Chapter 1563 A Spar In The Lyttelton Manor II

Gary and Harvey walked into the place and took a glance at Grey. The duo were at least five years older than Grey, but they were all in the First stage of the Sovereign Plane.

"Grey, I'm Gary, and that's Harvey." Of the two young men, one of them stepped forward and shook Grey's hand. He had short golden hair with a handsome face and he was quite taller than Grey is.

The other one had dark brown hair with brown eyes.

Grey shook the hands of the duo and introduced himself to them.

"You two will be sparring against him, don't let me down." Grey's grandfather said to the duo.

Gary and Harvey nodded, they didn't know why Grey was in the Family manor, nor why they had to spar with him. They felt this wasn't appropriate since they had the advantage individually, much less together.

"Don't think he's weak, he beat me easily." Lucy warned when she saw the duo's expressions.

"And either one of us can do that too." Gary said to Lucy.

Lucy chuckled and said, "Yes, but not with just one attack."

The eyes of the duo widened when they heard this and looked at Grey once again, it was as if they found it hard to believe what Lucy said.

"Let's find out how powerful the famous Grey Dawson is." Harvey said excitedly and attacked as soon as the battle started.

Harvey used the lightning element to bolster his speed, before attacking with the water element.

Grey once again used the same three elements, fire, lightning, and space element to battle the duo.

He easily evaded Harvey's attack before attacking Gary who was by the side.

Gary blocked Grey's attack with the earth element, before attacking.

They exchanged some attacks from the start and it showed everyone that Grey wasn't having a hard time dealing with two people.

However, something happened during the course of the battle. Just when Grey's grandfather thought maybe Grey was only capable of fighting two geniuses on the same level, he was blown away by Grey's next feat.

Grey used the gravitational field to knock Harvey off his feet, before he got to the ground, a deadly attack was close to hitting his head.

Gary, being an Earth Elementalist himself understood what Grey just did and used his earth domain, blocking the attack that was heading towards Harvey. He could tell that Grey was stronger than each of them, so their only way to win was by helping each other.

The earth wall that blocked Grey's path was destroyed by Grey with a punch, as he continued with his attack.

Gary was about to attack when he sensed an attack from above. He raised his head to see a large array hanging over his head. Without hesitation, he focused on not just helping Harvey who had been put off his feet by Grey, but also blocking this attack from the inscription.

"Oh, he's an inscriber too, how versatile." Grey's grandfather was impressed with what he was seeing.

Most people have heard of the name Grey Dawson being a generational talent, not just him, but his friends as well, however, compared to the number of people present in the Aurora Continent, very few have seen Grey in action.

To Grey's grandfather and the others present, this was an eye opener.

"He also has the water element, correct?" Grey's grandfather turned to Martha.

"Yes." Martha nodded. The issue with Grey's fame is that his high number of elements will be noticed, luckily, Grey has been generally sticking to mainly five elements, which were the space element which he is famous for, the fire, water, earth, and lightning element.

A few people have seen him use the wind element, but they were top experts, so that wouldn't expose him, at least not anytime soon. And even if he does have six elements, it would only make him more freakish.

Grey was able to destroy the defense of Gary, but that was enough time for Harvey to regain his footing, without wasting any time, he retreated. However, even with his lightning element, he isn't as fast as Grey is.

Grey caught up, and sent him flying from the arena, before turning his attention to Gary who was still dealing with the inscription.

Gary sighed with a shake of his head when he saw Harvey being sent flying. Harvey made a mistake by retreating, Grey has the space element, how did he think he was going to escape from him?

Gary was also quickly dispatched off without Harvey to help out with the assault. Grey defeated him within a few seconds after Harvey was sent out of the arena.

Grey's grandfather looked at Grey's performance and didn't know if he was happy or angry. Seeing such a spectacular performance from his grandson was indeed something to be happy about, but then seeing two of his grandsons who he thought to be prodigies be beaten in such a manner.

"It's not that they're bad, it's that he's too good."

This was the statement that rang in his head.

Grey was too good to be in the First stage of the Sovereign Plane. Thinking about how highly Grey's friends were also talked about, he couldn't help but find the thought of four freakish existence unsettling to the rest of the world.

It's fine to have such people, but thinking about how the other geniuses would see themselves when compared to the four friends, they might become too depressed to even train. A few might become too depressed, and some would use that as motivation to grow stronger.

"Can any of your friends do this as well?" Grey's grandfather asked, while still indicating for Grey to stay in the arena.

"Two against one? Yeah." Grey nodded.

These guys might be strong, but Klaus, Reynolds, and Alice would wipe the floor with both of them on their own. It might take a while, but they will be able to defeat them.

"Amazing." Grey's grandfather was astounded, he looked at Grey and asked once again, "Want to make it more interesting?"
