

After Divorcing, She Shocked the World

Chapter 329: Cover your Retreat

Wu Mei and Li Nanchen were trapped.

They tried to break out of the encirclement several times, but in the end, they were pushed back to the front of the car.

These strong men were doing it on purpose.

Wu Mei finally understood. She quickly leaned against the car door and caught her breath.

Her strength was gradually depleting. Even though they had called the police, these people had no intention of leaving and the police had not rushed over yet.

Li Nanchen stood in front of Wu Mei and turned to look at her. He asked worriedly, "How's your condition?"

Wu Mei raised her eyes and smiled contemptuously. "These people can't beat me."

However, they had no chance of winning.

The bodyguards quickly retreated to stand in front of them and said in a hoarse voice, "Sir, they have backup again."

These people were not capable, but they had the advantage in that they had more people.

Li Nanchen also did not understand. He said coldly, "They all know that we called the police. Why aren't they afraid?"

"Because even if we investigate, we won't be able to find any criminal records. They can say that they provoked the wrong person." Wu Mei naturally found a reason for these people.

An uneasy thought occurred to her. Even if Mother Wu stayed at home, under the protection of her bodyguards, there was no danger. Additionally, she and Li Nanchen were just trapped, but were not physically harmed.

So, who is their real target?

They started fighting again.

Wu Mei braced herself and attacked without hesitation.

The new wave of people were still useless at fighting, but they could stall for time.

Wu Mei's mind finally cleared up and she suddenly blocked Li Nanchen in front of the car. "Nanchen, get in the car first and return to the Li family."

Li Nanchen looked at her in surprise and blurted out, "How can I leave you here alone?"

"You must go back," said Wu Mei urgently.

"I suspect they're going after Grandpa."

What?

Li Nanchen had not figured it out yet, but he also became nervous because of Wu Mei's guess.

In order to ensure Mother Wu's safety, he had deployed a few bodyguards from home. Old Master Li might really be in a dangerous situation.

Chapter 330: Unable to Stop Him

The show had to continue.

"Nanchen, you're back. Come and have some tea first," Li Zhuo said with a smile.

In his heart, he was grumbling about Sheng Hongfei and Li Dongjue. His wife and son were too useless. They couldn't even stop a little brat.

Li Nanchen could not be bothered to look at him. He rolled up his sleeves and prepared to look for Old Master Li.

Looks like Wu Mei had guessed correctly

Their target this time was not Mother Wu, nor was it him and Wu Mei. It was Old Master Li.

Who would have thought that Li Zhuo was so heartless that he would lay his hands on his own father?

However, nothing is impossible.

After all, Li Zhuo could harm his own brother for his own interest. It was just that all the evidence had been wiped out, but they were not so stupid as to not know the truth.

Li Zhuo stood up furiously. After being repeatedly ignored by Li Nanchen, he could no longer hold it in. "I'm your elder. Are you that rude?"

"Second Uncle, do you even know what manners are?" Li Nanchen asked.

Li Zhuo was stunned, as if he did not understand.

Li Nanchen smiled disdainfully. "Second Uncle, this villa is under my name. It's not appropriate for you to act like the owner of this house."

Li Zhuo's face twisted. He instinctively felt that it was impossible, but he also felt that this was Old Master L's style.

In order to prevent him from getting any benefits, Old Master Li would transfer everything to Li Nanchen.

Outrageous.

Old Master Li is really biased.

When Li Zhuo saw that Li Nanchen was unwilling to listen, he shouted, “Stop him.”

Two bodyguards walked down from upstairs. They were strong and had a murderous aura.

Li Dongjue happened to see this scene. His gaze landed on Li Nanchen, who was alone, and he could not help but sneer.

Li Nanchen actually dared to make a move on him. The tables have turned now. No matter how powerful he is, he can't defeat two people, can he?

A few seconds later.

Everyone quietened down. Even the burly man whose arm had been broken by Li Nanchen did not dare to utter a sound. He instinctively felt fear towards Li Nanchen.

This is too scary.

Li Nanchen turned his head and looked in Li Dongjue's direction. Li Dongjue was so shocked that he instinctively retreated and tried to avoid his gaze.

Li Dongjue was thinking too much. Li Nanchen was merely looking at the bodyguards who were awaiting his orders.

“Everyone, take control of them,” Li Nanchen ordered before heading upstairs.

Sheng Hongfei had been scared out of her wits by the scene just now and did not dare to utter a single sound. However, now that the bodyguard was touching her clothes, she started shouting angrily.

She shouted angrily, “Who are you? How dare you touch me? You will dirty my clothes.”

Li Dongjue tried to calm down again, but he could not suppress his twisted expression. In order to suffer less, he could only sit on the sofa obediently.

He looked up and saw Li Zhuo's face turning black.

"Dad, how's the situation upstairs?" Li Dongjue asked in a trembling voice.

Li Zhuo's face was tense as he replied in a low voice, "That thing is fast and effective. It should have succeeded.

"As long as he doesn't wake up, we can escape."

Li Dongjue closed his eyes and took a deep breath. His heart was filled with rage.

When Li Zhuo was taking action, he should have discussed it with him so that they could think of a perfect solution.

It was not a good plan to just stall Li Nanchen and Wu Mei.

With Li Nanchen's character, regardless of whether Old Master Li was alive or dead, he would not let the family of three off.

Li Zhuo naturally thought of this as well. He tried to find an excuse to escape several times, but failed in the end.

Upstairs, in the study room.

When Li Nanchen opened the study room door, he heard a gunshot and was so shocked that he did not dare to move.

"I'm Li Nanchen. I just want to see my grandfather." When Li Nanchen took the initiative to reveal his identity, he was still guessing who the person who shot at him was

Who else is at home?

It can't be the butler.

It won't be Lin Piaopiao either.

Could it be.

Bi Fang's voice was also quavering as he gritted his teeth and said, "Li Nanchen, why aren't you and Wu Mei picking up the phone? Are you trying to make me anxious?"

When Li Nanchen heard Bi Fang's voice, he immediately opened the door and strode in.

It turned out that Li Zhuo and the rest were merely waiting downstairs while Bi Fang and Old Master Li stayed in the study room because Bi Fang had a gun in his hand. Hence, Li Zhuo did not dare to take the risk. He could only stall for time and wait for Old Master Li to die.

When Li Nanchen walked in, he immediately saw Old Master Li lying on the chair and hurried over. "How's my grandpa?"

"Not good, send him to the hospital!" Bi Fang immediately said.

Li Nanchen personally carried Old Master Li on his back while Bi Fang walked in front with a gun. They successfully sent Old Master Li to the car and headed straight to the hospital.

As for Li Zhuo's family of three, they pretended to be shocked and insisted on following them to the hospital. In reality, they were looking for an opportunity to leave.

In the car, Bi Fang told Li Nanchen everything he knew.

He first realized that the bodyguards in the villa had been knocked out and the

butler and servants were missing. Lin Piaopiao was also holed up in her room and did not come out.

He was afraid that something had happened, so he took the gun and went to look for Old Master Li first.

“When I went in, Old Master Li was already having a relapse. I could only give him an injection first,” Bi Fang said in a low voice.

Li Nanchen was very glad that Bi Fang was in his house. Otherwise, things would have developed to an irreversible stage..
