

After Prison 1221

[Chapter 1221](#)

“Haha! You should have done that together. That’s going to save a lot of trouble!”

Severin continued to stay calm despite facing being attacked by five strong fighters next.

Leon saw Evelyn was looking nervous so he went over and held her hand. “Evelyn, don’t worry. This guy is dead for sure!”

Evelyn smiled bitterly. “Yes. Unless he’s a level nine warrior king. If he’s just a level eight warrior king, he’s not going to survive being attacked by three level eight warrior kings and two level seven warrior kings.”

Leon sneered. “Level nine warrior king. That’s not something anyone can achieve so easily. There are a lot of level seven and level eight warrior kings in this world but just a handful of level nine warrior kings. I heard even the Four Great War Heroes had just become warrior emperors not too long ago. But there’s something weird. Four of them actually breakthrough at almost the same time. Many people wondered if they had gone to a place where they met an opportunity that led them to have the breakthrough within the same week.”

“Warrior emperor!”

Evelyn felt jealous when she heard the two words. “I don’t know how strong exactly a warrior emperor is but I know it’s probably the strongest a person could be in this mundane world. The only warrior emperors I know are The Three Commanders and now the Four Great War Heroes.”

However, Leon shook his hand. “No. I think that’s not all. There are many fighters in the royal members that you don’t know about. Surely, there are warrior emperors among them. We are not in the circle so we don’t know about it.”

“Really? Then I must have underestimated the combat power of this mundane world,” Evelyn smiled bitterly

Rose—Petal Rain!” The moment the elders attacked with their most powerful technique, Severin did not hold back. He waved his hand and activated the Rose—Petal Rain technique that could attack a vast number of people.

“This technique is so weird and pretty. But the rose petals are scattered around. Does that mean the attacking power is distributed among the rose petals too?”

Evelyn frowned as she looked at the beautiful rose petals in the sky.

“This technique is suitable to use when the attacker wants to attack a group of people. It’s a very rare technique and he actually knows it”

After analyzing the situation carefully, Leon did not think Severin had any chance to win. He said excitedly. “Once this kid is dead, this technique is going to be mine!”

After some exploding sounds, Leon's smile disappeared gradually. In exchange, he looked frightened. What they saw was Severin killing the elders one by one. One after another, the elders fell from the sky and died instantly when they hit the ground.

"No! No! This is impossible! Impossible!"

Leon shook his hand as he had a hard time accepting. There was no one else he was afraid of in this city other than the people from Nine Draco Province Mansion. The Nine Dragon City Mansion was a very strong mansion and that was why he could continue to be elected as mayor after all these years.

Thus, he was really shocked to see all of his strong fighters get killed so easily. When the Second Elder and Third Ekler tried to escape, Severin did not give them the chance to do so.

[Chapter 1222](#)

"Haha. Mister Leon, I told you you're going to regret this. What do you think? Are you regretting now?"

After all the elders were killed, Severin landed in front of Leon and Evelyn.

1. Leon gulped and sweat rolled down his forehead.

—

"Mister Severin, I'm so sorry! I'm so sorry! I'll never do it again!" His legs went soft on him. He kneeled down and begged for

mercy

Evelyn felt hopeless when she saw that. She gave Leon a cold glare and sneered. "A mayor is actually kneeling down and asking mercy from his enemy. What a loser! Haha!!!

After that, she looked at Severin and sneered, "Kid, I admit I lost to you!"

Without any delay, she smacked her forehead to commit suicide, Severin looked at her body and sighed.

"You're a good daughter but you have to understand what the Night Sky Gang did was wrong. That's why I have to kill your father."

"Mister Severin, I know what I did was wrong. Please forgive me. I will never do it again. This woman bedazzled me with her beauty and brainwashed me to help her."

Leon kept on begging for mercy. At that moment, he really regretted everything

"You like her a lot, don't you? If that's the case, you should die along with her!"

Severin sneered. A vicious look flashed through his eyes. Then he kicked Leon with his legs. Leon ended up vomiting a mouthful of blood. After his body twitched a few times, he took his last breath.

Meanwhile, Sheila had already collected spatial rings from those people Severin killed. She walked to Severin and frowned.

"Severin, I believe he is the mayor of Nine Dragon City. He's staying in the same city with the province governor. Maybe both of them are very close. Do you think the province governor is going to be angry that you killed the mayor without caring about his feelings?"

Severin smiled faintly. "Don't worry. It's going to be alright. I think the province governor is not a stupid person. No matter how unhappy he is, he's not stupid enough to offend someone who can kill three level eight warrior kings and three level seven warrior kings easily."

Sheila thought about it and knew Severin was right. She nodded. "You're right I guess that's the benefit of high attainment."

Severin looked back at her and said, "Let's go. Leave their bodies to the mayor's families."

After that, both of them just left. When the people from the Nine Dragon City Mansion got hold of the news, they were shocked. They were the strongest forces in this city other than the Province Mansion and the County Mansion. How was it possible the mayor and the elders got killed by a man so easily?

[Chapter 1223](#)

"Hehe! These spatial rings belong to the strong fighters from the Nine Dragon City Mansion. I'm sure they are going to have plenty of spiritual herbs. It'll be good if there are attainment techniques in the rings too. Then we can bring them back and give them to the halls."

Sheila came running over looking very excited. She had many spatial rings in her hands.

Severin did not know how to react when he saw Sheila collecting the loot happily. "Don't worry. They are also asking their members to search for many spiritual herbs for me to make into alchemical pills. I believe Dracodeus Temple would be the strongest organization in Dracodom. Although we can't compare ourselves to those big sects, no one can bully us in this mundane world."

As they chatted, they arrived at a restaurant. Sheila rubbed her stomach and smiled embarrassedly. "Severin, I'm a little hungry. Why don't we have lunch before heading back?"

Severin nodded. "Sure. Then let's go in."

"Big news! Big news!"

Meanwhile, Leon's bodyguards rushed all the way back to inform Leon's wives about his death.

Leon's wives were playing poker. He had four wives and their names were Macy, Edna, Kelsie, and Priya. The first wife, Macy had been losing money today. The shouting from the bodyguards irritated her even more. "What the hell happened that you guys need to shout so loud? What terrible things can happen in this city? Is the sky falling down? You guys make me ashamed. You better don't tell other people that you're working as bodyguards here."

Whereas Leon's second wife, Edna was calm and steady. She smiled, "No matter how urgent it is, let us finish this round."

The three bodyguards exchanged looks with each other and decided to keep their mouths shut for now. After a while, Leon's four wives finally finished that round.

Edna asked. "Alright. What happened?"

One of the bodyguards mustered up his courage and said, "Ma'am, we received a piece of news just now. Mister Lean and the elders went to Windington Square and someone killed all of them. They are all dead."

"What?"

The four young wives were so shocked that all of them got up on their feet and wondered if they had heard it right. They were the strongest force in this city other than the Nine Draco Province Mansion.

After being in shack for quite some time, Edna smacked the table. "Nonsense! How dare you make this up? Do you want to die?"

Macy did not believe it either. She glared at the three bodyguards and said, "Do you know the consequences you will face joking about this?"

A plump bodyguard smiled bitterly. "Ma'am, we don't have the audacity to joke about this. The Bergs discovered their bodies and called the butler. The butler is on his way with the guardians to collect their bodies. It had been a while. I think they should be on their way back as we speak."

"No. We're finished! If Leon is really dead, then they have to re-elect a new mayor. Things in this city are going to change!"

[Chapter 1224](#)

Macy sat back in the chair but she looked like she had lost her soul. Her eyes were looking dull,

Edna asked, "Then what should we do? Does that mean we can't show off and be bossy to the others anymore?"

Kelsie was Leon's favorite wife. She smacked the table angrily. "No! I don't care if Leon is dead or not. I can't let this go easily. Do you know who killed him? What did the province governor say about this? I mean a guy easily killed the mayor. Surely, the province governor has to do something about this!"

After some thinking, Priya finally voiced out, "Is the killer from Nine Draco Province Mansion?"

Finally, the plump bodyguard had the chance to speak. "Ma'am. We had gotten some further information from other bodyguards. They just came back not long ago to collect their rewards. They told us Leon was not alone. He was with a beautiful woman, Evelyn. She's the daughter of David Letterman, the gang leader of Night Sky Gang"

For the next couple of minutes, Leon's wives patiently listened to the bodyguards as they told them the whole story.

Macy sneered. "So all of this happened because of a woman. We know he always went out to look for other women but we had been keeping our eyes closed. And now he's dead because of another woman."

"Ma'am. The butler is back with the bodies..."

Suddenly, a maid ran in and mumbled. Macy's face looked terrible. She frowned. "Alright. You may leave. We'll be there right away."

After that, the four wives went out to meet the butler.

“Ma’am, what should we do?”

The butler looked at the bodies and sighed. He was totally clueless. Macy looked at the bodies and frowned. “Why did you bring this woman’s body back here? Leon would never die if it weren’t for this woman! She’s the reason Leon is dead!”

The butler smiled embarrassedly. “Ma’am, her bodies were among the others so we brought her back too. Anyway, we have investigated the whole thing. The young man who killed Mister Leon is called Severin Feuillet. He was accompanied by a woman but we don’t know her name. We believe she doesn’t have high attainment.”

“Go and settle this woman’s body! Carry the mayor’s and the elders’ bodies to the Province Mansion with me. I want to see what the province governor has to say about this!”

Macy was not about to let this go easily especially when her decision-making was being affected by her emotions.

Very soon, they reached the Province Mansion with the bodies and asked to see the province governor, Peter Berg,

“Mister Peter! You have to help us! A guy killed the mayor in broad daylight and under your watch! He has disregarded you and your authority. Mister Province Governor, I ask you to uphold justice and punish that man!”

As Leon’s first wife, Macy knelt down and cried. The other three wives quickly followed her lead.

Peter quickly asked them to get up and consoled, “Ma’am, I just heard about this. Can you tell me the details?”

[Chapter 1225](#)

Macy sighed because she knew there was nothing else she could say to change Peter’s mind. All that was left for her to do was bring Leon’s and the elders’ bodies back together with Edna, Kelsie, and Priya

After they were gone, the Great Elder said, “Mister Peter, do we look like a coward if we don’t do anything? The guy did kill the mayor and his elders. Other people are looding at us.”

Peter nodded. After some careful consideration, he said, “Although we can help Leon seek revenge, we should still do something. Go and investigate where the killer is. Find out where he is living. At least, we should go meet him.”

The Great Elder nodded. In fact, that was all they could do right now. It took them an hour to find out where Severin and Sheila were and where they were staying.

“They are staying in Gallus Hall?” Peter frowned and Inoled shocked upon being informed of that,

“Yes. Isn’t Gallus Hall a female-only hall? Why is he staying there? When I heard that, I was shocked too. I wonder what the relationship between him and the hall master is,” the Second Elder smiled bitterly. He was in charge of the investigation.

"I heard the hall master of Gallus Hall is a gorgeous woman. I've never seen her before but I heard a lot of things about her."

Peter thought and said, "The woman accompanying Severin is also a pretty warnan. He's very young but has high attainment. Do you think he's staying in the Gallus Hall because he's after the pretty women in Gallus Hall?"

The Great Elder chuckled. "That's quite likely. That's the norm among the young and talented guy now."

"Let's go. Since we know he's staying there, we can't just sit here and do nothing. Bring some strong fighters with us and put out a show for the public to see. At least, we have to let the other forces know that we are not afraid of Severin," Peter said after careful consideration.

Meanwhile, Severin and Sheila had returned to their villa in Gallus Hall after their lunch.

"Hall Master! Hall Master! Mister Peter is here with many men! Do you think they are to look for our trouble?"

Nancy and the others were sitting in the living All of a sudden, many members rushed in to report.

Nancy stood up immediately. "What's going on? Why is Mister Peter here?"

The elders were shocked too. Obviously, Peter did not need to bring so many men with him, if he was here for a normal visit. Most likely, he was here to cause trouble,

[Chapter 1227](#)

Nancy squeezed her brows. "But we never have any contact with the Province Mansion and we never offend them too. Why do they need to come looking for our trouble?"

Just then, Elaine had just returned. She came bearing news. "Hall Master, something big happened. I heard a guy killed the mayor and his six elders! The guy is so strong that he killed them easily..

After hearing that, the Great Elder immediately linked both incidents together. "Ch, my god! The mayor is killed and the province governor is here now! Did our Supreme Leader just lill the mayor?"

Nancy looked serious. "That sounds about right, I think the Supreme Leader is the only person who can kill the mayor and his elders in this city."

She smiled bitterly. "Gosh, he's so good at causing trouble. Two more days and he's returning to South Link City. Why did he kill the mayor?"

The Great Elder instructed, "Elaine, go get the Supreme Leader now. If the province governor is really here looking for our

trouble, he's the only one who can settle this."

Elaine felt so shocked. She did not think Severin was capable of causing such big trouble in a short time.

"Okay. I'll go now!" Elaine nodded and sprinted out.

Nancy looked at the elders and said, "Go and gather the members. We need to go welcome the province governor."

Shortly, Nancy and the others went outside to meet Peter.

"Are you Nanry Zyke, the hall master of Gallus Hall?"

Peter's eyes brightened up as he glanced at Nancy calmly. He had heard about what a beautiful woman Nancy was and Nancy's beauty did not disappoint him. She looked so beautiful as if she was a fairy from a story.

Nancy nodded and cupped her hands. "Yes, I'm Nancy Zyke. May I know what brings you here today?"

Peter looked cold and proud when he looked at Nancy. As a level eight warrior king, he was already in the peak state and he

was just waiting for the opportunity to make a breakthrough to be a level nine warrior king. Before he saw Severin, he was not going to swallow his pride.

With a disdainful smile, he said, "I'm not here to see you. Go get Severin Feuillet! He killed the mayor and I'm here to investigate!"

Mister Peter, I didn't expect to see you here so soon!"

Just then, Severin was walking over there with Elaine. He had a smile on his face and looked relaxed.

"Mister Severin, you're the governor of Skystream Province. Why did you come all the way here and kill Peter and the other people? Don't you think you have gone too far?"

Peter chuckled. As a province governor, he was used to talking in an assertive tone,

Severin faced him and said, "Wow, Mister Peter, you actually know that I'm a governor. But that's not worth mentioning if I were to compare to you."

[Chapter 1228](#)

Peter's burial,"

After a pause, Severin continued, "I came here looking for Gallus Hall. I have some business with them. I killed the mayor because he was going to kill me for killing the Night Sky Gang's gang leaders and members. The Night Sky Gang is a corrupted and evil gang. They bullied people and demanded money from businesses. I don't think I've gone too far by helping you get rid of those people."

It left Peter speechless. At first, Peter's plan was to frighten Severin with his province governor's position and request Severin to apologize to him. At least, he could easily show the others he had done something and that would be the end of the disaster. It was just for a show. However, he was surprised that Severin did not care.

He took a step forward and whispered, "Hey, man. I'm the province governor. Can you please show some respect for my feelings?"

Severin raised his brow and finally understood why Peter was there.

He chuckled. "Oh, my bad. I'm sorry. I think I did go a little too far and did not consider your feelings."

After that, he flipped his palm to take out a third-grade low-rank alchemical pill. "This is a third-grade low-rank alchemical pill. It seems like you have been at the peak stage of level eight warrior king for quite some time. Eat this pill and I guarantee you can become a warrior emperor. This is my way of showing how sorry I am."

Peter took a huge gasp. In the beginning, he only wanted Severin to apologize to him and nothing more. He never expected Severin to give him a third-grade low-rank alchemical pill. It was the first time in his life to see a third-grade low-rank alchemical pill.

He was so shocked and excited that he did not know what to say. After gulping a few times, he reconfirmed again, "Are you saying you're giving this alchemical pill to me?"

Severin frowned. "Yes. Am I not clear enough? If you don't want it, I can take it back."

After that, Severin pretended to put the alchemical pill back to his spatial ring.

Peter quickly snatched the alchemical pill over and said, "Wait! Of course, I'm delighted to receive this treasure!"

While he was talking, he carefully stored the alchemical pill and was afraid Severin might regret giving it to him. The other strong fighters behind him gulped and were envious of him.

"Third-grade low-rank alchemical pill! Oh, my god! The Supreme Leader is so amazing! He actually has a third-grade low-rank alchemical pill!"

The elders and guardians of Gallus Hall were thrilled and excited. Finally, they did not need to be afraid of their future anymore now that Severin was their Supreme Leader.

"Mister Severin destroyed the Nightsky Gang and killed those people for the better good of this city. I think he's a hero for doing that."

After Peter stored the alchemical pill, he was smiling brightly. What a big surprise to receive the alchemical pill when his plan was to come here and put on a show. He smiled, "In the past, Leon had been too arrogant. I think he deserved this result. Mister Severin had also expressed his apologies so let this incident end here now."

The Great Elder of the Nine Draco Province Mansion reminded, "Mister Peter, why don't we make friends with Mister Severin? He is a righteous person. It'll be good to help each other out in the future."

[Chapter 1229](#)

As the Great Elder reminded Peter, he quickly took action. After all, they had only heard about a third-grade low-rank alchemist but never saw one in person. If Severin could easily gift someone a third-grade low-rank alchemical pill, it just said Severin's alchemy skill must have improved. Very likely that Severin himself was a third-grade alchemist.

The information from the website must be outdated because it stated that Severin was a second-grade medium-rank alchemist.

"That's right! Mister Severin, let's exchange our numbers. Feel free to contact me if you ever need my assistance!" Peter said quickly.

Severin knew it was not nice to reject exchanging numbers with Peter because Peter had already taken out his phone so he nodded and gave Peter his number.

“Mister Severin. We’ll be leaving now. Let’s stay in contact.” Meanwhile, Peter was no longer talking arrogantly. After that, he left happily

“Supreme Leader, you’re so dope! You actually have a third–grade low–rank alchemical pill! Did you make it yourself?” Nancy asked once there were no more outsiders.

With everyone looking at him, he nodded. “Yes, I make it but I’m not very good at it yet so I don’t have a lot. Train hard. You need to have high attainment to use a third–grade low–rank alchemical pill.”

Nancy and everyone else were excited to hear that. They knew the third–grade low–rank alchemical pill could have a tremendous effect on a level one or two warrior emperor.

“Mister Peter! This is so great! You finally have the chance to break through with this third–grade low–rank alchemical pill!TM

Everyone was feeling happy for Peter when they were on their way back.

Peter laughed excitedly. “Haha! I only wanted to put on a show. I didn’t expect to receive this! This is so worth it! Severin must have become a third–grade low–rank alchemist! Otherwise, I don’t believe he would give this to me. We are basically strangers to each other before today!”

The Great Elder nodded. “Yes. If he got it from other places, he would surely save it for himself. That’s only one possibility that he’s willing to give it to other people and that is because he has more than one and this is a treasure that he can easily obtain. That means he’s really a third–grade low–rank alchemist now!”

Peter thought about it and said, “Maybe he’s already a third–grade medium–rank alchemist. I noticed the quality of the alchemical pill he gave me was very good. Based on the color, I’ll say it’s a superior–quality.”

Suddenly, the Second Elder remembered something and gasped. He started to make a bold assumption. “Mister Peter, I just remember something. The website stated Severin and the Four Great War Gods are very close and they kept in contact with each other very often. If that’s the case, it’s very highly possible that Severin has something to do with helping the Four Great War Gods become warrior emperors!”

Instantly, Peter understood what the Second Elder was talking about. “Are you saying the reason Four Great War Gods could become warrior emperors is because Severin gave them an alchemical pill each to help them break through?

[Chapter 1230](#)

The Second Elder nodded. “Yes, I’m sure that was what happened. That explained why the breakthrough of the Four Great War Gods happened within the same werk. It’s just too big of a coincidence.”

Everyone nodded and agreed with the Second Elder’s assumption

“Severin is really a powerful man. Remember carefully. Never ever try to offend this guy. If you have the chance to grovel him, do whatever that’s necessary to please him!” Peter made it very clear to the elders and guardians.

Meanwhile, Severin and Sheila were back in the villa where they were staying. Sheila started training for a while and a rather hidden change happened in her body. It was hard to notice and it happened very quickly too. Despite that, Severin noticed the changes.

He said while Sheila was standing up. "Not bad. You're finally a level one profound master now, You've finally stepped into the world of attainment and a real cultivator now."

Sheila did not know if she should be crying or laughing now. "I really can't hide anything from you. I was going to give you a surprise."

Severin smiled faintly. "You can't hide that from me. My attainment is higher than yours. It's hard to hide the changes happening in your body when your attainment has a breakthrough. Especially when you move on to another stage. The energy in your body will increase tremendously. Since your body is not used to that amount of energy, people could easily tell what's your attainment without using any secret technique."

That answered Sheila's question. "I see. Hehe. Not bad, not bad. I learned something from you again."

She clenched her fist tightly and said, "It feels so good when the energy in your body increases tremendously. I'm just a profound master now. It must feel even better when I become a warrior king"

"Don't worry. With your special constitution, you'll improve faster than normal people."

Severin smiled. "Just wait two more days when you are used to this new stage. I will make a first-grade low-rank alchemical pill for you and your attainment is going to improve again."

Sheila walked over and held Severin's arm. "Really! That's good. Hehe. It is really very nice to have a husband who is an alchemist!"

After that, she remembered something. "Hey, I remembered you told me Mister Wulricht is going to look for a treasure that could make people have attainment. Now that Diane and I have attainment, we don't need the treasure anymore."

Severin smiled. "That's going to happen if he finds it. I can give it to Megan too. She's so envious that you two have attainment now."
