

Even After Death Chapter 1662 - Olivia & Ethan -

Even After Death Chapter 1662 – Olivia & Ethan – In just a short period of time, something strange suddenly happened. Birds were flapping their wings in the forest; snakes, insects, rats, and ants appeared on the ground; and even in the sea, there were crooked creatures twisting their bodies to come ashore.

Sea snakes were, in general, highly venomous!

Jacqueline was stunned with fear. She had never seen such a scene before.

Even Alexander, who had always controlled poisonous bugs, had never thought that the legendary be*stmaster actually existed and was such a young child.

Taming animals was much more difficult than controlling poisonous bugs. Alexander raised the poisonous bugs as youngsters, which were almost like kittens and puppies.

The Be*st Tamer Clan, on the other hand, was originally a clan of gods living in the mountains, and they were very picky about their successors. After the country's founding, the clan members walked out of the mountains, integrated into the larger nation, and had long since degenerated into ordinary people.

How come he met a be*stmaster here?

Willow usually didn't speak and had basically no sense of existence. Alexander didn't take Willow seriously from the beginning to the end because her aura seemed to blend with heaven and earth.

He thought to himself that Willow was just a lonely little mute at best.

But at this moment, Willow looked so sacred under the moonlight, with the breeze blowing her hair and her green eyes showing no emotion at all.

It reminded Alexander of the Son of God!

That look of contempt for everything had the power to destroy the world at any time.

He knew very well that this was not someone he could fight against.

"Go, go!"

There was murderous intent in Willow's eyes. She would not give Jacqueline another chance to hurt Olivia.

The sound of the flute changed its tone, from the initial guidance to the urgent need to break the formation, as if one were on a battlefield with only fighting left.

Jacqueline had done many evil things, but she was using modern means to control everything. She had never seen such a scene before, and it seemed too unreal to her!

This scene was scarier than that in the movies!

Jacqueline felt goosebumps all over her body as the swarm of snakes approached her. She looked at Olivia fiercely and said, "Don't you want to know your mother's whereabouts? You agreed to three days, and you dare to go back on your word?"

Olivia looked at her coldly and asked, "Aren't you the ones who regret it?"

Ethan asked someone to bring the hemostatic medicine and stepped forward. "Today, I have no intention of letting you leave this island alive!"

If he keeps a cruel person like Jacqueline for one more day, he never knows what Jacqueline will do.

Jacqueline must die!

Neither side took the agreement seriously, and both wanted to kill the other.

Alexander had already dragged Jacqueline onto the speedboat, and the swarm of snakes quickly jumped up.

"ah!"

Jacqueline screamed in fright. An eagle owl stood on her shoulder; its sharp claws sank into her flesh, and its pointed beak pecked at her eyeballs. Alexander ordered the speedboat to drive away quickly.

Although the snake was a step slower, the eagle owl attacked her like crazy.

She screamed, and Alexander quickly got up and drove her away.

At this moment, Wayne and his group, who had been waiting in the distance for a long time, were still immersed in the surprise that Willow had summoned the poison.

"I'm not watching a movie, am I?"

Wayne patted Alan on the forehead. "Why are you still standing there? Catch them; don't let her run away."

"yes."

Alan only then realized what was happening; the scene was so shocking.

Ike had already dispatched troops to track him down, and Wayne ran quickly towards Olivia.

Alan was left trembling alone. He said, "This must be fake; where did those snakes come from? It's even more exaggerated than the movies."

Even After Death Chapter 1663 – Olivia & Ethan – Wayne quickly ran to Olivia to check her injuries. "Are you okay?"

Olivia said, "I'm fine, just a superficial wound; don't let Jacqueline run away!"

Wayne: "Don't worry, I've deployed in the vicinity in advance."

Jacqueline was a venomous snake, and Olivia would not tolerate her with Alexander by her side, even if she threatened her mother's whereabouts.

Not to mention whether Jacqueline really knew Olivia's mother's whereabouts; even if she knew, it meant that she and Brandon were in cahoots.

Jacqueline had already escaped; would she tell her whereabouts?

The previous agreement was merely a formality, as both parties had their own intentions from the start and both desired to kill each other.

The current state of affairs between Jacqueline and Olivia is unending, necessitating the death of one of them.

However, Jacqueline made a crucial mistake. She thought she could get what she wanted by leading Olivia to her country and Ethan's mortal enemy, but she didn't know that she had dug a big hole for herself.

Jacqueline nearly tore off her scalp after slaying the big owl, leaving her face covered in several wounds. She was raged that she cursed and didn't care about the etiquette she had learned since childhood.

Jacqueline replied, "D*mn, Olivia's daughter must be a monster! It hurts me so much."

Alexander looked at the wound on her face, saying, "Fortunately, it's not too serious."

"Not serious? "Do you know how many operations I've had on this face?"

Jacqueline's most precious face was this one. Usually, a pimple could make her upset for a long time.

She disguised herself very well in the Fordham family. She looked well-behaved and generous, but in private, she smoked and drank, and her temper was terrible.

She was proficient at using masks to conceal herself, but she didn't use them in front of Alexander.

Alexander was the person Jacqueline trusted and hated the most.

He and she had crawled out of the mud, so only Alexander had seen her unbearable side.

So Jacqueline had always been very irritable in front of Alexander.

Alexander was as kind to her as ever, quickly hugging and comforting her, saying, "It's okay; I've already offered \$20 billion. We can live a carefree life once we leave here, and your face will gradually heal."

Jacqueline said, "I hope so; I'm going to ruin Olivia's face."

"Jacqueline, don't provoke Olivia again. Given Olivia's current identity and status, we are not in any way her opponents, especially considering that her daughter is a gifted poison master and expert tamer. I have no chance of winning against her again, and there is no way I can get close to Olivia."

"Waste!" Jacqueline was upset that she scolded Alexander.

"Our ship will be here to pick us up soon; it's okay."

As soon as the words fell, they heard the sound of a helicopter.

On this island, there was a military base, which meant there were military helicopters. Alexander looked at the helicopters flying from the island and thought, "Could it be coming for them?"

Then he laughed at himself. They had nothing to do with the other side. How could the other side dispatch a helicopter to deal with such a small shrimp? It was really flattering.

He issued an order to increase the speedboat's speed.

Ripples suddenly appeared in the sea. In addition to the helicopters, there were countless speedboats flying like arrows.

Jacqueline grabbed Alexander's clothes, saying, "I'm a little scared."

Alexander said, "Don't be afraid; I'm here. You see, the other side has dispatched sea and air forces. The purpose of their deployment should be to carry out a military mission. It has nothing to do with us."

Even After Death Chapter 1664 – Olivia & Ethan – As soon as Alexander finished speaking, he realized something was wrong. The enemy was coming for them!

“No, it’s impossible. This is a foreign military base. Who is Olivia? How can she send a helicopter from a foreign military base?”

Jacqueline struggled to come up with an explanation, but she realized she had miscalculated.

“Don’t be afraid, the ship to pick us up is here,” Alexander said, trying to calm Jacqueline, but his voice trembled, and he was clearly nervous.

In this situation, his bug had no use. Without it, he was weaker than an ordinary person.

As the ship approached, the helicopter above them suddenly opened fire and sank it. A huge fire broke out on the ship.

The crew abandoned the ship to save themselves. This blow destroyed all hope for Alexander and Jacqueline. They were trapped with no way to escape.

“Olivia, that b!tch!” Jacqueline shouted in anger.

Alexander sighed, “Jacqueline, I’m sorry. I didn’t plan well. I had no idea they were connected to the military. Now, we have two choices: surrender or jump into the sea.”

With the enemy ships slowly approaching, Jacqueline was out of options.

Jumping into the vast ocean meant certain death. But if Olivia caught her, she would suffer a fate worse than death. Not only Olivia, but also the people from the Fordhams, Ethan, Leia, all of them wanted her dead.

“Is God trying to kill me?” Jacqueline looked at the dark sky, covered in blood. She knew stolen things don’t last, and she had to pay for what she owed Olivia.

“Jacqueline, this is my fault,” Alexander said, lowering his head. “I was useless and couldn’t help you.”

Jacqueline gazed at Alexander, who had loved her deeply. He was the only one who had stayed with her from beginning to end.

“Alexander, you are a good person. It would have been better if you never knew me,” Jacqueline said.

She looked at the approaching ships and the helicopter above her. She knew she couldn’t escape this disaster.

“I’m sorry, I never loved you. If there is a next life, I will repay you.”

Without looking back, Jacqueline jumped into the sea.

From the beginning to the end, she had been a selfish person. She only cared about herself and never felt love. But she hated that all her life’s plans ended in failure.

Olivia, I will not repay you. This life is mine alone.

“Plop!”

As Jacqueline jumped into the water, Alexander cried out, “Jacqueline.”

Without thinking, he jumped after her.

This news soon reached Wayne.

Wayne looked at Olivia, who was recovering from her injuries, and asked, “They both jumped into the sea. What should we do?”

Olivia stared at the sea and said coldly, “If you can’t catch them alive, then bring back their bodies.”

Such a menace should not be alive anymore!

Although killing her would be an easy end for Jacqueline, it was better than letting her live another day like a cancer.

Wherever she went, she caused trouble.

Jacqueline, you deserve to die.

Even After Death Chapter 1665 – Olivia & Ethan – Before Olivia’s hand was bandaged, she heard a huge explosion at sea. Knowing Wayne’s rough and hot temper, she was certain he would take the simplest, most direct route to destroy Jacqueline.

Looking at the flames rising into the sky, Olivia felt a mix of emotions.

Jacqueline had committed numerous cruel acts; dying so easily seemed unjust after the suffering Olivia endured, almost losing her life several times.

But now it seemed there was no better solution.

Wayne’s tall figure cast a shadow. “It’s okay, she won’t survive.”

Olivia murmured, “Um.”

Despite the poison being removed from her body, Olivia couldn't find joy, as her mother's whereabouts remained unknown.

Where should she look next?

The only positive news was Ethan informing the Procter family; Wendell hurried to the island early the next morning.

Throughout his life, deeply in love and never remarrying after his wife passed, Wendell was overly indulgent toward Alexander. Only now did he discover his child had been switched and his true son kept away for years.

Seeing the tall, strong man before him, Wendell couldn't believe Wayne was his son.

They shared striking facial features, though Wayne's eyes resembled his mother's— unruly and proud.

"You..." Wendell began.

No paternity test was needed; they could see the family resemblance.

Wayne scrutinized Wendell. "I heard you're my father? You look like a gust of wind could blow you away."

Having grown up parentless, Wayne was self-reliant from a young age, a trait that persisted even in power.

Joy filled Wendell's face; manners didn't matter. He approached Wayne slowly. "I think so."

He dared not be too confident before the paternity test.

"Come with me for the test," Wendell said.

Wayne, carefree, hands in pockets, nodded.

Wendell watched the wild man heading for the military area. Was this truly his son?

The test results quickly confirmed their biological relationship with 99.9% certainty.

Excited, Wendell rushed to Wayne. "Son, I finally found you! You've suffered all these years; it's my fault for not protecting you."

Wayne wasn't convinced. He had weathered life's storms alone; parental concerns now seemed late.

“I’m fine on my own. Does being your son change anything?” Wayne asked.

Wendell nodded eagerly. “Yes.”

Wayne smirked. “I heard about the engagement between the Procter and Fordham families.”

Wendell confirmed, “Yes, Alexander, the impostor, was engaged to the Sixth Miss of the Fordham family. Why do you ask?”

Wayne’s smile turned mischievous. “Now that I’m your biological son, does that mean I’m the one engaged to the Sixth Miss of the Fordham family?”

Wendell puzzled over the connection.

Wayne insisted, “Just say yes or no.”

Wendell hesitated. “Maybe?”

Wayne triumphantly grabbed Wendell’s collar. “Then as your son, propose to me quickly! Your son wants to get married!”
