

## Read Novel Life After Prison Chapter 1936

Life After Prison Chapter 1936-Even if Severin succeeded in refining the Prima Spirit Pill the first time, there was no guarantee he would succeed the second time. Moreover, the Prima Spirit Pill was a sixth-grade low-rank alchemical pill, which only had an increasing effect on the primal spirit. In other words, it had little effect on pushing breakthroughs in cultivation.

Severin fired up the cauldron again. After refining all the remaining herbs into Prima Spirit Pill, he finally got more than twenty pills. Not only that, he was able to increase the success rate of Prima Spirit Pill to a hundred percent. He had finally leveled-up to a sixth-grade alchemist!

“Phew! I finally made a breakthrough.” He happily wiped the sweat from his forehead.

The sixth-grade alchemist’s understanding of medicinal properties far exceeded that of the previous fifth-grade alchemist. He could finally try to refine the other sixth grade alchemical pills!

After resting for half a day, and after the spiritual energy in his energy core was filled, Severin set out to search for herbs in the square where the Alchemy Tower was located.

This time he chose another sixth-grade alchemical pill, the Crystal Spring Pill! It was also Grandiuno Sect’s signature alchemical pill, which allowed those on the supreme saint level to improve their cultivation.

The Crystal Spring Pill was a sixth-grade medium-rank alchemical pill. It was much more difficult to refine than the Prima Spirit Pill, and the herbs required were even more complicated, including not only rare thousand-year-old herbs, but also the blood of spirit beasts.

Due to his extraordinary status as a core disciple and his recent reputation, Severin quickly found the herbs he was looking for. After finding enough ingredients for seven or eight alchemical pills, he returned directly to Pearl Light Isle to continue refining the pills.

Thanks to the experience accumulated while simulating alchemy in the Alchemy Tower, Severin was able to refine the Crystal Spring Pill on his first try

Life After Prison Chapter 1937-At that moment, Severin's physical body was comparable to that of a ferocious wild beast, and the power of his energy was like a dragon. He was like a giant alchemical pill being refined by heaven and earth!

It was no exaggeration to say that Severin could smash a mountain with his physical strength alone! As for his primal spirit, it was slightly inferior to his physical body. It could only unleash tens of miles outward and nine inches inward, but it was still far superior to cultivators of the same level.

According to what he knew, an ordinary supreme saint cultivator could only unleash his primal spirit which was born from the fusion of souls—ten miles outward and five inches inward.

Even a level four supreme saint cultivator could only use his divine sense not more than fifteen miles, whereas Severin's primal spirit was already at nine inches. It was like a mini humanoid sitting where his third eye was.

As for spiritual energy, due to his experience in alchemy, the social energy in his energy core would become purer every time he refined pills again after his spiritual energy had dried up!

All in all, Severin's foundation was extremely solid. He only needed to open up his meridian points, and when they were all opened, he would be able to create a bridge between heaven and earth!

After shaking his head to clear his mind, Severin sat cross-legged, took out a Crystal Spring Pill, and put it into his mouth. When the alchemical pill entered his mouth, it immediately turned into the purest herb power that poured into his limbs and bones.

Sensing the power coursing through his body, he immediately started meditating and started practicing the techniques laid out in the Grandiuno Treasured Notes.

At the same time, his primal spirit burst out, and he used his divine sense to control the herb power to stimulate the meridian points around his body.

Through his divine sense, Severin saw the meridian points in his body, which were all shining brilliantly. Immediately afterwards, his meridian points were quickly filled with the surging spiritual energy of heaven.

and earth, and continued to expand and grow as a deep aura emanated from them.

A few seconds later, Severin's aura became even more condensed, and he opened up the one hundred.

Life After Prison Chapter 1938-Severin stood up slowly after the light rays from his eyes dissipated. He gently clenched his fists, and instantly his whole body crackled. The energy in his body vibrated unconsciously, causing the blood in his veins to gurgle like hot running lava.

He felt that his power was several times stronger than before. In fact, he would be able to kill Shyam instantly with just one move at his cultivation level.

After taking stock of the changes brought about by his cultivation breakthrough, Severin could not help but laugh. "I'm finally a level five supreme saint!" During this retreat, not only did he break through to the sixth-grade alchemist, but his cultivation level also increased. How could he not feel happy?

In fact, even though he was only a level five supreme saint, Severin was confident he could win against a level seven or even a level eight supreme saint with the help of his Divine Constitution, as well as the spiritual treasure Scarletsky Sword and the top-level divine skill Grandiuno Treasured Notes.

He would need more than that to make a name for himself in Grandiuno Sect, but at least he would be able to protect all his wives. He knew many of the elite disciples in Grandiuno Sect were secretly dissatisfied with him because of how low his cultivation level was when he first joined the sect. Not to mention, Oskar decided to break precedent by making him a core disciple.

He had his suspicions confirmed when Shyam challenged him to a fight later on.

However, there would be fewer challenges now that he had leveled up to level five supreme saint.

Severin was in a great mood. After collecting his thoughts, he opened the door and walked out. He then used his divine sense to sweep the entire Pearl Light Isle, and discovered that Diane and the others had actually left the training rooms.

Unlike the elders, Diane and the others did not like playing chess. At that moment, there were admiring the flowers in the back garden. With Severin's cultivation level, he could tell at a glance that all the girls had broken through to the level three supreme saint.

Even a little girl like Selene, after practicing hard for the past six months, had unknowingly broken through to level nine royal saint, and was only half a step away from breaking through to the supreme saint realm.

When Severin came out of his retreat, he felt even happier when he saw this.

He immediately unleashed his aura and went straight to the back garden to meet with Diane and the others.

Gilda—who was playing with Selene—suddenly sensed Severin's aura and said to the other girls, "Severin has come out of his retreat!"<sup>12</sup> Severin appeared before them as soon as she finished speaking. Diane's face was full of surprise and joy as she rushed toward Severin. "Severin, it's really you!" Sheila looked as charming as a fairy in her blue dress. Her eyes immediately lit up when she saw Severin.

"Severin, you've made a breakthrough, haven't you?" she asked happily. The women immediately gathered around him, and started talking at the same time.

Severin was fine with the noise. After all, he had not seen them for a long time.

Either he was in retreat, or the women were in retreat. Rarely did he have time to be as leisurely and relaxed as he was at that moment.

He took Gilda and Diane's arms, sat down on the rocking chair next to them, and said with a smile, "I just broke through to level five supreme saint." There was no reason to hide his breakthrough from his wives. The women were not surprised at all to learn that Severin had achieved a breakthrough in cultivation. After all, Severin was the most talented amongst them all. He was already a level three supreme saint when he was in the sacred lake.

Severin felt a little emotional as he gazed at his wives, who he had not seen for a long time. He immediately took out the Prima Spirit Pill and Crystal Spring Pill that he had made and handed them out.

Life After Prison Chapter 1939-After handing out the alchemical pills to Diane and others, Severin smiled and said, "You can use these alchemical pills to assist in your training. Let me know if you need more." At that point, he was a sixth-grade medium-rank alchemist. Even though the success rate of refining a Crysta Spring Pill was only fifty percent, there was still enough for his family to use.

Looking at the alchemical pills Severin took out, although it was only the size of a thumb, it exuded a strong herb fragrance. The emerald green pills had a few thin golden lines running through it as if it was completely natural. It was also shining brilliantly with a supernatural aura.

Gilda and the others were level three supreme saints, and they had seen everything under the sun after staying at Gradiuno Sect for so long. The moment Severin took out the alchemical pills, they instantly recognized what pills they were!

Diane did not take the alchemical pill, but said with a concerned look on her face, "Severin, are you sure.

you want to give us the alchemical pills? Don't you need them for your cultivation?" Gilda frowned slightly and nodded in agreement with what Diane said. She looked at Severin. "She's right. We're happy that you care about us, but the Crystal Spring Pills are just too valuable. You should use them for your cultivation instead!" Sheila and Sofia did not say anything, but the fact that they did not take the pills said it all. As his wives and supreme saint cultivators themselves, they naturally knew the preciousness of this Crystal Spring Pill. There were more than twenty Crystal Spring Pills floating in front of them at that moment, which they knew was everything Severin had.

Severin could not help but laugh out loud when he saw the expressions on their faces. He knew that his wives had misunderstood.

Crystal Spring Pill was indeed very precious among elite disciples. In fact, most elite disciples would not be able to get their hands on one. Even core disciples could only get one pill per month at most.

When Severin first joined Grandiuno, he was given ten by Oskar because of his outstanding talent. Later, when he reached the third place in the Top Alchemist ranking, Oskar sent Ferland to give him a few more. Severin felt warm and fuzzy when he saw how much all of his wives cared about him. Thus, he decided to stop teasing them.

He laughed heartily. "I happened to break through and become a sixth-grade alchemist a few days ago. These Prima Spirit Pills and Crystal Spring Pills are all made by me personally, so feel free to use them!"

Before the girls could react, he distributed the alchemical pills floating in front of him to Gilda and the girls all looked shocked, then excited and happy.

Gilda's face was full of joy, as if she was the one who became a sixth-grade alchemist. "Severin, have you really become a sixth-grade alchemist?" Diane, however, was skeptical, and there was a bit of anger in her almond-shaped eyes. She raised her little fist Severin and said in mock fierceness, "You better not be lying just to get us to take the alchemical pills!" "Of course I'm not lying!" Severin did not know whether to laugh or cry. He was telling the truth and yet they did not seem to believe him!

Faced with the doubtful and curious looks of his wives, he had no choice but to slowly recount his experience in the Alchemy Tower. After learning the whole story, they finally believed him, because when they came out of their retreat, the Great Elder and Wuhlrichi had told them about Severin's adventures in the Alchemy Tower.

Life After Prison Chapter 1940-Selene looked at Severin with stars in her eyes after listening to the story. She could not hide the pride she felt toward her father!

"Wow, Daddy! You're so awesome!" she exclaimed before kissing Severin on the cheek.

Severin patted Selene's head with a smile. "You're also awesome, sweetheart."

"You are now a level nine royal saint, and I'm sure you'll be able to break through to the realm of supreme saint in no time!" A radiant smile immediately appeared on Selene's face when she heard that. She looked even cuter with a snot bubble coming out of her nose.

Severin simply smiled and stroked Selene's head. Sheila did not know whether to laugh or cry at the father and daughter hyping each other up. Recalling the past, she only felt that the gap between her and Severin was getting wider and wider.

“Severin, I feel that we are getting farther and farther away from you, and it’s difficult to catch up.” she said with a sigh.

“Yes, it took us more than half a year before we finally broke through. But it took you no time at all to become a sixth–grade alchemist!” said Sofia gently with a smile.

Diane fully agreed with what the two sisters said. She picked up an alchemical pill, looked at it, and then said, “It all feels like a dream.” Gilda immediately jumped to Severin’s defense. She glanced at Diane, Sheila, Sofia with her face hidden, and then said with a sweet smile, “That’s enough, ladies. It’s a good thing that Severin has become stronger.” The girls nodded when they heard this. When they left Skyblue Sect, the girls all knew that Severin had broken through to fifth–grade alchemist.

Although they were not alchemists, they were well aware that there were many difficulties in the path of alchemy. In fact, the bottlenecks one would have to face were similar to those in the path of cultivation.

Now that Severin had become a sixth–grade alchemist, his status in the Grandiuno Sect would definitely increase, which would also be beneficial to them. Besides, they were so happy for him that they had no time to hold a grudge against him.

After lovingly squeezing Selene’s little face, Severin smiled and said to everyone, “How about we have a little party in the evening? It’s not that often we are all out of retreat at the same time.” Since entering the Grandiuno Sect, either he has been training in seclusion or Diane and the girls had +15 BONUS two fingers.

The girls nodded in agreement. Especially when Selene heard that there was going to be a party, she clapped her little hands happily. “Yay. Daddy, Mommy, it’s been so long since I had barbecue!” Severin could not help but smile. He stood up and went to buy the ingredients for the barbecue. Not long after he came back, he lit a fire in the yard and started grilling the food.

Wuhricht and the other Great Elders were also brought over to work as free labor. Severin had not seen them for a long time either. During the party, everyone drank spiritual wine and took a break from their busy schedule to get together.

It was not until late at night that the party ended. After he had a shower, Severin went straight to Gilda's room, and soon passionate moanings could be heard coming out of it..
