

Read Novel Life After Prison Chapter 1931

Life After Prison Chapter 1931-Not only did Severin have the Divine Constitution, but he was also well-gifted in the art of Alchemy similar to Emery. Raymond trusted and firmly believed one day Severin would make his name well known to every household in Southsky.

At least, a powerful man who could become a great leader.

There were six core disciples in the Grandiuno Sect. Other than Severin, the other five were very powerful too. Karl, the strongest of them was now a paragon. The second on the list was Spencer Yade. He possessed the True Dragon Constitution which belonged to the Element Constitution group. His body was as tough as the dragon. He had a fighting spirit as cruel as the dragon too.

Next on the list was Riley Boyer with a Nine Yang Body Constitution. He could punch with the impact of the sun. Any attacks were pointless and useless to him.

Even when Raymond was now a level nine supreme saint and not too far from advancing to the paragon, he had yet to learn who would be the last one standing between the fight of the core disciples. Not to mention getting on the list to go to the Grandiuno Sacred Land in Midland.

However, he saw an opportunity now as Severin became the sixth member of the original five core disciples and became a threat to the original core disciples.

After thinking deeply, he waved his hand and his spatial ring sparkled.

Subsequently, a red color spiritual fruit in the size of a thumb appeared in his hand. Although it was small in size, the spiritual fruit gave out a very thick medicinal smell. With just one or two smells of the spiritual fruit, even the supreme saint would feel the spiritual energy in his body tumbling. His limbs would be filled with strength. A very rare spiritual fruit indeed it was.

He looked at the sixth-grade spiritual fruit and passed it to his two lackeys.

“Here, take this to junior brother Severin at Pearl Light Isle.” The lackeys were shocked to hear that as they knew how rare the spiritual fruit was.

The thinner guy asked shockingly, “Sir, you had gone through a lot of trouble to get this Ruby Spiritual Fruit in the Artic Heights. Have you forgotten it’s a sixth– grade spiritual fruit? How could you just give it out as a gift?”

Raymond could tell his lackey was feeling pity and tried to advise him. Yet, he smiled and said, “Why? I think it’s worth it.” He sounded very determined and his lackeys were at a loss for words after hearing that.

Although the best way to gain a good impression was when the person needed help the most, it could be the icing on the cake to give Severin a present now since Severin was on the rise.

“Yes, sir!” All of a sudden, the muscular lackey seemed to understand what Raymond was trying to do. He cupped his hand and took the Ruby Spiritual Fruit.

As they turned around and left the hall, they flew into the air to head towards the Pearl Light Isle.

The news about Severin surpassing Emery on the Top Alchemist ranking and becoming the third on the list was all over the sect. In fact, it created a huge commotion.

Meanwhile, the First Mountain was overseeing a sea of clouds. At the peak of the mountain, an extravagant and glorious palace was built.

Oskar was sitting in the middle and the top wearing his green robe and listening to the elders reporting to him. As he listened, he slowly combed his mustache.

All the elders had the attainment of the paragon. Among them, was someone Severin very familiar with, Ferland.

After the end of the sacred lake, he brought back all the newly recruited members to the sect. With that, he successfully advanced to be a paragon.

Promoted from outer elder to inner elder.

Just then, an elder said obsequiously, “Mister Okar, I and others just heard when we passed Sixth.

Mountain that our sect's sixth core disciple, Severin, ranked third on the Top Alchemist Ranking list. He also passed the fifth level of Alchemy Tower and entered the sixth floor."

Life After Prison Chapter 1932-Knowing that it was about Severin, Oskar could not help but ask curiously, "Oh?

What happened exactly?" As the top combatant of the Grandiuno Sect, he had been in seclusion during that period and did not know much about the affairs within the sect.

Normally, all matters in the sect—be it large and small—were handled by the elders. It would be impossible for Oskar to care about every little detail, so naturally he did not know much about what Severin was doing in Alchemy Tower.

Upon hearing that, several elders immediately recounted to him how Severin passed one level after another in the Alchemy Tower. After that, an elder sighed and said, "It seems Grandiuno Sect is going to have another genius!" After hearing the whole story, Oskar was so happy that he could not help but smile. The reason why Severin was recruited into the sect was because he had top notch qualifications such as possessing Divine Constitution. He really did not expect that Severin not only had Divine Constitution, but also had a good talent for alchemy!

Previously, when he made an exception and granted Severin the status of the sixth core disciple, he faced opposition from many elders in the sect. They said that in the tens of thousands of years since the Grandiuno Sect was founded, there had never been a sixth core disciple.

The squabbling annoyed him so much that he finally used the excuse of going into retreat to escape from 1. it. Recalling the events, Oskar smiled and had a look of relief in his eyes.

He swept his gaze across the several elders in the hall with a smile, taking in the expressions of everyone, and then said serenely, "It's a good thing I made an exception to give Severin the status of a core disciple to recruit him into Grandiuno Sect. Otherwise, it will be another big loss for Grandiuno Sect if the Deifirm Sect, Purevoid Sect and other sects get him." As if he had thought of something, he raised his hand and a porcelain bottle appeared out of thin air in front of him.

Oskar formed his hand into claws, and used his spiritual energy to maneuver the porcelain bottle to where Ferland was standing. "Mister Ferland, please bring this Crystal Spring Pill to Pearl Light Isle as my reward for Severin!" The sect encouraged its disciples to break through the levels in the Alchemy Tower. After all, the Alchemy Tower was established by the fifth-generation sect master of Grandiuno Sect, and it contained a complete inheritance of alchemy! In the past, there were only a few people in the sect who could be considered as alchemy geniuses, including Celeste and Emery. Thus, Oskar wanted to encourage Severin by giving him a reward.

When Ferland—who was not far away from Oskar—heard that, he first raised his hand to take the alchemical pill, then nodded. "Okay, Mister Oskar!" After saying that, he shot out of the hall in a brilliant rainbow light.

In Pearl Light Isle, Severin, who had returned to the island, first gathered with Wuhlricht, the Grand Elder and others, and learned that Diane and the girls were still in retreat. He used his divine sense to scan the whole area and found that in several training rooms not far from where he was, Diane and Sheila had all broken through to level two supreme saint.

The girls were full of energy and had nearly a hundred meridian points opened.

It seemed that it would not take long for them to be able to hit the level three supreme saint, He learned from two great elders that the girls had rarely left the training rooms in half a year, prompting him to say with a bitter smile, "They're really training hard, aren't they?"
