

After Prison 1146

[Chapter 1146](#)

“It seems like only the Commander could kill that kid!”

The other fighters were shocked. They looked at Fintan’s body and felt scared. All of them were glad that they were not the first ones who wanted to show off their strength to Sami. Otherwise, they would be the ones lying dead on the floor now.

No one would like to die so easily after how hard they train to reach where they were now.

“It looks like we have underestimated you. I’ll fight you myself!”

Steward’s mouth twitched. It hurt him to see one of his strongest fighters die in the fight.

At that moment, he started to wonder what was the reason the Four Great War Gods refused to help. Was it because they knew Severin was very strong? Was it because they knew they were not strong enough to defeat Severin? Nevertheless, he only dared to think about that in his heart because if he told the other people about his suspicions, it would ruin their reputation. He took a step forward and instantly, he was right in front of Severin.

“Hey, kid. So you’re a level one warrior emperor, are you? Let me test how strong you are!”

After he finished talking, he unleashed his powerful strength into the air. As a level two warrior emperor, his strength created immense pressure on many people. Despite that, it did nothing to Severin. He remained calm as usual like he was not bothered by his enemy.

“This is it. His enemy is a level two warrior emperor. Do you think our Supreme Leader can defeat the enemy?”

The Third Elder of Taurus Hall clenched his fist tightly as he was feeling nervous. Severin waved his hand at the front. Subsequently, a spiritual energy palm appeared with a light golden glow.

“I think this attack is the best attack to represent the power of a level three warrior emperor. Mister Stewards, let’s see if you can handle it!”

Severin smiled. He had high confidence and was very familiar with how to control his power. It was not his intention to kill his enemy in one blow, after all. It would mean Dracodom would lose a good fighter which would be a loss. In addition, Steward had to sacrifice a lot to make contributions to the country. All Severin wanted to do was teach him a lesson and did not have any desire to kill him.

It was a good gesture but Steward did not understand. His mouth twitched. The spiritual energy palm looked was indeed looking quite scary, especially the faint golden glow. That was a sign showing Severin was really a warrior emperor.

When a fighter became a warrior emperor, a gold spirit would appear in his body. During the fight, the warrior emperor could use the gold spirit in his body when he launched an attack. With that, the spiritual energy of the attack would have a golden glow such as the spiritual energy palm Severin launched.

Warrior emperors at higher levels would have stronger gold spirits. The golden glow would be fuller and stronger based on the gold spirit's strength.

That was why Steward looked troubled when he saw the attack. Nevertheless, the attack was already charging at him and he had no choice but to fight back. He clenched his fist tightly and threw a punch out. A gigantic fist appeared in front of him with a faint golden glow too.

“What? Severin is a warrior emperor too? But I’ve never heard about him before!”

At that moment, Terrence started to worry. His face looked scared because he did not know if Steward was strong enough to defeat Severin. And if Steward failed to kill Severin, he was scared Severin would

Despite what he said earlier on, he did bring his family's elders along with him here today.
