when the middle-aged man touched the seat.

Grey grinned and said, "See, isn't it better now?"

The others in the Hall looked at the middle-aged man, unable to process what just happened. I think you should take a look at pandasnovel.com

Grey only made a statement and the entire Hall almost froze. They looked at Grey who was still sitting casually and looked at the middle-aged man once again.

The guards didn't even dare to go close to Grey. Even if the middle-aged man told them, they would refuse. If even the middle-aged man is powerless against Grey, then what about them?

"Okay, I'll ask again, do you understand?" Grey asked, his eyes turning to a young lady who was luxuriously dressed.

The middle-aged man saw this and his body went stiff, he could see Grey's intent from his eyes. Grey wasn't admiring the beauty of his granddaughter, rather, he was prepared to kill her if he didn't comply with what he wanted.

With a long sigh, a defeated expression he replied, "Yes."

Grey chuckled playfully and said, "Haha, you see, civil. I'm a very civil person."

"For accusing her of stealing, you'll compensate her, twenty thousand high grade chaos stones."

When the number left Grey's mouth, the entire Hall found it difficult to breathe. Even the middle-aged man froze, he almost wanted to tell Grey to kill his entire lineage.

There was no way he could provide such a sum. Even when Grey robbed them, they didn't have this much, much less now.

Grey smiled widely as he awaited his reply.

The middle-aged man looked at Grey, with a dry smile he said, "I don't have that much. Besides, you took all we have."

Grey raised a brow, a bit displeased by the man's statement, "I told you I'm a civil person and you're also accusing me of theft?"

"No, no, no. But I was robbed last night, there's no one in this town that can achieve such a feat while I'm in the town." The middle-aged man shook his head before explaining, after some time, he added, "Except, you."

"So you're saying since I'm here, I'm the one who stole from you, correct?" Grey asked.

The middle-aged man wanted to subconsciously nod, but he froze. He didn't even know what to do at the moment. If he nodded, it meant he was saying Grey robbed them, if he shook his head, then it meant Grey didn't.

His head started to ache as he looked at Grey, who was waiting for his response.

A staff appeared on Grey's hand and he started to play with it, he looked at the man and said, "Come on, I'm waiting."

When everyone saw the staff on Grey's hand, they gasped. That was definitely from the Tekik Family, it even had their insignia on it, yet Grey was still claiming he didn't rob them.

Chapter 1193 You're Screwed

Grey was still playing with the staff when another item appeared on the paws of Void, it was an item the people from the Tekik Family are very familiar with. The round ball was something made from a special ore available only to the Tekik Family, it was impossible for anyone else to have something like this, unless they stole from the Tekik Family.

Everyone stared at Grey with a shocked expression, he was clearly the one who stole from the Tekik Family, now he was saying they were accusing him of stealing, and it wasn't false.

The crux of the matter is that he's stronger than the Head of the Tekik Family, and since he said he didn't steal from them, then there was nothing the Head of the Tekik Family could do. In this world, strength was all that mattered. As long as one is strong, they can do whatever they want without having to face any consequences, the Tekik Family had been doing it all this while, now, it was their turn to experience it.

A few of the people in the Hall couldn't help but feel like the Tekik Family deserved this, after all, they killed Ryla the previous day all because they claimed that he stole from them.

Grey looked at the Hall and listened to their murmurings, he couldn't help but smile softly. His aim had been met, he wanted the Tekik Family to experience the same feeling that they had subjected those weaker than them to feel over the past years, now, he knew they were fully experiencing it.

"What do you want?" The Head of the Tekik Family asked, his head lowered in defeat.

"The same as my previous offer..." Grey paused when he got to this part and added with a smile, "Oh, you accused me as well, so you'll also have to compensate me as well."

When the Head of the Tekik Family heard this, his head almost exploded from pure rage.

"You vile creature! You clearly stole from..."

The person who stood up to speak this time was an Old man, but just like what Grey had been doing all this while, the Old man vanished right before the eyes of everyone.

Those from the Tekik Family watched with agony filled eyes, they couldn't believe one of the oldest person from their family was killed just like that.

A young lady wanted to speak, but when she realized what would happen to her, she kept quiet.

Grey still had the same nonchalant expression as he looked at them, not bothered with how they looked at him.

The eyes of the Head of the Tekik Family were cold, but there was nothing he could do, Grey was stronger than he was. What he found disturbing was how ruthless Grey was, he wasn't even giving them any chance of even trying to say anything. He straight up killed anyone who spoke against him.

To be honest, he felt if not for the fact that Grey has uses for him, he would've killed him already. Grey had already robbed him, yet he seems to want more.

He looked at Grey then paused, for some reason, he didn't feel Grey was the greedy type. His eyes trailed around Grey then turned to the little girl sitting beside him. He was soon hit with realization, Grey wasn't doing all this because he wanted things, he didn't even steal those things because he wanted them, it was all purely for revenge, revenge for Cori.

What he couldn't understand was why Grey was helping Cori. If Grey was acquainted with them from the start, he would not have allowed Ryla to be killed the previous day. So there was a chance he only got to know Cori the previous day.

"Sir, I don't have what you want. Even if I did, it's all gone now. Is there anything else I can use to cover it?" He had fully submitted to Grey at the moment. Trying anything now was just a waste of time.

Grey was a Space Elementalist, before he could even try anything, Grey would've already killed whoever he wanted dead. By the time he was done with them, only he would be left alive.

Grey looked at the man's current attitude and couldn't help but praise the fortitude of the man, for him to submit to him was by no means easy, but he did it just for his family.

'What a commendable attitude. Unfortunately, he has a terrible side as well.'

After a while, he looked at the man then turned to Cori, "Whatever she wants."

The Head of the Tekik Family looked at Cori with a smile before saying, "Cori, you know your brother has been with us all his life. We trained him. I admit that the way he died was wrong, but he stole from me, I can not allow such people to go scot free."

"You falsely accused my brother, you deserve death." Cori said angrily.

"Your brother stole from me, I have proof of it." The Head of the Tekik Family said.

"The bones of the Space Tiger was found by my brother." Cori retorted.

"I'm the leader of this place, anything found should be given to me first. I gave your brother the resources he needed to grow, I even gave him the things he needed to go on that expedition, why didn't he come back to me with anything?" The Head of the Tekik Family asked with a wronged face. I think you should take a look at pandasnovel.com

Cori wanted to speak but then the Head of the Tekik Family said again, "I gave him everything, I shielded him when he offended the Grule Tribe, I healed him when he was injured..."

Against a small girl, of course the Head of the Tekik Family would be able to easily subdue her.

Cori froze, unsure of what to say or do. Grey gave her the chance to take revenge, but according to the Head of the Tekik Family, he did nothing wrong. To be honest, they had indeed helped her brother.

Grey watched her struggle to make a decision and chuckled. The Head of the Tekik Family was a smart fellow, and there was no way Cori could match him.

Seeing that Cori was no longer saying anything, the Head of the Tekik Family looked at Grey with a soft smile and said, "She doesn't seem to want to do anything to us. Does that mean we can go?"

Everyone from the Tekik Family looked at Grey with hopeful eyes, waiting for what he would say.

"Since that's the case, and I am a man of my words, I'll follow what I said from the onset." Grey said, he looked at Cori and asked, "Are you sure with this?"

Cori shook her head, "I don't know."

"That technically means we don't have to pay for anything." The Head of the Tekik Family said confidently.

Grey nodded, "Naturally."

The eyes of the people from the Tekik Family shone with excitement. For a moment, they forgot that a few of them had been killed.

pandasnovel.com Grey suddenly stood up and said, "So... there was something I forgot to tell you."

When everyone focused on him, he said with a shy smile, "I'm a liar."

His statement made the entire Hall fall silent. It was already silent to begin with, but now, they could almost hear all the breaths of everyone there.

Cori looked at Grey, stunned. Not just her, everyone standing in the Hall looked at Grey, no one could believe their ears.

Grey said he was a man of his words, yet, within a minute he said he was a liar. What did that mean? It meant that the people from the Tekik Family were screwed. Grey was a psychopath bent on getting revenge.

The Head of the Tekik Family looked at Grey, "What is the meaning of your statement?"

"Simple, you're screwed." Grey replied casually.

There was almost no form of remorse in his eyes, it was like he was used to doing something like this. After hanging around with Klaus for so long, of course he would also be shameless as well.

Klaus was the most shameless person he had seen, and on a few occasions, he learned a thing or two from him and also implements it.

The eyes of the Head of the Tekik Family turned red and he was visibly shaking from anger. It was clear that he never expected Grey to do something like this.

Grey looked at him with bashful expression.

The more the people from the Tekik Family saw him like this, the more they felt angered by him. They couldn't believe he was saying this with such an expression. Who didn't hear him would think that he was an innocent person, but only those who had experienced this know that he was a vile and ruthless character.

"I'll not take this from you. What are you trying to do?" The Head of the Tekik Family said.

"I don't care if you will take it from me or not." Grey's expression turned cold.

Chapter 1194 I'll Satisfy Your Wishes

The tension in the Hall got to its peak as Grey started walking in the direction of the Tekik Family, however after getting a few steps close, he paused.

He turned to look outside the Hall, an Old man could be seen walking towards the Hall with staggered steps, it was almost as if he would fall if touched by anyone. Grey's expression wasn't good as he saw the Old man.

"My friend, you're here." The Head of the Tekik Family laughed in delight at the appearance of this Old man.

Grey smiled when he saw this and went back to his seat. He didn't show any signs of being bothered with the arrival of this Old man.

The Head of the Tekik Family looked at Grey and let out a small grunt.

'I'll like to see if you can act in the same cocky manner.' He thought before moving his attention to the Old man who had walked into the Hall.

"Hmm, I smell death. What's happening?" The Old man asked as he walked into the Hall.

"I've been having some troubles from my little friend over there." The Head of the Tekik Family explained.

"Oh, such a young genius. You must not be from this world, correct?" The Old man asked.

Grey looked at the Old man and declined to reply, he gave a smile and looked at the Head of the Tekik Family again, "Is he here to help you out with the compensation?"

The Head of the Tekik Family felt like a thorn was piercing his skin when he heard Grey's words. After some time he looked at the Old man who nodded to him. That was the signal he was waiting for. He had been communicating with the Old man, trying to know if the Old man could deal with Grey.

The Old man was able to sense Grey's cultivation stage and realized he was within his expectations. He was two stages ahead of Grey, and was very confident in his abilities, naturally.

Although Grey was hiding his cultivation stage, the Old man had his ways of figuring it out.

"Boy, I don't think you understand your current predicament." The Old man said as he walked closer to Grey.

"I think you're the one who has all this messed up." Grey's reply was calm as always, he looked at the Old man and said, "If you're here to help him out with the chaos stones, then do so."

Grey paused and his eyes turned cold, "However, if you're here to accompany your friend in a death wish, I'll naturally satisfy your wishes."

The confidence in Grey's tone was evident for all to see. They couldn't believe even when he was outnumbered, he was still speaking with such confidence.

The Old man chuckled, "Cocky. The satisfaction I get after breaking people like you is exquisite."

The Old man was not bothered with how Grey was speaking. He felt Grey was only saying this due to his nature. Geniuses of Grey's caliber will always have that confidence and invincibility about them. However, in most cases, these attributes which make them unparalleled geniuses end up causing their deaths.

A normal person would retreat when faced against two people in the Elemental Venerable Plane, especially when one of them is stronger. But geniuses like Grey would not back down even in front of five opponents stronger, much less just one.

The Old man had fought more battles than Grey could ever think of, well, so he thought.

The Head of the Tekik Family would've thought the same, but after seeing Grey's ruthlessness, he didn't dare to underestimate Grey. At most, he'll just take it that Grey was a brutal fellow and had killed a lot of people.

The ease at which Grey kills people is something that amazed him.

Grey looked at the duo who somewhat surrounded him.

Void jumped off his shoulder and went over to meet Cori. The bunny leader did the same. They were not going to get involved with this battle. After hanging around with Grey, the bunny leader had come to know that against multiple opponents, he doesn't seem to have any issues.

Of all of them acquainted with Grey, Cori was the only one who had a worried expression. She didn't know if Grey would be able to fight off these people. Other than that, the other thing she was thinking about was the question the man asked Grey.

'What did he mean by not from this world?' She was a bit confused about this.

She looked at Grey's back view, 'Is he from another world?'

She had encountered people who were not from their region, but no one had ever said they were not from their world.

'Are there other worlds?' I think you should take a look at pandasnovel.com

More questions rang in her head.

Grey couldn't care about what Cori was thinking at the moment. He was more concerned about the Old man who was two stages above him. He didn't know the strength of the Old man, so he didn't know how tough it would be to fight against the man.

If it were someone in the Aurora Continent, he would have a hundred percent confidence in defeating them, but one has to know that the fighting style of some of the races that have grown here are different compared to that of those from the Aurora Continent.

He looked at the Head of the Tekik Family with a serious expression, "Are you not going to compensate us?"

The Head of the Tekik Family looked at the Old man, who nodded once again, and replied, "Kid, leave now and I'll forget about this matter."

After a few seconds he added, "Of course, you're going to have to drop the things you stole from me, and compensate my good old friend here who came because of you."

"Oh, I'm the reason he came?" Grey wore a surprised look.

To be honest, he didn't know when the Head of the Tekik Family contacted the Old man, if he knew, he would've ended this from the get go and not let it become any longer. With the appearance of this Old man, he didn't know what might happen.

However, he was still very confident that he would be able to defeat them. Even if not alone, but with Void and the bunny leader present, he was fine.

"Kid, stop pretending like you do not know why I'm here. Drop the things, as well as the girl." The Old man said.

Grey's eyes turned cold when he heard him say he should leave Cori behind.

"Hmph! Old man, don't test my patience. Pay up or suffer the consequences." He slammed his palm on the earthen chair he created before and it shattered to dust.

"I guess words can't get through to you." The Head of the Tekik Family said and charged at Grey.

The Old man moved at the same time as well.

Just when they got within twenty meters of Grey, the scenery changed.

Grey was still standing in their middle, but they were standing outside the Town, in the forest around it.

"Since I'm such a nice person, I don't want others to get hurt because of this fight." Grey said with a smile.

"But you brought my family here!" The Head of the Tekik Family scolded angrily.

"Oh, they're not part of the people I don't want to hurt. I very much want them dead." Grey's reply was straightforward.

The Old man and the Head of the Tekik Family rushed at Grey. One of them was covered in flames, while the other had winds surrounding him.

Grey's eyes were cold, his skin turned into pale blue scales, and even the shape of his pupils changed slightly. Not just that, but his physical appearance enlarged by a lot.

Compared to how he previously looked, now, he was over two and a half meters tall, and had a bulky body. His usual appearance was one of a moderate body, but well built.

The Old man and the Head of the Tekik Family paused, Cori, who was also watching from the side, couldn't help but exclaim.

pandasnovel.com "He's a Beastman!"

This was the same thought in the heads of the Old man and the Head of the Tekik Family. They knew of a particular race that could showcase attributes like these. Transforming from normal people and having attributes related to Beasts.

If Grey was a Beastman, then they had very little chances in defeating him.

"What's a Beastman?" Grey's thickened voice brought them back to reality.

They soon understood that he didn't know what they were talking about.

He couldn't be blamed for this due to the fact that he only developed these abilities a few days back. He didn't know he would be able to even do something like this, but while experimenting on a few things, he noticed this was possible. One of the things he got from increasing his size is that, his strength, speed, and defense increased exponentially.

Chapter 1195 A Beastman?

"You don't know what a Beastman is?" Cori couldn't help but ask from the side.

Grey looked at her and shook his head. From the name, he could pick out a few things, but he didn't really know what a Beastman was.

"A Beastman is someone..." Cori went on to tell him about Beastmen and how they originated.

Grey couldn't help but be amazed by it. This was the first time he was hearing about this. Apparently, there were people who mixed their bloodlines with that of beasts, thereby, increasing their physical strength. Unlike those Barbarians he saw when he first came to the Aurora Continent, these were people who were like half humans and half beasts.

It was a strange concept that amazed him. The Vaergahl Family was not like this. Ellis had told him all he needed to know about the history of the Vaergahl Family, so he knew this was not how they were.

'If these people can maximize the abilities of these Beasts, it would be better for me.' He thought internally.

The truth is, he got the motivation to experiment on his transformation after encountering a race here. While experimenting, he noticed he could increase his size, and that was all he could do.

But from what Cori was saying, there's a certain level these Beastmen would get to, they can alter their appearance and look exactly like the Beasts they are affiliated with. Of course, not all of them have this ability. Only the few lucky ones can exhibit such attributes, and those people are regarded very highly by their tribe.

Grey clicked his tongue at the thought of it. It's almost like the way the people who could not just attain scales, but also an innate ability among those from the Vaergahl Family were quite rare. At the moment, he could still barely believe how lucky he was to be able to get both of them, while only getting one attempt and not even having anything related to a Dragon.

While Grey was caught up with what a Beastman was, the Old man and the Head of the Tekik Family decided to strike. Since he wanted to get distracted, who were they to stop him? After all, it was in their favor.

Grey snapped back and faced the duo who were standing before him. The Old man was the Fire Elementalist, while the Head of the Tekik Family was a Wind Elementalist.

When Grey attacked them, he noticed that his attack was swallowed by the Old man's flames, while the attack of the Wind Elementalist charged at him with frightening speed.

He was able to quickly set up an earth wall to block it, but slashes were left on it. He could barely believe the attack power of these people.

On a normal note, it would be difficult for someone two stages above him to overpower him, but the Old man used his attack to do that. What had him even more worried was that he used his fire element, yet, it was blocked by the Old man.

He attacked once again, this time, he used the earth element to create a large hammer that he slammed at the Wind Elementalist, while facing the Old man, he used his water element against him.

The Old man sent out another stream of flames that covered the water and didn't give it any chance to even get close to him.

The Wind Elementalist had a more difficult time, but he was able to dodge it at the last minute, escaping from the range of the attack at the last minute.

Grey looked at them and chuckled, he didn't feel too much pressure. With a wave of his hand, two inscriptions appeared in the sky, both made from the lightning element.

The inscriptions shot out lightning bolts at the duo.

While they were blocking it, Grey decided to use his physical strength against them.

His figure started to fade, a sign of afterimage. The eyes of the Wind Elementalist enlarged since he was the first to sense it.

The Old man on the other hand, felt a threat to his life and quickly created a fire orb around him, but he saw a pale blue hand, filled with claws pass through it and reach for his throat.

He tried to grab onto the hand, but it was too strong for him and he could only make an attempt to push it to the side. Unfortunately, the hand was able to grab a hold of his left hand and yank him away from the protection of his fire orb.

When he saw the figure standing before him, he didn't panic, but opened his mouth and a large stream of fire was sent to the face of the figure attacking him.

At such close range, even with the help of his scales, Grey didn't dare to take the attack of the man head-on, and could only toss the man to the side while he retreated. I think you should take a look at pandasnovel.com

The Wind Elementalist used the opportunity to shorten the space between them and cover Grey with a tornado.

Grey felt like blades were slicing his skin as he was stuck in the tornado. His scales made it feel like it wasn't that dangerous, but without it, another Elementalist might have been chopped to pieces by it.

He quickly broke out of the tornado and attacked the Wind Elementalist.

The Wind Elementalist knew not to engage in a close battle with Grey, so he quickly retreated, giving the Fire Elementalist space to attack.

Grey was once again forced back.

After retreating, he paused and looked at his opponents. Other than the place where he injured the Old man, he hadn't really been able to do much harm to them. For some reason, he noticed that these people had the advantage over him, like his element was being restricted.

'It's like when the chaos energy erupted. Their power is subduing mine.' He thought internally.

Normally, he would've been able to defeat them, but for some reason, his attacks were not as strong as they usually are. Even if he could suppress the Wind Elementalist, he wouldn't be able to suppress the Old man.

"Are you tired already? We're just getting started." The Head of the Tekik Family licked his lips.

Grey looked at him and chuckled, "Not really, I'm just getting warmed up too."

"Good." The Old man laughed and started to make hand seals.

Before long, a large Snake appeared mid-air and charged at Grey.

Grey looked at the Snake, he almost had the same feeling like when he was dealing with the first race he encountered, but compared to that one, this one feels real, and looks real as well.

He didn't think too much about it and unleashed a fusion orb at it.

bandasnovel.com The Snake opened its mouth and swallowed the orb, and when Grey was expecting it to explode, it didn't.

His expression changed slightly, but he didn't panic, with a snap of his hand, an explosion rang out inside the belly of the snake.

Luckily, he created a certain fail safe when making fusion orbs. Although he had not really experienced something like this, he felt it should only be right to prepare for it. So while training, he found a way to create a method to detonate it if it doesn't explode. As long as it's not destroyed, he could make it explode at will.

Not just that, but he could also trick people with it, making them feel like it's of no use but then make it explode at the last second.

The Old man, who had a smile on his face, felt shocked when he saw the Snake he created destroyed by Grey's attack which was not supposed to have such a reaction.

This Snake had a special ability, as long as the attack power was not above the ability of its owner, it could swallow it and there would be no effect. But Grey's attack was clearly different. Not only was there an explosion, but it was destroyed as well.

The Old man took another look at Grey, then he turned to the Head of the Tekik Family. His expression was not pleased in any way.

He didn't expect Grey to be this hard to deal with. From the message he received and after sensing Grey's realm, he felt like he could easily deal with Grey. But Grey has made it impossible for him to do what he felt he could do.

Even those in the same stage as himself find it difficult to deal with this particular Snake, yet, Grey dealt with it with only a single attack. If not for his friendship with the Head of the Tekik Family, and what he stood to gain from a foreigner, he would've exited the battle after this.

The Head of the Tekik Family gave him a reassuring smile, he felt confident that they would be able to deal with Grey.

Chapter 1196 What Are We Sharing?

"Kid, you're stronger than I expected. I'll get serious now." The Old man said after Grey destroyed his Snake.

"You're not bad yourself." Grey replied.

The Old man looked at Grey but stopped speaking, his eyes turned serious and he spat out blood.

After spitting out blood, he started to make some series of hand seals before another Snake appeared. If the previous Snake he created looked real, the new one he just created was lifelike. It was as if it was a living creature.

The Snake hissed and charged at Grey.

Grey looked at the Snake and tried the same method.

A Fusion Orb shot at the Snake, and it swallowed it, but the expected result did not happen. Grey couldn't help but look at the Snake, his eyes showing a more serious expression.

Grey looked at them, not even bothered by whatever was going through their heads. He looked at the Head of the Tekik Family before turning his eyes to the Old man.

The Old man looked at his gaze and said, "Kid, leave now or else you will regret it."

"Don't worry, I'm not concerned about regrets. I don't do things I know I'll regret." Grey replied.

He could barely bother with these people. Void and the bunny leader were still there. Even if he could not fight against these people on his own, with Void, he would be able to beat them, adding the bunny leader to it just assured his victory even more.

The Old man looked at him, and seeing his expression, he smiled and the Snake charged at Grey.

Grey looked at the Snake coming his way, with a wave of his hand, a large seal appeared in the air. This seal was larger than the usual inscriptions he usually made. The seal unleashed a powerful attack that launched at the Snake.

The Snake opened its mouth, but compared to the last time, it didn't swallow the attack, rather, it spat out a stream of fire.

Grey's attack collided with the stream of fire and exploded.

Grey looked at the Old man, and just when he was about to prepare another attack, the Head of the Tekik Family attacked. Just like the Old man, he created a creature made entirely from the Wind Element.

The creature was a Leopard Beast, made from the wind element.

Grey didn't attack it, rather, he dodged its attack. He dodged the few he could while blocking most of them.

The Old man attacked at this time, creating a small snake made from the fire element. Compared to the last one, this one was smaller, and had a higher number. Some of them were not even the size of a pinky.

Grey didn't expect the Old man to attack in such a way, so he didn't expect it when small fire snakes started to appear around him.

His pupils constricted when they exploded, sending him flying.

The eyes of the Old man and the Head of the Tekik Family shone with brilliance. They felt since this could affect Grey, then they had a good chance to defeat Grey.

The Old man created more small snakes that charged at Grey, who still hasn't gotten up from the previous attack.

While the dust cloud could go down, they heard another explosion. The Old man sent these snakes in case Grey was still moving, and with the explosions, he confirmed that Grey wasn't dead from the last attack and the next one should be able to do it.

"I'll take his ring. I'll return all that is yours." The Old man said to the Head of the Tekik Family.

"I'll go through his ring first. After all, there's no way you would know what belongs to me inside his ring." The Head of the Tekik Family said.

"My friend, you don't have to worry. Once I get the ring, I'll naturally know what's not from this place. I'll give you the rest." The Old man said.

"You see, there's something of mine he took, you wouldn't believe it belongs to me." The Head of the Tekik Family said.

pandasnovel.com The duo paused and looked at each other. They already felt Grey was dead and were still thinking of how to share his properties.

"I'll take seventy percent of all he has, you have the remaining thirty." The Old man said.

"Minus my Family's things?" The Head of the Tekik Family asked.

"Yes, excluding your Family items." The Old man said.

The Head of the Tekik Family smiled, and just as they were heading to where Grey was located, they heard a voice.

"Do I also have a share?"

Grey's voice woke them up from their state and they looked at the place the explosion happened. I think you should take a look at pandasnovel.com

They didn't feel he would be able to survive it, so hearing a voice from that place shocked them.

They looked at that area and saw Grey's figure walking from the explosion.

"I wonder what good things I'll get from this treasure."

The duo froze when they saw Grey's figure, shocked by the fact that not only did he survive the attack, but he was completely fine. One has to know that the attack the Old man used was a sneak attack, even Grey didn't sense it. Yet, he was walking out of the explosion without any injuries.

The Old man could barely believe his eyes, while the Head of the Tekik Family looked at the Old man. Even he didn't believe Grey would have been able to survive that without any injuries, yet, that was the case.

"Come on, whose treasure are we sharing? I'm really interested in it." Grey asked with a curious expression.

The Old man and the Head of the Tekik Family looked at each other, when they saw Grey's face, they smiled.

The Head of the Tekik Family looked at Grey, "The ring on your hand."

Grey chuckled, "The ring on my hand?"

The Old man grinned and said, "Yes, the ring on your hand. We actually threw a ring to you while the explosion occurred."

Grey laughed when he heard this, not expecting the Old man to say this.

After gaining a better understanding of the space element, he stopped using spatial rings and created another storage space.

Grey removed the ring on his hand and played with it, after a few seconds, he tossed it at them.

"This will stop all the fighting, correct?" He said as he threw the ring towards them.

The eyes of the Old man gleamed and he subconsciously took a step forward, blocking the view of the Head of the Tekik Family, he stretched out his hand. But his eyes suddenly changed and he hastily retreated while saying to the Head of the Tekik Family.

"I don't know what items belong to your family, why don't you remove them first?"

The Head of the Tekik Family looked at the Old man with a calm expression, "You're my senior, and also stronger, it wouldn't be courteous of me to take this. Please, do the honors."

Grey kept the ring floating in the air as the duo argued on who would examine the ring.

They knew Grey was a cunning fellow, so the fact that he willingly gave them the ring meant that it was most likely a trap.

Seeing the two of them argue, Grey said, "Since you don't want it, I'll take it back."

Grey beckoned for the ring, and it started to float back towards him.

The eyes of the Old man changed, and after struggling, he pointed at an unassuming young man from those from the Tekik Family, "You, check it out."

When the young man heard this, he shook from fear. He couldn't help but turn to the Family Head with a pitiful expression, hoping to be spared.

The eyes of the Head of the Tekik Family turned serious, "Check it out. Make sure all our Family's treasures are intact."

The heart of the young man sank when he heard this. He didn't dare to disobey the Family Head.

With shaky legs, he walked over to the ring, the second he stretched his hand to touch it.

"Boom!"

He hurriedly withdrew his hand and felt like his life had left him. Only when he didn't sense anything did he look around, only to see Grey chuckling.

Grey made it sound as if the ring exploded with the help of his lightning and fire element. The funny part was that everyone from the Old man to those from the Tekik Family jolted when they heard the sound, this showed how they all felt.

"Get this over with, I'm in a hurry." Grey urged.

The young man gulped down his saliva and grabbed the floating ring, his heart skipped a beat, but he was elated when he didn't get the reaction he expected.

"Well, what's inside?" The Old man asked hurriedly. He was in a haste to see if Grey really gave them his treasures.

"Orbs." The young man muttered in a soft, shaky voice.

Chapter 1197 Want More?

"Orbs?" The Old man asked.

The young man nodded and reaffirmed, "Yes, multicolored orbs. It's like nothing I've ever seen."

The Head of the Tekik Family fell deep in thought. When he heard the word 'orb', he thought of something, the orb Grey used to kill those people from the Tekik Family while they were at the Hall, the orb he felt great fear from.

But after hearing the young man say, multicolored orbs, he felt a bit conflicted. There are all Beasts that grow these sorts of multicolored orbs, they tend to be very rare and possess exceptional abilities. If these were the sort of orbs that Grey filled that spatial ring with, then it was priceless.

Unlike the Head of the Tekik Family, the Old man had just the thought of these multicolored orbs. He felt they were the cores of such rare beasts and if he could consume a few of them, his strength would skyrocket. Thinking of it, these creatures might be rare in their world, but there's a possibility that it was almost everywhere in the world Grey came from.

"Kid, pass the ring to me." He said hurriedly.

The young man didn't delay and tossed the ring in the direction of the Old man.

The Old man caught it and before he could examine it, he felt a great sense of danger coming from the ring.

Grey could easily create fusion orbs now. Although he had found ways to make different types of them, the strongest still remained the original one. During his free time, he would occasionally create them and seal them in his storage ring just to mess with people.

pandasnovel.com During his journey in this world, this was the second time he was giving his ring to others. The first group was a bandit group he encountered, and being too lazy to fight with them, he passed them a ring filled with fusion orbs, running immediately he did so. He didn't forget to act scared so the people would let him go without disturbing him.

A group of Early stages Elemental Venerables and Late stage Sage Elementalists wanted to rob him, of course, they wouldn't be able to defend against over a hundred fusion orb. The result was as expected, the area turned into a deserted place, not even the trees within five hundred meters of the place survived, much less the people who were within a hundred meters away, max.

....

The Old man tried to throw the ring away, but he noticed that even though he was able to throw it, it was only for a few meters.

The Head of the Tekik Family had already sensed something wrong and moved his Family, alongside the young man who examined the ring away from this place.

Boom!

A loud explosion rang out. This time, it wasn't Grey tricking them, this was a true explosion.

Even the Town was rocked by the explosion, even when it was around ten kilometers away from where the explosion occurred.

Grey and Void were in a safe place, staring at the explosion with excitement in their eyes.

"I wonder how powerful it would be if I put up to a thousand inside." He muttered as he watched the explosion. I think you should take a look at pandasnovel.com

The fusion orb took a large amount of elemental essence, hence, Grey was very careful when using it. Whenever he was creating them in store, he would usually create around ten to fifteen in a week. He

doesn't always remember to make them, so there are occasions when he goes months without creating a single fusion orb.

After a minute or so, the explosion died down and Grey walked towards the place. Void also headed there in excitement.

Cori, on the other hand, was looking at them like they were a group of freaks. This was the most powerful attack she had ever witnessed. One has to know that although she is young, she has been exposed to things like this.

When they got there, Grey let out a surprised exclamation. The Old man was not dead yet, well, he wasn't in a good situation either. Both his hands were gone, and part of his head was destroyed.

"You don't look so good." Grey said as he looked at the Old man.

The fire dome covering the Old man was almost fully destroyed, not just it, but there were a few ruins that protected him.

"You psychopath!" The Old man yelled.

"Oh please, I didn't do anything. You were the one who brought those dangerous things out of the ring." Grey gave a bashful smile.

The Old man looked at him and felt like killing him that instant. Grey rarely did things like this, but when he's ready to completely mess with anyone, he was ready to go all 'Klausy' on them. The term 'Klausy' was something the group used whenever any of them decided to act as shameless as Klaus. Of course, they couldn't be as good as the original, but it was still enough to annoy people to the extreme.

Grey occasionally does this whenever he's in another world and there's someone he wants to provoke.

"You shouldn't be screaming, your eyes want to fall out." Grey said, making the Old man start to shake from anger.

Grey could care less about the Old man's state, he had seen worse than this. When fighting with necromancers, he had occasionally fought with puppets that had half their heads shattered.

The Head of the Tekik Family returned, his expression sour.

Grey looked at him and chuckled, he knew there was no way he would've been able to save everyone. From his facial expression, he knew there were a few losses.

"So, what do you all think about my orbs?" Grey grinned, "Do you still want more?"

The Old man retreated when Grey opened his hand and another fusion orb appeared on it.

He didn't think Grey would have more of this thing, but seeing another one form in Grey's hands, he knew otherwise.

Chapter 1198 Extortion

The Old man looked at the Head of the Tekik Family, "You called me for such things?"

He was visibly angry, shaking from anger even. Grey was far stronger than what he expected.

"Why are you blaming me? You were the one who told me it was alright to fight him." The Head of the Tekik Family snorted, he was also infuriated.

From the explosion a few minutes back, more than half of the people from the Tekik Family were wiped out. Even with his help, that was all he could do. If not for the Old man's greed and poor judgment, they wouldn't have fought with Grey. At most, they would think of a way to negotiate with him and leave. But the Old man told him he was stronger which gave him the confidence to fight.

Now, the Old man was blaming him? He was infuriated.

"Fix this, accept his offer, and let us leave." The Old man didn't want to die here. He was already seriously injured from the explosion, he didn't dare to fight against Grey again, especially with that orb still floating above his hands.

The Head of the Tekik Family thought about it and turned to Grey, "I can't offer that much. Five hundred high-grade chaos stones are the most I can fork out right now."

A confused expression appeared on Grey's face, not comprehending what he was talking about.

"What are you talking about?" He couldn't help but ask.

"I'm willing to compensate you, but that's all I can afford. My family's treasury was robbed. I'll have to borrow from those in the Town and my friend here to be able to afford this amount." The Head of the Tekik Family explained.

"Oh, that?" Grey asked with a look of realization.

The Head of the Tekik Family nodded, hoping Grey would accept.

"I'm no longer interested in that. You tried killing me, there's no way you believe that is enough to compensate me, do you?" Grey replied coolly.

The Head of the Tekik Family felt like collapsing when he heard this. He was almost certain that when they were in the Hall, Grey would've accepted this offer, although not completely sure then, but he felt it would've worked when his friend appeared. But not only did he not offer this, but he attacked Grey. Only after seeing that Grey is the stronger person did he decide to make this offer.

While he was thinking of it, he heard Grey's voice.

"If you offered this before, I would've accepted. It's a good thing you're willing to give me better things." Grey sighed as if the Head of the Tekik Family was gifting him good things on purpose.

The Old man looked at Grey and the Head of the Tekik Family with a serious expression, "Boy, what do you want?"

"Three chaos fruits. Also, I want..." Grey started to name the items he wanted and both the Old man and the Head of the Tekik Family felt like they were about to go crazy. I think you should take a look at pandasnovel.com

The things Grey was naming were things they wanted. They would even kill those close to them to get them, yet, Grey was mentioning them as if they were something casual.

To be honest, Grey had very little knowledge of most of the things he was naming, but after entering the Hall from the Arena, he knew a lot of treasures that were only present in this world. It would be very difficult for an Elemental Sovereign to have the items Grey was asking for, much less an Elemental Venerable.

"Even if we tried till we're dead, we won't have all the items you're calling. Not even half." The Head of the Tekik Family said with a sad face.

pandasnovel.com "Oh, I didn't know they were that precious. I got a few after only a few months here, I expected you guys to have more. After all, you've spent hundreds of years here." Grey brought out a fruit and the eyes of the Old man and the Head of the Tekik Family enlarged.

'Just how lucky are those favored by the heavens?'

This was the question in their heads.

If Grey knew that they felt he was favored by the heavens, his only reply would've been.

'Wait till you encounter Klaus.'

"Look, I can offer a few, but that's all." The Old man said.

Seeing the gaze Grey looked in looking at the Old man, the Head of the Tekik Family said hurriedly with a wronged expression, "I would've been able to offer some too, but I was robbed."

"Oh, let me see them first." Grey said to the Old man, he turned to the Head of the Tekik Family, "As for you, it's a shame you were robbed. Protect your things properly next time."

The Head of the Tekik Family felt a slight sense of relief, feeling Grey would understandably let him go since he had already robbed him clean, but hearing the other part of Grey's statement, he almost couldn't feel his heart.

"What are you going to offer now? After all, you were robbed clean."

The Old man didn't bother with the Head of the Tekik Family, he already felt like killing him, so he didn't care if Grey wanted to kill him or not. He brought out some items, and they were indeed the things Grey wanted. There were a few Grey only saw in the Hall when he was in the Arena, but the Old man had them.

Grey felt a little excitement, but he didn't show it. There was an item there that would be great for Klaus, and he wanted to bring it back the moment he left this place. Not just Klaus, but even for Reynolds, there was something that would help his Elemental Warrior improve dramatically in strength.

Grey took the items without hesitation and looked at the Old man with a reassuring smile, "You can leave."

The eyes of the Old man shone brightly, and without a second thought, he left, not bothered with his friend who was still under Grey's mercy.

Chapter 1199 A Fate Worse Than Death

The Head of the Tekik Family looked at his friend leave, stunned that Grey didn't stop him.

"I don't have anything, I've given you all I have." He said with a frustrated tone.

"Oh, you have? When?" Grey questioned, looking at the Head of the Tekik Family with a playful smile.

"You took them without even leaving one thing for me! What else do you want? Half of my family is dead, isn't that enough for you? Haven't you taken your revenge?" The Head of the Tekik Family started to show signs of losing it.

At the moment, he knew he was at Grey's mercy, but there was nothing he could do. Grey literally took all they had, and had killed half of his Family, as if that is not enough, Grey is still demanding an outrageous amount for compensation, he couldn't take it anymore.

Grey sighed, "I guess you're right. But, I don't like leaving behind hidden dangers. What are the odds that you won't attack me after you get back up? Little, very little."

pandasnovel.com "How am I going to get revenge on you? You're not even from this place!" The Head of the Tekik Family replied.

"Fair point." Grey rubbed his chin and said.

"If that's the case, choose two people." He added.

"Two people... for what?" The Head of the Tekik Family asked.

"I still haven't made up my mind, either they die, or they will be the only ones left." Grey replied casually.

When the others behind the Head of the Tekik Family heard this, they felt their souls leave their body, they couldn't believe Grey was threatening to kill all of them, and there was nothing their all powerful Head could do about it. The most hateful part is that he was the one being subjected to Grey's pressure. How did Grey expect him to pick just two people to live and the others would die, or two people to die and the others live.

"Why are you doing this?" The Head of the Tekik Family asked, he was breaking down psychologically.

Grey was messing with him with this request, and he couldn't bring himself to even agree to the request. How would the rest of the family look at him if he picked two people to die for them. Yes, they would be happy that they were part of the lucky ones that survived, but will they ever trust him? The answer is no, no they won't.

"I'm a sadistic maniac, I like having fun with people like you."

Grey's reply made the Head of the Tekik Family almost go down to his knees. After a moment of silence, he looked at those behind, "Who would like to join me?"

The others looked at him, understanding the meaning of his words, he decided to pick himself as part of the two who would either be killed or leave alive.

Grey looked at the man and couldn't help but chuckle.

'Cunning fellow.'

Although most people aren't thinking too much about it, the chances of the two people being spared and the others being killed was very high. Grey knew the Head of the Tekik Family had considered this and decided to act in a selfless manner. This would make those from the family believe he was willing to sacrifice himself for them. I think you should take a look at pandasnovel.com

A minute passed before a young lady walked over and decided to join him.

The Head of the Tekik Family looked at Grey, "Here we are."

"Alright, the rest of you can leave. There's no point staying any longer." Grey said to the ones behind him.

He didn't want to be a sadistic killer, and he would prefer to kill the person making the others oppress people. To be honest, while attacking, he was very careful, other than the top geniuses in the family, the other people he targeted were the strongest ones.

At the moment, only one person was left in the Sage Plane, and that person was an Old man who was already nearing the end of his life. At most, ten years and he's dead. With all the people the Tekik Family had oppressed, they would not be able to come out in public again in fear of the potential attacks from those people.

The others walked away, leaving only the Head of the Tekik Family and the young lady who was still in the Overlord Plane.

"I'm not too interested in killing you, rather, I have a better idea." Grey said.

The Head of the Tekik Family looked at Grey, awaiting judgment. He was usually the one who passes judgment, now, he was the one being judged.

"Cori, would you like to see them powerless?" Grey turned to Cori with a smile.

The second the Head of the Tekik Family heard this, without hesitation, he stood up and bolted away. The stronger one was, the more afraid they were to lose their power. The reason for this was that, after getting to that level, they must have used their strength to suppress a lot of people. If he were to be caught by an enemy who had gotten stronger than him, he would die without hesitation.

Grey chuckled, "Do you think you can escape from me?"

Grey's figure blurred and he reappeared with the Head of the Tekik Family.

"Come on, you have to do better than that if you want to escape from me."

The Head of the Tekik Family looked at him with depressed eyes, he couldn't even look at the young lady that was there with him. He didn't feel any embarrassment from running, if he lost his strength, even she would suffer from it.

"I'll give you the chance to do it yourself." Grey didn't look at the young lady since he didn't really care about her.

The Head of the Tekik Family clenched his fists, "You'll have to kill me first before I do something like that."

"Grandfather, you can cultivate again." The young lady tried to console her Grandfather.

"Listen to her, it's not that difficult." Grey said with a grin.

Chapter 1200 Going After The Old Man

pandasnovel.com

The Head of the Tekik Family looked at the young lady, "Do you think it's that easy? I spent hundreds of years attaining my current strength. Why would I willingly lose it?"

"Alright, I'll help you." Grey walked closer to the Head of the Tekik Family.

Before he could react, Grey had shattered his origin, breaking his core.

The Head of the Tekik Family lost all his essence and his figure started to grow old in a matter of seconds.

Grey felt a bit odd, but didn't bother with them any longer.

"Leave with your Grandfather. If you eventually grow as strong as he is, or strong enough when you think you can get revenge on me, I'll be waiting." He said to the young lady.

After saying this, Grey walked over to where Cori, Void, and the bunny leader were seated, watching the fight.

"They were so stupid. How can they be tricked that easily?" Void complained.

"Did you want them to beat me?" Grey looked at Void coldly.

"You need to be taught a lesson on a few occasions." Void shrugged.

Grey looked at Void, almost wanting to beat him up, but he refrained from doing anything. He didn't have the Fusion State he could use to completely suppress Void at the moment, so it was better to let him say what he wants.

'Did you let that guy leave just like that?' The bunny leader asked.

"Of course not! I believe he has better things. Since he tried to take my things, I'll check if he has any important things I want."

"Haha, nice!" Void laughed.

"He has already gone a good distance away from here. It will take a while, but I should be able to get to where he is within a few seconds." Grey chuckled when he tried to track the Old man.

He marked him during their fight, so he had zero issues with tracking him down. All he had to do was pinpoint the location and teleport there. It would naturally be harder the further the Old man goes, but it isn't impossible.

Grey turned his attention to little Cori, "I've done all I can to help you avenge your brother. There's no point in killing all of them. They will get what is coming for them with their pillar gone."

Cori looked at him, paused, and asked, "Uncle, are you leaving now?"

"Yes, I have some things I need to attend to." Grey nodded, feeling a bit low in spirit. The thought of leaving this little girl on her own didn't sit right with him.

If her brother's friends didn't try to kill her, he would not have been worried, but since they tried to kill her, it meant she had no one else in this place. Even with her strength, she would find it hard to survive and would be used by others. When he left her with the decision of what to do to the Head of the Tekik

Family, with only a few words from the Head of the Tekik Family, she was unable to say anything and froze.

Even in his current state, the Head of the Tekik Family would be able to take advantage of her.

Grey thought about it for a while and asked, "Would you like to come with me?"

The eyes of Cori shone brilliantly when she heard this and she asked excitedly, "Really? I can follow you, Uncle?" "I think you should take a look at pandasnovel.com

Grey nodded, "Yeah, I'll take you with me."

Cori giggled happily when she heard this. She didn't think Grey would suddenly decide to take her with him, but she was happy and felt safe with him. She had seen him in action and knew that he was very powerful, even stronger than the Head of the Tekik Family who she thought was invincible.

Grey laughed when he saw her reaction and said.

"Let's visit an acquaintance." He said with a playful grin.

....

Far away from where Grey ruined the entire Tekik Family.

A figure broke through the sky and appeared outside a cave. It was none other than the Old man who assisted the Head of the Tekik Family to fight against Grey.

He was furious.

"Damn it! That fool! He offended someone he knows is stronger than me. Why did I even go to his aid?"

He complained as destroyed a rock by the side.

"Luckily I didn't take all my items with me. If I had lost these things, I would've killed him with my hands."

He picked up another ring and placed it on his finger, after doing that he looked around and left the place, disappearing with a shocking speed.

A few minutes after he left, a small portal appeared and two figures stepped out of it. Grey, who had Void on his shoulder, alongside him was Cori who had the bunny leader in her hands.

"He left so soon. But he's not far." Grey said after inspecting the place.

He didn't sense anything out of the ordinary in the place, so he knew the Old man only stopped by and didn't keep anything here.

Void and the bunny leader didn't sense any treasures, so there was nothing here, or the area around this place.

The group disappeared and Grey appeared outside a City. This place was far larger than the Town they just came from. Grey sensed around and he could already count around ten Elemental Venerables, he hadn't even covered half of the City, but the people in the Elemental Venerable Plane there had already entered double digits.

"What's the plan?" Void asked, he could sense a few things and wouldn't mind taking them. To be honest, he wanted to take them, but he was just stopping himself because Grey had not given the go-ahead.

"Wait, he's with three Elemental Venerables. Although I'm not afraid, it wouldn't be good if there are too many of them attacking." Grey replied.

Void nodded and didn't ask any more questions.

The group walked into the City, Grey hid the bunny leader and Void, covering himself with a cloak. Only Cori was not in a disguise, but there was no need for her to be.
