

## After Prison 1581

### [Chapter 1581](#)

Severin nodded and said, “Yes, you’re not too bad but there are still quite a lot of problems.”

Elsa was stunned when she first heard that, but it was just for a second. After that, her eyes lit up. and she was eager to know what the problems were with her alchemy skills. “Really? What kind of problem? Please tell me.”

Her eagerness to gain more knowledge was a plus point. Severin was certainly happy with that. You were rushing throughout the whole process. Instead of throwing the spiritual herbs at the right time, you would always throw them ahead. And when you were extracting them, you looked as if you were in a rush. Take your time. Just wait another two or three seconds. If you have better control of the timing, the quality of your alchemical pill will improve.”

“Oh, really? Maybe I’m very impatient and very nervous too so I didn’t notice it. Master, thank you. for the advice. I will take note of those pointers.” Elsa cupped her hands.

After some thinking, Severin said, “Alright. Go take some rest. Think about what I said and review it so you can improve next time.”

Elsa nodded. “What about you? Aren’t you going to take some rest?”

Severin smiled. “No. I’m planning on producing two more rounds. I must familiarize myself with producing third–grade high–rank alchemical pills. The more familiar I am with producing those alchemical pills, the higher my chances I have of producing fourth–grade low–rank alchemical pills. I really hope I can be a fourth–grade low–rank alchemist soon.”

“Master, you’re so hard on yourself but rest is important too. Producing alchemical pills is really very tiring, especially to your mental,” Elsa said.

For now, her admiration for Severin increased even more. She smiled and left the room.

Then Severin went on to produce two more rounds of alchemical pills. After that, he took a shower and slept.

The next morning, he woke up and realized those four girls were already waiting for him in the garden.

“Wow, you girls are early.”

It was such a pleasant moment to witness this beautiful view straight after he woke up. Each of and appearance. Seeing these every day surely could help to boost his mood.

Sheila said, “Of course. Someone did say that he’s going to give us the alchemical pill today.”

Immediately, Severin flipped his palm to take out the alchemical pill and gave one to the girls. As he gave them out, he said, “Don’t worry. I didn’t forget about it. These are the pills suitable for your

attainment and it has enough power to help you level up. Once your level is stable, you can progress further again.”

Sofia looked at the pill in her hand and felt very sweet and content. The other female members of the sect kept on complimenting her for finding a good husband. None of them thought there was anything wrong that she had to share a man with other women.

After all, not everyone could have the chance like her because Severin was a talented and wonderful man.

“Hehe. Honey, you can take all the time you want with your alchemy. We’re not going to have the time to accompany you because we’re going to be busy with our training.”

### [Chapter 1582](#)

That was what Diane said to Severin after she received the pill.

It caught Severin by surprise. “Surely I can still go look for you guys at night after the breakthrough, right? I mean you would still need time to stabilize your level so me going to find you girls is not going to affect the training.”

Diane was speechless. The reason she had said that was because she wanted to have some me time, but she did not know Severin was so good at finding loopholes.

“Pervert! Is that all you can think of? Sheila blushed and rolled her eyes at Severin.

After thinking for a while, Severin said, ‘My plan is to stay here and produce more pills before Larry gives me a call. However, I need to go back if he doesn’t call me after a month. Surely, they should be able to find some information about Lepus Hall and Simia Hall if those two halls existed before.’

“Are you afraid those two halls no longer exist or are destroyed by other gangs?” Diane asked because she could tell what Severin was worried about.

Severin nodded. “Yes. We have been searching for so long but there’s no news about them up until now. Dracodom is so huge with so many gangs. Not to mention new forces are established and existing gangs get wiped out every day. If that is the case, then that’s going to be very problematic.

Sofia gave that a thought and chipped in, “Even if those two halls have been eliminated. Can’t you find two level one warrior emperors and appoint them as the respective Hall Master? Isn’t your mission to assemble the required twelve members only?”

Upon hearing that, Severin was not sure whether to laugh or cry at Sofia for coming up with that proposition.

With a bitter smile, he said, “That is still the least preferable choice if we have exhausted all means and options. My master gave me clear instructions to locate all the twelve original Hall Masters. It doesn’t matter whether the gang has been destroyed or not, as long as the gang leader is still alive, they must be found. It does not count if I find a replacement to replace them.”

Sheila felt embarrassed and pouted. “You find yourself a weirdo master. Isn’t the main thing assembling the correct headcount regardless of who it is? Not to mention, how eccentric your

+15 BONUS

attainments to at least level nine warrior king. Isn’t that asking a bit too much? Or could there be some secrets to which we know nothing?”

Severin shrugged. “I wouldn’t have a clue about that. Anyway, that’s how they put it. Since I’ve already agreed to do it, I should do it according to their wishes, right? There are still three months and twenty odd days left. I’ll just have to do my best.”

“Indeed. With so many people searching for them, I’m sure we’ll have some good news soon. Just a while ago, Larry said they only have a few cities left to search. Very likely we’ll hear from them in a few days,” Sofia said while smiling encouragingly at Severin.

In the morning, Sofia brought the others to the city for a walk. By night, the four ladies spent their time training while Severin was busy with producing the alchemical pills.

Before one realized it, time flew in the blink of an eye, and twenty days had passed by.

During this period, the grand-elders of the Stormy Moon Sect came by every day to seek more advice on how to master the alchemy skill. The great grand-elder had also progressed from a third-grade

low-rank alchemist to become a third-grade medium-tank alchemist. Whereas the second grand-elder rose from second-grade high-rank to a third-grade low-rank alchemist. The grand-elders could not be more ecstatic with their improvement.

As for Severin, seven days ago, he made a breakthrough and became a fourth-grade low-rank alchemist. Thus, he had been very busy with honing his skills in producing fourth-grade low-rank alchemical pills, as he wanted to improve their quality with better skill.

### [Chapter 1583](#)

“Surely the quality of this pill is at least of superior-quality,” Severin thought as he observed the pill in his hand while working in his room. He could not help himself and smiled triumphantly. Obviously, he was very satisfied with the quality of the alchemical pill.

As he stepped out of his room, he was taken aback. There were only three months left from the due date. However, it was not an unproductive time as he had given the Stormy Moon Sect more than two hundred third-grade alchemical pills. Everyone in the sect improved their skills and rank tremendously on a daily basis because of the pills, and the entire sect was overjoyed.

In addition, Severin used up most of the second and third-grade spiritual herbs and even some of the fourth-grade low-rank herbs in making the pills. As such, he had stocked up well over three thousand pills. This displayed the amazing speed in his ability to produce the alchemical pills. !! words got out, it would likely create an uproar and shock those who heard about it.

However, as Severin remembered the task on hand, he started to worry whether the time left was enough. It was not until he saw the progress the ladies achieved in their training that he felt.

reassured

“Not bad at all, Sofia. You achieved breakthroughs twice and became a level nine warrior emperor. Once your condition has stabilized, it should take no time at all for you to progress to become a saint!” Severin said satisfactorily as he looked at Sofia

What

“Me, me! What about me?” Sheila came running to Severin and ran around him.

“You did well too, Sheila, From a level three warrior king to a level seven, I’m very pleased with your speed of progress.” Severin nodded.

Diane chipped in, “Sheila is progressing so fast. Even though I’ve attained level eight now, she will likely catch up with me very soon if she improves that much faster.”

Sheila giggled playfully and said, “Diane, how I wish I could catch up with you right now! Why don’t you wait for me, just hold on a bit and wait for me to catch up!”

Finally, Severin looked at Elsa, nodded, giving his approval, and said, “Level four warrior emperor, good job.”

“Thank you, Master! Elsa laughed and replied, “Master, how I admire you and the missus. All of you could see through the level and rank of others so easily. Just the other day as I made a

+15 BONUS

on me.” Elsa made that statement without giving much thought and used that analogy innocently.

However, Sheila would not let this chance pass by without teasing her. Thus, she laughed while covering her mouth and said, “Really? If you really were naked, someone ought to be super thrilled. If that someone saw you naked, he might get overly excited and his nose might start to bleed.”

Severin glared at Sheila upon hearing this and said with a serious expression, “What are you talking about, Sheila? That never happened to me when the three of you were stark naked. Do you really think of me as a man without self-control?”

Sheila continued mischievously, “How can that be the same? You are used to seeing us undressed. Of course, that won’t be much of a reaction. However, the same cannot be said of Elsa. Who knows what will happen when you see her naked for the first time?”

A slight pause and a thought came to Sheila. “Why don’t you give it a try and see what will actually happen?”

## [Chapter 1584](#)

Severin felt so helpless as he could not believe what he just heard. Sheila had no boundary to her mischief.

He quickly glanced over at Elsa to make sure she did not feel offended. "Elsa, just ignore what she said. She likes to joke around and she didn't really mean what she said."

Elsa was seen blushing all over her face and feeling shy.

What Severin said did not stop Sheila at all. She continued to joke, 'Of course I'm joking. Or are you really thinking if it's going to happen? Geez, it seems like somebody really does want to see it.'

Diane and Sofia could not stop laughing so hard that their stomach hurt. While Severin really did not know how to react

Just then, his phone rang.

"It's Larry!" Severin took out his phone and saw who was calling him.

He was thrilled and wondered, Could he be calling to tell me about Lepus Hall or Simia Hall?"

"There's no point guessing the reason he calls now. Why don't you answer the call and ask him?\*

Diane smiled. She could tell Severin was feeling ecstatic and nervous

Then again, there was no big problem searching for the ten halls. Yet, it took so long to locate the remaining two halls. Only one step was left to claim the mission successfully. Thus, this was the most nerve-wracking and intense moment.

After he answered the call, he asked, "Larry. What's up? Do you have news about Lepus Hall or Simia Hall for me?"

Larry replied, "Supreme Leader, we have located Lepus Hall and explained everything to them.

Now they are already here in South Link City and we have arranged everything for them."

"Haha! That's great!" Severin laughed out loud. As he thought, he asked, "Oh, is everything else going smoothly? What's the attainment of the Lepus Hall's Hall Master?"

Larry answered, "It's going well, but the Hall Master's attainment is quite low at only level six warrior king. But we still have three months, don't we? It's not going to be a big issue. All you need to do is give him two alchemical pills."

+15 BONUS

Feeling joyed, Severin said, "Level six warrior king. That's not too bad. I don't need three months.

Twenty days are all he needs to progress to level nine warrior king.”

After a pause, Larry said, “Oh, we do have information regarding Simia Hall, but we are looking for more. Don’t worry. They are still alive and information proves that they appeared in a city before. Now our people are still looking for more information. I think you’re going to hear good news from me soon.

“Great! Great!”

Finally, Severin was able to soothe his worried soul.

As he hung up the call, he took a deep breath. “Girls! Larry found Lepus Hall and he had helped them to move to South Link City. The Hall Master is a level six warrior king so he needs to catch up. As for Simia Hall, we can expect to receive more news soon.”

Sofia thought and asked, “Then is it time for us to head back?”

Severin nodded. “Yes. We are leaving three days from now.”

#### [Chapter 1585](#)

Within a blink of an eye, three days had passed. Sofia looked at Birk and felt bad leaving him. Dad, we’re leaving. Please take care of yourself.”

Birk nodded. “Goodbye. I know I can’t keep you by my side forever. I’m really glad that you can marry Severin. He’s a good man.”

After a pause, he continued, “All I want to see is you live happily. That’s all I ask for.”

Severin flipped his hand, took out a porcelain bottle, and passed it to Birk. “Father-in-law, I have prepared this present for you. Please only look into it after we leave.”

“Haha, okay!” Birk accepted the bottle and laughed out loud

Later, Severin took out his flying sword and enlarged it. After everyone had jumped onto the sword, he controlled the sword and flew away at a high speed.

“Hey, did you give my dad more third-grade alchemical pills? Why are you giving him more? Haven’t you given him enough previously?” Sofia asked with a smile.

Despite what she said, she was really satisfied with Severin.

Severin smiled and said, “Yes, I did give him more alchemical pills. As the sect leader, he needs a lot of alchemical pills to ensure the sect’s stable development and future.”

“Mister Birk, you have a good son-in-law. He even prepared more alchemical pills for you before he left,” Jeanluc said slowly while looking in the direction where Severin flew away.

Birk nodded and felt thought. After a while, he opened the porcelain bottle to take a look. He was expecting to see more third-grade alchemical pills in it. However, he was completely shocked once he looked inside.

“What a weirdo. He can always surprise people,” Birk said while suppressing his overjoyed emotion.

“Surprise? Did he give you a lot again? How much? One hundred or two hundred?” Jeanluc asked curiously.

“No. Just ten.” Birk smiled.

“Just ten? I was saying how generous he was. Why are you so surprised when he only gave you

+15 BONUS

Birk passed the bottle over and said, “Take a look for yourself.”

Jeanluc frowned, looked inside, and gasped. “Oh, my god! Oh, my god! Isn’t those fourth-grade low-rank alchemical pills? Is he a fourth-grade low-rank alchemist now?”

Birk put away the bottle and said, ‘He promised he would give me some fourth-grade alchemical pills when he becomes a fourth-grade low-rank alchemist. I thought it was going to take him at least two to three years. Damn, he did it in less than a month. Here he had kept his promise before

he left. Haha. These pills are too important to us who are already a saint.”

“He’s really full of surprises. My, my, fourth-grade low-rank alchemical pills. I don’t think any of the second or third-tier sects have a fourth-grade low-rank alchemist,” Jeanluc said bewilderedly.

Meanwhile, Severin and the group were standing on the flying sword, flying rapidly back to South Link City. By the next evening, they reached South Link City and went back home.

## [Chapter 1586](#)

“We’re finally back. Take a good rest, everyone. We shall meet with the Hall Master of the Lepus Hall tomorrow.”

Seeing how late it was, Severin told the girls to take their rest.

“I told Dad and Mom to prepare dinner for us. They are waiting for us now. Let’s go in and have our dinner.” Diane smiled and walked toward the villa.

In the living room, Maurice, Judith, and the Shanahans were waiting for them.

“Diane! Severin! You guys are finally back. You guys are away for a really long time,’ Megan saw them and welcomed them by standing up.

Diane smiled. “Sofia doesn’t get to go home very often so of course, we must stay there longer. If we didn’t receive news about Lepus Hall, we have no plan to come back now.”

“Come over now. Dinner is ready. Eat it while it’s still warm. William and Felicia greeted him with a smile.

After Severin finished his dinner, he went back to his room to take his shower. After that, he went straight to Diane’s room.

The moment Diane saw Severin standing outside her room, she rolled her eyes at him and closed the door after Severin came inside. “Aren’t you tired of traveling for the last two days? Are you seriously still thinking about that tonight?”

Severin smiled. “Of course. I have been missing you so much because I haven’t slept with you for a long time.”

He took a step forward and wrapped his hands around Diane’s perfect body from the back. As he inhaled the faint fragrance from Diane’s body, the desire to embrace and cuddle with Diane got stronger.

“You are surely a spirited and energizing man!” Diane claimed after feeling the changes in Severin’s body. She blushed and turned around.

Severin looked at Diane’s red lips and could no longer refrain from kissing Diane.

Time passed, and the ambiance of the room gradually became warmer and romantic

When Diane woke up the next morning, Severin was still deep in his sleep. She watched Severin and smiled sweetly. By the time Severin woke up, it was already nine in the morning. He went downstairs and saw Sheila, Sofia, and the others teaching Selene combat techniques in the garden.

Selene saw Severin and ran over happily. “Dad! Dad! I didn’t slack when you were not at home.

Lillie and the rest said I have improved a lot!”

Last night, when Severin came back home, he did not take extra notice of Selene’s attainment.

Now that Selene told him, he was shocked to discover Selene’s current attainment.

“Not bad! You’re a level one warrior king now. Haha. Selene, this is a big surprise!” Severin chuckled.

It was another three months until Selene’s sixth birthday, but she was already a level one warrior king. Surely, her talent was exceptional.

“Supreme Leader, we’re here!”

Suddenly, there was joyful laughter coming from the door. As it turned out, Larry and the rest had arrived.

“Good day, Supreme Leader. My name is Fiona Dudley and I’m the Hall Master of Lepus Hall,” Fiona introduced herself.

This was the first time she met Severin, and she was really very nervous. Without any hesitation, she kneeled with the elders of the Lepus Hall who came along with her.

### [Chapter 1587](#)

“Good day, Supreme Leader!” the elders of the Lepus Hall greeted while kneeling down.

Severin quickly requested them to stand up and said, “We’re a team now so you don’t have to kneel at me.”

Rachel smiled. “Supreme Leader is right. Don’t be so uptight. The Supreme Leader is very kind.”

Fiona was only twenty–three years old, the youngest Hall Master. She smiled embarrassingly. “I’m not used to this situation so I’m really nervous to meet the Supreme Leader for the first time.

Before moving here, we were staying in a small town.”

Severin consoled, “Don’t worry. You will get used to it after a while. Did they tell you that we’re going to Mount Ermonie soon?”

Fiona nodded. “Yes. They told me but my attainment has not reached the required level yet.”

Severin smiled, flipped his hand, and took out two second–grade high–rank alchemical pills.

That’s easy. These two alchemical pills should do the job. Come find me when you have become level nine warrior king and you have full control of the power. I will give you another alchemical pill to help you progress to warrior emperor.”

“Thank you, Supreme Leader!” Fiona accepted the alchemical pills and looked overjoyed. In the past, she could only dream about these alchemical pills, and now Severin actually gave her two.

The elders of the Lepus Hall nearly had their eyes popped out, looking at the alchemical pills.

Severin smiled and took out more second–grade medium–rank alchemical pills. Then he waved

his hand to distribute two alchemical pills to each elder. “Since you guys have lower attainment, these second–grade medium–rank alchemical pills should be enough to help with the progression.

Two pills for each person. Train hard so you can improve your attainment.”

“Thank you very much, Supreme Leader!” They were thrilled and excited that their eyes turned red and watery. Some of them/nearly shed tears thinking just how marvelous and generous their Supreme Leader was.

“Mick, Yidel, Yuka, Nancy, and Bowen, since you guys are level one warrior emperors now, this third–grade low–rank alchemical pill should help with the rest of the progression Train hard”

Severin looked at them and waved his hand to take out more alchemical pills for those people.

+15 BONUS

They looked at each other with a smile and expressed their gratitude.

“Larry, Gracie, Zoheb, you three are level two warrior emperor and Rachel is a level three warrior emperor. So I will give four of you third–grade medium–rank alchemical pills. I hope you will improve more,” Severin said while taking out the respective alchemical pills and giving them to those four people.

“Haha. Thank you, Supreme Leader. I can’t even tell how many times I have said thank you to you for giving me these alchemical pills,” Larry chuckled.

#### [Chapter 1588](#)

Severin smiled back and said, “You’re welcome. I won’t mind if you don’t say thank you. It’s quite exhausting needing to say thank you all the time. So don’t bother in the future. I won’t be angry.”

“Haha!” Fiona chuckled after hearing that.

Luke had been patiently waiting aside, and he thought it was time for him to say something.

Supreme Leader, what about me? Did you forget me?”

Severin waved his hand, and a third–grade high–rank alchemical pill went flying over, hovering in front of Luke. “You’re already a level six warrior emperor so you should use this third–grade high–rank alchemical pill.”

“Haha. Thank... Never mind. I bet you must be tired of hearing us saying thank you.” Luke was going to say thank you, but just as he was about to say it, he stopped and chuckled.

“Alright! Now that we have new team members joining us, it’s time to celebrate like we used to.

Book a restaurant for tonight and we shall celebrate this joyous moment.” Severin smiled while looking at Fiona. “A welcoming dinner to welcome Fiona.”

“That’s not necessary...” Fiona said embarrassingly. Her young and fresh face blushed vehemently.

Once everyone got their alchemical pills, Severin looked at them and took out more bottles. "In every bottle, there are one hundred alchemical pills. They are for the members of the hall. Some of them are second-grade medium-rank or high-rank. I think these are the alchemical pills best suited for them at this moment. Each of you will receive one hundred second-grade medium-rank and one hundred second-grade high-rank alchemical pills."

"No way! There are eleven halls. Two hundred alchemical pills for each hall means that you have prepared twenty-two hundred alchemical pills. That is dope!" Mick exclaimed shockingly, keeping his mouth open for a long time, and his jaw nearly dropped to the floor.

However, what Severin had to say next surprised them even more. With a smile, he said, "I also have many third-grade and fourth-grade alchemical pills. However, the attainment of those members is too low and those alchemical pills are not suitable for them. Anyway, those alchemical pills are more than enough to make Dracodeus Temple the strongest organization."

"My god! Did I hear myself right? You have fourth-grade low-rank alchemical pills too? Does that mean you are a fourth-grade low-rank alchemist now? How awesome is that?"

+15 BONUS

At that moment, Fiona was so shocked. Before she came to South Link City, the other Hall Masters had told her their Supreme Leader was so awesome that no one else could compare to him. It sounded so unrealistic to her at that time. Now that she met him, she realized what they said did not fully describe how insane Severin was.

"Supreme Leader, you're so awesome. We had no idea you had another breakthrough so fast, like the speed of a rocket," Rachel, too, was stunned.

Suddenly, she felt like she was not good enough to be with Severin. GuesSED she could only admire him secretly.

Nancy said, "I'm afraid your uncle-master is going to drop his jaw to the floor when he knows how talented you are in alchemy skills."

Severin smiled bitterly. "Then you guys have to speed up and locate Simia Hall as soon as possible. There's only two months left until the due date. But we only have more than a month left because he told me to depart earlier so I could reach Mount Ermonie before the 15th of August."

Mick frowned. "We have to be there before the 15th of August? Did he say why?"

### [Chapter 1589](#)

Mick did not mean anything when he asked that.

However, Severin thought deeply before answering the question, "To be honest, I really find it very weird. He didn't just say it once but many times. He even said even if I failed to locate every single

one of you or some of you are not level nine warrior king yet, I still need to be at Mount Ermonie before the 15th of August.”

“I’m sure there must be a reason behind this. But I know you are going to find out what’s the reason when you are there on the 15th of August,” Diane said after thinking about it.

Severin could not be bothered to think more about it. He shrugged his shoulder and said, “Rachel, please book the restaurant for us to welcome Lepus Hall. Now we only have Simia Hall left unfound. I hope the Hall Master has reached the requirement attainment when we found him and not just a profound master.”

Larry smiled bitterly after hearing that. “Luckily I’m the first one you found. Or I’m never going to reach the requirement even when you gave me all those alchemical pills to help me.”

Mick smiled too. “You’re right about that. My attainment was really low when you found us.

Fortunately, we are one of the earliest people you found so there was plenty of time for us to improve our attainment. Otherwise, I have no idea how we can meet the requirement in such a short period.”

“Alright. You may leave now. I’ll see all of you at 7 p.m. tonight. Rachel, remember to share the location of the restaurant with everyone once you make the booking,” Severin said while waving his hand.

Rachel smiled. “What do you think of Rising Dragon Restaurant? They are newly opened and a restaurant with five stars reviews. I heard they serve very good food. We were talking about it a while ago and were planning to try it one day. Why don’t we just go here tonight?”

Severin nodded smilingly. “Okay. Then we shall meet at the Rising Dragon Restaurant at 7 p.m. tonight.”

After that, all of the hall masters and the elders of the Lepus Hall left Severin’s place. Instead of returning to her residence, Rachel went to the Rising Dragon Restaurant by herself.

Shortly, she arrived and went to look for the restaurant manager, Arroy. “I want the most.

“Haha. I’m sorry, honey but I just booked that room. Haha!”

+15 BONUS

Just then, a rich kid in a formal suit came walking over with a smile and flaunted himself to Rachel. He was on his way out after booking a room to have dinner that night. There was no expectation of seeing such a beautiful woman talking to the restaurant manager, so he was really feeling lucky.

Rachel looked back and frowned. "Can you please let me have that room? Don't worry. I will pay for all of your expenses tonight."

The rich kid was from the neighboring city. He was here for a holiday and did not know who Rachel was. All he knew now was how stunning Rachel looked. There was not a flaw he could find, and he was mesmerized by her beauty

After being stunned for several seconds, he smiled and said, "Honey, that's easy. All you have to do is spend some time with me. We can know each other more by enjoying our time together in a hotel room. It's easy, isn't it? Haha."

### [Chapter 1590](#)

Surprisingly, Rachel did not know anyone else who dared to talk to her in that way in South Link City. She pulled her face long and said, "Do you know who you are talking to? Have you any idea that you have put yourself in great danger by saying those things to me?"

"Oh, really? I'm Thommy from a first-tier upper-class family of Kensett. Tell me, should I be afraid of you?" Thommy sneered.

In fact, he was a bully in Kensett where he could do anything and have anything he wanted without any repercussions. No one had ever threatened him like Rachel did. Therefore, he was not afraid of Rachel..

"I'm Rachel and I'm never scared of anyone. I don't care if you are from a first-tier upper-class family or even the mayor. I will beat you up if you anger me!" Rachel sneered.

It did not matter if this guy refused to give the room to her. At the most, she could book the other rooms. However, she could not tolerate being bullied or flaunted by this thug.

"What did you say your name is? Rachel? The Hall Master, Rachel?"

As soon as Arroy knew the person Thommy was messing with was Rachel, he reacted. surprisingly.

Rachel nodded and did not say anything else.

Arroy was in shock. Then he asked Rachel to wait for a while and pulled Thommy to the side.

"Mister Thommy, I suggest you better let her have the room. Do you know she would kill you with one slap by talking to her in that way? And your parents won't dare to do anything or take revenge for you if she killed you. I'm afraid they'll have to kneel before her when they know who she is,"

Arroy wiped off the sweat on his forehead and said with fear.

Honestly speaking, Thommy knew Arroy must understand the situation in South Link City better than him because he was hired to be a restaurant manager of a five–star restaurant.

He frowned and asked, “What’s the deal with her?”

“She’s the Hall Master of Serpent Hall. There are eleven halls that we should be wary of and those halls are named after the twelve zodiac signs. Serpent Hall is one of them. Most importantly, these halls are under the governor of the South County. I heard he’s assembling all the twelve

+15 BONUS

“So far, there are only eleven halls but they have nearly ninety thousand people. Those people are highly trained and skilled fighters with high attainments. I don’t know if this is true or not. But I heard all of their Hall Masters are warrior emperors.

By the time Arroy finished talking, his forehead was full of sweat again. He wiped them off and secretly looked at Rachel. “My boss had explicitly given an instruction that we are not allowed to offend any of the members of the Dracodeus Temple who come here. We have to offer the best service available.”

“This is f\*cking scary!” Thommy gulped fearfully.

If there were eleven halls already, that meant there were at least eleven warrior emperors in South Link City. The exact same attainment stage as the commanders of Dracodom.

Once Thommy realized it, he started to sweat, just like Arroy.

“Arroy, thank you for the heads up. I can’t imagine what I just did to her. I mean she could have slapped me and killed me. I would have died for nothing. If my parents did not know what I had gotten them into and decided to take revenge for me, I would be the cause of their death.”

His heart pounded heavily because he was scared of the things he said to Rachel just now.
