

## After Prison 1181

### [Chapter 1181](#)

For quite some time, both of them remained silent. “Do you think he’s involved in an accident or bumped into his enemy and his enemy killed him? The difference between Severin and Ronnie is so huge. Severin can never beat Ronnie.”

Meldrick thought for a while and nodded. “Yes, I think that’s quite possible. After so many years of training, he’s bound to make a few enemies of his own. Sometimes, we would argue with the member from other sects too.”

Draven nodded confidently. “Then that’s probably what happened. On the way to find Severin, Ronnie bumped into an enemy and the enemy killed him. That’s why Severin is still alive and Ronnie is not back. Severin is one lucky bastard!”

Meldrick said, “The guy got away again. But I have a breakthrough and I’m now a level three warrior emperor now. I’ll train harder so I can reach level four as soon as possible. Severin is very talented but he can’t compare to us because he can only train in the mundane world. I’m the genius in my sect, after all. When my attainment is higher, I can kill him myself. That’s pretty good too!”

“What? Congratulations on the breakthrough!” Draven cupped his hand and congratulated Meldrick happily.

“Haha! You need to train hard so you can have a breakthrough soon!” Meldrick patted Draven’s shoulder and encouraged him.

However, he did not know Draven had already become a level seven warrior king within the short period of time he joined the sect.

“Thank you! I’ll do that.” Draven nodded. “I’ll get going then, I don’t want to disturb your training.”

In the meantime, Elaine, Severin, and Sheila had arrived at the headquarters of Gallus Hall.

“Miss Elaine!” the members on duty cupped their hands and greeted.

As Elaine said, they were all female members. Elaine nodded and said, “Mister Severin, Miss Sheila. Welcome to Gallus Hall.”

After that, she walked in the front to lead Severin and Sheila in. At the same time, a lady was playing piano in the garden. Her hair was left untied. When the wind blew, her hair flew in the air just like a scene

from a movie.

“She’s our hall master, Nancy Zyke.” Elaine introduced the lady to Severin and Sheila with a smile.

“Wow! She’s really very beautiful!” Sheila exclaimed surprisingly after taking a close look.

Elaine frowned, “What do you mean by that? Did you know my hall master is very beautiful before you see her?”

Sheila smiled embarrassedly. "Hehe, someone told me before."

## [Chapter 1182](#)

Coincidentally, Nancy finished playing her song. Two middle-aged women who stood beside her clapped their hands.

"Great Elder, Second Elder, is that really necessary?" Nancy smiled.

The Great Elder stood forward and said, "I think your skill has improved. I was so touched by your song and we just feel like clapping."

"That's right! It was our instinct!" The Second Elder added.

Meanwhile, Elaine brought Severin and Sheila over. She cupped her hand and said, "Hall Master, Great Elder, Second Elder. These two people have requested me to bring them here. His name is Severin Feuillet and her name is Sheila Ballard."

After that, she looked at Severin and Sheila and said nervously, "They want to join Gallus Hall."

Nancy looked at Severin and Sheila. Then her face turned sullen. "Elaine, it has been quite a few years since you are appointed to be the guardian. Don't tell me you don't know that we never accept male members?"

The Great Elder said, "Elaine! How dare you bring strangers here without informing us?"

Elaine smiled. "There's something I like to inform you. Can we step aside?"

Nancy and the elders exchanged looks. When all of them nodded, they walked away with Elaine.

As they reached a place where they knew, Severin and Sheila could not hear, Elaine started to talk. "Of course, I know we never accept any men to be our members."

Nancy rolled her eyes. "Then why did you bring him here?"

Elaine smiled and took out the spatial ring. "They give me an offer I can't decline. Severin said I can have everything in this spatial ring if I bring them here."

"You silly girl! How can you do that?" Nancy glared at Elaine fiercely, "We can't break the rules!"

At that moment, Elaine gave the spatial ring to Nancy. "Hall Master. Why don't you take a look inside? There are some pretty good attainment techniques and technique books inside. How can I decline those? We can improve everyone's ability with those. And you don't have to accept them when they ask to join. I already did what they request so these things belong to us now. I really can't decline a free lunch!"

At first, Nancy was not convinced until she looked inside the spatial ring. Her eyes went bright. "Wow! There are really a couple of attainment techniques and technique books. And the weapons are very good. too. This guy is so goddamn rich!"

The Great Elder took a look too and her reaction was the same. "Not bad! The swords are either level eight or level nine."

The Second Elder smiled. "Not bad. You're a smart girl. You're right. We just reject them when they request to join us."

Elaine smiled bitterly. "Yes, we must decline them. Severin just broke Hayden's arm. I bumped into Hayden when I was at the marketplace. He kept on teasing me and humiliated me and Gallus Hall. They tried to help me. Before I know it, they started fighting."

"You mean Hayden lost the fight?" Nancy frowned and asked for confirmation.

### [Chapter 1183](#)

Elaine smiled. "Hayden didn't just lose the fight. Severin broke Hayden's arm with one blow. I think that's the end of his right arm."

Nancy nodded. "So this guy's attainment is quite high. I think he's at least a level three warrior king. Does this guy really want to join us? He probably has other intentions."

"Yes. If he really wants to join a gang, he could join those first-tier upper-class families or a bigger gang. I don't understand why he wants to join us. Gallus Hall is just a small force without any power."

The Great Elder nodded too. She also did not understand because Severin had better choices other than Gallus Hall.

The Second Elder said, "Hayden's father is an elder of Starlight Gang. Although it feels so good to hear Severin beat Hayden, Hayden's father is going to come looking for Severin to pay back for his son's arm. So we definitely shouldn't accept him regardless if he's a man or woman. Otherwise, we'll get ourselves involve in the matter when Starlight Gang finds out that he's a member of Gallus Hall."

Nancy nodded. "Come on. Since we have made a decision, let's go over there now."

Elaine mocked, "Maybe he's here because he knows the Gallus Hall's hall master is a very beautiful woman. Otherwise, I can't find other explanations to explain why he would rather use so many training resources in exchange to join the hall."

"Don't make that joke!" Nancy glared at Elaine, feeling annoyed.

After that, they went back to where Severin and Sheila were. Nancy sat down and said, "I heard you two want to join Gallus Hall, But we only accept women. It's the rule so I think I have to say no to you two."

Before this, Severin had already expected the answer. He smiled faintly, "Miss Nancy, please don't reject us immediately. I don't have to be a normal member. I can be a grand-elder and I think that's acceptable because of the level of my attainment."

"Grand-elder?"

Nancy was speechless. Just how crazy this guy was? If he became the grand-elder, he would have higher authority than the other elders. Basically, they would be on the same level of command and Gallus Hall had not appointed anyone to be a grand-elder yet.

The Great Elder did not like the suggestion. "Kid, man is not allowed to join Gallus Hall. Even if you have high attainment, we don't have a place for you to stay. So I'm so sorry that I have to ask you two to leave

now."

Nancy commented too, "Elaine told us you have broken Hayden's arm. That means you're the enemy of Starlight Gang. We surely do not dare to let you join us. Starlight Gang is much stronger than us. Their gang leader is a level six warrior king. We really don't dare to accept you."

From the beginning, Severin was aiming to help Gallus Hall solve all of their problems. He smiled and asked, "Is there any feud between Gallus Hall and Starlight Gang?"

Nancy smiled bitterly. "We never dare to offend them. But they kept on provoking us so there's a conflict between us and them. Recently, they had been on our tails and forced us to drop out of some projects. A member could not stand it and killed one of their members. In the end, we had to settle it by giving them a restaurant."

Severin was shocked. Why did he have a feeling that Starlight Gang is a fan of blackmailing? They did not focus on managing their own businesses. Instead, they kept on causing trouble to other gangs and forced gallys to compensate them.

#### [Chapter 1184](#)

Severin looked at Nancy and said, "Miss Nancy, can we step aside? There's something I like to talk to you. Maybe you'll agree to let us join after you hear what I have to say."

"Haha! In your dream! Do you think you can convince Nancy? It's impossible!" The Second Elder chuckled.

The Great Elder said, "He is dreaming. Gallus Hall is a female-only hall since it is founded and it has been maintained this way for ages. We're not going to change the rule because of you!"

Nancy looked at Severin and smiled, "Severin, you heard what the elders said. Do you think we still need to have that talk?"

Severin smiled. "I think that the gazebo over there is the perfect place to chat. What do you think?"

It struck Nancy with shock when Severin did not give up. She did not think Severin had the power to convince her so she nodded and heard him out. Both of them headed to the gazebo Severin said.

"I wonder what he's trying to pull. Does he think he can really talk Nancy out to change the rule for him?" The Great Elder sneered and folded her arms when Severin and Nancy walked away.

Sheila said, "You can doubt all you want. Just wait for it. I'm sure he knows what he is doing."

Meanwhile, Severin and Nancy were at the gazebo and both had found a place to sit.

"I know your attainment is very high. But you heard what the Great Elder said just now. The rule is the rule. I hope you can understand it."

Nancy continued, "And I seriously suspect you have an ulterior motive because you have so many better choices than Gallus Hall. Or please do enlighten me by telling me why you rather choose a third-tier gang like us?"

Severin smiled. "I don't like to join other stronger and bigger gangs because I like to see the process of helping the weaker gang grow. And if I join them, they can't offer me a higher position."

Nancy did not know how to react. She could tell Severin was lying.

With a smile, she said, "Oh, really? Thank you for your interest. I'm really happy that you wish to join us. But I can't change the rule."

Severin smiled. "Based on the rule, it only states that the hall can only accept female members. Elders and grand-elder are not included, isn't it?"

#### [Chapter 1185](#)

"Er... you're quite right."

After thinking about it, Nancy realized the old man did not say that when the old man created the hall.

Severin smiled and flipped his palm over to take out two porcelain bottles. "Indeed, your attainment is lower than the gang leader of Starlight Gang. But I think you have been staying at the level for quite some time now. If you appoint me as your grand-elder, I can totally handle Starlight Gang by myself. And I'll give these two bottles to you."

Nancy frowned and bit her lip. After some hesitation, she took a bottle from the table and opened it. Instantly, she took a huge gasp. The bottle was filled with several second-grade low-rank alchemical pills. "Second-grade low-rank alchemical pills!"

Severin nodded and asked her to take a look at the second bottle.

Nancy gulped and opened the second bottle. Her heart raced and her mouth was wide open. "Oh, my god! More than ten second-grade medium-rank alchemical pills. Why do you have so many alchemical pills? Is this real? Am I dreaming?"

After that, she bit her tongue to make sure she was not dreaming.

"Haha. Miss Nancy. All of these are yours if you agree to make me a grand-elder. But I only want to have authority over the elders and I'll still listen to you."

Severin chuckled. "Oh. I'm an alchemist. So it's very normal for me to possess so many alchemical pills."

"You, you're an alchemist?"

Once again, Nancy felt shocked. Everyone drooled to have an alchemist join the gang and they would treat an alchemist with a lot of respect. Then this guy here actually needed to convince her to let him join.

It took Nancy three minutes to cool down. She frowned. 'Why does this guy want to join us so badly? Theoretically speaking, people like him would never even consider us,' she thought.

Her thought started to run wild. 'Does he want to join us because he wants to look for a wife? Our members are all very pretty. Or he's aiming at me? I'm the prettiest in the hall, after all.'

With that thought in mind, Nancy secretly looked at Severin again. She had to admit Severin was indeed a very handsome and charming guy. The way he smiled could easily attract a girl's heart and he seemed to have everything under his control.

"How is it? Just think about it. With those alchemical pills, they could help you and the elders make breakthroughs and improve everyone's power. Members like Elaine could become warrior kings. I believe. you know the huge gap between a warrior king and a level nine profound master."

Severin looked at Nancy and helped her analyze the whole situation.

Immediately after that, Nancy took the two bottles and kept them safe. She smiled, stood up, and wanted to shake hands with Severin. "Welcome to Gallus Hall. You're now our grand-elder. If there's anything you need, please do let me know. I hope we can work together to expand and grow Gallus Hall!"

Severin also stood up to shake Nancy's hand.

"No way! Elders, look over there. They're shaking hands! Does that mean he had convinced Hall Master?"

All the while, Elaine had been monitoring them. She quickly told the elders when she saw Severin and Nancy shaking hands.

The elders looked over and felt speechless. They knew their Hall Master would never simply shake hands with men.

The Great Elder said, "It's impossible. It's just a handshake and that doesn't mean Nancy has agreed. He's just a man with high attainment. The Hall Master will never agree especially when he requested to be a grand-elder."

#### [Chapter 1186](#)

At that time, Sheila could not be bothered to argue with them. When she saw Severin and Nancy shaking hands, she knew Severin had settled it.

After a while, Severin and Nancy came back to where the others were.

Nancy looked at Elaine and the elders and informed them. "Ladies, Severin is now our grand-elder and he'll be staying with us. Since Sheila is his wife, she can stay with us even though Sheila is not our member."

"But Hall Master, he's a man! I don't think it's appropriate for him to stay with us!"

That left the Grand Elder feeling speechless. Before Nancy talked to Severin, she was firm that she would not appoint and accept Severin as grand-elder. What did Severin say to change her mind?

Nancy explained, "The rule set by the founder only states that we can only accept female members. But the rule did not state that we can't appoint a man as our grand-elder. I've made up my mind. Hey, you three should greet our new grand-elder now!"

"Congratulations, grand-elder."

Despite feeling speechless, Elaine and the elders did not have a choice and cupped their hands to greet Severin.

"Haha. Thank you. We're on the same team now. If you need any help, feel free to come find me," Severin chuckled.

Nancy smiled, "Grand-elder. Come with me. I'll arrange a place for you and your wife to stay. I'll introduce you to everyone tomorrow morning."

"Okay."

Severin nodded. Together with Sheila, they walked with Nancy toward a villa.

When they left, the remaining three people were still shocked and confused.

"That's weird. Nancy has appointed him as grand-elder and she's showing him around and arranging a place for them to stay personally."

The Second Elder frowned and looked confused. "Shouldn't she ask either of us or someone else to do that? Does she need to do it on her own?"

The Great Elder nodded. "Yes. Something is not right."

Elaine said, "Do you think the Hall Master is falling for him? I think the more I look at him, the more handsome I think he is."

The Great Elder rolled her eyes. "Stop talking nonsense. Do you think Nancy is that kind of person? Do you know how many men want to marry her? She'll never fall for a guy so easily. Especially one she just met! Besides, being handsome is not everything."

"Let's ask her when she comes back later," the Second Elder said.

## [Chapter 1187](#)

Shortly, Nancy came back by herself.

"Nancy, what the hell? Didn't you tell us that you'll never agree? Why do you change your mind so quickly?" the Great Elder asked quickly when she saw Nancy coming back.

Elaine also could not wait. "That's right. What's going on? Why did you agree to make him the grand-elder?"

Nancy smiled bitterly. As she flipped her palm, she took out two porcelain bottles. "He gave me an offer that I just can't decline. With the help of these two bottles, I can increase the hall's power by a far stretch."

"What are those? Let me see!"

The Great Elder took the bottles and looked inside. It was followed by a huge gasp. “Oh, my god! Is this real? The bottles are filled with second-grade alchemical pills. Oh, my god! Is he an idiot? Why did he give us? Isn’t it better if he keeps it for himself?”

“Are you serious? Let me see! Let me see!”

Elaine quickly took the bottles away from the Great Elder. The moment s And they are all elite-quality!” she saw it, she was shocked too. “Oh, blimey! It’s real.

Nancy smiled. “Yes. It’s real. Do you know what that means? It means he’s definitely a second-grade high-rank alchemist. Otherwise, it’s very hard to produce elite-quality second grade alchemical pills in big amounts.”

“What? Are you kidding me? Are you saying Severin is the one who made these? He’s an alchemist? A second-grade high-rank alchemist?”

The Great Elder

er’s mouth opened so wide that it could fit two eggs inside.

The Second elder said, “I know one guy who just become a second-grade high-rank alchemist in the city too. He’s probably the only one and he works for the Nine Draco Province Mansion. Who the hell is Severin? He’s so damn strong!”

Nancy smiled and asked, “Do you think I can decline him when I found out he’s an alchemist and these alchemical pills he offered mr? I’m an idiot if I decline him.”

The Great Elder nodded with approval. “Yes, you’re right to make him the grand-elder. With these alchemical pills, you can become a level five warrior king very soon. Or even a level six warrior king. Then we don’t have to be scared of Starlight Gang anymore!”

Nancy nodded, “Let’s don’t think about me becoming a level six warrior king. Even If I become a level five warrior king and if the elders’ attainment increased too, we don’t have to be afraid of them. At least, they would be afraid to fight with us. Because the fight won’t be so easy and they’re going to face a huge loss. When that happens, the other gangs might take the opportunity to attack them. So we just need to increase everyone’s attainment in a short period of time, then Nightsky Gang would dare to provoke us as they like anymore.”

Elaine nodded. “You’re right. Will I be getting an alchemical pill to help me become a level one warrior king?”

## [Chapter 1188](#)

Nancy chuckled, “Of course. Anyone who is a level eight or level nine profound master will be given a second-grade low-rank alchemical pill to help to move on to the next stage. But how much the breakthrough will depend on what kind of stage your level is.”

The Great Elder clapped her hand happily. “Then we’re going to have more warrior kings! That means our combat power is going to increase substantially.”

The Second Elder was very exciting too. "Oh, god! Has god finally decided to help Gallus Hall? Do we finally have the chance to become stronger?"

Nancy had the same feeling too. She clenched her fist. "The most important factor is Severin is an alchemist! We just need to supply him with spiritual herbs and he could turn them into alchemical pills! Haha. I'm assuming Gallus Hall would totally be on the new height two years later!"

"Haha. As long as the grand-elder is willing to produce those alchemical pills for us, our future is bright as the star!"

Elaine too looked very excited.

All of them continued to enjoy the good news for a while before finally calming down.

Suddenly, the Great Elder frowned. "But I still don't understand why would he choose to join us?"

She looked at Nancy and asked, "Is that kid after you? You know how beautiful you are. Look at Sheila, she's very pretty too. Do you think he's targeting to make all those beautiful women his wives?"

At that moment, Nancy felt ashamed. Nevertheless, she said with a serious face. "Great Elder, he's our grand-elder now. So you better stop calling him that kid and it's not good to speculate things you don't know for sure. He told me he enjoy the process of helping a weaker gang turn into a strong gang. And he said he can have more say in a small gang like us."

The Second Elder chuckled. "I think he's just lying to you. I'm sure he's aiming for you. Or he knows there are a lot of pretty ladies in our hall."

Nancy smiled. "Regardless of his ulterior motives, we can't decline him because of these alchemical pills. And most importantly, he's an alchemist. Gather the other elders and guardians. Tell them I call for a meeting. I'll distribute the alchemical pills later too. Hopefully, we can all break through within these two days. The most important thing to do is now become stranger."

It had always been Elaine's goal to become a warrior king. However, it was easier said than done. She had been hoping for miracle to happen but she did not expect the miracle to happen so soon.

"That's right. Who cares what he is after? Let's just focus on increasing our attainment so we won't be bullied so easily anymore!" Elaine nodded.

Nancy continued, "Let's go and distribute the alchemical pills later. Go ahead and book a restaurant tonight so we can celebrate this fantastic moment. We can introduce Severin and Sheila to the other elders and guardians, It's been a while since we eat out in a restaurant or celebrate anything

Elaine licked her lip. "Hall Master, I'm already drooling. I haven't eaten anything good for a long time!"

to eat good Immediately after that, Nancy rolled her eyes. "You make it sound like I have treated you badly. Since you food so badly, you're in charge of making the reservation. Remember to book a good restaurant with a private room!"

The Great Elder nodded, "Yes. We need to celebrate having a new grand-elder joining us. He's definitely a strong aid to our hall and he's an alchemist. In order to show him how respectful we are and how

honored we are for having him, we need to celebrate. Everything must be perfect to show our sincerity.”

Elaine smiled, “No problem. I assume I don’t have to be bothered about a budget!”

After that, she thought of something and said, “Hall Master. I’m the one who shows the grand–elder the way here. You must remember that and reward me!”

Nancy chuckled and took out a second–grade low–rank alchemical pill to give to her. “No problem. I’ll give one to you now and another one during the meeting so you’ll have two. Are you happy now?”

“Really! This is great! I’m really so happy!” Elaine was so happy that she jumped up excitedly

“Then I’ll go inform the others about the meeting. After the meeting, I’ll make the reservation!”

She kept the alchemical pill in a safe place before running and leaping away happily.

“She’s always so energetic!”

The two elders exchanged looks with each other and chuckled.

Nancy said, “She did do a good job today. It’s finally the time for Gallus Hall to rise!”

Meanwhile, Severin and Sheila had picked their rooms.

Severin looked at Sheila and said, “Sheila, why do you need to stay in a different room? You’re my wife, we should sleep. together.”

Sheila really wanted to tell Severin she was afraid to sleep with him because of how active he was in bed.

Then again, she knew she should not say that. “Don’t you need the space to make alchemical pills? I don’t want to disturb you and distract you when you’re doing that.”

Severin nodded, “You’re so thoughtful.”

“Of course! Haha!” Sheila chuckled, “How did you convince Nancy?”

Severin smiled. “I gave her two bottles of alchemical pills!”

“So many? Sheila was shocked. “But you’re going to give it to them once you tell them who you really are. So it’s just a matter of time difference. It’s a good thing if you give them the alchemical pills now. They can increase their attainment now.”

Severin smiled, “Yes. What’s your thought on Gallus Hall?”

Sheila thought for a while before answering, “I think everyone in Gallus Hall is very united since they only recruit women. It’s totally different from Taurus Hall. There’s no drama here. Then again, this is just my opinion. I don’t know if this is true or not. You better observe it yourself.”

Severin smiled, “That’s exactly how I see it too. As you said, they are very united and I don’t think there are any moles. The Great Elder and Second Elder are just level three warrior kings and weaker than

Nancy. So they won't be thinking about getting rid of Nancy to become Hall Master. The only enemy they face is Starlight Gang I think."

Suddenly, Sheila covered her mouth and giggled. "You leave one important thing out, Gallus Hall is not as poor as Taurus Hall!

#### [Chapter 1189](#)

The joke had Severin burst out in laughter. "Haha! It's true! They only need more training resources like attainment techniques and spiritual herbs. But I guess they are doing well financially speaking."

During the meeting, Nancy informed the others about appointing Severin as grand-elder and also distributed the alchemical pills.

The elders and guardians were nearly in tears when they received the alchemical pills. When they were told Severin was an alchemist, they got even more excited.

When the sky was turning dark, Elaine went to look for Severin and Sheila. She saw them chatting in the garden.

"Mister Severin, Miss Sheila. The Hall Master had asked me to invite you two to dinner. We have made a restaurant reservation," Elaine notified them with a smile.

Severin chuckled, "We're eating in a restaurant tonight? You guys shouldn't have to do that"

Elaine smiled back. "The Hall Master said we need to celebrate you joining the hall. It's a joyful event and we can use this chance to introduce you to the other elders and guardians."

"Hehe! Not bad. I guess I can enjoy good food tonight." Sheila licked her lip and said, "Let's go, Miss pretty Elaine."

Elaine felt embarrassed. "You're so funny. I'm not pretty. At least not as pretty as you!"

Sheila said, "You're so humble. I really think that you're pretty too."

"Yes. Both of you are very pretty! Neither of you needs to be so humble." Severin smiled.

When they were at the entrance, Nancy and the others were already there waiting.

"Everyone. He is our newly appointed grand-elder, Severin Feuillet. The woman standing next to him is his wife, Sheila Ballard, the Great Elder did the honor of introducing Severin and Sheila to the others.

"Nice to meet you, Mister Severin and Miss Sheila!" the rest of the people greeted back together.

After that, Nancy introduced the elders and guardians one by one to Severin and Sheila. When that was done, a few cars had stopped at the entrance.

"Let's get in the car, everyone!"

Shortly, all of them entered the car and headed to the restaurant.

Meanwhile, Leon went to Nightsky Gang to look for Evelyn again.

“Hey, Evelyn, why are you still staying here? Everyone has left. You’re all alone here. Don’t you feel lonely?”

Evelyn looked at him and said coldly, “Why are you here again?”

She did not welcome him or show him a good face.
