Life After Prison Chapter 2031-Radyn who just got blasted away had a horrible look on his face after hearing how Uzair insulted him. He tried to get up but his body started aching painfully and started gasping heavily.

He noticed those disciples from the Deifirm Sect were looking at him ferociously.

Then he looked at his fellow members who were also badly injured. Clenching his fist tightly, he was feeling reluctant to accept the reality and the current situation.

Uzair saw the look on Radyn's face and sneered. "What's wrong? Can't accept the reality?" Without a doubt, he knew Radyn was a member of the Grandiuno Sect. Even so, he was not going to give.

up when it was related to the treasure in this place.

At first, he only planned to chase Radyn and his friends away but he changed his mind when he saw the look on Radyn's face. With his squinted eyes, he said angrily, "Let me be straight. If you're looking for someone to blame, then you can blame it on Severin for bullying my junior brother! Otherwise, I actually don't mind sharing this treasure with you." Just as that was said, everyone heard a wave of laughter.

"Do you know what you're saying?" A rainbow appeared from the horizon and was heading towards Radyn. In a short while, they could see Severin was in the middle of the rainbow.

Everyone was shocked to see Severin arriving at the scene. Radyn and the others were feeling relieved after having a close brush with death. Yet, the other members of the Deifirm Sect felt the opposite. They were scared. Unlike Uzair who was a level eight supreme saint, the strongest of them was a level four supreme saint. Obviously, they would be scared to face Severin who was a core disciple.

Then again, Uzair had a deadpan expression as he looked at Severin in disdain.

Once Severin arrived at the area that was being covered by the formation technique, he stood beside Radyn to inspect how badly injured Radyn and the others were. Luckily, their lives were not in danger despite the severe injuries.

He took out numerous healing pills and handed them to Radyn and the others.

“Take these and try to heal 1. up. Leave them to me.” Radyn nodded. His face was as pale as snow and there was a blood stain at the corner of his mouth. He was relieved the moment he saw Severin arrive.

When they were at the Sword Tomb, he had witnessed how powerful Severin was. The ray from Severin’s 1/2 +15 BONUS members of the Deifirm Sect intruding and taking over the treasure of this place.

However, he did not dare to say anything because Uzair was so much stronger than him. He was afraid his actions would put his members at risk.

Yet, everything changed now since Severin was here.

“Thank you, Severin,” Radyn said and cupped his hand at Severin. Then he quickly distributed the healing pills.

Once that was settled, Severin looked at Uzair with his pair of widened eyes as if he could create electricity to shock the void.

In the meantime, Uzair continued to look at Severin while standing together with the other members of the Deifirm Sect. Both of them locked eyes with each other. It felt like there was a virtual battle happening in the air where two powerful forces colluded with each other and made the ambiance tense.

Severin was the first one to speak. “You have injured my fellow members! Get ready to face the consequences!” Today’s Bonus Offer

Life After Prison Chapter 2032-At this moment, Severin had no idea where Raymond and Celeste were. As one of the leaders, he was responsible for standing up for the other members when they were bullied.

Uzair remained calm and felt he was superior to Severin. There was a reason for that. As the second strongest prodigy in the Deifirm Sect, he possessed

the Thunderbolt Constitution and it was normal for him to defeat and kill those who had higher attainment than him. Although Severin was very famous now, he reckoned Severin must be a level five supreme saint because Severin had only joined the Grandiuno Sect six months ago.

Uzair sneered and looked down on Severin. "Oh? What kind of consequences are you thinking of?" Severin took a step forward and shouted sternly, "Surrender the ones who injured my junior brothers to me!" His deep voice swept away the place with a strong wave and rumbled like thunder.

Despite that, Uzair remained calm. He smiled and shook his head. "I can see you are a brave one. Too bad, you are an idiot without a brain to think with." Although he could not tell Severin's attainment, he was not easily scared off by Severin because he was a prodigy. Moreover, he had promised Thorold to teach Severin a lesson.

A member of the Deifirm Sect decided to join the conversation. He was rather short in height. Yet, that did not stop him from having the courage to insult Severin. "Who the hell do you think you are? Do you have any idea who you are speaking with? I heard that you are the sixth core disciples of the Grandiuno Sect. Well, I don't see what's so special about you." By the time, he said his last word. A giant hand appeared in the air and smashed him into mush with blood splattering everywhere. It caught everyone by surprise because they did not expect Severin to attack without warning.

"How dare you kill him?" Finally, Uzair could not keep his cool anymore and said angrily, "You're the first one who dared to kill my friends in front of me!" He was completely angered by the fact that Severin had ignored him and killed his friends. Gradually, his expression looked terrible. Radyn and the others were starting to feel nervous and panicked while standing behind Severin.

"Oh no!" "Uzair is a well-known prodigy of the Deifirm Sect. He killed a level nine supreme saint when he was a 1/2 +15 BONUS "We're doom! Severin is too reckless. We're all going to die now that he has made Uzair angry!" Other than Severin's wives, no one knew Severin's real attainment. However, the members of the Grandiuno Sect heard Severin defeat Shyam, the level six supreme saint who was also on the Prodigy Ranking. That did not give them the confidence that Severin could defeat Uzair who was a level eight supreme saint.

Severin could tell Radyn and the others were panicking. To ease their tension, he unleashed his level seven supreme saint power which covered a radius of ten miles. The members of the Deifirm Sect were shocked to feel how terrifying the power was.

Severin glared at Uzair. “Hand over the ones who wounded my junior brother!” Uzair could no longer keep his cool. He was shocked and unable to accept the reality. “You’re are level seven supreme saint?!”

Life After Prison Chapter 2033-Uzair was shocked to feel the power Severin unleashed. Based on his assumption, he thought it was shocking for Severin to become a level five supreme saint. He knew Severin was gifted but it was only six months since Severin joined the Grandiuno Sext. And he was wrong. Severin was much more powerful than what he assumed.

At this point, Uzair finally realized he had underestimated Severin and how powerful a person could be when he possessed the Divine Constitution. Then again, that was not enough to scare Uzair off. As a level eight supreme saint, he had the confidence to kill a level nine supreme saint by giving everything he got in a battle. Thus, how could a prodigy like him be afraid of Severin?

Uzair took a deep breath and said calmly, “Level seven supreme saint... I had underestimated you.” All of a sudden, silver-colored runes appeared on his face. His body was making huge rumbling thunder sounds. Subsequently, his pupils became the shape of a thunderbolt. Making him look like he was the master of Thunderbolt and had total control of the Thunderbolt.

Next, it was his turn to unleash his power at Severin and the coverage area was getting bigger and bigger.

Severin felt it but did not back down. He used the light to create a shield around his body to stop the power of the thunderbolt from affecting him and just stood there relaxingly without moving.

Uzair was angry to see that. The runes on his body sparkled again. This time he did not hold back and unleashed all the power of the level eight supreme saint all over the place.

Thunder and lightning started appearing through the abode where there were many different weird phenomena occurring in different parts of the the sky. Dark clouds were everywhere and the sun was blocked.

All the cultivators in the affected area sensed it. All of them simultaneously looked toward the direction where Uzair was.

Many miles away, the prodigy of the Gahrns, Sian Gahrn had just killed a beast with the attainment equivalent to a level six supreme saint. He furrowed his brows when he saw the sky darkened, filled with dark clouds, and thunder and lightning appeared.

“Is it Uzair? Is he having a fight with someone?” Sian quickly rushed the other members of his family to head toward Uzair’s direction to find out what was happening, At the same time, Tobias Steele was passing through a flatland around a hundred miles away from Severin looking for an opportunity. Suddenly, he stopped and looked at the darkening sky feeling 1/2 power.

+15 BONUS “Violet Thunderbo, a lightning–based technique from the Thunderbolt Constitution. It seems like Uzair is in trouble.” He carefully searched for the direction where the power originated from. With a thought, he moved in a flash and disappeared from the flatland.

Life After Prison Chapter 2034-Uzair sneered while having thunderbolts appearing around him, continued to look at Severin who was not intimidated by him, and felt pleased. From how he saw it, Severin was just forcing himself to remain calm when he must be panicking.

Uzair continued to unleash his power which shocked the cultivators near the vicinity. All of them quickly headed toward the forbidden area. Once they reached the area, they found out the reason behind the conflict between Severin and Uzair.

“Gosh, Uzair’s power is so terrifying!” “As expected from the prodigy of the Deifirm Sect. He has really very powerful lightning–based techniques!

” “I think Severin is finished. Uzair is very powerful. That is no way he’s going to let Severin walk out of here alive!” “But Severin is the core disciple of the Grandiuno Sect. Is Uzair really going to kill Severin?” The cultivators quickly started to analyze the situation when they arrived.

In the meantime, the light around Severin did not change and continued to stay sturdy. The insanely powerful thunderbolt continued to attack him. Albeit, it did not create even a single scratch on the shield.

It merely created a scratching sound from the collision. However, he noticed Radyn and the others could not stand it any longer. With a thought, he maneuvered his spirit energy by waving his hand to create a shield to cover and protect them.

“What a waste of time!” Uzair sneered and commented after seeing what Severin did.

Then he raised his hand and clenched his hand into a ball in the sky. Suddenly, a thunder spear appeared in his hand. When it finished forming, he threw it at Severin. The spear flew out while making shrieking sounds.

Radyn and the other saw it and exclaimed, “Severin! Watch out!” In fact, Severin did not need them to inform him because he was aware of it.

When the thunder spear was formed, he put his index finger and middle finger together to create a sword-like and pointed at Uzair.

Then a sword the size of a millstone flew out to get head-on with the thunder spear. The after-shock of the collision went as far as nearly one mile.

Uzair was quite surprised to see Severin was strong enough to defeat his attack.

“So this is how powerful a person with a Divine Constitution is. Interesting.”  
1/2 +15 BONUS After that, he did not attack anymore. The thunder spear was just an attempt to test Severin. He continued to glare at Severin and unleashed his power to create more thunderbolts. Same as Uzair, Severin also did not make any moves. He continued to stand where he was, like a huge mountain.

While both of them continued to fight each other by unleashing their powers, a light sparkled in the sky.

Followed by a war horse riding on a thunder in the speed of lightning. The horse looked so mighty.

Lightning flashed everywhere it was.

Sian was riding on it with a golden spear in his hand while looking down from the sky to see what was happening. When he saw Uzair and Severin fighting each other, he stopped his horse from going further.

“I got here in time!” claimed Sian.

Life After Prison Chapter 2035-When Uzair unleashed his power, Sian felt it from several miles away. Sian guessed someone must have messed with Uzair or Uzair must have found a treasure but someone was trying to take it away from him. That was the only explanation for why Uzair was so angry.

Once Sian realized that he quickly headed over. And it turned out the way he guessed. His eyes sparked as he watched Severin and Uzair facing off each other and sensed the level seven supreme saint aura from Severin.

Before he entered here, his elder had informed him about the Grandiuno Sect appointed Severin as the sixth core disciple which was a special case in the history of the Grandiuno Sect. However, he did not think Severin was really as strong as the elder said at that time. Now that he saw Severin with his own

eyes, he realized he was wrong to underestimate Severin.

“How did he reach level seven supreme saint after just joining the Grandiuno Sect for six months? That’s even faster than the first core disciple of the Grandiuno Sect, Karl!” Sian exclaimed shockingly after sensing the attainment Severin was emitting.

According to his source, Karl took one year to become a level six supreme saint after one year of joining the Grandiuno Sect. Thus, Sian was really shocked to see Severin actually progress faster than Karl. He took a deep breath and calmed himself down. Then he looked over to the hill with

formation. Through the fog, he saw sparkles which suggested there could be treasure hidden in there and vaguely a white- colored shape herb.

After looking at and inspecting the forbidden area, he looked away because by now, he confirmed there was a hidden treasure. In the meantime, Severin and Uzair were feeling more intense than before because of the arrival of Sian. They quickly used their divine sense to stay on alert.

The others who saw Sian started to discuss.

“That’s the prodigy from the Gahrns, Sian Gahrn. Why is he here?” “Damn it! This treasure belongs to us! Why do Severin and Sian come here and try to rob it from us?” Sian heard that and quickly cupped his hand at Severin and Uzair. He acted as if he was very close to them.

“Haha. What a coincidence to meet both of you here. I was attracted here because I sensed some treasure. This must be faith!” As he was about to instruct his war horse to land on the ground, he turned his head to look in the southeast direction. Suddenly, a golden color beam was shooting through the air and appeared near him.

the young man, he was shocked. The young man was none other than the prodigy just like Sian, Tobias Steele, As Tobias arrived, he looked at Sian and said with a friendly smile, “Hey, Uzair, why are you so angry? I sensed that you just used your lightning–based technique, the Violet Thunder Struck.” After that, he continued to hover in the air with the intention of enjoying the fight between Severin and Uzair. His arrival had only caused the disciples of the Grandiuno Sect and Deifirm Sect to tense up again. Disciples from both sects secretly sighed deeply after seeing how the situation became even worse than before. However, Uzair did not pay any attention to what Tobias said.

Life After Prison Chapter 2036-Thunderbolts continued to linger around Uzair while he glared at Severin and kept on unleashing a powerful aura to crush Severin. The fact that Severin killed his friend while he was there annoyed and angered him. As a prodigy, he felt he was ashamed and humiliated. Now

that it was Severin's turn to protect his members by shielding them with his spiritual energy, Uzair found it amusing and funny.

"I don't care who you are! You have to pay for the consequences of killing a member of the Deifirm Sect!" With that said, the thunderstorms became more violent. With him in the center of the storm, thunder spears were formed and were launched at Severin.

Despite that, Severin remained where he was without moving. Numerous thunder spears reached and attacked him. With a thought, the light from his body burst out with terrifying power. After the last attack, the space around them started to become unstable. A strong wind blew across the forbidden area. The space started to twist and explode because of the high pressure. The energy from the explosion caused a chain reaction.

Severin was unharmed from the attack. It only made Sian feeling more angry.

"Let's see how long can you last," he let out a peculiar-looking grin.

The runes on his face deepened as a result and nearly penetrated his blood.

Immediately, a bright lightning appeared around his body. Several feet long thunder dragons were formed sweeping the area with terrifying auras charging towards Severin.

Same as before, Severin remained still. When the thunder dragon reached him, he stomped the ground with his feet to exert force. The spiritual energy around his body condensed as he urged the spiritual energy of heaven and earth.

Drawing a sun with his fists, he illuminated the sky and ruthlessly smashed toward those incoming thunder dragons! The True-Sun Fist was launched and each punch killed one thunder dragon at a time.

The destruction of the Thunder Dragon caused Uzair to suffer from multiple backlash and stumbled two steps backward. Seeing how the attack was intercepted again, he felt gloomier than before with a smear of killing intent becoming more obvious.

What a surprise to him that Severin actually had the ability to inflict a small damage on him. Thousand of thoughts flashed in his head while he tried to

find the best way to curse Severin as the rage controlled him while he continued to give Severin a deadly glare.

All the while, Severin had only one expression on his face, looking calm. It was Initially taken by the Deifirm Sect's disciples as bravado, the foolishness of the Ignorant. However, after the last attacks, they 1/2 +15 BONUS Sian and Tobias who just arrived to witness that were shocked. Sian widened his eyes and then squinted to try to look at Severin more closely. He murmured, "I'm afraid he is probably as gifted and strong as Karl The fact that a level seven supreme saint could actually make Uzair, the complete-stage level eight supreme saint took two steps back.

Sian and Tobias asked themselves in their heart and were not sure if they could achieve what Severin did.

Life After Prison Chapter 2037-At the same time, Uzair stashed away his anger and sneered after stumbling two steps backward. Subsequently, he continued to look at Severin with a lofty expression, "It looks like you have made up your mind to make us, the Deifirm Sect, your enemy." As that was said, he silently withdrew his aura. As the radiance of divine aura on his body darkened, the runes on his face disappeared too. However, it only made him look more terrifying.

Severin saw it and sneered. "You gotta pay the price for injuring the Grandiuno Sect's disciples, don't you?" According to the information from Radyn, they were the first party to discover this forbidden area and the hidden treasure. Then the members from the Deifirm Sect intruded and claimed it as their territory.

That was not all. Uzair even beat Radyn and caused serious injury to him. The other disciples were also injured quite severely. Although Severin provided them the healing pills, it would take quite some time for them to fully recover.

As one of the leaders of the three core disciples, Severin was not ready to stand by the side and watch as his fellow members were being injured by

outsiders for no reason. More importantly, it was imperative for him to take ownership of the hidden treasure in this forbidden area.

Uzair heard it and he had a gloomy and horrifying expression on his face. He clenched his fist tightly and wanted so badly to kill Severin with a punch. Yet, he held back in the end, mainly because Sian and Tobias were there too.

If he engaged Severin in a fight, it could possibly benefit Sian and Tobias. He did not want to see Sian and Tobias be the last ones laughing in the end. Both of them were not ordinary people as they were the popular known prodigy of Southsky.

If he fought with Severin and ended up consuming all of his spiritual energy, it would be difficult and near impossible to defeat Sian and Tobias when the restraints of the treasure broke off later. Thus, he purposely restrained himself from killing Severin and turned to threaten and deter Severin. He got carried away underestimated Severin and let Severin get the upper hand. However, since the herb was about to mature, he had to restrain himself to be able to compete for the herb later.

With an indifferent expression, Uzair made up his mind and had a rough estimation of Severin's strength after the last attack. In order to kill Severin, he would be required to use every last bit of his power.

As he came up with the conclusion, he felt more furious than ever. He had underestimated Severin because of how short Severin had just joined the Grandiuno Sect. Yet, the truth had slapped him in the face. Being a proud person, he felt humiliated. However, the herb was about to mature and he had anticipated a rough fight with Sian and Tobias around too. Thus, he decided to let Severin off for now.

1/2 +15 BONUS 'I'll kill you once I got the herb! You better watch your back!' Uzair thought and stopped emitting his aura to put pressure on Severin.

Finally, the intense situation came to an end. If Uzair insisted on a fight to the death, Severin had prepared to use the Scarletsky Sword to kill Uzair. After seeing Uzair refuse to engage in a fight, he stopped inputting his spiritual energy into the shield. It was just nice because he did not think it was the right time for him to reveal his true strength.

Sian who was hovering in the mid-air saw Uzair and Severin calling a temporary truce. 'What a pity,' he thought.

Undoubtedly, he and Tobias would be happy to see Uzair and Severin fight to the death.

The four major sects of the Southsky, his family, and Tobias' family had all sent their finest disciples over to enter the Wildfire. The Grandiuno Sect had sent three core disciples here.

Life After Prison Chapter 2038-It had put immense pressure on the other forces.

Sian gradually landed on the ground while realizing it was time for him to stop wondering. He looked at Severin and cupped his hand. "Severin Feuillet, is it? The first sixth core disciple of the Grandiuno Sect.

Nice to meet you. Your reputation precedes you." Tobias followed. "I agree. How powerful you are to be able to withstand the attack from a level eight supreme saint when you are only a level seven supreme saint. No wonder you are also called a prodigy of your sect." Uzair who was not far from them heard it loud and clear. He snorted and looked even more terrible..

The fact that what Sian and Tobias said made Uzair look bad only gave pleasure to Severin. He replied calmly, feeling delighted, "Thank you for the compliment. But I think there is so much I need to learn. At least, I don't think I'm strong enough to use my power to oppress other people." After listening to that, Uzair's expression looked distraught and devastated. If he did not need to save up his spiritual energy to fight for the treasure, he really wished to use his spiritual treasure to show everyone who was the real prodigy here!

Sian and Tobias saw the look on Uzair's face and nodded at Severin with a smile. However, they did not say anything further and found a place to sit down. In the meantime, they took the chance to inform the rest of their members so they could get here as fast as possible.

After that, Severin went to look for Radyn and checked out the others. "How is it? How are the injuries?" Radyn had taken the healing pill Severin had given just now. He breathed out and said, "Thank you for your help. The bleeding has stopped. But I think it's going to take a couple of days to fully recover."

Severin nodded after hearing that. Radyn was just a level six complete-stage supreme saint. Surely, he was not able to defeat Uzair because Uzair's attainment was two levels higher.

Luckily, he only suffered injuries and his life was not in danger.

Once he had inspected everyone, he went to where Diane and the other girls were and sat down to recuperate the spiritual energy he had used just now. In the meantime, he expanded his divine sense outward and shrouded the forbidden area.

After the impact of the battle, he estimated it would not take too long before the restraints of the forbidden area collapsed. Thus, showing all the hidden treasures and herbs in that area. As he expected, the formation of the forbidden area started to shake violently. What followed next was an opening appearing on the formation. The opening got bigger and bigger until the entire formation collapsed and 1/2 \*

+15 BONUS All the cultivators saw it, their eyes immediately flashed with greed. Everyone knew the restraint had broken. The mountain was full of mature herbs in a big piece of land giving out aromatic medicinal fragrance. Tobias saw it and was the first one to fly over there. Sian and his fellow members followed as they did not want to be the last to arrive. In fact, everyone started to make their way over when the formation collapsed.

Severin did not hesitate as well. He chose a direction and led the others to hunt for treasure with him. At the foothill of the mountain, he discovered many fourth-grade and fifth-grade spiritual herbs. The aroma was thicker than usual because the level of spiritual energy was higher which made the spiritual herbs have stronger medicinal effects than the others outside of the formation.

Many rogue cultivators had harvested many spiritual herbs. However, those were not the spiritual herbs Severin after. As he entered the mountain, he went straight for the top. There was a treasure that had the equivalent of an eighth-grade spiritual herb. That was the thing he, Uzair, Sian, and Tobias were after.

Life After Prison Chapter 2039-Uzair, Sian, and Tobias reached the middle of the mountain together. Suddenly, a green-colored mist appeared around them. It gave them a feeling that they were facing a mountain because of the enormous power it was exuding to stop them from going forward. It was so terrible that it made them feel like the spiritual energy in them became stagnant.

Originally, they were flying in mid-air. Once they entered the mist, they started falling down like a bird with broken wings.

The surging pressure emanated from the green-colored mist suppressed them so badly that they had to hike to the top on foot.

Severin who was one step slower than them had also reached where the green-colored mist was. Immediately, he sensed something was off.

“There’s something odd about this green-colored mist!” He entered into the mist with his tensed-up body and became alert. The green-colored mist did not block the divine sense but it affected a person’s body by making the person feel like his body weighed as heavy as a mountain. Any movement became incredibly hard while he was in the mist.

The closer they got to the top, the pressure became stronger. Even when Severin was now a complete-stage level seven supreme saint, he had to give up flying and hiking on foot. This mountain was merely a few hundred feet at its tallest. Normally, it would just take one breath for a royal saint to fly to the peak so it was just a piece of cake for a supreme saint.

However, Severin and the others felt there was an invisible power crushing down their body when they

were in the mist.

Seeing it, Severin’s expression changed slightly. ‘It looks like the restriction in this place has not completely dissipated yet,’ he thought.

Luckily, he was not the only one affected by the mist. Uzair and the others were facing the same situation as him. Even when they were the first ones to enter the mist, they were just about ten feet further ahead than him.

At this point, Uzair and the others also realized something was odd because their bodies were getting heavier for them to move forward. Uzair looked at

the shimmering sparkle and rich fragrance at the top of the mountain and his expression became gloomier. He looked back at Tobias who was behind him and Severin who was further away. Gritting his teeth, he was determined to be the one to obtain the treasure!

Otherwise, it would be pointless for him to chase away the Grandiuno Sect's disciples and make Severin his enemy just now.

1/2 +15 BONUS He shouted fiercely with thunderbolts appearing around him. All of a sudden, a silver armor appeared and covered his body. With the help and shelter of the lightning armor, he felt the pressure on his body become smaller.

Although he was unable to fly, he was able to walk a little faster than before.

Within a few breaths, he advanced about ten feet further than where he was before.

Seeing how Uzair was getting closer to the top, Tobias and Sian exchanged looks with each other and also exerted their full strength.

At that instant, two auras of level eight supreme saint sprung out like a tornado, blew up the sand and dust on the mountain, and stirred up a thick fog into the sky.

In the thick fog, Tobias' body was full of power and incomparably hot. After that, he felt the pressure from the forbidden area became lesser. Without wasting any time, he shortened the gap between him and Uzair. In the end, he was just two to three feet away from Uzair.

On the other hand, Sian raised his hand and waved into the air. By using his spiritual energy, he formed a green-colored protective shield in front of his body.

Life After Prison Chapter 2040-With the help of the protective shield, the mist around him was dispersed away.

He advanced normally to the top because the mist was unable to affect his movement anymore.

Seeing how Tobias and the others used their divine techniques to pass through the mist, Severin was unwilling to be left out too. He unleashed his spiritual energy. The aura was so strong that it rose to the sky and the swordwill in his body started humming.

The swordwill was so strong that it could disperse the mist away from Severin and prevented Severin from being affected by the mist. Without the obstruction from the mist, Severin could barely offset the invisible oppression.

Yet, he continued to take one step at a time toward the top of the mountain while feeling he was carrying a huge mountain on his shoulder.

With every step they took, the ground rumbled and shook crazily as if there was an earthquake. All of them understood that the closer they were to the top of the mountain, the higher the pressure they needed to endure.

When Uzair was nearly a hundred feet away from the top of the mountain, he started sweating heavily as seen from his sweaty forehead. He panted heavily while he started hunching because of the invisible pressure. After taking a step forward, he would need to rest for a short while since it was getting harder and harder.

He looked up at the top. It was probably less than one hundred feet away. Yet, his expression became sullen. "This pressure is so horrible. I feel like I'm facing a royal paragon." At that moment, he could understand why the royal paragon could be called the strongest and mighty person. Just like the royal paragon, Wildfire. Even though he had passed away many years ago, the formation he activated was still active now.

The green-colored mist contained some special type of power of heaven and earth. People who tried to reach the top would feel like they were carrying the entire world on their shoulders.

Even so, Uzair did not give up easily. With much difficulty, he raised his hand to wipe away the sweat on his forehead and continued to climb up the mountain with rosy cheeks.

On the other side, Tobias and Sian experienced the same thing too.

The pressure from the mist was so great that they were having a hard time breathing. If they were not level eight supreme saint and prodigies from great families with strong power, it would be impossible for them to reach this far.

1/2 +15 BONUS Seeing how the gap between them and Uzair was getting smaller, they gritted their teeth and continued to advance with difficulty.

Severin who was not far behind from them started to face the enormous pressure. The weight on his shoulder constantly increased. It took him a massive amount of spiritual energy to take a step forward.

The sword will in his body hummed louder and louder. He had turned into a sheathed blade with the sword will broke through the air and cut the surrounding space with sharp auras.

“Be gone!” Accompanied by the loud shouting, the sword energy from his body spread out and dispersed the mist near him.

Subsequently, he activated The Chaotic Constitution. The temperature of his body rose like a hot oven and created supreme greatness. Although the pressure on him did not completely disappear, he was able to move forward slowly because his physical strength resembled a true dragon.

In just a short while, he overtook Uzair and became the first in line and the fastest to reach the top. By that time, it was ten feet left to the top.

At that point, he could vaguely see a white lotus the size of a baby on the top of the mountain flickering with a strange light. He smelled the rich fragrance. Just by smelling the fragrance, he became energetic.

Looking at the treasure in front of him, he quickly searched through and recognized the treasure since he had read many books regarding alchemy.

“That’s that’s the legendary Fire Phoenix Snow Lotus!” he exclaimed.
